Re: IN RE: PETITION OF KINGSPORT POWER COMPANY d/b/a AEP APPALACHIAN POWER FOR A GENERAL RATE CASE DOCKET NO.: 21-00107

Dear Chairman Hill:

On behalf of Kingsport Power Company d/b/a AEP Appalachian Power, we transmit herewith the following:

1. The non-confidential, public version of (a) Kingsport Power Company's Responses to CAD's Second Discovery Request and (b) Kingsport Power Company's Responses to CAD's Supplemental Discovery to its Second Discovery Requests. The original and four copies of the public version of each of the foregoing are being sent by overnight delivery. Additionally, the public version will be made available in electronic format via the iManage System.

2. The full, confidential version of Kingsport Power Company's Response to CAD's Second Discovery Requests, which includes information and documents designated CONFIDENTIAL pursuant to the Protective Order entered in this matter. The confidential version of Kingsport's Responses are being sent by separate overnight delivery to the TPUC and all intervenors. The confidential version is also available to the intervenors in native electronic format via the iManage System.[1]

[1] Kingsport Power Company's Responses to CAD's Supplemental Discovery to its Second Discovery Requests does not contain any confidential information or document. Accordingly, a confidential version of said responses is not necessary and will not be filed.

Please see the public versions of the responses are filed and that the confidential version of the responses to CAD's Second Discovery Request is filed and treated as confidential pursuant to the Protective Order.

Should you have any questions, please do not hesitate to contact the undersigned.

Very sincerely yours,

HUNTER, SMITH & DAVIS, LLP

Joseph B. Harvey

BEFORE THE TENNESSEE PUBLIC UTILITY COMMISSION

NASHVILLE, TENNESSEE

IN RE:

DOCKET NO.: 21-00107

PETITION OF KINGSPORT POWER COMPANY d/b/a AEP APPALACHIAN POWER GENERAL RATE CASE

RESPONSE OF KINGSPORT POWER COMPANY TO SECOND DISCOVERY REQUEST OF THE CONSUMER ADVOCATE DIVISION

Comes Petitioner, Kingsport Power Company d/b/a AEP Appalachian Power ("Company" or "KgPCo") and hereby submits its responses to the Second Discovery Request of the Consumer Advocate Division ("CAD") served on KgPCo on January 28, 2022, subject to general objections set forth herein below and/or any objections to individual requests as contained in said responses.

GENERAL STATEMENTS AND OBJECTIONS

The responses set forth herein constitute the best information presently available to KgPCo. The answers set forth herein are provided without prejudice to KgPCo's right to timely amend, supplement, or change said answers if and when additional, different, or more accurate information becomes available, including the review of documents produced by intervenors. Moreover, said responses are subject to correction for inadvertent errors or omissions, if any such errors or omissions are later found to exist.

By responding to CAD's discovery requests, KgPCo does not waive any objections that may be appropriate to the use, for any purpose, by any party, of any of the information contained in the responses set forth herein or to the admissibility, relevancy, or materiality of such information as to any issue in this case.

The following General Objections apply to each of KgPCo's responses. Specific objections provided in response to any request are made without waiver of or prejudice to any General Objection.

1. KgPCo objects to CAD's requests to the extent they seek to impose on KgPCo any obligations or responsibilities beyond those required by TPUC's Rules & Regulations, the Tennessee Rules of Civil Procedure, and/or the controlling Procedural Scheduled entered in this matter.

2. KgPCo objects to CAD's requests to the extent they seek information protected by the attorney-client privilege, the work product doctrine, and/or any other applicable privilege or immunity (collectively referred to as "privileged" documents or information). Nothing contained in these responses is intended to be, or in any way constitutes, a waiver of any such applicable privilege or immunity.

3. An objection to a request based on privilege should not be construed as a representation that responsive information or documents exists or existed and is being withheld based upon the asserted privilege. Such an objection indicates only that the request is of such a scope as to potentially embrace privileged information or documents.

4. To the extent KgPCo responds to a discovery request to which it has objected, KgPCo reserves the right to maintain such objection with respect to any additional information responsive to such discovery request and such objections are not waived by the furnishing of such additional information.

5. KgPCo objects to CAD's requests to the extent they seek information that is neither relevant to the issues in the case nor proportional to the needs of the case. KgPCo also objects to CAD's requests to the extent they are overly broad.

6. KgPCo objects to CAD's requests that contain terms or phrases that are vague, ambiguous, and undefined; call for speculation, conjecture or opinion; or are based on the assumption of facts not in evidence. Likewise, KgPCo's response to any particular interrogatory in no way constitutes acquiescence or agreement to any definition, characterization, or meaning proposed by CAD.

7. All responses and any production of documents by KgPCo in response to CAD's requests are made based on KgPCo's current knowledge and without waiver of any general or specific objections. KgPCo reserves the right to revise, modify, supplement and/or amend its responses, for form or substance.

Subject to said GENERAL OBJECTIONS and any specific objections made to individual requests as contained in these or upcoming responses, KgPCo responds to the portions of the First Discovery Request as follows.

Kingsport Power Company d/b/a Appalachian Power Company

By: _____
William K. Castle

Title: Director, Regulatory Services VA/TN

COMMONWEALTH OF VIRGINIA)

CITY OF RICHMOND)

WILLIAM K. CASTLE, being first duly sworn upon oath, deposes and says that he is the Director, Regulatory Services VA/TN for Kingsport Power Company d/b/a AEP Appalachian Power, the Petitioner in the above-entitled action, and that he is authorized to make this Affidavit on its behalf; that he has read the foregoing Responses to Discovery Requests, by him subscribed and knows the contents thereof; that there is no single person employed by or otherwise connected with Kingsport Power Company d/b/a AEP Appalachian Power, who has personal knowledge of all the facts and information requested herein; that said Responses were prepared with the assistance and advice of counsel and the assistance of various employees and representatives of the corporation upon which he has relied; that the Responses to Discovery Requests, set forth herein, subject to inadvertent or undiscovered errors, are based on, and therefore necessarily limited by, the records and information still in existence, presently recollected and thus far discovered in the course of the preparation of these Responses; that the foregoing Responses to Discovery Requests are thus based upon corporate knowledge and are true and correct to the best of his knowledge and belief; that consequently, Kingsport Power Company d/b/a AEP Appalachian Power reserves the right to make any changes in the Responses if it appears at any time that omissions or errors have been made therein or that more accurate information is available; and that subject to the limitations set forth herein, the said Responses are true to the best of his knowledge, information and belief.

Joseph B. Harvey

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-001:

Refer to the Company's response to MFR 58J regarding the detailed activity for Accumulated Depreciation since January 2016. Specifically refer to the Accumulated Depreciation activity for September 2016 where it appears that the Company made a material and comprehensive transfer of Accumulated Depreciation between accounts during this month. For example, Distribution Structures & Improvements (Account 36100) shows a transfer of approximately $55 million during this one particular month. Provide the following information related to these transfers in September 2016: a. A copy of the authorization for the transfers; b. A description of the Company's reasoning and rationale for these transfers; c. A copy of the workpapers supporting the amount of transfer for each account; and d. A copy of the full journal entry to carry out the transfers.

Response CA 2-001:

a-d.) As part of the stipulation and settlement agreement (Stipulation) in Docket No. 16-00001, the depreciation expense used was proposed by CPAD witness Novak (Attachment A, Schedule 5 (page 23)), which uses the Company's proposed depreciation rates. As a result of the approved Stipulation, the Company implemented the depreciation rates that were proposed by the Company in accordance with the Stipulation. As part of the depreciation study performed in that case, the Company allocated the total Distribution Plant reserve balance to individual plant accounts because the Distribution Reserve balance was previously reflected as a single total balance. The reserve balance to individual plant accounts used the theoretical reserve that was reflected in the Company's depreciation study.
Please see CA 02-001 Attachment 1 for the allocation described above of the total Distribution Plant reserve balance to individual plant accounts and CA 02-001 Attachment 2 for the related journal entries that were processed by the Company's plant accounting software (PowerPlant).

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-002:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Provide the Company's current and proposed depreciation rates, along with the support for these rates, for the following accounts which are not included in this Exhibit: Account 35215 – Structures & Improvements CCN Account 35316 – Station Equipment – Smart Grid Account 35616 – ROW Clearing – OVH Conductors Account 36216 – Station Equipment – Smart Grid Account 37016 – AMI Meters Account 39716 – Grid Smart Communication Equipment

Response CA 2-002:

Account 35215 – Structures & Improvements CCD - Current and proposed depreciation rates would be the same as account 352 as shown on Exhibit 2, Page 16. In addition, there is $0 investment in account 35215.
Account 35316 – Station Equipment – Smart Grid - Current and proposed depreciation rates are the same as account 353 as shown on Exhibit 2, Page 16.
Account 35610 – ROW Clearing – OVH Conductors - Current and proposed depreciation rates would be the same as account 356 as shown on Exhibit 2, Page 16. In addition, there is $0 investment in account 35610.
Account 35616 – OVH Cond-Dev-Smart Grid - Current and proposed depreciation rates are the same as account 356 as shown on Exhibit 2, Page 16.
Account 36216 – Station Equipment – Smart Grid - Current and proposed depreciation rates are the same as account 362 as shown on Exhibit 2, Page 16.
Account 37016 – AMI Meters Account - Current and proposed depreciation rates are the same as account 370 as shown on Exhibit 2, Page 16.
Account 39716 – Grid Smart Communication Equipment - Current and proposed depreciation rates are the same as account 397 as shown on Exhibit 2, Page 16.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-003:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. There are no current and proposed depreciation or amortization rates for Intangible Plant (Accounts 30200 and 30300 including subaccounts). However, on the (Adj DE-28, AD-39) spreadsheet included with Company witness Allen's testimony, amortization rates are provided for Account 30300. Provide the source, support, and Commission authorization for both the current and proposed amortization rates used by the Company for each subaccount component of Intangible Plant.

Response CA 2-003:

The Company does not include either account 30200 or 30300 in its depreciation studies and therefore is not proposing new depreciation rates for either account. The level of amortization expense being proposed in this case are reflective of the amortization periods and expected plant balances for each group of intangible assets. Please refer to the Company's response to CA 1-009 for the amortization periods used for each group of intangible plant.

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-004:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Specifically refer to Account 37000 – Meters which the Company is proposing to adjust from 4.20% to 9.05% for an increase of 115%. Provide a narrative description of the change in depreciation rates for this particular account along with the workpapers supporting such a change.

Response CA 2-004:

The investment in account 37000 and 37016 mainly consists of both AMR and AMI type meters. Both types of meters have an expected useful life of 15 years. Appalachian Power's depreciation study which was used to calculate depreciation rates for the Company reflects a 15 year average service life, which is the same as Kingsport Power's average service life for this investment.

Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-005:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Specifically refer to the Company's proposed depreciation rates on Transmission Plant (Accounts 35200 – 35616). Explain why the Company is asking the Tennessee Commission to authorize depreciation rates for Transmission Plant that it does not regulate.

Response CA 2-005:

In all but one of its jurisdictions (Ohio), it has been a practice and also a requirement of AEP subsidiaries to include proposed updated depreciation rates for its Transmission Plant accounts. This gives each state Commission an opportunity to review the depreciation rates being proposed and ultimately applied by the Operating Company's Transmission function upon approval. There is not a level of Transmission depreciation expense being proposed by the Company in the Company's cost of service.

Data Request CA 2-024:

Refer to the Company's response to Consumer Advocate DR No. 1-32 regarding the annualized 2022 depreciation expense of $8,316,985 included in Cells G747 through G750 of the "KGPCO Adds and Retires" tab of the (Adj DE-28, AD-39) spreadsheet included with the Company's filing. The Company's response indicates that the individual components of this amount are included in Column H of this spreadsheet. However, we are unable to find a formula that precisely produces the individual amounts totaling to $8,316,985. Provide an updated (Adj DE-28, AD-39) spreadsheet that includes formulas instead of hard-coded amounts for Cells G747 through G750 on the "KGPCO Adds and Retires" tab.

Response CA 2-024:

As stated in the Company's response to CA 1-32, refer to the calculation of the Going Level depreciation expense amounts that total $8,316,985 shown in Column H of the workpaper for Adj DE-27, AD-38 instead of the workpaper for Adj DE-28, AD-39. The functional components of the Going Level depreciation expense totaling $8,316,985 calculated in the workpaper for Adj DE-27, AD-38 were copied into the workpaper for Adj DE-28, AD-39 in Cells G747 through G750 to calculate Adjustment DE-28.

Data Request CA 2-025:

Refer to the Company's response to Consumer Advocate DR No. 1-35 regarding the source and support for the proposed ADIT adjustments totaling $11,650,345. The Company's response indicates that the source and support for this amount is included in the Company's response to Consumer Advocate DR No. 1-36. However, we are unable to precisely tie these adjustments to the Company's response in Consumer Advocate DR No. 1-36. Provide information identifying specifically which spreadsheet, which spreadsheet tab and which spreadsheet cells support the components of the Company's ADIT adjustments totaling $11,650,345.

Response CA 2-025:

Please see CA 1-36, Attachment 3. Tab "Exhibit 2" shows the total $11,650,345 adjustment to ADIT, broken down by component. The first adjustment is (36,062), "to reflect ADFIT as of June 30, 2021". The calculation of this adjustment is on tab "Distribution ADFIT", cells D87 and E87. The second adjustment is 440,032, "To reflect protected excess balances as of December 31, 2022". The calculation of this adjustment is on tab "Distribution ADFIT", cell N62. The third adjustment is (580,423), "To increase ADFIT for book/tax depreciation timing differences as of December 31, 2022". The calculation of this adjustment is on tab "Distribution ADFIT", cells I87, J87, K87, L87, and M87. The last adjustments is 11,826,796, "To reflect the stand-alone NOLC DTA and related deficient tax". The calculation of this adjustment is on tab "Distribution ADFIT", cells F87, G87, H87, and O87. Each number on the "Distribution ADFIT" tab has a supporting workpaper that demonstrates the calculation of each figure. These calculations are contained after tabs "Tax Adj Support à" and "Book Adj Support à". By clicking in the cells of the numbers on the "Distribution ADFIT" tab, the tab which contains the calculation will be identified.

Data Request CA 2-029:

Refer to the Company's response to Consumer Advocate DR No. 1-45a regarding test year billing units. The Company's response indicates that it has obtained proprietary software that enables it to produce test year billing units. The Consumer Advocate has requested multiple years (1/16 - 6/20) of test period billing units, but the Company's response here indicates that the Company is either unable or unwilling to produce this same information for prior periods. At this point, the Consumer Advocate in uncertain that the billing unit data used by the Company can be relied upon in a rate case especially due to the Company's inability to replicate this same information for prior periods. Provide the following information related to this data: a. Explain how the Company intends to move forward with this rate case if it is unable to produce billing unit data for prior periods that can be relied upon. b. Provide the monthly billing unit data from January 2016 through June 2020 that was originally requested in Consumer Advocate DR No. 1-45b.

Response CA 2-029:

The Company objects to this request on the grounds that it is improper under the rules governing discovery, as the request is not related to the claims and defenses in this case. Without waiving this objection, the Company states as follows:

a)The Company has provided test year billing units that produce revenues that are within 0.09% of the amounts recorded on its audited books and records, and as such can be relied upon for a rate proceeding and are relied upon in other states in which AEP companies operate.
b) The Company has provided prior year billing unit data, by tariff code, in response to CA 1-051 and CA 2-053 from December 2015 through September 2021. This information includes the following: metered kWh, billing demand, number of customer count, number of fixture count, water heater kWh blocking, block 1 and block 2 kWh where applicable for tariffs SGS and MGS, off-peak excess demand and reactive demand. The Company has complied with the request for prior year data and any further efforts would be duplicative and therefore unnecessary.

Data Request CA 2-035:

Refer to the Attachment 1-36 (3) and 1-89 and respond to the following: a. Provide a thorough discussion of the nature of the adjustments identified as i) Deficient Tax Related to NOLC DTA as of 12.31.2017 - Protected and ii) Deficient Tax Related to NOLC DTA as of 12.31.2017 – Unprotected including an explanation of why this adjustment is appropriately reflected in Rate Base. b. Refer to tab "51052 – May Per Books", within the attachment CA 1-36 (3). Provide a definition of the ACRS Benefit Normalize category and distinguish it from other similar deductions.

Response CA 2-035:

A. On 12.31.2017, KgPCo had a stand-alone net operating loss carryforward of ($31,858,997) (CA 1-36 Attachment 3, Tab "KGSPT NOL Vintage Year"). Tax Cuts and Jobs Act (TCJA) required the remeasurement of accumulated deferred federal income taxes (ADFIT) from 35% to 21%. In the case of DTAs, this would result in deficient, rather than excess, tax. The resulting deficient tax related to the stand-alone NOLC was (4,390,260) (CA 1-36 Attachment 3, Tab "KGSPT NOL Vintage Year"). Based on a with-and-without analysis, it was determined that 68% of the NOLC was generated due to accelerated depreciation and protected under normalization rules. The remaining 32% is considered unprotected. The with-and-without analysis can be found in CA 1-36 Attachment 1.
The stand-alone NOLC DTA represents a deferred tax benefit that has ultimately reduced the cost of service (COS) and customer rates. The inclusion of the stand-alone DTA in rates recognizes the longstanding ratemaking principle that deferred tax expense and ADFIT are inextricably linked. Income tax expense is recorded on a stand-alone basis, and as such, the taxable losses incurred by KgPCo have been included as a deferred tax benefit, reducing the COS. To exclude the NOLC DTA would result in rate base being reduced by an amount of ADFIT greater than the deferred taxes recognized historically through the ratemaking process. The premise behind excess ADFIT is that there is a dollar-for-dollar return of cash that was over-collected as a result of a rate change. The inclusion of the "Deficient Tax Related to NOLC DTA" in Rate Base and reduction to excess amortization in the COS ensures that the Company credits only the amount of cash that it collected from customers through rates for its deferred taxes. Please see CA 2-35(a) Attachment 1 for an example demonstrating the impact of excluding the NOL Deficient tax from the regulatory liability for excess ADIT.
B. Please see CA 1-90(a) Attachment 1 for a description of all ADFIT adjustments.

Data Request CA 2-036:

Refer to the following table and provide answers to the questions below:
a) For each account listed provide the Company's support for the projected increases in Tennessee Expenses during the Attrition Year.
b) The general ledger support for the test year ending 2021 for each listed account.

Account #	Account	2015-2020 Average	Attrition Year Amount	Percent over 5-year Average
580	Operation Supervision and Engineering	$245,485	$329,749	25.77%
585	Street Lighting and Signal System Expenses	$59,028	$131,778	55.24%
596	Maintenance of Street Lighting and Signal Systems	$24,510	$47,894	48.98%
597	Maintenance of Meters	$4,367	$14,993	73.46%

Response CA 2-036:

a) The Company experienced increases in certain costs due to unavoidable cost increases in materials and labor in the last few years, including the attrition year. Additional contributors to specific accounts include:
580 - The company has experienced increased activity from joint use companies requesting attachments to its facilities as well as higher restoration cost driven by weather.
585 & 596 – Increases in street lighting related spends due to the continued growth of residential and commercial developments within the Kingsport footprint.
597 – Increases in meter costs are associated with the replacement of and conversion of the AMR system to an AMI based system.
b) See CA 2-36 Attachment 1 for the requested GL support for the listed accounts for the test year ended June 30, 2021.

Data Request CA 2-038:

Refer to the Company's response to Consumer Advocate DR No. 1-109. Provide any studies that support the company's assertion that incentive compensation provides benefits to Company ratepayers.

Response CA 2-038:

The Company has not conducted any studies regarding the effectiveness of incentive compensation. Nevertheless, it is clear that the Company's incentive compensation provides substantial benefits to customers, because it is part of a market-competitive total compensation package that enables the Company to attract, engage, motivate and retain the suitable employees necessary to provide its electric service to customers efficiently and effectively. Without incentive compensation, the Company would have to pay higher fixed, base pay to attract and retain suitably skilled, knowledgeable and experienced employees. Incentive compensation also leads to a more engaged and motivated workforce that benefits customers by improving service and reducing cost, when compared to providing market-competitive compensation through base pay alone. The incentive compensation performance measures include customer satisfaction, operations, financial and safety metrics, which ensure that the Company's employees are focused on providing reliable, effective service in a safe manner while also ensuring fiscal responsibility; all of which benefit ratepayers.

Refer to the Company's response to Consumer Advocate DR No. 1-138, (CA_1-138_Attachment 1.xlsx). Provide a narrative response detailing causes of charges within the injuries and damages account 925 increasing by approximately 40% since 2017.

Response CA 2-039:

In 2019, the AEP operating companies changed their allocation methodology for liability insurance from a payroll basis to a revenue basis, in order to more accurately reflect the relative exposures of the AEP operating companies, including Kingsport Power Company. This resulted in various changes to each operating company's allocated premium percentages. Since KgPCo has a relatively small payroll complement compared to its revenues, these changes resulted in higher allocation percentages for liability insurance premiums beginning in 2019.

Response CA 2-043:

The costs provided in the Company's response to CA 1-146 Attachment 1 detailed all allocated AEPSC charges billed to Kingsport in cost of service accounts by allocation factor and cost category. This attachment did not include direct charges billed from AEPSC to Kingsport. The costs provided in the Company's response to CA 1-135 included all costs billed from AEPSC to Kingsport, both direct and allocated, in cost of service accounts. The difference of $1,502,065 represents the direct charges billed from AEPSC to Kingsport. Please see CA 2-043 Attachment 1 for all costs billed from AEPSC to Kingsport in cost of service accounts, by FERC account, allocation factor (direct and allocated), and cost category.

of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-045:

Refer to the Company's response to MFR #45, MFR #11, and 2-45 Attachment 1 (a public report from the Tennessee Bureau of Ethics and Campaign Finance regarding AEP/Kingsport Power). Provide the following: a. Provide the i) Job Title, ii) Department iii) Total Compensation iv) listing of all benefit costs and Kingsport allocated costs associated with the employee who supervises the lobbyist function. b. Provide the i) Job Title, ii) Department iii) Total Compensation iv) listing of all benefit costs and Kingsport allocated costs associated with the employee who supervises the government relations function. c. Provide the job description for both employees identified in a) and b) above.

Response CA 2-045:

The response contains confidential information, and is being provided pursuant to the Protective Order dated September 17, 2021 in this docket.

One employee supervises the lobbyist and governmental relations functions for the Company. The job description associated with that position is the External Affairs Manager.
a. & b. Please see CA 2-045 Confidential Attachment 1 for information related to the costs allocated to the Company associated with the Total Compensation and Kingsport Allocated costs for this position.
c. Please see CA 2-045 Attachment 2 for the job description of that position.

Data Request CA 2-046:

Regarding the response to Consumer Advocate DR No. 1-103 provide the portion of 2019 and 2020 contributions that would reasonably be assigned to Kingsport under a reasonable allocator such as Kingsport compensation or employee count.

Response CA 2-046:

AEP did not make a pension contribution in 2019. Refer to Company witness Allen's Exhibit No. 4 (AWA) which shows a zero contribution to the pension plan for Kingsport in 2019. See CA 2-027 for Willis Towers Watson support of the contribution made in 2020 for Kingsport . AEP determines the amount of the contribution and Willis Towers Watson determines the allocation to the AEP subsidiaries based on each individual company's funded status, prioritizing the contribution to underfunded companies.

Data Request CA 2-048:

Regarding costs allocated or assigned to Kingsport associated with corporate assets, respond to the following: a. Identify the monthly costs incurred in 2021. b. Provide a comprehensive discussion of how these costs are determined at the AEPSC level. c. If such costs are determined based upon a return on assets methodology, indicate whether such allocations are made net of Accumulated Depreciation and Accumulated Deferred Income Taxes. d. If such costs are determined based upon a return on assets methodology, provide the cumulative balances of such assets whose costs are allocated to affiliates, including Kingsport: i. Asset Balances ii. Accumulated Depreciation iii. Accumulated Deferred Income Taxes iv. 2021 Depreciation Expense e. If such costs are determined based upon a return on assets methodology, provide the calculation demonstrating all rate of return calculations used in arriving at the return applied to affiliate assets whose costs are charged to Kingsport.

Response CA 2-048:

AEPSC bills "at-cost", therefore, there is no return component billed to any AEP affiliates, including Kingsport, on any AEPSC assets.

230	9230001	885.80	Outside Svcs Empl - Nonassoc	G0001239	2019NCOV1	262	280	AJECOVDEPT	2020-05-31

Response CA 2-049:

AEPSC Bill - $1,047.68 - Refer to CA 2-49 Attachment 1 for a listing of expenses incurred by AEP Service Corporation on behalf of the AEP operating companies including Kingsport Power related to COVID-19. A portion of these costs were allocated to Kingsport via the AEPSC billing process.
Maximo Work Management - $934.00 - This line item relates to the issuance of inventory from the storeroom. The inventory consisted of face masks and neck gators.
Accounts Payable Accrual - 885.80 - This line item is a payment to Hunter, Smith, and Davis LLP for legal services rendered related to a TPUC COVID-19 docket.
Outside Svcs Empl - $885.80 - This line item has no impact on the COVID costs deferral as it relates to a reclassification of the $885.80 in the above line item (Accounts Payable Accrual) to a different department id. Please see CA 2-49 Attachment 2 for the offsetting credit of ($885.80), which is also reflected in CA 1-76 Attachment 1.

CA Set 2
To Kingsport Power Company

Data Request CA 2-050:

Refer to the response to Consumer Advocate DR No. 1-145, attachment 1 and specifically to the costs allocated to Kingsport under Allocation Factor 58 – Total Assets. With respect to this line item provide the following: a. Provide the underlying support for the Total Assets allocation ratio used to assign these costs to Kingsport. b. Provide the account distribution to which these 2021 costs were charged. c. Identify any AEP affiliates which were excluded in the development of the total asset ratio and explain why they were excluded. d. Provide a comprehensive explanation describing the nature of the costs incurred and allocated using this ratio and how such costs benefit Kingsport. e. Provide the transaction listing supporting such costs charged to Kingsport for December 2021. Of these transactions, provide the underlying supporting documentation for the gross charges for the three largest individual line items charged to Kingsport for the month.

Response CA 2-050:

a. Please see CA 2-50 Attachment 1 for statistic values for Total Assets that set the ratio used to assign costs to Kingsport.
b. Please see CA 2-50 Attachment 2 for account distribution for 2021 AEPSC costs billed to Kingsport, in cost of service accounts, for Allocation Factor 58 - Total Assets.
c. Please see CA 2-50 Attachment 3 for listing of AEP Affiliates excluded from statistic values. These affiliates are excluded because they are legal entities that do not require allocated services from AEPSC. If services are needed, these business units would be directly billed by AEPSC. One entity, Transource Oklahoma, will begin receiving allocated services in 2022.
d. The nature of costs incurred and allocated using the Total Assets ratio are predominantly labor and related labor loadings such as fringes and incentives and also shared services for support from corporate Information Technology, Human Resources and Workplace Services,. These allocated costs are for services being provided from the variety of AEPSC organization departments including but not limited to Chief Executive Office (Audit Services, Legal), Energy Delivery (Operations, Engineering, Field Services), Chief Financial Office (Accounting, Budgeting, Tax and Treasury), Chief Info and Technology Office and the Chief Operating Office (Business Operating/Performance, Grid Solutions).
e. Please see CA 2-50 Attachment 4 for transaction listing supporting December 2021 cost of service billings to Kingsport that were allocated using Total Assets. Also see CA 2-50 Attachment 5 for supporting documentation of the 3 largest individual line items from CA 2-50 Attachment 4.

To Kingsport Power Company

Data Request CA 2-051:

Provide copies of all written customer complaints received by either the Company or TPUC (that is in the Company's possession) via either e-mail or traditional mail for the period January 1, 2019 through December 31, 2021. Further, please provide copies of all written replies provided by the Company in response to the customer complaints.

Response CA 2-051:

This response contains confidential information and is being provided pursuant to the Protective Order dated September 17, 2021 in this docket.

See CA 2-51 Confidential Attachments 1 through 3 for the requested information. Because of the Company's two-year electronic mail retention policy, Company responses to 2019 complaints were retrieved from archive because the emails are no longer available.

The Company has also reviewed the complaints submitted by the TPUC on February 7, 2022 in response to CA's January 28, 2022 records request to TPUC. There are a number of those complaints that the Company has no record of receiving, the complaint was not against KgPCo, or the complainant was not our customer.

Specifically, for 2019 the Company has no record of receiving the following:
Complaint nos. 190003, 190024, 190025, 190458, 190492-495, 190498, 190501, 190502, 190504-509, 190513, 190517, 190521 and 190596. Most of these appear to be from the same neighborhood. Complaint no. 190496 was not our customer.

For 2020, Complaint no. 200020 was not against KgPCo.

For 2021, we have no record of receiving Complaint nos. 210024, 210084, 210182, or 210252. Finally, Complaint no. 210119 was not our customer.

DOCKET NO.: 21-00107

PETITION OF KINGSPORT POWER COMPANY d/b/a AEP APPALACHIAN POWER GENERAL RATE CASE

PARTIAL RESPONSE OF KINGSPORT POWER COMPANY TO CONSUMER ADVOCATE'S SUPPLEMENTAL DISCOVERY TO SECOND DISCOVERY REQUEST

Comes Petitioner, Kingsport Power Company d/b/a AEP Appalachian Power ("Company" or "KgPCo") and hereby submits its partial response to the Supplemental Discovery to Second Discovery Request of the Consumer Advocate Division ("CAD") which was served on KgPCo on February 4, 2022 (the "Second Supplemental Discovery"). KgPCo is providing partial responses as they become available in part to make the information available to the CAD at the earliest possible opportunity. The following portions of the CAD's Second Supplemental Request are being responded to: 53-56, 59-64, 66-71, 75-76, 81; subject to the general objections set forth herein below or any objections to individual requests as contained in said responses.

GENERAL STATEMENTS AND OBJECTIONS

The responses set forth herein constitute the best information presently available to KgPCo. The answers set forth herein are provided without prejudice to KgPCo's right to timely amend, supplement, or change said answers if and when additional, different, or more accurate information becomes available, including the review of any documents produced by intervenors. Moreover, said responses are subject to correction for inadvertent errors or omissions, if any such errors or omissions are later found to exist.

By responding to CAD's discovery requests, KgPCo does not waive any objections that may be appropriate to the use, for any purpose, by any party, of any of the information contained in the responses set forth herein or to the admissibility, relevancy, or materiality of such information as to any issue in this case.

The following General Objections apply to each of KgPCo's responses. Specific objections provided in response to any request are made without waiver of or prejudice to any General Objection.

1. KgPCo objects to CAD's requests to the extent they seek to impose on KgPCo any obligations or responsibilities beyond those required by TPUC's Rules & Regulations, the Tennessee Rules of Civil Procedure, and/or the controlling Procedural Scheduled entered in this matter.

2. KgPCo objects to CAD's requests to the extent they seek information protected by the attorney-client privilege, the work product doctrine, and/or any other applicable privilege or immunity (collectively referred to as "privileged" documents or information). Nothing contained in these responses is intended to be, or in any way constitutes, a waiver of any such applicable privilege or immunity.

3. An objection to a request based on privilege should not be construed as a representation that responsive information or documents exists or existed and is being withheld based upon the asserted privilege. Such an objection indicates only that the request is of such a scope as to potentially embrace privileged information or documents.

4. To the extent KgPCo responds to a discovery request to which it has objected, KgPCo reserves the right to maintain such objection with respect to any additional information

responsive to such discovery request and such objections are not waived by the furnishing of such additional information.

5. KgPCo objects to CAD's requests to the extent they seek information that is neither relevant to the issues in the case nor proportional to the needs of the case. KgPCo also objects to CAD's requests to the extent they are overly broad.

6. KgPCo objects to CAD's requests that contain terms or phrases that are vague, ambiguous, and undefined; call for speculation, conjecture or opinion; or are based on the assumption of facts not in evidence. Likewise, KgPCo's response to any particular interrogatory in no way constitutes acquiescence or agreement to any definition, characterization, or meaning proposed by CAD.

7. All responses and any production of documents by KgPCo in response to CAD's requests are made based on KgPCo's current knowledge and without waiver of any general or specific objections. KgPCo reserves the right to revise, modify, supplement and/or amend its responses, for form or substance.

Subject to said GENERAL OBJECTIONS and any specific objections made to individual requests as contained in these or upcoming responses, KgPCo responds to CAD's Supplemental Discovery to its Second Discovery Request as follows.

Kingsport Power Company d/b/a Appalachian Power Company

CA Supp. Set 2
To Kingsport Power Company

Data Request CA 2-56:

(Supplemental) Refer to (Attachment 1) of the Company's response to Consumer Advocate DR No. 1-51 regarding billing determinants. Specifically refer to tariff code "233-Small General Service - Non-Metered" on the "Fixture Count" tab of (Attachment 1). Provide a narrative explanation of the fixture count determinants for the Small General Service customer class located here along with what tariff rate (if any) is applied to this fixture count.

Response CA 2-56:

Tariff code 233 SGS non-metered serves unmetered account such as signs or billboards. These accounts include an estimated amount of usage each month similar to outdoor lights. The "fixture count" amount is a count of the number of non-metered units. No rates are applied to the fixture count.

The Company's reply indicates this information is contained in the response to Consumer Advocate DR No. 1-51. However, this information does not provide the detail originally requested by usage block. Therefore, as originally requested, provide the monthly number of classrooms (for Tariff Code 641) as well as a breakdown of the monthly KWH billed split between the first 500 KWH and over 500 KWH for Tariff Code 641 from December 2015 through June 2021 in the same format as the Company's response to Consumer Advocate DR No. 2-13 in TRA Docket No. 16-00001.

Response CA 2-64:

Please see CA 2-53 Attachment 1 for the requested information. The same information can be obtained from CA 1-51 Attachment 1 - MFR_12_Supplemental tab "Metered kWh" rows 47 through 133.

CA Supp. Set 2
To Kingsport Power Company

Data Request CA 2-66:

(Supplemental) Regarding the NOLC claimed in this proceeding, refer to the response to Consumer Advocate DR No. 1-36, (attachment C) and respond to the following: a. Refer to tab "51052 May Per Books". Define each item below and explain how such items are recorded on Kingsport's books contrasted with how such items are reflected in Kingsport's tax return: i. Item 908A Book Operating Lease – Liability - $558,761; ii. Item 295A EFB-EFB Gain/Loss on ACRS/MACRS Property - $696,851; and iii. Item 532A – EFB-EFB – Percent Repair Allowance - $573,294.

Response CA 2-66:

Please see CA 1-90(a) Attachment 1 for definitions of 908A, 295A, and 532A. 908A represents a liability for the future book lease liabilities. 295A-EFB and 523A-EFB are part of the book/tax timing difference related to depreciation that is included on the tax return. The "-EFB" codes help differentiate the portion of the book/tax timing difference related to depreciation that is considered normalized vs. flowthrough. Flowthrough timing differences do not impact the deferred tax expense.

Data Request CA 2-70:

(Supplemental) Provide a comprehensive discussion supporting the inclusion in rate base of the $1.4 million of Unprotected Deficient adjustment as incorporated in the "KGSPT NOL Vintage" tab within the response to Consumer Advocate DR No. 1-36. This response should provide documentation that such deficiency was not included in the Company's TCJA proceeding in 2018.

Response CA 2-70:

See response to CA 2-35 and CA 2-35 Attachment 1. The recognition of deficient tax related to the stand-alone NOLC was not included in the TCJA proceeding in 2018 as the inconsistency with normalization and ADIT in rate base was not discovered until the preparation of this proceeding (Direct Testimony, Page 5).

Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Supp. Set 2
To Kingsport Power Company

Data Request CA 2-71:

(Supplemental) Refer to the response to Consumer Advocate DR No. 1-89 where the Company restated the NOLC balance assigned to the Transmission function by utilizing a depreciation and amortization ratio of 9.27%. However, Item 230A within tab "51052" indicates that Transmission accounts for approximately 26.5% of cumulative book/tax timing differences ($3,616,315/$13,640,839). Provide the rationale for the use of the 9.27% allocator in light of the more significant overall book/tax timing differences associated with the depreciation that is then incorporated into tax returns.

Response CA 2-71:

Depreciation and amortization has been utilized as a ratio for the allocation of the NOLC due to the majority of the NOLC having been generated from book/tax timing differences related to accelerated depreciation. However, utilizing the 230A or property related ADIT could also provide a reasonable allocation of the NOLC between Transmission and Distribution.

Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Supp. Set 2
To Kingsport Power Company

Data Request CA 2-75:

(Supplemental) Please refer to Consumer Advocate DR Nos. 1-89(d) and 1-90(c). In the former response the Company supports the concept that the balance of the NOL should reflect the stand-alone operations of the Company and not take into account the operations of affiliates. However, in response 1-90 the Company indicates it has not reviewed its ADIT balances for consistency with the recognition of rate base, expenses and revenues as presented in its filing. Provide a comprehensive response reconciling the need to compute a stand-alone NOL/ADIT balance for ratemaking purposes on one hand, with the lack of review of its ADIT balance to ensure synchronization with its revenue requirement components.

Response CA 2-75:

The intent of the Company's response to CA 1-90 (c) was to convey that there had been no line item by line item analysis prepared of ADIT associated with each item of rate base, expense and revenue in its filing. To the best of the Company's knowledge and belief, the ADIT included in its filing is consistent with the rate base, expense and revenues reflected in its filing. In this regard, adjustments to rate base [Exhibits 1a-4c, EP-37, AD-38, AD-39, and AD-40 (Columns AU-AW)] were utilized to update ADIT to maintain consistency. In addition, by including the stand-alone NOLC as part of ADIT, the Company continues to maintain consistency and appropriately reflects ADIT on a stand-alone basis in its filing.

Data Request CA 2-81:

(Supplemental) Refer to (Exhibits 1a-4c_Kingsport JCOS CCOS (KMJ-MHW)) attachment as filed with the Company's petition. Specifically, refer to tab "1-b JRSSmry" within this file. Provide the source and support for the hardcode value of "0.002901" presented in cell F28 that represents the Company's uncollectible ratio.

Response CA 2-81:

The uncollectible ratio of 0.002901 was calculated by dividing the 2021 Factoring of Accounts Receivable ($439,467) by 2021 Sales of Electricity + Forfeited Discounts ($151,510,353). The source for the amounts used in this calculation was the Kingsport FERC income statement for 12 months ended June 30, 2021. Support for the hardcoded value is attached as CA 2-081 Attachment 1.

CA Set 2
To Kingsport Power Company

Data Request CA 2-001:

Refer to the Company's response to MFR 58J regarding the detailed activity for Accumulated Depreciation since January 2016. Specifically refer to the Accumulated Depreciation activity for September 2016 where it appears that the Company made a material and comprehensive transfer of Accumulated Depreciation between accounts during this month. For example, Distribution Structures & Improvements (Account 36100) shows a transfer of approximately $55 million during this one particular month. Provide the following information related to these transfers in September 2016: a. A copy of the authorization for the transfers; b. A description of the Company's reasoning and rationale for these transfers; c. A copy of the workpapers supporting the amount of transfer for each account; and d. A copy of the full journal entry to carry out the transfers.

Response CA 2-001:

a-d.) As part of the stipulation and settlement agreement (Stipulation) in Docket No. 16-00001, the depreciation expense used was proposed by CPAD witness Novak (Attachment A, Schedule 5 (page 23)), which uses the Company's proposed depreciation rates. As a result of the approved Stipulation, the Company implemented the depreciation rates that were proposed by the Company in accordance with the Stipulation. As part of the depreciation study performed in that case, the Company allocated the total Distribution Plant reserve balance to individual plant accounts because the Distribution Reserve balance was previously reflected as a single total balance. The reserve balance to individual plant accounts used the theoretical reserve that was reflected in the Company's depreciation study.
Please see CA 02-001 Attachment 1 for the allocation described above of the total Distribution Plant reserve balance to individual plant accounts and CA 02-001 Attachment 2 for the related journal entries that were processed by the Company's plant accounting software (PowerPlant).

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-002:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Provide the Company's current and proposed depreciation rates, along with the support for these rates, for the following accounts which are not included in this Exhibit: Account 35215 – Structures & Improvements CCN Account 35316 – Station Equipment – Smart Grid Account 35616 – ROW Clearing – OVH Conductors Account 36216 – Station Equipment – Smart Grid Account 37016 – AMI Meters Account 39716 – Grid Smart Communication Equipment

Response CA 2-002:

Account 35215 – Structures & Improvements CCD - Current and proposed depreciation rates would be the same as account 352 as shown on Exhibit 2, Page 16. In addition, there is $0 investment in account 35215.
Account 35316 – Station Equipment – Smart Grid - Current and proposed depreciation rates are the same as account 353 as shown on Exhibit 2, Page 16.
Account 35610 – ROW Clearing – OVH Conductors - Current and proposed depreciation rates would be the same as account 356 as shown on Exhibit 2, Page 16. In addition, there is $0 investment in account 35610.
Account 35616 – OVH Cond-Dev-Smart Grid - Current and proposed depreciation rates are the same as account 356 as shown on Exhibit 2, Page 16.
Account 36216 – Station Equipment – Smart Grid - Current and proposed depreciation rates are the same as account 362 as shown on Exhibit 2, Page 16.
Account 37016 – AMI Meters Account - Current and proposed depreciation rates are the same as account 370 as shown on Exhibit 2, Page 16.
Account 39716 – Grid Smart Communication Equipment - Current and proposed depreciation rates are the same as account 397 as shown on Exhibit 2, Page 16.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-003:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. There are no current and proposed depreciation or amortization rates for Intangible Plant (Accounts 30200 and 30300 including subaccounts). However, on the (Adj DE-28, AD-39) spreadsheet included with Company witness Allen's testimony, amortization rates are provided for Account 30300. Provide the source, support, and Commission authorization for both the current and proposed amortization rates used by the Company for each subaccount component of Intangible Plant.

Response CA 2-003:

The Company does not include either account 30200 or 30300 in its depreciation studies and therefore is not proposing new depreciation rates for either account. The level of amortization expense being proposed in this case are reflective of the amortization periods and expected plant balances for each group of intangible assets. Please refer to the Company's response to CA 1-009 for the amortization periods used for each group of intangible plant.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-004:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Specifically refer to Account 37000 – Meters which the Company is proposing to adjust from 4.20% to 9.05% for an increase of 115%. Provide a narrative description of the change in depreciation rates for this particular account along with the workpapers supporting such a change.

Response CA 2-004:

The investment in account 37000 and 37016 mainly consists of both AMR and AMI type meters. Both types of meters have an expected useful life of 15 years. Appalachian Power's depreciation study which was used to calculate depreciation rates for the Company reflects a 15 year average service life, which is the same as Kingsport Power's average service life for this investment.

DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-005:

Refer to Exhibit 2, Page 16 of Testimony provided by Company witness Cash regarding the current and proposed depreciation rates. Specifically refer to the Company's proposed depreciation rates on Transmission Plant (Accounts 35200 – 35616). Explain why the Company is asking the Tennessee Commission to authorize depreciation rates for Transmission Plant that it does not regulate.

Response CA 2-005:

In all but one of its jurisdictions (Ohio), it has been a practice and also a requirement of AEP subsidiaries to include proposed updated depreciation rates for its Transmission Plant accounts. This gives each state Commission an opportunity to review the depreciation rates being proposed and ultimately applied by the Operating Company's Transmission function upon approval. There is not a level of Transmission depreciation expense being proposed by the Company in the Company's cost of service.

CA Set 2
To Kingsport Power Company

Data Request CA 2-006:

Refer to the (Adj EP-37) spreadsheet included with the Testimony of Company witness Allen. Specifically refer to the "KGPCO Adds and Retires" tab of this spreadsheet which provides the calculation of the Company's net plant additions by account from July 2021 through December 2022. Provide the Company's total monthly forecast for Plant in Service by account and by month from July 2021 through December 2022.

Response CA 2-006:

Please see CA 2-006 Attachment 1 for the forecasted Plant in Service (CA 02-006), Accumulated Depreciation (CA 02-007) and Depreciation Expense (CA 02-008) from July 2021 through December 2022.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-007:

Refer to the (Adj EP-37) spreadsheet included with the Testimony of Company witness Allen. Specifically refer to the "KGPCO Adds and Retires" tab of this spreadsheet which provides the calculation of the Company's net plant additions by account from July 2021 through December 2022. Provide the Company's total monthly forecast for Accumulated Depreciation by account and by month from July 2021 through December 2022.

Response CA 2-007:

Please see the Company's response to CA 2-006 for the requested Accumulated Depreciation forecast.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-008:

Refer to the (Adj EP-37) spreadsheet included with the Testimony of Company witness Allen. Specifically refer to the "KGPCO Adds and Retires" tab of this spreadsheet which provides the calculation of the Company's net plant additions by account from July 2021 through December 2022. Provide the Company's total monthly forecast for Depreciation Expense by account and by month from July 2021 through December 2022.

Response CA 2-008:

Please see the Company's response to CA 2-006 for the requested Depreciation Expense forecast.

CA Set 2
To Kingsport Power Company

Data Request CA 2-010:

Refer to the (Adj EP-37) spreadsheet included with the Testimony of Company witness Allen. Specifically refer to the "KGPCO Adds and Retires" tab of this spreadsheet for Account 30300 – Intangible Property and provide the following information: a. Provide a detailed listing of all property included in this account segregated between Oracle, Maximo and Other. b. Explain the nature and the Company's rationale for recording continual monthly additions to this Intangible Plant account.

Response CA 2-010:

a) Please see CA 2-010 Attachment 1 for the requested detail by project and work order.
b) The forecasted additions to this Intangible Plant account reflect the Company's continual investment in different IT solutions to operate and manage its business.

of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-011:

Refer to (Attachment 1) in the Company's response to MFR 54 regarding the detailed activity for Plant in Service since January 2016. Specifically refer to the Plant in Service additions for November 2020 for Account 38900 – Land, where it appears that the Company made an acquisition of $311,309. Provide a description of the purpose for this land acquisition along with a copy of the workpapers supporting the recorded amount.

Response CA 2-011:

This addition was for land purchased at the Kingsport Service Center, which was previously leased by the Company. The Company purchased both the land and service center as part of the transaction. Please see CA 2-011 Attachment 1 and CA 2-011 Attachment 2 for additional information regarding the transaction.

Data Request CA 2-015:

Refer to (Attachment 1) in the Company's response to MFR 54 regarding the detailed activity for Plant in Service since January 2016. Specifically refer to the Plant in Service for Account 36100 – Distribution Plant Structures & Improvements for November 2020. Provide a description and supporting cost calculation of the negative plant addition to this account of $-3,104,039.

Response CA 2-015:

The negative plant addition occurred in plant account 36100 when the work order was completed and unitized from GL account 106 to 101. Please see CA 2-015 Attachment 1 for the movement between accounts within the Company's property records.

To Kingsport Power Company

Data Request CA 2-016:

Refer to (Attachment 1) in the Company's response to Consumer Advocate DR No. 1-13 regarding the forecasted plant additions for Account 30300 – Intangible Property. Provide the source and support for each component of the individual monthly amounts totaling $2,849,860 that appear on (Attachment 1) as unreferenced hard-coded numbers.

Response CA 2-016:

Please see CA 02-016 Attachment 1 for project-level support for the updated forecast of plant additions to Account 30300 for August 2021 through December 2022 totaling $2,851,693. Blanket Projects - A lump sum dollar amount (based on a calendar year) for work that is repetitive, predictable in nature or for a specific scope of work. Each job within a blanket has a total dollar limitation that cannot be exceeded. Blanket Projects are authorized annually and must be reauthorized each year.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-017:

Refer to (Attachment 1) in the Company's response to Consumer Advocate DR No. 1-14 regarding the forecasted plant additions for Account 37016 – AMI Meters. Provide the source and support for each component of the individual annual amounts totaling $5,685,472 that appear on (Attachment 1) as unreferenced hard-coded numbers.

Response CA 2-017:

Please see CA 2-017 Attachment 1 for support for the actual plant in service balance of $5,685,472 for AMI Meters as of June 30, 2021. Please note that the forecasted amounts for July-Dec 2021 shown in the workpaper for Adjustment EP-37 were derived by taking 1/2 of the actuals recorded through June 2021 and evenly distributing that amount for the remaining 6 months in 2021.

CA Set 2
To Kingsport Power Company

Data Request CA 2-018:

Refer to (Attachment 1) in the Company's response to Consumer Advocate DR No. 1-15 regarding the forecasted plant additions for Account 39000 – Structures & Improvements. Provide the source and support for each component of the individual monthly amounts totaling $1,130,794 that appear on (Attachment 1) as unreferenced hard-coded numbers.

Response CA 2-018:

Please see CA 2-018 Attachment 1 for project-level support for the updated forecast of plant additions to Account 39000 for August 2021 through December 2022 totaling $1,131,554 . Blanket Projects - A lump sum dollar amount (based on a calendar year) for work that is repetitive, predictable in nature or for a specific scope of work. Each job within a blanket has a total dollar limitation that cannot be exceeded. Blanket Projects are authorized annually and must be reauthorized each year.

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-019:

Refer to (Attachment 1) in the Company's response to Consumer Advocate DR No. 1-16 regarding the forecasted plant additions for Account 39400 – Tools. Provide the source and support for each component of the individual monthly amounts totaling $22,303 that appear on (Attachment 1) as unreferenced hard-coded numbers.

Response CA 2-019:

Please see CA 2-019 Attachment 1 for project-level support for the updated forecast of plant additions to Account 39400 for August 2021 through December 2022 totaling $24,196. Note that the total for forecasted plant additions for Account 39400 – Tools shown in CA 1-16 Attachment 1 was $24,194 instead of $22,303 referenced in the question.

Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-021:

Refer to the Company's response to Consumer Advocate DR No. 1-19 regarding Account 105 – Plant Held for Future Use. Provide an estimate for when these properties will be placed in service.

Response CA 2-021:

Construction on the Lovedale 34.5 KV substation is expected to start by early 2022. The Company's Real Estate department is in the process of submitting a Property Transfer Request (PTR) to Property Accounting to move the land from GL Account 105 to Account 107 during construction.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-023:

Refer to (Attachment 1) in the Company's response to Consumer Advocate DR No. 1-24 regarding the historical balance of RWIP by plant classification from January 2020 to June 2021. Provide this same information included in (Attachment 1) by month for January 2018 through December 2019.

Response CA 2-023:

RWIP by plant classification for years 2018 and 2019 are attached as CA 2-023 Attachments 1 and 2.

KGPCO Total Company RWIP 2018

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-024:

Refer to the Company's response to Consumer Advocate DR No. 1-32 regarding the annualized 2022 depreciation expense of $8,316,985 included in Cells G747 through G750 of the "KGPCO Adds and Retires" tab of the (Adj DE-28, AD-39) spreadsheet included with the Company's filing. The Company's response indicates that the individual components of this amount are included in Column H of this spreadsheet. However, we are unable to find a formula that precisely produces the individual amounts totaling to $8,316,985. Provide an updated (Adj DE-28, AD-39) spreadsheet that includes formulas instead of hard-coded amounts for Cells G747 through G750 on the "KGPCO Adds and Retires" tab.

Response CA 2-024:

As stated in the Company's response to CA 1-32, refer to the calculation of the Going Level depreciation expense amounts that total $8,316,985 shown in Column H of the workpaper for Adj DE-27, AD-38 instead of the workpaper for Adj DE-28, AD-39. The functional components of the Going Level depreciation expense totaling $8,316,985 calculated in the workpaper for Adj DE-27, AD-38 were copied into the workpaper for Adj DE-28, AD-39 in Cells G747 through G750 to calculate Adjustment DE-28.

Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-025:

Refer to the Company's response to Consumer Advocate DR No. 1-35 regarding the source and support for the proposed ADIT adjustments totaling $11,650,345. The Company's response indicates that the source and support for this amount is included in the Company's response to Consumer Advocate DR No. 1-36. However, we are unable to precisely tie these adjustments to the Company's response in Consumer Advocate DR No. 1-36. Provide information identifying specifically which spreadsheet, which spreadsheet tab and which spreadsheet cells support the components of the Company's ADIT adjustments totaling $11,650,345.

Response CA 2-025:

Please see CA 1-36, Attachment 3. Tab "Exhibit 2" shows the total $11,650,345 adjustment to ADIT, broken down by component. The first adjustment is (36,062), "to reflect ADFIT as of June 30, 2021". The calculation of this adjustment is on tab "Distribution ADFIT", cells D87 and E87. The second adjustment is 440,032, "To reflect protected excess balances as of December 31, 2022". The calculation of this adjustment is on tab "Distribution ADFIT", cell N62. The third adjustment is (580,423), "To increase ADFIT for book/tax depreciation timing differences as of December 31, 2022". The calculation of this adjustment is on tab "Distribution ADFIT", cells I87, J87, K87, L87, and M87. The last adjustments is 11,826,796, "To reflect the stand-alone NOLC DTA and related deficient tax". The calculation of this adjustment is on tab "Distribution ADFIT", cells F87, G87, H87, and O87. Each number on the "Distribution ADFIT" tab has a supporting workpaper that demonstrates the calculation of each figure. These calculations are contained after tabs "Tax Adj Support à" and "Book Adj Support à". By clicking in the cells of the numbers on the "Distribution ADFIT" tab, the tab which contains the calculation will be identified.

CA Set 2
To Kingsport Power Company

Data Request CA 2-026:

Refer to the Company's response to Consumer Advocate DR No. 1-38 regarding the source and support for the PJM allocation for Other Taxes of $245,127. Provide the support for the total Other Tax amount along with the PJM allocation factor that has been applied to reach the $245,127 amount.

Response CA 2-026:

Real and Personal Property Tax amount of $245,127 came from the FERC functional Income Statement for Transmission and was directly assigned. Support is attached as CA 2-026 Attachment 1.

CA Set 2
To Kingsport Power Company

Data Request CA 2-027:

Refer to the (KMJ – Workpaper 3 – JCOS KgPCo Working Capital) spreadsheet included with the Company's filing. Specifically refer to Account 1650010 – Prepaid Pension Benefits on this spreadsheet which has a test period balance of $4,141,123. Provide a copy of the Company's statements from its actuary supporting this test period amount.

Response CA 2-027:

See CA 2-027 Attachment 1 for detail supporting the 1650010 Prepaid Pension account activity during the test year. Balances recorded to this account can be verified against the referenced schedules from Willis Towers Watson for expenses and contributions.

Account 1650010 Prepaid Pension

Account activity is the cumulative balance of Pension contributions and Pension Expense as calculated by AEP's actuaries, Willis Towers Watson (WTW)

Opening Balance 7/1/2020	**4,121,257**	
Jul-20 Expense	(26,723)	WTW provided Actual
Aug-20 Expense	(26,723)	WTW provided Actual
Sep-20 Expense	(26,723)	WTW provided Actual
Sep-20 Contribution	388,000	AEP determines the contribution amount, WTW determines the allocation to each company based on funded positions

PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-029:

Refer to the Company's response to Consumer Advocate DR No. 1-45a regarding test year billing units. The Company's response indicates that it has obtained proprietary software that enables it to produce test year billing units. The Consumer Advocate has requested multiple years (1/16 - 6/20) of test period billing units, but the Company's response here indicates that the Company is either unable or unwilling to produce this same information for prior periods. At this point, the Consumer Advocate in uncertain that the billing unit data used by the Company can be relied upon in a rate case especially due to the Company's inability to replicate this same information for prior periods. Provide the following information related to this data: a. Explain how the Company intends to move forward with this rate case if it is unable to produce billing unit data for prior periods that can be relied upon. b. Provide the monthly billing unit data from January 2016 through June 2020 that was originally requested in Consumer Advocate DR No. 1-45b.

Response CA 2-029:

The Company objects to this request on the grounds that it is improper under the rules governing discovery, as the request is not related to the claims and defenses in this case. Without waiving this objection, the Company states as follows:

a)The Company has provided test year billing units that produce revenues that are within 0.09% of the amounts recorded on its audited books and records, and as such can be relied upon for a rate proceeding and are relied upon in other states in which AEP companies operate.
b) The Company has provided prior year billing unit data, by tariff code, in response to CA 1-051 and CA 2-053 from December 2015 through September 2021. This information includes the following: metered kWh, billing demand, number of customer count, number of fixture count, water heater kWh blocking, block 1 and block 2 kWh where applicable for tariffs SGS and MGS, off-peak excess demand and reactive demand. The Company has complied with the request for prior year data and any further efforts would be duplicative and therefore unnecessary.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-031:

Refer to the Company's revenue requirement exhibits and the "JCOS Detail 2-a" tab. Provide the support for the hard coded numbers for Current and Deferred 'PJM Owner' amounts in cells F403 and F404.

Response CA 2-031:

Please see CA 1-36 Attachment 4, "Summary" tab, Column H.

TENNESSEE PUBLIC UTILITY COMMISSION
PETITION OF
Kingsport Power Company
DOCKET NO. TPUC 21-00107 Rate Case Discovery
Data Requests and Requests for the Production
of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-032:

Refer to the Confidential response to Consumer Advocate DR No. 1-89 (c) (Confidential). Provide the support for the Depreciation and Amortization Allocator used to assign the Deferred Tax Asset to PJM Operations.

Response CA 2-032:

Support for the Depreciation and Amortization Allocator is attached as CA 2-032 Attachment 1.

CA 2-032
Attachment 1
Page 1 of 1

Kingsport Power Co.
KgPCo Jurisdictional Allocation Factors
Twelve Months Ended June 30, 2021

Line No.	DESCRIPTION	KgPCo	PJM Transmission Owner	check (SB=0 or 1)
1	Demand	1.0000000	0.0000000	-
2	Energy	1.0000000	0.0000000	-

10	Total Net Plant	0.7877941	0.2122059	-
11	Payroll Labor Factor	0.8734545	0.1265455	-
12	O&M	0.9929757	0.0070243	-
	Depreciation & Amortization	0.9072894	0.0927106	-

Allocators were calculated by taking Total Depreciation & Amortization Expense from the JCOS Details 2a tab (Column D368), of $8,898,343.

KgPCo Depreciation & Amortization Allocator was calculated by taking the "Total For Rate Making Before Adjustments" amount (column G368), of $8,073,372 and dividing it by $8,898,343. $8,073,372 / $8,898,343 = 0.9072894

PJM Transmission Depreciation & Amortization Allocator was calculated by taking the "PJM Transmssion Owner" amount (column F368), of $824,971 and dividing it by $8,898,343. $824,971/ $8,898,343 = 0.0927106

To Kingsport Power Company

Data Request CA 2-034:

Refer to the Revenue Requirement Exhibits 1a – 4c. Provide a comprehensive discussion why there are no Current Income Tax impacts identified within cells AT 402: AY 402 given that there are Rate Base adjustments identified within AT 159: AY 159.

Response CA 2-034:

Columns AT:AY of tab "JCOS Adjustments 2-b" represent rate base adjustments only. Any current tax impacts related to updates in accumulated depreciation and fixed assets are captured in adjustment FIT 34-35, which is columns AP:AR. Please see CA 1-36 Attachment 4 for detail on the impact to current tax expense, tab "CFIT", cells S30 and S31 for the adjustment to current tax expense for changes to depreciation.

CA Set 2
To Kingsport Power Company

Data Request CA 2-035:

Refer to the Attachment 1-36 (3) and 1-89 and respond to the following: a. Provide a thorough discussion of the nature of the adjustments identified as i) Deficient Tax Related to NOLC DTA as of 12.31.2017 - Protected and ii) Deficient Tax Related to NOLC DTA as of 12.31.2017 – Unprotected including an explanation of why this adjustment is appropriately reflected in Rate Base. b. Refer to tab "51052 – May Per Books", within the attachment CA 1-36 (3). Provide a definition of the ACRS Benefit Normalize category and distinguish it from other similar deductions.

Response CA 2-035:

A. On 12.31.2017, KgPCo had a stand-alone net operating loss carryforward of ($31,858,997) (CA 1-36 Attachment 3, Tab "KGSPT NOL Vintage Year"). Tax Cuts and Jobs Act (TCJA) required the remeasurement of accumulated deferred federal income taxes (ADFIT) from 35% to 21%. In the case of DTAs, this would result in deficient, rather than excess, tax. The resulting deficient tax related to the stand-alone NOLC was (4,390,260) (CA 1-36 Attachment 3, Tab "KGSPT NOL Vintage Year"). Based on a with-and-without analysis, it was determined that 68% of the NOLC was generated due to accelerated depreciation and protected under normalization rules. The remaining 32% is considered unprotected. The with-and-without analysis can be found in CA 1-36 Attachment 1.
The stand-alone NOLC DTA represents a deferred tax benefit that has ultimately reduced the cost of service (COS) and customer rates. The inclusion of the stand-alone DTA in rates recognizes the longstanding ratemaking principle that deferred tax expense and ADFIT are inextricably linked. Income tax expense is recorded on a stand-alone basis, and as such, the taxable losses incurred by KgPCo have been included as a deferred tax benefit, reducing the COS. To exclude the NOLC DTA would result in rate base being reduced by an amount of ADFIT greater than the deferred taxes recognized historically through the ratemaking process. The premise behind excess ADFIT is that there is a dollar-for-dollar return of cash that was over-collected as a result of a rate change. The inclusion of the "Deficient Tax Related to NOLC DTA" in Rate Base and reduction to excess amortization in the COS ensures that the Company credits only the amount of cash that it collected from customers through rates for its deferred taxes. Please see CA 2-35(a) Attachment 1 for an example demonstrating the impact of excluding the NOL Deficient tax from the regulatory liability for excess ADIT.
B. Please see CA 1-90(a) Attachment 1 for a description of all ADFIT adjustments.

	NOLC Deficient Tax Offset Included	**Taxable Income**	Tax Rate	**(DTL)/ DTA**	Reduction to Tax Rate	**Reg. (Liability)**
	Pre-Tax Book Income	10,000				
	Accelerated Tax Deduction Reducing Income to Zero	(10,000)	x 35%	(3,500)	x 14%	(1,400)
	Remaining Accelerated Tax Depreciation	(1,000)	x 35%	(350)	x 14%	(140)
	Net Taxable Income	(1,000)		(3,850)		(1,540)
	Net Tax Loss Carry Forward	1,000	x 35%	350	x 14%	140
	Taxable Income After NOL	-				
	Statutory Tax Rate	35%				
	Total	**-**		**(3,500)**		**(1,400)**
35%	**Current Tax:**	**-**				
35%	**Deferred Tax (collected from customers & paid in the future)**	**(3,500)**				
	Future Cash due to IRS after rate change:	**(2,100)**				
	Cash due to customers (Excess Tax collected):	**(1,400)**				
	Cash Defecit/(Surplus)	**-**				

	NOLC Deficient Tax Offset Excluded	**Taxable Income**	Tax Rate	**(DTL)/ DTA**	Reduction to Tax Rate	**Reg. (Liability)**
	Pre-Tax Book Income	10,000				
	Accelerated Tax Deduction Reducing Income to Zero	(10,000)	x 35%	(3,500)	x 14%	(1,400)
	Remaining Accelerated Tax Depreciation	(1,000)	x 35%	(350)	x 14%	(140)
	Net Taxable Income	(1,000)		(3,850)		(1,540)
	Net Tax Loss Carry Forward	1,000	x 35%	-	x 14%	-
	Taxable Income After NOL	-				
	Statutory Tax Rate	35%				
	Total	**-**		**(3,850)**		**(1,540)**
				(1)		**(2)**
35%	**Current Tax:**	**-**				
35%	**Deferred Tax (collected from customers & paid in the future)**	**(3,500)**				
	Future Cash due to IRS after rate change:	**(2,100)**				
	Cash due to customers (Excess Tax collected):	**(1,540)**				
	Cash Defecit/(Surplus)	**140**				

(1) Current and deferred tax expense remains the same, but ADFIT is over-stated by excluding the NOLC

(2) The revaluation of ADFIT as a result of the tax rate change would result in a regulatory liability of $1,540 when the utility has only collected $3,500 deferred tax expense from customers. With $3,500 cash received and $1,540 payable to customers, this results in the company only having $1,960 to cover the $2,100 payable to the IRS at a future time.

CA Set 2
To Kingsport Power Company

Data Request CA 2-036:

Refer to the following table and provide answers to the questions below:
a) For each account listed provide the Company's support for the projected increases in Tennessee Expenses during the Attrition Year.
b) The general ledger support for the test year ending 2021 for each listed account.

Account #	Account	2015-2020 Average	Attrition Year Amount	Percent over 5-year Average
580	Operation Supervision and Engineering	$245,485	$329,749	25.77%
585	Street Lighting and Signal System Expenses	$59,028	$131,778	55.24%
596	Maintenance of Street Lighting and Signal Systems	$24,510	$47,894	48.98%
597	Maintenance of Meters	$4,367	$14,993	73.46%

Response CA 2-036:

a) The Company experienced increases in certain costs due to unavoidable cost increases in materials and labor in the last few years, including the attrition year. Additional contributors to specific accounts include:
580 - The company has experienced increased activity from joint use companies requesting attachments to its facilities as well as higher restoration cost driven by weather.
585 & 596 – Increases in street lighting related spends due to the continued growth of residential and commercial developments within the Kingsport footprint.
597 – Increases in meter costs are associated with the replacement of and conversion of the AMR system to an AMI based system.
b) See CA 2-36 Attachment 1 for the requested GL support for the listed accounts for the test year ended June 30, 2021.
