Subject: [EXTERNAL] Docket No. 22-00087
Date: Friday, September 16, 2022 8:26:55 AM

Good day TPUC Commission,

My name is Jon Styers and I live at [REDACTED], within Kings Chapel subdivision. I am writing as I received a letter in the mail from John Powell of Superior Wastewater Systems, LLC about a proposed increase of 55%, for our wastewater services, from \$35.11 to \$54.34 per month.

The fact that John Powell and/or Superior Wastewater, LLC has not raised rates over the past 17 years should not be considered relevant for such a drastic increase on current residents within Kings Chapel. As you may have heard from other residents within Kings Chapel, we are not in favor of this increase and request the commission to deny this proposed increase and also request that any increase in monthly rates increase year over year at a rate of no more than 10% per anum.

I am more than happy to discuss this, in more detail, with any member of the TPUC Commission and am going to try to attend the rate hearing, but is dependent on my work schedule.

I hope that you all weigh the considerations of the residents of Kings Chapel and deny this requested increase.

Thank you in advance and hope you each have a wonderful Friday and a great weekend.

All the best,
Jon Styers
