Subject: [EXTERNAL] Docket No. 22-00087 - STRONGLY OBJECT

We strongly object to this increase. They absolutely do nothing to support our services and the cost increase is due to the MASSIVE increase of new building in this area..

I would like them to break out and show direct operating cost of current users verses the costs from NET NEW users in the past 12 months.

The burden of a cost increase shouldn't be put on existing homeowners but rather on the developers and new homeowners that are adding more stress to the system.

There is a reason cost are increase for the first time in 17 years and that is due to the additional DEVELOPMENT in the area.

Thanks

Eric Bero
