Nashville, TN 37243

Re: Docket No. 21-00094
*Joint Request of Chattanooga Gas Company and Kordsa, Inc. for
Approval of Special Contract*

Dear Chairman Hill:

Please be advised that undersigned counsel is authorized to report that CGC joins in the request to conditionally approve the Kordsa special contract at the Commission Conference scheduled for December 6, 2021, subject to a final decision and, if necessary, true up. CGC believes it is in the public interest to retain Kordsa as a customer pursuant to the terms of the special contract. Once the bypass facility is constructed, Kordsa's contributions to common overhead will be lost, and it appears to CGC that Kordsa is willing, able, and ready to commence immediate construction of its bypass absent conditional approval of the special contract

Yours truly,

Butler Snow LLP
