Routing of Traffic Through a Third Party Transit Provider Amendment

ARTICLE I. DEFINITIONS

1. DEFINITIONS

“InterMTA Traffic” for purposes of intercarrier compensation under this Agreement, InterMTA Traffic means telecommunications traffic between CenturyLink and a CMRS provider that, at the beginning of the call, originates in one Major Trading Area but terminates in a different Major Trading Area. For purposes of determining whether traffic originates and terminates in different MTAs, and therefore whether the traffic is InterMTA, the location of the landline end user and the location of the cell site that serves the mobile end user at the beginning of the call may be used.

“Local Traffic (IntraMTA)” means, for purposes of reciprocal compensation under this Agreement, telecommunications traffic between CenturyLink and Carrier that, at the beginning of the call, originates and terminates within the same MTA, as defined in 47 CFR §24. 202 and that is Non-Access Telecommunications Traffic as set forth in 47 CFR §51.701(b) that is originated or terminated as wireless traffic by Carrier’s end user. This shall not affect CenturyLink’s landline calling scope or other interexchange arrangements which shall be determined in accordance with Commission-approved local calling areas.

“Transit Traffic” means traffic that is originated by Carrier, transited through CenturyLink, and terminated to a third party Telecommunications Carrier’s network, or originated on a third party Telecommunications Carrier’s network, transited through CenturyLink, and terminated on Carrier’s network.

1. Carrier may designate a Third Party Transit Provider or more than one Third Party Transit Providers to exchange InterMTA and IntraMTA traffic between the Parties’ networks under the following conditions:

1.1 Prior to the use of each Third Party Transit Provider to exchange traffic between the Parties, Carrier will identify the transiting party (“Third Party Transit Provider”), and CenturyLink will confirm that the Third Party Transit Provider Amendment to the Third Party Transit Provider’s current interconnection agreement with CenturyLink has been completed.

1.2 Prior to the use of a Third Party Transit Provider(s) to exchange traffic between the Parties and after the effective date of the amendment required in Section 1.1. Carrier must designate its NPA-NXX codes in the LERG as homing to each Third Party Transit Provider’s Tandem Switch in the LATA or a Third Party Transit Provider’s Tandem designation in the LERG for homing of local and/or intraLATA codes within the LATA. Neither CenturyLink nor Carrier will route through a Third Party Transit Provider’s Tandem Switch until and unless this designation is made. CenturyLink may route its originating or transit traffic bound for the NPA-NXX(s) designated under this Section to the Third Party Transit Provider’s Tandem Switch or may choose to route traffic directly to the Carrier’s end office. After the Parties have established Direct Interconnection between their networks, neither Party may continue to transmit its originated InterMTA, IntraMTA and transit traffic indirectly.

1.3 Each Party that originates the traffic is responsible for payment of any

charges incurred and/or billed by a Third Party Transit Provider, for transit, transport and/or termination compensation arrangements that may or may not be contained in separate agreements with CenturyLink or Carrier. This applies for each Party's originated traffic but not limited to traffic that transits the network of the other Party or the Third Party Transit Provider. For traffic terminating to CenturyLink or Carrier, the bill and keep provisions of the Agreement will govern any compensation between CenturyLink and Carrier. Carrier represents and warrants that it has an agreement with each Third Party Transit Provider that complies with the requirements of this Section 1.3. Each Third Party Transit Provider will be responsible for all MOU with Carrier in both directions in the calculation of the Third Party Transit Provider's allocation of shared costs for transport.

1.4 No other traffic shall be exchanged pursuant to the provisions of Section 1 and its subsections.

1.5 Carrier will pass unaltered to the Third Party Transit Provider(s) all signaling information (e.g., originating Calling Party Number and destination called party number, etc.) per 47 C.F.R. § 64.1601 and industry standards.

1.6 This Section 1 and accompanying sub-sections do not otherwise modify or supersede the terms and conditions of any agreement that Carrier may have with CenturyLink, including tariffs, interconnection and/or access agreements.

1.7 Carrier will be responsible to provide originating records, in EMI Category 11-01-XX format to CenturyLink, if a Third Party Transit Provider is unable to provide transit records.
