Monica,

The purpose of this email is to let you know that TWSI and Superior have reached a settlement in Docket 23-00051.

Superior will amend its application to encompass only the property owned by Greg Sanford that was identified in Superior's original application and, in addition, a nearby parcel that will be used in order to provide service to the Sanford property. Service to customers located on the Sanford property and the nearby parcel will be provided via a connection to Superior's existing wastewater system. The amended application will include, inter alia, the following statement, "The requested parcels are located in the service area that was granted to TWSI in Commission Docket No. 97-01313. TWSI has agreed to transfer those parcels to Superior upon the Commission's approval of this application." After Superior has amended its application, TWSI will withdraw its objection to the amended application but remain a party to the docket solely to ensure compliance with the parties' settlement. If the Commission approves the amended application, TWSI will ask the Commission to transfer the affected parcels from TWSI's service area to Superior's service area.

We would appreciate it if you would place a copy of this email in the docket file.

Thank-you for your help in this matter.

Regards,
Henry Walker and Erik Lybeck
