TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-150:

Refer to testimony of Company witness Allen. Specifically, refer to . Provide the Company's reasoning for including $92,288.01 in federal income tax expense associated with account 42650009 (Factored Cust A/R Exp – Affil) and account 4265010 (Fact Cust A/R-Bad Debts-Affil).

Response CA 1-150:

The $92,288 in federal income tax expense is related to factoring expense that KgPCo included in the cost of service. See the Company's response to CA 1-151.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-151:

Refer to included with the testimony of Company witness Karen M. Johnston. Specifically, refer to tab "1-b JRsSmry" line 15 'Other O&M' in the amount of $439,467. Respond to the following questions regarding these expenses: a. Confirm that 'Other O&M' is comprised solely of accounts 42650009 (Factored Cust A/R Exp – Affil) and account 4265010 (Fact Cust A/R-Bad Debt-Affl). b. Provide the regulatory rationale for recovering factoring expense in the revenue requirement. Include in this response the justification for recovery of such costs when the Company has not performed a lead lag study to reflect the benefits of factoring expense on the company's cash flow impact on rate base. c. Provide an estimate of the revenue lag of the Company inclusive of the impact of factoring. d. Identify the entity involved in the factoring transaction and provide all documentation supporting the $439,467 in costs. e. Provide the date(s) when the Company began recording these expenses. f. Provide internal Company approval of use regarding this accounting methodology. g. Confirm that the factoring expense is not deductible for tax purposes and if so, explain why such costs are not deductible for tax purposes. h. If factoring expense is not deductible, provide the justification for the recovery of taxes from ratepayers for this non-deductible cost as well as providing the underlying calculation supporting the $92,288 increase in income tax expense.

Response CA 1-151:

a. Confirmed.
b. The factoring of receivables program allows the AEP Operating Companies, including KgPCo, to reduce their working capital needs by accelerating the receipt of cash flows from the collection of customer accounts receivable, and thereby reducing the dependence of the Operating Companies upon more costly sources of capital. AEP Credit, as a special purpose financing entity, can borrow money more cheaply than the Operating Companies can individually. Through the use of AEP Credit, the Operating Companies also are able to consolidate their accounts receivable into a larger pool and eliminate duplicate administrative costs in administering the program. A lead lag study is not necessary to establish the appropriateness of KgPCo's factoring of its receivables since the Company is paying a reasonable short-term interest rate and an experience-based bad debt component, which is a cost it would incur with or without factoring.
c. The estimated revenue lag of the Company inclusive of the impact of factoring is 1.5 days.
d. The entity involved in the factoring transaction is AEP Credit, Inc. Refer to CA 1-151 Attachment 1 for general ledger detail supporting the $439,467 in costs.

Response CA 1-151 cont'd:

e. The Company began recording factoring expense on its books in January 2002.
f. KgPCo has recorded factoring expenses on its books for the past 20 years to Account 42650009 (Factored Cust A/R Exp – Affil) for carrying costs and certain other costs associated with AEP Credit's purchase of the Company's customer accounts receivable balances and Account 4265010 (Fact Cust A/R-Bad Debt-Affl) for bad debt expense associated with the Company's accounts receivable factored by AEP Credit related to non-payments from KgPCo's customers. Under this sale of receivables program, KgPCo sells, without recourse, certain of its customer accounts receivable and accrued unbilled revenue balances to AEP Credit and is charged a fee based on AEP Credit's financing costs, administrative costs and collection experience for KgPCo' s receivables. KgPCo acts as AEP Credit's agent, managing and servicing the customer accounts receivable, which have been sold to AEP Credit. Based on the sale of receivables arrangement with AEP Credit, KgPCo' s expense related to its most recent 12-month accounts receivable collection experience is calculated monthly and recorded to Account 4265010 in two components, uncollectible expense/bad debt expense and agency fees. Since accounts receivable collection experience expense is calculated based upon the previous 12-months historical charge offs to receivables purchased, the bad debt expense incurred by KgPCo is directly related to its historical charge offs.
g. Denied. Factoring expense is deductible for tax purposes.
h. See response to CA 1-151, part g.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-152:

Refer to included with the testimony of Company witness Johnston. Specifically, refer to tab "1-b JRsSmry" line 20 'Other Income / Expense (incl. AFUDC) in the amount of $229,855. Respond to the following questions regarding these expenses: a. Confirm that this amount includes $1,582 in accretion expense. b. Provide the regulatory rationale for recovering accretion expense in the revenue requirement. c. Provide documentation regarding the long-term liability / asset retirement obligation this expense is related to; including, but not limited to, any change in the in the value of the obligation. d. Identify the entity involved in the long-term liability / asset retirement obligation. e. Confirm that the accretion expense is not deductible for tax purposes and if so, explain why such costs are not deductible for tax purposes.

Response CA 1-152:

a. Not confirmed. The $229,855 of other income/expense in the jurisdictional cost of service includes $1,382 of accretion expense.
b. ASC 410, Asset Retirement and Environmental Obligations, requires that the fair value of a liability for a legal asset retirement obligation (legal ARO) associated with the retirement of a long-lived asset be recognized in the period in which it is incurred. Upon initial recognition of a liability for an ARO, the entity capitalizes an asset retirement cost (ARO asset) in the same amount as the ARO liability. This ARO asset is allocated to expense over the useful life of the underlying long-lived asset. The present value of the ARO liability increases due to the passage of time and this change is recognized by increasing the carrying amount of the ARO liability and by recording an equal amount of "accretion" expense on the income statement. In May 2019, the Company recorded an ARO liability and asset related to asbestos removal at the Kingsport Service Center in accordance with ASC 410. In June 2019, KgPCo began recording monthly accretion expense on its income statement in Account 4111005. The Company anticipates recording accretion expense related to this ARO liability until the end of the depreciable life of the ARO asset in 2034. It is appropriate to recover accretion expense from KgPCo's customers since this required expense under Generally Accepted Accounting Principles is related to a facility that has served customers for many years.
c. Refer to CA 1-152 Attachment 1 for documentation supporting the long-term liability/asset retirement obligation.
d. Kingsport Power Company is the entity involved in the long-term liability/asset retirement obligation.
e. Accretion expense is not deductible for tax purposes. It is deductible when the ARO liability is paid.

ASSET RETIREMENT OBLIGATION (ARO) ESTIMATE FORM

* This form shall be used to estimate capital expenditures as they relate to asbestos removal for Generating Plants and Office Buildings or Ash Pond and Landfill closure costs.
* All 3 Sections must be completed before submitting the form to Property Accounting.
* Please send completed forms via e-mail to: Tom Sulhan and Britta Adam.
* All information below should be typed - Note that shaded cells will automatically calculate once data is entered
* Please prepare a separate estimate form for each ARO (e.g. one per unit).

SECTION 1: General Information (all fields required)

Business Unit Number: 230 ✓ KGP-D

Location (Building, Generating Plant/Unit No, Ash Pond or Landfill): Kingsport Service Center 420 Riverport road Kingspor ✓

Is this ARO Estimate New or a Revision to an Existing ARO?: New ✓

Estimate Prepared By: Eddie Shepherd **Date:** 05/14/2019 **Audinet:** 300-2380

Estimate Approved By: Jerry Waller **Date:** 05/20/2019 **Audinet:** 300-2670 ✓

SECTION 2: ARO Estimate Detail

Please itemize charges and indicate the Unit of Measure (e.g. cubic yard = cy), Quantity and Unit Cost. Also choose the basis for the quantities and unit costs from the drop-down lists. Supporting documentation shall be retained by the person who prepared this form as support for future audit requests.

#	Line Item Description	Unit of Measure	Quantity (#)	Basis of Quantity	Unit Cost ($)	Basis of Unit Cost	Total Cost (Qty x Unit Cost)
01	Removal / abatement of duct work	Ft	200.00	Internal Study	$21.25	Internal Estimate	$4,250.00 ✓
02	Abatement floor tile	SqFt	12,500.00	Internal Study	$3.00	Internal Estimate	$37,500.00 ✓
03							$0.00
04							$0.00
05							$0.00
06							$0.00

08							$0.00
09							$0.00
10							$0.00
						TOTAL ARO ESTIMATE	$41,750.00 ✓

SECTION 3: Estimated ARO Costs by Period

For each time period, indicate approximately what percentage (%) of the ARO work is expected to be complete. The total costs from Section 2 will automatically be allocated based on the %'s provided.

Inflation Rate : 2.25% ✓
Discount Rate: 4.49% ✓

Estimated ARO spend will occur in the next...	% Work Complete (must total 100%)	Total Cost by Period
0 to 5 Years	10.0%	$4,175.00 ✓
5 to 10 Years	40.0%	$16,700.00 ✓
10 to 20 Years	50.0%	$20,875.00 ✓
20 + Years	0.0%	$0.00
TOTALS	100.0%	$41,750.00 ✓

EOL: 6/2034 ✓

Briefly explain the rationale for the timing of the work, such as planned outages or special removal projects that are known.

The duct work will be compted first with the HVAC upgrade. The floor tile will be completed as needed moving forward based on remodeling and carpet replacement projects for this facility.
