a. See CA 1-149 Attachment 1 for the support regarding the values shown on "WP for OM 15-16 PG 2 of 3" which comes from the Company's general ledger.

b. Labor cost is distributed to FERC accounts based on the function each employee provides. The number of employees per FERC account is not identifiable from the Company's books and records and therefore, the requested information is not available.

c. See CA 1-149 Attachment 2 for the support regarding the hard-coded values shown on "WP for OM 15-16 PG 3 of 3" which comes from the Company's Human Resource System.
d. The "SAL_ADMIN_PLAN" field is used within the HR System to identify the salary plan each employee is assigned. SP20 is used for Kingsport salaried employees, OM-16 included a merit increase of 3% in 2021 and a 3% increase budgeted for 2022. U043 are Kingsport union represented employees, OM-16 included a general wage increase of 2.5% in 2021 and a 2.5% increase budgeted for 2022.

g. Line 1: The support for the number of employees earning more than the 2020 Social Security limit in line 1 can be found in CA 1-149 Attachment 4, tab "OM-29, Line No. 5."
Lines 2 and 3 reflect the known increase in the FICA base wage limitations from $137,700 in 2020 to $142,800 in 2021 as reported by the U.S. Social Security Administration.

Response CA 1-149 cont'd:

Line 8: To derive an O&M percent reflective of the test year, the process used to create a FERC Form 1 page 354 and 355 was applied to the test year information as shown in CA 1-149 Attachment 5. The O&M percentage of 38.80% used in line 8 was calculated by taking the $2,155,270 "TOTAL All Utility Dept." (Line 65) column (d) and dividing by $5,554,263 "TOTAL SALARIES AND WAGES" (Line 96) column (d).
