## BEFORE THE TENNESSEE PUBLIC UTILITY COMMISSION NASHVILLE, TENNESSEE

# PETITION OF SUPERIOR WASTEWATER SYSTEMS, LLC TO AMEND EXISTING SERVICE TERRITORY IN WILLIAMSON COUNTY

Superior Wastewater Systems, LLC (or "the Company") petitions the Tennessee Public Utility Commission ("the Commission") to amend the Company's existing service territory in Williamson County, Tennessee.

Included in Attachment 1 is the testimony of John Powell, Owner and President of Superior Wastewater Systems, LLC related to this petition.

Attachment 2 contains the requirements per Commission Rule 1220-04-13-.17 (MINIMUM REQUIREMENTS FOR NEW AMENDMENTS TO CERTIFICATE OF CONVENIENCE AND NECESSITY) and the Company's response to each of the required items.

Superior Wastewater Systems, LLC possesses sufficient managerial, financial, and technical capabilities to provide wastewater services to the proposed service area. The Company therefore asks that the Commission amend the company's service area to include the additional service area.

Sincerely,

Tyler A. Cosby

Farris Bobango, PLC

## BEFORE THE TENNESSEE PUBLIC UTILITY COMMISSION NASHVILLE, TENNESSEE

	)	
PETITION OF SUPERIOR	)	
WASTEWATER SYSTEMS, LLC TO	)	<b>DOCKET NO. 23-00051</b>
AMEND ITS EXISTING SERVICE	)	
TERRITORY IN WILLIAMSON	)	
COUNTY	)	

# of JOHN POWELL

ON BEHALF OF SUPERIOR WASTEWATER SYSTEMS, LLC

1	<i>Q1.</i>	PLEASE STATE YOUR NAME AND BUSINESS ADDRESS FOR THE
2		RECORD.
3	<i>A1</i> .	My name is John Powell and my business address is PO Box 40, Arrington, TN
4		37014.
5		
6	Q2.	BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?
7	<i>A2</i> .	I am the owner and president of Superior Wastewater Systems, LLC ("SWS") a
8		provider of wastewater utility service, regulated by this Commission.
9		
10	Q3.	WHAT ARE YOUR RESPONSIBILITIES FOR SWS?
11	<i>A3</i> .	I am responsible for the day-to-day operation, permitting, and long-term planning.
12		Among other things, this includes supervision of the system; review and approval
13		of expenditures; reviewing and resolving customer issues; scoping and obtaining
14		proposals for maintenance work; establishment of contracts; contact with
15		regulatory personnel on existing and future permit requirements and issues;
16		preparation of portions of and review of tariff documents; investigation of
17		physical and operational conditions of the distribution systems; and evaluation of
18		proposals for plant upgrades and replacement.
19		
20	Q4.	WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS
21		PROCEEDING?
22	A4.	The purpose of my testimony is to present information to the Tennessee Public
23		Utility Commission on the managerial, financial, and technical capabilities of

1		SWS in order to amend our Certificate of Convenience & Necessity to include
2		additional service areas in Williamson County.
3		
4	Q5.	PLEASE DESCRIBE THE PROPOSED SERVICE AREA.
5	A5.	The proposed service territory encompasses a portion of the Town of Arrington
6		west of Triune, the special character areas of Triune north of Interstate 840, and a
7		portion of College Grove east of Triune in Williamson County along Highway 96.
8		A detailed map of this service area is included in Exhibit 1.7.1 of this filing. SWS
9		initially anticipates providing 300,000 gallons per day of mixed-use wastewater
10		treatment service to residential and commercial customers in this area.
11		
12	Q6.	DOES A NEED PRESENTLY EXIST FOR WASTEWATER SERVICE IN
13		THIS AREA?
14	<i>A6</i> .	Yes. Currently there is no provider of wastewater service in this area. Therefore,
15		in order to address the need for adequate and timely wastewater service to this
16		territory, SWS is asking the TPUC to amend our existing Certificate of
17		Convenience & Necessity.
18		
19	Q7.	WHAT TYPE OF WASTEWATER COLLECTION AND WASTEWATER
20		TREATMENT IS SWS PROPOSING TO PROVIDE SEWER SERVICE
21		TO THIS AREA?
22	A7.	Collection lines will accept wastewater and sewage from both residential and
23		commercial customers. Required pump stations will be strategically located to

1		assist the flow to the treatment center plant. The treatment center plant will
2		employ technology from BioMicrobics. After being treated, the effluent will be
3		sent to drip fields.
4		
5	Q8.	WHAT IS THE CURRENT STATUS OF THE DEVELOPMENT IN THIS
6		SERVICE TERRITORY?
7	A8.	Site plans have been established on several parcels that cannot go forward through
8		the Williamson County planning process until wastewater service has first been
9		established.
10		
11	Q9.	DOES SWS POSSESS THE MANAGERIAL CAPABILITIES TO
12		OPERATE A WASTEWATER DISTRIBUTION SYSTEM?
13	A9.	Yes. As the Commission is aware, I have managed the operations of SWS since
14		its inception in 2004. In addition, to my knowledge, the Commission has never
15		had a customer complaint regarding SWS's operations. Finally, SWS has
16		engaged legal, accounting and regulatory experts to advise and assist it with the
17		managerial responsibilities of operating a wastewater distribution system.
18		
19	Q10.	DOES SWS POSSESS THE FINANCIAL CAPABILITIES TO OPERATE
20		A WASTEWATER DISTRIBUTION SYSTEM?
21	A10.	Yes. I do not expect that SWS's provision of wastewater service to this area to
22		result in any drain on the financial resources of SWS. SWS will review and
23		approve the wastewater system design and will field inspect and approve the

1		construction. Upon completion and passing final inspection, the wastewater
2		system will become the responsibility of SWS for ownership and operation.
3		
4	Q11.	DOES SWS POSSESS THE TECHNICAL CAPABILITIES TO OPERATE
5		A WASTEWATER DISTRIBUTION SYSTEM?
6	A11.	Yes. SWS has engaged a qualified engineer and other consultants to oversee,
7		monitor and test the wastewater distribution system of SWS on a regular basis in
8		compliance with TDEC rules.
9		
10	Q12.	WHAT RATES AND CHARGES WILL BE USED FOR THE NEW
11		SERVICE AREA?
12	A12.	The tariff rates proposed by SWS for this territory are included in Exhibit 5.8.1 of
13		this filing.
14		
15	Q13.	WHY DOES SWS WANT TO SERVE THIS AREA AND WHAT BENEFIT
16		IS IT TO THE EXISTING SEWER CUSTOMERS?
17	A13.	SWS wants to provide service to this territory because it is close in proximity to
18		our existing service territory, meaning that it can be served with relatively few
19		incremental resources. In addition, this increase in our customer base will provide
20		SWS with a greater economy of scale to maintain low rates to our existing
21		customers.
22		

1	Q14.	WILL SWS ABIDE BY THE ORDERS AND RULES OF THE
2		COMMISSION?
3	A14.	Yes.
4		
5	Q15.	IS SWS AWARE OF RULE 1220-04-1309 (7) WHICH REQUIRES THE
6		CONSTRUCTION OF THE WASTEWATER SYSTEM TO BE
7		COMPLETED WITHIN 3 YEARS OF TPUC'S WRITTEN APPROVAL
8		OF THE CCN?
9	A15.	Yes.
10		
11	Q16.	DOES THIS COMPLETE YOUR TESTIMONY?
12	A16.	Yes, it does.

## **RESPONSE**:

Attached is a copy of the Articles of Incorporation and Bylaws of Superior Wastewater System, formerly known as King's Chapel Capacity.

# OPERATING AGREEMENT OF KINGS CHAPEL CAPACITY, LLC

#### RECITAL

Kings Chapel Capacity, LLC (KCC) is a limited liability company (LLC) organized pursuant to the laws of the State of Tennessee. This Operating Agreement (Agreement) is between and among KCC and its initial member and any joining members and is effective when adopted by the member whose signature appears below. The Agreement is intended to delineate the basic relationships between and among KCC and its member(s) without intending to contemplate all matters that may arise during the life of the LLC. The Agreement may not be the entire agreement and, as contemplated in TCA 48-206-101(b), may from time to time be modified or supplemented by other written unanimous agreements of the member(s). It is anticipated that other members will be joining the LLC at which time this Agreement will be amended or supplanted.

## ARTICLE ONE FORMATION, OPERATION, TERMINATION

- 1.1 Formation. The Articles of Organization for KCC were registered with the Secretary of State of Tennessee on May 13, 2004 establishing KCC as a legal entity separate and distinct from its member(s).
- $\underline{1.2}$  Activity. The activity of KCC will be to provide wastewater utility service to the Tennessee public, as regulated by the Tennessee Regulatory Authority.
- 1.3 Purpose of the LLC. The purpose of forming a limited liability company for KCC is to protect its member(s) from the legal and financial risk associated with acquiring, developing, and selling real property. Accordingly, any business activity associated with the LLC shall be conducted by and in the name of the LLC, and not by its member(s).
- 1.4 Termination. KCC may be terminated only by unanimous consent of its member(s).

## ARTICLE TWO MEMBERS, CONTRIBUTIONS, AND INTERESTS

- 2.1 Initial and Subsequent Members. The initial member of KCC as John E. Powell.
- 2.2 Member Contributions. John E. Powell's initial contribution to the LLC was \$300.00. As additional members join the LLC, the existing members and the joining member contributions to the LLC will be in the nature and amount as the members elect among themselves.

2.3 Member Interests. While John E. Powell is the sole member of the LLC he will own 100% of the LLC. When other members join the LLC, the respective member interests will be determined as the members elect among themselves.

## ARTICLE THREE MEMBER RIGHTS, POWERS, AND OBASHBYATIONS

- 3.1 Member Share of Profits, Losses, Distributions, and Income Tax Attributes. While John E. Powell is the sole member of KCC he will be entitled to 100% % of KCC profits, losses, distributions, and income tax attributes. As additional members join KCC the LLC profits, losses, distributions, and income tax attributes will be determined as the members elect among themselves.
- <u>3.2 Member Voting</u>. Each member will be entitled to one vote for each percentage of member interest that each member owns.
- 3.3 Member Meetings. While the LLC has only one member, member meetings will not be required. As additional members join the LLC, the timing, nature, and extent of member meetings shall be as the members determine among themselves.
- <u>3.4 Sale of Land and Assets</u>. The sale of the KCC land or other assets valued at more than \$1,000.00 will occur only upon the unanimous consent of its members.
- 3.5 Member Powers. John E. Powell, while the sole member of the LLC, will have the power to open and operate bank accounts of the LLC, to borrow funds on behalf of the LLC, and to mortgage, pledge, or otherwise encumber assets of the LLC. As additional members join the LLC, these powers will also be granted to the joining members as the members determine among themselves.
- 3.6 Member Duties. No limitations are placed upon the members respecting duties to KCC other than to endeavor to maximize the eventual profit of the LLC and to act lawfully and in good faith with respect to KCC and each other.

## ARTICLE FOUR INCOME TAX AND ADMINISTRATIVE MATTERS

- 4.1 Entity Choice For Income Tax Purposes. While the LLC has only one member the LLC will be treated as a disregarded entity having the nature of a sole proprietorship for federal income tax reporting purposes, unless and until "check-the-box" and other elections are made for tax reporting purposes characterizing KCC as an "S" corporation.
- 4.2 Financial and Administrative Record Keeping. The bookkeeping and administrative record keeping system of KCC will be satisfied by any reasonable system of recording

transactions. The system will include but not limited to recording member identity and capital account activity, property acquisitions and encumbrances, and financial activity necessary to facilitate balance sheet and income statement preparation.

- 4.3 Member Certificates. KCC member ownership interest certificates will not be issued. Member ownership shall be represented by membership interest percentages attributed to each member.
- <u>4.4 Management</u>. As stated in the KCC Articles of Organization, KCC will be member managed.
- <u>4.5 Principal Office</u>. The principal office of the LLC shall be located at 1413 Plymouth Drive, Brentwood, Tennessee 37027.

IN WITNESS WHEREOF, the initial member of KCC signs and adopts this Agreement as the operating agreement of Kings Chapel Capacity, LLC:

John E. Powell, Managing Member

Petition to Amend Existing Service Territory in Williamson County Exhibit 1.7 – Geographic Territory

Provide a complete description of the geographic territory to be served by the applicant, including the name and location of development (subdivision) and the number of acres. Include the name of the subdivision or development and the name of the wastewater system as stated in the TDEC permit. In addition, provide a legible map of the area with the proposed service territory clearly and accurately plotted. The map should include:

- i. The location of the wastewater system, i.e. treatment plant, pre-application treatment facilities, collection infrastructure, building(s) for equipment, drip fields, disposal fields and/or wetland cells. Include the physical address of the wastewater system and the associated latitude and longitude coordinates.
- ii. Names of surrounding streets and roads.
- iii. Map to show access roads and names of access roads (if available) and other utilities necessary to provide wastewater service.
- iv. All residences and habitable structures served by the wastewater system.
- v. Show any portion of the area that will not be served when the wastewater system becomes operational. If the wastewater system will be operational in phases, show the phases on the map.

#### **RESPONSE**:

The proposed service territory encompasses a portion of the Town of Arrington west of Triune, the special character areas of Triune north of Interstate 840, and a portion of College Grove east of Triune in Williamson County along Highway 96. A detailed map of this service area is attached.

SWS initially anticipates providing 300,000 gallons per day of mixed-use wastewater treatment service to residential and commercial customers in this area.

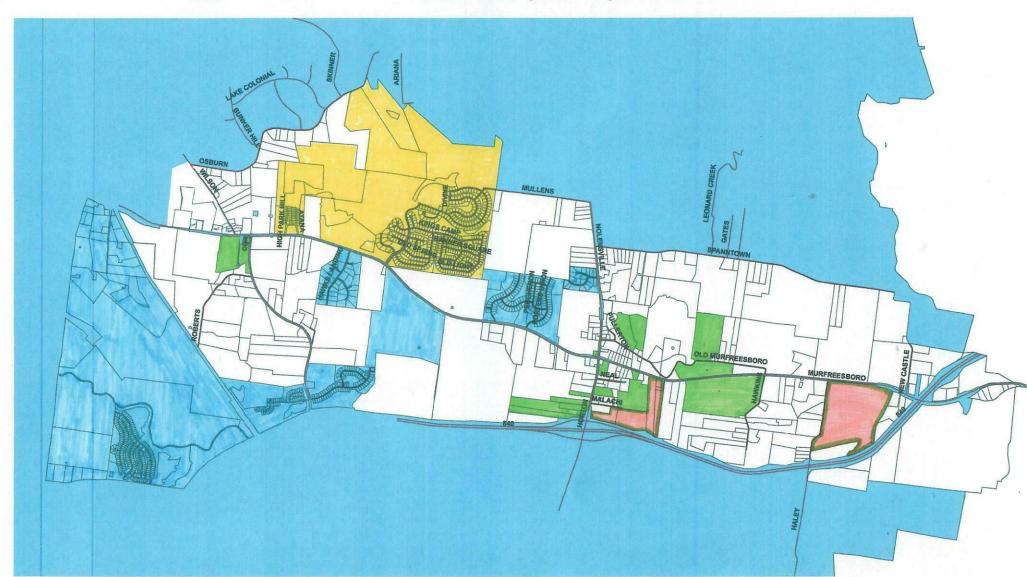

## Service Area Description:

- A map of the proposed service area is attached.
- Blue areas are not to be served (served by others or septic in place)
- Yellow area is where Superior's CCN is now (within this map)
- Green and pink areas are property owners who have requested service.
- The large pink area is where plant, drip field and approximately 14 houses will be located.

Area we already serve

People who have requested sewer service

Properties under contract for development and sewer plant and drip field site

Petition to Amend Existing Service Territory in Williamson County Exhibit 1.8 – Proposed Wastewater System

Provide a description of the type of proposed wastewater system to be constructed including the design capacity and the maximum potential number of customers the Utility will service in the proposed service area. Indicate the technology used for the wastewater system (e.g. membrane, sand filter, wetland cell and/or lagoon). The type of system and design capacity should match the type and design capacity of the associated TDEC permit and permit application.

#### **RESPONSE:**

The proposed system will have main collection lines which customers will hook into. The collection lines will gravity flow to pump stations which will lead directly or through other pump stations until sewage reaches the sewer treatment plant.

The sewer treatment plant technology to be employed is from BioMicrobics.

The design capacity is limited to what can be dispersed into defined drip fields which have gone through high intensity soil studies and state approval through pit examinations and approval.

Currently drip field capacity is limited to 300,000 gallons per day.

Petition to Amend Existing Service Territory in Williamson County Exhibit 1.9 – Anticipated Construction Dates

Provide the estimated dates for the commencement and completion of the construction of the system and the estimated date the wastewater system will be placed into service. If the wastewater system will be constructed or placed into service in phases, provide the anticipated dates for each phase.

#### **RESPONSE**:

The final engineering required for collection, treatment and treated water disbursement shall start as soon as the CCN is obtained. Also, any easements will be negotiated for the collection main lines.

After these expensive engineered plans have been approved by TDEC the system will be constructed.

It is anticipated that this construction could begin in the first quarter of 2024. The collection and treatment will be started first and completed within six to eight months. It is estimated that thirty acres of drip field will be constructed first to handle approximately 125,000 gallons per day.

The first sale or the first customer will be when the collection lines treatment and necessary drip fields are complete.

In this mixed-use area, the total number of lots cannot be determined, this initial system is limited to 300,000 Gallons per day. A house is 300 gallons per day. A 150-room hotel would be approximately 30,000 gallons per day and a grocery store may be 10,000 gallons per day. As customers hook in capacity will be used or held for customers.

Petition to Amend Existing Service Territory in Williamson County Exhibit 1.10 – Anticipated Construction Dates

If portions of the wastewater system will be built in phases, provide how many phases and the number of houses or units to be connected in each phase.

## **RESPONSE**:

#### Phase One 3 to 4 years

The treatment plant engineered for 300,000 GPD will be built at the beginning of the project separate treatment compartments within the treatment plant will be added as needed. These compartments will be added as gallons per day increase.

The collection lines will first be constructed to handle the southeast section of Triune. A second line will be added from the northeast section of Triune.

The drip fields to be built first will be approximately 30 acres which can accept about 125,000 gallons per day.

## Phase Two 3 to 7 years

Additional collection lines will be added to the system territory, additional treatment media and blower compartments will be turned on, 20 acres of additional drip fields will be added to the system allowing about 87,500 gallons per day additional treatment.

## Phase Three 6 to 10 years

Additional collection lines will be added to the system territory, additional treatment media and blower compartments will be turned on, 20 acres of additional drip fields will be added to the system allowing about 87,500 gallons per day additional treatment.

## SUPERIOR WASTEWATER SYSTEM

**EXHIBIT 1.11** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 1.11 – Developer Identification

Identify the builder or developer that has requested the utility to provide wastewater service.

## **RESPONSE**:

See the attached letters from Williamson County Commissioners and parcel owners requesting Superior Wastewater System to provide wastewater services to the proposed service area.

June 1, 2023

Mr. Herb Hilliard, Chairman Tennessee Public Utility Commission 502 Deaderick Street, 4 th Floor Nashville, TN 37243

Re: Petition of Superior Wastewater Systems, LLC for a Certificate of Convenience and Necessity Amendment to Provide Wastewater Service to the City of Triune

Dear Mr. Hilliard:

My Name is Greg Sanford I am an elected County Commissioner here in District 5 where this proposed treatment plant and service will be provided. My constitutes want and need these services.

I am writing to express my support for the Petition of Superior Wastewater Systems to expand its existing service area to Triune. I believe that the provision of wastewater service is critical to the future growth of this area. I further believe that the expansion plan put forward by John Powell and Superior Wastewater Systems adequately addresses this need.

I have personally reviewed and discussed Superior Wastewater System's expansion plans, and sewer rates with Mr. Powell, and I believe that Superior Wastewater Systems is uniquely situated to best provide wastewater service to this area. Specifically, Mr. Powell has already obtained access to the available drip fields in this area, which will be needed to provide wastewater service. To my knowledge, no other wastewater provider currently has the necessary access to any other drip fields in the Triune area.

I would therefore urge you to approve the Petition of Superior Wastewater Systems and to do so as quickly as possible. If my office can do anything to help expedite this matter, then please let me know.

Respectfully submitted,

Commissioner Greg Sanford

CC: John Powell

June 7, 2023

Mr. Herb Hilliard, Chairman Tennessee Public Utility Commission 502 Deaderick Street, 4<sup>th</sup> Floor Nashville, TN 37243

Re: Petition of Superior Wastewater Systems, LLC for a Certificate of Convenience and Necessity Amendment to Provide Wastewater Service to the City of Triune

Dear Mr. Hilliard:

My name is Mary Smith and I am an elected Williamson County Commissioner representing District 5 which is the area Superior Wastewater Systems plans to support and service with its proposed treatment plant.

To provide the commercial services needed for our growing community, I'm writing to express my support for Superior Wastewater Systems to expand its current wastewater service to include Triune. My constituents are looking for access to local essential services as was planned for with the completion of the Triune Special Area Plan. Due to the current limitations of septic, having the ability to provide this more modern wastewater system is essential to be able to bring in the much-needed and requested services for the area.

Having recently met with John Powell, owner of Superior Wastewater Systems, I've had the opportunity to discuss expansion proposals, proposed sewer rates, and the anticipated service territory. At this point in time, I believe Mr. Powell is the only sewer provider with the means to support the desired growth for this area. He has already obtained drip fields that are required for providing the wastewater service which, to my understanding, no other sewer provider currently offers.

Therefore, I urge you to view this matter with the utmost priority so that we can begin to move forward on the growth our community not only wants but needs. I am asking you to strongly consider approving the Petition of Superior Wastewater Systems to provide sewer for the Triune area. If I can be of any assistance in expediting this matter, please let me know. I look forward to hearing the outcome of your decision.

Respectfully yours,

MaySwith

Mary Smith

Mr. John Powell, Member Superior Wastewater Systems P.O. Box 190 Arrington, TN 37014

Re:

Triune Area - Unincorporated Williamson County

**Wastewater Service** 

Dear Mr. Powell:

Thank you for your email of May 1, 2023, and the letter attached thereto dated April 24, 2023, regarding your desire to expand the present wastewater service territory of Superior Wastewater Systems to the Triune area of Williamson County.

As you may know, I have received several requests from property owners in the Triune area for wastewater service. As you also know, Williamson County does not provide public sewer service and does not have any plans in the foreseeable future to do so in this area. Given the special area plan that has been adopted by Williamson County for that general area, as well as the County's future plans to expand our recreation and safety services in that community, it would be beneficial for a public wastewater provider to be able to serve this general area.

I hope this information is helpful. Should you need anything further, please do not hesitate to contact me.

Sincerely,

Rogers C. Anderson, Mayor

Williamson County

**RE: Sewer Services for:** 4833 Murfreesboro Road Arrington, TN 37014 Tax Map 109, Parcel 46.00

Dear Sir:

Milcrofton Utility District is a municipal corporation authorized to furnish water services in accordance with state law. The District has adopted rules, regulations, and standard operation procedures, prescribing the conditions under which the District will furnish water service. In addition, certain state laws delegate authority to the State Department of Environmental and Conservation, various planning commissions and other authorities in cities and counties. These cities and counties have also adopted rules and regulations permissible under state laws.

This is to confirm that Milcrofton Utility District does not provide sewer service to Tax Map 109, Parcel 46.00 located at 4833 Murfreesboro Road in Arrington, Tennessee. Greg Sanford at 4833 Murfreesboro Road in Arrington is a current water service customer in good standing with the District. If any additional information is needed, please let us know.

Sincerely,

Mike Jones

General Manager

CN 1251 (Rev. 03-19)

Permit Number: SOP-\_\_\_\_

Engineering Report (required for collection systems and/or land application
treatment systems):
Prepared in accordance with Rule 0400-40-0503 and Section 1.2 of the State of Tennessee  Design Criteria for Sewage Works  Attached, or
Previously submitted and entitled: Approved? Yes. Date: No
Operation and Maintenance Inspection Schedule Submitted:
Approved? Yes. Date: No
Wastewater Collection System:
System type (i.e., gravity, low pressure, vacuum, combination, etc.):
System Description: Gravity to PORP STATIONS to BIO MUTOBIES to PRINTIELES
Describe methods to prevent and respond to any bypass of treatment or discharges (i.e., power failures, equipment failures, heavy rains, etc.): facquery Garrolos requires
In the event of a system failure describe means of operator notification:
List the <b>emergency</b> contact(s) (name/phone): 615 496 - 8881
For low-pressure systems, who is responsible for maintenance of STEP/STEG tanks and pumps or grinder pumps (list all contact information)?
Approximate length of sewer (excluding private service lateral): 3 miles
Number/hp of lift stations: MIR 5; ROME / Number/hp of lift pumps /O /
Number/volume of low pressure and or grinder pump tanks  Number/volume septic tanks $N/A$ $ATRS$ $Time$ $I$
Attach a schematic of the collection system. Attached
If this is a satellite sewer and you are tying in to another sewer system complete the following section, listing tie-in points to the sewer system and their location (attach additional sheets as necessary):
Tie-in Point Latitude (xx.xxxx°) Longitude (xx.xxxx°)

Permit Number: SOP-\_\_\_\_

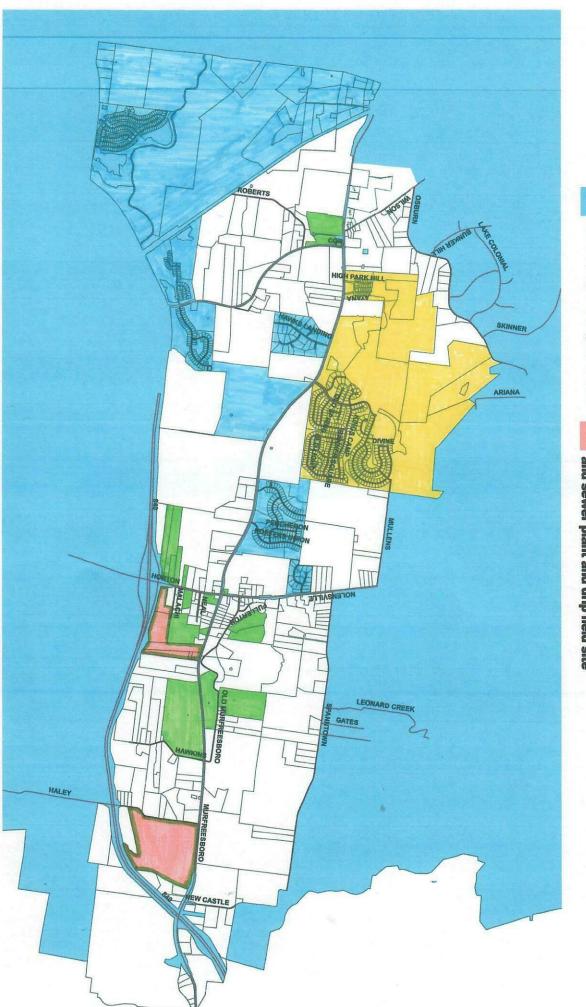

Land Application Treatment System:	
Type of Land Application Treatment System: Drip Spray Other, explain:	
Type of treatment facility preceding land application (recirculating media filters, lagoons, other,	,
etc.):	
Attach a treatment schematic. Attached Not Finished	
Describe methods to prevent and respond to any bypass of treatment or discharges (i.e., power	r
failures, equipment failures, heavy rains, etc.): Holding Ponds Excuss Storage IN 545te	M
For New or Modified Projects:	
Name of Developer for the project: 615 494 8681	
Developer address and phone number: John Powel ( P.O. Box 40 Accompton TIV 37614	
For land application, list: Proposed acreage involved:	
Inches/week gpd/sq.ft loading rate to be applied: 2. 4	
Is wastewater disinfection proposed?	
Yes Describe land application area access: Will he should	
No Describe how access to the land application area will be restricted: Fewer	
Attach required additional Engineering Report Information (see website for more	
information) Will be completed in Eng Report	
Topographic map (1:24,000 scale presented at a six inch by six inch minimum size) showing	
the location of the project including quadrangle(s) name(s) GPS coordinates, and latitude and longitude in decimal degrees should also be included.	ג
Scaled layout of facility showing the following: lots, buildings, etc. being served, the	
wastewater collection system routes, the pretreatment system location, the proposed land	
application area(s), roads, property boundaries, and sensitive areas such as streams, lakes,	
springs, wells, wellhead protection areas, sinkholes and wetlands.	
Soils information for the proposed land disposal area in the form of a Water Resources Soil	5
Map per Chapter 16 and 17 State of Tennessee Design Criteria for Sewage Work. The soils	J
information should include soil depth (borings to a minimum of 4 feet or refusal) and soil	
profile description for each soil mapped.	
Topographic map of the area where the wastewater is to be land applied with no greater	
than ten foot contours presented at a minimum size of 24 inches by 24 inches.	
Describe alternative application methods based on the following priority rating: (1)	
connection to a municipal/public sewer system, (2) connection to a conventional subsurface	
disposal system as regulated by the Division of Groundwater Protection, and/or (3) land	
application.	

CN 1251 (Rev. 03-19)

Permit Number: SOP-\_\_\_\_\_

For Drip Dispersal Systems Only: Unless otherwise determined by the	
Department, sewage treatment effluent wells, i.e, large capacity treatment/drip	
dispersal systems after approval of the SOP Application, will be issued an UIC	
tracking number and will be authorized as Permit by Rule per UIC Rule 0400-45-06-	□ N/A
.14(2) and upon issue of a State Operating Permit and Sewage System	
Construction Approval by the Department. Describe the following:	
The area of review (AOR) for each Drip Dispersal System shall, unless otherwise sy	ecified by the
Department, consist of the area lying within a one mile radius or an area defined by us	ing calculations
under 0400-45-0609 of the Drip Dispersal System site or facility, and shall include, but n	ot be limited to
general surface geographic features, general subsurface geology, and general demograph	nic and cultural
features within the area. Attach to this part of the application a general characterizati	on of the AOR,
including the following: (This can be in narrative form)	
A general description of all past and present groundwater uses as well as the general g	roundwater
flow direction and general water quality.	1
A general description of the population and cultural development within the AOR (i.e. a commercial, residential or mixed)	gricultural,
Nature of injected fluid to include physical, chemical, biological or radiological characte	ristics.
If groundwater is used for drinking water within the area of review, then identify and lo	
topographic map all groundwater withdrawal points within the AOR, which supply public	
drinking water systems. Or supply map showing general location of publicly supplied wa	iter for the
area (this can be obtained from the water provider)	
If the proposed system is located within a wellhead protection area or source water pro	otection area
designated by Rule 0400-45-0134, show the boundary of the protection area on the fac	
Description of system, Volume of injected fluid in gallons per day based upon design flo	ow, including
any monitoring wells	
Nature and type of system, including installed dimensions of wells and construction ma	aterials
Pump and Haul:	N/A
Reason system cannot be served by public sewer:	
Distance to the nearest manhole where public sewer service is available:	
When sewer service will be available:	
Volume of holding tank: gal.	
Tennessee licensed septage hauler (attach copy of agreement):	
Facility accepting the septage (attach copy of acceptance letter):	
Latitude and Longitude (in decimal degrees) of approved manhole for discharge of septage	2:
Describe methods to prevent and respond to any bypass of treatment or discharges (i.e., pequipment failures, heavy rains, etc.):	oower failures,

Holding Ponds (for non-domestic wastewater only):
Pond use: Recirculation Sedimentation Cooling Other (describe):
Describe pond use and operation:
If the pond(s) are existing pond(s), what was the previous use?
Have you prepared a plan to dispose of rainfall in excess of evaporation? Yes No
If so, describe disposal plan:
Is the pond ever dewatered?  Yes No
If so, describe the purpose for dewatering and procedures for disposal of wastewater and/or sludge:
Is(are) the pond(s) aerated? Yes No
Volume of pond(s): gal. Dimensions:
Is the pond lined (Note if this is a new pond system it must be lined for SOP coverage.
Otherwise, you must apply for an Underground Injection Control permit.)? Yes No
Describe the liner material (if soil liner is used give the compaction specifications):
Is there an emergency overflow structure?  Yes No
If so, provide a design drawing of structure.
Are monitoring wells or lysimeters installed near or around the pond(s)? Yes No
If so, provide location information and describe monitoring protocols (attach additional sheets as

Permit Number: SOP-**Mobile Wash Operations:** Individual Operator Fleet Operation Operator Indicate the type of equipment, vehicle, or structure to be washed during normal operations (check all that apply): Cars Parking Lot(s): sq. ft. Trucks Windows: Trailers (Interior washing of dump-trailers, Structures (describe): or tanks, is prohibited.) Other (describe): Wash operations take place at (check all that apply): Car sales lot(s) Public parking lot(s) Private industry lot(s) Private property(ies) County(ies), list: Statewide Wash equipment description: Truck mounted Trailer mounted Rinse tank size(s) (gal.): Mixed tanks size(s) (gal.): Collection tank size(s) (gal.): Number of tanks per vehicle: Pressure washer: psi (rated) gpm (rated) electric gas powered Vacuum system manufacturer/model: inches Hg Vacuum system capacity: Describe any other method or system used to contain and collect wastewater: List the public sewer system where you are permitted or have written permission to discharge waste wash water (include a copy of the permit or permission letter): Are chemicals pre-mixed, prior to arriving at wash location? Describe all soaps, detergents, or other chemicals used in the wash operation (attach additional sheets as necessary): Chemical name: Manufacturer: Primary CAS No. or Product No.

Hello John,

Your application has been uploaded to our database and assigned the following permit tracking number: SOP-23016.

Just let us know if we can be any help.

Thanks, John

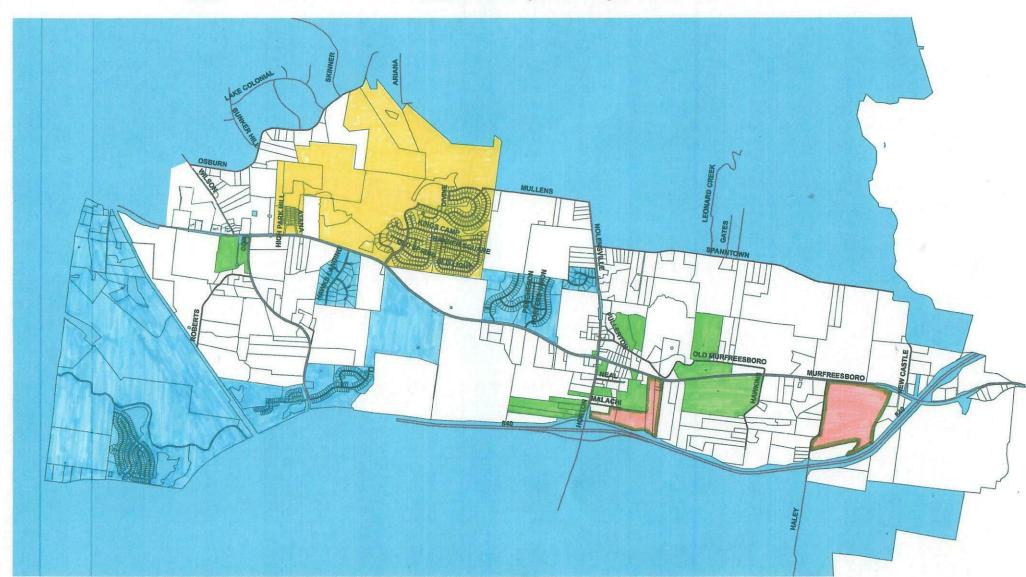

John Newberry | Environmental Manager
Division of Water Resources / Land Based Systems

# Preliminary Soil Evaluation:

# 5279 Murfreesboro Road Williamson County

TEMPS SOIL

Legend:

Drain End of evaluation Pond

Fence

# Delineation Key:

# 1-Good Potential for Drip Dispersal Ground Application However, inclusions of soils with properties considered to be unfavorable may be encountered with a more intensive evaluation. Some areas may require proven positive drainage for Interceptor Drains.

In most observations clay was encountered <20" however, soil structure may allow for suitability, 2- Good/Moderate Potential

# 3-Limited/No Potential

Flooding and/or a seasonally high water table due to position in landscape and/or soil properties make most areas of these soils unsuitable. (redox < 20" in some observations)

# 4-Limited/No Potential

Inadequate depths to rock and/or clay make most areas of these soils unsuitable by standard evaluation at this time. Excessive slopes may impact suitability (15%+) in some areas.

# 5-Limited/Moderate Potential

Due to soil properties (channery/flaggy/gravelly) auger and/or probe refusal <20" in most areas.

# 6- Dense vegetation (briars)

Other features observed that would impact any installation are drains, erosion scars, cut banks, existing structures and

Any subsurface rock encountered during mapping may affect suitability.

This information was collected with a soil auger and rock probe.

# Any disturbance to these areas after this date may affect their suitability.

Jay Andrews

Soil Scientist

License #42 2-10-23

**EXHIBIT 4.2** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 4.2 – State Operator Certificate

Provide a copy of the State Operator Certificate for the wastewater system operator of record. If the operator is a contract employee of the utility, provide a copy of the employment contract.

### **RESPONSE**:

The operator of record for Superior Wastewater Systems is Mr. James Johnson. A copy of Mr. Johnson's State Operator Certificate is attached. Mr. Johnson is an independent contractor and his contract with Superior Wastewater Systems (formerly King's Chapel Capacity) is also attached.

# WATER AND WASTEWATER OPERATOR CERTIFICATION BOARD

NAME AND MAILING ADDRESS

James B. Johnson 307 Stafford Ct. Smyrna Tennessee 37167

STATE OF TENNESSEE

DEPARTMENT OF ENVIRONMENT AND CONSERVATION
WATER AND WASTEWATER OPERATOR CERTIFICATION BOARD

1186

EXPIRATION DATE 12/31/2023

THIS IS TO CERTIFY THAT

James B. Johnson

IS IN GOOD STANDING WITH THE BOARD FOR THE CLASSIFICATIONS LISTED:

WHEN CORRESPONDING ALWAYS REFER TO YOUR I.D. NUMBER AND SEND NOTIFICATION OF ADDRESS CHANGE

EXHIBIT 4.3

Petition to Amend Existing Service Territory in Williamson County Exhibit 4.3 – Technical Support Contact Information

Provide the name, address, and telephone number of the technical contact person responsible for and knowledgeable about the applicant's proposed operations in Tennessee.

### **RESPONSE**:

The operator of record for Superior Wastewater Systems is Mr. James Johnson. Mr. Johnson's contact information is as follows:

Jim Johnson 307 Stafford Court Smyrna, TN 37167

615-419-7404

**EXHIBIT 4.4** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 4.4 – Complaints, Notices or Administrative Actions

Provide a list of any complaint(s), notices of violations or administrative action filed with or issued by a regulatory agency. Identify the nature of the complaint, notices of violation or administrative action, which agency is involved, and how the issue was or is being resolved.

#### **RESPONSE:**

To our knowledge, other than comments related to proposed rate increases, Superior Wastewater Systems has never received a complaint from any end-use customer in the King's Chapel Subdivision that was filed with either the Tennessee Public Utility Commission (TPUC) or the Tennessee Department of Environment & Conservation (TDEC).

On its own motion, TPUC initiated a show cause proceeding against Superior Wastewater Systems for alleged violations of wastewater utility laws and rules relating to posting of financial security in Docket No. 14-00007. This docket was conditionally dismissed by TPUC in its April 22, 2016 Order based on the submission of a fully executed bond. To our knowledge, this incident represents the only complaint, notice of violation or administrative action taken by either TPUC or TDEC against Superior Wastewater Systems.

**EXHIBIT 4.5** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 4.5 – Design Engineer Certification

Provide a certification from a design engineer that the wastewater system was constructed in accordance with the TDEC approved construction plans and specifications. The certification shall be filed in the docket prior to providing service.

#### **RESPONSE:**

Superior Wastewater Systems will provide a certification from a design engineer that the wastewater system for the proposed service area was constructed in accordance with the TDEC approved construction plans and specifications when construction is complete and before providing service to any end-use customers.

**NOTE:** This supplemental schedule to the Company's Annual Report is provided in conformance with the requirements of the TRA's Order in Docket 07-00062.

As required per the CCN amendment, Docket #21-00001, approved by TPUC on October 27, 2021, below is the current status of each of the requested documents related to the Taliaferro Road Parcel.

Item	Required Document	Status as of December 31, 2022
1	All final signed contract(s) between Superior and McCanless and Company, inclusive of any contracts between any affiliates or principals of Superior and/or McCanless that are involved with the construction or the operation of the wastewater facility, and/or any party contributing to the build-out/expansion of the wastewater system servicing The Homes at Mulberry Meadows.	The final signed contracts for service and construction were signed by the parties and previously included in the SWS' response to the TPUC Staff's data request Item No. 3-1 on June 28, 2021.
2	A copy of the final signed plat from Williamson County showing Superior as the wastewater utility of record.	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. On July 14, 2022, Williamson County approved a new site plan to comply with the revised zoning requirements. A copy of the final signed plat from Williamson County showing SWS as the utility of record will be provided to TPUC as soon as it is received.
3	A copy of the final State Operating Permit issued by the Tennessee Department of Environment and Conservation.	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. On July 14, 2022, Williamson County approved a new site plan to comply with the revised zoning requirements. A copy of the final SOP from TDEC based on the new site plan will be provided to TPUC as soon as it is received.
4	As-built plans for the Wastewater Treatment System and the Collection System capable of providing wastewater service for a total of 27 equivalent Dwelling Units, certified as being inspected by Superior.	At this time, construction of the subdivision has not yet begun. A copy of the as-built plans certified as being inspected by SWS will be provided to TPUC when construction has been completed.
5	A final detailed cost itemization of the complete wastewater system transferred from the Developer to Superior.	At this time, construction of the subdivision has not yet begun. A final cost itemization of the complete wastewater system will be provided to TPUC when construction has been completed.
6	A copy of the entitlement to the wastewater system and the registered deed and registered easements for the land required by Superior for the treatment plant and drip field(s) prior to any customer being provided service on any of the properties in The Homes at Mulberry Meadows.	At this time, construction of the subdivision has not yet begun. A copy of the entitlement to the wastewater system, the registered deed and any registered easements will be provided to TPUC when construction has been completed and prior to any customer receiving wastewater service.
7	A tariff in this docket for The Homes at Mulberry Meadows subdivision reflecting the rates, including any bonding rates to be passed through to the customers.	A tariff filing for the Taliaferro Road Parcel was filed with the Commission on July 27, 2022.

As required per the CCN amendment, Docket #20-00109, approved by TPUC on November 30, 2020, below is the current status of each of the requested documents related to the Fox Parcel.

Item	Required Document	Status as of December 31, 2022
1	All final signed contract(s) between Superior; Ashby Communities, LLC; Charlie Fox; and/or any party contributing to the build-out/expansion of the wastewater system servicing the Fox parcel	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, a final signed contract between the parties will be executed.
2	A copy of the final signed plat from Williamson County showing Superior as the wastewater utility of record.	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements
3	A copy of the final State Operating Permit issued by the Tennessee Department of Environment and Conservation	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, a final state operating permit will be presented to TDEC for its approval.
4	As-built plans for a total of 729 equivalent dwelling units, certified as being inspected by Superior	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, the as-built plants for all dwelling units will be completed.
5	A final detailed cost itemization of the complete wastewater system transferred from the Developer to Superior	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, the costs of the constructed wastewater system will be accumulated and provided from the Developer to Superior.
6	A copy of the surety from Ashby Communities/Charlie Fox confirming the utility as the beneficiary to insure complete construction of the system	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, documents transferring the ownership of the completed wastewater system will be provided to SWS.
7	A copy of the registered deed and registered easements for the additional land to be deeded to Superior for the additional drip field(s) prior to any new customer being provided service on any of the properties of the Fox parcel as provided in the permit application documentation filed in this docket	The original site plan submitted to Williamson County was rejected due to a change in zoning requirements. At this time, Ashby Communities, LLC is working towards submitting a revised site plan in order to comply with the revised zoning requirements. Once a revised site plan has been approved by Williamson County, documents transferring the registered deed and easements for the completed wastewater system will be provided to SWS.
8	A tariff in this Docket file for the Fox parcel reflecting the rates, including any bonding rates to be charged with an effective date to coincide with the start-up date of the wastewater	This tariff was previously filed with the Commission's Utilities Division.

**EXHIBIT 5.2** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.2 – Pro Forma Income Statement

Provide a pro forma income statement for the wastewater utility for the first three (3) years of operations or for an expanded amended CCN, the first three years after the latest year-end financials. In the calculations of utility revenues show the number of consumers and the rates used in the calculations. Show operation and maintenance expenses by account number and provide the basis and/or assumptions used to arrive at these amounts.

#### **RESPONSE**:

Attached is a ten-year pro forma income statement for Superior Wastewater Systems' operations at the proposed service territory along with an outline of assumptions considered.

## OTHER SEWER SYSTEM INFORMATION

Present Number of Equivalent Residential Customer's \* being served

Maximum Number of Equivalent Residential Customer's \* that the system can efficiently serve

640

Estimated Annual Increase in Equivalent Residential Customers \*

25/Year

\* Equivalent Residential Customers = (Total Gallons Treated / 365 Days) / 275 Gallons Per Day. Total Gallons Treated includes both sewage treated and purchased sewage treatment.

State any plans and estimated completion dates for any enlargements of this system:

N/A

If the present systems do not meet environmental requirements, please submit the following:

- A. An evaluation of the present plant or plants in regard to meeting the requirements.
- B. Plans for funding and construction of the required upgrading.
- C. The date construction will begin.

What is the percent of the certificated area that have service connections installed?

All (100%) of the certificated area of SWS have service connections in place.

<sup>\*\*\*</sup>If more space is needed to list equipment please attach additional sheets as necessary.

There are a number of incremental expenses associated with operating and maintaining the proposed wastewater plant that are not included in SWS' historical costs.

These costs include a full-time operator for the wastewater system as well as laborers to process the sludge.

SWS estimates the cost for a full-time operator to be \$75,000/year + 28% benefit costs. SWS estimates the cost for 4 full-time laborers to be \$50,000 per laborer/year + 28% benefit costs.

In addition, we expect the cost for sludge hauling to be \$850 per load. We expect to haul 2 loads per week, so this cost would be \$88,440/year.

To recap, our expected incremental costs are as follows:

Annual	28%	Total
Salary	Benefits	Cost
\$75,000	\$21,000	\$96,000
50,000	14,000	64,000
50,000	14,000	64,000
50,000	14,000	64,000
50,000	14,000	64,000
\$275,000	\$77,000	\$352,000
	\$75,000 50,000 50,000 50,000 50,000	Salary         Benefits           \$75,000         \$21,000           50,000         14,000           50,000         14,000           50,000         14,000           50,000         14,000

Activity	Loads/Year	Cost/Load	Total Cost
Sludge Hauling	104	\$850	\$88,400

We also expect this labor cost to increase by approximately 5%/year. We expect Sludge Hauling to increase by approximately 2%/year.

	5%	2%	
Year	Labor	Sludge	Total
Year 1	352,000	88,400	440,400
Year 2	369,600	90,168	459,768

## SUPERIOR WASTEWATER SYSTEMS

EXHIBIT 5.4

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.4 – Pro Forma Plant in Service

Provide a list of all plant-in-service account numbers with account names and estimated account balances as of the start of operations.

## **RESPONSE**:

Superior Wastewater Systems' estimate of the journal entry to appropriately record the wastewater plant-in-service for the proposed service territory is as follows:

Account	Debit	Credit
360 – Collection Sewers-Force	400,000	
380 – Treatment & Disposal Equipment	1,890,000	
271 – Contributions in Aid of Construction		2,290,000

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.5 – Depreciation Rates

Provide the depreciation rates the applicant intends to use for each plant account that will be on the wastewater utility's books. Include the estimated useful life of each account. If no depreciation study has been performed, explain the basis for these rates.

## **RESPONSE:**

Superior Wastewater Systems' current depreciation rates are shown in the Table below. Superior Wastewater Systems is proposing to use these same depreciation rates for new wastewater plant associated with the proposed service territory. However, all of the new wastewater plant will be funded through contributions in aid of construction (CIAOC), meaning that CIAOC will be amortized at the same rate as the depreciation expense resulting in a net zero expense.

Superior Wastewater Systems' current depreciation rates were originally proposed in Docket 04-00335 through the supplemental testimony of John Powell. However, the Commission Order in that Docket does not specifically mention any particular depreciation rates.

	Service	Depreciation
Plant Classification	Life (Yrs)	Rate
360 – Collection Sewers-Force	50	2.00%
364 – Flow Measuring Devices	10	10.00%
365 – Flow Measuring Installations	10	10.00%
370 – Receiving Wells	50	2.00%
380 – Treatment & Disposal Equipment	26	3.85%

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.6 – Estimated Wastewater Construction Cost

Provide the total estimated detailed cost of construction of the wastewater system to be constructed for the proposed service area. If the wastewater system will be constructed in phases, provide detailed construction cost estimates for each phase. Indicate whether the developer or the applicant will pay for the construction of the system.

## **RESPONSE**:

Estimated Wastewater Construction Cost: \$12,945,000

## **Service Lines to Main Collection Line**

Residential or Commercial. Customer, Builder or Developer will pay for all tanks and any pumps or apparatus including valves reducers required. Between outflow and Main Line and the cost to hook into main line.

## **Main Collection Line** Eventually all CIAOC

Estimated 7,920 lineal feet at a construction cost of \$50.00 dollars per foot. Estimate is \$400,000 Approximately \$1.34 dollars per gallon per day One time cost.

Example a facility needing 2000 GPD would have an original prorated cost of \$2,680.00 for its share of the main line. (one time)

A residential home would be based on 300 gpd its fair share would be \$402.00 (one time)

## **Treatment Plant** 300,000 gpd capacity ALL CIAOC from different lot owners

Estimated cost of \$1,530,000 original cost to a cost of \$2,250,000

Based on 2.250 million

Example a facility needing 2000 GPD would have an original prorated cost of \$15,000.00 for its GPD share of the Treatment plant (one time)

A residential home would be based on 300 gpd its fair share would be \$2,250.00 (one time)

## **Drip Fields with drip construction built.**

Each acre of Drip filed (with Pipe in ground) and reserve acre required by Williamson County will cost 145,000. Per acre.

Example a facility needing 2000 GPD would have an original prorated cost of \$137,260 for its GPD share of the Drip Fields (one time)

A residential home would be based on 300 gpd its fair share of drip acres with lines would be \$20,589.00 (one time)

Indicate the identity of the owner of the wastewater system once construction is complete. If a party other than the utility pays the cost of construction and transfers ownership of the wastewater system to the applicant, provide a detailed breakdown of the estimated amount of contributed capital that will be recorded on the applicant's financial books.

## **RESPONSE**:

Once the construction of the wastewater collection system for the proposed service area has been completed, title for the system including all drip fields will be transferred to Superior Wastewater Systems.

Superior Wastewater Systems' estimate of the journal entry to appropriately record the contributions in aid of construction for the transfer of the wastewater plant from the developer is as follows:

Account	Debit	Credit
360 – Collection Sewers-Force	400,000	
380 – Treatment & Disposal Equipment	1,890,000	
271 – Contributions in Aid of Construction		2,290,000

EXHIBIT 5.8

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.8 – Wastewater Tariff

Provide a tariff showing products, services, terms, conditions and proposed rates to be charged for wastewater service. The tariff should include all pass-through fees, including but not limited to, customer deposits, disconnect or reconnect fees, late fees, tap fees, escrow fees, bond fees, franchise fees and taxes.

#### **RESPONSE**:

See the attached Pro-Forma Tariff in Exhibit 5.8.1.

# PRO FORMA TARIFF

Second Revised Sheet #1 Replacing First Revised Sheet #1 Effective Date: January 1, 2024

## Superior Wastewater Systems Wastewater Service Billing Summary Residential Service

System	Monthly Charge
Ashby Communities – Sheet 2	\$50.10
Hill and Roberts Parcels – Sheet 3	54.34
Fox Parcel – Sheet 4	54.34

**EXHIBIT 5.9** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.9 – Estimated Monthly Customer Additions

Provide estimated costs and customers added by month for the first five (5) years based upon the construction build-out schedule for developments in the service area of the proposed wastewater system. For each year, by month, provide an estimated number of customers by customer class anticipated to be served by the wastewater system. Include the utility's basis and assumptions used for this projection. Provide this information in a spreadsheet in Microsoft Excel format with all assumptions clearly documented.

#### **RESPONSE:**

See Exhibit 5.2.1, pro-forma income statement for estimated costs and customers along with an outline of assumptions considered.

**EXHIBIT 5.10** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.10 – Local Bonding Requirements

 $Provide \ documentation \ describing \ bonding \ requirements \ imposed \ by \ municipal \ governments \ for \ the \ proposed \ wastewater \ system.$ 

### **RESPONSE**:

Bonding requirements may be imposed by Williamson County, but the amount is unknown at this time. Any bonding requirements imposed for this service area will only be charged to the customers of this area.

**EXHIBIT 5.11** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.11 – Wastewater System Performance Bond for Construction

Demonstrate that the applicant has acquired a performance bond from the developer or builder of the wastewater system made payable to the Utility to ensure construction of the wastewater system. The performance bond should be for an amount equal to or greater than the cost of the system as provided in contracts between the builder, developer and/or utility.

#### **RESPONSE**:

At this point it is premature to have a performance bond in place since construction cannot begin until after the TPUC approves a CCN for this territory. However, once construction begins SWS will require a performance bond from the developer for completion of the project. At that time, SWS will provide a copy of the performance bond to TPUC.

**EXHIBIT 5.12** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.12 – Funding Sources

List all funding sources available to the applicant for the wastewater system proposed by the applicant.

### **RESPONSE**:

Funding for the wastewater treatment plant and main collection line will be from contributions in aid of construction from different lot owners.

**EXHIBIT 5.13** 

Petition to Amend Existing Service Territory in Williamson County Exhibit 5.13 – Compliance with TPUC Financial Security

Provide information demonstrating compliance with the financial security requirement of Rule 1220-4-13-.07.

### **RESPONSE**:

Please see the attached proof of financial security filed with TPUC for 2023.

Providing Superior Wastewater Service to Tennessee

May 3, 2023

Mr. David Foster, Director Utilities Division Tennessee Public Utility Commission 502 Deaderick Street, 4<sup>th</sup> Floor Nashville, TN 37243

Re: PROOF OF FINANCIAL SECURITY FOR SUPERIOR WASTEWATER SYSTEMS (SWS)

Mr. Foster:

TPUC rule 1220-04-13-.07 requires public wastewater utilities to file proof, on or before July 1 of each year, of a security in the amount of fifty percent (50%) of annual wastewater revenues as reported in the most recent annual report or \$20,000, whichever is greater.

In accordance with the Commission Rule, SWS has a financial security requirement of \$43,824 for 2023 as shown in the attached file. Also attached are a bond from Smith Manus for \$39,000 and a letter of credit from Reliant Bank for \$16,857 totaling to \$55,857 which exceeds the Commission's financial security requirement.

Please accept this letter as proof of Superior Wastewater Systems' financial security in compliance with Commission rules.

Sincerely,

John Powell, President

#### IRREVOCABLE LETTER OF CREDIT

September 24, 2021

Beneficiary:

Tennessee Public Utility Commission 502 Deaderick Street, 4<sup>th</sup> Floor Nashville, TN 37243

Re: Irrevocable Letter of Credit #9097726, Superior Wastewater Systems, LLC

Reliant Bank ("Issuer") hereby issues this irrevocable letter of credit in favor of Superior Wastewater Systems, LLC for the benefit of the TN Public Utility Commission, hereinafter referred to as "Beneficiary" in the following manner and on the following terms.

- 1. Superior Wastewater Systems, LLC TPUC Identification Number: 128917
- 2. The extent of this Letter of Credit is \$16,857.00
- 3. This Letter of Credit is required by Tennessee Code Annotated §65-4-201 and TPUC Rule 1220-4-13-.09 and maybe be drawn up to its maximum amount.
- 4. Upon request of a draw, Issuer will promptly pay the Beneficiary via wire transfer upon notice that the TPUC has taken action pursuant to TPUC Rule 1220-4-13-.09.
- 5. Draws in part or in full will be accompanied by the following document: A certificate of default signed under oath by an official of the Tennessee Public Utility Commission certifying that the Superior Wastewater Systems, LLC has not complied with the ordinances and/or regulations of the Beneficiary and the terms of the agreement between the Beneficiary and Superior Wastewater Systems, LLC and the amount of approximate damage to the local government, which amount shall be identical to the face amount of the accompanying draft.

This Letter of Credit shall be automatically renewed without amendment unless at least ninety (90) days prior to any expiration date we notify Beneficiary by receipted overnight courier, receipted certified mail, or any receipted means that we elect not to renew this Letter of Credit. This Letter of Credit expires no later than September 24, 2022.
