Re: IN RE: PETITION OF KINGSFORT  
POWER COMPANY d/b/a AEP  
APPALACHIAN POWER  
FOR A GENERAL RATE CASE  
DOCKET NO.: 21-00107

Dear Chairman Hill:

On behalf of Kingsport Power Company d/b/a AEP Appalachian Power, we transmit herewith the following:

1. The non-confidential, public version of Kingsport Power Company's Responses to CAD's Supplemental Discovery to its First Discovery Requests. The original and four copies of the public version are being sent by overnight delivery. Additionally, the public version will be made available in electronic format via the iManage System.
2. The full, confidential version of Kingsport Power Company's Response to CAD's Supplemental Discovery to its First Discovery Requests, which includes information and documents designated CONFIDENTIAL pursuant to the Protective Order entered in this matter. The confidential version of Kingsport's Responses are being sent by separate overnight delivery to the TPUC and all intervenors. The confidential version is also available to the intervenors in native electronic format via the iManage System.

Please see the public version is filed and that the confidential version is filed and treated as confidential pursuant to the Protective Order.

Should you have any questions, please do not hesitate to contact the undersigned.

Very sincerely yours,

**HUNTER, SMITH & DAVIS, LLP**

Joseph B. Harvey

BEFORE THE TENNESSEE PUBLIC UTILITY COMMISSION

NASHVILLE, TENNESSEE

IN RE:

DOCKET NO.: 21-00107

PETITION OF KINGSPORT POWER  
COMPANY d/b/a AEP APPALACHIAN  
POWER GENERAL RATE CASE

**RESPONSE OF KINGSPORT POWER COMPANY TO  
CONSUMER ADVOCATE'S SUPPLEMENTAL DISCOVERY TO  
FIRST DISCOVERY REQUEST**

Comes Petitioner, Kingsport Power Company d/b/a AEP Appalachian Power ("Company" or "KgPCo") and hereby submits its response to the Supplemental Discovery to First Discovery Request of the Consumer Protection and Advocate Division ("CAD") which was served on KgPCo along with a Motion to File Discovery Supplemental to First Discovery Request on January 11, 2022 (the "Supplemental Discovery"). On January 14, 2022, KgPCo filed a Response to CAD's Motion indicating KgPCo's willingness to respond to CAD's Supplemental Discovery, subject to proper objections to individual requests, provided KgPCo was given a reasonable amount of time, until February 4, 2022, to prepare its responses. Subsequently, an agreement was reached for KgPCo's responses and objections to be submitted on February 4, 2022. As a demonstration of its good faith and cooperation, KgPCo is submitting its responses on February 3, 2022, a day before the deadline, subject to general objections set forth herein below or any objections to individual requests as contained in said responses.

**GENERAL STATEMENTS AND OBJECTIONS**

The responses set forth herein constitute the best information presently available to KgPCo. The answers set forth herein are provided without prejudice to KgPCo's right to timely amend,

supplement, or change said answers if and when additional, different, or more accurate information becomes available, including the review of any documents produced by intervenors. Moreover, said responses are subject to correction for inadvertent errors or omissions, if any such errors or omissions are later found to exist.

By responding to CAD's discovery requests, KgPCo does not waive any objections that may be appropriate to the use, for any purpose, by any party, of any of the information contained in the responses set forth herein or to the admissibility, relevancy, or materiality of such information as to any issue in this case.

The following General Objections apply to each of KgPCo's responses. Specific objections provided in response to any request are made without waiver of or prejudice to any General Objection.

1. KgPCo objects to CAD's requests to the extent they seek to impose on KgPCo any obligations or responsibilities beyond those required by TPUC's Rules & Regulations, the Tennessee Rules of Civil Procedure, and/or the controlling Procedural Scheduled entered in this matter.

2. KgPCo objects to CAD's requests to the extent they seek information protected by the attorney-client privilege, the work product doctrine, and/or any other applicable privilege or immunity (collectively referred to as "privileged" documents or information). Nothing contained in these responses is intended to be, or in any way constitutes, a waiver of any such applicable privilege or immunity.

3. An objection to a request based on privilege should not be construed as a representation that responsive information or documents exists or existed and is being withheld

based upon the asserted privilege. Such an objection indicates only that the request is of such a scope as to potentially embrace privileged information or documents.

4. To the extent KgPCo responds to a discovery request to which it has objected, KgPCo reserves the right to maintain such objection with respect to any additional information responsive to such discovery request and such objections are not waived by the furnishing of such additional information.

5. KgPCo objects to CAD's requests to the extent they seek information that is neither relevant to the issues in the case nor proportional to the needs of the case. KgPCo also objects to CAD's requests to the extent they are overly broad.

6. KgPCo objects to CAD's requests that contain terms or phrases that are vague, ambiguous, and undefined; call for speculation, conjecture or opinion; or are based on the assumption of facts not in evidence. Likewise, KgPCo's response to any particular interrogatory in no way constitutes acquiescence or agreement to any definition, characterization, or meaning proposed by CAD.

7. All responses and any production of documents by KgPCo in response to CAD's requests are made based on KgPCo's current knowledge and without waiver of any general or specific objections. KgPCo reserves the right to revise, modify, supplement and/or amend its responses, for form or substance.

Subject to said GENERAL OBJECTIONS and any specific objections made to individual requests as contained in these or upcoming responses, KgPCo responds to CAD's Supplemental Discovery to its First Discovery Request as follows.

Kingsport Power Company d/b/a Appalachian Power Company

By: William K. Castle  
William K. Castle

Title: Director, Regulatory Services VA/TN

COMMONWEALTH OF VIRGINIA)

CITY OF RICHMOND )

WILLIAM K. CASTLE, being first duly sworn upon oath, deposes and says that he is the Director, Regulatory Services VA/TN for Kingsport Power Company d/b/a AEP Appalachian Power, the Petitioner in the above-entitled action, and that he is authorized to make this Affidavit on its behalf; that he has read the foregoing Responses to Discovery Requests, by him subscribed and knows the contents thereof; that there is no single person employed by or otherwise connected with Kingsport Power Company d/b/a AEP Appalachian Power, who has personal knowledge of all the facts and information requested herein; that said Responses were prepared with the assistance and advice of counsel and the assistance of various employees and representatives of the corporation upon which he has relied; that the Responses to Discovery Requests, set forth herein, subject to inadvertent or undiscovered errors, are based on, and therefore necessarily limited by, the records and information still in existence, presently recollected and thus far discovered in the course of the preparation of these Responses; that the foregoing Responses to Discovery Requests are thus based upon corporate knowledge and are true and correct to the best of his knowledge and belief; that consequently, Kingsport Power Company d/b/a AEP Appalachian Power reserves the right to make any changes in the Responses if it appears at any time that omissions or errors have been made therein or that more accurate information is available; and that subject to the limitations set forth herein, the said Responses are true to the best of his knowledge, information and belief.

William K. Castle  
WILLIAM K. CASTLE

| <b>BUSINESS:</b> Ameren Corporation is a holding company formed through the merger of Union Electric and CIPSCO. Has 1.2 million electric and 127,000 gas customers in Missouri; 1.2 million electric and 813,000 gas customers in Illinois. Discontinued nonregulated power-generation operation in '13. Electric revenue breakdown: residential, 43%; commercial, 32%; industrial, 8%; other, 17%.<br>Generating sources: coal, 67%; nuclear, 19%; hydro & other, 6%; purchased, 8%. Fuel costs: 22% of revenues. '20 reported deprec. rates: 3%-4%. Has 9,200 employees. Chairman, President & CEO: Warner L. Baxter, Inc.: Missouri. Address: One Ameren Plaza, 1901 Chouteau Ave., P.O. Box 66149, St. Louis, Missouri 63166-6149. Tel.: 314-621-3222. Internet: www.ameren.com. |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>AMEREN HAS ELECTRIC AND GAS RATE CASES PENDING IN MISSOURI.</b> The utility filed for an electric increase of \$299 million, based on a return on equity of 9.9% and a common-equity ratio of 51.9%, and a gas hike of \$9 million, based on an ROE of 9.8% and the same common-equity ratio. Ameren has added 700 megawatts of wind, for an investment of \$1.1 billion, since December of 2020, and wants to place this in rates. An order is expected in time for new tariffs to take effect in late February.  |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>WE ESTIMATE STRONG EARNINGS GROWTH IN 2021.</b> Ameren is benefiting from an electric rate increase granted in Missouri in April of 2020 and a gas tariff hike granted in Illinois in January of 2021. Electric income in Illinois is rising thanks to a higher allowed ROE. We raised our 2021 earnings estimate by \$0.05 a share because June-quarter results were better than we expected. Our revised estimate is at the upper end of Ameren's targeted range of \$3.65-\$3.85 a share.   |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>WE LOOK FOR ANOTHER SOLID BOTTOM-LINE INCREASE IN 2022.</b> Ameren will benefit from rate relief from the aforementioned cases in Missouri. Another source of profit   |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>GROWTH IS INVESTMENT IN THE UTILITY'S ELECTRIC TRANSMISSION SYSTEM.</b> We have raised our earnings estimate by a nickel a share, to \$4.10. This would produce an increase within the company's targeted annual range of 6%-8%. Note that we assume no change in the allowed ROE for transmission. The Federal Energy Regulatory Commission is considering eliminating a half percentage point "adder" for electric transmission. This would reduce Ameren's annual earning power by \$0.04 a share.  |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>THE CALLAWAY NUCLEAR PLANT RETURNED TO SERVICE IN EARLY AUGUST.</b> Ameren expects the \$60 million capital cost and the replacement power expenses to be covered by insurance. This was the case all along, but at least the unit's return to service ended a source of uncertainty.  |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |
| <b>THIS UNTIMELY STOCK HAS A DIVIDEND YIELD THAT IS NEARLY ONE PERCENTAGE POINT BELOW THE UTILITY AVERAGE.</b> With the recent quotation well within our 2024-2026 Target Price Range, total return potential is low. The equity doesn't stand out for the next 18 months, either. We did raise its Safety rank from 2 to 1 (Highest).  |  |              |           |                                |                    |           |            |        |        |        |        |        |                    |        |        |               |               |                                  |               |

An order is expected in the second quarter of 2022. Public Service of Oklahoma filed for an increase of \$115 million, based on a 10% ROE and a 53% common-equity ratio. A ruling is expected in the fourth quarter of 2021. SWEPCO has three cases pending. In Texas, the utility is seeking \$73 million, based on a 10.35% ROE and a 49.4% common-equity ratio. An order is expected in the fourth quarter. In Arkansas, SWEPCO filed for a hike of \$56 million, based on a 10.35% ROE and a 51.3% common-equity ratio. New tariffs should take effect in the second quarter of 2022. In Louisiana, the utility requested \$93 million, based on an ROE of 10.35% and a common-equity ratio of 50.8%. An order is expected in the second or third quarter of 2022. Finally, in Virginia the company appealed to the courts an order resulting in no increase. |        |        |        |                    |        |        |        |                    |           |            |                       |                                   |        |

| <b>Fixed Charge Cov. (%)</b>  |                 | 296 277 230   |             |                                |                    |             |             | <b>ALLETE's earnings in 2021 will probably take a step back from the level seen in recent years.</b> First-quarter profits were well below the previous year's tally due to several factors, including a cold spell in the Gulf Coast region that affected one of the wind projects of ALLETE Clean Energy (ACE). This hurt the bottom line by \$0.10 a share. ACE is also experiencing higher business development costs, increased competition for wind projects, and was hurt by subpar wind conditions in the second quarter. Minnesota Power, the company's primary utility subsidiary, is underperforming its allowed return on equity of 9.25% by about two percentage points. One positive factor is a return to normal demand from Minnesota Power's taconite customers, which are benefiting from the recovery in the steel market. Our earnings estimate is at the midpoint of management's guidance of \$3.00-\$3.30 a share. <b>Minnesota Power plans to file a rate case in early November.</b> The utility wants to address its underperforming problem. It might also ask for a sales adjustment mechanism to address the volatility in industrial kilowatt-hour sales. (Note |             |             |             |             |             | that Minnesota Power has a larger industrial sector, and a much-smaller residential share of revenues, than most electric companies.) An interim rate hike, subject to refund, will take effect at the start of 2022, with a final order coming late in the year. <b>We expect much higher earnings in 2022.</b> Minnesota Power should obtain rate relief. ACE will benefit from the addition of a 303-megawatt wind project, which is on track for completion at the end of 2021. ACE has also agreed to sell a repowered wind project to Xcel Energy for \$210 million in 2022. The stock price has risen 14% so far in 2021, in anticipation of an earnings recovery next year. We also expect much-greater dividend growth next year than the 2% hike the board of directors declared in 2021. <b>This stock is untimely, but has a modestly higher dividend yield than the utility average.</b> The equity is unappealing for the next 18 months. The recent quotation is within our 3- to 5-year Target Price Range, so total return potential over that time frame is subpar. <i>Paul E. Debbas, CFA September 10, 2021</i> |             |              |              |                              |              |   |  |  |  |  |  |

| Fixed Charge Cov. (%) 259 202 221   |                 |  |       | <b>Avista has reached a settlement of its general rate case in Idaho.</b> This included the utility, the staff of the state commission, and intervenor groups. If the agreement is approved by the regulators, Avista's electric rates will be raised by \$10.6 million (4.3%) on September 1, 2021, and \$8.0 million (3.1%) on September 1, 2022. Changes in gas tariffs will be modest, with a \$1.6 million (3.7%) cut this year and a \$0.9 million (2.2%) raise next year. The allowed return on equity will be 9.4%, down slightly from the currently allowed ROE of 9.5%, and the common-equity ratio will remain 50%. The pass-through of tax credits to customers will limit the effects of new rates on their bills.   |        |           |        |                  |              |                    |        |           |        |            |                    |                                       |       |                                  |       |

**BUSINESS:** Black Hills Corporation is a holding company for Black Hills Energy, which serves 214,000 electric customers in CO, SD, WY and MT, and 1.1 million gas customers in NE, IA, KS, CO, WY, and AR. Has coal mining sub. Acq'd Cheyenne Light 1/05; utility ops. from Aquila 7/08; SourceGas 2/16. Discont. telecom in '05; oil marketing in '06; gas marketing in '11; gas & oil E&P in '17. Electric

rev. breakdown: res'l, 31%; comm'l, 34%; ind'l, 18%; other, 17%. Generating sources: coal, 33%; other, 12%; purch., 55%. Fuel costs: 29% of revs. '20 deprec. rate: 3.2%. Has 3,000 employees. Chairman: David R. Emery. Pres. & CEO: Linn Evans. Inc.: SD. Address: 7001 Mount Rushmore Rd., P.O. Box 1400, Rapid City, SD 57709-1400. Tel.: 605-721-1700. Internet: www.blackhillscorp.com.

**Black Hills has some gas rate cases pending.** In Colorado, the utility is seeking an increase of \$14.6 million, based on a 9.95% return on equity and a 50.3% common-equity ratio. Black Hills is also asking for a five-year regulatory mechanism to recover safety-related expenditures, retroactive to the start of 2021. In Iowa, the company filed for a hike of \$8.3 million, based on a 10.15% ROE and a 50% common-equity ratio. An interim rate hike took effect in June. As in Colorado, Black Hills asked for a safety-related regulatory mechanism. In Kansas, the utility requested an increase of \$5.3 million, based on a 10.15% ROE and a 50.3% common-equity ratio. Black Hills also wants a five-year renewal of the safety-focused rider. In each state, new tariffs are expected to go into effect in the first quarter of 2022. Separately, the company is seeking recovery of extraordinary gas costs it incurred as a result of a cold spell in February. As of March 31st, this amounted to \$559 million. The commissions in South Dakota and Nebraska have already approved a plan, including financing costs and without disallowing recovery

of any gas costs. Plans have been filed in five other states. **We expect earnings improvement in 2021.** This is despite some unrecoverable costs associated with the cold spell, which were a \$0.15-a-share drag on the bottom line in the first quarter. (A few cents of this will be reversed in the second period.) Black Hills will likely incur no significant coronavirus-related expenses this year. Our estimate is at the midpoint of the company's guidance of \$3.80-\$4.00 a share. **Further profit growth is likely in 2022.** We assume normal weather conditions in the first quarter. Rate relief from the aforementioned rate cases should help, too. Our estimate is within Black Hills' guidance of \$3.95-\$4.15 a share. **Black Hills is adding common equity.** Its financing plans include the issuance of \$100 million-\$120 million this year and \$60 million-\$80 million in 2022. **This untimely stock has a dividend yield that is about average for a utility.** Total return potential is also about average, both for the 18-month and the 3- to 5-year periods. *Paul E. Debbas, CFA* July 23, 2021

**CMS Energy has agreed to sell its EnerBank subsidiary.** The bank is profitable, but was not a core operation. CMS Energy expects to receive \$960 million. This will enable the company to eliminate its planned equity issuances from 2022 through 2024 that will finance its capital spending. The sale price is attractive, at three times book equity. The transaction requires various regulatory approvals and is expected to close by yearend.  
**With EnerBank reported as a discontinued operation, CMS Energy revised its earnings guidance for 2021.** The bank was expected to contribute \$0.20-\$0.22 to share net, so management lowered its targeted range from \$2.83-\$2.87 to \$2.61-\$2.65. Accordingly, we cut our estimate from \$2.85 to \$2.65. We also cut our 2022 estimate from \$3.05 to \$2.85, in line with the company's typically narrow guidance of \$2.85-\$2.87.  
**The company stated that it expects to increase the dividend in 2022.** However, the growth rate is likely to be well below that of recent years. The payout ratio is above CMS Energy's target of 60%. The company will attain this over time as

earnings growth exceeds dividend growth.  
**Consumers Energy has an electric rate case pending.** The utility is seeking an increase of \$225 million, based on a 10.5% return on equity and a 52% common-equity ratio. The staff of the Michigan Public Service Commission (MPSC) recommended a hike of \$85 million, based on a 9.7% ROE and a 51% common-equity ratio. An order is due by late December, with new tariffs taking effect at the start of 2022. This is a key factor in the profit growth that is likely next year.  
**Additional rate cases are upcoming.** Frequent filings are necessary because Consumers Energy has a big system with a lot of old equipment. It plans to file a gas case in December. The utility expects to file its next electric petition in the first quarter of 2022. Decisions from the MPSC are due 10 months after the filing date.  
**The stock's valuation is on the high side.** The dividend yield does not stand out among utilities. Total return potential is decent for the next 18 months, but unimpressive for the 3- to 5-year period.

**With EnerBank reported as a discontinued operation, CMS Energy revised its earnings guidance for 2021.** The bank was expected to contribute \$0.20-\$0.22 to share net, so management lowered its targeted range from \$2.83-\$2.87 to \$2.61-\$2.65. Accordingly, we cut our estimate from \$2.85 to \$2.65. We also cut our 2022 estimate from \$3.05 to \$2.85, in line with the company's typically narrow guidance of \$2.85-\$2.87.  
**The company stated that it expects to increase the dividend in 2022.** However, the growth rate is likely to be well below that of recent years. The payout ratio is above CMS Energy's target of 60%. The company will attain this over time as

earnings growth exceeds dividend growth.  
**Consumers Energy has an electric rate case pending.** The utility is seeking an increase of \$225 million, based on a 10.5% return on equity and a 52% common-equity ratio. The staff of the Michigan Public Service Commission (MPSC) recommended a hike of \$85 million, based on a 9.7% ROE and a 51% common-equity ratio. An order is due by late December, with new tariffs taking effect at the start of 2022. This is a key factor in the profit growth that is likely next year.  
**Additional rate cases are upcoming.** Frequent filings are necessary because Consumers Energy has a big system with a lot of old equipment. It plans to file a gas case in December. The utility expects to file its next electric petition in the first quarter of 2022. Decisions from the MPSC are due 10 months after the filing date.  
**The stock's valuation is on the high side.** The dividend yield does not stand out among utilities. Total return potential is decent for the next 18 months, but unimpressive for the 3- to 5-year period.

**Business:** Dominion Energy, Inc. (formerly Dominion Resources) is a holding company for Virginia Power, North Carolina Power, & South Carolina E&G, which serve 3.5 mill. customers in VA, SC, & NC. Serves 3.4 mill. gas customers in OH, WV, UT, SC, & NC. Other ops. incl. independent power production. Acq'd Questar 9/16; SCANA 1/19. Elec. rev. breakdown: residential, 50%; commercial, 32%; industrial, 8%; other, 10%. Generating sources: gas, 48%; nuclear, 32%; coal, 9%; other, 4%; purchased, 7%. Fuel costs: 22% of revs. '20 reported deprec. rates: 1.6%-5.1%. Has 19,100 employees. Chairman, President & CEO: Robert M. Blue, Inc.: VA. Address: 120 Tredegar St., P.O. Box 26532, Richmond, VA 23261-6532. Tel.: 804-819-2000. Internet: www.dominionenergy.com.

**We expect Dominion Energy's earnings to be much improved in 2021.** The previous two years' results were affected by significant transactions: the acquisition of SCANA in early 2019 and the discontinuing of most of the company's midstream gas operations last year. There were also unusual expenses. Our estimate of \$3.95 a share is near the upper end of Dominion Energy's targeted range of \$3.70-\$4.00. The company reported June-period results shortly after our report went to press.

**The company reached a settlement of its electric rate case in South Carolina.** The agreement, if approved by the state commission, will raise rates by \$61.6 million, based on a return on equity of 9.5% and a common-equity ratio of 48.4%. A ruling is expected later this summer.

**An order on a gas rate case in West Virginia is expected soon.** The utility filed for an increase of \$28 million, based on an ROE of 10.25%. A full year of new tariffs in West Virginia and South Carolina should help boost Dominion Energy's bottom line in 2022.

**Dominion Energy had a setback regarding an asset sale.** In July of 2020, the company announced the sale of most of its midstream gas assets to Berkshire Hathaway for \$4.0 billion in cash and the assumption of \$5.7 billion of debt. In November of 2020, Berkshire Hathaway paid \$1.3 billion in cash to Dominion Energy in anticipation of completion of a pipeline sale as part of the overall asset sale. (The sale of other assets was completed then.) However, due to uncertainty about obtaining regulatory approval, the companies terminated the sale. Dominion Energy returned the cash to Berkshire Hathaway using the proceeds of a term loan. It hopes to sell the pipeline to another buyer by yearend, and intends to repay the term loan with the proceeds. These operations are being reported as discontinued.

**Dominion Energy is investing in offshore wind.** This would add 2.640 megawatts of capacity in 2026 at a cost of \$8 billion. Offshore wind entails construction risk, however.

**This untimely stock has a valuation that is average, for a utility.** The dividend yield and 3- to 5-year total return potential are about average for the group.

Owns independent power plants & has 25% stake in National Methanol in Saudi Arabia. Acq'd Progress Energy 7/12; Piedmont Natural Gas 10/16; discontinued most int'l ops. in '16. Elec. rev. breakdown: residential, 45%; commercial, 28%; industrial, 13%; other, 14%. Generating sources: gas, 31%; nuclear, 30%; coal, 18%; other, 2%; purchased, 19%. Fuel costs: 27% of revs. '20 reported deprec. rate: 3.0%. Has 27,500 employees. Chairman, President & CEO: Lynn J. Good. Inc.: DE. Address: 550 South Tryon St., Charlotte, NC 28202-1803. Tel.: 704-382-3853. Internet: www.duke-energy.com. |  |  |  |  |  |  |  |  |  | Avg. Indust. Use (MWH) |  |  |  |  |  | +3.9 | -9 | -2.3 | 53%. In North Carolina, Piedmont Gas is seeking an increase of \$109 million (10.4%), based on an ROE of 10.25% and a common-equity ratio of 53%. New rates will be in place as early as November of 2021. Note that earlier this year, Duke's electric utilities in North Carolina received rate hikes, so a full year's effect of these increases will boost earnings in 2022. |  |  |  |  |  |  |  |  |  | Avg. Indust. Revs. per KWH (c) |  |  |  |  |  | 2953 | 2934 | NA | <b>Duke is awaiting regulatory approval of an asset sale.</b> The company intends to raise over \$2 billion through the sale of its Indiana electric utility in two phases. This would take care of its equity needs through 2025. The proposed sale has come under some criticism, however. |  |  |  |  |  |  |  |  |  | Capacity at Peak (Mw) |  |  |  |  |  | NA | NA | NA | <b>The board raised the dividend, effective with the September payment.</b> The 2.1% increase was \$0.02 a share. This growth rate is well below the industry average because the payout ratio is high. |  |  |  |  |  |  |  |  |  | Peak Load, Summer (Mw) |  |  |  |  |  | NA | NA | NA | <b>The dividend yield is slightly above the utility mean.</b> There is some speculative appeal if anything happens from the conflict with Elliott Management. Note, too, that in 2020 NextEra Energy reportedly expressed interest in buying Duke. |  |  |  |  |  |  |  |  |  | Annual Load Factor (%) |  |  |  |  |  | NA | NA | NA | Paul E.   |      |      |      |      |  |  |
| Avg. Indust. Use (MWH)   |  |              |           |                  |                    | +3.9         | -9          | -2.3               | 53%. In North Carolina, Piedmont Gas is seeking an increase of \$109 million (10.4%), based on an ROE of 10.25% and a common-equity ratio of 53%. New rates will be in place as early as November of 2021. Note that earlier this year, Duke's electric utilities in North Carolina received rate hikes, so a full year's effect of these increases will boost earnings in 2022.  |        |        |        | | Avg. Indust. Revs. per KWH (c)   |  |              |           |                  |                    | 2953         | 2934        | NA                 | <b>Duke is awaiting regulatory approval of an asset sale.</b> The company intends to raise over \$2 billion through the sale of its Indiana electric utility in two phases. This would take care of its equity needs through 2025. The proposed sale has come under some criticism, however.  |        |        |        |        |        |        |                                       |        |                             | | Fixed Charge Cov. (%) 306 267 257   |                               |        |        | <b>We estimate a substantial increase in Consolidated Edison's earnings in 2021.</b> To start, the comparison is easy. Last year, mark-to-market accounting charges and an accounting item related to renewable energy reduced profits by \$0.13 and \$0.10 a share, respectively. The renewable-energy accounting item is expected to add \$0.23 a share to the bottom line this year. Also, ConEd booked a \$0.14-a-share mark-to-market gain in the March quarter. We include these items in our earnings presentation, even though the company excludes these from its earnings guidance of \$4.15-\$4.35 a share. Additionally, the company's largest subsidiary, Consolidated Edison Company of New York, received the second phase of a three-year electric and gas rate hike at the start of 2021. The company is also benefiting from growth at its renewable-energy subsidiary as projects are added. (Note that ConEd reported second-quarter results shortly after our report went to press.) |              |                               |                    |              |              |              |              |              |              |   |              |  |        |                       |        |  |  |

**BUSINESS:** Eversource Energy (formerly Northeast Utilities) is the parent of utilities with 3.2 mill. electric, 881,000 gas, 216,000 water customers. Supplies power to most of Connecticut and gas to part of Connecticut; supplies power to 3/4 of New Hampshire's population; supplies power to western Massachusetts and parts of eastern MA & gas to central & eastern MA; supplies water to CT, MA, & NH.

**We have cut our 2021 earnings estimate for Eversource Energy by \$0.10 a share, to \$3.75.** Management is guiding Wall Street toward the low end of the company's targeted range of \$3.81-\$3.93 a share. However, this excludes transition costs associated with a large gas utility acquisition last fall (\$0.04 a share in the first six months of 2021). We include these in our earnings presentation. Even so, share net should end up ahead of the 2020 tally, which was affected by acquisition-related expenses and higher-than-usual storm-related costs. The bottom line is benefiting from income from the newly acquired gas utility; a full year's effect of rate relief obtained in 2020; and capital spending on electric transmission.

**Connecticut Light & Power has appealed a regulatory order to the state Superior Court.** The Connecticut regulators penalized the utility \$28.6 million and ordered a reduction in its allowed return on equity by 0.9 percentage point because of what they said was CL&P's unsatisfactory performance following a tropical storm in August of 2020. The penalty reduced first-quarter earnings by

\$0.07 a share. The state commission was scheduled to hold hearings on this matter shortly after our report went to press.

**We expect earnings will advance sharply in 2022.** Earnings won't be affected by the \$0.07-a-share penalty and the aforementioned transition costs. If CL&P's allowed ROE is reduced, however, this would lower Eversource's annual earning power by \$0.06-\$0.07 a share.

**Three offshore wind projects are in various stages of development.** These would add 1,760 megawatts of capacity from 2023 through 2025. This would enhance Eversource's long-term earnings growth, but also has construction risk.

**The company is asking the Massachusetts regulators to approve two capital plans.** The utility would spend nearly \$200 million for grid modernization from 2022 through 2025. It would spend \$500 million-\$600 million for advanced meters, primarily from 2024 through 2027.

**This stock has a high valuation.** It doesn't stand out among utilities for its dividend yield or 3- to 5-year total return potential.

Paul E. Debbas, CFA August 13, 2021

**We estimate that Entergy's earnings will be in the upper end of the company's targeted ranges in 2021 and 2022.** The company is benefiting from rate relief and the economic recovery in the service area of its utilities. In addition, Entergy will not need to add as much common equity as initially expected. Our share-earnings estimates are within the company's guidance of \$5.80-\$6.10 for 2021 and \$6.15-\$6.45 for 2022. Although these figures are well below the 2020 tally, investors should note that in the fourth quarter last year Entergy recorded some tax credits that boosted the bottom line. We assume no such income in 2021 or 2022. We excluded from our earnings presentation a \$1.33-a-share writedown of a nonregulated nuclear plant that Entergy sold in May. **Formula rate plans in most of Entergy's jurisdictions provide annual rate relief.** In Arkansas, the utility received \$40 million for 2021, and is seeking \$73 million for 2022. In Louisiana, the company filed for \$51 million, which was expected to take effect at the start of September. In Mississippi, a \$44 million increase took effect in April. In New Orleans, Entergy is

asking for electric and gas hikes totaling \$64 million, effective in November. **Entergy is seeking permission to issue securitized bonds.** These are mainly to recover costs associated with storms in Louisiana and Texas in 2020. Entergy wants to issue \$2.1 billion in Louisiana and \$266 million in Texas. If the commissions approve, the issuances will occur in 2022. As we went to press, it was too early to assess the effects of Hurricane Ida. **Dividend growth is likely to accelerate in the fourth quarter.** In recent years, the board has been raising the quarterly payout just \$0.02 a share annually. However, with the divestiture of most of the company's nonregulated nuclear assets, business risk has declined. We estimate a hike of \$0.06 a share (6.3%) quarterly. Entergy expects its annual increases will be in the range of its long-term profit growth expectation of 5%-7%. **This stock's dividend yield is slightly above the utility average.** However, total return potential is negative for the next 18 months and subpar for the period to 2024-2026. *Paul E. Debbas, CFA September 10, 2021*

**IDACORP is off to a good start in 2021.** The customer growth rate of its utility subsidiary, Idaho Power, has been strong in recent years thanks in part to a good business climate, including low electric rates. The economy of the utility's service area is strong, and several large customers are expanding. Moody's projection for GDP growth here is 8% for 2021. For the 12-month period ending March 31st, the customer growth rate accelerated to 2.9%, from 2.7% in 2020. This might eventually put some pressure on operating and maintenance expenses, but for now, management still expects these to wind up in a range of \$345 million-\$355 million in 2021, versus \$352 million last year. Although IDACORP had a strong first-quarter showing, management maintained its 2021 earnings target of \$4.60-\$4.80 a share. Our estimate remains at the top of this range. The company's guidance is typically conservative. IDACORP has a track record of exceeding the midpoint of its initial range, sometimes by a wide margin. We note that the effects of hot and dry weather were a boon for kilowatt-hour sales in the second quarter.

**We look for continued solid profit growth in 2022.** Moody's expects another year of 8% GDP growth in Idaho Power's service territory. There is little reason to think the favorable trend in customer growth will change. Our estimate of \$5.05 a share would profit a bottom-line growth rate of 5%.

**We expect a healthy dividend increase at the board meeting in September.** IDACORP's goal is growth of at least 5% and a payout ratio of 60%-70%. The payout ratio is below this range, so we estimate a \$0.05-a-share (7.0%) increase in the quarterly disbursement.

**Finances are sound.** The fixed-charge coverage and common-equity ratio are above the utility norms. IDACORP expects no new equity over the five-year period, despite the utility's rising capital budget. No long-term debt is due until 2023.

**IDACORP's strengths are reflected in the stock price.** The dividend yield is low for a utility. The recent quotation is near the low end of our 2024-2026 Target Price Range, so total return potential is only modest over that time frame.

*Paul E. Debbas, CFA* July 23, 2021

| <b>WISCONSIN REGULATORY SETTLEMENT</b>  |  |             |                                  | <p><b>Alliant Energy's utility subsidiary in Wisconsin is awaiting a ruling from the state commission regarding the company's regulatory settlement.</b> WPL agreed to rate hikes totaling \$70 million (6%) for electricity and \$15 million (8%) for gas in 2022. There would be no increases in 2023, but the utility would augment its income by amortizing deferred taxes. The allowed return on equity would remain at 10%, and the common-equity ratio would be raised to 54%, up from the currently allowed 52.5%. A decision is expected in late 2021, with new tariffs taking effect at the start of 2022.</p> <p><b>We expect steady earnings growth this year and next.</b> The company is benefiting from a higher rate base (which increases its earning power). Favorable weather patterns and effective expense control are other positive factors. Management is guiding Wall Street toward the upper end of the company's targeted range for share earnings of \$2.50-\$2.64, and our estimate of \$2.60 is within this range. We assume in our 2022 estimate that the aforementioned regulatory settlement is approved. Our 2023 estimate of \$2.75</p>   |           |                                  |                    |           |            |        |        |        |                                   |        |        |  |        |                                      |         |   |              |             |                                  |                             |           |        |        |                        |           |        |        |                                |                   |       |   |                       |        |       |       |                        |       |       |        |                        |       |       |     |                             |      |  |       |       |       |       |       |       |       |      |       |     |     |     |                 |     |  |      |      |      |      |      |       |       |       |       |      |      |      |                       |      |  |       |       |       |       |       |       |       |       |       |       |       |       |                      |       |  |       |       |       |       |       |       |       |       |       |       |       |       |                     |       |  |        |        |        |        |        |        |        |       |       |       |       |       |                        |       |  |        |        |        |        |        |        |       |       |       |       |       |       |                    |       |  |      |      |      |      |      |      |      |      |      |      |      |      |                       |      |  |      |       |       |       |       |      |       |       |       |       |       |       |                       |       |  |      |       |       |       |       |      |       |       |       |       |       |       |                                   |       |  |      |      |      |      |      |      |      |      |      |      |      |      |                    |      |  |     |     |     |     |     |     |     |     |     |     |     |     |                        |     |
| <b>FINANCIAL STRENGTH</b>   |  |             |                                  | <p>would produce profit growth of 6%, which is within Alliant's goal of 5%-7% annually. <b>The company is constructing renewable energy projects.</b> WPL plans to add 1,089 megawatts of solar capacity by year-end 2023. This is expected to cost more than \$1.2 billion, but the company will get some funding from a tax-equity partnership. The utility already has almost 500 mw of wind capacity. IPL plans to ask the Iowa regulators for approval to add about 400 mw. This might include battery storage in addition to solar. Alliant Energy has enough production tax credits from renewable-energy projects that the company books a negative income tax rate. <b>Finances are sound.</b> The fixed-charge coverage is healthy. Alliant consistently earns a solid ROE. The company expects no common equity issuances through the mid-2020s, beyond \$25 million a year for the dividend-reinvestment and other stock plans. <b>The stock has a high valuation.</b> The dividend yield is low for a utility. Total return potential is subpar, both for the 18-month span and the 3- to 5-year period. <i>Paul E. Debbas, CFA September 10, 2021</i></p>  |           |                                  |                    |           |            |        |        |        |                                   |        |        |  |        |                                      |         |   |              |             |                                  |                             |           |        |        |                        |           |        |        |                                |                   |       |   |                       |        |       |       |                        |       |       |        |                        |       |       |     |                             |      |  |       |       |       |       |       |       |       |      |       |     |     |     |                 |     |  |      |      |      |      |      |       |       |       |       |      |      |      |                       |      |  |       |       |       |       |       |       |       |       |       |       |       |       |                      |       |  |       |       |       |       |       |       |       |       |       |       |       |       |                     |       |  |        |        |        |        |        |        |        |       |       |       |       |       |                        |       |  |        |        |        |        |        |        |       |       |       |       |       |       |                    |       |  |      |      |      |      |      |      |      |      |      |      |      |      |                       |      |  |      |       |       |       |       |      |       |       |       |       |       |       |                       |       |  |      |       |       |       |       |      |       |       |       |       |       |       |                                   |       |  |      |      |      |      |      |      |      |      |      |      |      |      |                    |      |  |     |     |     |     |     |     |     |     |     |     |     |     |                        |     |

**BUSINESS:** NextEra Energy, Inc. (formerly FPL Group, Inc.) is a holding company for Florida Power & Light Company (FPL), which provide electricity to 5.6 million customers in eastern, southern, and northwestern Florida. NextEra Energy Resources is a nonregulated power generator with nuclear, gas, & renewable ownership. Has 57.2% stake in NextEra Energy Partners. Revenue breakdown: residential, 58%; commercial, 32%; industrial & other, 10%. Generating sources: gas, 73%; nuclear, 22%; other, 3%; purchased, 2%. Fuel costs: 20% of revs. '20 reported depr. rate (utility): 3.7%. Has 14,900 employees. Chairman, President and CEO: James L. Robo. Inc.: FL. Address: 700 Universe Blvd., Juno Beach, FL 33408. Tel.: 561-694-4000. Internet: www.nexteraenergy.com.

**NextEra Energy's largest utility subsidiary has a rate case pending.** Florida Power & Light filed for rate increases of \$1.075 billion in 2022 and \$605 million in 2023, based on a return on equity of 11.5% (including a half percentage point incentive for superior performance) and a common-equity ratio of 59.6%. FPL is also asking for hikes in 2024 and 2025 (estimated at \$140 million each year) to place solar capacity in rates. An order is expected in the fourth quarter of 2021.

**Our 2021 earnings estimate requires an explanation.** Our presentation includes mark-to-market accounting items and unrealized gains or losses on the company's decommissioning trusts for non-regulated nuclear units. These were positive factors in the first quarter, but negative in the second period and the first six months. Thus, our \$2.10-a-share estimate is well below NextEra's guidance of \$2.40-\$2.64 a share. Despite the flat share earnings we estimate for the current year . . .

**The company's utility and nonutility operations are faring well.** FPL is experiencing healthy growth in Florida. Regulatory capital employed, a key driver of earning power, rose more than 10% in the first six months of 2021. Gulf Power (which was merged into FPL at the start of the year) is cutting costs. FPL should benefit from rate relief in 2022. Another positive factor is the acquisition of three transmission utilities for \$502 million in cash and the assumption of \$175 million of debt at the end of the first quarter. NextEra Energy Resources, the nonutility subsidiary, is benefiting from increased demand for renewable energy. The company has a sizable presence in onshore wind, solar, and battery storage. The output of most of its assets is contracted, thereby limiting market risk. Its backlog of projects continues to rise. Our 2022 earnings estimate is at the midpoint of NextEra's targeted range of \$2.55-\$2.75 a share.

**This high-quality stock is timely, but has a high valuation.** The dividend yield is not much higher than the median of all dividend-paying equities under our coverage. Total return potential is attractive for the next 18 months, but not for the 3- to 5-year period.

Unfavorable weather patterns lowered the bottom line by \$0.14 a share. Finally, a disallowance of power costs amounted to \$0.15 a share in the fourth quarter. Earnings were much improved in the March period, and we raised our full-year estimate by \$0.10 a share, to the top end of NorthWestern's targeted range of \$3.40-\$3.60.  |       |       |       |                                    |       |

**BUSINESS:** OGE Energy Corp. is a holding company for Oklahoma Gas and Electric Company (OG&E), which supplies electricity to 875,000 customers in Oklahoma (84% of electric revenues) and western Arkansas (8%); wholesale is (8%). Owns 25.5% of Enable Midstream Partners. Electric revenue breakdown: residential, 41%; commercial, 23%; industrial, 9%; oilfield, 8%; other, 19%. Generation sources: gas, 38%; coal, 15%; wind, 5%; purchased, 42%. Fuel costs: 30% of revenues. '20 reported depreciation rate (utility): 2.6%. Has 2,400 employees. Chairman, President and Chief Executive Officer: Sean Trauschke. Incorporated: Oklahoma. Address: 321 North Harvey, P.O. Box 321, Oklahoma City, Oklahoma 73101-0321. Telephone: 405-553-3000. Internet: www.oge.com.

Company is benefiting from the healthy economy in its service area and rate relief in Arkansas through the formula rate plan. **OGE Energy wants to exit its investment in midstream gas.** Its stock price was hurt by the poor performance of Enable units last year, and the company wants to be entirely a regulated utility. Enable has agreed to be acquired by Energy Transfer Partners, another master limited partnership, in a deal that is expected to close by yearend. OGE Energy will wind up with \$35 million and a 3% stake in Energy Transfer, which will eventually be sold. Our estimates and projections will include the company's midstream gas investments until these have been sold.

**OGE Energy's utility subsidiary is having an active year from a regulatory standpoint.** In February, Oklahoma Gas and Electric was affected by a cold spell that caused gas and purchased-power costs to surge. (This is why revenues soared in the first quarter.) The increased costs amounted to \$855 million, most of which applied to the utility's Oklahoma jurisdiction. OG&E has asked the Oklahoma commission, and will ask the Arkansas regulators, to approve the issuance of securitized bonds in order to recover the excess power costs. The issuances will likely occur next year. In October, OG&E will put forth its annual filing in Arkansas under the state's formula rate plan and request an extension of this regulatory mechanism. In late 2021, the utility will file a general rate case in Oklahoma, with an order due 180 days after the filing date.

**We expect the board to raise the dividend, effective with the October payment.** We think the annual increase will be \$0.05 a share (3.1%). This is lower than in recent years because the payout ratio is high. **The stock is untimely, but offers an attractive dividend yield and decent 3- to 5-year total return potential.**

| <b>BUSINESS:</b> Otter Tail Corporation is the parent of Otter Tail Power Company, which supplies electricity to 133,000 customers in Minnesota (53% of retail electric revenues), North Dakota (38%), and South Dakota (9%). Electric rev. breakdown: residential, 32%; commercial & farms, 36%; industrial, 30%; other, 2%. Generating sources: coal, 38%; wind & other, 18%; purchased, 44%. Fuel costs: 12% of revenues. Also has operations in manufacturing and plastics (30% of '20 operating income). '20 deprec. rate: 2.7%. Has 2,100 employees. Chairman: Nathan I. Partain. President & CEO: Charles S. MacFarlane. Inc.: Minnesota. Address: 215 South Cascade St., P.O. Box 496, Fergus Falls, Minnesota 56538-0496. Tel.: 866-410-8780. Internet: www.ottertail.com. |                                       |                 |  |        |           |       |       |       |       |              |           |                  |                    |           |                    |       |       |                                  |       |
| <b>Otter Tail Corporation's earnings will return to a more-normal level in 2022. The oversized profits at the Plastics division are not sustainable. Even so, the \$2.80 a share we look for (up a nickel from our previous report) would still be a healthy tally. Keep in mind that Otter Tail's initial earnings guidance for 2021 (issued in mid-February) was \$2.39-\$2.54 a share.</b>   |                                       |                 |  |        |           |       |       |       |       |              |           |                  |                    |           |                    |       |       |                                  |       |
| <b>Otter Tail Power has a rate case pending in Minnesota.</b> The utility is seeking a rate hike of \$8.2 million (3.8%), based on a 10.2% return on equity and a 52.5% common-equity ratio. An interim increase of \$6.9 million (3.2%) took effect at the start of 2021. Otter Tail wants to place in the rate base a gas-fired plant that was completed earlier this year. The company is also asking for a regulatory mechanism that decouples revenues from volume. The final order is expected in the fourth quarter.   |                                       |                 |  |        |           |       |       |       |       |              |           |                  |                    |           |                    |       |       |                                  |       |
| <b>The stock's dividend yield is below the utility average.</b> The recent quotation is within our 3- to 5-year Target Price Range, so total return potential is just modest.   |                                       |                 |  |        |           |       |       |       |       |              |           |                  |                    |           |                    |       |       |                                  |       |

**BUSINESS:** Public Service Enterprise Group Incorporated is a holding company for Public Service Electric and Gas Company (PSE&G), which serves 2.3 million electric and 1.9 million gas customers in New Jersey, and PSEG Power LLC, a nonregulated power generator with nuclear, gas, and coal-fired plants in the Northeast. PSEG Energy Holdings is involved in renewable energy.

The company no longer breaks out data on electric and gas operating statistics. Fuel costs: 32% of revenues. '20 reported depreciation rates (utility): 1.8%-2.6%. Has 12,800 employees. Chairman, President & CEO: Dr. Ralph Izzo. COO: Ralph A. LaRossa. Inc.: New Jersey. Address: 80 Park Plaza, P.O. Box 1171, Newark, New Jersey 07101-1171. Tel.: 973-430-7000. Internet: www.pseg.com.

**Public Service Enterprise Group is selling its nonnuclear generating assets.** The company wants to reduce its business risk. PSEG has completed the sale of its solar assets, and received \$500 million-\$600 million. However, the company took a \$517 million pretax charge to write down the value of the remaining assets. We figure this amounted to \$0.81 a share after taxes, and treated this as non-recurring. The sale of the remaining assets is expected to be completed in the fourth quarter or the first period of 2022. PSEG plans to use the cash for debt reduction and other purposes.

tric transmission system will be reduced from 11.2% to 9.9% (retroactive to August 1st) if the federal regulators approve a settlement. This would cut annual earning power by \$0.10-\$0.12 a share. PSEG's profit guidance of \$3.40-\$3.55 excludes mark-to-market items and unrealized gains or losses on the nuclear decommissioning trusts.

**PSE&G is faring well, despite the expected cut in transmission rates.** Regulatory mechanisms enable current recovery of most of its capital spending for programs that upgrade its electric and gas system. This is the key factor in the profit improvement we expect in 2022.

**PSEG is investing in offshore wind.** The company has agreed to take a 25% stake in a project. This has profit potential, but comes with construction risk.

**This timely stock is top ranked for Safety.** However, its valuation is high. The dividend yield is only average for a utility. With the recent quotation within our 2024-2026 Target Price Range, total return potential is subpar for the next 18 months and the 3- to 5-year period.

**We expect lower earnings in 2021.** Last year, mark-to-market accounting items and unrealized gains on the nuclear decommissioning trust boosted the bottom line by \$0.18 a share. These items were net negative in the first six months of 2022. PSEG Power, the main nonutility subsidiary, will likely post a decline in income due to lower market prices, higher expenses for a nuclear plant outage, and the absence of tax credits booked last year. Furthermore, the allowed return on equity for Public Service Electric and Gas' elec-

tronic transmission system will be reduced from 11.2% to 9.9% (retroactive to August 1st) if the federal regulators approve a settlement. This would cut annual earning power by \$0.10-\$0.12 a share. PSEG's profit guidance of \$3.40-\$3.55 excludes mark-to-market items and unrealized gains or losses on the nuclear decommissioning trusts.

**PSE&G is faring well, despite the expected cut in transmission rates.** Regulatory mechanisms enable current recovery of most of its capital spending for programs that upgrade its electric and gas system. This is the key factor in the profit improvement we expect in 2022.

**A decision on the rate case of Pinnacle West's utility subsidiary is possible this quarter.** The proceedings have been delayed since Arizona Public Service filed its application in October of 2019. The utility is requesting an increase of \$169 million (5.1%), based on a 10% return on equity (the same as is currently allowed) and a 54.7% common-equity ratio (versus 55.8% currently). The staff of the Arizona Corporation Commission (ACC) is recommending a hike of \$59.8 million (1.8%), based on a 9.4% ROE and a 54.7% common-equity ratio. The state's Residential Utility Consumer Office is proposing a decrease of \$50.1 million (1.5%), based on an 8.72% ROE and a 54.7% common-equity ratio. An administrative law judge will make a recommendation, then the ACC will issue its order.

**Much will depend on the outcome of this rate case.** Pinnacle West hasn't provided earnings guidance because the case hasn't been concluded. The company's financing plans (both debt and equity) and the timing of APS next rate application will also depend on what the ACC does.

**We have raised our 2021 and 2022**

**earnings estimates by \$0.05 a share each year.** First-quarter profits were better than we expected. The fourth-quarter comparison will be easy because a year ago the company booked a charge for the refund of previously collected revenues. We note that our 2021 estimate might well prove optimistic if new tariffs don't take effect until the seasonally strong third quarter is over. The utility is benefiting from solid economic growth in its service territory. Some customers are adding facilities that will begin operating as early as in 2022. Arizona has also become attractive for data centers.

**Finances are in good shape.** The fixed-charge coverage and common-equity ratio are superior to those of most utilities. Pinnacle West has a Financial Strength rating of A+, our second highest.

**This top-quality equity has an attractive dividend yield.** This is nearly one percentage point above the utility average. Total return potential to 2024-2026 is of note, especially for conservative investors. This issue doesn't stand out for the next 18 months, however.

Also has a competitive generation business. Acq'd AGL Resources (renamed Southern Company Gas, 4.3 mill. customers in GA, NJ, IL, VA, & TN) 7/16. Sold Gulf Power 1/19. Electric rev. breakdown: residential, 37%; commercial, 30%; industrial, 19%; other, 14%. Retail   |        |        |        |        |        |        |        |        |        |       |       |        |      |      |      |      |      |
| Annual Load Factor (%)               | 61.2, 60.3, NA  | <b>Southern Company's Georgia Power subsidiary has experienced another delay in its nuclear construction project.</b> The utility is adding two units at the site of the Vogtle station. Several months ago, the company expected to meet or beat the regulatory-approved in-service dates of November, 2021 and November, 2022 for Units 3 and 4, respectively. Delays for various reasons have pushed back the expected in-service dates to the second quarter of 2022 for Unit 3 and the first period of 2023 for Unit 4. This has increased Georgia Power's 45.7% share of the project's cost by \$460 million. Because the utility will be unable to recover this in rates, Southern Company took a \$343 million after-tax charge (\$0.32 a share) against June-period results. We exclude this from our earnings presentation as a nonrecurring item. In order to raise some cash, the company switched its dividend-reinvestment and other stock plans from open-market purchases to new issuances. This is expected to raise \$400 million over the next year. As of June 30th, Georgia Power had an estimated \$1.4 billion of capital and \$500 million of financing costs remaining. |        |        |        |        |        |        |        |        |        |       |       |        |      |      |      |      |      |
| % Change Customers (yr-end)          | +1.0, -8.9, +1.3  | <b>The market has taken the news in stride.</b> Originally, the units were expected to come on line in 2016 and 2017, so Wall Street is not surprised by delays and cost overruns. Indeed, the stock price is down just 3% since our May report, and is up 4% year to date.  |        |        |        |        |        |        |        |        |        |       |       |        |      |      |      |      |      |

| <b>BUSINESS:</b> WEC Energy Group, Inc. (formerly Wisconsin Energy) is a holding company for utilities that provide electric, gas & steam service in WI & gas service in IL, MN, & MI. Customers: 1.6 mill. elec., 2.9 mill. gas. Acq'd Integrys Energy 6/15. Sold Point Beach nuclear plant in '07. Electric revenue breakdown: residential, 41%; small commercial & industrial, 31%; large commercial & industrial, 20%; other, 8%. Generating sources: coal, 31%; gas, 31%; renewables, 5%; purchased, 33%. Fuel costs: 32% of revenues. '20 reported deprec. rates: 2.3%-3.2%. Has 7,300 employees. Chairman: Gale E. Klappa. President & CEO: Kevin Fletcher. Inc.: WI. Address: 231 W. Michigan St., P.O. Box 1331, Milwaukee, WI 53201. Tel.: 414-221-2345. Internet: www.wecenergygroup.com.                 |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |
| <b>We expect WEC Energy Group to post strong earnings growth in 2021 and 2022.</b> The service area's economy is healthy. Peoples Gas in Illinois is benefiting from a regulatory mechanism that enables the utility to earn a return on its main-replacement spending, which is \$280 million-\$300 million a year. Increased income from nonutility renewable-energy investments is another factor. Our 2021 earnings estimate is at the top of management's typically narrow guidance of \$4.02-\$4.05 a share. We look for 6% profit growth next year, within WEC Energy's annual target of 5%-7%.   |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |
| <b>Some regulatory matters are pending.</b> In Illinois, North Shore Gas filed for an increase of \$7.6 million (8.5%), based on a return on equity of 10% and a common-equity ratio of 52.5%. An administrative law judge recommended a hike of \$4.2 million (4.7%), based on an ROE of 9.67% and a common-equity ratio of 51.6%. A decision is expected soon. Michigan Gas Utilities, which requested a hike of \$15.1 million (10.7%), based on an ROE of 10.2% and a common-equity ratio of 52.5%, reached a settlement with some intervenors calling for a \$9.3 million (6.4%) increase, based on an ROE of 9.85% and a common-equity ratio of 51.5%. A ruling is expected soon, with new tariffs taking effect in January. Finally, the company's utilities in Wisconsin are forgoing a rate case this year. |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |
| <b>WEC Energy is investing in nonregulated renewable-energy projects.</b> The company's largest investment, subject to regulatory approval, is \$412 million for a 90% stake in a 250-megawatt facility. This is expected to be on line by the end of 2022. These investments are expected to provide WEC Energy with a return on investment that exceeds that of the regulated utility business.  |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |
| <b>The company wants to build two liquefied natural gas facilities.</b> If the Wisconsin commission approves, the project will have an in-service date in late 2023 at an expected cost of \$370 million.  |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |
| <b>The dividend yield of this top-quality but untimely stock is below the utility average.</b> Total return potential is good for the next 18 months, but low for the 2024-2026 period. The recent quotation is within our 3- to 5-year Target Price Range.  |   |        |        |              |        |           |                                     |                    |        |           |        |            |                                      |        |        |        |        |  |        |

### Company Summary

Enter Symbol

St. Louis, MO-based Ameren Corporation, incorporated in December 1997, is a utility company, which generates and distributes electricity and natural gas to residential, commercial, industrial and wholesale

end markets in Missouri and Illinois. The company serves nearly 2.4 million electric and more than 900,000 gas customers. The company has four business segments - Ameren Missouri, Ameren Illinois Electric Distribution, Ameren Illinois Natural Gas and Ameren Transmission.

Ameren Missouri - This segment includes all the operations of Ameren Missouri. Ameren Missouri generates electricity through its coal-fired, nuclear, hydroelectric, natural gas or oil-fired ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

**Company Summary**

Enter Symbol

Columbus, OH-based American Electric Power Company, Inc. is a public utility holding company, which, through directly and indirectly owned subsidiaries, generates, transmits and distributes electricity, natural gas and other commodities. The company was incorporated in 1906. It is one of the largest integrated utilities in the United States, serving more than 5.5 million customers in 11 states. It has roughly 24,400 MW of generating capacity, of which almost 49.6% are coal-fired as of Dec. 31 and nearly 40,000 miles of electricity transmission system network. Its service area covers Arkansas, Indiana, Kentucky, Louisiana, Michigan, Ohio, Oklahoma, Tennessee, Texas, Virginia and West Virginia. Approximately 70% of ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

## Company Summary

Jackson, MI-based CMS Energy Corporation (CMS), founded in 1886, is the holding company of Consumers Energy Company (Consumers) and CMS Enterprises Company (Enterprises). Consumers is an electric and gas utility company that provides electricity and natural gas to residents of Michigan, and serves customers in all 68 counties of Michigan's Lower Peninsula. The Enterprises segment, through its subsidiaries and equity investments, is engaged primarily in independent power production.

CMS Energy operates principally in three business segments: Consumers electric utility, Consumers gas utility and Enterprises.

Consumers electric utility serves ...

### Company Summary

Richmond, VA-based Dominion Energy Inc. (earlier known as Dominion Resources Inc.) was founded in 1909. The company together with its subsidiaries produces and transports energy in the United States. It is a major energy company engaged in regulated and non-regulated electricity distribution, generation and transmission businesses. In addition, it sells electricity at wholesale prices to rural electric cooperatives, municipalities and through wholesale electricity markets.

Dominion has a portfolio of nearly 27,100 MW of generating capacity, 14,800 miles of natural gas transmission, gathering, storage and distribution pipeline, as well as 6,600 miles of electric transmission and ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

**Company Summary**

Charlotte, NC-based Duke Energy Corporation, incorporated in April 1904, is a diversified energy company with a wide portfolio of domestic and international, natural gas and electric and regulated and unregulated businesses which supply, deliver and process energy in North America and selected international markets. Earlier, Duke Energy operated three business segments, namely Regulated Utilities, International Energy and Commercial Portfolio.

Currently the company primarily operates through three business segments – Electric Utilities and Infrastructure, Gas Utilities and Infrastructure, and Commercial Renewables.

Electric Utilities and Infrastructure segment includes Duke ...

## Company Summary

Enter Symbol

New York-based Consolidated Edison, Inc., also known as ConEd, is a diversified utility holding company, with subsidiaries engaged in both regulated and unregulated businesses. The company was incorporated in 1823.

ConEd's regulated businesses operate through its subsidiaries – Consolidated Edison Company of New York (CECONY), Orange and Rockland Utilities (O&R), Con Edison Clean Energy Businesses, Inc. and Con Edison Transmission, Inc.

CECONY is a regulated utility that provides electricity to around 3.5 million customers and natural gas to 1.1 million customers. CECONY operates the largest ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

### Company Summary

Enter Symbol

Founded in 2017, Evergy, Inc., through its operating subsidiaries Kansas City Power & Light Company (KCP&L) and Westar Energy, Inc., provides clean, safe and reliable energy to 1.6 million customers in Kansas and Missouri. The company, along with its subsidiaries, has 15,373 megawatts (MWs) of owned generating capacity and renewable power purchase agreements. The company projects peak summer demand for 2021 to be 10,300 MWs, supported by the existing generation assets and power purchases.

The company owns, operates and maintains more than 52,800 miles of distribution lines, which include 39,800 circuit miles of overhead distribution lines, ...

## Company Summary

Headquartered in Boise, ID, IDACORP, Inc. is a regulated utility formed in 1998. The company is engaged in the transmission, distribution and sale of electricity services in southern Idaho and eastern Oregon through its primary subsidiary Idaho Power Company (Idaho Power). IDACORP served 587,000 retail customers as of Dec 31, 2020.

Idaho Power's asset base includes 17 hydroelectric generating plants in southern Idaho and eastern Ohio, 3 natural gas-fired generation facilities in southern Idaho, one diesel-powered generator, and interests in two coal-fired steam electric generating plants in Wyoming and Nevada. Out of its total 12,795 MW system generation ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

## Company Summary

Enter Symbol

Incorporated in 1995, Oklahoma City, OK-based OGE Energy Corp. provides energy and offers physical delivery and related services for both electricity and natural gas, primarily in the south central United States. It is the parent company of Oklahoma Gas and Electric Company ("OG&E") and holder of a 26.3% limited partner interest and 50% general partner interest in Enable Midstream Partners. OG&E is the largest electric utility in Oklahoma and its franchised service territory the Fort Smith, AR area. With about 7,122 megawatts of capacity, the company's generation portfolio represents a balanced approach to ...

## Company Summary

Incorporated in 1985, Newark, NJ-based Public Service Enterprise Group Inc. (PEG) or PSEG is a diversified energy company. Its operations are mostly located in the Northeastern and Mid-Atlantic parts of the United States. The company principally operates through two key subsidiaries - PSEG Power LLC (Power) and Public Service Electric and Gas Company (PSE&G).

PSEG Power is a major electricity supplier in the Northeastern and Mid-Atlantic regions. The subsidiary integrates its generating operations and gas supply obligations, including wholesale energy, fuel supply and energy trading functions, through its wholly owned ...

### Company Summary

Enter Symbol

Founded in 1945, Atlanta, GA-based Southern Company is one of the largest utilities in the United States. The company deals with the generation, transmission and distribution of electricity. Following its merger with AGL Resources on July 1, 2016, Southern Company serves approximately nine million customers through its seven electric and natural gas distribution units.

It serves approximately nine million customers and boasts of a generating capacity of 46,000 megawatts, around 200,000 miles of electric transmission and distribution lines, with more than 80,000 miles of natural gas pipelines.

Southern Company's operations ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

## Company Summary

Enter Symbol

WEC Energy Group is a diversified holding company, engaged in the generation and distribution of electricity in southeastern, east central and northern Wisconsin, as well as in the upper peninsula of Michigan.

The company also distributes natural gas; owns, develops and operates coal, oil, gas and renewable fuel-based electricity generating facilities; and invests in other energy-related entities. It also develops and invests in real estate.

WEC Energy was founded in 1981 and is headquartered in Milwaukee, WI.

In June 2015, Wisconsin Energy Corporation ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through June 28, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Rank stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

**TENNESSEE PUBLIC UTILITY COMMISSION  
PETITION OF  
Kingsport Power Company  
DOCKET NO. TPUC 21-00107 Rate Case Discovery  
Data Requests and Requests for the Production  
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF  
THE ATTORNEY GENERAL'S OFFICE  
CA Supp. Set 1  
To Kingsport Power Company**

**Data Request CA 1-162:**

(Supplemental) Provide the monthly (or most frequently available) balance sheet and income statements for APCo for each year from January 1, 2015, to the most currently available in Excel format.

**Response CA 1-162:**

See CA 1-162 Attachments 1 and 2 for the monthly balance sheet and income statements, respectively, for APCo from January 2015 through September 2021.

APCO Corp Consolidated  
Balance Sheet
