**Re: Piedmont Natural Gas Company, Inc.'s Annual GreenEdge<sup>SM</sup> Program  
Report /Docket No. 22-00130**

Dear Chairman Jones:

Pursuant to the Commission's May 1, 2023, *Order Approving Petition to Offer Voluntary GreenEdge<sup>SM</sup> Program and Granting Deferred Accounting Treatment for Associated Costs and Revenues*, Piedmont Natural Gas Company, Inc. ("Company") hereby submits for filing its annual informational report outlining the Company's GreenEdge<sup>SM</sup> Program operations.

This material is also being filed today by way of email to the Tennessee Public Utility Commission docket manager, Ectory Lawless. Please file the original and provide a "filed" stamped copy of the same via email.

If you have any questions regarding this report, you may reach me at the number shown above.

Sincerely yours,

HOLLAND & KNIGHT LLP

Paul S. Davidson

**PIEDMONT NATURAL GAS COMPANY, INC.**  
**ANNUAL GREENEDGE<sup>SM</sup> PROGRAM FILING**

**Tennessee**

**February 27, 2025**

**INTRODUCTION**

Piedmont Natural Gas Company, Inc. (“Piedmont” or “Company”) respectfully submits its annual report on the Company’s GreenEdge<sup>SM</sup> Program (“Program” or “Rider”) pursuant to the requirements of the approved Docket 22-00130, Rider for Voluntary Customer Program: GreenEdge<sup>SM</sup> Program, to the Company’s Tennessee Service Regulations which was approved by the Tennessee Public Utilities Commission (“Commission”) in its May 1, 2023, Order. The operation of the Company’s GreenEdge<sup>SM</sup> Programs for the 12-month period between January 1, 2024, to December 31, 2024, is addressed in this second annual report pursuant to the approved Docket 22-00130.

**BACKGROUND**

On November 29, 2022, Piedmont sought approval from the Commission to create a utility program designed to enable certain customers the option to offset the carbon emissions associated with their natural gas usage through direct funding of Piedmont’s purchase of environmental attributes.

Piedmont developed the Rider to accommodate customer interest for a utility program offering of this nature. In Spring 2020, Piedmont conducted a survey by sample of its residential customers to assess their interest in natural gas decarbonization option offerings. Key findings from this survey that informed the Company’s design of this Rider were the existence of meaningful customer demand for a voluntary utility program to decarbonize their natural gas carbon footprint at an affordable cost, customer preference for a hybrid of supply for carbon offsets in the form of both

renewable natural gas<sup>1</sup> and forestry or other nature-based carbon offsets, and the desire for flexibility of the customer's level of financial participation in such a program. The proposed Rider addressed these residential customers' preferences and afforded our smaller commercial customers the same opportunity which may be complementary to their sustainability and/or environmental stewardship goals.

On November 29, 2022, Piedmont filed a petition ("Petition") seeking approval of Service Schedule No. 319 to its Tennessee Service Regulations. This Petition included the adoption of a Rider designed to enable residential and certain general service customers the option to offset the carbon emissions associated with their natural gas usage through a voluntary program of direct funding of Piedmont's purchase of environmental attributes designed to offset specified levels of natural gas usage.

Pursuant to this proposed program, a participating customer may elect to have the Company purchase on their behalf one or more blocks of environmental attributes on a recurring basis to offset the carbon footprint impact of the subject customer's direct utilization of natural gas as an energy source. The environmental attributes purchased for each block are intended to mitigate the carbon footprint impact of 12.5 therms of natural gas usage by the customer. Under the program, participating customers will be assessed a monthly charge of \$3.00 per block of their election, to cover the costs borne by the Company to operate the GreenEdge<sup>SM</sup> Program.

The Commission issued an Order on May 1, 2023, in which it approved the new GreenEdge<sup>SM</sup> Program. The Program was made available to residential and small general service customers on June 15, 2023.

On February 28, 2024, Piedmont filed its first annual report for the reporting period between June 15, 2023, and December 31, 2023. The first annual report described the program participation during the first six months of the Programs availability, a detailed description of marketing

---

<sup>1</sup> Renewable natural gas is methane that has been capture from breakdown of organic waste and processed to remove contaminants to mee natural gas pipeline quality standards.

materials used to engage customers, and information regarding the attributes purchased on behalf of program participants.

**MINIMUM REPORTING REQUIREMENTS**

**OPERATIONAL PERFORMANCE OF THE GREENEDGE<sup>SM</sup> PROGRAM AND  
CUSTOMER PARTICIPATION IN THE RIDER**

The approved Docket 22-00130 contains a provision for Piedmont to collect, in addition to the rates and charges provided for under the Customer's Applicable Rate Schedule, a \$3.00 monthly charge applied to each block of environmental attribute that the Customer elects under this Rider. The monthly charge under this Rider shall apply to the Customer's monthly utility bill regardless of the Customer's actual monthly gas usage under their Applicable Rate Schedule and regardless of any Gas Service interruptions or curtailments that the Customer may experience pursuant to their Applicable Rate Schedule.

In 2024 Piedmont had expenses totaling \$565,406 associated with the Program. The expenses are presented in Table 1.

**Table 1 - 2024 Expenses for the TN GreenEdge Program**

<b>Expense Type</b>	<b>Actual Expenses</b>
Supplies Expense	\$6,542
Marketing Expense	\$32,866
Direct Sales Expense	\$241,277
Administrative Expense	\$71,775
Consulting Expense	\$212,946
IT Expense	\$0
<b>Total</b>	<b>\$565,406</b>

Please see Schedule A for the number of participating customers and total revenue by class.

The Program experienced specific pauses in marketing during the 2024 program period. One of these pauses was in coordination with the implementation of the new customer billing system

where a one month pause in enrollment and two-month pause in outbound marketing were required. This resulted in a lower than forecasted number of enrollments for the 3<sup>rd</sup> quarter of 2024. A second pause in outbound communications and outbound calling occurred in coordination with the hurricane response that ranged approximately from the end of September through the middle of October.

In 2024, The Program launched several marketing campaigns including, radio advertisements, emailed materials welcoming new Piedmont Natural Gas customers with information about GreenEdge, and offering the Program to customers who called into the call center. Please see Schedule B for examples of the materials used to reach residential and small general services customers in 2024 and the customer reach of each campaign.

The Program has an existing agreement with a third-party vendor, 3Degrees, to enroll residential customers through outbound calling. From January 2024, through December 2024, 3Degrees made 230,298 call attempts, greeted 66,739 of those customers, and had conversations regarding the Program with 16,805 customers. A customer was greeted if they answered the phone when 3Degrees called.

In 2025, the Program will continue to deploy a multi-channel marketing plan that will utilize cost-effective channels where customers are able to engage directly with, and enroll in, the Program. The Program will also continue to develop relevant marketing materials for both residential and small general service customers to continue to increase enrollments and retain existing customers.

**2024 GREENEDGE<sup>SM</sup> LISTING OF THE THIRD PARTY OR THIRD PARTIES USED TO PROCURE THE ENVIRONMENTAL ATTRIBUTES, INCLUDING THE NUMBER OF ATTRIBUTES PURCHASED BY PROCURER, LISTING OF ACCREDITATIONS FOR EACH PROCUROR, PROOF OF CERTIFICATION, AND WHETHER THE ENVIRONMENTAL ATTRIBUTES COMPLY WITH THE REQUIREMENTS OF A LABELING SCHEME**

Please see the 2024 GreenEdge<sup>SM</sup> number and cost of environmental attributes purchased under the GreenEdge<sup>SM</sup> program for the historic reporting year, by type of attribute. The environmental attributes are purchased at the beginning of the year for all total participants in the Tennessee program for the previous calendar year. The environmental attributes and carbon offsets are presented in Table 2.

**Table 2 - Attribute Cost by Type for the 2024 TN GreenEdge Program**

<b>Attribute Type</b>	<b>Therms Purchased</b>	<b>Unit Price</b>	<b>Attribute Total Cost</b>
Carbon Offsets	457,960	\$0.08406	\$38,496
Renewable Natural Gas Environmental Attributes	1,840	\$0.08406	\$155
<b>Total</b>	<b>459,800</b>	<b>\$0.08406</b>	<b>\$38,651</b>

In 2024, GreenEdge program participants supported three projects through the purchase of carbon offsets and one project through the purchase of environmental attributes. Those projects were the Doe Mountain Forestry Project in Tennessee, Davidson County Landfill Gas Destruction Project in North Carolina, the Hilltop Sand and Gravel Landfill GHG Project in Virginia, and the Maryland Bioenergy Center. Please see Schedule C for the proof of certification.

All carbon credits procured and delivered to Piedmont by 3Degrees on behalf of the Program are verified against the operating standards of the following International Carbon Reduction and Offset Alliance (ICROA) endorsed standards; Climate Action Reserve (CAR), Verra, American Carbon Registry (ACR) and Gold Standard. Carbon credits are issued, tracked, and retired through the registry of the respective program. RNG is delivered as the environmental attributes associated with RNG injected into a contiguous pipeline in the United States. These attributes are

unbundled and transferred through a nationally recognized tracking system, currently the M-RETs Renewable Thermal Tracking System.

# Matching Campaign Email

(May Original Mail)

Double your environmental impact.

For a limited time, Piedmont Natural Gas will match your GreenEdge subscription, so your impact will be twice as effective.\* Don't miss out on this chance to make a real difference.

[Enroll Now](#)

For as little as \$3 a month, you can help balance a portion of the carbon emissions from your natural gas use.

\*Matching applies to first three months of new subscriptions up to a total of 15 blocks per customer.

## HOW IT WORKS

Your monthly fee funds carbon offset projects that help protect forests and wetlands.

In 2023, GreenEdge participants purchased a combined 3,362 metric tons of carbon offsets, the equivalent to 55,591 tree seedlings.

GreenEdge supports renewable gas projects made from a variety of sources including waste, landfills and wastewater.

## You have the POWER to promote cleaner energy.

Because there's a lot riding on our actions toward a cleaner energy future.

For as little as \$3 a month, you can fund carbon offset projects that help protect forests and wetlands as well as renewable natural gas projects that reduce greenhouse gas emissions.

Get started with GreenEdge today and help protect a cleaner energy future for tomorrow.

[Enroll Now](#)

Be sure to have your account number or phone number ready to check your eligibility.

### GreenEdge Benefits

#### Flexible.

You choose the level of participation that's right for you, starting at just \$3 per month conveniently added to your regular Piedmont bill. Change your level or cancel at any time.

#### Impactful.

Program fees are used to purchase renewable natural gas environmental attributes and carbon offsets from projects that reduce or prevent the release of greenhouse gases.

#### Inclusive.

Open to renters, leasees, homeowners and small businesses. No matter where you live or work, you can help make a lasting positive impact for the environment.

Thank you for making us No. 1 in customer satisfaction with residential natural gas service in the South among large utilities. It's our honor to serve the community.

GreenEdge™

Easy.  
Convenient.  
Sustainable.

## Offset your business's environmental impact with GreenEdge™.

For just pennies a day, you can join other businesses that are helping to make an environmental difference with GreenEdge. Our program is an easy and affordable way to help offset the carbon footprint from your business's natural gas usage and bring you closer to achieving your sustainability goals.

[Enroll Today](#)

Or email [GreenEdge@piedmont-gas.com](mailto:GreenEdge@piedmont-gas.com) to learn more, ask questions or get help assessing your usage.

Enroll your business in GreenEdge today and receive a digital badge showing your support for the environment. Display the badge on your website or include it in marketing collateral!

## PROGRAM HIGHLIGHTS

Every \$3 contributed helps offset a portion of your natural gas use. You choose the level of participation that's right for your business. GreenEdge doesn't require you to make any changes to your home or business.

GreenEdge is a self-funding program, and Piedmont does not profit from this program. Participants will receive an annual report with a summary of the program's impact.

Program fees are used to purchase renewable natural gas environmental attributes and carbon offsets from projects that offset the release of greenhouse gases.

Thank you for making us No. 1 in customer satisfaction with residential natural gas service in the South among large utilities. It's our honor to serve the community.

Since launching in June 2022, the **GreenEdge** program has grown to more than 6,000 participants, including you! Together, we've been able to make a difference for the environment by using subscription fees to purchase carbon offsets and renewable natural gas attributes.

In fact, our actions so far have had an effect equivalent to eliminating the greenhouse emissions generated by driving an average car for millions of miles.

As we move into 2024, our impact goals are even higher, and it will take all of us to reach them. We hope you will continue your subscription to **GreenEdge** and possibly even increase it.

Want to increase your **GreenEdge** subscription and make a bigger impact? Visit [piedmontng.com/DoMore](https://piedmontng.com/DoMore) or scan the QR code.

## 2023

### IN REVIEW

See what support from customers like you has helped achieve.

Funds from our customers' subscriptions allowed GreenEdge to purchase 3,362 metric tons of carbon offsets:

**6,900** **PIEDMONT CUSTOMERS**

were enrolled in 2023, purchasing more than

**51,000 BLOCKS**

240700.png:greenedge:annual-report:direct-mail:Final.indd 1-2

240700.png:greenedge:annual-report:direct-mail:Final.indd 1-2

**Thanks to customers like you, we've been able to:**

- Support a cleaner planet through carbon offsets and the purchase of renewable natural gas environmental attributes
- Protect and manage forests and wetlands that sequester CO<sub>2</sub> in the atmosphere
- Allow thousands of residential and business customers across the Carolinas and Tennessee to balance the environmental impact of their natural gas use

All of us at Piedmont Natural Gas thank you for your continued support as we strive to make the world a cleaner and greener place to live.

**Your subscription of %%BLOCKS%% per month helped balance 639,725 therms of natural gas.**

To make an even bigger impact next year, visit [piedmontng.com/GreenEdge](https://piedmontng.com/GreenEdge) to sign up for additional blocks to help balance your natural gas emissions in an even more impactful way. While you're there, sign up to receive digital copies of the annual report.
