Tennessee Public Utilities Commission

Reference: Docket No. 21-00094 – Kordsa Special Contract

The Chattanooga Regional Manufacturers Association (CRMA) is writing this letter to urge the TPUC to approve the Special Contract that was filed by Chattanooga Gas Company to provide Kordsa Inc. a special contract gas rate that would avoid the consequences Chattanooga Gas Company losing Kordsa Inc. as a customer.

The CRMA urges the TPSC to consider that Kordsa Inc. is uniquely positioned in close proximity to the interstate gas pipeline and is a legitimate bypass threat.

If Kordsa Inc. builds this pipeline and bypasses Chattanooga Gas Company, this will result in higher rates for CRMA members.

By approving of the Special Contract, Kordsa continues to make a significant revenue contribution towards Chattanooga Gas Company's base rates benefitting all customers including residential and commercial customers.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. King", is written over the printed name.

Megan King
President & CEO

Chattanooga Regional Manufacturers Association
