LEGAL NOTICE

Notice is hereby given that pursuant to its existing Annual Review Mechanism, Chattanooga Gas Company (the Company) filed a petition with the Tennessee Public Utility Commission (TPUC) on April 20, 2021, in Docket 21-00048, proposing to change its rates for natural gas service now in effect. Any rate changes are subject to the approval of the TPUC. The TPUC may adopt, reject, increase or decrease any of the rate changes in part or in whole. A complete copy of the Company's recommended rates based upon a voluntary four-year \$6.8 million cap on the annual base rate increases along with the proposed rate changes that would otherwise apply without the voluntary \$6.8 million cap are available for public inspection. A complete copy is also available in the Company's local office. The Company's filing is made in accordance with the procedures for its Annual Review Mechanism approved by the TPUC. With the voluntary four-year cap on the annual base rates increase, as requested by the Company, the average residential customer would see a rate increase of approximately \$4.17 per month. With the Company's proposed rates, the impact on the average small commercial and industrial general service customer is approximately \$8.91 per month. The new rates are proposed to be effective September 1, 2021. This matter is currently scheduled for hearing on August 9, 2021, at 9:00 a.m. central time at the TPUC Hearing Room on the ground floor of the Andrew Jackson State Office Building, 500 Deadrick Street, Nashville, Tennessee. Public Notice of the final date, time, and manner of the hearing will be posted on the TPUC webpage on or about July 30, 2021. The Company's current rates, recommended rates with the voluntary four-year cap on the annual increase in base rate, and proposed rates without the annual cap are as follows and do not include gas cost that is recovered through the Purchase Gas Adjustment.

This notice is made pursuant to TPUC Rule 1220-4-1-.05.

LEGAL NOTICE

Notice is hereby given that pursuant to its existing Annual Review Mechanism, Chattanooga Gas Company (the Company) filed a petition with the Tennessee Public Utility Commission (TPUC) on April 20, 2021, in Docket 21-00048, proposing to change its rates for natural gas service now in effect. Any rate changes are subject to the approval of the TPUC. The TPUC may adopt, reject, increase or decrease any of the rate changes in part or in whole. A complete copy of the Company's recommended rates based upon a voluntary four-year cap on the annual base rate increases along with the proposed rate changes that would otherwise apply without the voluntary \$6.8 million cap are available for public inspection. A complete copy is also available in the Company's local office. The Company's filing is made in accordance with the procedures for its Annual Review Mechanism approved by the TPUC. With the voluntary four-year cap on the annual base rates increase, as requested by the Company, the average residential customer would see a rate increase of approximately \$4.17 per month. With the Company's proposed rates, the impact on the average small commercial and industrial general service customer is approximately \$8.91 per month. The new rates are proposed to be effective September 1, 2021. This matter is currently scheduled for hearing on August 9, 2021, at 9:00 a.m. central time at the TPUC Hearing Room on the ground floor of the Andrew Jackson State Office Building, 500 Deadrick Street, Nashville, Tennessee. Public Notice of the final date, time, and manner of the hearing will be posted on the TPUC webpage on or about July 30, 2021. The Company's current rates, recommended rates with the voluntary four-year cap on the annual increase in base rate, and proposed rates without the annual cap are as follows and do not include gas cost that is recovered through the Purchase Gas Adjustment.

This notice is made pursuant to TPUC Rule 1220-4-1-.05.
