Re: *In Re: Limestone Water Utility Operating Company, LLC Notice Regarding Extension of Service to Contiguous Territory Pursuant to TPUC Rule 1220-01-04-.13*, TPUC Docket No. 22-00073

Dear Tyler:

Tennessee Public Utility Commission ("Commission" or TPUC) Staff has reviewed the contiguous territory notice filing submitted by Limestone Water Utility Operating Company, LLC ("Limestone") in accordance with TPUC Rule 1220-01-04-.13. The Rule provides that a notice concerning the service to contiguous territory is to open a new docket and that, "[a] commission order, including appropriate findings of fact and conclusions of law, shall be entered not more than sixty (60) days from the filing of the written notice and all required documentation..."¹ The order, therefore, cannot be issued until all required documentation is submitted and the sixty (60) day clock does not begin until such time.

The original notice and related documents were submitted in a prior Limestone docket, TPUC Docket No. 21-00053. As per the requirements of the rule, the Commission has moved these filings to the new docket, Docket No. 22-00073, as referenced above. Future filings related to this contiguous territory notice should be submitted in the new docket number and the order will be issued from the new docket.

Upon review of the submitted notice and documentation, Commission Staff has determined that additional documentation and information is required to complete the notice and commence the clock for filing of an order. Please provide the following documents and information for completion of the notice filing:

¹ Tenn. R. & Regs. 1220-04-01-.13(6).

1. Please clarify the contiguous territory parcels to be served. The letter/notice indicates three (3) parcels (102 Bobby Drive, 104 Bobby Drive, and 1200 Hillsboro Road); the Affidavit of Mr. Sims indicates two (2) parcels (102 Bobby Drive, 104 Bobby Drive); and the permit information from the printout of the Tennessee Department of Environment and Conservation ("TDEC") dashboard indicates one (1) parcel (104 Bobby Drive).
2. Please provide a map of the Grasslands service area with a clear indication of each contiguous territory parcel(s) to be served under the notice in accordance with 1220-01-04-.13(4)(b). The maps provided with the original filing are not clear with regard to the existing service area and the contiguous territory(ies) to be served.
3. The TDEC approval provided appears to address extension of service to 104 Bobby Drive only. To the extent that additional parcel(s) are to be served by the proposed extension to contiguous territory(ies), please provide TDEC approvals addressing extension to such additional parcel(s) in accordance with Rule 1220-04-01.13(4)(c).
4. Please provide a copy of public notice sent to customers of the Grasslands wastewater system announcing its intention to serve the contiguous territory(ies) in accordance with Rule 1220-04-01-.13(5)(a).
5. Please provide certification from a design engineer that the existing wastewater system serving the Grasslands was constructed in accordance with TDEC-approved construction plans and specifications in accordance with Rule 1220-04-01-.13(5)(b).

These documents should be submitted to the docket clerk for filing in TPUC Docket No. 22-00073. Should you have any questions about any of the items requested, please feel free to contact me directly.

Sincerely,

Aaron J. Conklin
Senior Counsel
