IN RE:

DOCKET NO.: 21-00107

PETITION OF KINGSPORT POWER COMPANY d/b/a AEP APPALACHIAN POWER GENERAL RATE CASE

THIRD PARTIAL AND CONFIDENTIAL RESPONSES OF KINGSPORT POWER COMPANY TO FIRST DISCOVERY REQUEST OF THE CONSUMER PROTECTION AND ADVOCATE DIVISION

Comes Petitioner, Kingsport Power Company d/b/a AEP Appalachian Power ("Company" or "KgPCo") and hereby submits is third and final partial response to the First Discovery Request of the Consumer Protection and Advocate Division ("CAD") as to certain of the multiple-part discovery requests which have been served on KgPCo. KgPCo is providing partial responses as they become available in part because there were many more requests contained in CAD's First Set of Discovery Requests than were anticipated when the parties agreed to the deadline in the Procedural Schedule, and in part because KgPCo is in the process of preparing responses to the CAD's additional supplemental discovery requests that were first received on January 11, 2022. It is anticipated that KgPCo will be able to respond to the remainder of said Requests on or before February 4, 2022.

The following portions of the CAD's First Request are being responded to: 1, 7, 12, 51, 52, 53, 56, 57, 58, 59, 66, 75, 76, 77, 96, 101, 102, 103, 111, 115, 116, 117, 118, 129, 137, 139, 144, and 147 through 152; subject to general objections set forth herein below or any objections to individual requests as contained in said responses.

GENERAL STATEMENTS AND OBJECTIONS

The responses set forth herein constitute the best information presently available to KgPCo. The answers set forth herein are provided without prejudice to KgPCo's right to timely amend, supplement, or change said answers if and when additional, different, or more accurate information becomes available, including the review of documents produced by intervenors. Moreover, said responses are subject to correction for inadvertent errors or omissions, if any such errors or omissions are later found to exist.

By responding to CAD's discovery requests, KgPCo does not waive any objections that may be appropriate to the use, for any purpose, by any party, of any of the information contained in the responses set forth herein or to the admissibility, relevancy, or materiality of such information as to any issue in this case.

The following General Objections apply to each of KgPCo's responses. Specific objections provided in response to any request are made without waiver of or prejudice to any General Objection.

1. KgPCo objects to CAD's requests to the extent they seek to impose on KgPCo any obligations or responsibilities beyond those required by TPUC's Rules & Regulations, the Tennessee Rules of Civil Procedure, and/or the controlling Procedural Scheduled entered in this matter.

2. KgPCo objects to CAD's requests to the extent they seek information protected by the attorney-client privilege, the work product doctrine, and/or any other applicable privilege or immunity (collectively referred to as "privileged" documents or information). Nothing contained in these responses is intended to be, or in any way constitutes, a waiver of any such applicable privilege or immunity.

3. An objection to a request based on privilege should not be construed as a representation that responsive information or documents exists or existed and is being withheld based upon the asserted privilege. Such an objection indicates only that the request is of such a scope as to potentially embrace privileged information or documents.

4. To the extent KgPCo responds to a discovery request to which it has objected, KgPCo reserves the right to maintain such objection with respect to any additional information responsive to such discovery request and such objections are not waived by the furnishing of such additional information.

5. KgPCo objects to CAD's requests to the extent they seek information that is neither relevant to the issues in the case nor proportional to the needs of the case. KgPCo also objects to CAD's requests to the extent they are overly broad.

6. KgPCo objects to CAD's requests that contain terms or phrases that are vague, ambiguous, and undefined; call for speculation, conjecture or opinion; or are based on the assumption of facts not in evidence. Likewise, KgPCo's response to any particular interrogatory in no way constitutes acquiescence or agreement to any definition, characterization, or meaning proposed by CAD.

7. All responses and any production of documents by KgPCo in response to CAD's requests are made based on KgPCo's current knowledge and without waiver of any general or specific objections. KgPCo reserves the right to revise, modify, supplement and/or amend its responses, for form or substance.

Subject to said GENERAL OBJECTIONS and any specific objections made to individual requests as contained in these or upcoming responses, KgPCo responds to the portions of the First Discovery Request as follows.

CA Set 1
To Kingsport Power Company

Data Request CA 1-012:

Refer to the spreadsheet included with the Company's filing. Specifically refer to the "Capital" tab that provides the historic and forecasted plant additions. Provide the following information related to this spreadsheet: a. Provide the source and support for the historic plant additions from 2016 through June 30, 2021, by plant account; b. Provide the Company's rationale for increasing the January-June 2021 plant additions by 100% to compute the July-December 2021 plant addition estimate; c. Provide the source and support for the 2022 total plant addition forecast of $19,351,773 shown in Cell K16 of this spreadsheet; and d. Provide the source and support for the "Total Amount Recovered Through Riders" shown on Row 18 of this spreadsheet.

Response CA 1-012:

a.) The source and support for the Distribution Plant additions comes directly from the Company's property records. Please see CA 1-012 Attachment 1 for the requested support.
b.) Due to the COVID-19 pandemic restrictions, the Company was forced to pause many projects, which were subsequently resumed when the COVID-19 pandemic restrictions somewhat lifted. As a result, the Company's spending level for the Jan-June 2021 period was atypical as seen in previous non-pandemic years. As the impact of the pandemic restrictions lessened, spending levels were projected to increase.
c.) The referenced $19,351,773 came from the Company's Forecasting System. Please see CA 1-012 Attachment 2 for the requested support by Project ID.
d.) Years 2016-2020 are actual amounts. Years 2021-2022 are forecasted amounts based on average of actuals. The Excel spreadsheet includes the formulas (cells: H17, J17, K17) used to calculate the forecasted amounts for 2021-2022.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-051:

Refer to the tariff summary provided in response to MFR 13. Specifically refer to the information provided for RS and RS-E Load Management Water Heating kWh in which the Company's tariff provides for a reduced rate for usage above 250 kWh per month. Provide a breakdown of the RS and RS-E Load Management Water Heating monthly kWh usage split between the first 250 kWh of usage per month and usage over 250 kWh per month from December 2015 through June 2021 in the same format as the Company's Response to Consumer Advocate DR No. 2-3 in TRA Docket No. 16-00001.

Response CA 1-051:

Please see CA 1-51 Attachment 1 for the requested information. This attachment supplements MFR12 with data from December 2015 onward. Additionally the information requested in questions 1-51, 1-52, 1-53, 1-56, 1-57, 1-58, 1-59 is included on tab "Metered kWh" rows 47 through 133. This information is not stored or archived in an accessible format. Rather, the information was obtained using billed revenue and rates by equation code.

Data Request CA 1-075:

Refer to testimony of Company witness A. A010652 on page 7, in which he indicates the Company incurred $3,826,141 of TRP&MS for the test year ended June 30, 2021, and that this balance should represent the new benchmark for determining the TRP&MS surcharge. Concerning this statement, provide the following: a. Provide a reconciliation of this amount with the corresponding appropriate trial balance accounts contained in MFR 7. b. Does the proposed benchmarked amount include a portion of the annualized wage increases outlined in and ? i. If not, provide a comprehensive discussion supporting the rationale for not increasing the benchmark for a portion of the Pro-forma labor increases. ii. If so, provide the support for the amount of adjustments in OM-15 and OM-16, which are incorporated into the proposed benchmark amount.

Response CA 1-075:

a. The $3,826,141 of TRP O&M expenses described in Company witness Allen's testimony are not identifiable from the trial balances provided in MFR 7 since these expenses were charged to various non-TRP specific O&M accounts. The Company identifies and tracks TRP O&M expenses by project and not by account. Details of and support for TRP O&M expenses incurred during the test year were provided by the Company in Docket Nos. 20-00127 and 21-00142, which are the prior and current TRP&MS filings, respectively. Specifically, see KgPCo Exhibit No. 1 (AWA) in Docket Nos. 20-00127 and 21-00142, which summarizes TRP O&M expenses by month for the review periods, Note that the $3,826,141 described on page 7 of Company witness Allen's testimony should be revised slightly to $3,825,493 to agree with KgPCo Exhibit No. 1 (AWA) in Docket Nos. 20-00127 and 21-00142.
b. The $3,825,493 revised total of TRP O&M expenses incurred during the test year contains $270,319 of base payroll that is included in the $1,447,277 of test year base payroll charged to O&M accounts. The $1,447,277 of test year base payrol is adjusted in OM-15 to an annualized end of test year level. Since the Company is requesting to recover the test year level of TRP O&M expenses in base rates, it would not be appropriate to increase the benchmark level of TRP O&M expenses for a portion of the annualized wage increases. Adjustments OM-15 and OM-16 are forward looking adjustments that reflect known and expected increases in base payroll levels into the attrition period. The $270,319 of base payroll contained in the test year TRP O&M expenses is a historical amount that may not be representative of the components of future work on the TRP projects. Upon the implementation of new base rates that include the $3,825,493 of TRP O&M expenses, subsequently incurred TRP O&M expenses that exceed this annual level will be recovered through the TRP&MS rider while such expenses incurred below this level will be refunded through the TRP&MS rider irrespective of the type of expenses incurred.

Data Request CA 1-076:

Refer to <Adjustment OM-24>. Concerning this adjustment, provide the following information: a. Provide the GL support detail for the balance of deferred COVID-19 costs recorded in Account 1823587. b. Provide internal accounting guidance relied upon by the Company to make recordings to account 1823587. c. Were savings associated with reduced employee travel used to offset O&M deferrals? If not, provide the rationale for not offsetting such deferred costs by the amount of travel savings. If such savings were used to offset deferred COVID-19 costs, provide the amount and support for such savings to explain how such amounts were determined.

Response CA 1-076:

a. Refer to CA 1-76 Attachment 1 for the GL support detail for the balance of deferred COVID-19 costs recorded in account 1823587.
b. On September 16, 2020, the TPUC issued an order on Docket No. 20-00047 on COVID related issues, specifically regarding the resumption of disconnection of customers for lack of payment and utilities' recoverability of incremental costs related to COVID. As described on pages 11 and 12 of the order, "All issues related to the utilities' potential recovery of costs related to the COVID-19 public health emergency may be considered in future, individual docketed proceedings." Based on the Commission's guidance, Company management concluded that incremental costs related to COVID-19 were probable of recovery in accordance with ASC 980, Regulated Operations, and therefore, such costs should be deferred for future recovery. KGPCo's deferred incremental COVID costs in Account 1823587 include waived credit card fees for customer payments during the period disconnections were prohibited. Other deferred incremental COVID-related costs consist of outside services, AEPSC billings, materials and supplies, and employee expenses for personal protective gear and equipment, implementing social distancing requirements, facilitating working remotely, cleaning and disinfecting supplies and services and printed COVID-19 safety materials.
c. No savings related to employee travel costs have been identified.

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-077:

Regarding the Company's pension proposals, does Kingsport have a stand-alone pension plan with pension funding that is ringfenced from other AEP pension plans? If not, provide a comprehensive explanation and underlying analytical support documenting how the Company has identified the balance of Kingsport's pension funding.

Response CA 1-077:

Kingsport is a participant in the AEP Pension plan that covers all AEP employees and subsidiaries. The pension plan assets and obligations are determined by AEP's actuarial service, Willis Towers Watson, using the demographic files for AEP employees and retirees. See CA1-077 Attachment 1 for the 12/31/2020 remeasurement of the Pension plan for KgPCo employees and retirees by Willis Towers Watson.

To Kingsport Power Company

Data Request CA 1-096:

Refer to and provide the following: a. Provide information in Attachment 1 for the twelve-month period ending June 30, 2021. b. Confirm that costs recorded to Department 12916R AEP Transmission are not included in the present revenue requirement request. c. For the test period, provide account distributions as reflected on Kingsport's books for costs from the following level 3 departments: i. 12034R SC Procurement and Fleet operation; iii. 10683R Real Estate and Workplace Services; and iv. 99900 AEP Billings.

Response CA 1-096:

a. Please see CA 1-096 Attachment 1 for requested information.
b. Please see CA 1-096 Attachment 2 for AEPSC billings from roll-up department 12916R to Kingsport by FERC account. Note that the name of Department 12916R was changed in 2021 to Energy Delivery from AEP Transmission to reflect that the department supports both the transmission and distribution functions.
c. Please see CA 1-096 Attachment 3 for requested information.

Data Request CA 1-101:

Refer to and the workpaper supporting O&M Adjustment 19. The non-capitalized portion of employee benefits identified within MFR 24 approximates 41.3%, while the corresponding O&M percentage identified within is 44.95%. Please respond to the following: a. Is the difference between these two percentages represented by the portion of non-capitalized costs charged to accounts other than O&M? b. What is the rationale for using differing percentages applied to Pension Expense contrasted with other non-pension employee benefits?

Response CA 1-101:

a. No, the primary difference between these two percentages is they are actual test year O&M expense and non-capitalized percentages for two different types of costs; one for pension costs and the other for group insurance costs.
b. Different percentages are appropriate since they are specific to the different types of costs as explained in part a. In all of the group insurance and pension adjustments, the O&M percentage used to calculate the test period O&M and the expected level of O&M are the same.

Please provide a listing of the total compensation of each officer of AEP, Service Company, Appalachian Power Company, Kingsport, and each affiliate that charges or allocates compensation cost to Kingsport. Provide this information for each year; 2019, 2020, and 2021. For each item of officer compensation, for each year, show the total amount, the amount charged or allocated to Kingsport, and indicate the separate amount charged to O&M expense and capitalized, and breakdown the total compensation by type including, but not limited to, salary, deferred compensation, stock options, vehicle allowances, personal use of corporate aircraft, and any other type of compensation.

Response CA 1-115:

This response contains confidential information and is being provided pursuant to the Protective Order dated September 17, 2021 in this docket.

For the requested listing of officer and directors compensation, please see attachment CA 1-115 Confidential Attachment 1 for the computed share allocated to Kingsport and in total for 2019, 2020 and 2021. Our accounting systems do not track all categories of compensation by specific employee. Provide a detailed description of each Company and Service Company employee benefit program or plan and identify the cost for each employee benefit program in the test year, and, if different, in the Company's requested cost-of-service, by account.

Response CA 1-116:

See below for descriptions of the Company's employee benefit programs and plans.
Pension Plan Kingsport Power Company employees participate in the American Electric Power System Retirement Plan, which is a qualified defined contribution pension plan. Plan assets are held in a trust at Bank of New York Mellon. This plan is open to all AEP employees and retirees who complete 1 year of service with AEP. Plan benefits generally accrue under a cash balance formula, although certain long-time participants were grandfathered into certain benefit formulas. All eligible employees become fully vested once credited with at least three years of service. Payment of vested benefits is available as an annuity or lump sum or for rollover to an eligible retirement plan after the participant's employment with the Company ends.
Medical Plan Kingsport Power Company employees participate in the American Electric Power System Comprehensive Medical Plan, which was established to provide medical and dental benefits to eligible active and retired employees and their dependents. Plan assets are held in trusts at Bank of New York Mellon. The plan is administered by third party providers for reviewing claims, prescriptions, and dental coverage. AEP is responsible for paying premiums for insured coverage and benefit claim reimbursements for the self-insured medical and dental coverage.
Life insurance Plan Kingsport Power Company employees participate in the American Electric Power Life and Accident Insurance Plan, which provides benefits to eligible employees and retirees of AEP, its subsidiaries, and their dependents. The plan assets are held in a trust at Bank of New York Mellon. The benefits provided are fully insured. The insurer pays insurance claims arising under its insurance policy, which forms the basis for the provisions of the plan. All full time employees are eligible to participate in the plan on the first date of active employment.
LTD Plan Kingsport Power Company employees participate in the American Electric Power System Long-Term Disability Plan, which was established to provide long-term disability benefits for eligible employees f participating subsidiaries of AEP. Eligible employees are

Response CA 1-116 cont'd:

entitled to Plan benefits once they establish they have been disabled for 1,040 hours of regularly scheduled work. Plan benefits will generally not extend past normal retirement age, as defined. The Plan is self-insured through a trust at Bank of New York Mellon. To the extent the Plan's assets are insufficient to fund benefit payments that become due under the plan, AEP or a subsidiary would be responsible to fund benefit payments.

401K Savings Plan Kingsport Power Company employees participate in the AEP Retirement Savings 401(k) Plan, which is a defined contribution plan that is available to eligible full time and part time employees. Employees participating in the Plan may make pretax, after-tax or Roth 401(k) contributions following IRS limits determined each year. An employee who is eligible to participate in the Plan also may roll eligible retirement benefits into the Plan. AEP and subsidiaries will make matching contributions to participant accounts up to certain contribution limits. A participant can determine how their assets are invested among various unitized funds established by the plan including index funds, bond funds, growth funds, value funds, target date funds, and a stable value fund. Participants are immediately vested in their pretax, after-tax, Roth 401(k) and the Company contributions, including earnings.

The test year and the requested cost of service amounts were provided as part of MFR 9 workpapers for Adjustments OM-18, OM-19, OM-20, OM-21 and OM-22, sponsored by Company witness Allen, for employee benefit programs covering other post employment benefits (OPEB), pensions, life insurance, medical insurance and dental insurance, respectively. The Company's savings plan cost for the test year was $214,971 recorded in Account 9260027 before loadings to capital, retirement and other accounts. See the Company's response to MFR 9 for the workpaper for Adjustment OM-17 related to savings plan expense. The Company's long-term disability insurance cost for the test year was $36,438 recorded in Account 9260007 before loadings to capital, retirement and other accounts.

Provide the level of current Company and AEP consolidated accumulated pension plan funding requirements and explain fully how such amounts are treated by the Company for ratemaking purposes (including specifically in Tennessee), and why.

Response CA 1-117:

The level of KgPCo and AEP consolidated accumulated pension plan funding positions as of 12/31/2020 were as follows:

KgPCo ($503,941)
AEP $93,516,229

Ratemaking follows the requirements of FASB ASC 980, Regulated Operations, for pension cost. Under ASC 980, pension cost fluctuations are smoothed through deferral and amortization of actuarial gains and losses, and cumulative pension cash contributions beyond the amount of cumulative pension cost is recorded as a prepaid pension asset. The prepaid pension asset is included in rate base for ratemaking purposes because it represents a cash investment in the pension plan beyond the amount of pension cost included in cost of service and because the additional trust fund assets from the additional contributions create investment income that reduces pension cost for customers.

Provide a copy of the AEP policy on personal use of corporate aircraft and provide the related costs of any such personal use included in requested cost-of-service. If any cost of personal use is included in Kingsport cost-of-service, provide details with specificity of such costs. In addition, state in detail with specificity whether any amount of the cost of corporate aircraft is directly or indirectly allocated to Kingsport customers. For any such allocated amount, state the amount and provide details with specificity of the amount of such allocation and the basis for such allocation, including without limitation the rationale for such allocation and specific means, methods, and calculations resulting in such allocation.

Response CA 1-129:

See CA 1-129 Attachment 1 for the most current AEP policy on personal use of corporate aircraft.
There was personal use of the aircraft during the test year. The portion allocated to Kingsport was $2,275 and was charged to non-cost of service account 4265002.
In addition, there were no aviation charges directly billed to Kingsport. There were $3,483 of indirect aviation charges billed through service corporation to Kingsport and included in cost of service. See the response to CA 1-137(g). These indirect charges are service corporation charges that have benefiting locations that would include Kingsport Distribution and Transmission. The costs are allocated amongst all of the companies based upon the attribution basis. Attribution bases are shown in the Cost Allocation Manual provided in response to MFR 35. The majority of the aircraft use is by executives, which explains why multi-company benefiting locations are used most frequently as they are generally attending events or meetings that benefit the entire organization or large portions of the company.

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 1
To Kingsport Power Company

Data Request CA 1-147:

Refer to testimony of Company witness Allen. Specifically, refer to , tab "Historic 2016 Information." Provide the answers to the following: a. Provide a comprehensive explanation of the specific costs included in Company Expense and Travel estimate in the amount of $598,000. This response should include a breakout of the cost estimate by cost type. b. If internal labor costs are included within the $598,000 estimate, provide a comprehensive explanation justifying inclusion of such internal labor costs as a deferred asset. c. For each witness sponsoring testimony in this proceeding, identify the portion of labor and benefit costs included for recovery in this case, excluding any amounts of such labor costs included in the $598,000 estimate.

Response CA 1-147:

a. As shown in the worksheet "Historic 2016 Pivot" to the Adj OM-11 workpaper, the $598,000 was derived from subtracting the external attorney fees from the last base case of $234,000 and estimated public notice costs of $5,000 and postage and printing costs of $5,500 from one-half of the total actual charges to the work orders for the 2015-2016 Kingsport base case of $842,500 ($1,684,136 / 2 = $842,068). See the Company's response to CA 1-131 for a breakdown of the $1,684,136 of total charges from the last base case.
b. The $598,000 of Company Expense and Travel costs are comprised of AEPSC and APCo employee-related costs billed to KgPCo for every activity related to the base case such as planning and management, preparing and reviewing testimony, adjustments and schedules, responding to interrogatories, settlement discussions, conferences with the Hearing Officer, participating in the hearing, and implementing the final order, among other activities. These costs are appropriate to recover from customers over a reasonable amortization period because they are incremental costs charged to the Company solely because of this base rate case. AEPSC and APCo employees charge their time spent on the rate case directly to work orders established to track and defer the costs of the case.
c. There are no other labor and benefit costs not included in the requested $598,000 of Company Expense and Travel costs.
