Data Request CA 2-038:

Refer to the Company's response to Consumer Advocate DR No. 1-109. Provide any studies that support the company's assertion that incentive compensation provides benefits to Company ratepayers.

Response CA 2-038:

The Company has not conducted any studies regarding the effectiveness of incentive compensation. Nevertheless, it is clear that the Company's incentive compensation provides substantial benefits to customers, because it is part of a market-competitive total compensation package that enables the Company to attract, engage, motivate and retain the suitable employees necessary to provide its electric service to customers efficiently and effectively. Without incentive compensation, the Company would have to pay higher fixed, base pay to attract and retain suitably skilled, knowledgeable and experienced employees. Incentive compensation also leads to a more engaged and motivated workforce that benefits customers by improving service and reducing cost, when compared to providing market-competitive compensation through base pay alone. The incentive compensation performance measures include customer satisfaction, operations, financial and safety metrics, which ensure that the Company's employees are focused on providing reliable, effective service in a safe manner while also ensuring fiscal responsibility; all of which benefit ratepayers.

Data Request CA 2-039:

Refer to the Company's response to Consumer Advocate DR No. 1-138, (CA_1-138_Attachment 1.xlsx). Provide a narrative response detailing causes of charges within the injuries and damages account 925 increasing by approximately 40% since 2017.

Response CA 2-039:

In 2019, the AEP operating companies changed their allocation methodology for liability insurance from a payroll basis to a revenue basis, in order to more accurately reflect the relative exposures of the AEP operating companies, including Kingsport Power Company. This resulted in various changes to each operating company's allocated premium percentages. Since KgPCo has a relatively small payroll complement compared to its revenues, these changes resulted in higher allocation percentages for liability insurance premiums beginning in 2019.

of Documents by the THE CONSUMER PROTECTION AND ADVOCATE DIVISION OF THE ATTORNEY GENERAL'S OFFICE
CA Set 2
To Kingsport Power Company

Data Request CA 2-041:

Refer to the Company's response to Consumer Advocate DR No. 1-146, (CA_1-146_Attachment 1.xlsx). Provide a narrative response detailing the reasoning for allocating $86,238 in severance costs to Kingsport. Additionally, provide a narrative response on what/whom these severance costs relate to and the Kingsport account these costs were booked to.

Response CA 2-041:

These severance costs relate to AEPSC departments (primarily the Chief Executive Officer department) that provide service to all AEP affiliates, including Kingsport. Therefore, these severance costs are allocated to the AEP affiliates that benefitted from the services. All of the severance costs allocated to Kingsport in cost of service accounts were recorded to FERC Account 9200.

Data Request CA 2-042:

Refer to the Company's response to Consumer Advocate DR No. 1-135 attachment 1. Provide a similar example for the company's proposed attrition period.

Response CA 2-042:

AEPSC test year costs billed to Kingsport, as provided in the Company's response to CA 1-135, are reflective of ongoing charges and, therefore, are representative of AEPSC billings to Kingsport for the attrition period as requested in the cost of service with the exception of the portion of Adjustment OM-11 related to estimated billings from AEPSC to Kingsport for this base rate case.

Data Request CA 2-043:

Refer to the Company's responses to the Consumer Advocate's 1st set of discovery included in 1-135 and 1-146. Provide an attachment correlating the charges shown on 1-146 in the same format as 1-135.

Response CA 2-043:

The costs provided in the Company's response to CA 1-146 Attachment 1 detailed all allocated AEPSC charges billed to Kingsport in cost of service accounts by allocation factor and cost category. This attachment did not include direct charges billed from AEPSC to Kingsport. The costs provided in the Company's response to CA 1-135 included all costs billed from AEPSC to Kingsport, both direct and allocated, in cost of service accounts. The difference of $1,502,065 represents the direct charges billed from AEPSC to Kingsport. Please see CA 2-043 Attachment 1 for all costs billed from AEPSC to Kingsport in cost of service accounts, by FERC account, allocation factor (direct and allocated), and cost category.

Regarding the response to Consumer Advocate DR No. 1-103 provide the portion of 2019 and 2020 contributions that would reasonably be assigned to Kingsport under a reasonable allocator such as Kingsport compensation or employee count.

Response CA 2-046:

AEP did not make a pension contribution in 2019. Refer to Company witness Allen's Exhibit No. 4 (AWA) which shows a zero contribution to the pension plan for Kingsport in 2019. See CA 2-027 for Willis Towers Watson support of the contribution made in 2020 for Kingsport . AEP determines the amount of the contribution and Willis Towers Watson determines the allocation to the AEP subsidiaries based on each individual company's funded status, prioritizing the contribution to underfunded companies.

Data Request CA 2-048:

Regarding costs allocated or assigned to Kingsport associated with corporate assets, respond to the following: a. Identify the monthly costs incurred in 2021. b. Provide a comprehensive discussion of how these costs are determined at the AEPSC level. c. If such costs are determined based upon a return on assets methodology, indicate whether such allocations are made net of Accumulated Depreciation and Accumulated Deferred Income Taxes. d. If such costs are determined based upon a return on assets methodology, provide the cumulative balances of such assets whose costs are allocated to affiliates, including Kingsport: i. Asset Balances ii. Accumulated Depreciation iii. Accumulated Deferred Income Taxes iv. 2021 Depreciation Expense e. If such costs are determined based upon a return on assets methodology, provide the calculation demonstrating all rate of return calculations used in arriving at the return applied to affiliate assets whose costs are charged to Kingsport.

Response CA 2-048:

AEPSC bills "at-cost", therefore, there is no return component billed to any AEP affiliates, including Kingsport, on any AEPSC assets.

Response CA 2-049:

AEPSC Bill - $1,047.68 - Refer to CA 2-49 Attachment 1 for a listing of expenses incurred by AEP Service Corporation on behalf of the AEP operating companies including Kingsport Power related to COVID-19. A portion of these costs were allocated to Kingsport via the AEPSC billing process.
Maximo Work Management - $934.00 - This line item relates to the issuance of inventory from the storeroom. The inventory consisted of face masks and neck gators.
Accounts Payable Accrual - 885.80 - This line item is a payment to Hunter, Smith, and Davis LLP for legal services rendered related to a TPUC COVID-19 docket.
Outside Svcs Empl - $885.80 - This line item has no impact on the COVID costs deferral as it relates to a reclassification of the $885.80 in the above line item (Accounts Payable Accrual) to a different department id. Please see CA 2-49 Attachment 2 for the offsetting credit of ($885.80), which is also reflected in CA 1-76 Attachment 1.

To Kingsport Power Company

Data Request CA 2-050:

Refer to the response to Consumer Advocate DR No. 1-145, attachment 1 and specifically to the costs allocated to Kingsport under Allocation Factor 58 – Total Assets. With respect to this line item provide the following: a. Provide the underlying support for the Total Assets allocation ratio used to assign these costs to Kingsport. b. Provide the account distribution to which these 2021 costs were charged. c. Identify any AEP affiliates which were excluded in the development of the total asset ratio and explain why they were excluded. d. Provide a comprehensive explanation describing the nature of the costs incurred and allocated using this ratio and how such costs benefit Kingsport. e. Provide the transaction listing supporting such costs charged to Kingsport for December 2021. Of these transactions, provide the underlying supporting documentation for the gross charges for the three largest individual line items charged to Kingsport for the month.

Response CA 2-050:

a. Please see CA 2-50 Attachment 1 for statistic values for Total Assets that set the ratio used to assign costs to Kingsport.
b. Please see CA 2-50 Attachment 2 for account distribution for 2021 AEPSC costs billed to Kingsport, in cost of service accounts, for Allocation Factor 58 - Total Assets.
c. Please see CA 2-50 Attachment 3 for listing of AEP Affiliates excluded from statistic values. These affiliates are excluded because they are legal entities that do not require allocated services from AEPSC. If services are needed, these business units would be directly billed by AEPSC. One entity, Transource Oklahoma, will begin receiving allocated services in 2022.
d. The nature of costs incurred and allocated using the Total Assets ratio are predominantly labor and related labor loadings such as fringes and incentives and also shared services for support from corporate Information Technology, Human Resources and Workplace Services,. These allocated costs are for services being provided from the variety of AEPSC organization departments including but not limited to Chief Executive Office (Audit Services, Legal), Energy Delivery (Operations, Engineering, Field Services), Chief Financial Office (Accounting, Budgeting, Tax and Treasury), Chief Info and Technology Office and the Chief Operating Office (Business Operating/Performance, Grid Solutions).
e. Please see CA 2-50 Attachment 4 for transaction listing supporting December 2021 cost of service billings to Kingsport that were allocated using Total Assets. Also see CA 2-50 Attachment 5 for supporting documentation of the 3 largest individual line items from CA 2-50 Attachment 4.
