RE: Request to Expedite Letter of Determination for CCN Requirement (Docket 2400016)

To Whom It May Concern,

We kindly request the Tennessee Public Utility Commission to expedite the review of our Petition regarding a letter of determination for whether a CCN is required for our project. Given the project will be privately owned by a single entity, it is our understanding that a CCN will not be required. As part of our initial Petition, we provided evidence that the Tennessee Department of Environment and Conservation furnished our project with a draft State Operating Permit which would not be issued if a CCN were required.

Our project development timeline is critically dependent on this determination and we would greatly appreciate any expedited review if possible. If you have any questions or if I may be of further assistance, I can be contacted by phone at 615-890-7901. My email address is jreed@sec-civil.com.

Sincerely,

James F. Reed III
