The accompanying notes are an integral part of these Consolidated Financial Statements.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements
(Unless otherwise noted, in millions, except per share data)

Note 1: Organization and Operation

American Water Works Company, Inc. (the "Company" or "American Water") is a holding company for regulated and market-based subsidiaries that provide water and wastewater services throughout the United States. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The Company's primary business involves the ownership of regulated utilities that provide water and wastewater services in 14 states in the United States, collectively referred to as the "Regulated Businesses." The Company also operates other market-based businesses that provide water and wastewater services within non-reportable operating segments, collectively presented throughout this Annual Report on Form 10-K within "Other." The Company's primary market-based businesses included within Other are the Military Services Group ("MSG"), which enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations; and the former Homeowner Services Group ("HOS"), which was sold on December 9, 2021, and provided various warranty protection programs and other home services to residential customers.

Note 2: Significant Accounting Policies

Regulation

The Company's regulated utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as Public Utility Commissions ("PUCs"). As such, the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's Consolidated Financial Statements. PUCs generally authorize revenue at levels intended to recover the estimated costs of providing service, plus a return on net investments, or rate base. Regulators may also approve accounting treatments, long-term financing programs and cost of capital, operation and maintenance ("O&M") expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers, acquisitions and dispositions, along with imposing certain penalties or granting certain incentives. Due to timing and other differences in the collection of a regulated utility's revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, these principles also require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers. See Note 3—Regulatory Matters for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires that management make estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. The Company considers its critical accounting estimates to include (i) the application of regulatory accounting principles and the related determination and estimation of regulatory assets and liabilities, (ii) revenue recognition and the estimates used in the calculation of unbilled revenue, (iii) accounting for income taxes, (iv) benefit plan assumptions and (v) the estimates and judgments used in determining loss contingencies. The Company's critical accounting estimates that are particularly sensitive to change in the near term are amounts reported for regulatory assets and liabilities, income taxes, benefit plan assumptions and contingency-related obligations.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of American Water and all of its subsidiaries in which a controlling interest is maintained after the elimination of intercompany balances and transactions.

Property, Plant and Equipment

Property, plant and equipment consists primarily of utility plant utilized by the Company's regulated utilities. Additions to utility plant and replacement of retirement units of utility plant are capitalized and include costs such as materials, direct labor, payroll taxes and benefits, indirect items such as engineering and supervision, transportation and an allowance for funds used during construction ("AFUDC"). Costs for repair, maintenance and minor replacements are charged to O&M expense as incurred.

The cost of utility plant is depreciated using the straight-line average remaining life, group method. The Company's regulated utilities record depreciation in conformity with amounts approved by PUCs, after regulatory review of the information the Company submits to support its estimates of the assets' remaining useful lives.

Nonutility property consists primarily of buildings and equipment utilized by the Company's MSG business and for internal operations. This property is stated at cost, net of accumulated depreciation, which is calculated using the straight-line method over the useful lives of the assets.

When units of property, plant and equipment are replaced, retired or abandoned, the carrying value is credited against the asset and charged to accumulated depreciation. To the extent the Company recovers cost of removal or other retirement costs through rates after the retirement costs are incurred, a regulatory asset is recorded. In some cases, the Company recovers retirement costs through rates during the life of the associated asset and before the costs are incurred. These amounts result in a regulatory liability being reported based on the amounts previously recovered through customer rates, until the costs to retire those assets are incurred.

The costs incurred to acquire and internally develop computer software for internal use are capitalized as a unit of property. The carrying value of these costs amounted to $369 million and $374 million as of December 31, 2022 and 2021, respectively.

Cash and Cash Equivalents, and Restricted Funds

Substantially all cash is invested in interest-bearing accounts. All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Restricted funds consist primarily of proceeds from financings for the construction and capital improvement of facilities, and deposits for future services under O&M projects. Proceeds are held in escrow or interest-bearing accounts until the designated expenditures are incurred. Restricted funds are classified on the Consolidated Balance Sheets as either current or long-term based upon the intended use of the funds.

Accounts Receivable and Unbilled Revenues

Accounts receivable include regulated utility customer accounts receivable, which represent amounts billed to water and wastewater customers generally on a monthly basis. Credit is extended based on the guidelines of the applicable PUCs and collateral is generally not required. Also included are market-based trade accounts receivable and nonutility customer receivables of the regulated subsidiaries. Unbilled revenues are accrued when service has been provided but has not been billed to customers and when costs exceed billings on market-based construction contracts.

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding. See Note 7—Allowance for Uncollectible Accounts for additional information.

Materials and Supplies

Materials and supplies are stated at the lower of cost or net realizable value. Cost is determined using the average cost method.

Seller Promissory Note

The Company's seller promissory note is accounted for under Accounting Standards Codification ("ASC") Topic 310, *Receivables*, and is classified as held for investment and accounted for at amortized cost at the present value of consideration received for the sale of its HOS business. Interest income from the seller promissory note is accrued based on the principal amount outstanding and earned over the contractual life of the loan.

Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets, accrued liabilities and operating lease liabilities on the Consolidated Balance Sheets. Finance leases are included in property, plant and equipment, accrued liabilities and other long-term liabilities on the Consolidated Balance Sheets. The Company has made an accounting policy election not to include operating leases with a lease term of twelve months or less.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent the obligation to make lease payments arising from the lease. ROU assets and lease liabilities are generally recognized at the commencement date based on the present value of discounted lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of discounted lease payments. The implicit rate is used when readily determinable. ROU assets also include any upfront lease payments and excludes lease incentives. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the option will be exercised. Lease expense is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease components (e.g., fixed payments including rent, real estate taxes and insurance costs) and non-lease components (e.g., common-area maintenance costs), which are generally accounted for separately; however, the Company accounts for the lease and non-lease components as a single lease component for certain leases. Certain lease agreements include variable rental payments adjusted periodically for inflation. Additionally, the Company applies a portfolio approach to effectively account for the ROU assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Goodwill

Goodwill represents the excess of the purchase price paid over the estimated fair value of the assets acquired and liabilities assumed in the acquisition of a business. Goodwill is not amortized and must be allocated at the reporting unit level, which is defined as an operating segment or one level below, and tested for impairment at least annually, or more frequently if an event occurs or circumstances change that would more likely than not, reduce the fair value of a reporting unit below its carrying value.

The Company's goodwill is primarily associated with the acquisition of American Water by an affiliate of the Company's previous owner in 2003 and has been allocated to reporting units based on the fair values at the date of the acquisitions. For purposes of testing goodwill for impairment, the reporting units in the Regulated Businesses segment are aggregated into a single reporting unit. The goodwill of Other is comprised of the MSG reporting unit.

The Company's annual impairment testing is performed as of November 30 of each year. The Company assesses qualitative factors to determine whether quantitative testing is necessary. If it is determined, based upon qualitative factors, that the estimated fair value of a reporting unit is, more likely than not, greater than its carrying value, no further testing is required. If the Company bypasses the qualitative assessment or performs the qualitative assessment and determines that the estimated fair value of a reporting unit, is more likely than not, less than its carrying value, a quantitative, fair value-based assessment is performed. This quantitative testing compares the estimated fair value of the reporting unit to its respective net carrying value, including goodwill, on the measurement date. An impairment loss will be recognized in the amount equal to the excess of the reporting unit's carrying value compared to its estimated fair value, limited to the total amount of goodwill allocated to that reporting unit.

Application of goodwill impairment testing requires management judgment, including the identification of reporting units and determining the fair value of reporting units. Management estimates fair value using a discounted cash flow analysis. Significant assumptions used in these fair value estimations include, but are not limited to, forecasts of future operating results, discount rate and growth rate.

The Company believes the assumptions and other considerations used to value goodwill to be appropriate, however, if actual experience differs from the assumptions and considerations used in its analysis, the resulting change could have a material adverse impact on the Consolidated Financial Statements. See Note 8—Goodwill and Other Intangible Assets for additional information.

Impairment of Long-Lived Assets

Long-lived assets, other than goodwill, include property, plant and equipment and long-term investments. The Company evaluates long-lived assets for impairment when circumstances indicate the carrying value of those assets may not be recoverable. The Company determines if long-lived assets are potentially impaired by comparing the undiscounted expected future cash flows to the carrying value when indicators of impairment exist. When the undiscounted cash flow analysis indicates a long-lived asset may not be recoverable, the amount of the impairment loss is determined by measuring the excess of the carrying amount of the long-lived asset or asset group over its fair value.

The long-lived assets of the Company's regulated utilities are grouped on a separate entity basis for impairment testing, as they are integrated state-wide operations that do not have the option to curtail service and generally have uniform tariffs. A regulatory asset is charged to earnings if and when future recovery in rates of that asset is no longer probable.

The Company believes the assumptions and other considerations used to value long-lived assets to be appropriate, however, if actual experience differs from the assumptions and considerations used in its estimates, the resulting change could have a material adverse impact on the Consolidated Financial Statements.

Advances for Construction and Contributions in Aid of Construction

Regulated utility subsidiaries may receive advances for construction and contributions in aid of construction from customers, home builders and real estate developers to fund construction necessary to extend service to new areas.

Advances are refundable for limited periods of time as new customers begin to receive service or other contractual obligations are fulfilled. Included in other current liabilities as of December 31, 2022 and 2021 on the Consolidated Balance Sheets are estimated refunds of $19 million and $23 million, respectively. These amounts represent expected refunds during the next 12-month period.

Advances that are no longer refundable are reclassified to contributions. Contributions are permanent collections of plant assets or cash for a particular construction project. For ratemaking purposes, the amount of such contributions generally serves as a rate base reduction since the contributions represent non-investor supplied funds.

Generally, the Company depreciates utility plant funded by contributions and amortizes its contributions balance as a reduction to depreciation expense, producing a result which is functionally equivalent to reducing the original cost of the utility plant for the contributions. In accordance with applicable regulatory guidelines, some of the Company's utility subsidiaries do not amortize contributions, and any contribution received remains on the balance sheet indefinitely. Amortization of contributions in aid of construction was $37 million, $36 million and $32 million for the years ended December 31, 2022, 2021 and 2020, respectively.

Revenue Recognition

Under ASC Topic 606, *Revenue From Contracts With Customers,* and all related amendments (collectively, "ASC 606"), a performance obligation is a promise within a contract to transfer a distinct good or service, or a series of distinct goods and services, to a customer. Revenue is recognized when performance obligations are satisfied and the customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for goods or services. Under ASC 606, a contract's transaction price is allocated to each distinct performance obligation. To determine revenue recognition for arrangements that the Company determines are within the scope of ASC 606, the Company performs the following five steps: (i) identifies the contracts with a customer; (ii) identifies the performance obligations within the contract, including whether any performance obligations are distinct and capable of being distinct in the context of the contract; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations in the contract; and (v) recognizes revenue when, or as, the Company satisfies each performance obligation.

The Company's revenues from contracts with customers are discussed below. Customer payments for contracts are generally due within 30 days of billing and none of the contracts with customers have payment terms that exceed one year; therefore, the Company elected to apply the significant financing component practical expedient and no amount of consideration has been allocated as a financing component.

Regulated Businesses Revenue

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water and/or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer. The Company also recognizes revenue when it is probable that future recovery of previously incurred costs or future refunds that are to be credited to customers will occur through the ratemaking process.

Other Revenue

The Company has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on various military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues, with billings in excess of revenues recorded as other current liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. See Note 4—Revenue Recognition for additional information.

Prior to December 9, 2021, through various warranty protection programs and other home services, the Company previously provided fixed fee services to residential customers for interior and exterior water and sewer lines, interior electric and gas lines, heating and cooling systems, water heaters and other home appliances, as well as power surge protection and other related services through its former HOS business. Most of the contracts had a one-year term and each service was a separate performance obligation, satisfied over time, as the customers simultaneously received and consumed the benefits provided from the service. Customers were obligated to pay for the protection programs ratably over 12 months or via a one-time, annual fee, with revenues recognized ratably over time for those services. Advances from customers were deferred until the performance obligation was satisfied.

Income Taxes

The Company and its subsidiaries participate in a consolidated federal income tax return for U.S. tax purposes. Members of the consolidated group are charged with the amount of federal income tax expense determined as if they filed separate returns.

Certain income and expense items are accounted for in different time periods for financial reporting than for income tax reporting purposes. The Company provides deferred income taxes on the difference between the tax basis of assets and liabilities and the amounts at which they are carried in the financial statements. These deferred income taxes are based on the enacted tax rates expected to be in effect when these temporary differences are projected to reverse. In addition, the regulated utility subsidiaries recognize regulatory assets and liabilities for the effect on revenues expected to be realized as the tax effects of temporary differences, previously flowed through to customers, reverse.

Investment tax credits have been deferred by the regulated utility subsidiaries and are being amortized to income over the average estimated service lives of the related assets.

The Company recognizes accrued interest and penalties related to tax positions as a component of income tax expense and accounts for sales tax collected from customers and remitted to taxing authorities on a net basis. See Note 14—Income Taxes for additional information.

Allowance for Funds Used During Construction

AFUDC is a non-cash credit to income with a corresponding charge to utility plant that represents the cost of borrowed funds or a return on equity funds devoted to plant under construction. The regulated utility subsidiaries record AFUDC to the extent permitted by the PUCs. The portion of AFUDC attributable to borrowed funds is shown as a reduction of interest, net on the Consolidated Statements of Operations. Any portion of AFUDC attributable to equity funds would be included in other, net on the Consolidated Statements of Operations. Presented in the table below is AFUDC for the years ended December 31:

	2022	2021	2020
Allowance for other funds used during construction	$ 20	$ 27	$ 30
Allowance for borrowed funds used during construction	14	10	13

Derivative Financial Instruments

The Company uses derivative financial instruments primarily for purposes of hedging exposures to fluctuations in interest rates. These derivative contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

All derivatives are recognized on the balance sheet at fair value. On the date the derivative contract is entered into, the Company designates the derivative as a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash-flow hedge).

The gains and losses on the effective portion of cash-flow hedges are recorded in other comprehensive income, until earnings are affected by the variability of cash flows. Any ineffective portion of designated cash-flow hedges is recognized in current-period earnings.

Cash flows from derivative contracts are included in net cash provided by operating activities on the Consolidated Statements of Cash Flows. See Note 11—Long-Term Debt for additional information.

Pension and Other Postretirement Benefits

The Company maintains defined benefit pension plans and other postretirement benefit plans for eligible employees and retirees. The plan obligation and costs of providing benefits under these plans are annually measured as of December 31. The measurement involves various factors, assumptions and accounting elections. The impact of assumption changes or experience different from that assumed on pension and other postretirement benefit obligations is recognized over time rather than immediately recognized in the Consolidated Statements of Operations and the Consolidated Statements of Comprehensive Income. Cumulative gains and losses that are in excess of 10% of the greater of either the projected benefit obligation or the fair value of plan assets are amortized over the expected average remaining future service period of the current active membership for the plans, with the exception of the American Water Pension Plan for Certain Inactive Participants ("AWPP Inactive"), which is amortized over the average remaining life expectancy of the inactive participants. See Note 15—Employee Benefits for additional information.

The Company's policy is to recognize curtailments when the total expected future service of plan participants is reduced by greater than 10% due to an event that results in terminations and/or retirements.

New Accounting Standards

Presented in the table below are new accounting standards that were adopted by the Company in 2022:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Accounting for Convertible Instruments and Contracts in an Entity's Own Equity	Simplification of financial reporting associated with accounting for convertible instruments and contracts in an entity's own equity. The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. This will result in fewer embedded conversion features being separately recognized from the host contract. Earnings per share ("EPS") calculations have been simplified for certain instruments.	January 1, 2022	Modified retrospective	The standard did not have a material impact on the Consolidated Financial Statements.
Disclosures by Business Entities about Government Assistance	The amendments in this update require additional disclosures regarding government grants and contributions. These disclosures require information on the following three items about government transactions to be provided: information on the nature of transactions and related accounting policy used to account for transactions, the line items on the balance sheet and income statement affected by these transactions including amounts applicable to each line, and significant terms and conditions of the transactions, including commitments and contingencies.	January 1, 2022	Prospective	The standard did not have a material impact on the Consolidated Financial Statements.
Reference Rate Reform	This update provides an additional two-year deferral on the sunset date for temporary relief during the reference rate reform transition period. After December 31, 2024, the Company will no longer be permitted to apply the relief for reference rate reform.	December 21, 2022	Prospective	The standard did not have a material impact on the Consolidated Financial Statements

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of December 31, 2022:

Standard	Description	Date of Adoption	Application	Estimated Effect on the Consolidated Financial Statements
Accounting for Contract Assets and Contract Liabilities from Contracts with Customers	The guidance requires an acquirer recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with Accounting Standards Codification Topic 606, as if it had originated the contracts. The amendments in this update also provide certain practical expedients for acquirers when recognizing and measuring acquired contract assets and contract liabilities from revenue contracts in a business combination.	January 1, 2023; early adoption permitted	Prospective	The Company is evaluating any impact on its Consolidated Financial Statements, as well as the timing of adoption.
Troubled Debt Restructurings and Vintage Disclosures	The main provisions of this standard eliminate the receivables accounting guidance for troubled debt restructurings ("TDRs") by creditors while enhancing disclosure requirements when a borrower is experiencing financial difficulty. Entities must apply the loan refinancing and restructuring guidance for receivables to determine whether a modification results in a new loan or a continuation of an existing loan. Additionally, the amendments in this update require that an entity disclose current-period gross write-offs by year of origination for financing receivables and net investment in leases.	January 1, 2023; early adoption permitted	Prospective, with a modified retrospective option for amendments related to the recognition and measurement of TDRs.	The Company is evaluating any impact on its Consolidated Financial Statements, as well as the timing of adoption.

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

Presented in the table below are annualized incremental revenues, including reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense, assuming a constant water sales volume and customer count, resulting from general rate case authorizations that became effective during 2022:

(In millions)	Effective Date	Amount
General rate cases by state:		
New Jersey	September 1, 2022	$ 46
Hawaii	July 1, 2022	2
West Virginia	February 25, 2022	13
California, Step Increase	January 1, 2022	9
Pennsylvania, Step Increase	January 1, 2022	20
Total general rate case authorizations		$ 90

Presented in the table below are annualized incremental revenues, including reductions for the amortization of EADIT that are generally offset in income tax expense, assuming a constant water sales volume and customer count, resulting from general rate case authorizations that became effective on or after January 1, 2023:

(In millions)	Effective Date	Amount
General rate cases by state:		
Pennsylvania	January 28, 2023	$ 138
Illinois	January 1, 2023	67
California, Step Increase	January 1, 2023	13
Total general rate case authorizations		$ 218

On December 15, 2022, the Illinois Commerce Commission issued an order approving the adjustment of base rates requested in a rate case filed on February 10, 2022, by the Company's Illinois subsidiary. As updated in the Illinois subsidiary's June 29, 2022 rebuttal filing, the request sought $83 million in additional annualized revenues excluding previously recovered infrastructure surcharges. The general rate case order approved a $67 million annualized increase in water and wastewater system revenues excluding previously recovered infrastructure surcharges, effective January 1, 2023, based on an authorized return on equity of 9.8%, authorized rate base of $1.64 billion, a common equity ratio of 49.0% and a debt ratio of 51.0%. The annualized revenue increase is being driven primarily by significant water and wastewater system capital investments since the Illinois subsidiary's 2017 rate case order that have been completed or are planned through December 31, 2023, expected higher pension and other postretirement benefit costs, and increases in production costs, including chemicals, fuel and power costs.

On December 8, 2022, the Pennsylvania Public Utility Commission issued an order approving the joint settlement of the rate case filed on April 29, 2022, by the Company's Pennsylvania subsidiary. The general rate case order approved a $138 million annualized increase in water and wastewater revenues and authorizes implementation of the new water and wastewater rates effective January 28, 2023. The rate case proceeding was resolved through a "black box" settlement agreement and did not specify an approved return on equity ("ROE"). The annualized revenue increase is driven primarily by significant incremental capital investments since the Pennsylvania subsidiary's 2021 rate case order that will be completed through December 31, 2023, increases in pension and other postretirement benefits expense and increases in production costs, including chemicals, fuel and power costs. The general rate case order also includes recovery of the Company's Pennsylvania subsidiary's COVID-19 deferral balance.

On August 17, 2022, the Company's New Jersey subsidiary was authorized additional annual revenues of $46 million in its general rate case, effective September 1, 2022, based on an authorized return on equity of 9.6%, authorized rate base of $4.15 billion, a common equity ratio of 54.6% and a long-term debt ratio of 45.4%. The request incorporated updated estimates of production costs, including chemicals, fuel and power costs. Beginning January 1, 2023, the Company's New Jersey subsidiary will defer as a regulatory asset or liability, as appropriate, the difference between its pension expense and other postretirement benefits expense and those amounts included in base rates. The deferral period for this regulatory asset or liability will be two years or, if earlier, will end at the conclusion of the Company's New Jersey subsidiary's next general rate case. The Company's New Jersey subsidiary also withdrew its request, without prejudice, to recover its existing authorized COVID-19-related regulatory asset in the general rate case and will seek recovery in a separate proceeding within the process established in the New Jersey Board of Public Utilities' (the "NJBPU") generic COVID-19-related proceeding.

On February 24, 2022, the Company's West Virginia subsidiary ("WVAWC") was authorized additional annual revenues of $13 million in its general rate case, effective February 25, 2022, based on an authorized return on equity of 9.8%, authorized rate base of $734 million and a common equity ratio of 47.9%. Staff of the Public Service Commission of West Virginia moved for reconsideration of the final order on several grounds. WVAWC filed its response to the Staff's Petition for Reconsideration on March 28, 2022, in support of the authorized revenue requirement. On October 21, 2022, the Public Service Commission of West Virginia denied the motion for reconsideration.

Pending General Rate Case Filings

On July 1, 2022, the Company's California subsidiary filed a general rate case requesting an increase in 2024 revenue of $56 million and a total increase in revenue over the 2024 to 2026 period of $95 million, with all increases compared against 2022 revenues. The Company updated its filing in January 2023 to capture the authorized step increase effective January 1, 2023. The filing was also updated to incorporate a decoupling proposal and a revision to the Company's sales and associated variable expense forecast. The revised requested additional annualized revenues for the test year 2024 is now $37 million, compared against 2023 revenues. This excludes the proposed step rate and attrition rate increase for 2025 and 2026 of $20 million and $19 million, respectively. The total revenue requirement request for the three-year rate case cycle, incorporating updates to present rate revenues and forecasted demand, is $76 million.

On July 1, 2022, the Company's Missouri subsidiary filed a general rate case requesting $105 million in additional annualized revenues.

On November 15, 2021, the Company's Virginia subsidiary filed a general rate case requesting $14 million in additional annualized revenues. Interim rates were effective on May 1, 2022, and the difference between interim and final approved rates is subject to refund. On September 26, 2022, a settlement agreement, supported by all parties except one, was filed with the Virginia State Corporation Commission for a $11 million annual revenue increase. Public hearings were held on September 27 and 28, 2022. A final decision on this matter is expected in the first quarter of 2023.

The Company's California subsidiary submitted its application on May 3, 2021, to set its cost of capital for 2022 through 2024. According to the CPUC's procedural schedule, a decision setting the authorized cost of capital is expected to be issued in the first quarter of 2023.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant water sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2022:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	(a)	$ 11
Pennsylvania	(b)	19
Missouri	(c)	30
Tennessee	August 8, 2022	3
Kentucky	July 1, 2022	3
Indiana	March 21, 2022	8
West Virginia	March 1, 2022	3
Illinois	January 1, 2022	6
Total infrastructure surcharge authorizations		$ 83

(a) In 2022, $1 million was effective December 30 and $10 million was effective June 27.

(b) In 2022, $8 million was effective on October 1, $9 million was effective July 1 and $2 million was effective April 1.

(c) In 2022, $18 million was effective August 11 and $12 million was effective February 1.

Presented in the table below are annualized incremental revenues, assuming a constant water sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective on or after January 1, 2023:

(In millions)	Effective Date	Amount
Infrastructure surcharge filings by state:		
Missouri	January 16, 2023	$ 15
West Virginia	January 1, 2023	7
Pennsylvania	January 1, 2023	3
Total infrastructure surcharge filings		$ 25

Pending Infrastructure Surcharge Filings

On January 20, 2023, the Company's Indiana subsidiary filed an infrastructure surcharge proceeding requesting $21 million in additional annualized revenue

On November 18, 2022, the Company's Indiana subsidiary filed an infrastructure surcharge proceeding requesting $7 million in additional annualized revenues.

Other Regulatory Matters

In September 2020, the CPUC released a decision under its Low-Income Rate Payer Assistance program rulemaking that required the Company's California subsidiary to file a proposal to alter its water revenue adjustment mechanism in its next general rate case filing in 2022, which would become effective in January 2024. On October 5, 2020, the Company's California subsidiary filed an application for rehearing of the decision and following the CPUC's denial of its rehearing application in September 2021, the Company's California subsidiary filed a petition for writ of review with the California Supreme Court on October 27, 2021. On May 18, 2022, the California Supreme Court issued a writ of review for the Company's California subsidiary's petition and the petitions filed by other entities challenging the decision. Independent of the judicial challenge, California passed Senate Bill 1469, which allows the CPUC to consider and authorize the implementation of a mechanism that separates the water corporation's revenue and its water sales. Legislation was signed by the Governor on September 30, 2022, and became effective on January 1, 2023. In response to the legislation, on January 27, 2023, the Company's California subsidiary filed an updated application requesting the CPUC to consider a Water Resources Sustainability Plan decoupling mechanism in its pending 2022 general rate case, which would be effective 2024 through 2026.

On March 2, 2021, an administrative law judge ("ALJ") in the Office of Administrative Law of New Jersey filed an initial decision with the NJBPU that recommended denial of a petition filed by the Company's New Jersey subsidiary, which sought approval of acquisition adjustments in rate base of $29 million associated with the acquisitions of Shorelands Water Company, Inc. in 2017 and the Borough of Haddonfield's water and wastewater systems in 2015. On July 29, 2021, the NJBPU issued an order adopting the ALJ's initial decision without modification. The Company's New Jersey subsidiary filed a Notice of Appeal with the New Jersey Appellate Division on September 10, 2021. The Company's New Jersey subsidiary filed its brief in support of the appeal on March 4, 2022. Response and Reply briefs were filed on June 22, 2022, and August 4, 2022, respectively. There is no financial impact to the Company as a result of the NJBPU's order, since the acquisition adjustments are currently recorded as goodwill on the Consolidated Balance Sheets.

Regulatory Assets

Regulatory assets represent costs that are probable of recovery from customers in future rates. Approximately 50% of the Company's total regulatory asset balance at December 31, 2022 earns a return. Presented in the table below is the composition of regulatory assets as of December 31:

	2022	2021
Deferred pension expense	$ 251	$ 323
Removal costs recoverable through rates	307	313
Regulatory balancing accounts	26	52
Other	406	439
Less: Regulatory assets included in assets held for sale (a)	—	(76)
Total regulatory assets	$ 990	$ 1,051

(a) These regulatory assets are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

The Company's deferred pension expense includes a portion of the underfunded status that is probable of recovery through rates in future periods of $251 million and $317 million as of December 31, 2022 and 2021, respectively. The remaining portion is the pension expense in excess of the amount contributed to the pension plans which is deferred by certain subsidiaries and will be recovered in future service rates as contributions are made to the pension plan.

Removal costs recoverable through rates represent costs incurred for removal of property, plant and equipment or other retirement costs.

Regulatory balancing accounts accumulate differences between revenues recognized and authorized revenue requirements until they are collected from customers or are refunded. Regulatory balancing accounts include low income programs and purchased power and water accounts.

Other regulatory assets include the financial impacts relating to the COVID-19 pandemic, purchase premium recoverable through rates, tank painting costs, certain construction costs for treatment facilities, property tax stabilization, employee-related costs, business services project expenses, coastal water project costs, rate case expenditures and environmental remediation costs among others. These costs are deferred because the amounts are being recovered in rates or are probable of recovery through rates in future periods.

The Company has current regulatory assets of $40 million and $16 million included in other current assets on the Consolidated Balance Sheet as of December 31, 2022 and 2021, respectively, which is primarily made up of rate adjustment mechanisms.

Regulatory Liabilities

Regulatory liabilities generally represent amounts that are probable of being credited or refunded to customers through the rate making process. Also, if costs expected to be incurred in the future are currently being recovered through rates, the Company records those expected future costs as regulatory liabilities. Presented in the table below is the composition of regulatory liabilities as of December 31:

	2022	2021
Income taxes recovered through rates	$ 1,127	$ 1,093
Removal costs recovered through rates	275	291
Postretirement benefit liability	100	153
Other	88	110
Less: Regulatory liabilities included in liabilities related to assets held for sale (a)	—	(47)
Total regulatory liabilities	$ 1,590	$ 1,600

(a) These regulatory liabilities are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

Income taxes recovered through rates relate to deferred taxes that will likely be refunded to the Company's customers. On December 22, 2017, the Tax Cuts and Jobs Act of 2017 ("TCJA") was signed into law, which, among other things, enacted significant and complex changes to the Internal Revenue Code of 1986, as amended, including a reduction in the federal corporate income tax rate from 35% to 21% as of January 1, 2018. The enactment of the TCJA required a re-measurement of the Company's deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT will be used to benefit its regulated customers in future rates. All of the Company's regulated subsidiaries are amortizing EADIT and crediting customers.

Removal costs recovered through rates are estimated costs to retire assets at the end of their expected useful lives that are recovered through customer rates over the lives of the associated assets.

On August 31, 2018, the Postretirement Medical Benefit Plan was remeasured to reflect an announced plan amendment which changed benefits for certain union and non-union plan participants. As a result of the remeasurement, the Company recorded a $227 million reduction to the net accumulated postretirement benefit obligation, with a corresponding regulatory liability.

Other regulatory liabilities include the financial impacts relating to the COVID-19 pandemic, TCJA reserve on revenue, pension and other postretirement benefit balancing accounts, legal settlement proceeds, deferred gains and various regulatory balancing accounts.

The Company has current regulatory liabilities of $5 million and $8 million included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2022 and 2021, respectively, which primarily is made up of TCJA reserve on revenue.

Note 4: Revenue Recognition

Disaggregated Revenues

Presented in the table below are operating revenues disaggregated for the year ended December 31, 2022:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 1,938	$ 3	$ 1,941
Commercial	709	1	710
Fire service	147	—	147
Industrial	152	1	153
Public and other	252	—	252

Other	523	(1)	522
Total operating revenues	$ 3,743	$ 34	$ 3,777

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings and cash collections. In the Company's MSG, certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $86 million, $71 million and $39 million are included in unbilled revenues on the Consolidated Balance Sheets as of December 31, 2022, 2021 and 2020, respectively. There were $161 million of contract assets added during 2022, and $146 million of contract assets were transferred to accounts receivable during 2022. There were $71 million of contract assets added during 2021, and $39 million of contract assets were transferred to accounts receivable during 2021.

Contract liabilities of $91 million, $19 million and $35 million are included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2022, 2021 and 2020, respectively. There were $189 million of contract liabilities added during 2022, and $117 million of contract liabilities were recognized as revenue during 2022. There were $152 million of contract liabilities added during 2021, and $168 million of contract liabilities were recognized as revenue during 2021.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of December 31, 2022, the Company's O&M and capital improvement contracts in MSG and the Contract Services Group have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2071 and have RPOs of $7.0 billion as of December 31, 2022, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $589 million as of December 31, 2022, as measured by estimated remaining contract revenue. Some of the Company's long-term contracts to operate and maintain the federal government's, a municipality's or other party's water or wastewater treatment and delivery facilities include responsibility for certain maintenance for some of those facilities, in exchange for an annual fee. Unless specifically required to perform certain maintenance activities, the maintenance costs are recognized when the maintenance is performed.

Note 5: Acquisitions and Divestitures

Regulated Businesses

Closed Acquisitions

During 2022, the Company closed on 26 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $335 million, of which $315 million was funded in 2022, which added approximately 70,000 water and wastewater customers, including the acquisition of the City of York wastewater system assets noted below. Assets acquired from these acquisitions, principally utility plant, totaled $337 million and liabilities assumed totaled $6 million. Several of these acquisitions were accounted for as business combinations. The preliminary purchase price allocations related to acquisitions accounted for as business combinations will be finalized once the valuation of assets acquired has been completed, no later than one year after their acquisition date.

On May 27, 2022, the Company's Pennsylvania subsidiary acquired the public wastewater collection and treatment system assets from the York City Sewer Authority and the City of York for a purchase price of $235 million, in cash, $20 million of which was funded as a deposit to the seller in April 2021 in connection with the execution of the acquisition agreement. The system assets serve, directly and indirectly through bulk contracts, more than 45,000 customers. The acquisition was accounted for as a business combination and the preliminary purchase price allocation will be finalized once the valuation of assets acquired has been completed, no later than one year after the acquisition date. The preliminary purchase price allocation consisted primarily of $231 million of utility plant and $4 million of goodwill, which is reported in the Company's Regulated Businesses segment.

During 2021, the Company closed on 23 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $112 million. Assets acquired from these acquisitions, principally utility plant, totaled $114 million and liabilities assumed totaled $2 million. Several of these acquisitions were accounted for as business combinations.

The pro forma impact of the Company's acquisitions was not material to the Consolidated Statements of Operations for the years ended December 31, 2022, 2021 and 2020.

Pending Acquisitions

On October 11, 2022, the Company's Pennsylvania subsidiary entered into an agreement to acquire the wastewater assets of the Butler Area Sewer Authority for a total purchase price of $232 million in cash, subject to adjustment as provided for in the Asset Purchase Agreement. This system provides wastewater service for approximately 14,700 customer connections. The Company expects to close this acquisition by the end of 2023, pending regulatory approval.

On March 29, 2021, the Company's New Jersey subsidiary entered into an agreement to acquire the water and wastewater assets of Egg Harbor City for $22 million. The water and wastewater systems currently serve approximately 1,500 customers each, or 3,000 combined, and are being sold through the New Jersey Water Infrastructure Protection Act process. The Company expects to close this acquisition in early 2023.

Sale of New York American Water Company, Inc.

On January 1, 2022, the Company completed the previously disclosed sale of its regulated utility operations in New York to Liberty Utilities (Eastern Water Holdings) Corp. ("Liberty"), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of $608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations represented approximately 127,000 customers in the State of New York. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021.

Presented in the table below are the components of assets held for sale and liabilities related to assets held for sale of the New York subsidiary as of December 31, 2021:

	December 31, 2021
Property, plant and equipment	$ 556
Current assets	18
Regulatory assets	76
Goodwill	27
Other assets	6
Assets held for sale	$ 683
Current liabilities	13
Regulatory liabilities	47
Other liabilities	23
Liabilities related to assets held for sale	$ 83

Sale of Michigan American Water Company

On February 4, 2022, the Company completed the sale of its operations in Michigan for $6 million in cash.

Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised HOS to a wholly owned subsidiary of funds advised by Apax Partners LLP, a global private equity advisory firm (the "Buyer"), for total consideration of approximately $1.275 billion, resulting in pre-tax gain of $748 million. The consideration is comprised of $480 million in cash, a seller promissory note issued by the Buyer in the principal amount of $720 million, and a contingent cash payment of $75 million payable upon satisfaction of certain conditions on or before December 31, 2023. See Note 18—Fair Value of Financial Information for additional information relating to the seller promissory note and contingent cash payment. For the year ended December 31, 2022, the Company recorded post-closing adjustments, primarily related to working capital, of pre-tax income of $20 million, which is included in Gain on sale of businesses on the Consolidated Statements of Operations.

The seller note has a five-year term, is payable in cash, and bears interest at a rate of 7.00% per year during the term. The Company recognized $50 million of interest income during the year ended December 31, 2022, from the seller note. The repayment obligations of the Buyer under the seller note have been secured by a first priority security interest in certain property of the Buyer and the former HOS subsidiaries, including their cash and securities accounts, as well as a pledge of the equity interests in each of those subsidiaries, subject to certain limitations and exceptions. The seller note requires compliance with affirmative and negative covenants (subject to certain conditions, limitations and exceptions), including a covenant limiting the incurrence by the Buyer and certain affiliates of additional indebtedness in excess of certain thresholds, but does not include any financial maintenance covenants.

Beginning December 9, 2024, the Company has a put right pursuant to which it may require the seller note to be repaid in full at par, plus accrued and unpaid interest, except that upon the occurrence of a disruption event in the broadly syndicated term loan "B" debt financing market, repayment by the Buyer pursuant to the Company's exercise of the put right will be delayed until the market disruption event ends.

The seller note may not be prepaid at the Buyer's election except in certain limited circumstances before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the seller note in breach of this non-call provision, an event of default will occur under the seller note and the Company may, among other actions, demand repayment in full together with a premium ranging from 105.5% to 107.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

The Company and the Buyer also entered into a revenue share agreement, pursuant to which the Company is to receive 10% of the revenue generated from customers who are billed for home warranty services through an applicable Company subsidiary (an "on-bill" arrangement), and 15% of the revenue generated from any future on-bill arrangements entered into after the Closing Date. Unless earlier terminated, this agreement has a term of up to 15 years, which may be renewed for up to two five-year periods. The Company recognized $9 million of income during the year ended December 31, 2022, from the revenue share agreements, which is included in Other, net on the Consolidated Statements of Operations.

Note 6: Property, Plant and Equipment

Presented in the table below are the major classes of property, plant and equipment by category as of December 31:

	2022	2021	Range of Remaining Useful Lives	Weighted Average Useful Life
Utility plant:				
Land and other non-depreciable assets	$ 239	$ 210		
Sources of supply	1,003	938	10 to 127 years	46 years
Treatment and pumping facilities	4,298	4,198	3 to 101 years	39 years
Transmission and distribution facilities	12,971	12,308	9 to 128 years	69 years
Services, meters and fire hydrants	5,162	4,888	5 to 90 years	32 years
General structures and equipment	2,289	2,200	1 to 109 years	15 years
Waste collection	1,539	1,363	5 to 113 years	56 years
Waste treatment, pumping and disposal	1,129	912	2 to 153 years	38 years
Construction work in progress	974	934		
Other (a)	23	(664)		
Total utility plant	29,627	27,287		
Nonutility property	109	126	3 to 50 years	10 years
Total property, plant and equipment	$ 29,736	$ 27,413		

(a) This includes utility plant acquisition adjustment balances in addition to property, plant and equipment related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

Property, plant and equipment depreciation expense amounted to $552 million, $550 million and $520 million for the years ended December 31, 2022, 2021 and 2020, respectively and was included in depreciation and amortization expense on the Consolidated Statements of Operations. The provision for depreciation expressed as a percentage of the aggregate average depreciable asset balances was 2.60%, 2.77% and 2.82% for years December 31, 2022, 2021 and 2020, respectively. Additionally, the Company had capital expenditures acquired on account but unpaid of $330 million and $292 million included in accrued liabilities on the Consolidated Balance Sheets as of December 31, 2022 and 2021, respectively.

In 2019, the Company completed and submitted its project completion certification to the New Jersey Economic Development Authority ("NJEDA") in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The NJEDA determined that the Company was qualified to receive $164 million in tax credits over a 10-year period. In October 2022, the NJEDA issued the Company a revised tax credit certificate in the amount of $161 million in tax credits to be received over the same 10-year period. The NJEDA denied previously approved capitalized interest cost amounting to $2.8 million. As a result, the Company adjusted the amounts included in Property, plant and equipment.

The Company is required to meet various annual requirements in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15.

One of the requirements to qualify for the release of credits annually is that the Company maintain a certain level of eligible positions at the qualified business facility ("QBF"). Prior to March 2020, a full-time employee must have spent at least 80% of their time at the QBF to meet the definition of eligible position or full-time job. On July 2, 2021, New Jersey's Governor signed legislation that revised provisions of the Economic Recovery Act of 2020, which lowered the 80% requirement for spending time at the QBF to 60% of the employee's time.

During the COVID-19 pandemic, the NJEDA implemented certain accommodations that temporarily waived the requirement that a full-time employee spend the requisite percentage of time at the QBF to be eligible for the award under the program. This waiver expired on June 30, 2022.

On December 22, 2022, the New Jersey Governor signed legislation which provides an additional waiver to eligible businesses for the period of July 1, 2022 to December 31, 2023. Specifically, it allows businesses to waive the 60% on-site requirement if (i) full-time workers spend at least 10% of their work hours at the QBF and (ii) the business pays NJEDA 5% of the amount of the tax credit the business receives for the 2022 tax period. The legislation also (i) extends the time within which a business may terminate their participation in the program to December 31, 2023, without the NJEDA recapturing previously distributed credits; (ii) extends the time allowed under current law for a business to suspend its obligations under the incentive agreement; (iii) extends the provision to include the 2022 and 2023 tax periods; and (iv) renews and extends the right of a business to reduce the required full-time employees specified in the incentive agreement to be eligible to receive the credit. The Company is considering all of its options as a result of the most recent legislation.

In December 2022, the NJEDA issued the utilization certificate for the 2019 tax credits to the Company in the amount of $16 million. The Company sold these tax credits to external parties in December 2022 for $15 million. The loss on sale of credits was recorded to Other income (expense) in the Consolidated Results of Operations for the year ended December 31, 2022. As a result, the Company had assets of $48 million and $97 million in Other current assets and Other long-term assets, respectively, on the Consolidated Balance Sheets as of December 31, 2022. The Company has made the necessary annual filings for the years ended December 31, 2020 and 2021, and expects to make the 2022 filing by April 30, 2023. The remaining submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the credits in 2023.

Note 7: Allowance for Uncollectible Accounts

Presented in the table below are the changes in the allowances for uncollectible accounts for the years ended December 31:

	2022	2021	2020
Balance as of January 1	$ (75)	$ (60)	$ (41)
Amounts charged to expense	(24)	(37)	(34)
Amounts written off	27	35	23
Other, net (a)	12	(13)	(8)
Balance as of December 31	$ (60)	$ (75)	$ (60)

(a) This portion of the allowance for uncollectible accounts is primarily related to COVID-19 related regulatory asset activity. The 2021 and 2020 activity also includes the portion of the allowance related to the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

Note 8: Goodwill and Other Intangible Assets

Goodwill

Presented in the table below are the changes in the carrying value of goodwill for the years ended December 31, 2022 and 2021:

	Regulated Businesses		Other		Consolidated		
	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Total Net
Balance as of January 1, 2021	$ 3,461	$ (2,332)	$ 483	$ (108)	$ 3,944	$ (2,440)	$ 1,504
Acquisition related adjustments	(7)	—	—	—	(7)	—	(7)
Goodwill included in assets held for sale (a)	12	—	—	—	12	—	12
Goodwill reduced through sale of HOS	—	—	(370)	—	(370)	—	(370)
Balance as of December 31, 2021	$ 3,466	$ (2,332)	$ 113	$ (108)	$ 3,579	$ (2,440)	$ 1,139
Goodwill from acquisitions	4	—	—	—	4	—	4
Balance as of December 31, 2022	$ 3,470	$ (2,332)	$ 113	$ (108)	$ 3,583	$ (2,440)	$ 1,143

(a) This goodwill is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

In 2021, the Company reduced goodwill by $370 million included in Other through the sale of HOS. See Note 5—Acquisitions and Divestitures for additional information relating to the sale of HOS.

The Company completed its annual impairment testing of goodwill as of November 30, 2022, which included qualitative assessments of its Regulated Businesses and MSG reporting units. Based on these assessments, the Company determined that there were no factors present that would indicate that the fair value of these reporting units was less than their respective carrying values as of November 30, 2022.

In 2022, the Company acquired goodwill of $4 million associated with one of its acquisitions in the Regulated Businesses segment.

Intangible Assets

The Company held finite-lived intangible assets, including customer relationships and other intangible assets prior to the sale of HOS during the fourth quarter of 2021. All of the Company's finite-lived intangible assets were sold as part of the HOS sale transaction. As a result, there was no gross carrying value or net book value of customer relationships and other intangible assets remaining as of December 31, 2022 and December 31, 2021. Intangible asset amortization expense amounted to $9 million and $12 million for the years ended December 31, 2021 and 2020, respectively. There was no amortization expense related to customer relationships and other intangible assets for the year ended December 31, 2022.

Note 9: Shareholders' Equity

Dividend Reinvestment and Direct Stock Purchase Plan

Under the Company's dividend reinvestment and direct stock purchase plan (the "DRIP"), shareholders may reinvest cash common stock dividends and purchase additional shares of Company common stock, up to certain limits, through the plan administrator without paying brokerage commissions. Shares purchased by participants through the DRIP may be newly issued shares, treasury shares, or at the Company's election, shares purchased by the plan administrator in the open market or in privately negotiated transactions. Purchases generally will be made and credited to DRIP accounts once each week. As of December 31, 2022, there were approximately 4.2 million shares available for future issuance under the DRIP.

Anti-dilutive Stock Repurchase Program

In February 2015, the Company's Board of Directors authorized an anti-dilutive stock repurchase program, which allows the Company to purchase up to 10 million shares of its outstanding common stock from time to time over an unrestricted period of time. The Company did not repurchase shares of common stock during the years ended December 31, 2022 and 2021. As of December 31, 2022, there were 5.1 million shares of common stock available for purchase under the program.

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the years ended December 31, 2022 and 2021:

	Defined Benefit Plans				
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedge	Accumulated Other Comprehensive Loss
Beginning balance as of January 1, 2021	$ (106)	$ 1	$ 63	$ (7)	$ (49)
Other comprehensive income (loss) before reclassification	(1)	—	—	1	—
Amounts reclassified from accumulated other comprehensive loss	—	—	4	—	4
Net other comprehensive income (loss)	(1)	—	4	1	4
Ending balance as of December 31, 2021	$ (107)	$ 1	$ 67	$ (6)	$ (45)
Other comprehensive income (loss) before reclassification	14	—	—	5	19
Amounts reclassified from accumulated other comprehensive loss	—	—	3	—	3
Net other comprehensive income (loss)	14	—	3	5	22
Ending balance as of December 31, 2022	$ (93)	$ 1	$ 70	$ (1)	$ (23)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive loss directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 15—Employee Benefits for additional information.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in interest, net in the accompanying Consolidated Statements of Operations.

Dividends and Distributions

The Company's Board of Directors authorizes the payment of dividends. The Company's ability to pay dividends on its common stock is subject to having access to sufficient sources of liquidity, net income and cash flows of the Company's subsidiaries, the receipt of dividends and direct and indirect distributions from, and repayments of indebtedness of, the Company's subsidiaries, compliance with Delaware corporate and other laws, compliance with the contractual provisions of debt and other agreements and other factors.

The Company's dividend rate on its common stock is determined by the Board of Directors on a quarterly basis and takes into consideration, among other factors, current and possible future developments that may affect the Company's income and cash flows. When dividends on common stock are declared, they are typically paid in March, June, September and December. Historically, dividends have been paid quarterly to holders of record as of a date less than 30 days prior to the distribution date. Since the dividends on the Company's common stock are not cumulative, only declared dividends are paid.

During 2022, 2021 and 2020, the Company paid $467 million, $428 million and $389 million in cash dividends, respectively. Presented in the table below is the per share cash dividends paid for the years ended December 31:

	2022	2021	2020
December	$ 0.6550	$ 0.6025	$ 0.55
September	$ 0.6550	$ 0.6025	$ 0.55
June	$ 0.6550	$ 0.6025	$ 0.55
March	$ 0.6025	$ 0.55	$ 0.50

On December 7, 2022, the Company's Board of Directors declared a quarterly cash dividend payment of $0.6550 per share payable on March 1, 2023, to shareholders of record as of February 7, 2023.

Under applicable law, the Company's subsidiaries may pay dividends on their capital stock or other equity only from retained, undistributed or current earnings. A significant loss recorded at a subsidiary may limit the amount of the dividend that the subsidiary can pay. The ability of the Company's subsidiaries to pay upstream dividends, make other upstream distributions or repay indebtedness to parent company or American Water Capital Corp. ("AWCC"), the Company's wholly owned financing subsidiary, as applicable, is subject to compliance with applicable corporate, tax and other laws, regulatory restrictions and financial and other contractual obligations, including, for example, (i) regulatory capital, surplus or net worth requirements, (ii) outstanding debt service obligations, (iii) requirements to make preferred and preference stock dividend payments, and (iv) other contractual agreements, covenants or obligations made or entered into by the Company and its subsidiaries.

Regulatory Restrictions on Indebtedness

The issuance of long-term debt or equity securities by the Company or long-term debt by AWCC does not require authorization of any state PUC if no guarantee or pledge of the regulated subsidiaries is utilized. Based on the needs of the Regulated Businesses and parent company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide these borrowings to the Regulated Businesses or parent company. PUC authorization is generally required for the regulated subsidiaries to incur long-term debt. The Company's regulated subsidiaries normally obtain these required PUC authorizations on a periodic basis to cover their anticipated financing needs for a period of time, or, as necessary, in connection with a specific financing or refinancing of debt.

Note 10: Stock Based Compensation

The Company has granted stock units, stock awards and dividend equivalents to non-employee directors, officers and employees pursuant to the terms of the 2017 Omnibus Equity Compensation Plan (the "2017 Omnibus Plan"), approved by the Company's shareholders in May 2017. Stock units under the 2017 Omnibus Plan generally vest based on (i) continued employment with the Company ("RSUs"), or (ii) continued employment with the Company where distribution of the shares is subject to the satisfaction in whole or in part of stated performance-based goals ("PSUs"). A total of 7.2 million shares of common stock may be issued under the 2017 Omnibus Plan. As of December 31, 2022, 6.3 million shares were available for grant under the 2017 Omnibus Plan. The 2017 Omnibus Plan provides that grants of awards may be in any of the following forms: incentive stock options, nonqualified stock options, stock appreciation rights, stock units, stock awards, other stock-based awards and dividend equivalents. Dividend equivalents may be granted only on stock units or other stock-based awards. The 2017 Omnibus Plan expires in 2027.

The Company had granted stock options, stock units, including RSUs and PSUs, and dividend equivalents to non-employee directors, officers and other key employees of the Company under its 2007 Omnibus Equity Compensation Plan (the "2007 Plan"). The 2007 Plan has been replaced by the 2017 Omnibus Plan, as defined above, and no additional awards may be granted under the 2007 Plan. However, shares may still be issued under the 2007 Plan pursuant to the terms of awards previously issued under that plan prior to May 12, 2017.

The cost of services received from employees in exchange for the issuance of restricted stock awards is measured based on the grant date fair value of the awards issued. The value of stock unit awards at the date of the grant is amortized through expense over the requisite service period. All awards granted in 2022, 2021 and 2020 are classified as equity. The Company recognizes compensation expense for stock awards over the vesting period of the award. The Company stratified its grant populations and used historic employee turnover rates to estimate employee forfeitures. The estimated rate is compared to the actual forfeitures at the end of the reporting period and adjusted as necessary. There have been no significant adjustments to the forfeiture rates during 2022, 2021 and 2020. There were no grants of stock options to employees after 2016, and there were no stock options outstanding as of December 31, 2022. Presented in the table below is the stock-based compensation expense recorded in O&M expense in the accompanying Consolidated Statements of Operations for the years ended December 31:

	2022	2021	2020
RSUs and PSUs	$ 26	$ 15	$ 19
Nonqualified employee stock purchase plan	2	2	2
Stock-based compensation	28	17	21
Income tax benefit	(6)	(4)	(5)
Stock-based compensation expense, net of tax	$ 22	$ 13	$ 16

There were no significant stock-based compensation costs capitalized during the years ended December 31, 2022, 2021 and 2020.

Subject to limitations on deductibility imposed by the Federal income tax code, the Company receives a tax deduction based on the intrinsic value of the award at the exercise date for stock options and the distribution date for stock units. For each award, throughout the requisite service period, the Company records the tax impacts related to compensation costs as deferred income tax assets. The tax deductions in excess of the deferred benefits recorded throughout the requisite service period are recorded to the Consolidated Statements of Operations and are presented in the financing section of the Consolidated Statements of Cash Flows.

Stock Units

During 2022, 2021 and 2020, the Company granted RSUs to certain employees under the 2017 Omnibus Plan. RSUs generally vest based on continued employment with the Company over periods ranging from one to three years. The RSUs are valued at the closing price of the Company's common stock on the date of the grant and the majority vest ratably over a three-year service period. These RSUs are amortized through expense over the requisite service period using the straight-line method.

During 2022, 2021 and 2020, the Company granted stock units to non-employee directors under the 2017 Omnibus Plan. The stock units were vested in full on the date of grant; however, distribution of the shares will be made within 30 days of the earlier of (i) 15 months after the date of the last annual meeting of shareholders, subject to any deferral election by the director, or (ii) the participant's separation from service. Because these stock units vested on the grant date, the total grant date fair value was recorded in operation and maintenance expense on the grant date.

Presented in the table below is RSU and director stock unit activity for the year ended December 31, 2022:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2021	48	$ 112.22
Granted	59	149.73
Vested	(47)	132.59
Forfeited	(9)	149.60
Non-vested total as of December 31, 2022	51	$ 130.43

As of December 31, 2022, $5 million of total unrecognized compensation cost related to the nonvested RSUs is expected to be recognized over the weighted average remaining life of 1.69 years. The total fair value of stock units and RSUs vested was $6 million, $9 million and $5 million for the years ended December 31, 2022, 2021 and 2020, respectively.

During 2022, 2021 and 2020, the Company granted PSUs to certain employees under the 2017 Omnibus Plan. The majority of PSUs vest ratably based on continued employment with the Company over the three-year performance period (the "Performance Period"). Distribution of the performance shares is contingent upon the achievement of one or more internal performance measures and, separately, a relative total shareholder return performance measure, over the Performance Period.

Presented in the table below is PSU activity for the year ended December 31, 2022:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2021	232	$ 139.40
Granted	170	115.12
Vested	(150)	105.11
Forfeited	(21)	148.83
Non-vested total as of December 31, 2022	231	$ 142.92

As of December 31, 2022, $6 million of total unrecognized compensation cost related to the nonvested PSUs is expected to be recognized over the weighted average remaining life of 0.93 years. The total fair value of PSUs vested was $24 million, $22 million and $18 million for the years ended December 31, 2022, 2021 and 2020, respectively.

PSUs granted with one or more internal performance measures are valued at the market value of the closing price of the Company's common stock on the date of grant. PSUs granted with a relative total shareholder return condition are valued using a Monte Carlo simulation model. Expected volatility is based on historical volatilities of traded common stock of the Company and comparative companies using daily stock prices over the past three years. The expected term is three years and the risk-free interest rate is based on the three-year U.S. Treasury rate in effect as of the measurement date. Presented in the table below are the weighted average assumptions used in the Monte Carlo simulation and the weighted average grant date fair values of PSUs granted for the years ended December 31:

	2022	2021	2020
Expected volatility	29.69%	28.59%	16.65%
Risk-free interest rate	1.90%	0.22%	1.28%
Expected life (years)	3.0	3.0	3.0
Grant date fair value per share	$99.23	$229.22	$159.64

The grant date fair value of PSUs that vest ratably and have market and/or performance conditions are amortized through expense over the requisite service period using the graded-vesting method.

Employee Stock Purchase Plan

The Company maintains a nonqualified employee stock purchase plan (the "ESPP") that expires in 2027 through which employee participants (which excludes certain of the Company's executives) may use payroll deductions to acquire Company common stock at a purchase price of 85% of the fair market value of the common stock at the end of a three-month purchase period. A total of 2.0 million shares may be issued under the ESPP, and as of December 31, 2022, there were 1.5 million shares of common stock reserved for issuance under the ESPP. The ESPP is considered compensatory. During the years ended December 31, 2022, 2021 and 2020, the Company issued approximately 82,000, 80,000 and 86,000 shares, respectively, under the ESPP.

Note 11: Long-Term Debt

The Company obtains long-term debt through AWCC primarily to fund capital expenditures of the Regulated Businesses and to lend funds to parent company to refinance debt and for other purposes. Presented in the table below are the components of long-term debt as of December 31:

	Rate	Weighted Average Rate	Maturity	2022	2021
Long-term debt of AWCC: (a)					
Senior notes—fixed rate	2.30%-8.27%	3.88%	2023-2051	$ 9,765	$ 8,965
Private activity bonds and government funded debt—fixed rate	0.60%-2.45%	1.63%	2023-2031	189	190
Long-term debt of other American Water subsidiaries:					
Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.80%	2023-2051	749	739
Mortgage bonds—fixed rate	6.35%-9.19%	7.36%	2023-2039	534	534
Mandatorily redeemable preferred stock	8.47%-9.75%	8.64%	2024-2036	3	4
Finance lease obligations	12.25%	12.25%	2026	—	1
Long-term debt		3.87%		11,240	10,433
Unamortized debt discount, net (b)				(11)	(9)
Unamortized debt issuance costs				(19)	(23)
Less current portion of long-term debt				(281)	(57)
Total long-term debt				$ 10,929	$ 10,344

(a) This indebtedness is considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness.

(b) Includes debt discount, net of fair value adjustments previously recognized in acquisition purchase accounting.

All mortgage bonds and $740 million of the private activity bonds and government funded debt held by the Company's subsidiaries were collateralized as of December 31, 2022.

Long-term debt indentures contain a number of covenants that, among other things, limit, subject to certain exceptions, AWCC from issuing debt secured by the Company's consolidated assets. Certain long-term note indentures require the Company to maintain a ratio of consolidated total indebtedness to consolidated total capitalization (each as defined under the note indentures) of not more than 0.70 to 1.00. The ratio as of December 31, 2022, was 0.62 to 1.00. In addition, the Company has $891 million of notes which include the right to redeem the notes at par value, in whole or in part, from time to time, subject to certain restrictions, with a weighted average interest rate of 1.87%.

Presented in the table below are future sinking fund payments and debt maturities:

	Amount
2023	$ 281
2024	476
2025	598
2026	443
2027	688
Thereafter	8,754

Presented in the table below are the issuances of long-term debt in 2022:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Senior notes—fixed rate	4.45%	4.45%	2032	$ 800
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-1.75%	1.03%	2027-2042	22
Total issuances					$ 822

The Company incurred debt issuance costs of $7 million related to the above issuances.

Presented in the table below are the retirements and redemptions of long-term debt in 2022 through sinking fund provisions, optional redemption or payment at maturity:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Private activity bonds and government funded debt—fixed rate	1.79%-2.31%	2.24%	2024-2031	$ 1
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.50%	2022-2051	13
Other American Water subsidiaries	Mandatorily redeemable preferred stock	8.49%	8.49%	2022	1
Total retirements and redemptions					$ 15

On May 5, 2022, AWCC issued $800 million aggregate principal amount of its 4.45% senior notes due 2032. At closing, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering: (i) to lend funds to parent company and its regulated subsidiaries; (ii) to repay AWCC's commercial paper obligations; and (iii) for general corporate purposes.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as treasury lock agreements. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations and minimizes this risk by dealing only with leading, creditworthy financial institutions having long-term credit ratings of "A" or better.

In April 2022, the Company entered into several 10-year treasury lock agreements, with notional amounts totaling $400 million, and an average fixed interest rate of 2.89%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss. In May 2022, the Company terminated the treasury lock agreements, realizing a net gain of approximately $4 million, to be amortized through interest, net over a 10-year period, in accordance with the tenor of the debt issuance on May 5, 2022.

In November and December 2022, the Company entered into four 10-year treasury lock agreements, with notional amounts totaling $100 million, to reduce interest rate exposure on debt expected to be issued in 2023. These treasury lock agreements terminate in January 2024, and have an average fixed rate of 3.56%. In January 2023, the Company entered into three additional 10-year treasury lock agreements, with notional amounts totaling $100 million, to reduce interest rate exposure on debt expected to be issued in 2023. These treasury lock agreements terminate in January 2024, and have an average fixed rate of 3.35%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss. Upon termination, the cumulative gain or loss recorded in accumulated other comprehensive gain or loss will be amortized through interest, net over the term of the new debt.

No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2022, 2021 or 2020.

Note 12: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, commercial paper markets and, if and to the extent necessary, borrowings under the AWCC revolving credit facility, and, in the future, issuances of equity. Additionally, proceeds from the aforementioned sales of HOS and the Company's New York subsidiary have been used primarily for capital investment in the Regulated Businesses. The revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 2027. The facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit of up to $150 million for letters of credit. Letters of credit are non-debt instruments maintained to provide credit support for certain transactions as requested by third parties. Subject to satisfying certain conditions, the credit agreement also permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million and to request extensions of its expiration date for up to two one-year periods. As of December 31, 2022, AWCC had no outstanding borrowings and $78 million of outstanding letters of credit under the revolving credit facility, with $1.50 billion available to fulfill the Company's short-term liquidity needs and to issue letters of credit. The Company regularly evaluates the capital markets and closely monitors the financial condition of the financial institutions with contractual commitments in its revolving credit facility. Interest rates on advances under the facility are based on a credit spread to the Secured Overnight Financing Rate (or applicable market replacement rate) or base rate, each determined in accordance with Moody Investors Service's and S&P Global Ratings' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt.

On October 26, 2022, AWCC and certain lenders amended and restated the credit agreement with respect to the revolving credit facility to, among other things, increase the maximum commitments under the facility from $2.25 billion to $2.75 billion and to extend the expiration date of the facility from March 2025 to October 2027. Also, effective October 26, 2022, the maximum aggregate principal amount of short-term borrowings authorized under AWCC's commercial paper program was increased from $2.10 billion to $2.60 billion.

On March 20, 2020, AWCC entered into a Term Loan Credit Agreement, by and among parent company, AWCC and the lenders party thereto (the "Term Loan Facility"). The Term Loan Facility commitments terminated at maturity on March 19, 2021, and the $500 million of principal outstanding under the Term Loan Facility was repaid in full. Borrowings under the Term Loan Facility bore interest at a variable annual rate based on LIBOR, plus a margin of 0.80%.

Short-term debt consists of commercial paper and credit facility borrowings totaling $1,177 million and $584 million as of December 31, 2022 and 2021, respectively, or net of discount $1,175 million and $584 million as of December 31, 2022 and 2021, respectively. The weighted average interest rate on AWCC's outstanding short-term borrowings was approximately 4.41%, for the year ended December 31, 2022. The weighted average interest rate on AWCC's outstanding short-term borrowings was 0.20%, for the year ended December 31, 2021. As of December 31, 2022, there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below is the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2022		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,177)	(78)	(1,255)
Remaining availability as of December 31, 2022	$ 1,423	$ 72	$ 1,495

(a) Total remaining availability of $1.50 billion as of December 31, 2022, may be accessed through revolver draws.

	2021		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,100	$ 150	$ 2,250
Outstanding debt	(584)	(76)	(660)
Remaining availability as of December 31, 2021	$ 1,516	$ 74	$ 1,590

(a) Total remaining availability of $1.59 billion as of December 31, 2021, may be accessed through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2022 and 2021, respectively:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2022	$ 85	$ 1,495	$ 1,580
Available liquidity as of December 31, 2021	$ 116	$ 1,590	$ 1,706

Presented in the table below is the short-term borrowing activity for AWCC for the years ended December 31:

	2022	2021
Average borrowings	$ 505	$ 910
Maximum borrowings outstanding	1,177	1,647
Weighted average interest rates, as of December 31	4.41 %	0.20 %

The credit facility requires the Company to maintain a ratio of consolidated debt to consolidated capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2022 was 0.62 to 1.00.

None of the Company's borrowings are subject to default or prepayment as a result of a downgrading of securities, although such a downgrading could increase fees and interest charges under AWCC's revolving credit facility.

Note 13: General Taxes

Presented in the table below are the components of general tax expense for the years ended December 31:

	2022	2021	2020
Property and capital stock	$ 108	$ 149	$ 140
Gross receipts and franchise	124	121	116
Payroll	36	39	36
Other general	13	12	11
Total general taxes	$ 281	$ 321	$ 303

Note 14: Income Taxes

Presented in the table below are the components of income tax expense for the years ended December 31:

	2022	2021	2020
Current income taxes:			
State	$ 26	$ 72	$ 8
Federal	82	75	—
Total current income taxes	$ 108	$ 147	$ 8
Deferred income taxes:			
State	$ 24	$ 10	$ 49
Federal	57	221	159
Amortization of deferred investment tax credits	(1)	(1)	(1)
Total deferred income taxes	80	230	207
Provision for income taxes	$ 188	$ 377	$ 215

Presented in the table below is a reconciliation between the statutory federal income tax rate and the Company's effective tax rate for the years ended December 31:

	2022	2021	2020
Income tax at statutory rate	21.0 %	21.0 %	21.0 %
Increases (decreases) resulting from:			
State taxes, net of federal taxes	4.1 %	3.9 %	4.8 %
EADIT	(6.5)%	(3.6)%	(2.1)%
Tax impact due to the sale of HOS	— %	1.6 %	— %
Other, net	0.1 %	0.1 %	(0.4)%
Effective tax rate	18.7 %	23.0 %	23.3 %

Presented in the table below are the components of the net deferred tax liability as of December 31:

	2022	2021
Deferred tax assets:		
Advances and contributions	$ 351	$ 439
Tax losses and credits	19	10
Regulatory income tax assets	203	301
Pension and other postretirement benefits	64	50
Other	140	144
Total deferred tax assets	777	944
Valuation allowance	(11)	(10)
Total deferred tax assets, net of allowance	$ 766	$ 934
Deferred tax liabilities:		
Property, plant and equipment	$ 2,872	$ 3,087
Deferred pension and other postretirement benefits	64	69
Other	249	180
Total deferred tax liabilities	3,185	3,336
Total deferred tax liabilities, net of deferred tax assets	$ (2,419)	$ (2,402)

The Company recognized no federal net operating loss ("NOL") carryforwards as of December 31, 2022 and 2021. The Company fully utilized its federal NOL carryforwards in 2021 due to the sale of HOS, and therefore, no valuation allowance is required.

As of December 31, 2022 and 2021, the Company had state NOLs of $240 million and $123 million, respectively, a portion of which are offset by a valuation allowance as the Company does not believe these NOLs are more likely than not to be realized. The state NOL carryforwards expire in 2023 through 2042.

The Company files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state or local or non-U.S. income tax examinations by tax authorities for years on or before 2015. The Company has state income tax examinations in progress and does not expect material adjustments to result.

Presented in the table below are the changes in gross liability, excluding interest and penalties, for unrecognized tax benefits:

	Amount
Balance as of January 1, 2021	$ 122
Increases in current period tax positions	23
Decreases in prior period measurement of tax positions	(5)
Balance as of December 31, 2021	$ 140
Increases in current period tax positions	26
Decreases in prior period measurement of tax positions	(8)
Balance as of December 31, 2022	$ 158

The Company's tax positions relate primarily to the deductions claimed for repair and maintenance costs on its utility plant. The Company does not anticipate material changes to its unrecognized tax benefits within the next year. As discussed above, the Company utilized its remaining federal NOLs in 2021, and therefore this federal tax attribute will not be available to reduce the federal liabilities for uncertain tax positions or interest accrued as presented on the Company's Consolidated Financial Statements.

If the Company sustains all of its positions as of December 31, 2022, an unrecognized tax benefit of $10 million, excluding interest and penalties, would impact the Company's effective tax rate. The Company had an immaterial amount of interest and penalties related to its tax positions as of December 31, 2022 and 2021.

Presented in the table below are the changes in the valuation allowance:

	Amount
Balance as of January 1, 2020	$ 21
Decreases in current period tax positions	(2)
Balance as of December 31, 2020	$ 19
Decreases in current period tax positions	(9)
Balance as of December 31, 2021	$ 10
Increases in current period tax positions	1
Balance as of December 31, 2022	$ 11

Note 15: Employee Benefits

Overview of Pension and Other Postretirement Benefits Plans

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations. Benefits under the plans are based on the employee's years of service and compensation. The pension plans have been closed for all new employees. The pension plans were closed for most employees hired on or after January 1, 2006. Union employees hired on or after January 1, 2001, except for specific eligible groups specified in the plan, had their accrued benefit frozen and will be able to receive this benefit as a lump sum upon termination or retirement. Union employees hired on or after January 1, 2001, and non-union employees hired on or after January 1, 2006, are provided with a defined contribution plan that includes a 5.25% of base pay Company-funded defined contribution account. The Company does not participate in a multi-employer plan. The Company also has unfunded noncontributory supplemental nonqualified pension plans that provide additional retirement benefits to certain employees.

The Company's pension funding practice is to contribute at least the greater of the minimum amount required by the Employee Retirement Income Security Act of 1974 or the normal cost. Further, the Company will consider additional cash contributions and/or available prefunding balances if needed to avoid "at risk" status and benefit restrictions under the Pension Protection Act of 2006 ("PPA"). The Company may also consider increased contributions, based on other financial requirements and the plans' funded position. Pension expense in excess of the amount contributed to the pension plans is deferred by certain regulated subsidiaries pending future recovery in rates charged for utility services as contributions are made to the plans. See Note 3—Regulatory Matters for additional information. Pension plan assets are invested in a number of actively managed, commingled funds, and limited partnerships including equities, fixed income securities, guaranteed annuity contracts with insurance companies, real estate funds and real estate investment trusts ("REITs").

In December 2022, the Company amended the American Water Pension Plan ("AWPP"), a tax-qualified defined benefit pension plan, to restructure it as of December 31, 2022. The restructuring involved the spin-off of certain inactive participants from the existing AWPP into a separate tax-qualified defined benefit pension plan, AWPP Inactive. Benefits offered to the plan participants remain unchanged. Actuarial gains and losses associated with AWPP Inactive will be amortized over the average remaining life expectancy of the inactive participants, which increases the amortization period from approximately 7 years to 18 years. The longer amortization period is expected to lower the Company's pre-tax pension expense by approximately $5 million in 2023. The actuarial gains and losses associated with the AWPP will continue to be amortized over the average remaining service period for active participants. The Company remeasured the pension plan obligation and assets for each plan as of December 31, 2022.

The Company maintains other postretirement benefit plans providing varying levels of medical and life insurance to eligible retirees. The retiree welfare plans are closed for union employees hired on or after January 1, 2006. The plans had previously closed for non-union employees hired on or after January 1, 2002. The Company's policy is to fund other postretirement benefit costs up to the amount recoverable through rates. Assets of the plans are invested in a number of actively managed funds in the form of separate accounts, commingled funds and limited partnerships, including equities and fixed income securities.

Pension Plan Assets

The investment policy guideline of the pension plan is focused on diversification, improving returns and reducing the volatility of the funded status over a long-term horizon. The investment policy guidelines of the postretirement plans focus on the appropriate strategy given the funded status of the plans. None of the Company's securities are included in pension or other postretirement benefit plan assets.

The Company uses fair value for all classes of assets in the calculation of market-related value of plan assets. As of December 31, 2022, the fair values and asset allocations of the pension plan assets include the AWPP, AWPP Inactive, and the Shorelands Water Company, Inc. Pension Plan.

As a result of the sale of the Company's New York subsidiary on January 1, 2022, there was a transfer of plan assets from the Company to Liberty. The assets transferred were not a significant percentage of the Company's overall pension and other postretirement benefit plans.

Presented in the tables below are the fair values and asset allocations of the pension plan assets as of December 31, 2022 and 2021, respectively, by asset category:

Asset Category	2023 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2022
Cash		$ 36	$ 36	$ —	$ —	3 %

Presented in the tables below are a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for 2022 and 2021, respectively:

	Level 3
Balance as of January 1, 2022	$ 336
Actual return on assets	(1)
Purchases, issuances and settlements, net	(27)
Balance as of December 31, 2022	$ 308

	Level 3
Balance as of January 1, 2021	$ 356
Actual return on assets	41
Purchases, issuances and settlements, net	(61)
Balance as of December 31, 2021	$ 336

Other Postretirement Benefit Plan Assets

The Company's postretirement benefit plans have different levels of funded status and the assets are held under various trusts. The investments and risk mitigation strategies for the plans are tailored specifically for each trust. In setting new strategic asset mixes, consideration is given to the likelihood that the selected asset allocation will effectively fund the projected plan liabilities and meet the risk tolerance criteria of the Company. The Company periodically updates the long-term, strategic asset allocations for these plans through asset liability studies and uses various analytics to determine the optimal asset allocation. Considerations include plan liability characteristics, liquidity needs, funding requirements, expected rates of return and the distribution of returns.

Upon evaluating prior plan changes, Company funding and market performance, in December 2022, the Company completed plan amendments to spin-off and merge a portion of the American Water Retiree Welfare Plan ("Retiree Welfare Plan"), with and into the Company's medical plan for active employees ("Active Medical Plan"), in order to repurpose the over-funded portion of the Bargained Retiree Voluntary Employees' Beneficiary Association ("Bargained VEBA") trust. Benefits offered to the plan participants remain unchanged. As a result of these changes, effective December 31, 2022, the Company transferred investment assets from the Bargained VEBA into the existing trust maintained for the benefit of Active Medical Plan participants ("Active VEBA"). The transfer of these Bargained VEBA investment assets into the Active VEBA permits access to approximately $194 million of assets for purposes of paying active union employee medical benefits. The Company recorded the transfer of assets as a negative contribution and therefore did not record a gain or loss, as permitted by accounting guidance. See Note 18—Fair Value of Financial Information, for additional information on accounting for the assets as investments in debt and equity securities as of December 31, 2022.

The Company engages third-party investment managers for all invested assets. Managers are not permitted to invest outside of the asset class (e.g., fixed income, equity, alternatives) or strategy for which they have been appointed. Investment management agreements and recurring performance and attribution analysis are used as tools to ensure investment managers invest solely within the investment strategy they have been provided. Futures and options may be used to adjust portfolio duration to align with a plan's targeted investment policy.

In order to minimize asset volatility relative to the liabilities, a portion of plan assets is allocated to long duration fixed income investments that are exposed to interest rate risk. Increases in interest rates generally will result in a decline in the value of fixed income assets while reducing the present value of the liabilities. Conversely, rate decreases will increase fixed income assets, partially offsetting the related increase in the liabilities. Within equities, risk is mitigated by constructing a portfolio that is broadly diversified by geography, market capitalization, manager mandate size, investment style and process. For the Bargained VEBA trust, its asset structure is designed to meet the cash flows of the liabilities. This design reduces the plan's exposure to changes in interest rates.

Actual allocations to each asset class vary from target allocations due to periodic investment strategy updates, market value fluctuations, the length of time it takes to fully implement investment allocations, and the timing of benefit payments and contributions. The asset allocation is rebalanced on a quarterly basis, if necessary. The Retiree Welfare Plan is funded by the Bargained VEBA trust, the Non-Bargained Retiree Voluntary Employees' Beneficiary Association ("Non-Bargained VEBA") trust, and the American Water Life Insurance Voluntary Employees' Beneficiary Association ("Life VEBA") Trust.

Presented in the tables below are the fair values and asset allocations of the postretirement benefit plan assets as of December 31, 2022 and 2021, respectively, by asset category:

Asset Category	2023 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2022

Valuation Techniques Used to Determine Fair Value

Cash—Cash and investments with maturities of three months or less when purchased, including certain short-term fixed-income securities, are considered cash and are included in the recurring fair value measurements hierarchy as Level 1.

Equity securities—For equity securities, the trustees obtain prices from pricing services, whose prices are obtained from direct feeds from market exchanges, that the Company is able to independently corroborate. Certain equity securities are valued based on quoted prices in active markets and categorized as Level 1. Other equities, such as international securities held in the pension plan, are invested in commingled funds and/or limited partnerships. These funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since net asset value is not directly observable or not available on a nationally recognized securities exchange for the commingled funds, they are categorized as Level 2. For limited partnerships, the assets as a whole are categorized as Level 3 due to the fact that the partnership provides the pricing and the pricing inputs are less readily observable. In addition, the limited partnership vehicle cannot be readily traded.

Fixed-income securities—The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets and their prices can be corroborated. The fair values of corporate bonds, mortgage backed securities, and certain government bonds are based on prices that reflect observable market information, such as actual trade information of similar securities. They are categorized as Level 2 because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate. Exchange-traded options and futures, for which market quotations are readily available, are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded and are classified as Level 1.

Real estate fund—Real estate fund is categorized as Level 3 as the fund uses significant unobservable inputs for fair value measurement and the vehicle is in the form of a limited partnership.

REITs—REITs are invested in commingled funds. Commingled funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since the net asset value is not directly observable for the commingled funds, they are categorized as Level 2.

Guaranteed annuity contracts—Guaranteed annuity contracts are categorized as Level 3 because the investments are not publicly quoted. Since these market values are determined by the provider, they are not highly observable and have been categorized as Level 3. Exchange-traded future and option positions are reported in accordance with changes in variation margins that are settled daily.

Benefit Obligations, Plan Assets and Funded Status

Presented in the table below is a rollforward of the changes in the benefit obligation and plan assets for the two most recent years, for all plans combined:

	Pension Benefits		Other Benefits	
	2022	2021	2022	2021
Change in benefit obligation:				
Benefit obligation as of January 1,	$ 2,294	$ 2,386	$ 342	$ 382
Service cost	30	36	3	4
Interest cost	64	64	10	10
Plan participants' contributions	—	—	3	2
Plan amendments	—	—	6	—
Actuarial loss (gain)	(582)	(46)	(77)	(26)
Divestiture	(86)	—	(4)	—
Settlements (a)	—	(6)	—	—
Gross benefits paid	(142)	(140)	(28)	(31)
Federal subsidy	—	—	—	1
Benefit obligation as of December 31,	$ 1,578	$ 2,294	$ 255	$ 342
Change in plan assets:				
Fair value of plan assets as of January 1,	$ 1,991	$ 1,990	$ 538	$ 556
Actual return on plan assets	(401)	108	(68)	9
Employer contributions	39	39	12	1
Plan participants' contributions	—	—	3	2
VEBA transfer	—	—	(194)	—
Divestiture	(74)	—	(9)	—
Settlements (a)	—	(6)	—	—
Benefits paid	(142)	(140)	(28)	(30)
Fair value of plan assets as of December 31,	$ 1,413	$ 1,991	$ 254	$ 538
Funded value as of December 31,	$ (165)	$ (303)	$ (1)	$ 196
Amounts recognized on the balance sheet:				
Noncurrent asset	$ 75	$ —	$ —	$ 193
Current liability	(5)	(2)	—	—
Noncurrent liability	(235)	(285)	(1)	(1)
(Liabilities) assets related to assets held for sale (b)	—	(16)	—	4
Net amount recognized	$ (165)	$ (303)	$ (1)	$ 196

(a) The Company paid $6 million of a lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan for the year ended December 31, 2021.

(b) These balances are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale and liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 5—Acquisitions and Divestitures for additional information.

Presented in the table below are the components of accumulated other comprehensive income and regulatory assets that have not been recognized as components of periodic benefit costs as of December 31:

	Pension Benefits		Other Benefits	
	2022	2021	2022	2021
Net actuarial loss	$ 289	$ 381	$ 45	$ 35
Prior service credit	(10)	(14)	(145)	(186)
Net amount recognized	$ 279	$ 367	$ (100)	$ (151)
Regulatory assets (liabilities)	$ 251	$ 317	$ (100)	$ (151)
Accumulated other comprehensive income	28	50	—	—
Total	$ 279	$ 367	$ (100)	$ (151)

Presented in the tables below are the aggregate projected benefit obligation, accumulated benefit obligation and aggregate fair value of plan assets for pension plans with a projected obligation in excess of plan assets as of December 31, 2022 and 2021:

	Projected Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2022	2021
Projected benefit obligation	$ 872	$ 2,294
Fair value of plan assets	632	1,991

	Accumulated Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2022	2021
Accumulated benefit obligation	$ 793	$ 2,138
Fair value of plan assets	632	1,991

The accumulated postretirement plan assets exceed benefit obligations for all of the Company's other postretirement benefit plans, except for the Northern Illinois Retiree Welfare Plan, of which the accumulated postretirement benefit obligation is inconsequential for all periods presented.

Contributions

The PPA requires that defined benefit plans contribute to 100% of the current liability funding target over seven years. Defined benefit plans with a funding status of less than 80% of the current liability are defined as being "at risk" and additional funding requirements and benefit restrictions may apply. The Company's qualified defined benefit plan is currently funded above the at-risk threshold, and therefore the Company expects that the plans will not be subject to the "at risk" funding requirements of the PPA. The Company is proactively monitoring the plan's funded status and projected contributions under the law to appropriately manage the potential impact on cash requirements.

Minimum funding requirements for the qualified defined benefit pension plan are determined by government regulations and not by accounting pronouncements. The Company plans to contribute amounts at least equal to or greater than the minimum required contributions or the normal cost in 2023 to the qualified pension plans. Contributions may be in the form of cash contributions as well as available prefunding balances.

Presented in the table below is information about the expected cash flows for the pension and postretirement benefit plans:

	Pension Benefits	Other Benefits
2023 expected employer contributions:		
To plan trusts	$ 39	$ —
To plan participants	5	—

Estimated Future Benefit Payments

Presented in the table below are the net benefits expected to be paid from the plan assets or the Company's assets:

	Pension Benefits	Other Benefits	
	Expected Benefit Payments	Expected Benefit Payments	Expected Federal Subsidy Payments
2023	$ 117	$ 24	$ 1
2024	115	24	1
2025	117	25	1
2026	118	24	1
2027	119	24	1
2028-2032	585	108	3

Because the above amounts are net benefits, plan participants' contributions have been excluded from the expected benefits.

Assumptions

Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the Company's employees, mortality, turnover and medical costs. Each assumption is reviewed annually. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes.

Presented in the table below are the significant assumptions related to the pension and other postretirement benefit plans:

	Pension Benefits			Other Benefits		
	2022	2021	2020	2022	2021	2020
Weighted average assumptions used to determine December 31 benefit obligations:						
Discount rate	5.58%	2.94%	2.74%	5.60%	2.90%	2.56%
Rate of compensation increase	3.51%	3.51%	3.51%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				7.00% in 2023	6.00% in 2022	6.25% in 2021
				to 5.00% in 2031+	to 5.00% in 2026+	to 5.00% in 2026+
Weighted average assumptions used to determine net periodic cost:						
Discount rate	2.94%	2.74%	3.44%	2.90%	2.56%	3.36%
Expected return on plan assets	6.50%	6.50%	6.50%	3.60%	3.67%	3.68%
Rate of compensation increase	3.51%	3.51%	2.97%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				6.00% in 2022	6.25% in 2021	6.50% in 2020
				to 5.00% in 2026+	to 5.00% in 2026+	to 5.00% in 2026+

NOTE "N/A" in the table above means assumption is not applicable.

The discount rate assumption was determined for the pension and postretirement benefit plans independently. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. Historically, for each plan, the discount rate was developed at the level equivalent rate that would produce the same present value as that using spot rates aligned with the projected benefit payments.

The expected long-term rate of return on plan assets is based on historical and projected rates of return, prior to administrative and investment management fees, for current and planned asset classes in the plans' investment portfolios. Assumed projected rates of return for each of the plans' projected asset classes were selected after analyzing historical experience and future expectations of the returns and volatility of the various asset classes. Based on the target asset allocation for each asset class, the overall expected rate of return for the portfolio was developed, adjusted for historical and expected experience of active portfolio management results compared to the benchmark returns. The Company's pension expense increases as the expected return on assets decreases. The Company used an expected return on plan assets of 6.50% to estimate its 2022 pension benefit costs, and an expected blended return based on weighted assets of 3.60% to estimate its 2022 other postretirement benefit costs.

For the years ended December 31, 2022 and 2021, the Company's mortality assumption utilized the Pri-2012 base mortality table and the new MP-2021 mortality improvement scale. For the year ended December 31, 2020, the Company's mortality assumption utilized the Pri-2012 base mortality table and the MP-2020 mortality improvement scale.

Components of Net Periodic Benefit Cost

Presented in the table below are the components of net periodic benefit costs for the years ended December 31:

	2022	2021	2020
Components of net periodic pension benefit cost:			
Service cost	$ 30	$ 36	$ 31
Interest cost	64	64	73
Expected return on plan assets	(122)	(126)	(111)
Amortization of prior service (credit) cost	(3)	(3)	(3)
Amortization of actuarial loss	21	27	30
Settlements (a)	—	—	1
Net periodic pension benefit cost	$ (10)	$ (2)	$ 21
Other changes in plan assets and benefit obligations recognized in other comprehensive income:			
Current year actuarial (gain) loss	$ (14)	$ 1	$ 12
Amortization of actuarial loss	(3)	(4)	(3)
Total recognized in other comprehensive income	(17)	(3)	9
Total recognized in net periodic benefit cost and other comprehensive income	$ (27)	$ (5)	$ 30
Components of net periodic other postretirement benefit (credit) cost:			
Service cost	$ 3	$ 4	$ 4
Interest cost	10	10	12
Expected return on plan assets	(19)	(21)	(19)
Amortization of prior service credit	(31)	(32)	(34)
Amortization of actuarial loss	—	—	2
Net periodic other postretirement benefit (credit) cost	$ (37)	$ (39)	$ (35)

(a) Due to the amount of lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan, settlement charges of less than $1 million were recorded for the year ended December 31, 2021. In accordance with existing regulatory accounting treatment, the Company has maintained the settlement charge in regulatory assets on the Consolidated Balance Sheets. The amount is being amortized in accordance with existing regulatory practice.

Savings Plans for Employees

The Company maintains 401(k) savings plans that allow employees to save for retirement on a tax-deferred basis. Employees can make contributions that are invested at their direction in one or more funds. The Company makes matching contributions based on a percentage of an employee's contribution, subject to certain limitations. Due to the Company's discontinuing new entrants into the defined benefit pension plan, on January 1, 2006, the Company began providing an additional 5.25% of base pay defined contribution benefit for union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006. The Company's 401(k) savings plan expenses totaled $13 million, $14 million and $12 million for 2022, 2021 and 2020, respectively. Additionally, the Company's 5.25% of base pay defined contribution benefit expenses totaled $16 million, $16 million and $15 million for 2022, 2021 and 2020, respectively. All of the Company's contributions are invested in one or more funds at the direction of the employees.

Note 16: Commitments and Contingencies

Commitments have been made in connection with certain construction programs. The estimated capital expenditures required under legal and binding contractual obligations amounted to $756 million as of December 31, 2022.

The Company's regulated subsidiaries maintain agreements with other water purveyors for the purchase of water to supplement their water supply. Presented in the table below are the future annual commitments related to minimum quantities of purchased water having non-cancelable contracts:

	Amount
2023	$ 68
2024	54
2025	53
2026	52
2027	52
Thereafter	501

The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. See Note 4—Revenue Recognition for additional information regarding the Company's performance obligations.

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of December 31, 2022, the Company has accrued approximately $5 million of probable loss contingencies and has estimated that the maximum amount of losses associated with reasonably possible loss contingencies that can be reasonably estimated is $3 million. For certain matters, claims and actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such matters, claims or actions, other than as described in this Note 16—Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Water Main Break Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by WVAWC. The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015, to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. In August 2020, WVAWC filed a Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia seeking to vacate or remand the Circuit Court's order certifying the issues class. In January 2021, the Supreme Court of Appeals remanded the case back to the Circuit Court for further consideration in light of a decision issued in another case relating to the class certification issues raised on appeal. On July 5, 2022, the Circuit Court entered an order again certifying a class to address at trial certain liability issues but not to consider damages. On August 26, 2022, WVAWC filed another Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia challenging the West Virginia Circuit Court's July 5, 2022 order. The Writ Petition has been supported by an amicus brief filed by certain water and utility industry trade groups. On February 9, 2023, the Supreme Court of Appeals accepted the Writ Petition by issuing a Rule to Show Cause and scheduling oral argument for April 26, 2023.

The Company and WVAWC believe that WVAWC has valid, meritorious defenses to the claims raised in this class action complaint. WVAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Chattanooga, Tennessee Water Main Break Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. On January 12, 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. On February 9, 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law.

TAWC and the Company believe that TAWC has meritorious defenses to the claims raised in this class action complaint, and TAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"). The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In September 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs plus AFUDC, subject to meeting certain criteria.

In September 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $206 million in aggregate costs as of December 31, 2022, related to the Water Supply Project, which includes $51 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project, which is not expected to produce additional water until 2024 at the earliest. The amended and restated water purchase agreement for the GWR Project expansion is subject to review and approval of the CPUC, and in November 2021, Cal Am filed an application with the CPUC that sought review and approval of the amended and restated water purchase agreement. Cal Am also requested rate base treatment of the additional capital investment for certain Cal Am facilities required to maximize the water supply from the expansion to the GWR Project and a related Aquifer Storage and Recovery Project, totaling approximately $81 million. This requested amount is in addition to, and consistent in regulatory treatment with, the prior $50 million of cost recovery for facilities associated with the original water purchase agreement, which was approved by the CPUC in its 2016 final decision.

On December 5, 2022, the CPUC issued a final decision that authorizes Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities.

On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022 final decision. Cal Am is requesting recovery of its infrastructure costs for the GWR Project expansion that had not been included in the December 2022 final decision. Cal Am believes that the December 2022 final decision is contrary to the CPUC's precedent and that obtaining recovery of these infrastructure costs is a key component of the GWR Project expansion and Cal Am's ability to meet the future water supply needs of its customers in Monterey. This application remains pending.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as the CPUC's 2016 and 2018 final decisions, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $112 million in aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its 2016 and December 2022 final decisions.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. The withdrawal of the Original Jurisdiction Application did not impact Cal Am's appeal of the City's denial of the Marina Application, which remains pending before the Coastal Commission. In November 2020, Cal Am refiled the Original Jurisdiction Application.

On October 5, 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

On November 18, 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. On December 29, 2022, the City, Marina Coast Water District ("MCWD"), MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of the MPWSP slant wells. Cal Am is named as a real party in interest. This matter remains pending.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2022, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2023 and future years may be impacted by a number of factors, including without limitation continued drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

West Virginia Elk River Freedom Industries Chemical Spill

On June 8, 2018, the U.S. District Court for the Southern District of West Virginia granted final approval of a settlement class and global class action settlement (the "Settlement") for all claims and potential claims by all class members (collectively, the "West Virginia Plaintiffs") arising out of the January 2014 Freedom Industries, Inc. chemical spill in West Virginia. The effective date of the Settlement was July 16, 2018. Under the terms and conditions of the Settlement, WVAWC and certain other Company affiliated entities did not admit, and will not admit, any fault or liability for any of the allegations made by the West Virginia Plaintiffs in any of the actions that were resolved.

As of December 31, 2022, $0.5 million of the aggregate Settlement amount of $126 million remains reflected in accrued liabilities, and $0.5 million in an offsetting insurance receivable remains reflected in other current assets on the Consolidated Balance Sheets pending resolution of all asserted actual or potential claims associated with this matter. The amount reflected in accrued liabilities reflects the status of the liability and the offsetting insurance receivable reflected in other current assets, each as of as of December 31, 2022.

Note 17: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations for the years ended December 31:

	2022	2021	2020
Numerator:			
Net income attributable to common shareholders	$ 820	$ 1,263	$ 709
Denominator:			
Weighted average common shares outstanding—Basic	182	182	181
Effect of dilutive common stock equivalents	—	—	1
Weighted average common shares outstanding—Diluted	182	182	182

The effect of dilutive common stock equivalents is related to outstanding stock options, RSUs and PSUs granted under the Company's 2007 Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Plan, as well as estimated shares to be purchased under the ESPP. Less than one million share-based awards were excluded from the computation of diluted EPS for the years ended December 31, 2022, 2021 and 2020, because their effect would have been anti-dilutive under the treasury stock method.

Note 18: Fair Value of Financial Information

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Seller promissory note from the sale of HOS — The carrying amount reported on the Consolidated Balance Sheets for the seller promissory note from the sale of HOS is $720 million as of December 31, 2022 and 2021. This amount represents the principal amount owed under the seller note, for which the Company expects to receive full payment. The accounting fair value measurement of the seller note approximated $686 million and $720 million as of December 31, 2022 and 2021, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The seller note is classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of December 31, 2022				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt (excluding finance lease obligations)	11,207	8,599	49	1,427	10,075

	As of December 31, 2021				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 4	$ —	$ —	$ 6	$ 6
Long-term debt (excluding finance lease obligations)	10,396	10,121	60	1,637	11,818

Fair Value Measurements

To increase consistency and comparability in fair value measurements, GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Financial assets and liabilities utilizing Level 1 inputs include active exchange-traded equity securities, exchange-based derivatives, mutual funds and money market funds.

Level 2—Inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, commingled investment funds not subject to purchase and sale restrictions and fair-value hedges.

Level 3—Unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds subject to purchase and sale restrictions.

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 32	$ —	$ —	$ 32
Rabbi trust investments	21	—	—	21
Deposits	7	—	—	7
Other investments				
Money market and other	61	—	—	61
Fixed-Income Securities	147	6	—	153
Contingent cash payment from the sale of HOS	—	—	72	72
Mark-to-market derivative asset	—	1	—	1
Total assets	268	7	72	347
Liabilities:				
Deferred compensation obligations	24	—	—	24
Total liabilities	24	—	—	24
Total net assets	$ 244	$ 7	$ 72	$ 323

	As of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 21	$ —	$ —	$ 21
Rabbi trust investments	23	—	—	23
Deposits	27	—	—	27
Other investments	17	—	—	17
Contingent cash payment from the sale of HOS	—	—	72	72
Total assets	88	—	72	160
Liabilities:				
Deferred compensation obligations	27	—	—	27
Total liabilities	27	—	—	27
Total net assets	$ 61	$ —	$ 72	$ 133

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on observable market prices.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility.

Other investments— As a result of the Retiree Welfare Plan changes discussed in Note 15—Employee Benefits, effective December 31, 2022, the Company transferred investment assets from the Bargained VEBA into the existing trust maintained for the benefit of the Active VEBA. The transfer of these Bargained VEBA investment assets into the Active VEBA permits access to approximately $194 million of assets for purposes of paying active union employee medical benefits.

The investments in the Active VEBA primarily consist of money market funds and available-for-sale fixed income securities. The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on observable market prices and therefore included in the recurring fair value measurements hierarchy as Level 1. The available-for-sale fixed income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate. The Company includes other investments of $67 million and $147 million in Other current assets and Other long-term assets, respectively, on the Consolidated Balance Sheet as of December 31, 2022. Other investments as of December 31, 2021, are included in other current assets on the Consolidated Balance Sheet.

The fair value of the Company's available-for-sale fixed income securities, summarized by contractual maturities, as of December 31, 2022, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 61
1 year - 5 years	79
5 years - 10 years	3
Greater than 10 years	10
Total	$ 153

Contingent cash payment from the sale of HOS—The Company's contingent cash payment derivative included as part of the consideration from the sale of HOS is included in other current assets on the Consolidated Balance Sheets. The fair value of the contingent cash payment is $72 million, which is reflective of changes in the benchmark interest rate and estimated using the probability of the outcome of receipt of the $75 million, a Level 3 input.

Note 19: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's ROU assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 37 years, six years, and four years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $145 million and $146 million as of December 31, 2022 and 2021, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and excluded from the finance lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $4 million in 2023 through 2027, and $45 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating and finance leases were $12 million, $13 million and $14 million for the years ended December 31, 2022, 2021 and 2020, respectively.

For the year ended December 31, 2022, cash paid for amounts in lease liabilities, which includes operating and financing cash flows from operating and finance leases, was $12 million. For the year ended December 31, 2022, ROU assets obtained in exchange for new operating lease liabilities was $5 million.

As of December 31, 2022, the weighted-average remaining lease term of the finance lease and operating leases were three years and 18 years, respectively, and the weighted-average discount rate of the finance lease and operating leases were 12% and 4%, respectively.

The future maturities of lease liabilities at December 31, 2022, are $9 million in 2023, $10 million in 2024, $8 million in 2025, $7 million in 2026, $6 million in 2027 and $76 million thereafter. At December 31, 2022, imputed interest was $39 million.

Note 20: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by management to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment is the largest component of the Company's business and includes subsidiaries that provide water and wastewater services to customers in 14 states.

The Company also operates other market-based businesses, primarily MSG, which provide water and wastewater services to the U.S. government on military installations, as well as municipalities. These market-based businesses do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented throughout this Annual Report on Form 10-K within "Other," which is consistent with how management assesses the results of these businesses. The Company's former HOS business, which was sold in the fourth quarter of 2021, was included in "Market-Based Businesses" in the Company's Form 10-K for the year ended December 31, 2021. As a result of the sale of HOS, the categories which were previously shown as "Market-Based Businesses" and "Other" have been combined and are shown as Other. Segment results for the years ended December 31, 2021 and 2020, have been adjusted retrospectively to reflect this change.

The accounting policies of the segments are the same as those described in Note 2—Significant Accounting Policies. The Regulated Businesses segment includes intercompany costs that are allocated by Service Company and intercompany interest that is charged by AWCC, both of which are eliminated to reconcile to the Consolidated Statements of Operations. Inter-segment revenues include the sale of water from a regulated subsidiary to market-based subsidiaries, leased office space, and furniture and equipment provided by the market-based subsidiaries to regulated subsidiaries. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the seller promissory note and income from the revenue share agreement from the sale of HOS, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

Presented in the tables below is summarized segment information as of and for the years ended December 31:

	2022		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 3,505	$ 287	$ 3,792
Depreciation and amortization	633	16	649

Diluted earnings per share:				
Net income attributable to common shareholders	0.73	1.14	1.53	3.55

(a) Amounts may not sum due to rounding.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act as of the end of the period covered by this report.

Based on that evaluation, the Company's Chief Executive Officer and its Chief Financial Officer have concluded that, as of December 31, 2022, the Company's disclosure controls and procedures were effective at a reasonable level of assurance. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed by or under the supervision of the Company's Chief Executive Officer and its Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect its transactions and dispositions of its assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with GAAP, and that the Company's receipts and expenditures are being made only in accordance with authorizations of its management and its directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of its assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, including the Company's Chief Executive Officer and its Chief Financial Officer, assessed the effectiveness of its internal control over financial reporting, as of December 31, 2022, using the criteria described in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on the Company's evaluation under the framework in *Internal Control—Integrated Framework (2013)*, its management concluded that its internal control over financial reporting was effective as of December 31, 2022.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2022 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing in Item 8—Financial Statements and Supplementary Data of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during its last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

On February 15, 2023, Karl F. Kurz, the Company's Board Chair, was notified by George MacKenzie that Mr. MacKenzie does not wish to be considered as a candidate for re-election at the Company's 2023 Annual Meeting of Shareholders. Mr. MacKenzie's notification was not due to any known disagreement on any matter relating to the Company's operations, policies or practices. Mr. MacKenzie has been a director of the Company since 2003 and served as Chairman of the Board from 2006 until 2018. He currently serves as a member of the Audit, Finance and Risk Committee and the Nominating/Corporate Governance Committee. The Company wishes to thank Mr. MacKenzie for his many years of service to the Board of Directors.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item and not set forth below or in Item 1—Business—Executive Officers of this Annual Report on Form 10-K, is incorporated by reference from the Company's Proxy Statement for the 2023 Annual Meeting of Shareholders, to be filed with the SEC within 120 days following the end of the fiscal year covered by this report, under the captions entitled "Board of Directors and Corporate Governance" and "Proposal 1—Election of Directors."

The Company has adopted a Code of Ethics, which applies to directors, officers and employees. The full text of the Code of Ethics is publicly available on the Company's website at *https://amwater.com*. The Company intends to post on its website any amendments to the Code of Ethics and any waivers of such provisions granted to certain principal officers.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2023 Annual Meeting of Shareholders, under the captions entitled "Proposal 1—Election of Directors—Director Compensation Table," "Compensation Discussion and Analysis," "Executive Compensation" (excluding the subsection "Pay Versus Performance"), "Compensation Committee Interlocks and Insider Participation" and "Compensation Committee Report" (with the latter report being furnished, and not filed, in this Annual Report on Form 10-K).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required by this item setting forth the security ownership of certain beneficial owners and management is incorporated by reference in the Company's Proxy Statement for the 2023 Annual Meeting of Shareholders, under the captions entitled "Certain Beneficial Ownership Matters—Security Ownership of Management," "Certain Beneficial Ownership Matters—Security Ownership of Certain Beneficial Owners" and "Equity Compensation Plan Information."

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2023 Annual Meeting of Shareholders, under the caption entitled "Board of Directors and Corporate Governance—Board Review of Related Person Transactions" and "Proposal 1—Election of Directors—Director Independence."

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2023 Annual Meeting of Shareholders, under the caption entitled "Proposal 4—Ratification of Appointment of Independent Registered Public Accounting Firm—Fees Paid to Independent Registered Public Accounting Firm" and "Proposal 4—Ratification of Appointment of Independent Registered Public Accounting Firm—Pre-Approval of Services Provided by Independent Registered Public Accounting Firm."

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The following documents have been filed as a part of this Annual Report on Form 10-K:

1. The financial statements listed in the "Index to Consolidated Financial Statements" contained in Item 8—Financial Statements and Supplementary Data of this Form 10-K are hereby incorporated by reference in response to this Item 15(a).

2. Financial statement schedules have been omitted since they are either not required or are not applicable as the information is otherwise included in the financial statements or notes thereto.

3. Exhibits. The list of documents contained in "Exhibit Index" is provided in response to this Item 15(a). The warranties, representations and covenants contained in any of the agreements included or incorporated by reference herein or which appear as exhibits hereto should not be relied upon by buyers, sellers or holders of the Company's or its subsidiaries' securities and are not intended as warranties, representations or covenants to any individual or entity except as specifically set forth in such agreement.

The responses to Items 15(b) and (c) of Form 10-K are included above in response to Item 15(a).

ITEM 16. FORM 10-K SUMMARY

None.

EXHIBIT INDEX

Exhibit Number	Exhibit Description
2.1.1#	Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc., New York American Water Company, Inc. and Liberty Utilities Co. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2019).

Certain schedules and exhibits to this agreement have been omitted pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Denotes a management contract or compensatory plan or arrangement.

Instruments defining the rights of holders of certain issues of long-term debt of the Company and certain of its consolidated subsidiaries have not been filed as exhibits to this report because the authorized principal amount of any one of such issues does not exceed 10% of the Company's consolidated total assets. The Company agrees to furnish a copy of each such instrument to the SEC upon request.

The Stock Purchase Agreement filed as Exhibit 2.1.1, the Membership Interest Purchase Agreement filed as Exhibit 2.2, and the Secured Seller Note Agreement filed as Exhibit 10.17 to this Annual Report on Form 10-K have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 15th day of February, 2023.

Exhibit 4.22

DESCRIPTION OF AMERICAN WATER WORKS COMPANY, INC.'S EQUITY SECURITIES

The following description of the common stock, par value $0.01 per share (the "Common Stock"), of American Water Works Company, Inc., a Delaware corporation (the "Company"), is not intended to be complete. For more information regarding the Common Stock, please refer to the Company's Restated Certificate of Incorporation (the "Certificate of Incorporation"), and the Company's Amended and Restated Bylaws (the "Bylaws"), which have been included as Exhibit 3.1 and Exhibit 3.2, respectively, to the Company's Annual Report on Form 10-K for the year ended December 31, 2022. The following descriptions are based on the Certificate of Incorporation and Bylaws in effect as of February 15, 2023. The terms and provisions of the Certificate of Incorporation and Bylaws are hereby incorporated by reference herein. The terms of these securities also may be affected by the General Corporation Law of the State of Delaware (the "DGCL").

General

The Company's authorized capital stock consists of 500,000,000 shares of Common Stock and 50,000,000 shares of preferred stock. As of January 31, 2023, there were 181,858,619 shares of Common Stock outstanding and no shares of preferred stock outstanding.

Common Stock

Voting Rights

Other than with respect to director elections, except as otherwise required by law, all matters to be voted on by the Company's shareholders must be approved by a majority of the shares present in person or proxy at such meeting and entitled to vote on the subject matter. With respect to uncontested director elections, the Bylaws require that in order to be elected, a director nominee must receive a majority of the votes cast (for this purpose, a majority of the votes cast means that the number of shares voted "for" a director nominee must exceed the number of votes cast "against" that nominee). For contested director elections where the number of nominees exceeds the number of directors to be elected, the Bylaws require that the directors shall be elected by the vote of a plurality of the shares represented in person or by proxy at any such meeting and entitled to vote on the election of directors.

Dividends

Holders of Common Stock will share equally in any dividend declared by the Company's board of directors (the "Board"), subject to the rights of the holders of any outstanding preferred stock.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company's affairs, holders of Common Stock would be entitled, after payment of the liquidation preference to all holders of any outstanding preferred stock, to share ratably in the Company's assets that are legally available for distribution to shareholders after payment of liabilities. The Company must pay the applicable distribution to any holders of its preferred stock before it may pay distributions to the holders of Common Stock.

Other Rights

The Company's shareholders have no preemptive or other rights to subscribe for additional shares.

Preferred Stock

The Board may authorize the issuance of preferred stock from time to time in one or more series, without shareholder approval. Subject to the limits imposed by the DGCL, the Board is authorized to fix for any series of preferred stock the number of shares of such series and the voting powers (if any), designation, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions of such series. The Board is also authorized to increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by the Company's shareholders.

The Board may authorize the issuance of preferred stock with voting or conversion rights that affect adversely the voting power or other rights of holders of Common Stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control, causing the market price of a share of Common Stock to decline, or impairing the voting and other rights of the holders of Common Stock.

Certain Anti-Takeover Provisions of the Certificate of Incorporation and Bylaws, and the DGCL

The following provisions of the Certificate of Incorporation and Bylaws could deter, delay or prevent a third party from acquiring the Company, even if doing so would benefit the Company's shareholders.

Undesignated Preferred Stock

The ability to authorize undesignated preferred stock makes it possible for the Board to authorize the issuance of preferred stock with super voting, special approval, dividend or other rights or preferences on a discriminatory basis that could impede the success of any attempt to acquire the Company. These and other provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of the Company.

Requirements for Advance Notification of Shareholder Meetings, Nominations and Proposals

The Bylaws provide that special meetings of shareholders may be called only upon the request of the majority of the members of the Board, upon request of the Chairman of the Board, or by the Secretary of the Company upon request of shareholders holding at least 15% of the outstanding Common Stock. The Bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting.

The Bylaws establish advance notice procedures with respect to shareholder proposals for annual meetings and the nomination of candidates for election as directors, other than nominations made by or at the direction of the Board or a committee thereof. A shareholder who wishes to bring a matter before a meeting or submit candidates for nomination as directors must comply with the Company's advance notice requirements and provide the Company with certain information, and, if applicable under the Bylaws, provide to the Company certain agreements and undertakings. Additionally, vacancies and newly created directorships may be filled only by a vote of a majority of the members of the Board then in office, even though less than a quorum, or by shareholders. These provisions may defer, delay or discourage a potential acquiror from conducting a solicitation of proxies to elect the acquiror's own slate of directors or otherwise attempting to obtain control of the Company.

Shareholder Action by Written Consent

As permitted by Section 228 of the DGCL, the Certificate of Incorporation states that any action required or permitted to be taken by the Company's shareholders must be effected at a duly called annual or special meeting and may not be effected by consent in writing by such shareholders.

Approval of Acquisition of Control by Public Utility Commissions

A significant number of the Company's regulated subsidiaries are subject to economic regulation by state public utility commissions. Some of these states have enacted laws that require regulatory approval for the acquisition of "control" of any regulated utility. In those states, obtaining "control" of the parent or any other company that controls a regulated utility also requires prior regulatory approval. The threshold for a change in control is a fact-specific inquiry that varies by state. For example, in some states, a presumption of control will arise when an acquiring party acquires more than 9.9% of the voting securities of the regulated utility or the controlling entity. In addition to ownership, other states may analyze the degree of influence or control an acquiror may exert over the company. Any person acquiring Common Stock in an offering or in any other purchase of Common Stock in an amount sufficient to trigger a change in control under state law would need the prior approval of the applicable state public utility commission.

Certain Other Provisions of the Certificate of Incorporation and Bylaws and the DGCL

Board of Directors

The Certificate of Incorporation provides that the number of directors is fixed in the manner provided in the Bylaws. The Bylaws provide that the number of directors will be fixed from time to time by the Board.

Business Combinations under the DGCL

The Company is subject to Section 203 of the DGCL, which prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the time the shareholder became an "interested stockholder," subject to certain exceptions, including if, prior to such time, the board of directors approved the business combination or the transaction which resulted in the shareholder becoming an "interested stockholder." "Business combinations" include mergers, asset sales and other transactions resulting in a financial benefit to the "interested stockholder." Subject to various exceptions, an "interested stockholder" is a person who, together with his or her affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's outstanding voting stock. These restrictions generally prohibit or delay

the accomplishment of mergers or other takeover or change-in-control attempts that are not approved by a company's board of directors.

Limitations of Liability and Indemnification of Directors and Officers

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their shareholders for monetary damages for breaches of directors' fiduciary duties. The Certificate of Incorporation includes a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director to the fullest extent authorized by the DGCL. The DGCL does not permit exculpation for liability:

- for breach of the duty of loyalty;
- for acts or omissions not in good faith or involving intentional misconduct or knowing violation of law;
- under Section 174 of the DGCL (relating to unlawful dividends or stock repurchases); or
- for transactions from which the director derived an improper personal benefit.

The Certificate of Incorporation and Bylaws provide that the Company will indemnify its directors and officers to the fullest extent permitted by law. The Bylaws also expressly authorize the Company to carry directors' and officers' insurance providing indemnification for its directors, officers and certain employees and agents for certain liabilities.

The limitation of liability and indemnification provisions in the Certificate of Incorporation and Bylaws may discourage shareholders from bringing a lawsuit against the Company's directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against the Company's directors and officers, even though such an action, if successful, might otherwise benefit the Company and its shareholders. In addition, an investment in the Common Stock may be adversely affected to the extent the Company pays the costs of settlement and damage awards against directors and officers in accordance with these indemnification provisions.

Proxy Access

The Bylaws permit an eligible shareholder or group of shareholders to include up to a specified number of director nominees in the Company's proxy materials for an annual meeting of shareholders. To qualify, the shareholders (or group of up to 20 shareholders) must have continuously owned for at least three years 3% or more of the Company's outstanding common stock. The maximum number of shareholder nominees permitted under this proxy access provision is the greater of (i) two or (ii) 20% of the total number of directors on the Company's board of directors as of the last day on which a proxy access notice may be submitted, rounded down to the nearest whole number.

Transfer Agent and Registrar

American Stock Transfer & Trust Company, LLC serves as the registrar and transfer agent for the Common Stock.

New York Stock Exchange Listing

The Common Stock is listed on the New York Stock Exchange under the trading symbol "AWK."

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 16, 2021 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2021 Long Term Performance Plan ("2021 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of three separate grants: a restricted stock unit and two performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2021 LTPP and to grant the Participant an Equity Award under the 2021 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2021 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2021 and ending December 31, 2023.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the

last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2022, but prior to January 31, 2023; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2023, but prior to January 31, 2024; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2024. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2022 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2024 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five

(5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2021 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend, equivalents will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2019 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or recoupment policies and other policies that may be implemented by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan

established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld up to an amount that does not exceed the minimum applicable withholding tax rate for federal (including FICA), state, local and other tax liabilities.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: Walter Lynch

Its: President and CEO

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

Compounded Earnings Per Share ("EPS") Growth – will be calculated based on fully diluted EPS calculated in accordance with US GAAP as reported in the Company's audited consolidated financial statements adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature. The starting point for the calculation will be adjusted EPS of $3.51 for the year ended December 31, 2020. The ending point for the calculation will be EPS for the year ended December 31, 2023, adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature.

The award scale for Compounded EPS Growth is as follows:

Compounded EPS Growth	
Actual Compounded EPS Growth	Target Award
10.0% or more	200%
9.0%	175%
8.0%	100%
7.0%	25%
< 6.0%	0%

If actual achievement of the Performance Goal does not meet threshold performance (i.e., less than 6.0% for Compounded EPS Growth, then that Performance Goal will be reflected in the final result for determining the number of earned Performance Units at its assigned weighting with a 0%. The maximum award that may be earned for each Performance Goal is capped at 200%, and the maximum award that may be earned by the Participant is capped at 200% of the Target Award.

Example:

The following is an example calculation for a Participant with a Target Award of 1,000 Performance Units:

Earnings Per Share

	12/31/2020 Adjusted	12/31/2023 Illustration
Adjusted diluted earnings per share from continuing operations	$ 3.51	$ 4.53
Compounded EPS growth		**8.83%**

Earned Performance Units

	Achievement	Award
Compounded EPS Growth	8.83%	162.5%

In this example, the individual who was awarded a Target Grant of 1,000 Performance Units would earn 1,625 Performance Units (1,000 x 1.625), which is convertible into an equivalent number of shares of Company Stock assuming all other terms and conditions of the Grant have been satisfied.

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 16, 2021 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2021 Long Term Performance Plan ("2021 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of three separate grants: a restricted stock unit and two performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2021 LTPP and to grant the Participant an Equity Award under the 2021 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2021 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2021 and ending December 31, 2023.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b) or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant

are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2022, but prior to January 31, 2023; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2023, but prior to January 31, 2024; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2024. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant has remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2022 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service

with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2024 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2021 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date

or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2019 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or recoupment policies and other policies that may be implemented by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend

equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld up to an amount that does not exceed the minimum applicable withholding tax rate for federal (including FICA), state, local and other tax liabilities.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused this Grant to be executed, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: Karl F. Kurz

Its: Chairman of the Board

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

Compounded Earnings Per Share ("EPS") Growth – will be calculated based on fully diluted EPS calculated in accordance with US GAAP as reported in the Company's audited consolidated financial statements adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature. The starting point for the calculation will be adjusted EPS of $3.51 for the year ended December 31, 2020. The ending point for the calculation will be EPS for the year ended December 31, 2023, adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature.

The award scale for Compounded EPS Growth is as follows:

Compounded EPS Growth	
Actual Compounded EPS Growth	Target Award
10.0% or more	200%
9.0%	175%
8.0%	100%
7.0%	25%
< 6.0%	0%

If actual achievement of the Performance Goal does not meet threshold performance (i.e., less than 6.0% for Compounded EPS Growth, then that Performance Goal will be reflected in the final result for determining the number of earned Performance Units at its assigned weighting with a 0%. The maximum award that may be earned for each Performance Goal is capped at

200%, and the maximum award that may be earned by the Participant is capped at 200% of the Target Award.

Example:

The following is an example calculation for a Participant with a Target Award of 1,000 Performance Units:

Earnings Per Share

	12/31/2020 Adjusted	12/31/2023 Illustration
Adjusted diluted earnings per share from continuing operations	$ 3.51	$ 4.53
Compounded EPS growth		**8.83%**

Earned Performance Units

	Achievement	Award
Compounded EPS Growth	8.83%	162.5%

In this example, the individual who was awarded a Target Grant of 1,000 Performance Units would earn 1,625 Performance Units (1,000 x 1.625), which is convertible into an equivalent number of shares of Company Stock assuming all other terms and conditions of the Grant have been satisfied.

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 16, 2021 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to M. Susan Hardwick (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2021 Long Term Performance Plan ("2021 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of three separate grants: a restricted stock unit and two performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2021 LTPP and to grant the Participant an Equity Award under the 2021 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2021 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant 2,470 performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific

assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2021 and ending December 31, 2023.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b), 4(c) or 4(d), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2022, but prior to January 31, 2023; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2023, but prior to January 31, 2024; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2024. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant has remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early

Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) If at any time prior to January 31, 2024, the Participant's employment or service with the Employer terminates on account of Normal Retirement or Early Retirement before achieving five (5) total years of employment or service with the Employer, but the Participant has completed a minimum of three (3) years of service in the position of Chief Financial Officer and has achieved the required Normal Retirement or Early Retirement age, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period following the Participant's termination of employment or service on account of Normal Retirement or Early Retirement, so long as the Participant has used good faith efforts (as determined by the Chief Executive Officer) to identify and develop a Chief Financial Officer successor who is approved by the Chief Executive Officer and the Board of Directors.

(e) Except as set forth in Paragraphs 4(b), 4(c) or 4(d), if at any time prior to the earlier of January 31, 2022 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(f) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2024 (the "Distribution Date"), (b) the Change of

Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2021 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive

Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2019 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or recoupment policies and other policies that may be implemented by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the

Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld up to an amount that does not exceed the minimum applicable withholding tax rate for federal (including FICA), state, local and other tax liabilities.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended

without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: Walter Lynch

Its: President and CEO

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

Compounded Earnings Per Share ("EPS") Growth – will be calculated based on fully diluted EPS calculated in accordance with US GAAP as reported in the Company's audited consolidated financial statements adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature. The starting point for the calculation will be adjusted EPS of $3.51 for the year ended December 31, 2020. The ending point for the calculation will be EPS for the year ended December 31, 2023, adjusted to exclude all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principle or, as determined by the Committee, any other change or event similar in nature.

The award scale for Compounded EPS Growth is as follows:

Compounded EPS Growth	
Actual Compounded EPS Growth	Target Award
10.0% or more	200%
9.0%	175%
8.0%	100%
7.0%	25%
< 6.0%	0%

If actual achievement of the Performance Goal does not meet threshold performance (i.e., less than 6.0% for Compounded EPS Growth, then that Performance Goal will be reflected in the final result for determining the number of earned Performance Units at its assigned weighting with a 0%. The maximum award that may be earned for each Performance Goal is capped at

200%, and the maximum award that may be earned by the Participant is capped at 200% of the Target Award.

Example:

The following is an example calculation for a Participant with a Target Award of 1,000 Performance Units:

Earnings Per Share

	12/31/2020 Adjusted	12/31/2023 Illustration
Adjusted diluted earnings per share from continuing operations	$ 3.51	$ 4.53
Compounded EPS growth		**8.83%**

Earned Performance Units

	Achievement	Award
Compounded EPS Growth	8.83%	162.5%

In this example, the individual who was awarded a Target Grant of 1,000 Performance Units would earn 1,625 Performance Units (1,000 x 1.625), which is convertible into an equivalent number of shares of Company Stock assuming all other terms and conditions of the Grant have been satisfied.

Exhibit 10.13.32

AMERICAN WATER WORKS COMPANY, INC.

2017 OMNIBUS EQUITY COMPENSATION PLAN

STOCK UNIT GRANT

This STOCK UNIT GRANT, dated as of December 7, 2022 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, upon election to the Board of Directors of the Company (the "Board") each non-employee director of the Company receives an annual stock unit grant that will be converted to shares of common stock of the Company, par value $0.01 per share, (the "Company Stock") at a later date;

WHEREAS, the Participant has been elected as a non-employee director on the Board, effective December 7, 2022; and

WHEREAS, the stock unit grant granted to the Participant shall be issued under the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan") for service prior to the 2023 Annual Meeting of Shareholders as a non-employee member of the Board, and the terms and conditions of such stock unit shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Stock Units"). Each Stock Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable distribution date, as described in Paragraph 4 below.

2. Stock Unit Account. The Company shall establish and maintain a Stock Unit account as a bookkeeping account on its records (the "Stock Unit Account") for the Participant and shall record in such Stock Unit Account the number of Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Stock Unit Account established for the Participant.

3. Vesting. The Participant shall be fully vested in the Stock Units credited to the Participant's Stock Unit Account pursuant to this Grant on the Date of Grant.

4. Distribution. The Stock Units shall be converted to shares of Company Stock and distributed by the Company within thirty (30) days following the earlier of (i) August 11, 2023 (the "Specified Date"), (ii) the Participant's separation from service (within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code")) with the Company (the "Separation from Service Date"), or (iii) the date of a Change of Control (as defined below) (the "Change of Control Date"). At the time of distribution, all Stock Units shall be converted to an equivalent number of shares of Company Stock, and the Participant shall receive a single distribution of such shares of Company Stock, which shall be issued under the Plan. For purposes of this Grant, the term "Change of Control" shall have the same meaning as such term is defined in the Plan, except that a Change of Control shall not be deemed to have

occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Code and its corresponding regulations.

5. Dividend Equivalents. Until the earlier of the Specified Date, Separation from Service Date or Change of Control Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Stock Units credited to the Participant's Stock Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Stock Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

6. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Stock Units, and, in the event of a Change of Control, the Board may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

7. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law. The Participant also hereby agrees to be bound by the terms and conditions of the Plan and this Grant. The Participant further agrees to be bound by the determinations and decisions of the Board with respect to this Grant and the Plan and the Participant's rights to benefits under this Grant and the Plan, and agrees that all such determinations and decisions of the Board shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

8. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) The obligation of the Company to deliver shares of Company Stock upon the distribution of the Stock Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Board. The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(b) As a condition to receive any shares of Company Stock upon conversion of the Stock Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or

prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and its Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the distribution of the Stock Units shall not be transferred or disposed of by any means until the Participant owns enough shares of Company Stock, or shares underlying stock units convertible into shares of Company Stock, or time-based restricted Company Stock, to meet or exceed five (5) times the Participant's annual cash retainer, which ownership requirement must be satisfied by the fifth (5th) anniversary of the Participant's commencement of service as a director on the Board.

9. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Board in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (i) rights and obligations with respect to withholding taxes, (ii) the registration, qualification or listing of the shares of Company Stock, (iii) changes in capitalization of the Company, and (iv) other requirements of applicable law. The Board shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder and the Participant's acceptance of this Grant is the Participant's agreement to be bound by the interpretations and decisions of the Board with respect to this Grant and the Plan.

10. No Rights as Shareholder. The Participant shall not have any rights as a shareholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 5), or the right to vote, with respect to any Stock Units.

11. No Rights to Continued Service. This Grant shall not confer upon the Participant any right to be retained in the service of the Employer (as defined in the Plan) and shall not interfere in any way with the right to terminate the Participant's service at any time. The right to terminate at will the Participant's service at any time for any reason is specifically reserved.

12. Assignment and Transfers. No Stock Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Stock Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Stock Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

13. Withholding. To the extent required by applicable law, the Participant shall be required to pay to the Company, or make other arrangements satisfactory to the Company to provide for the payment of, any federal, state, local or other taxes that the Company is required to withhold with respect to the Grant, vesting or distribution of the Stock Units and dividend equivalents.

14. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

15. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflicts of laws provisions thereof.

16. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the records of the Company, or to such other address as the Participant may designate to the Company in writing. Any notice shall be delivered by hand, sent by facsimile, e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means), or enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

17. Section 409A of the Code.

(a) This Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered to avoid any penalty sanctions under section 409A of the Code. If any distribution cannot be provided or made at the time specified herein, then such distribution shall be provided in full at the earliest time thereafter when such sanctions cannot be imposed. In no event may the Participant designate the calendar year of distribution.

(b) Notwithstanding any provision to the contrary in this Grant, if any of the distributions under this Grant are payable to the Participant upon separation from service (within the meaning of section 409A of the Code) from the Employer, then if at the time of the Participant's separation from service the Participant is a "specified employee" (as such term is defined in section 409A(2)(B)(i) of the Code and its corresponding regulations) as determined by the Company (or any successor thereto) in its sole discretion in accordance with its specified employee determination policy, then all distributions to the Participant pursuant to this Grant shall be postponed for a period of six (6) months following the Participant's separation from service from the Employer. The postponed amounts shall be distributed to the Participant in a lump sum within thirty (30) days after the date that is six (6) months following the Participant's separation from service from the Employer. If the Participant dies during such six (6)-month period and prior to the distribution of the postponed amounts hereunder, the amounts delayed on account of section 409A of the Code shall be distributed to the personal representative of the Participant's estate within sixty (60) days after the date of the Participant's death, and any amounts not delayed shall be distributed to the personal representative of the Participant's estate in accordance with the terms of this Grant.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

PENSION PLAN FOR EMPLOYEES OF AMERICAN WATER WORKS COMPANY, INC. AND ITS DESIGNATED SUBSIDIARIES

ARTICLE I.
PURPOSE

The purpose of this Plan is to provide retirement income for participating Employees. The pensions provided by the Plan will be in addition to any Social Security benefits payable under Federal or State law. The provisions of this Plan shall govern with respect to retirement income over any bargaining unit agreement, but shall not supersede, modify, change or substitute any terms and provisions not relating to retirement income of participating Employees that appear in such agreements. The rules set out in Appendix 2 shall apply should the Plan become a Top-Heavy Plan, as defined therein.

Effective as of July 1, 2011, in connection with that certain Stock Purchase Agreement, dated as of January 23, 2011, by and among the Company, Arizona-American Water Company, New Mexico-American Water Company, Inc. and EPCOR Water (USA), Inc., pursuant to which the Company agreed to sell all of the issued and outstanding stock of Arizona-American Water Company and New Mexico-American Water Company, Inc. to EPCOR Water (USA), Inc., (the "Sale") the Company transferred the assets and liabilities attributable to those Participants who are, or were previously, employed by Arizona-American Water Company and New Mexico-American Water Company, Inc. to the Pension Plan for Employees of Arizona-American Water Company and New Mexico-American Water Company, Inc. (the "Arizona-New Mexico Pension Plan"), a new pension plan established for such Participants. Such assets and liabilities included those attributable to active Participants as of June 30, 2011, terminated vested Participants, and retired Participants (or their Beneficiaries) who were receiving benefit payments from the Plan, all of whom are, or were previously, employed by Arizona-American Water Company or New Mexico-American Water Company, Inc. (collectively, the "Arizona-New Mexico Employees"). Any benefit to which an Arizona-New Mexico Employee may have been entitled under the Plan immediately prior to July 1, 2011 was not provided under the Plan, but instead was provided under the Arizona-New Mexico Pension Plan. In addition, with respect to any Participant who was transferred to the employment of Arizona-American Water Company and New Mexico-American Water Company, Inc. from the Employer on or after July 1, 2011 and prior to the consummation date of the Sale, assets and liabilities with respect to such Participant's Accrued Benefit under the Plan, if any, were transferred to the Arizona-New Mexico Pension Plan. Furthermore, with respect to any participant under the Arizona-New Mexico Pension Plan who transferred employment from Arizona-American Water Company and New Mexico-American Water Company, Inc. to the Employer prior to the consummation date of the Sale, assets and liabilities with respect to such participant's Accrued Benefit under the Arizona-New Mexico Pension Plan were transferred back to this Plan and be payable from this Plan to such transferred participant. The Arizona-New Mexico Employees described in this paragraph are identified in Appendix 6 attached hereto.

Effective as of May 1, 2012, in connection with that certain Stock Purchase Agreement, dated as of July 8, 2011, by and among the Company, Ohio-American Water Company, and Aqua Ohio, Inc. ("Aqua Ohio"), pursuant to which the Company agreed to sell all of the issued and outstanding stock of Ohio-American Water Company to Aqua Ohio (the "Sale"), the Company transferred the assets and liabilities attributable to those Participants who were previously employed by Ohio-American Water Company to the Retirement Income Plan for Aqua America, Inc. and Subsidiaries ("Aqua Plan"). Such assets and liabilities included those attributable to active Participants as of April 30, 2012, terminated vested Participants, and retired

Participants (or their Beneficiaries) who were receiving benefit payments from the Plan, all of whom are, or were previously, employed by Ohio-American Water Company ("Ohio Employees"). Any benefit to which an Ohio Employee may have been entitled under the Plan immediately prior to May 1, 2012 was not provided under the Plan, but instead was provided under the Aqua Plan.

In connection with that certain Stock Purchase Agreement by and among the Company, New York American Water Company, Inc., and Liberty Utilities Co., dated as of November 20, 2019, pursuant to which the Company agreed to sell all of the issued and outstanding stock of New York American Water Company, Inc. to Liberty Utilities Co., the Company transferred all Plan assets and liabilities attributable to the Transferring NYAWC Participants (as defined in Appendix 8) to the defined benefit plan designated by Liberty Utilities Co. and the related trust. This transfer is effective as of January 1, 2022. Special provisions governing Transferring NYAWC Participants are set forth in Appendix 8.

Effective as of 11:59:58 p.m. Eastern Time on December 31, 2022, the Company spun-off the assets and liabilities attributable to 12/31/2022 Spinoff Individuals (as defined below). Immediately thereafter, effective as of 11:59:59 p.m. Eastern Time on December 31, 2022 (such date and time, the "12/31/2022 Spinoff Effective Date"), the Company transferred the spun-off liabilities and assets into the Pension Plan for Certain Inactive Participants of American Water Works Company, Inc. and its Designated Subsidiaries (the "12/31/2022 Spinoff"). Effective as of the 12/31/2022 Spinoff Effective Date, a 12/31/2022 Spinoff Individual shall not be considered a Participant or Employee under this Plan, and shall not be entitled to a benefit under the Plan except as a beneficiary or an alternate payee under this Plan.

The Plan is now amended and restated to (1) incorporate prior amendments; (2) to reflect the 12/31/2022 Spinoff; and (c) to make certain clarifying changes.

The benefits payable under this Plan with respect to any Participant (including, with respect to benefits payable under this Plan prior to the 12/31/2022 Spinoff Effective Date, 12/31/2022 Spinoff Individuals) whose service terminated before the 12/31/2022 Spinoff Effective Date shall be determined under the provisions of the Plan as in effect when such Participant's service with the Employer terminated, except that the factors under Tables 2 through 4(a) shall be derived from the Tables in effect when the benefit in question is to begin. Notwithstanding the foregoing, the benefits payable under this Plan with respect to any individual who participated in a merged plan but terminated employment before the date that plan was merged into this Plan shall be determined under the provisions of the merged plan as in effect at the time the individual terminated employment.

Except as otherwise provided in an applicable Appendix, the terms of the Plan are as follows:

ARTICLE II.
DEFINITIONS

Section 2.1 Definitions. Unless the context clearly indicates otherwise, the following terms shall have the following meanings:

(a) "Accrued Benefit" means the accrued benefit of a Participant expressed in terms of a monthly single life annuity beginning at or after their Normal Retirement Date determined under Section 5.1 and 5.2, as applicable, on the basis of the Participant's Years of Service for benefit accrual to the date as of which the computation is made. With respect to Transferring NYAWC Participants (as defined in Appendix 8), Accrued Benefits shall be determined with regard to the provisions under Appendix 8.

(b) "Actuarial Equivalent" means a benefit of equivalent value (A) computed on the basis set out in Tables 2 through 4(a), appended hereto, (B) derived based on interest rates and mortality tables set forth in Table 5 or (C) in any instance in which neither (A) nor (B) applies, based on an assumed interest rate of 8% and using the 1983 Group Annuity Mortality Table (set-back 1 year for Participants and set back 5 years for Contingent Annuitants). For the purpose of determining lump sum present values, the calculation shall be made using the "applicable mortality table" under section 417(e)(3)(B) of the Code and shall be based on the "applicable interest rate" under section 417(e)(3)(C) of the Code for the third calendar month preceding the year during which the Annuity Starting Date occurs (or as otherwise specified in the Plan for calendar years before January 1, 2023).

(c) "Administration Committee" means the Benefits Administration Committee and its successors and delegates. The Administration Committee shall be deemed to be the Plan's "administrator" and "named fiduciary" as defined in sections 3(16)(A) and 402(a)(2), respectively, of ERISA, or any corresponding provisions of successor laws.

(d) "Annuity Starting Date" means the first day of the first month for which an amount is payable as an annuity or in any other form.

(e) "Board of Directors" means the Board of Directors of American Water Works Company, Inc.

(f) "Break-in-Service" means a 12 consecutive month period, measured from the date an Employee is first credited with an Hour of Service or any anniversary thereof (or their re-employment commencement date or any anniversary thereof), within which they are not credited with more than 500 Hours of Service.

(g) "Code" means the Internal Revenue Code of 1986, as amended, and, unless otherwise provided, applicable provisions of successor laws.

(h) "Company" means American Water Works Company, Inc., a Delaware corporation.

(i) "Contingent Annuitant" means:

(i) the Participant's spouse; or

(ii) the person designated by the Participant, with the consent of the Participant's spouse if the Participant is married, as Contingent Annuitant in a manner prescribed by the Administration Committee, or,

(iii) if the Participant has no spouse and benefits are payable in the form of a life and certain annuity under Section 6.4(b)(ii), the Participant's estate.

A married Participant may designate a person or persons other than their spouse as Contingent Annuitant, provided that such spouse consents in writing in a manner prescribed by the Administration Committee which satisfies the requirements of Section 6.2. Such consent shall not be required if it is established to the satisfaction of the Administration Committee that the consent cannot be obtained because there is no spouse, because the spouse cannot be located or because of such other circumstances as the Secretary of the Treasury may prescribe by regulations. A subsequent spouse of the Participant shall not be bound by any such consent.

(j) "Continuous Service" means that uninterrupted period of employment, prior to the Normal, Early or Disability Retirement Date of an Employee with the Company, a Designated Subsidiary or former Designated Subsidiary, or Predecessor thereof. Transfers of employment between any corporations which are or were the Company, a Designated Subsidiary, a former Designated Subsidiary, or any Predecessor thereof, any absence due to temporary layoff not exceeding 12 months, Qualified Military Service or approved leave of absence for sickness, accident or other cause shall not be considered an interruption or termination of employment. Employees similarly situated shall be accorded uniform and nondiscriminatory treatment by the Administration Committee in approving leaves of absence. A completed year of Continuous Service means a 12-month period ending on the day prior to the anniversary date of employment during which the Employee's customary employment was for more than 1,100 hours. Notwithstanding the foregoing, each Employee who became a Participant on July 1, 1952 shall, if their service has been continuous since July 1, 1952, receive Continuous Service credit for all periods of employment prior to July 1, 1952 with the Company, any Predecessor thereof, or any Subsidiary or former Subsidiary from the date when they were first employed by such Company, Predecessor or Subsidiary, including any period of Qualified Military Service, but excluding any other period when not actively employed.

(k) "Designated Subsidiary" means any Subsidiary named by the Board of Directors as such under this Plan, or any Subsidiary to which, prior to July 1, 1975, the board of directors of its immediate parent company designated this Plan to be applicable, which naming may be changed by the Board of Directors from time to time. As of the effective date of this restatement of the Plan, the Designated Subsidiaries are listed in Exhibit A.

(l) "Disability Retirement Date" means the date a Participant retires before their Normal Retirement Date in accordance with the provisions of Section 4.3.

(m) "Early Retirement Date" means the first day of the calendar month coinciding with or immediately following the date a Participant reaches age 55, provided that the sum of their age and Years of Service is at least 70.

(n) "Earnings:"

(i) General Rule. Earnings shall mean, for any Participant, their total compensation for services as an Employee paid as an annual or other periodic salary or as an hourly wage (including overtime pay and shift differentials), by the Company, by any Designated Subsidiary, any former Designated Subsidiary or any Predecessor thereof, plus (a) amounts paid under the Company's Annual Incentive Plan that have not been deferred by the Employee, (b) amounts that would be paid to the Employee during the year but for the Employee's election under a cash or deferred arrangement described in section 401(k) of the Code or a cafeteria plan described in section 125 of the Code or a qualified transportation fringe benefit program described in section 132(0(4) of the Code, and (c) amounts paid under the Company's Business Development Incentive Plan.

(ii) Maximum Annual Dollar Limit. The annual Earnings of each Participant (who performs at least one Hour of Service on or after July 1, 2002) taken into account in determining benefit accruals in any Plan Year beginning after December 31, 2001, shall not exceed the dollar limitation specified in section 401(a)(17) of the Code as in effect for the Plan Year ($330,000 for 2023), adjusted for cost-of-living increases in accordance with section 401(a)(17)(B) of the Code; provided, however, that for the short Plan Year ending December 31, 2022, the dollar limitation specified in section 401(a)(17) of the Code shall be prorated in accordance with Treas. Reg. section 1.401(a)(17)-1(b)(3)(iii). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year. In determining benefit accruals in Plan Years beginning after December 31, 2001, the annual Earnings limit for any prior determination period shall be limited to $200,000. Effective for Limitation Years beginning after July 1, 2007, this Section 2.1(n)(ii) shall also apply to Article C.3 of Appendix 2.

(o) [RESERVED]

(p) "Employee" means:

(i) an individual who is employed by the Employer;

(ii) an individual who is not employed by the Employer but is a Leased Employee within the meaning of section 414(n)(2) of the Code, provided that if the total number of Leased Employees constitutes 20% or less of the Employer's nonhighly compensated work force, within the meaning of section 414(n)(5)(C)(ii) of the Code. The term "Employee" shall not include those Leased Employees covered by a "safe harbor" plan described in section 414(n)(5)(B) of the Code; and

(iii) when required under Section 2.1(u), for purposes of crediting Hours of Service, a former Employee.

Notwithstanding the foregoing, a 12/31/2022 Spinoff Individual who is rehired by an Employer on or after the 12/31/2022 Spinoff Effective Date shall not be an Employee for purposes of the Plan.

(q) "Employer" means the Company, its Designated Subsidiaries, and for purposes of computing an Employee's Years of Service for purposes of vesting and eligibility, but not benefit accrual:

(i) any other employer included with the Company in a controlled group of corporations or trades or businesses within the meaning of section 414(b) or (c) of the Code, or an affiliated service group within the meaning of section 414(m) of the Code; and

(ii) any other entity required to be aggregated with the Company pursuant to regulations under section 414(o) of the Code;

provided, that any such employer shall be included with the term "Employer" only while member of such a group including the Company.

(r) "ERISA" means the Employee Retirement Income Security Act of 1974, as amended.

(s) "Final Average Earnings" means, for any Employee, the average of the Employee's Earnings for those 60 consecutive full months of the final 120 months of employment as an eligible Employee which yield the highest average. If within the 60-month period (or lesser period of employment) applicable in the determination of Final Average Earnings a Participant is absent due to layoff, sickness or accident, Qualified Military Service, leave of absence or other cause to the extent specified in Section 2.1(oo)(ii), their Earnings during such period of absence shall be considered to be their Scheduled Monthly Earnings. If within such 60-month period the Participant is absent due to a cause not specified in Section 2.1(oo)(ii), including but not limited to a strike or other work stoppage, their Final Average Earnings shall be computed on the basis of the last 60 months (or lesser period of employment) during which they actually received Earnings, or are absent under such circumstances that they are credited with Hours of Service under Section 2.1(oo)(ii). If a Participant does not have Earnings for 60 consecutive months, that Participant's Final Average Earnings shall be the amount determined by dividing that Participant's Earnings as an eligible Employee by the number of months in which Earnings were actually received. Notwithstanding the foregoing, in determining Final Average Earnings, overtime in the last month worked prior to the pension effective date will be the average monthly overtime earned during the twelve months prior to the month in which the Employee submits their application for retirement.

(t) "Fund" means the aggregate of the funds held by any Insurance Company under an Insurance Contract, other than those irrevocably committed to the purchase of annuity contracts, or by the Trustee or any other Investment Manager, for the purpose of providing retirement income benefits under the Plan for Participants, surviving spouses and Contingent Annuitants.

(u) "Hour of Service" means:

(i) each hour for which an Employee is paid, or entitled to payment, for the performance of duties for the Employer;

(ii) each hour for which an Employee is paid, or entitled to payment, by the Employer with respect to a period of time during which no duties are performed (irrespective of whether the employment relationship has terminated) due to vacation, holiday, illness, incapacity (including disability), layoff or jury duty; provided that, subject to Section 2.1(oo), an Employee shall be credited with no more than 501 Hours of Service on account of any single continuous period during which they perform no duties;

(iii) each hour for which back pay, irrespective of mitigation of damages, is either awarded or agreed to by the Employer employing an Employee;

(iv) solely for purposes of determining whether a Break-in-Service has occurred, each hour which would normally have been credited to the individual, or if that number of hours cannot be determined, 8 hours per working day, to a maximum of 501 hours, during any period throughout which the individual is absent from employment because of the individual's pregnancy, the birth of the individual's child, placement of a child with the individual in connection with the adoption of that child by the individual, or the individual's need to provide care for such a child for the period immediately following that child's birth or adoption; and,

(v) each other hour credited under Section 2.1(oo)(ii).

Hours of service shall be credited to the Employee for the applicable 12 month period or periods in which the duties are performed, for which the payment is made, or to which the award, agreement or leave pertains, except that in the case of hours credited under Section 2.1(u)(iv), relating to maternity and paternity leave, such hours shall be credited in the year in which the absence from work begins if necessary to avoid a Break-in-Service in that year, or in any other case, in the following year. Hours of Service under this Section 2.1(u) shall be credited consistent with the provisions of 29 CFR 2530.200b-2, issued by the United States Department of Labor, which provisions are incorporated herein by reference.

(v) "Insurance Company" means any insurance company or companies, from which retirement income benefits payable under the Plan may be purchased for Participants, their surviving spouses and Contingent Annuitants.

(w) "Insurance Contract" means any group deposit administration contract, immediate participation guaranteed contract or other policy of similar type or purpose entered into by the Company, under which retirement income benefits payable under the Plan may be paid to Participants, their surviving spouses and Contingent Annuitants.

(x) "Investment Committee" means the Retirement and Benefit Plans Investment Committee and its successors and delegates.

(y) "Investment Manager" means any "investment manager," as that term is defined by section 3(38) of ERISA or any applicable provision of any successor law, which has investment control of any Plan assets pursuant to an agreement with the Company or the Plan (or its representative).

(z) "Late Retirement Date" means the actual date of retirement of a Participant who remains employed by the Employer after their Normal Retirement Date.

(aa) "Leased Employee" means any person who is not an Employee and who provides services to the Employer if:

(i) such services are provided pursuant to an agreement between the Employer and any other person;

(ii) such person has performed services for the Employer or for the Employer and related employees on a substantially full-time basis for a period of at least one year; and

(iii) such services are performed under the primary direction or control of the Employer.

(bb) "Limitation Year" means the calendar year.

(cc) "Normal Retirement Date" means the first day of the calendar month coinciding with or immediately following the date a Participant reaches age 65.

(dd) "Qualified Military Service" means any service in the "uniformed services" (as defined in Chapter 43 of Title 38 of the United States Code) by any Employee if such Employee is entitled to re-employment rights under such Chapter with respect to such service.

(ee) "Participant" means an Employee who has met the eligibility requirements of Sections 3.1, 3.2, and 3.3, as applicable. An individual who qualifies as a Participant shall continue to be a Participant until all benefits due them under the Plan have been paid. An individual who is not a U.S. citizen but who is seconded to employment with any U.S. Employer shall not be eligible to participate during any period while such individual is also covered by a pension plan maintained or contributed to by their non-U.S. Employer. Notwithstanding the foregoing, effective 12/31/2022 Spinoff Effective Date, a 12/31/2022 Spinoff Individual shall not be considered a Participant under this Plan, and shall not be entitled to a benefit under the Plan except as a beneficiary or an alternate payee under this Plan.

(ff) "Plan" means the Pension Plan for Employees of American Water Works Company, Inc. and its Designated Subsidiaries, as set forth in this document and the related Trust Agreement pursuant to which the Trust is maintained.

(gg) "Plan Year" means the 12 month period ending December 31. The period from July 1, 2022 through December 31, 2022 shall be a short Plan Year.

(hh) "Predecessor" means any corporation which was a constituent in a merger, consolidation, liquidation or similar combination of corporations.

(ii) "Scheduled Monthly Earnings" on any date means, in the case of any salaried Employee, their basic rate of monthly earnings at such date (exclusive of overtime payments and bonuses), and, in the case of any hourly-paid Employee, the amount determined by multiplying their average weekly earnings (exclusive of overtime payments and bonuses) at said date by 4 & 1/3. As used in the preceding sentence, "average weekly earnings" on any date means the amount determined by multiplying the hourly-paid Employee's basic straight time hourly rate at said date by the number of hours in their normal work week; provided, however, that the basic straight time hourly rate and the number of hours in a normal work week of any such Employee on a shift schedule shall be averaged over the period covered by the shift cycle.

(jj) "Social Security Average Wage Base" means the average of the amounts considered "wages" under section 3121(a)(1) of the Code, or any applicable provision of any successor laws, for the calendar year including the date as of which a benefit is to be calculated under Section 4.3(c) and the preceding nine calendar years.

(kk) "Subsidiary" means any corporation, association or business trust, 50% or more of whose voting stock (not including shares having voting power only upon the happening of an event of default) is or was owned, directly or indirectly, by American Water Works Company, Inc., or by any corporation which was a constituent in a merger, consolidation, liquidation, transfer of substantially all of its assets in exchange for stock, or similar combination of corporations with or into the Company.

(ll) "12/31/2022 Spinoff Individual" means a Participant who, as of as of 11:59:58 p.m. Eastern Time on December 31, 2022, (i) commenced receiving a benefit pursuant to Article IV or VIII hereof prior to July 1, 2017, or (ii) terminated employment after satisfying the requirements of Article IV or VIII hereof and who was eligible to receive a deferred vested benefit, but in either case excluding a Participant whose pension benefits are or will be payable, in whole or in part, from one or more group annuity contracts. For purposes of clarification, the term "12/31/2022 Spinoff Individual" includes beneficiaries or alternate payees of a Participant who is a 12/31/2022 Spinoff Individual.

(mm) "Trust" means the legal entity created by the agreement ("Trust Agreement") between the Company and the Trustee, fixing the rights and liabilities with respect to the control and management of those assets of the Fund held in the Trust.

(nn) "Trustee" means the trustee or trustees, and any successor or successors thereto, designated by the Board of Directors and named in the Trust Agreement or any amendment thereto.

(oo) "Year of Service" means:

(i) Service Prior to 1975 Anniversary. For periods prior to the first anniversary after July 1, 1975 of the date on which a Participant became an Employee, each year of Continuous Service included in a period of Continuous Service ending on that date.

(ii) Years of Service for Eligibility and Vesting. Except as otherwise provided under Section 2.1(oo)(iv) below, for purposes of eligibility to participate in the Plan, vesting and for meeting the eligibility requirements for survivor benefits or for a Normal, Late, Early or Disability Retirement Date, Years of Service shall be determined under this Section 2.1(oo)(ii). For periods beginning on or after the first anniversary after July 1, 1975 of the date on which a Participant became an Employee, or in the case of a Participant who first became an Employee on or after July 1, 1975, for periods beginning on or after the date the Participant became an Employee, each 12-month period commencing on their employment date or any anniversary thereof during which they complete at least 1,000 Hours of Service and which is not excluded by the provisions of Sections 9.1 and 9.2. For this purpose, an Employee for whom records of hours actually worked are not maintained, shall be credited with 8 Hours of Service for each day for which they are compensated for their services or for which they otherwise would have been compensated for their services during which they are absent due to (A) layoff not exceeding 12 months, (B) sickness or accident in accordance with the customary personnel practices of the respective Company or Designated Subsidiary, but not exceeding the first 24 months thereof, (C) Qualified Military Service, or (D) leave of absence, or other cause, approved by the Administration Committee pursuant to uniform and nondiscriminatory rules applicable to Employees similarly situated, provided that in each case the Employee returns to employment with the Company or a Designated Subsidiary or, if eligible to do so, retires, on or before the last day of the period for which service credit is granted under (A), (B), or (D), or, in the case of absence under (C), the last day on which the Employee's re-employment rights are protected by law.

Years of Service earned by Employees who are not included in an "Eligible Union Group," as described in Section 3.1(b), and have ceased for any reason to be eligible to accrue additional benefits under the Plan will be credited for purposes of vesting and for meeting the eligibility requirements for survivor benefits and Normal, Late, Early or Disability Retirement, but will not be credited for purposes of determining benefit accrual and computing a Participant's retirement income benefit under the Plan under Section 2.1(oo)(iii) below.

(iii) Years of Service for Benefit Accrual. Except as otherwise provided under Section 2.1(oo)(iv) below, for purposes of determining benefit accrual and computing a Participant's retirement income benefit under the Plan, a Year of Service shall be credited for each full 12-month period during which a Participant is credited with at least 1,000 Hours of Service. In addition, a Participant shall receive a partial Year of Service for a period of less than 12 months provided the Participant is credited with at least 1,000 Hours of Service during such period. Notwithstanding any other provision of this Plan, no period during which an individual was ineligible to be a Participant by reason of Section 3.1, 3.2 or 3.3 shall be a Year of Service for the purpose of computing the retirement income benefit, if any, to which such individual is entitled under this Plan.

A Participant shall receive credit for a partial Year of Service for an employment period of fewer than 12 months. That credit shall be determined as a fraction, the denominator of which shall be 365 and the numerator of which shall be the number of days

in the period beginning on the last anniversary date of their employment prior to the termination of their service or their Normal, Late, Early or Disability Retirement Date, and ending on the date of the termination of their service or their Normal, Late, Early or Disability Retirement Date, if their Hours of Service for such period equaled, or when annualized, would equal 1,000 or more.

(iv) Special Rules. For special service rules to be applied in computing Years of Service for purposes of benefit accrual, vesting and for meeting the eligibility requirements for survivor benefits or for a Normal, Late, Early or Disability Retirement Date, for Employees of certain acquired Subsidiaries which have become Designated Subsidiaries, see Appendices 3 and 4.

Union Participants described in Section 5.2(d) shall cease to be credited with Years of Service after December 31, 2005 for purposes of benefit accrual. Years of Service earned by union Participants described in Section 5.2(d) after December 31, 2005 will be credited for purposes of vesting and for meeting the eligibility requirements for survivor benefits and Normal, Late, Early or Disability Retirement.

To the extent applicable, any non-union Participant transferred from American Water Works Service Company, Inc. to American Water Enterprises, Inc. effective December 26, 2011 who is listed in Appendix 7, shall continue to be credited with Years of Service on and after December 26, 2011 for purposes of benefit accrual, as well as for vesting and for meeting the eligibility requirements for survivor benefits or for Normal, Late, Early or Disability Retirement Date, until such Participant subsequently terminates employment or is transferred from their December 26, 2011 classification to an ineligible employment classification.

To the extent applicable, any non-union Participant who, immediately prior to a transfer of employment to American Water Enterprises, Inc., is eligible to accrue additional benefits under the Plan under Section 3.2(b), shall continue to be credited with Years of Service on and after such transfer to American Water Enterprises, Inc. for purposes of benefit accrual, as well as for vesting and for meeting the eligibility requirements for survivor benefits or for Normal, Late, Early or Disability Retirement Date, until such Participant subsequently terminates employment or is transferred to an ineligible employment classification.

Section 2.2 Administration. The Plan shall be administered by the Administration Committee as more fully provided for in Article XI.

Section 2.3 Construction. The headings and subheadings in the Plan are inserted for convenience of reference only and are not to be considered in the construction of any provision of the Plan.

Section 2.4 Governing Law. Except to the extent such laws are superseded by ERISA or the Code, the laws of the State of New Jersey shall govern.

ARTICLE III.
PARTICIPATION

Section 3.1 New Participants.

(a) Except as specifically provided in Section 3.1(b) below, any Employee who was not a Participant in the Plan on January 1, 2006 shall forever remain ineligible for the Plan.

(b) Subject to the terms of the applicable collective bargaining agreement, a union Employee employed within an Eligible Union Group shall become a Participant on the first day of the calendar month next following their completion of one Year of Service. "Eligible Union Groups" include:

(i) Union Employees hired prior to January 1, 2013 in the Company's call center at either the Alton, Illinois or Pensacola, Florida facility;

(ii) Union Employees hired or rehired prior to February 1, 2009 at the Company's Sterling, Illinois facility;

(iii) Union Employees employed on January 15, 2002 in the Company's water business acquired from Citizens Utility Company; or

(iv) Local 423 union Employees hired before April 1, 2006 or Local 68 union Employees hired before May 1, 2006, who were participating in the Employees' Retirement Plan of Elizabethtown Water Company as of December 31, 2006.

An Employee who is hired or transferred into an Eligible Union Group shall become a Participant on or after January 1, 2006 only if the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

Section 3.2 Participants as of January 1, 2006.

(a) Except as provided in this Section 3.2, an Employee who was a Participant in this Plan as of January 1, 2006, shall remain eligible to participate in the Plan.

(b) Any Participant who, as of January 1, 2006, was not eligible to accrue benefits under the Plan shall forever remain ineligible to accrue benefits under the Plan without regard to a subsequent transfer to an eligible classification of employment, rehire, recall, or other resumption of employment unless that Participant is subsequently employed within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

(c) Any Participant who, on or after January 1, 2006, ceases for any reason to be eligible to accrue benefits under the Plan shall forever remain ineligible to accrue future benefits under the Plan without regard to a subsequent transfer to an eligible classification of employment, rehire, recall, or other resumption of employment unless that Participant is subsequently employed

within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group. Non-union Participants rehired on or after January 1, 2006, shall not be eligible to accrue additional benefits under the Plan.

(d) No union Participants hired or rehired on or after January 1, 2001 shall be eligible to accrue additional benefits under the Plan on or after January 1, 2006 unless employed within one of the Eligible Union Groups and the collective bargaining agreement applicable to that Eligible Union Group specifically provides for participation in the Plan by all members of that Eligible Union Group.

(e) Union Employees hired or rehired on or after January 1, 2001 who, on or after January 1, 2006, cease to be covered under a collective bargaining agreement between a union and the Company for any reason, including by transfer to non-union status (union Employees hired before January 1, 2001 and transferred to non-union status will, at the time of transfer, be treated as a non-union Employee hired before January 1, 2006) shall not be eligible to accrue additional benefits under the Plan on or after January 1, 2006; provided, however, union Employees hired before January 1, 2001 who are laid off and recalled to employment on or before December 31, 2005 shall be treated as having been hired before January 1, 2001 but subject on and after January 1, 2006 to the provisions in this Section 3.2.

(f) No Employee on whose behalf the Company or a Designated Subsidiary makes contributions to any employee pension benefit plan with respect to a period of current service shall be eligible to accrue benefits in this Plan for the same period of service.

(g) Any Participant who, immediately prior to a transfer of employment to American Water Enterprises, Inc., is eligible to accrue additional benefits under the Plan under Section 3.2(b) shall continue to accrue benefits under the Plan while employed by American Water Enterprises, Inc. until such Participant subsequently terminates employment or is transferred to an ineligible employment classification.

Section 3.3 Collective Bargaining.

(a) Any other provision of this Plan to the contrary notwithstanding, if any labor organization, which shall be recognized by the Company or a Designated Subsidiary as the representative for purposes of collective bargaining of any unit of Employees, does not enter into an agreement with the Company or a Designated Subsidiary providing for the participation of such Employees in this Plan, or having entered into such an agreement fails or refuses to continue the same in effect, the Employees so represented shall not, except to the extent of such Employees' vested interest under Section 8.1, be Participants in, or eligible to participate in, this Plan, its benefits, or in the funds held by the Insurance Company, the Trustee or any Investment Manager, provided that if the absence of an agreement occurs only during a period of negotiations which culminate in a new agreement providing for the participation of such Employees in this Plan, such Employees shall not lose any of the rights which they would otherwise have had hereunder.

(b) If any Employee becomes a Participant following a period during which they were ineligible to participate by reason of this Section 3.3, their Years of Service under this Plan shall not, for the purpose of computing the retirement income benefit, if any, to which they are entitled under this Plan, include any period during which they were so ineligible.

Section 3.4 Suspension of Benefits. A Participant who continues in employment beyond age 65 shall not be entitled to payment of benefits while so employed, provided that the Plan notifies the Participant by personal delivery or first-class mail during the first calendar month following the Participant's Normal Retirement Date that their benefits will not be payable until their actual termination of employment. Such notification shall state that benefit payments are not being paid, in accordance with this Section 3.4, because the Participant is remaining in active employment, and shall include a copy of this Section 3.4 and a statement to the effect that applicable Department of Labor regulations may be found at 29 CFR § 2530.203-3.

Section 3.5 Transferring NYAWC Participants. Notwithstanding any other provision to the contrary, with respect to Transferring NYAWC Participants (as defined in Appendix 8), eligibility to participate shall be determined with regard to the provisions under Appendix 8.

Section 3.6 12/31/2022 Spinoff Individual. Notwithstanding any other provision to the contrary, on and after the 12/31/2022 Spinoff Effective Date, in no event shall a 12/31/2022 Spinoff Individual become an Employee or Participant, and in no event shall a 12/31/2022 Spinoff Individual be entitled to a benefit under this Plan, except as a beneficiary or an alternate payee under this Plan.

ARTICLE IV.
RETIREMENT

Section 4.1 Normal Retirement and Late Retirement.

(a) Upon retirement at their Normal Retirement Date, a Participant shall be entitled to receive a monthly retirement income commencing on their Normal Retirement Date, which in accordance with Treas. Reg. section 1.411(a)-7(c)(1) shall be equal to the greatest of: (i) the Participant's Accrued Benefit that they could have commenced on or after the date the Participant has attained age 55, provided the sum of their age and Years of Service equals or exceeds 70; (ii) in the case of a Participant who, as of January 1, 2019, is not a "named executive officer" (as defined in Item 402(a)(3) of Regulation S-K of the Securities Act of 1933, as amended), the Participant's Accrued Benefit that they could have commenced on or after attaining age 62; or (iii) the Participant's Accrued Benefit payable at Normal Retirement Date, or in the case of (i), (ii) or (iii), as applicable, the Actuarial Equivalent of such Accrued Benefit in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a).

(b) A Participant who continues to be employed after their Normal Retirement Date shall be entitled to receive a monthly retirement income commencing on their Late Retirement Date in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a). Notwithstanding the foregoing, an executive shall have a Late Retirement Date only if they continue in employment with the Employer after their Normal Retirement Date by consent of the Company.

(c) For purposes of this Section 4.1, an "executive" means a Participant:

(i) who is an executive as defined in 29 CFR.541.1 and EEOC Reg. section 1625.12;

(ii) who is (A) in charge of a significant and substantial local or regional operation of the Employer, (B) in charge of a department or division of the Employer, or (C) in a high policy making position with the Employer;

(iii) who has attained age 65;

(iv) who has been in a position described in Sections 4.1(a) and 4.1(b) for the two-year period immediately prior to their retirement; and

(v) who is entitled to an immediate nonforfeitable annual retirement income, payable in the form of a single life annuity commencing at age 65 (or retirement, if later), from all employee pension, profit sharing, savings and deferred compensation plans sponsored by the Employer, which equals, in the aggregate, at least $44,000 (or such other amount as may be described pursuant to 29 C.F.R. 541.1). There shall be excluded from the calculation of the retirement income all of the Participant's contributions to all plans, including amounts rolled over from the plans of previous employers.

Section 4.2 Early Retirement.

(a) A Participant may retire on the first day of any month occurring on or after both attaining their Early Retirement Date and making application in writing to their Employer at least two full calendar months in advance of their elected Annuity Starting Date. Notwithstanding the foregoing, in the event a Subsidiary is named as a Designated Subsidiary effective after December 31, 1971, a Participant who is an Employee of such Designated Subsidiary may not retire under this Section 4.2(a) before being credited with five Years of Service under this Plan.

(b) In the event of retirement under the provisions of Section 4.2(a), the date of a Participant's actual retirement shall be their Early Retirement Date and upon retirement at their Early Retirement Date a Participant shall be entitled to receive a monthly retirement income commencing on their Early Retirement Date in an amount determined under Sections 5.4, 5.6, 5.7 and, if applicable, Section 6.1(a).

(c) In the event a Participant who has applied for Social Security disability benefits applies for an Early Retirement benefit under this Section 4.2, commences payment of their Early Retirement benefit as of their elected Annuity Starting Date, and such elected Annuity Starting Date occurs prior to the date that an award of total and permanent disability benefits is made by the United States Social Security Administration (the "Award"), such Participant shall not be

permitted to change their Early Retirement benefit to a Disability Retirement benefit payable under Section 4.3 following the date of the Award. The foregoing shall apply regardless of the date of disability that is referenced in the Award. For purposes of clarity, a Participant for whom payment of their Early Retirement benefit has not yet commenced as of their elected Annuity Starting Date due to administrative delay shall be treated as having commenced payment of their Early Retirement benefit as of their elected Annuity Starting Date.

Section 4.3 Disability Retirement.

(a) A Participant who has completed 10 or more Years of Service, and who qualifies for disability retirement under this Section 4.3(a) shall be retired as of the first day of the month following the first month in which the Administration Committee has received both (i) the Participant's written request for disability retirement, and (ii) evidence reasonably satisfactory to the Administration Committee that the Participant has been determined by the United States Social Security Administration to qualify for total and permanent disability benefits under the Social Security Act. A Participant shall be eligible for disability retirement benefits if, as a result of mental or physical illness or injury (other than self-inflicted) while actively employed, they qualify for disability benefits under the Social Security Act. Disability benefit payments shall commence in either the month in which the disabled Participant is retired, as described above, or in the next following month, as may be administratively practicable. Such payments under the Plan shall be made retroactively to the first day of the month following the date as of which the Participant is deemed to be disabled by the Social Security Administration, or, if later, to the last day of the Participant's eligibility for continuation of the Participant's salary or hourly wages as sick pay under an applicable Employer sick pay plan. The sum of any retroactive payments shall be paid in a lump sum, without interest, as part of the first monthly payment of disability benefits. A Participant shall provide such reasonable evidence of continued Social Security disability as the Administration Committee may require from time to time. Disability benefits shall be discontinued if the Participant ceases to qualify for disability benefits under the Social Security Act. A Participant who becomes disabled, while actively employed, on or after attaining age 65, shall be considered to have retired under Section 4.1 and will be entitled to a monthly retirement income, if any, in an amount determined under Sections 5.2, 5.6, 5.7 and, if applicable, Section 6.1(a).

(b) Notwithstanding the above, if a Participant's disability is determined by the Social Security Administration to qualify under the Social Security Act prior to July 1, 2001, and the Participant's benefit was in pay status, the benefit shall be determined under the provisions of the Plan in effect prior to July 1, 2001.

(c) In the event of retirement under the provisions of Section 4.3, the date specified in Section 4.3 shall be the Participant's Disability Retirement Date, and the Participant shall be entitled to receive for life, or as long as their disability continues to qualify under the Social Security Act, a monthly retirement income commencing on their Disability Retirement Date in an amount determined under Sections 5.5, 5.6, 5.7 and, if applicable, Section 6.1(a); provided that if at their Disability Retirement Date, a Participant would be eligible for Early Retirement but for the two months' notice requirement, they may elect to retire early under the provisions of Section 4.2(a).

(d) A Participant shall not be eligible for a benefit payable under this Section 4.3 if the provisions of Section 4.2(c) apply.

ARTICLE V.
RETIREMENT INCOME LIFE BENEFITS

Section 5.1 For Participants Who Retired Prior to July 1, 2001. Except as otherwise specifically provided in Appendix 1, the monthly retirement income payable to a Participant whose retirement date occurred on or before July 1, 2001 shall be continued after June 30, 2001 in the same amount and subject to the same conditions as the monthly retirement income which such Participant was receiving under the Plan beginning on or before July 1, 2001.

Section 5.2 Normal or Late Retirement Income. A Participant's Normal or Late Retirement Income shall be determined as follows:

(a) For Active Non-Union Participants Retirement on or after July 1, 2001. An active non-union Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a), shall receive a monthly retirement income commencing on their Normal or Late Retirement Date in an amount equal to the following:

(i) For Years of Service prior to July 1, 2001, the sum of the following:

(A) 1.85% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 0.7% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

plus

(ii) For Years of Service on or after July 1, 2001, the sum of the following:

(A) 1.60% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 1.60% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

(iii) Years of Service credited before and after July 1, 2001 shall be aggregated in determining the 25-year maximum period.

(b) For Active Union Participants Retiring on or after July 1, 2001. An active union Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a), shall receive a monthly retirement income commencing on their Normal or Late Retirement Date in an amount equal to the following:

(i) For Years of Service prior to July 1, 2001, the sum of the following:

(A) 1.85% of their Final Average Earnings not in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(B) 2.1 % of their Final Average Earnings in excess of the Social Security Average Wage Base, multiplied by their Years of Service up to a maximum of 25 years, plus

(C) 0.7% of their Final Average Earnings, multiplied by their Years of Service in excess of 25 years.

plus

(ii) 1.60% of their Final Average Earnings, multiplied by their Years of Service earned on or after July 1, 2001.

(c) For Participants Hired on or after July 1, 2001. Effective for Participants hired on or after July 1, 2001, except as modified by the provisions of Section 6.1(a), a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to 1.60% of their Final Average Earnings multiplied by their Years of Service at Normal or Late Retirement Date.

(d) For Union Participants Hired On Or After January 1, 2001. Except as provided below in this Section 5.2(d), Section 3.1(b), or Section 3.2, the Accrued Benefit of a union Participant hired or rehired on or after January 1, 2001 shall be frozen as of December 31, 2005 and no further benefits shall accrue for such Participant under the Plan after December 31, 2005. Notwithstanding the foregoing, union Employees who:

(i) are employed at the Company's Sterling, Illinois facility and were hired or re-hired prior to February 1, 2009,

(ii) are employed in the Employer's call center at either the Alton, Illinois or Pensacola, Florida facility,

(iii) were union Employees on January 15, 2002 employed in the water business acquired from Citizens Utility Company, or

(iv) are Local 423 union Employees hired before April 1, 2006 or Local 68 union Employees hired before May 1, 2006, who were participating in the Employees' Retirement Plan of Elizabethtown Water Company as of December 31, 2006,

may continue to accrue benefits under the Plan for Years of Service on and after December 31, 2005.

Section 5.3 1994 Fresh Start Provisions. If the Accrued Benefit, computed as of June 30, 1994, of a Participant who is actively employed on July 1, 1994 was based on Earnings in excess of $150,000, such Accrued Benefit shall be frozen as of June 30, 1994. The Accrued Benefit payable to such a Participant who retires at their Normal Retirement Date shall be the greater of:

(a) the sum of their Accrued Benefit as of June 30, 1994, plus their Accrued Benefit for each Year of Service for benefit accrual after June 30, 1994 computed in accordance with Section 5.2(a) above but based only on Earnings allowable under section 401(a)(17) of the Code as in effect for Plan Years beginning after 1993; or

(b) the Participant's Accrued Benefit computed under Section 5.2(a) using all of the Participant's Years of Service for benefit accrual, but limiting Earnings to the level in effect under section 401(a)(17) of the Code as of the Participant's retirement or other termination of service, as applicable.

Section 5.4 Early Retirement Income. The monthly retirement income commencing on a Participant's Early Retirement Date shall be an amount equal to their normal retirement income under Section 5.2 based on their Years of Service to their Early Retirement Date, multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

Section 5.5 Disability Retirement Income. The monthly retirement income commencing on a Participant's Disability Retirement Date shall be an amount equal to the benefit which they would have received pursuant to Section 5.2(a) or (b) or (c) based on their Years of Service and Final Average Earnings as of their Disability Retirement Date, without reduction for early commencement.

Section 5.6 Other Plan Benefits. In the case of a Participant who becomes a Participant by reason of the naming after June 30, 1985 of a Subsidiary as a Designated Subsidiary, their normal, late, early, or disability retirement income shall be adjusted downward to reflect benefits to which they are entitled under any other retirement plan or plans established by such Designated Subsidiary and the Administration Committee, acting under uniform rules of nondiscriminatory application with respect to the Employees of any such Designated Subsidiary, shall have the exclusive and binding discretion to make such adjustment as it determines to be equitable under all of the circumstances to the end that there be no duplication of benefits under this Plan and any other plan or plans. Notwithstanding the preceding sentence, no such adjustment shall be made for such amounts as are attributable to the Participant's contributions to such other plan or plans.

Section 5.7 Benefits Attributable to Merged Plans. In addition to any retirement income benefit payable to a Participant under this Plan, any Participant who was a participant in the California-American Water Company Employee Retirement Plan, the Seymour Water Company Retirement Plan, the West Virginia Water Company Pension Plan, the Brownsville Water Company Non-Bargaining Employees' Retirement Plan, the Brownsville Water Company Bargaining Employees' Retirement Plan and the Retirement Plan for Employees of California Water Company, which were merged into this Plan, shall also receive the amount of any benefit the Participant would have received from that merged plan, but for the merger. The benefit payable to any Participant who was a participant in the Pekin Water Works Company Pension Trust and who is given credit under Appendix 3 of this Plan in computing their Accrued Benefit under this Plan shall receive no additional benefit credit on account of such participation.

Section 5.8 Normal Form of Retirement Income. The normal form of retirement income shall be as follows:

(a) Unmarried Participants. If a Participant is not married on their Annuity Starting Date, their retirement income will be paid to them monthly for life, beginning with the first payment following their retirement and ending with the last payment payable prior to their death.

(b) Married Participants. If a Participant is married on their Annuity Starting Date, their retirement income will be paid to them in the form of a Qualified Joint and Survivor Annuity as described in Section 6.1(a).

ARTICLE VI.
BENEFIT ELECTIONS, SURVIVOR BENEFITS AND RELATED REDUCTIONS IN BENEFITS

Section 6.1 Automatic Surviving Spouse Benefit.

(a) Qualified Joint and Survivor Annuity. A Participant who is married on their Annuity Starting Date, shall be paid a benefit for their life equal to that percentage determined by their attained age and the attained age of their spouse, set forth in the Table of Contingent Annuitant Percentages attached to the Plan as Table 2, of their normal retirement income under Section 5.2, their early retirement income under Section 5.4 or their disability retirement income under Section 5.5; and their spouse, if such spouse survives them, shall be paid a benefit equal to 50% of their reduced benefit. For any Participant retiring on a Late Retirement Date, Table 2 shall be applied based on the Participant's attained age and the attained age of the Participant's spouse as of the Participant's Late Retirement Date.

If a Participant's spouse dies within two years of the date payments to the Participant begin under this Section 6.1(a), beginning with the first payment following the death of such spouse, monthly retirement income payments to the Participant will be adjusted to be equal to the monthly amount that would have been paid to the Participant if the Participant's benefit had been determined solely under Section 5.8(a).

(b) Qualified Preretirement Survivor Annuity.

(i) Death Prior to Early Retirement Eligibility and Prior to Completing Ten Years of Service. In the event of the death of an actively employed married Participant who had competed at least five Years of Service but before they had completed at least ten Years of Service, such Participant's spouse shall be entitled to a benefit, payable, if such spouse is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Participant's death or (B) the date the Participant would have attained age 55 had they survived, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their spouse's then attained ages, and then died.

(ii) Death Prior to Early Retirement Eligibility but After Ten Years of Service. In the event of a married Participant's death while actively employed, after they have completed ten Years of Service but prior to becoming eligible for Early Retirement, such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and had elected to receive the 100% contingent annuity form of benefit. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their spouse, except that for purposes of applying Table 4, the Participant's attained age, if less than age 55, shall be considered to be age 55 and their spouse's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(iii) Death After Becoming Eligible for Early Retirement. In the event of a married Participant's death, while actively employed, while they are eligible for Early Retirement but for the applicable notice requirement under Section 4.2(a), such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and had elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse.

(iv) Death After Becoming Eligible for Normal Retirement. In the event of a married Participant's death while actively employed, after their Normal Retirement Date, such Participant's spouse shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on their Late Retirement Date and had elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse.

(v) Death of Vested Terminated Participant. In the event of a married Participant's death after they have completed five Years of Service, but before they had become eligible for Early Retirement, and who was not actively employed at the time of their death, such Participant's spouse shall be entitled to a benefit, payable, if such spouse is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Participant's death or (B) the date the Participant would have attained age 55 had they survived, elected the 50% contingent annuity form of benefit, as

determined under Table 2 based on their and their spouse's then attained ages, and then died. Notwithstanding the foregoing, in the event a married Participant who is no longer actively employed dies after they have become eligible to elect to receive retirement income benefits under Section 8.1 and before their Normal Retirement Date, such Participant shall be considered to be actively employed on the date of their death, and their spouse, if surviving, will receive a benefit in accordance with Section 6.1(b)(iii) above.

Any benefit payable under this Section 6.1 shall terminate on the surviving spouse's death.

Section 6.2 Notice and Election Procedures.

(a) Initial Notice and Election. Within 180 days (90 days for plan years beginning prior to January 1, 2007) before a Participant's Annuity Starting Date, the Administration Committee shall supply the Participant with a written explanation describing the terms and conditions of the normal form of benefit payable to them under Section 5.8, the financial effect of the other forms of benefit available to them under the Plan and the relative value of the other forms of benefit compared to the normal form of benefit. The explanation shall also describe the Participant's right to waive the normal form of benefit and the effect of such waiver, the rights of the Participant's spouse, the right to revoke a previous waiver of the normal form of benefit, the effect of such a revocation and, if the Participant has not reached their Normal Retirement Date, the consequences of failing to defer payment until a later payment date. Finally, the explanation shall advise the Participant that their benefit shall be paid in such normal form, unless within 180 days (90 days for plan years beginning prior to January 1, 2007) before their Annuity Starting Date, they notify the Administration Committee of an election to receive a different form of benefit, and, if they are married:

(i) their spouse consents to their election in writing,

(ii) such election designates a Contingent Annuitant(s) other than their spouse (or form of benefit) that may not be changed without spousal consent, or the spouse's consent acknowledges the spouse's right to limit consent to a specific Contingent Annuitant(s) (or form of benefit), and expressly and voluntarily permits designations by the Participant without any requirement of further consent by the spouse; and

(iii) the spouse's consent acknowledges the effect of such election and is witnessed by a notary public.

(iv) Spouse shall mean effective June 26, 2013, the individual to whom a Participant is married, including a marriage of same-sex spouses that was validly entered into in a domestic or foreign jurisdiction whose laws authorize the marriage of two individuals of the same sex even if the married couple resides in a domestic or foreign jurisdiction that does not recognize the validity of same-sex marriages. Marriage does not include registered domestic partnerships, civil unions, or other similar formal relationships recognized under state law that are not denominated as a marriage under that state's law, and the term "Spouse" does not include individuals who have entered into such a formal relationship. Spouse means the spouse of a Participant on the date

benefits under the Plan commence, however, if the Participant should die prior to the date benefits under the Plan would have commenced to them, then the spouse will be the spouse to whom the Participant was married on the date of death. To the extent provided, under a qualified domestic relations order, the "Spouse" means a former Spouse of the Participant.

(b) Election Period; Extension of Election Period. A Participant's election period under this Section 6.2 shall be the 180-day period (90-day period for plan years beginning prior to January 1, 2007) ending on their Annuity Starting Date. If, by not later than the day before their Annuity Starting Date, the Participant notifies the Administration Committee of an election not to receive the normal form of benefit payable to them under Section 5.8, and their spouse (if any) has consented to such election, their benefit shall be paid in the alternate form selected by the Participant.

However, if by not later than the day before their Annuity Starting Date, the Participant requests the Administration Committee to furnish them with additional information relating to the effect of the normal form of benefit payable to them under the Plan, the election period under this Section 6.2 shall be extended and their Annuity Starting Date shall be postponed to a date not later than 180 days (90 days for plan years beginning prior to January 1, 2007) following the date the Administration Committee furnishes them with the additional information.

(c) Change of Election - Optional Form of Benefit. Any Participant electing an optional form of benefit under Section 6.3 or Section 6.4 may revoke such election and file a new election with the Administration Committee at any time prior to the Participant's Annuity Starting Date. Upon the Participant's Annuity Starting Date, their election shall become irrevocable.

(d) Notice and Election Procedures for Qualified Preretirement Survivor Annuity. Within the one-year period beginning on the date an Employee becomes a Participant, the Administration Committee shall provide the Participant with a written explanation of the spouse's preretirement death benefit. The written explanation shall notify the Participant that if they are married and they die before their Annuity Starting Date, their spouse shall receive the spouse's preretirement death benefit determined under Section 6.1(b).

Section 6.3 Monthly Income for Life Election. A Participant who is married on their Annuity Starting Date may, with their spouse's written and notarized consent, elect to have their normal or late retirement income under Section 5.2, their early retirement income under Section 5.4, or their disability retirement income under Section 5.5, in each case as limited by Section 5.6 and 5.7, paid in the form described in Section 5.8(a).

Section 6.4 Survivor and Lump Sum Benefits Available by Election.

(a) Participants whose benefits are not subject to an automatic surviving spouse benefit under Section 6.1 or who, with their spouse's written and notarized consent as described in Section 6.2, elect not to accept an automatic surviving spouse benefit may elect to provide benefits for their Contingent Annuitants as described below, or effective January 1, 2019, elect payment of benefits in the form of a lump sum payment if they meet the conditions set forth in subsection (h) below.

(b) Upon written notice executed by a Participant and filed with their Employer at least 60 days prior to their actual retirement date, a Participant may, subject to the limitations of this Section 6.4, designate any individual as their Contingent Annuitant and at the same time elect:

(i) a reduced benefit for life with the continuation of (A) 50%, (B) 75% (effective for Annuity Starting Dates after June 30, 2008), (C) 66-2/3%, or (D) 100% of such reduced benefit to their surviving Contingent Annuitant for the life of such Contingent Annuitant; or

(ii) a reduced benefit for life with the continuation of 100% of such reduced benefit to their Contingent Annuitant only to the extent required for the total number of monthly payments to the Participant and their Contingent Annuitant to equal either (A) 60, (B) 120, or (C) 180.

(c) In the event of such a designation and election, the reduced retirement income payments will be paid to the Participant, commencing on their Normal, Late, Early or Disability Retirement Date. The first payment, if any, to the Contingent Annuitant shall be made on the first day of the calendar month coincident with or following the death of the Participant, or as soon as administratively possible following the death of the Participant, provided payment is made retroactively to the first day of the month following the Participant's death. Payments to the Participant shall terminate with the last payment payable preceding their death.

(d) Any such election shall become effective upon the Participant's retirement unless otherwise provided by the Participant. The amount of the Participant's reduced retirement benefit shall be determined by multiplying their normal, late, early or disability retirement income by a percentage set forth in Table 2, 3, 4, or 4(a), as appropriate, depending upon their age and the age of their Contingent Annuitant as of the Participant's actual retirement date.

(e) If a Contingent Annuitant dies within two years of the date payments to the Participant begin under this Section 6.4, other than payments in a form described in Section 6.4(b)(ii), monthly retirement income payments to the Participant will be adjusted beginning with the first payment following the death of such Contingent Annuitant, to be equal to the monthly amount that would have been paid to the Participant if the Participant's benefit had been determined solely under Section 5.8(a). No such adjustment will be made to the benefit of a Participant whose benefit is being paid in a form described in Section 6.4(b)(ii).

(f) If a Participant's Contingent Annuitant is anyone other than their spouse, the present value of the payments to be made to the Participant as of the date such payments are to commence, computed by using the same mortality and interest assumptions as are used for purposes of Tables 2, 3, 4, and 4(a) must be more than 50% of the present value, as of such date and similarly computed, of all payments to be made to the Participant and their Contingent Annuitant. Any election of a Contingent Annuitant made in violation of this provision shall be void.

(g) In the event of the death of the Participant's Contingent Annuitant prior to the Participant's actual retirement date, the election of a Contingent Annuitant under Section 6.4 shall be inoperative.

(h) Effective January 1, 2019, a Participant whose Annuity Starting Date occurs on or after January 1, 2019, and who retires from employment with the Employer on or after December 31, 2018, may elect to receive their vested Accrued Benefit in a single sum payment which shall be an amount equal to the Actuarial Equivalent present value of the Participant's vested Accrued Benefit which would otherwise be payable at the Participant's Normal Retirement Date, excluding the value of any early retirement subsidy.

Section 6.5 Death Benefits for Unmarried Participants. An unmarried Participant who is actively employed on or after January 1, 2006 and who has completed at least five Years of Service may designate a Contingent Annuitant. The benefit to be provided to that Contingent Annuitant shall be as specified in (a) through (c) below:

(a) For Active and Terminated Vested Participants: Death Prior to Early Retirement Eligibility and Prior to Completing Ten Years of Service. In the event of an unmarried Participant's death after they have completed five Years of Service, but before they have become eligible for Early Retirement, whether such Participant is then actively employed or not, such Participant's Contingent Annuitant shall be entitled to a benefit, payable, if such Contingent Annuitant is then surviving, on the first day of the month coincident with or next following the later of (i) the date of the Participant's death or (ii) the date the Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving Contingent Annuitant would have received had such Participant terminated their service, survived to age 55, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their Contingent Annuitant's then attained ages, and then died.

(b) For Active Participants: Death Prior to Early Retirement Eligibility but After Ten Years of Service. In the event of an unmarried Participant's death while actively employed, after they have completed ten Years of Service but prior to becoming eligible for Early Retirement, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before their death and elected to receive the 100% contingent annuity form of benefit. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant, except that for purposes of applying Table 4, the Participant's attained age, if less than age 55, shall be considered to be age 55 and their Contingent Annuitant's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(c) Death After Becoming Eligible for Early Retirement.

(i) Actively Employed Participants. In the event of an unmarried Participant's death, while actively employed and after becoming eligible for Early Retirement including after the Participant's Normal Retirement Date, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant

would have been entitled had the Participant retired on the day before death and elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant.

(ii) Terminated Participants. In the event of an unmarried Participant's death after their employment with the Employer has terminated and after becoming eligible for Early Retirement including after the Participant's Normal Retirement Date, such Participant's Contingent Annuitant shall be entitled to receive the same monthly benefit to which the Participant would have been entitled had the Participant retired on the day before death and elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their Contingent Annuitant.

(d) Any benefit payable under this Section 6.5 shall terminate on the surviving Contingent Annuitant's death.

Section 6.6 Required Distributions - Code Section 401(a)(9). Distributions under this Section 6.6 shall be made in accordance with section 401(a)(9) of the Code and the regulations thereunder, as generally described in this Section 6.6. The provisions of this Section 6.6 shall supersede any distribution option otherwise provided in the Plan to the extent that it is inconsistent with section 401(a)(9) of the Code, but shall not create or increase any benefit. Notwithstanding anything in the Plan to the contrary, the form and the timing of all distributions under the Plan shall be in accordance with regulations issued by the Department of the Treasury under section 401(a)(9) of the Code, including the incidental death benefit requirements of section 401(a)(9)(G) of the Code. The Plan shall apply the minimum distribution requirements of section 401(a)(9) of the Code in accordance with the final regulations under section 401(a)(9) that were published on April 17, 2002 and June 15, 2004, as set forth in Treas. Reg. § 1.401(a)(9)-2 through 1.401(a)(9)-9. The provisions of this Section 6.6 shall override any provisions of the Plan to the contrary.

(a) Time and Manner of Distribution.

(i) Required Beginning Date. The Participant's entire interest shall be distributed, or begin to be distributed, to the Participant no later than the Participant's Required Beginning Date.

(ii) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin and the Participant's beneficiary is entitled to receive a death benefit, the Participant's entire interest shall be distributed, or begin to be distributed, no later than as follows:

(A) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary, then distributions to the surviving spouse shall begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have reached age 70½, if later.

(B) If the Participant's surviving spouse is not the Participant's sole Designated Beneficiary, then distributions to the Designated Beneficiary shall begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(C) If there is no Designated Beneficiary as of September 30 of the year following the year of the Participant's death and benefits are payable in the form of a life and certain annuity under Section 6.4(b), the Participant's entire interest shall be distributed to the Participant's estate by the December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(D) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse begin, this Section 6.6(a)(ii), other than Section 6.6(a)(ii)(A), shall apply as if the surviving spouse were the Participant.

For purposes of this Section 6.6(a)(ii) and Section 6.6(d), distributions are considered to begin on the Participant's Required Beginning Date (or, if Section 6.6(a)(ii)(D) applies, the date distributions are required to begin to the surviving spouse under Section 6.6(a)(ii)(A)). If annuity payments irrevocably commence to the Participant before the Participant's Required Beginning Date (or to the Participant's surviving spouse before the date distributions are required to begin to the surviving spouse under Section 6.6(a)(ii)(B)), the date distributions are considered to begin is the date distributions actually commence.

(iii) Form of Distribution. Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Required Beginning Date, as of the first Distribution Calendar Year distributions shall be made in accordance with Section 6.6(b), (c) and (d). If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder shall be made in accordance with the requirements of section 401(a)(9) of the Code and the regulations thereunder.

(b) Determination of Amount to be Distributed Each Year.

(i) General Annuity Requirements. If the Participant's interest is paid in the form of annuity distributions under the Plan, payments under the annuity shall satisfy the following requirements:

(A) the annuity distributions shall be paid in periodic payments made at intervals not longer than one year;

(B) the distribution period shall be over a life (or lives) or over a period certain not longer than the period described in Section 6.6(c) and (d);

(C) once payments have begun over a period certain, the period certain shall not be changed even if the period certain is shorter than the maximum permitted;

(D) payments shall either be non-increasing or increase only as follows:

(1) by an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the United States Bureau of Labor Statistics;

(2) to the extent of the reduction in the amount of the Participant's payments to provide for a survivor benefit upon death, but only if the beneficiary whose life was being used to determine the distribution period described in Section 6.6(c) dies or is no longer the Participant's beneficiary pursuant to a qualified domestic relations order within the meaning of section 414(p) of the Code;

(3) to provide cash refunds of employee contributions upon the Participant's death; or

(4) to pay increased benefits that result from a Plan amendment.

(ii) Amount Required to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Participant's Required Beginning Date (or, if the Participant dies before distributions begin, the date distributions are required to begin under Section 6.6(b)(i)) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, e.g., bi-monthly, monthly, semi-annually, or annually. All of the Participant's benefit accruals as of the last day of the first Distribution Calendar Year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Participant's Required Beginning Date.

(iii) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Participant in a calendar year after the first Distribution Calendar Year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues.

(c) Requirements for Annuity Distributions that Commence During Participant's Lifetime.

(i) Joint Life Annuities Where the Beneficiary is Not the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and a non-spouse beneficiary, annuity payments to be made on or after the Participant's Required Beginning Date to the Designated Beneficiary after the Participant's death must not at any time exceed the applicable percentage of the annuity payment for such period that would have been payable to the Participant using the table set forth in Q&A-2 of Treas. Reg. § 1.401(a)(9)-6. If the Annuity Starting Date precedes the year in which the Participant reaches age 70, the age difference to be used in determining the applicable percentage

referred to in the preceding sentence is reduced by the number of years that the Participant is younger than age 70 on their birthday in the calendar year that contains the Annuity Starting Date. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and a non-spouse beneficiary and a period certain annuity, the requirement in the preceding two sentences shall apply to annuity payments to be made to the Designated Beneficiary after the expiration of the period certain.

(ii) Period Certain Annuities. Unless the Participant's spouse is the sole Designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Participant's lifetime may not exceed the applicable distribution period for the Participant under the Uniform Lifetime Table set forth in Treas. Reg. § 1.401(a)(9)-9 for the calendar year that contains the Annuity Starting Date. If the Annuity Starting Date precedes the year in which the Participant reaches age 70, the applicable distribution period for the Participant is the distribution period for age 70 under the Uniform Lifetime Table set forth in Treas. Reg. § 1.401(a)(9)-9 plus the excess of 70 over the age of the Participant as of the Participant's birthday in the year that contains the Annuity Starting Date. If the Participant's spouse is the Participant's sole Designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Participant's applicable distribution period, as determined under this Section 6.6(c)(ii), or the joint life and last survivor expectancy of the Participant and the Participant's spouse as determined under the Joint and Last Survivor Table set forth in Treas. Reg. § 1.401(a)(9)-9, using the Participant's and spouse's attained ages as of the Participant's and spouse's birthdays in the calendar year that contains the Annuity Starting Date.

(d) Requirements For Minimum Distributions Where Participant Dies Before Date Distributions Begin.

(i) Participant Survived by Designated Beneficiary. If the Participant dies before the date distribution of their interest begins and there is a Designated Beneficiary entitled to a death benefit under the Plan, the Participant's entire interest will be distributed, beginning no later than the time described in Section 6.6(a)(ii)(A) or (B) over the life of the Designated Beneficiary or over a period certain not exceeding:

(A) unless the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the Designated Beneficiary's age as of the Designated Beneficiary's birthday in the calendar year immediately following the calendar year of the Participant's death; or

(B) if the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the Designated Beneficiary's age as of the Designated Beneficiary's birthday in the calendar year that contains the Annuity Starting Date.

(ii) No Designated Beneficiary. If the Participant dies before the date the distribution of their interest begins, the Participant's surviving spouse is the Participant's sole Designated Beneficiary, and the surviving spouse dies before distributions to the surviving spouse begin, this Section 6.6(d) will apply as if the surviving spouse were the Participant, except that the time by which distributions must begin will be determined without regard to Section 6.6(a)(ii)(A).

(e) Definitions.

(i) Designated Beneficiary. The individual who is designated as the Contingent Annuitant under Section 2.1(i) of the Plan and is the designated beneficiary under section 401(a)(9) of the Code and section 1.401(a)(9)-1, Q&A-4 of the Treasury regulations.

(ii) Distribution Calendar Year. A calendar year for which a minimum distribution is required. The first Distribution Calendar Year is the calendar year immediately preceding the calendar year that contains the Participant's Required Beginning Date.

(iii) Life Expectancy. Life expectancy as computed by use of the Single Life Table in Treas. Reg. § 1.401(a)(9)-9.

(iv) Required Beginning Date. April 1 of the calendar year following the year in which a Participant reaches age 70½ (age 72 for distributions required to be made after December 31, 2019 with respect to a Participant who attains age 70-½ after such date). The monthly pension of a Participant whose Required Beginning Date is April 1 of the calendar year in which they incur a separation from service shall include an Actuarial Equivalent adjustment to reflect the commencement of payments after April 1 following the calendar year in which they attained age 70-½. The Actuarial Equivalent adjustment described in the preceding sentence for any year shall reduce (but not below zero) any increase in the Participant's Accrued Benefit for the year attributable to additional Years of Service for benefit accrual and Final Average Earnings.

Section 6.7 Distributions Pursuant to a Qualified Domestic Relations Order. Any benefit payable to an alternate payee pursuant to a qualified domestic relations order ("QDRO"), as those terms are defined in section 414(p) of the Code, shall be paid in accordance with the terms of the QDRO. If permitted under the terms of the QDRO, an alternate payee may elect payment of benefits pursuant to a QDRO in the form of an Actuarially Equivalent lump sum distribution; provided, however that the alternate payee must exercise this election within the 90-day period following the notice to the alternate payee that the domestic relations order issued is a QDRO. Notwithstanding the foregoing, an alternate payee may not elect a lump sum form of distribution if payment of the Participant's benefit has commenced prior to the alternate payee's benefit election.

Section 6.8 Limited Lump Sum Election.

(a) Eligibility. A Participant who has terminated employment with a vested Accrued Benefit, who is entitled to benefits as of June 30, 2014, may elect to receive their benefit in a single lump sum payment, if the Participant satisfies the following criteria:

(i) the Participant has neither been reemployed by the Employer nor commenced benefits under the Plan prior to the date of distribution is made under this Section;

(ii) the Participant's benefit is not subject to payment pursuant to Section 6.6 as a required minimum distribution or Section 6.7 according to a QDRO; and

(iii) the Participant effectively returns a properly completed application for distribution under this Section, in such form and manner as required by the Administration Committee, during the period that begins September 10, 2014 and ends October 24, 2014, or such other dates established by the Administration Committee to provide an election period of no fewer than 30 days and applied in a uniform and nondiscriminatory manner.

(b) Distribution to Beneficiary. If a Participant described in subsection (a) is deceased, and if such Participant's surviving spouse or Contingent Annuitant is entitled to a future benefit under the Plan that has not yet commenced under the Plan prior to the date of distribution under this Section, such surviving spouse or Contingent Annuitant may elect to receive a distribution in the form of a single lump sum payment, if the surviving spouse or Contingent Annuitant effectively returns a properly completed application for distribution under this Section no later than October 24, 2014, in such form and manner as required by the Administration Committee.

(c) Amount. The amount of the single lump sum payment under this Section shall be an amount equal to the Actuarial Equivalent present value of the Participant's vested Accrued Benefit which would otherwise be payable at the Participant's Normal Retirement Date, as of November 1, 2014, including the value of any early retirement subsidy if the Participant is eligible for an Early Retirement Date.

(d) Early Commencement of Benefits and Additional Forms of Distribution for Certain Participants.

(i) A Participant who satisfies the requirements of subsection (a) who is not yet eligible for a Normal Retirement Date or an Early Retirement Date shall be eligible for a single lump sum payment under this Section.

(ii) A Participant described in subsection (d)(i) shall also be eligible for the normal form of payment under Section 5.8, which for a married Participant shall be an annuity providing a reduced benefit for life with the continuation of either 50% or 75%, as elected, of such reduced benefit to their surviving spouse. The Actuarial Equivalent of such Accrued Benefit shall be reduced in accordance with the factors set forth in Section 5.4 assuming the Participant would have otherwise begun to receive their benefit upon attainment of age 55 or current age, if older, then further reduced using the "applicable mortality table" under section 417(e)(3) of the Code and the "applicable interest rate" under section 417(e)(3) of the Code for the third calendar month preceding the calendar year during which the Annuity Starting Date occurs to the extent their Annuity Starting Date precedes their Early Retirement Date.

(e) Spousal Consent. Notwithstanding anything in this Section to the contrary, any election under this Section by a married Participant of any form of distribution, other than the normal form of benefit payable to them under Section 5.8, shall be subject to the spousal consent and notification requirements described in Section 6.2.

(f) Time of Distribution. Any single lump sum distributions elected under this Section must commence on November 1, 2014 or as soon as administratively feasible thereafter to cause all single lump sum distributions under this Section to occur during 2014.

(g) Closure of Limited Election Period. Notwithstanding anything to the contrary, nothing under this Section shall provide any Participant, spouse, surviving spouse or Contingent Annuitant the right to distribution in the form of a single lump sum payment that does not, for any reason whatsoever, satisfy all of the terms and conditions set forth in this Section.

ARTICLE VII.
BENEFIT PAYMENTS

Section 7.1 Purchase of Annuities. All retirement income will be provided either through (i) the purchase of annuities from, or other contractual arrangements with, an Insurance Company; or (ii) by direct payment from the Trust, as determined from time to time by the Administration Committee.

(a) In the event that a Participant, their surviving spouse, or their Contingent Annuitant is entitled to a retirement income of less than $10 monthly, that retirement income may be paid quarterly, semi-annually, or annually, in amounts equal to 3, 6 or 12 times the monthly payment otherwise payable, respectively.

(b) Notwithstanding anything herein to the contrary, if the Actuarial Equivalent lump sum present value of a Participant's vested retirement income is $5,000 or less on the date their distribution commences, such amount shall be paid to the Participant in a single cash lump sum without the Participant's consent as soon as administratively feasible in accordance with the following:

(i) If the Actuarial Equivalent present value of a Participant's vested retirement income is $1,000 or less and the Participant does not elect to have such distribution paid directly to an "eligible retirement plan" in accordance with Section 7.2 of the Plan, the Participant's retirement income shall be paid directly to the Participant in a cash lump sum.

(ii) If the Actuarial Equivalent present value of a Participant's vested retirement income is more than $1,000 but does not exceed $5,000 and the Participant does not affirmatively elect to have such distribution paid directly to them or to an "eligible retirement plan" in accordance with Section 7.2 of the Plan, the Participant's retirement income shall be paid directly to an individual retirement account or annuity (an "IRA") established for the Participant pursuant to a written agreement between the

Administration Committee and the provider of the IRA that meets the requirements of section 401(a)(31) of the Code and the regulations thereunder. The Administration Committee shall establish and maintain procedures to inform each Participant to whom this Section 7.1(b)(ii) applies of the nature and operation of the IRA and the Participant's investments therein, the fees and expenses associated with the operation of the IRA, and the terms of the written agreement establishing such IRA on behalf of the Participant.

Section 7.2 Direct Rollovers.

(a) Eligibility. If one or more distributions from the Plan constitutes an "eligible rollover distribution" within the meaning of sections 402(c)(2) and (4) of the Code, a distributee may elect to have all or a portion (but not less than $500) of the distribution paid directly to an "eligible retirement plan." As used herein, "eligible retirement plan" means an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, an annuity contract described in section 403(b) of the Code, or a qualified trust described in section 401(a) of the Code that accepts the distributee's eligible rollover distribution. An eligible retirement plan also includes an eligible plan under section 457(b) of the Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and that agrees to account separately for amounts transferred into such plan from this Plan. For any portion of an eligible rollover distribution consisting of after-tax contributions that are not includable in gross income, an eligible retirement plan must agree to separately account for such portion. With respect to a distributee who is a non-spouse beneficiary, "eligible retirement plan" means an individual retirement account or annuity described in section 408(a) or 408(b) of the Code that is established on behalf of the designated beneficiary and that will be treated as an inherited individual retirement annuity pursuant to the provisions of section 402(c)(11) of the Code. Effective for distributions made on or after January 1, 2008, a "qualified rollover contribution" as described in section 408A(e) of the Code may be made from the Plan to a Roth IRA in a direct rollover subject to the rules and provisions set forth in section 408A(e) of the Code and any regulations issued thereunder. The recipient may not elect to have portions of an eligible rollover distribution paid directly to more than one eligible retirement plan. In addition, the recipient will not be permitted to elect a direct rollover with respect to eligible rollover distributions that are reasonably expected to total less than $200 during the year.

(b) Procedures. The Administration Committee shall make such payment upon receipt from the recipient of the name of the eligible retirement plan to which such payment is to be made, a representation that the receiving plan is an "eligible retirement plan" as defined above, and such other information and/or documentation as the Administration Committee may reasonably require to make such payment.

(c) Failure to Elect. Except as otherwise provided under Section 7.1(b)(ii), if the recipient fails to elect whether or not a distribution is to be paid in a direct rollover, the recipient will be deemed to have elected not to have any portion of the distribution paid in a direct rollover.

(d) Application. For purposes of this Section 7.2, "distributee" means a Participant or former Participant. In addition, the Participant's or former Participant's surviving spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse. For distributions after June 30, 2008, the term distributee also shall include a beneficiary who is not the spouse or former spouse of the Participant or former Participant.

ARTICLE VIII.
VESTED BENEFITS IN THE EVENT OF TERMINATION OF EMPLOYMENT

Section 8.1 Vesting. A Participant whose employment is terminated for any reason other than death or retirement, and who has completed five or more Years of Service at the date of their termination of employment shall be entitled to receive a monthly retirement income beginning on their Normal Retirement Date equal to their normal retirement income under the Plan as in effect as of the date of their termination of employment, based on their full and partial Years of Service at such date of termination of employment. However, if they make written application to their Employer at least two months in advance, such a Participant shall be entitled to receive their benefit, reduced as provided in Section 5.4, beginning with the first day of any calendar month following the month in which the sum of the years of their attained age and their completed Years of Service is at least 70, provided they have then attained at least age 55. Notwithstanding the foregoing, a Participant shall automatically become 100% vested on the date they reach age 65.

Section 8.2 Payment of Vested Termination Benefit.

(a) Forms of Payment. A Participant entitled to benefits under Section 8.1, shall, for purposes of Section 6.1(a) and Section 6.3, be treated as though the date on which their benefits under Section 8.1 are to begin were their actual retirement date. Such a Participant may elect any of the elective survivor benefits provided by Section 6.4.

(b) Termination Benefit For Certain Union Employees. A union Participant hired on or after January 1, 2001 but before January 1, 2006 who terminates employment with a vested Accrued Benefit on or after January 1, 2006, may elect to receive their benefit at any time in one of the following payment forms:

(i) a single lump sum payment in an amount equal to the Actuarial Equivalent present value of the Participant's vested Accrued Benefit which would otherwise be payable at the Participant's Normal Retirement Date, however, if the Participant is eligible for an Early Retirement Date at the time they terminate employment, the lump sum payment will reflect the value of the early retirement subsidy; or

(ii) a single life annuity which shall be the Actuarial Equivalent value of the single lump sum described in (i) above.

Notwithstanding the foregoing, if payment to the Participant occurred later than the close of the second Plan Year following the Plan Year in which such termination of employment occurred and such Participant is reemployed by the Employer, the Participant's Accrued Benefit shall be

restored upon reemployment without the requirement that they make restoration contributions, provided, however their subsequent Accrued Benefit, if any, payable upon their subsequent termination of employment shall be offset by the Accrued Benefit attributable to the prior distribution.

Section 8.3 Failure to Vest. A Participant whose employment is terminated for any reason other than death or retirement and who has not completed at least five Years of Service at the time of their termination of employment for any reason other than death or retirement shall not be entitled to any benefits under the Plan. Amounts forfeited under this provision shall be applied to reduce the obligation of the Company and its Designated Subsidiaries to contribute under the Plan.

ARTICLE IX.
RE-EMPLOYMENT AND BREAKS-IN-SERVICE

Section 9.1 Re-employment before July 1, 1976. If a Participant who terminated employment with the Employer is re-employed before July 1, 1976, they shall be considered a new Employee for purposes of this Plan. In determining the amount of their retirement income as a new Employee, however, if the Participant has vested retirement income benefits under Section 8.1 due to prior service, their benefit shall be computed under Section 5.2 as if their service was continuous. The benefit payable to such Participant as a new Employee shall be the excess of the benefit so computed over the benefit payable on account of that prior service, without regard to any actuarial reductions to which that prior service benefit may have been subject.

Section 9.2 Re-employment after June 30, 1976 and before July 1, 1985. If a Participant terminates employment with the Employer and is re-employed after June 30, 1976 and before July 1, 1985, all of their Years of Service shall be recognized for all purposes of the Plan unless, at the time of their return to employment, the period of their absence was at least a one-year Break-in-Service, in which event:

(a) Years of Service occurring before the Break-in-Service shall not thereafter be recognized for any purpose of the Plan unless, immediately following the Break-in-Service, they completed one Year of Service; and,

(b) if, before the Break-in-Service, the Participant had no vested retirement income benefit under Section 8.1, Years of Service before the Break-in-Service shall not thereafter be recognized for any purpose of the Plan unless the number of Years of Service before the Break-in-Service exceeds the number of consecutive years of Break-in-Service.

Section 9.3 Re-employment after June 30, 1985. If a Participant terminates employment with the Employer and is re-employed after June 30, 1985, all of their Years of Service shall be recognized for all purposes of the Plan unless, at the time of their return to employment, the period of their absence was at least five consecutive Breaks-in-Service, in which event:

(a) Years of Service occurring before those Breaks-in-Service shall not thereafter be recognized for any purpose of the Plan unless, immediately following those Breaks-in-Service, they have completed one Year of Service; and,

(b) if, before those Breaks-in-Service, the Participant had no vested retirement income benefit under Section 8.1, Years of Service before those Breaks-in-Service shall not thereafter be recognized for any purpose of the Plan unless the number of Years of Service before those Breaks-in-Service exceeds the greater of five or the number of consecutive Breaks-in-Service.

Section 9.4 General. Anything herein to the contrary notwithstanding, a Break-in-Service shall not reduce any Participant's vested retirement income benefit, determined immediately before the Break-in-Service, nor shall Section 9.2 or Section 9.3 be interpreted to restore credit for Years of Service disregarded by reason of some earlier Break(s)-in-Service.

Section 9.5 Reinstatement of Years of Service for Benefit Accrual. A Participant's Years of Service for benefit accrual attributable to a prior cash-out or lump sum payment equal to the Actuarial Equivalent present value of a Participant's Accrued Benefit, shall be restored upon reemployment of the Participant if payment was made to the Participant later than the last day of the second Plan Year following the Participant's termination from employment with the Employer. Upon subsequent termination, the Accrued Benefit payable to the Participant shall be offset by the value of the previous lump sum distribution.

ARTICLE X.
VETERANS' RE-EMPLOYMENT RIGHTS

Section 10.1 Qualified Military Service. Notwithstanding any provision of the Plan to the contrary, contributions, benefits and service credit with respect to Qualified Military Service will be provided in accordance with section 414(u) of the Code as summarized below:

(a) Crediting Service.

(i) An Employee re-employed by the Employer in accordance with Chapter 43 of Title 38 of the United States Code shall be treated as not having incurred a Break-in-Service with the Employer by reason of such Employee's period of Qualified Military Service.

(ii) Upon re-employment by the Employer in accordance with Chapter 43 of Title 38 of the United States Code, an Employee's period of Qualified Military Service shall be deemed service with the Employer for purposes of determining the vested percentage of the Employee's account.

(b) Earnings. An Employee who is in Qualified Military Service shall be treated as receiving Earnings from the Employer during such period of Qualified Military Service equal to:

(i) the Earnings the Employee would have received during such period if the Employee were not in Qualified Military Service, determined based on the rate of pay the Employee would have received from the Employer but for absence during the period of Qualified Military Service; or

(ii) if the Earnings the Employee would have received during such period was not reasonably certain, the Employee's average Earnings from the Employer during the 12-month period immediately preceding the Qualified Military Service (or, if shorter, the period of employment immediately preceding the Qualified Military Service).

Section 10.2 Death While In Qualified Military Service. Effective for deaths occurring on or after January 1, 2007, to the extent required by section 401(a)(37) of the Code and regulations or other guidance issued thereunder, the survivors of a Participant who dies while performing qualified military service (as defined in section 414(u) of the Code) shall be eligible for any additional benefits (other than benefit accruals relating to the period of qualified military service) that would have been provided under the Plan if the Participant had resumed employment and immediately thereafter terminated employment due to death.

ARTICLE XI.
PLAN ADMINISTRATION

Section 11.1 Administration Committee. The Plan shall be administered by the Administration Committee, which shall be a "named fiduciary" of the Plan and the Plan's "administrator," as those terms are defined by ERISA, and its agent designated to receive service of process. All matters relating to the administration of the Plan, including the duties imposed upon the Plan administrator by law, except those duties relating to the control or management of Plan assets, shall be the responsibility of the Administration Committee. No member of the Administration Committee shall act on any matter in which they alone are personally interested under the Plan. Except as may otherwise be provided by the Plan, the Administration Committee shall have all powers necessary or appropriate to administer and manage the Plan (except those authorities relating to the control or management of Plan assets) including, but not by way of limitation, the following:

(a) To interpret the provisions of the Plan and to decide any dispute that may arise regarding the rights of Participants thereunder. Any such determinations shall apply uniformly to all persons similarly situated and shall be binding and conclusive upon all interested persons.

(b) To determine all questions affecting the eligibility of any Employee to participate in the Plan, including, without limitation, to determine whether any individual performing services as an independent contractor is an Employee eligible to participate in the Plan and, if so, for what period.

(c) To compute the amount of benefits payable hereunder to any Participant.

(d) To authorize the application of funds to provide the retirement income benefits of Participants, surviving spouses and Contingent Annuitants.

(e) To appoint an actuary who shall make all actuarial computations required in the administration of the Plan, including those necessary to enable the Company and its Designated subsidiaries to comply with the provisions of Section 12.1.

(f) To employ such accountants, attorneys, consultants and other advisors as may be necessary or appropriate to the administration of the Plan and to delegate authority to such one or more members of the Administration Committee or such other Employee of an appropriate Employer as the Administration Committee shall determine.

(g) To prescribe from time to time, with the advice of an actuary, such actuarial assumptions as are necessary for the operation of the Plan. The factors and assumptions embodied in Tables 1 through 5 may be changed only by Plan amendment pursuant to Section 16.1(a).

(h) To authorize an amendment to the Plan extending the Plan to a group or groups of acquired employees in accordance with the terms and conditions set forth in any acquisition agreement previously approved by the Board of Directors, provided that no service shall be credited for benefit accrual purposes prior to the date on which the Plan is extended by the Company to the group or groups of acquired employees, except as specifically provided in the agreement approved by the Board of Directors.

Section 11.2 Investment Committee. All matters relating to the control and management of Plan assets shall, except to the extent delegated, be the responsibility of the Investment Committee. By way of example and not limitation, the Investment Committee shall perform the duties or assume the responsibilities listed below with respect to the Plan: (a) have the authority to select, appoint, retain or terminate service providers (e.g., trustees, custodians, investment managers and advisors, consultants); (b) enter into contracts or agreements with service providers; (c) establish formal criteria to select and monitor the performance of service providers; and (d) establish investment policies with respect to the funds supporting the Plan.

Section 11.3 Delegation and Allocation of Responsibility. Each of the Administration Committee and the Investment Committee may delegate their respective responsibilities to any individual and may allocate any of its responsibilities to one or more members of the Administration Committee or Investment Committee, as applicable. Persons to whom responsibilities have been delegated may not delegate to others any discretionary authority or discretionary control with respect to the management or administration of the Plan.

Section 11.4 Indemnification. The Company and Designated Subsidiaries shall, to the full extent permitted by law, indemnify and hold harmless each member of the Administration Committee and Investment Committee and each other director, officer or employee of the Company or of a Designated Subsidiary acting as a "fiduciary" of the Plan, as defined in section 3(21) of ERISA or any corresponding provisions of successor laws, against any liability or loss, including, without limitation, attorneys' fees and other expenses, excise taxes, judgments, fines and amounts paid in settlement, reasonably incurred by such "fiduciary" in connection with any claim (or actions or proceedings in respect thereof) arising out of or based upon an alleged breach of fiduciary duty, provided that they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, the best interests of the Plan and, with respect to any criminal proceeding, had no reasonable cause to believe their conduct was unlawful, and further

provided that the "fiduciary" shall have taken the steps required under any applicable insurance policy to preserve the coverage afforded by such insurance with respect to such liability or loss. If any action is brought against a "fiduciary" in respect of which indemnity may be sought against the Company or a Designated Subsidiary, they shall promptly notify the Company in writing of the institution of such action, and the Company shall assume the defense of such action, including the employment of counsel and payment of expenses, to the extent that the same is not assumed by the insurance company. The "fiduciary" shall bear the fees and expenses of any additional counsel retained by them.

Section 11.5 Claims Procedure. The Administration Committee shall administer a claims procedure as follows:

(a) Initial Claim. A Participant, surviving spouse or Contingent Annuitant (a "Claimant"), or the Claimant's authorized representative, who believes themselves entitled to benefits under the Plan and who does not begin to receive those benefits within 120 days after the claimed benefit date may claim those benefits by submitting to their Employer within 90 days after the expiration of that 120-day period, a written notification of their claim of right to such benefits. A claim for benefits must be made in accordance with the procedures established by the Administration Committee. Except for benefits paid pursuant to the small benefit cash out provisions of Section 7.1, no benefit shall be paid under the Plan until a proper claim for benefits has been submitted to the Administration Committee. The Participant's Employer shall forward that claim to the Administration Committee within five business days after it is filed.

(b) Procedure for Review. The Administration Committee shall establish administrative processes and safeguards designed to ensure and to verify that benefit claim determinations are made in accordance with the Plan document and that, where appropriate, the Plan provisions have been applied consistently with respect to similarly situated claimants.

(c) Claim Denial Procedure. In the event that the initial claim is wholly or partially denied, the Administration Committee shall, within 90 days (or in special cases, and upon prior written notice to the claimant, 180 days) of the receipt of the claim, provide written notice informing the Claimant of: (i) the reason or reasons for the denial, (ii) the specific reference to the Plan provisions on which the denial was based, (iii) any additional information which may be necessary to perfect the claim, with reasons therefor, and (iv) the procedure for reviewing the denial of the claim, including a description of the time limits applicable to the Plan's review procedures and a statement of the Claimant's right to bring a legal action following an adverse benefit determination on review.

(d) Appeal Procedure. In the case of an adverse benefit determination, the Claimant or their representative shall have the opportunity to appeal to the Administration Committee for review provided the Claimant submits a proper written application for appeal within 90 days of receipt of the notification of the adverse benefit determination. Failure to submit a proper application for appeal within such 90-day period will cause such

claim to be permanently denied. The Claimant shall have a right to: (i) review all pertinent documents and submit comments in writing, and (ii) receive, upon request and free of charge, reasonable access to, and copies of, all documents, records and other information relevant to the claim for benefits. The Administration Committee's review shall take into account all comments, documents, records and other information submitted by the Claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination.

(e) Decision on Appeal. No later than 60 days after its receipt of the request for review, the Administration Committee shall render a decision in writing. If special circumstances require extension, and upon prior written notice to the claimant, the Administration Committee's decision may be given within 120 days after receipt of the request for review. In the case of an adverse benefit determination on appeal, the written notice shall include: (i) the specific reason or reasons for the adverse determination, (ii) the specific reference to the Plan provision(s) on which the denial is based, (iii) a statement that the Claimant is entitled to receive, upon request and free of charge, reasonable access to and copies of all documents, records and other information relevant to the claim, and (iv) a statement of the Claimant's right to bring a legal action.

(f) Litigation. In order to operate and administer the claims procedure in a timely and efficient manner, any Claimant whose appeal with respect to a claim for benefits has been denied, and who desires to commence a legal action with respect to such claim, must commence such action in a court of competent jurisdiction within 90 days of receipt of notification of such denial. Failure to file such action by the prescribed time will forever bar the commencement of such actions.

Section 11.6 Plan Expenses. All fees of actuaries, accountants, attorneys, consultants or other advisors, and other expenses of the Plan, shall, as determined by the Administration Committee, be paid from the Fund or allocated among the Company and its Designated Subsidiaries.

ARTICLE XII.
CONTRIBUTIONS

Section 12.1 Contributions.

(a) Contributions to Meet Funding Standards. The Company and its Designated Subsidiaries, shall each contribute to the Plan, by deposit with the Insurance Company or with the Trustee or other fiduciary of any trust or other fund which may be established by the Company to hold, manage and invest amounts contributed under the Plan by the Company or its Designated Subsidiaries, an amount which shall not be less than the amount necessary to prevent an accumulated funding deficiency, as defined in section 412 of the Code, section 302 of ERISA, or corresponding provisions of successor laws, with respect to those of its Employees who are Participants in the Plan.

(b) Special Rule; Return of Contributions. It is intended that the Plan and the Fund shall continue to qualify under section 401(a) of the Code and that contributions are conditioned upon their deductibility under section 404 of the Code. Therefore, Section 12.1 shall be subject to the following provisions:

(i) The entire contribution attributable to any Plan Year as to which deductibility is disallowed shall be returned to the Employer, to the extent of the amount of the disallowance, within one year after the disallowance. Nondeductible contributions that are treated as *de minimis* pursuant to Revenue Procedure 90-49 shall be returned to the Employer within one year of the date of the Plan actuary's certification of such non-deductibility.

(ii) In the case of a contribution which is made in whole or in part by reason of a mistake of fact, so much of such contribution as is attributable to the mistake of fact shall be returnable to the Employer upon demand by the Administration Committee, upon presentation of evidence of the mistake of fact to the Insurance Company and of calculations as to the impact of such mistake. Demand and repayment must be effectuated within one year after the payment of the contribution to which the mistake applies.

Income and gains attributable to the excess contributions may not be recovered by the Employer. Losses attributable to such contributions shall reduce the amount the Employer may recover.

Section 12.2 Management of Funds. All funds to provide the benefits of the Plan shall be deposited with the Insurance Company or the Trustee to be held, managed and disposed of in accordance with the terms of the Insurance Contract, the Trust Agreement or any agreement with any Investment Manager. At no time and under no circumstances may the funds or any part thereof or income therefrom prior to the satisfaction of all liabilities for benefits under the Plan be used for or diverted to purposes other than the exclusive benefit of Participants, surviving spouses or Contingent Annuitants under the Plan. No one shall have any interest in or right to any part of the assets or the earnings of the funds, except as and to the extent expressly provided in the Plan.

ARTICLE XIII.
MISCELLANEOUS

Section 13.1 Liability of the Company. The Company and its Designated Subsidiaries shall have no liability for the payment of benefits under the Plan, except to make the contributions required under Section 12.1, nor shall the Company or any Designated Subsidiary have any liability for the administration of the funds or assets paid over to the Insurance Company, the Trustee or any Investment Manager, and each Participant, surviving spouse and Contingent Annuitant shall look solely to the Insurance Company, or Trustee for any payments or benefits under the Plan.

Section 13.2 Non-Alienation of Benefits. No benefits payable under the Plan shall be subject in any manner to anticipation, assignment or pledge and any attempt to anticipate, assign or pledge the same shall be void; and no such benefit shall be in any manner liable for or subject to the debts, contracts, liabilities, engagements or torts of any Participant, surviving spouse or Contingent Annuitant. This Section 13.2 shall not preclude the Insurance Company or the Trustee from complying with the terms of a qualified domestic relations order as defined in section 414(p) of the Code, or applicable provisions of successor laws.

Section 13.3 Facility of Payment. If any Participant, surviving spouse or Contingent Annuitant is, in the judgment of either the Insurance Company or the Trustee, legally, physically or mentally incapable of personally receiving or receipting for any benefit due hereunder, the Insurance Company or the Trustee may make payment thereof to such other person, persons or institutions who, in the opinion of the Insurance Company or Trustee, are then maintaining or have custody of such Participant, surviving spouse or Contingent Annuitant until claim is made by the duly appointed guardian or other legal representative of such Participant, surviving spouse or Contingent Annuitant. Such payment shall constitute a full discharge of the liability of the Insurance Company or Trustee, to the extent thereof. Upon notice to the Insurance Company or Trustee of the appointment of a guardian or other legal representative of such Participant, surviving spouse or Contingent Annuitant, the Insurance Company or Trustee shall thereafter pay only to said guardian or other legal representative.

Section 13.4 Limitation on Benefits. Notwithstanding any other provisions of this Plan, the annual benefit, derived from Company, Designated Subsidiary or former Designated Subsidiary contributions, payable to any Participant under this Plan and any other defined benefit pension plan maintained by the Company or any Designated Subsidiary may not exceed the lesser of the amount determined under the primary limit or, effective until January 1, 2000, the combined limit provisions of Article C of Appendix 2, provided that in applying the combined limit any necessary reduction shall first be made in computing the benefit to be provided under this Plan.

Section 13.5 Right to Terminate Employment. The establishment or continuance of the Plan and of any Insurance Contract, Trust, or any contract with any Investment Manager, shall not confer upon any Participant the right to be continued in the employ of the Company or of any Designated Subsidiary and this Plan shall in no way restrict the right of the Company or of a Designated Subsidiary to terminate the employment of any employee, whether or not a Participant.

ARTICLE XIV.
TERMINATION OF THE PLAN - DISTRIBUTION OF ASSETS

Section 14.1 Order of Priorities. The Plan as a whole may be terminated at any time by the Board of Directors. In the event of such complete termination, or if for any reason the Plan is partially terminated the Accrued Benefits of all Participants affected by such complete or partial termination shall, to the extent then funded, become 100% vested. In the event of a complete or partial termination of the Plan, or upon a complete discontinuance of contributions required by Section 12.1, funds then held under the Plan for the benefit of affected Participants, surviving spouse and Contingent Annuitants shall be allocated to or for the benefit of the affected Participants, surviving spouse and Contingent Annuitants in the order set forth below and in the manner and amount provided in Sections 14.2 through 14.3.

(a) There shall first be credited to each Participant the amount, if any, necessary to provide that portion of their benefit derived from their own contributions.

(b) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose benefit has been in pay status for at least three years as of the Plan's termination date, or whose benefit would have been in pay status during such period if the Participant had retired, and their benefit had begun immediately prior thereto, the amount, if any, necessary to provide the lowest level of benefit to which they were, or would have been, entitled under the provisions of the Plan in effect during the five-year period ending on the Plan's termination date.

(c) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose vested Accrued Benefit has not been fully provided under (a) or (b) above, the amount, if any, necessary to provide that portion of their vested Accrued Benefit, determined immediately prior to the Plan's termination, which does not exceed the lesser of:

(i) a monthly annuity equal to the Participant's average monthly gross income during the five consecutive calendar years during which their gross income received from the Company was highest; or

(ii) $750 multiplied by a percentage computed by dividing the Social Security Act contribution and benefit base at the time the Plan terminates by that base as in effect during 1974.

The amount allocated under this Section 14.1(c) shall be determined without regard to whether the Participant would be considered a "substantial owner" within the meaning of section 4022(b)(6) of ERISA, or any corresponding provisions of successor laws.

(d) There shall then be credited to each Participant, surviving spouse and Contingent Annuitant whose benefit has not been provided under (a) or (b) above, the amount, if any, necessary to provide the portion of their vested Accrued Benefit, determined immediately prior to the Plan's termination, not provided under (c) above. If the Plan has been amended during that five-year period, the allocation of assets to benefits described in (d) which are attributable to such amendments shall be made on the basis of such amendments in the order in which they became effective.

(e) Finally, there shall be credited to each Participant, surviving spouse and Contingent Annuitant the amount, if any, necessary to provide any benefit to which they are entitled under the Plan to the extent such benefit has not been provided above.

(f) If the assets of the Plan are insufficient to provide in full the benefits described in (a), (b) or (c) above, the assets shall be allocated pro rata among all Participants, surviving spouses and Contingent Annuitants in the affected group on the basis of the present value, as of the Plan's termination date, of their respective benefits. If the assets of the Plan are insufficient to provide all benefits described in (d) (after all benefits described in (a) through (c) have been provided) those assets will first be allocated to any nonforfeitable benefits described in (d) under the Plan as in effect five years prior to the termination date, and thereafter to other benefits described in (d).

Section 14.2 Method of Allocation. The allocation of funds held under the Plan shall, with the advice of the actuary, be calculated by the Investment Committee on the foregoing basis as of the date on which the Plan is discontinued or contributions are completely discontinued. When the calculations have been completed, and the Company shall have obtained such governmental approvals of the allocation of Plan assets, including approval by the Pension Benefit Guaranty Corporation, as the Investment Committee may determine to be necessary, such funds shall be allocated to or for the benefit of the respective Participants, surviving spouses and Contingent Annuitants of each class in the order, and to the extent, stated in Section 14.1 above, except that (a) no Participant, surviving spouse or Contingent Annuitant shall be entitled to a share of any such funds greater than the actuarial value, at the date of such discontinuance of the Plan or contributions, of the total retirement income to which such Participant, surviving spouse or Contingent Annuitant would have been entitled under the Plan at the Participant's Normal Retirement Date pursuant to Sections 5.2, 5.6, and 5.7 had the Plan or contributions not been discontinued and had such Participant continued in employment until their Normal Retirement Date without change in Final Average Earnings, and (b) except to the extent required to comply with Title IV of ERISA, or any corresponding provisions of any successor laws, no assets previously allocated to the benefit of any Participant, surviving spouse or Contingent Annuitant shall be reallocated. The Investment Committee shall have the right to determine whether the distribution shall be applied to purchase retirement income under any Insurance Contract or paid in cash. Any assets remaining after the distributions described in this Section 14.2 have been completed shall be allocated among, and returned to, the Company and its Designated Subsidiaries on the basis determined by the Investment Committee, with the advice of the actuary.

Section 14.3 Restricted Benefits.

(a) In the event of termination of the Plan, the benefit due any Participant or former Participant who is one of the 25 highest paid Participants shall be restricted in the manner set forth in this Section 14.3(a).

(i) Benefit Restriction. The annual payments to a Participant described above in this Section 14.3(a) shall be restricted to an amount equal to the payments that would be made on behalf of such Participant under a single life annuity that is the Actuarial Equivalent of the sum of the Participant's Accrued Benefit and the Participant's other benefits, as described below.

(ii) Definition of "Benefits". For purposes of this Section 14.3(a), the term "benefits" shall include loans in excess of the amounts set forth in section 72(p)(2)(A) of the Code, any periodic income, any withdrawal values payable to a living Participant, and any death benefits not provided for by insurance on the Participant's life.

(iii) Restrictions Not Applicable. The restrictions described in this Section 14.3(a) shall not apply if:

(A) after payment to a Participant described in this Section 14.3(a) of all benefits described in Section 14.3(a)(ii), the value of the Plan assets equals or exceeds 110% of the value of the current liabilities as defined in section 412(1)(7) of the Code for Plan Years beginning prior to January 1, 2008, and for Plan Years beginning on or after January 1, 2008, the funding target (as defined under section 430 of the Code), or

(B) the value of the benefits described in Section 14.3(a)(ii) for a Participant described in this Section 14.3(a) is less than 1% of the value of current liabilities.

(b) Any excess reserves arising by application of the provisions of Section 14.3(a), shall be used for the benefit of the other Participants, surviving spouses and Contingent Annuitants in accordance with Section 14.1.

(c) The provisions of Section 14.3(a) shall not restrict the purchase in full of retirement income benefits, including vested deferred benefits, called for by the Plan for any retired Participant, surviving spouse or Contingent Annuitant while the Plan is in full effect and its full current costs have been met; nor shall it restrict the purchase of any retirement income benefits withheld for a prior year (under the foregoing provisions) after all deficits for all prior years and full current costs have been met.

Section 14.4 Severance of a Subsidiary. If at any time any Designated Subsidiary ceases to be a Subsidiary or a Designated Subsidiary prior to termination of the Plan, the Employees of that Subsidiary shall then cease to be Participants in the Plan, and shall accrue no further benefits hereunder.

ARTICLE XV.
GOVERNMENTAL APPROVAL

Anything in this Plan to the contrary notwithstanding, the adoption of the Plan and any amendment thereto shall be conditioned upon the receipt of (A) a determination from the Commissioner of Internal Revenue to the effect that the Plan qualifies under the applicable provisions of the Code and (B) any required approval or authorization under any other applicable statute or regulation. Effective February 1, 2017, the Internal Revenue Service has discontinued the determination letter application program such that (A) shall no longer apply.

ARTICLE XVI.
AMENDMENTS

Section 16.1 Amendment.

(a) The Company and its Designated Subsidiaries hope and expect to continue the Plan indefinitely, but reserve the right to suspend or discontinue the Plan, or to reduce or discontinue contributions hereunder. The Plan may be amended at any time and from time to time by the Board of Directors or its properly authorized delegate. In addition, the Administration Committee shall have the right to amend this Plan in whole or in part at any time and from time to time, provided that any such amendment is administrative in nature, required by law, or does not materially increase the cost of the Plan to the Company, as determined by the Company's Treasurer in consultation with the Company's Chief Financial Officer. No amendment shall divest any vested interest of any Participant or beneficiary, and no amendment shall be effective unless the Plan continues to be for the exclusive benefit of the Participants and

their beneficiaries. In addition, no amendment shall decrease a Participant's vested interest, eliminate or reduce any benefit subsidy or early retirement benefit, or eliminate any optional form of benefit except in accordance with sections 411(d)(6) and 412(d)(2) (section 412(c)(8) for Plan Years beginning before July 1, 2008) of the Code.

(b) Notwithstanding the foregoing Section 16.1(a), any modification or amendment of the Plan, the Insurance Contract, any trust or other fund established under the Plan, or any provision thereof, may be made, retroactively if necessary, which the Company by action of the Board of Directors or its designee shall deem necessary or appropriate in order to comply with any applicable statute or regulations, including but not limited to the Code and the regulations thereunder.

Section 16.2 Merger, Consolidation or Transfer of Assets or Liabilities. The Company and its Designated Subsidiaries also reserve the right to merge or consolidate this Plan with any other pension plan qualified under applicable provisions of the Code, or to transfer any or all Plan assets or liabilities to any other pension plan qualified under applicable provisions of the Code, provided that, notwithstanding this Section 16.2, no such merger, consolidation or transfer of Plan assets or liabilities shall occur unless the benefit to which each affected Participant, surviving spouse or Contingent Annuitant would be entitled in the event of a plan termination immediately after such merger, consolidation or transfer will be at least equal to the benefit to which such Participant, surviving spouse or Contingent Annuitant would be entitled under this Plan if it terminated immediately prior to such merger, consolidation or transfer.

ARTICLE XVII.

LIMITATIONS APPLICABLE IF THE PLAN'S ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE IS LESS THAN 80% OR IF THE PLAN SPONSOR IS IN BANKRUPTCY

Section 17.1 Limitations Applicable If the Plan's Adjusted Funding Target Attainment Percentage Is Less Than 80%, But Not Less Than 60%. Notwithstanding any other provisions of the Plan, if the Plan's adjusted funding target attainment percentage for a Plan Year is less than 80% (or would be less than 80% to the extent described in Section 17.1(b) below) but is not less than 60%, then the limitations set forth in this Section 17.1 apply.

(a) 50% Limitation on Single Sum Payments, Other Accelerated Forms of Distribution, and Other Prohibited Payments. A Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, unless the present value of the portion of the benefit that is being paid in a prohibited payment does not exceed the lesser of:

(i) 50% of the present value of the benefit payable in the optional form of benefit that includes the prohibited payment; or

(ii) 100% of the PBGC maximum benefit guarantee amount (as defined in section 1.436-1(d)(3)(iii)(C) of the Treasury Regulations).

The limitation set forth in this Section 17.1(a) does not apply to any payment of a benefit which under section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant. If an optional form of benefit that is otherwise available under the terms of the Plan is not available to a Participant or beneficiary as of the annuity starting date because of the application of the requirements of this Section 17.1(a), the Participant or beneficiary is permitted to elect to bifurcate the benefit into unrestricted and restricted portions (as described in section 1.436-1(d)(3)(iii)(D) of the Treasury Regulations). The Participant or beneficiary may also elect any other optional form of benefit otherwise available under the Plan at that annuity starting date that would satisfy the 50%/PBGC maximum benefit guarantee amount limitation described in this Section 17.1(a), or may elect to defer the benefit in accordance with any general right to defer commencement of benefits under the Plan.

During a period when Section 17.1(a) applies to the Plan, Participants and beneficiaries are permitted to elect payment in any optional form of benefit otherwise available under the Plan that provides for the current payment of the unrestricted portion of the benefit (as described in section 1.436-1(d)(3)(iii)(D) of the Treasury Regulations), with a delayed commencement for the restricted portion of the benefit (subject to other applicable qualification requirements, such as sections 411(a)(11) and 401(a)(9) of the Code).

(b) Plan Amendments Increasing Liability for Benefits. No amendment to the Plan that has the effect of increasing liabilities of the Plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable shall take effect in a Plan Year if the adjusted funding target attainment percentage for the Plan Year is:

(i) Less than 80%; or

(ii) 80% or more, but would be less than 80% if the benefits attributable to the amendment were taken into account in determining the adjusted funding target attainment percentage.

The limitation set forth in this Section 17.1(b) does not apply to any amendment to the Plan that provides a benefit increase under a Plan formula that is not based on compensation, provided that the rate of such increase does not exceed the contemporaneous rate of increase in the average wages of Participants covered by the amendment.

Section 17.2 Limitations Applicable If the Plan's Adjusted Funding Target Attainment Percentage Is Less Than 60%. Notwithstanding any other provisions of the Plan, if the Plan's adjusted funding target attainment percentage for a Plan Year is less than 60% (or would be less than 60% to the extent described in Section 17.2(b) below), then the limitations in this Section 17.2 apply.

(a) Single Sums, Other Accelerated Forms of Distribution, and Other Prohibited Payments Not Permitted. A Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment. The limitation set forth in this Section 17.2(a) does not apply to any payment of a benefit which under Section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant.

(b) Shutdown Benefits and Other Unpredictable Contingent Event Benefits Not Permitted to Be Paid. An unpredictable contingent event benefit with respect to an unpredictable contingent event occurring during a Plan Year shall not be paid if the adjusted funding target attainment percentage for the Plan Year is:

(i) Less than 60%; or

(ii) 60% or more, but would be less than 60% if the adjusted funding target attainment percentage were redetermined applying an actuarial assumption that the likelihood of occurrence of the unpredictable contingent event during the Plan Year is 100%.

(c) Benefit Accruals Frozen. Benefit accruals under the Plan shall cease as of the applicable section 436 measurement date. In addition, if the Plan is required to cease benefit accruals under this Section 17.2(c), then the Plan is not permitted to be amended in a manner that would increase the liabilities of the Plan by reason of an increase in benefits or establishment of new benefits.

Section 17.3 Limitations Applicable If the Plan Sponsor Is In Bankruptcy. Notwithstanding any other provisions of the Plan, a Participant or beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an annuity starting date that occurs during any period in which the Plan sponsor is a debtor in a case under title 11, United States Code, or similar Federal or State law, except for payments made within a Plan Year with an annuity starting date that occurs on or after the date on which the Plan's enrolled actuary certifies that the Plan's adjusted funding target attainment percentage for that Plan Year is not less than 100%. In addition, during such period in which the Plan sponsor is a debtor, the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, except for payments that occur on a date within a Plan Year that is on or after the date on which the Plan's enrolled actuary certifies that the Plan's adjusted funding target attainment percentage for that Plan Year is not less than 100%. The limitation set forth in this Section 17.3 does not apply to any payment of a benefit which under section 411(a)(11) of the Code may be immediately distributed without the consent of the Participant.

Section 17.4 Provisions Applicable After Limitations Cease to Apply.

(a) Resumption of Prohibited Payments. If a limitation on prohibited payments under Section 17.1(a), Section 17.2(a), or Section 17.3 applied to the Plan as of a section 436 measurement date, but that limit no longer applies to the Plan as of a later section 436 measurement date, then that limitation does not apply to benefits with annuity starting dates that are on or after that later section 436 measurement date.

In addition, after the section 436 measurement date on which the limitation on prohibited payments under Section 17.1(a) or 17.2(a) ceases to apply to the Plan, any Participant or beneficiary who had an annuity starting date within the period during which that limitation applied to the Plan is permitted to make a new election (within 90 days after the section 436 measurement date on which the limit ceases to apply or, if later, 30 days after receiving notice of the right to make such election) under which the form of benefit previously elected is modified at a new annuity starting date to be changed to a single sum payment for the remaining value of the Participant or beneficiary's benefit under the Plan, subject to the other rules in this Article XVII and applicable requirements of section 401(a) the Code, including spousal consent.

(b) Resumption of Benefit Accruals. If a limitation on benefit accruals under Section 17.2(c) applied to the Plan as of a section 436 measurement date, but that limitation no longer applies to the Plan as of a later section 436 measurement date, then benefit accruals shall resume prospectively and that limitation does not apply to benefit accruals that are based on service on or after that later section 436 measurement date, except as otherwise provided under the Plan. The Plan shall comply with the rules relating to partial years of participation and the prohibition on double proration under Department of Labor regulation 29 CFR section 2530.204-2(c) and (d).

In addition, benefit accruals that were not permitted to accrue because of the application of Section 17.2(c) shall be restored when that limitation ceases to apply if the continuous period of the limitation was 12 months or less and the Plan's enrolled actuary certifies that the adjusted funding target attainment percentage for the Plan Year would not be less than 60% taking into account any restored benefit accruals for the prior Plan Year.

(c) Shutdown and Other Unpredictable Contingent Event Benefits. If an unpredictable contingent event benefit with respect to an unpredictable contingent event that occurs during the Plan Year is not permitted to be paid after the occurrence of the event because of the limitation of Section 17.2(b), but is permitted to be paid later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the adjusted funding target attainment percentage for the Plan Year that meets the requirements of section 1.436-1(g)(5)(ii)(B) of the Treasury Regulations), then that unpredictable contingent event benefit shall be paid, retroactive to the period that benefit would have been payable under the terms of the Plan (determined without regard to Section 17.2(b)). If the unpredictable contingent event benefit does not become payable during the Plan Year in accordance with the preceding sentence, then the Plan is treated as if it does not provide for that benefit.

(d) Treatment of Plan Amendments That Do Not Take Effect. If a Plan amendment does not take effect as of the effective date of the amendment because of the limitation of Section

17.2(b) or Section 17.2(c), but is permitted to take effect later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the adjusted funding target attainment percentage for the Plan Year that meets the requirements of section 1.436-1(g)(5)(ii)(C) of the Treasury Regulations), then the Plan amendment must automatically take effect as of the first day of the Plan Year (or, if later, the original effective date of the amendment). If the Plan amendment cannot take effect during the same Plan Year, then it shall be treated as if it were never adopted, unless the Plan amendment provides otherwise.

Section 17.5 Notice Requirement. See section 101(j) of ERISA for rules requiring the plan administrator of a single employer defined benefit pension plan to provide a written notice to participants and beneficiaries within 30 days after certain specified dates if the plan has become subject to a limitation described in Section 17.1(a), Section 17.2, or Section 17.3.

Section 17.6 Methods to Avoid or Terminate Benefit Limitations. See section 436(b)(2), (c)(2), (e)(2), and (f) of the Code and section 1.436-1(f) of the Treasury Regulations for rules relating to employer contributions and other methods to avoid or terminate the application of the limitations set forth in Sections 17.1 through 17.3 for a Plan Year. In general, the methods a plan sponsor may use to avoid or terminate one or more of the benefit limitations under Sections 17.1 through 17.3 for a Plan Year include employer contributions and elections to increase the amount of plan assets which are taken into account in determining the adjusted funding target attainment percentage, making an employer contribution that is specifically designated as a current year contribution that is made to avoid or terminate application of certain of the benefit limitations, or providing security to the plan.

Section 17.7 Special Rules.

(a) Rules of Operation for Periods Prior to and After Certification of Plan's Adjusted Funding Target Attainment Percentage.

(i) In General. Section 436(h) of the Code and section 1.436-1(h) of the Treasury Regulations set forth a series of presumptions that apply (1) before the Plan's enrolled actuary issues a certification of the Plan's adjusted funding target attainment percentage for the Plan Year and (2) if the Plan's enrolled actuary does not issue a certification of the Plan's adjusted funding target attainment percentage for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary issues a range certification for the Plan Year pursuant to section 1.436-1(h)(4)(ii) of the Treasury Regulations but does not issue a certification of the specific adjusted funding target attainment percentage for the Plan by the last day of the Plan Year). For any period during which a presumption under section 436(h) of the Code and section 1.436¬1(h) of the Treasury Regulations applies to the Plan, the limitations under Sections 17.1 through 17.3 are applied to the Plan as if the adjusted funding target attainment percentage for the Plan Year were the presumed adjusted funding target attainment percentage determined under the rules of section 436(h) of the Code and section 1.436-1(h)(1), (2), or (3) of the Treasury Regulations. These presumptions are set forth in Section 17.7(a)(ii) through (iv).

(ii) Presumption of Continued Underfunding Beginning First Day of Plan Year. If a limitation under Section 17.1, 17.2, or 17.3 applied to the Plan on the last day of the preceding Plan Year, then, commencing on the first day of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the adjusted funding target attainment percentage for the Plan for the current Plan Year, or, if earlier, the date Section 17.7(a)(iii) or Section 17.7(a)(iv) applies to the Plan:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be the adjusted funding target attainment percentage in effect on the last day of the preceding Plan Year; and

(B) The first day of the current Plan Year is a section 436 measurement date.

(iii) Presumption of Underfunding Beginning First Day of Fourth Month. If the Plan's enrolled actuary has not issued a certification of the adjusted funding target attainment percentage for the Plan Year before the first day of the fourth month of the Plan Year and the Plan's adjusted funding target attainment percentage for the preceding Plan Year was either at least 60% but less than 70% or at least 80% but less than 90%, or is described in section 1.436-1(h)(2)(ii) of the Treasury Regulations, then, commencing on the first day of the fourth month of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the adjusted funding target attainment percentage for the Plan for the current Plan Year, or, if earlier, the date Section 17.7(a)(iv) applies to the Plan:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be the Plan's adjusted funding target attainment percentage for the preceding Plan Year reduced by 10 percentage points; and

(B) The first day of the fourth month of the current Plan Year is a section 436 measurement date.

(iv) Presumption of Underfunding On and After First Day of Tenth Month. If the Plan's enrolled actuary has not issued a certification of the adjusted funding target attainment percentage for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary has issued a range certification for the Plan Year pursuant to section 1.436-1(h)(4)(ii) of the Treasury Regulations but has not issued a certification of the specific adjusted funding target attainment percentage for the Plan by the last day of the Plan Year), then, commencing on the first day of the tenth month of the current Plan Year and continuing through the end of the Plan Year:

(A) The adjusted funding target attainment percentage of the Plan for the current Plan Year is presumed to be less than 60%; and

(B) The first day of the tenth month of the current Plan Year is a section 436 measurement date.

(b) New Plans, Plan Termination, Certain Frozen Plans, and Other Special Rules.

(i) First 5 Plan Years. The limitations in Section 17.1(b), Section 17.2(b), and Section 17.2(c) do not apply to a new plan for the first 5 plan years of the plan, determined under the rules of section 436(i) of the Code and section 1.436-1(a)(3)(i) of the Treasury Regulations.

(ii) Plan Termination. The limitations on prohibited payments in Section 17.1(a), Section 17.2(a), and Section 17.3 do not apply to prohibited payments that are made to carry out the termination of the Plan in accordance with applicable law. Any other limitations under this Section of the Plan do not cease to apply as a result of termination of the Plan.

(iii) Exception to Limitations on Prohibited Payments Under Certain Frozen Plans. The limitations on prohibited payments set forth in Sections 17.1(a), 17.2(a), and 17.3 do not apply for a Plan Year if the terms of the Plan, as in effect for the period beginning on September 1, 2005, and continuing through the end of the Plan Year, provide for no benefit accruals with respect to any Participants. This Section 17.7(b)(iii) shall cease to apply as of the date any benefits accrue under the Plan or the date on which a Plan amendment that increases benefits takes effect.

(iv) Special Rules Relating to Unpredictable Contingent Event Benefits and Plan Amendments Increasing Benefit Liability. During any period in which none of the presumptions under Section 17.7(a) apply to the Plan and the Plan's enrolled actuary has not yet issued a certification of the Plan's adjusted funding target attainment percentage for the Plan year, the limitations under Section 17.1(b) and Section 17.2(b) shall be based on the inclusive presumed adjusted funding target attainment percentage for the Plan, calculated in accordance with the rules of section 1.436-1(g)(2)(iii) of the Treasury Regulations.

(c) Special Rules Under PRA 2010.

(i) Payments Under Social Security Leveling Options. For purposes of determining whether the limitations under Section 17.1(a) or 17.2(a) apply to payments under a social security leveling option, within the meaning of section 436(j)(3)(C)(i) of the Code, the adjusted funding target attainment percentage for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under section 436(j)(3) of the Code and any Treasury Regulations or other published guidance thereunder issued by the Internal Revenue Service.

(ii) Limitation on Benefit Accruals. For purposes of determining whether the accrual limitation under Section 17.2(c) applies to the Plan the adjusted funding target attainment percentage for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under section 436(j)(3) of the Code (except as provided under section 203(b) of the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, if applicable).

(d) Interpretation of Provisions. The limitations imposed by this Section of the Plan shall be interpreted and administered in accordance with section 436 of the Code and section 1.436-1 of the Treasury Regulations.

Section 17.8 Definitions. The definitions in the following Treasury Regulations apply for purposes of Sections 17.1 through 17.7: section 1.436-1(j)(1) defining adjusted funding target attainment percentage; section 1.436-1(j)(2) defining annuity starting date; section 1A36-1(j)(6) defining prohibited payment; section 1.436-1(j)(8) defining section 436 measurement date; and section 1.436-1(j)(9) defining an unpredictable contingent event and an unpredictable contingent event benefit.

Section 17.9 Effective Date. The rules in Sections 17.1 through 17.8 are effective for Plan Years beginning after December 31, 2007.

APPENDIX 1

INCREASE IN RETIREMENT INCOME FOR CERTAIN RETIRED PARTICIPANTS

Increase Effective October 1, 1980.

(1) Effective October 1, 1980, the monthly benefits of Participants who retired prior to January 1, 1978, and of surviving spouses and Contingent Annuitants of any such Participants who were receiving benefits under the Plan shall be increased in accordance with the provisions of Paragraph 2 of this Appendix 1.

(2) The amount of monthly benefit payable to a former or retired Participant or to their surviving spouse or Contingent Annuitant under the Plan shall be increased by 4% for each full calendar year, or fraction thereof, between the effective date of the Participant's commencement of monthly benefits and December 31, 1977, up to a maximum of 32% of such monthly benefit.

(3) Any potential benefit which may become payable to the surviving spouse or Contingent Annuitant of a Participant whose benefit is adjusted under Paragraph 2 of this Appendix 1 shall be adjusted by the same percentage as is applied in adjusting the Participant's benefit.

Increase Effective October 1, 1985.

(4) Effective October 1, 1985, the monthly benefits of Participants who retired prior to January 1, 1984 and of any surviving spouses and Contingent Annuitants who were receiving benefits under the Plan shall be increased in accordance with the provisions of Paragraph (5) of this Appendix 1. That increase shall be in addition to any increase provided under Paragraphs (1) through (3) above, but shall not apply to any benefit attributable to any plan merged into this Plan.

(5) The amount of monthly benefit payable to a former or retired Participant or to their surviving spouse or Contingent Annuitant under the Plan shall be increased by 3% for each full calendar year, or fraction thereof, between the effective date of the Participant's commencement of monthly benefits and December 31, 1983, up to a maximum of 18% of such monthly benefit.

(6) Any potential benefit which may become payable to the surviving spouse or Contingent Annuitant of a Participant whose benefit is adjusted under Paragraph (4) of this Appendix 1 shall be adjusted by the same percentage as is applied in adjusting the Participant's benefit.

APPENDIX 2

TOP-HEAVY PROVISIONS AND BENEFIT LIMITS

A. Top-Heavy Plan Definitions.

The following words and phrases as used herein have the following meanings unless a different meaning is plainly required by the context:

A.1 "Account Balance" means the sum of:

A.1.1 the present value, as of the Top-Heavy Valuation Date, of a Participant's Accrued Benefit under the Plan, determined in the same manner as Actuarial Equivalent forms of benefit are determined under the Plan;

A.1.2 the balance, as of the Top-Heavy Valuation Date, standing to the credit of a Participant (including a surviving spouse or Contingent Annuitant of such Participant) in any Defined Contribution Plan maintained by the Employer, including contributions that would be allocated as of the Top-Heavy Valuation Date, even though these amounts are not yet required to be contributed, and any contribution attributable (A) to a plan-to-plan transfer or rollover contribution from another qualified employee pension benefit plan or a rollover individual retirement account, accepted before January 1, 1984, or (B) a related plan-to-plan transfer or rollover individual retirement account; and

A.1.3 the aggregate distributions made with respect to such Participant (including a surviving spouse or Contingent Annuitant of such Participant) under the Plan during the five-year period ending on the Determination Date. If a distribution is made in the form of an annuity contract, the amount of such distribution shall be equal to the actuarial value of the contract, determined on the date of the distribution. Benefits paid on account of death shall only be included to the extent of the present value of the decedent's Accrued Benefit immediately prior to death.

The term "Account Balance" shall not include any amount held or distributed on behalf of any Participant who is a Former Key Employee, or who has performed no service for the Employer (other than benefits under qualified plans maintained by the Employer) at any time during the five-year period ending on the Determination Date or any amount attributable to qualified voluntary employee contributions (within the meaning of section 219(e)(2) of the Code).

A.2 "Aggregation Group" means:

A.2.1 a Required Aggregation Group, or

A.2.2 a Permissive Aggregation Group.

A.3 "Compensation" shall include all amounts that are treated as wages for Federal income tax withholding under section 3401(a) of the Code (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or the services performed) and actually paid to the Participant during the Limitation Year. Notwithstanding the foregoing, for Limitation Years beginning on and after July 1, 2007, Compensation includes regular pay as described in Treas. Reg. § 1.415(c)-(2)(e)(3) if paid by the end of the Limitation Year that includes the Employee's termination of employment, or if later, 2½ months after the Employee's termination of employment. Any payments not described in the foregoing sentence shall not be considered Compensation if paid after separation from service,

even if they are paid by the later of 2½ months after the date of separation from service or the end of the Limitation Year that includes the date of severance from employment. Effective for distributions made on and after January 1, 2009, Compensation shall include the amount of any military differential wage payments made by the Employer to a Participant in accordance with section 3401(h) and section 414(u)(12) of the Code.

A.4 "Defined Benefit Plan" means any employee pension plan maintained by the Employer that is qualified under section 401(a) of the Code and is not a Defined Contribution Plan.

A.5 "Defined Contribution Plan" means an employee pension plan maintained by the Employer that is qualified under section 401(a) of the Code and provides for an individual account for each Participant and for benefits based solely on the amount contributed to the Participant's account, and any income, expenses, gains and losses, and any forfeitures of accounts of other Participants that may be allocated to such Participant's account.

A.6 "Determination Date" means:

A.6.1 if the Plan is not included in an Aggregation Group, the last day of the preceding Plan Year; or

A.6.2 if the Plan is included in an Aggregation Group, the Determination Date as determined under Section A.6.1 that falls within the same calendar year of each other plan included in such Aggregation Group.

A.7 "Employer" means the Employer as defined in Section 2.1(q) of the Plan.

A.8 "Former Key Employee" means an Employee or former Employee who is a Non-Key Employee with respect to the Plan for the Plan Year if such individual was a Key Employee with respect to the Plan for any prior Plan Year.

A.9 "Key Employee" means any Employee or former Employee (including any deceased Employee) who at any time during the Plan Year that includes the Determination Date was an officer of the Employer having annual Compensation greater than the dollar amount specified in section 416(i)(1) of the Code as in effect for the Plan Year ($200,000 for 2023), adjusted for cost-of-living (and subject to proration in any short Plan Year), a five-percent owner of the Employer, or a one-percent owner of the Employer having annual Compensation of more than $150,000 (subject to proration in any short Plan Year). For this purpose, annual Compensation means Compensation within the meaning of section 415(c)(3) of the Code. The determination of who is a Key Employee will be made in accordance with section 416(i)(1) of the Code and the applicable regulations and other guidance of general applicability issued thereunder.

A.10 "Non-Key Employee" means any Participant in the Plan (including a surviving spouse or Contingent Annuitant of such Participant) who is not a Key Employee with respect to the Plan for the Plan Year.

A.11 "Permissive Aggregation Group" means:

A.11.1 each plan of the Employer included in a Required Aggregation Group; and

A.11.2 each other plan of the Employer if the group of plans consisting of such plan or plans included in the Required Aggregation Group, when considered as a single plan, meets the requirements of section 401(a)(4) and section 410 of the Code.

A.12 "Required Aggregation Group" means:

A.12.1 each plan of the Employer in which a Key Employee participated (regardless of whether such plan has been terminated) during the Plan Year ending on the Determination Date; and

A.12.2 each other plan of the Employer which enables any plan described in Section A.12.1 to meet the requirements of section 401(a)(4) or section 410 of the Code, including any such plan terminated within the one-year period ending on the Determination Date.

A.13 "Top-Heavy Group" means an Aggregation Group in which, as of the Determination Date, the sum of:

A.13.1 the aggregate of the Account Balances of Key Employees under all Defined Contribution Plans included in such Aggregation Group, and

A.13.2 the aggregate of the present value of cumulative accrued benefits for Key Employees under all Defined Benefit Plans included in such Aggregation Group,

exceeds 60% of the sum of such aggregates determined for all Employees included in the Aggregation Group.

A.14 "Top-Heavy Plan" means the Plan, if as of the Determination Date:

A.14.1 the aggregate of the Account Balances of Key Employees exceeds 60% of the aggregate of the Account Balances of all Employees; or

A.14.2 the Plan is part of a Required Aggregation Group which is a Top-Heavy Group.

Notwithstanding Section A.14.1 and Section A.14.2, the Plan shall not be considered a Top-Heavy Plan for any Plan Year in which the Plan is a part of a Required Aggregation Group or a Permissive Aggregation Group which is not a Top-Heavy Group.

A.15 "Top-Heavy Valuation Date" means the Determination Date.

B. Top-Heavy Plan Provisions.

Notwithstanding anything in the Plan to the contrary, if the Plan is a Top-Heavy Plan within the meaning of Section A.14 and section 416(g) of the Code for any Plan Year beginning after December 31, 1983, then the Plan shall meet the requirements of Section B.1, Section B.2 and Section B.3 for each such Plan Year.

B.1 Minimum Vesting Requirement. The vested interest of a Participant who is credited with an Hour of Service after the Plan becomes a Top-Heavy Plan will be determined under a schedule which is not less favorable to the Participant than the following:

Years of Service As Defined in Section 2.1(oo)(ii)	Vested Interest
Less than one	0%
One but less than two	20%
Two but less than three	40%
Three but less than four	60%
Four but less than five	80%
Five or more	100%

B.2 Minimum Benefit or Contribution Requirement.

B.2.1. This Plan shall provide a minimum annual retirement benefit for each such Plan Year for each Participant who is a Non-Key Employee in an amount equal to 2% of such Participant's average Compensation for the period of consecutive years (not exceeding five) during which the Participant had the greatest aggregate Compensation from the Employer, multiplied by the Participant's Years of Service, not to exceed 10.

B.2.2 The minimum benefit or contribution shall be made for each Non-Key Employee who is employed at the end of the Plan Year in question, regardless of whether such Non-Key Employee has been credited with 1,000 Hours of Service in such Plan Year and regardless of such Non-Key Employee's level of Compensation.

B.3 Change in Top-Heavy Status. If the Plan becomes a Top-Heavy Plan and subsequently ceases to be a Top-Heavy Plan, the vesting schedule in Section B.1 shall continue to apply in determining the vested percentage of the Accrued Benefit of any Participant who had at least five Years of Service as of the last day of the last Plan Year in which the Plan was a Top-Heavy Plan. For all other Participants, the vesting schedule in Section B.1 shall apply only to their Accrued Benefit as of such last day.

B.4 Determination of Present Values and Amounts. Effective for Plan Years beginning after December 31, 2001, this Paragraph shall apply for purposes of determining the present values of Accrued Benefits and the amounts of Account Balances of Employees as of the Determination Date.

B.4.1 The present values of Accrued Benefits and the amounts of Account Balances of an Employee as of the Determination Date shall be increased by the distributions made with respect to the Employee under the Plan and any plan aggregated with the Plan under section 416(g)(2) of the Code during the one-year period ending on the Determination Date. The preceding sentence shall also apply to distributions under a terminated plan which, had it not been terminated, would have been aggregated with the Plan under section 416(g)(2)(A)(i) of the Code. In the case of a distribution made for a reason other than severance from employment, death, or disability, this provision shall be applied by substituting "five-year period" for "one-year period."

B.4.2 The Accrued Benefits and Account Balances of any individual who has not performed services for the Employer during the one-year period ending on the Determination Date shall not be taken into account.

B.5 Minimum Benefits. Effective for Plan Years beginning after December 31, 2001, for purposes of satisfying the minimum benefit requirements of section 416(c)(1) of the Code and the Plan, in determining Years of Service with the Employer, any service with the Employer shall be disregarded to the extent that such service occurs during a Plan Year when the Plan benefits (within the meaning of section 410(b) of the Code) no Key Employee or former Key Employee.

C. Limitations on Benefits - Code Section 415 Limit.

C.1 Effective for Limitation Years ending after December 31, 2001, in no case shall the annual benefit with respect to any Participant payable under the Plan and all other Defined Benefit Plans, when expressed in the form of an annual single life annuity (with no ancillary benefits), exceed the "maximum permissible benefit" which shall be the lesser of the amount determined under Paragraph C.1.1 or C.1.2 (both adjusted where required, as provided in Paragraph C.1.3, and, if applicable, in Paragraph C.1.4 or Paragraph C.1.5):

C.1.1 the dollar limitation specified in section 415(b)(1)(A) of the Code, as in effect for the Limitation Year ($215,000 for 2017), as adjusted, effective January 1 of each year under section 415(d) of the Code in such manner as the Secretary of the Treasury shall prescribe (the "Defined Benefit Dollar Limitation")); or

C.1.2 the greater of $10,000 or 100% of the Participant's average annual Compensation received during the three consecutive years of Continuous Service (years of participation in the Plan for Limitation Years beginning before January 1, 2006) with the Employer and all 50% related employers during which they receive the greatest aggregate annual Compensation. The $10,000 restriction shall not apply if the Participant participates in any defined contribution plan maintained by the Employer, a 50% related employer or a predecessor employer. For purposes of determining the $10,000 amount, the benefit payable to the Participant under the Plan for a Limitation Year reflects all amounts payable under the Plan for the Limitation Year (except as otherwise provided in Treas. Reg. § 1.415(d)-1) and are not adjusted for faun of benefit or commencement date.

C.1.3 If the Participant has fewer than 10 years of participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction, (i) the numerator of which is the number of years (or part thereof) of participation in the Plan and (ii) the

denominator of which is 10. In the case of a Participant who has fewer than 10 Years of Service with the Employer, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of years (or part thereof) of service with the Employer and (ii) the denominator of which is 10.

C.1.4 If the benefit of a Participant begins prior to age 62, the Defined Benefit Dollar Limitation applicable to the Participant at such earlier age is an annual benefit payable in the form of a straight life annuity beginning at the earlier age that is the Actuarial Equivalent of the Defined Benefit Dollar Limitation applicable to the Participant at age 62 (adjusted under Paragraph C.1.3 above, if required). The Defined Benefit Dollar Limitation applicable at an age prior to age 62 is determined as the lesser of (i) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using the interest rate provided under Section 2.1(b), or (ii) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using a 5 percent interest rate. Any decrease in the Defined Benefit Dollar Limitation determined in accordance with this Paragraph C.1.4 shall not reflect a mortality decrement if benefits are not forfeited upon the death of the Participant. If any benefits are forfeited upon death, the full mortality decrement is taken into account.

Effective for Limitation Years beginning on and after July 1, 2007, the defined benefit dollar limitation applicable at an age prior to age 62 is determined as the lesser of (1) the actuarial equivalent at such age of the defined benefit dollar limitation computed using a 5% interest rate and the applicable mortality table under section 417(e)(3) of the Code, or (2) the amount determined by multiplying the defined benefit dollar limitation by the ratio of the annual amount of the single life annuity beginning at such earlier age (computed using the interest rate and mortality table as applicable under Section 2.1(b)) to the annual amount of the single life annuity under the Plan commencing at age 62 (with both such amounts determined without application of the rules of section 415 of the Code).

C.1.5 If the benefit of a Participant begins after the Participant attains age 65, the Defined Benefit Dollar Limitation applicable to the Participant at the later age is the annual benefit payable in the form of a straight life annuity beginning at the later age that is Actuarially Equivalent to the Defined Benefit Dollar Limitation applicable to the Participant at age 65 (adjusted under Paragraph C.1.3 above, if required). The Actuarial Equivalent of the Defined Benefit Dollar Limitation applicable at an age after age 65 is determined as the lesser of (i) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using the interest rate provided under Section 2.1(b), or (ii) the Actuarial Equivalent (at such age) of the Defined Benefit Dollar Limitation computed using a 5 percent interest rate. For these purposes, mortality between age 65 and the age at which benefits commence shall be ignored.

Effective for Limitation Years beginning on and after July 1, 2007, for benefits commencing after age 65, the dollar limitation shall be determined as the lesser of (1) the actuarial equivalent at such age of the defined benefit dollar limitation computed using an interest rate of 5% and the applicable mortality table described under section 417(e)(3) of the Code, or (2) the amount determined by multiplying the defined benefit dollar limitation by the ratio of (A) the annual amount of the single life annuity beginning at such later age (computed using the interest rate and mortality assumptions for delayed retirement benefits under the Plan,

if applicable) to (B) the annual amount of the single life annuity under the Plan commencing at age 65 (computed without using the interest rate and mortality assumptions for delayed retirement benefits under the Plan, if applicable) (with both such amounts in (A) and (B) determined without application of the rules of section 415 of the Code). The amount of the annual benefit commencing at such later age is the annual amount of the benefit (determined without regard to section 415 of the Code) computed by disregarding the Participant's accruals after age 65, but including actuarial adjustments even if such adjustments are applied to offset benefit accrual.

C.1.6 Benefit increases resulting from the increase in the limitations of section 415(b) of the Code shall be provided to all Participants with benefits limited by section 415(b) of the Code who, (i) as of January 1, 2002 have commenced receipt of their benefit under the Plan; or (ii) are credited with at least one Hour of Service on or after January 1, 2002.

C.1.7 If a Participant's benefit is payable in any form other than a straight life annuity, the determination as to whether the limitation of this Paragraph C.1 has been satisfied shall be made by adjusting such benefit to the form of a straight life annuity using an interest rate equal to the greater of 5% or the interest rate provided under Section 2.1(b). However, for purposes of such adjustment, any ancillary benefit that is not directly related to retirement income benefits and that portion of any joint and survivor annuity that constitutes a Qualified Joint and Survivor Annuity shall not be taken into account. Notwithstanding the foregoing, for purposes of adjusting any form of benefit subject to the requirements of section 417(e)(3) of the Code, the interest rate used shall not be less than the greater of (i) the applicable interest rate under section 417(e)(3) of the Code for the October immediately preceding the calendar year during which the Annuity Starting Date occurs, provided that the lump sum present value for distributions made on or before October 1, 2007, shall not be less than the lump sum present value based on the applicable interest rate under section 417(e)(3) of the Code for the third calendar month preceding the calendar month in which the Annuity Starting Date occurs, or (ii) the interest rate specified in Section 2.1(b).

Notwithstanding anything herein to the contrary, for purposes of adjusting any form of benefit subject to section 417(e)(3) of the Code for Plan Years beginning in 2004 or 2005, the interest rate used shall not be less than the greater of (i) 5.5%, or (ii) the interest rate specified in Section 2.1(b).

Notwithstanding the foregoing, effective for Limitation Years beginning on and after July 1, 2007, for purposes of applying the limitations under this Article C, if a Participant's benefits are payable in a form of benefit other than a single life annuity or a qualified joint and survivor annuity, the benefit shall be limited as follows. The benefit shall be converted to a single life annuity using the interest rate and mortality assumptions specified in the Plan for the Actuarial Equivalent of the particular form of benefit payable. The single life annuity, which has been so determined, shall be compared to the single life annuity computed using a 5% interest rate assumption (or for any form of benefit subject to section 417(e)(3) of the Code, the applicable interest rate as defined in section 417(e)(3) of the Code) and the IRS mortality table prescribed in section 415(b)(2)(E)(v) of the Code). The greater of these two amounts shall be the applicable limit for the benefit payable in a form other than a single life annuity or a qualified joint and survivor annuity.

Effective as of January 1, 2006, if a Participant's benefit is payable in a form subject to section 417(e)(3) of the Code, such benefit shall be adjusted, for purposes of applying the limitations under this Article C, so that it is the greater of (1) a straight life annuity determined using the interest rate and mortality table as applicable under Section 2.1(b), (2) a straight life annuity determined using an interest rate of 5.5% and the applicable mortality table described under section 417(e)(3) of the Code, or (3) a straight life annuity determined using the interest rate that produces a benefit of not more than 105% of the benefit that would be produced using the applicable interest rate and applicable mortality table described under section 417(e)(3) of the Code.

C.2 Applicable Mortality Table for Distributions With Annuity Starting Dates on or after December 31, 2002. Notwithstanding any other Plan provisions to the contrary, the applicable mortality table used for purposes of adjusting any benefit or limitation under section 415(b)(2)(B), (C), or (D) of the Code as set forth in this Article C (unless another mortality table is either required under section 415(b) of the Code or otherwise referenced in this Article C) is the table prescribed in Rev. Rul. 2007-67 for Plan Years beginning after December 31, 2007 (Rev. Rul. 2001-62 for Plan Years beginning before January 1, 2008), or such other table as the Secretary of the Treasury may prescribe.

C.3 Definition of Compensation. For purposes of this Article C, Compensation shall include all amounts that are treated as wages for Federal income tax withholding under section 3401(a) of the Code (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or the services performed) and actually paid to the Participant during the Limitation Year, plus amounts that would be paid to the Employee during the year but for the Employee's election under a cash or deferred arrangement described in section 401(k) of the Code, a cafeteria plan described in section 125 of the Code, a qualified transportation fringe benefit program described in section 132(f)(4) of the Code, a simplified employee pension described in section 402(h) of the Code or an annuity program described in section 403(b) of the Code.

Notwithstanding the foregoing, for Limitation Years beginning on and after July 1, 2007, Compensation includes regular pay as described in Treas. Reg. § 1.415(c)-(2)(e)(3) if paid by the end of the Limitation Year that includes the Employee's termination of employment, or if later, 2½ months after the Employee's termination of employment Any payments not described in the foregoing sentence shall not be considered Compensation if paid after separation from service, even if they are paid by the later of 2½ months after the date of separation from service or the end of the Limitation Year that includes the date of severance from employment.

C.4 Application of the provisions of this Section C of this Appendix 2 in effect for Limitation Years beginning on and after July 1, 2007, shall not cause the maximum permissible benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the Employer or a predecessor employer as of the end of the last Limitation Year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007 determined in accordance with the requirements of section 415 of the Code in effect on that date.

C.5 Notwithstanding the foregoing, the Plan hereby incorporates by reference section 415 of the Code and the regulations promulgated thereunder.

APPENDIX 3

SPECIAL SERVICE CREDITING RULES

A. General Rules.

A.1 Vesting and Benefit Accrual. The following special service crediting rules shall be applied in determining the earliest commencement date for service credit, for benefit accrual and vesting for employees of the following named subsidiaries which have, either by designation in accordance with Section 2.1(k) or by merger into a Designated Subsidiary become Designated Subsidiaries.

A.2 Eligibility for Early Retirement. For purposes of computing eligibility for Early Retirement in accordance with Section 4.2, Years of Service with a Subsidiary which has, after December 31, 1971, become a Designated Subsidiary, whether by designation in accordance with Section 2.1(k) or by merger into a Designated Subsidiary, shall be taken into account, but only after the Participant in question has completed 5 Years of Service after the first date upon which they were employed by a Designated Subsidiary.

A.3 Early Retirement Reduction Factors. Unless otherwise specified below, Years of Service for determining the applicable Early Retirement Reduction Factor under Table 1 shall be determined in the same manner as Years of Service for benefit accrual.

A.4 Break-in-Service Rules. These rules are subject to the Break-in-Service rules of Section 9.1 through 9.4 and are not to be construed to require the crediting of Years of Service for any purpose if those Years of Service are disregarded under the provisions of those Sections or under the applicable provisions in effect when the Participant in question sustained their first Break-in-Service.

B. Special Rules.

B.1 California-American Water Co. Service for all Employees who first became Employees by reason of the acquisition of California-American Water Co. shall begin no earlier than December 28, 1970 for purposes of vesting and benefit accrual. However, in determining eligibility for Early Retirement and in applying the Early Retirement Reduction Factors of Table 1, Years of Service with California-American Water Company before December 28, 1970 shall be taken into account. See Table 5 for Special Option Factors.

B.2 Hershey Water Company. Service for all purposes for [Employee Name Omitted] and [Employee Name Omitted], who are entitled to a nonforfeitable benefit under a pension plan maintained by HERCO, Inc. and its subsidiaries, shall begin April 19, 1977. For all other Employees who became Employees by reason of the acquisition of Hershey Water Company, service for all purposes shall begin on their date of hire by HERCO, Inc., nearest April 19, 1977, the date of acquisition of Hershey Water Company.

B.3 Norristown Water Company. Service for all purposes shall begin on such Employee’s date of hire nearest January 11, 1962, the date Norristown Water Company was acquired.

B.4 Paradise Valley Water Co. Service for all purposes shall begin on such Employee's date of hire nearest December 3, 1969, the date Paradise Valley Water Co. was acquired.

B.5 Village Water Company. Service for all purposes for [Employee Name Omitted] shall begin on July 10, 1967. Service for all purposes for all others shall begin December 28, 1970.

B.6 West Virginia Water Company. Service for all Employees who first became Employees by reason of the acquisition of West Virginia Water Company shall begin, for purposes of vesting and benefit accrual, no earlier than December 1, 1970. However, in determining eligibility for Early Retirement, and in applying the Early Retirement reduction factors of Table 1, Years of Service with West Virginia Water Company shall be taken into account. See Table 5 for Special Option Factors.

B.7 Yardley Water Company. Service for all purposes for Employees who became Employees by reason of the acquisition of Yardley Water Company shall begin on December 1, 1970.

B.8 Pekin Water Works Company. Service for all purposes for [Employee Name Omitted], [Employee Name Omitted] and [Employee Name Omitted] shall begin on January 1, 1982. Service for all purposes for [Employee Name Omitted], [Employee Name Omitted] and [Employee Name Omitted] will begin on their date of hire by Pekin Water Works Company nearest the date Pekin Water Works Company was acquired. Their accrued benefits under the Pekin Water Works Company Pension Trust shall be frozen as of May 1, 1982, and the retirement income benefits earned by those Employees under this Plan reduced by the amount of that frozen benefit. Service for all purposes for Employees covered by a collective bargaining agreement entered into by Pekin Water Works Company and in effect on January 1, 1982 will commence on April 1, 1982.

B.9 Seymour Water Co. Service for benefit accrual for Employees who became Employees by reason of the acquisition of Seymour Water Co. will commence on March 16, 1982. For vesting purposes, such Employees will be given credit for service with Seymour Water Co. from their date of hire nearest March 16, 1982. See Table 5 for Special Option Factors.

B.10 New Mexico-American Water Company. Service for all Employees who first became Employees pursuant to the terms of the Asset Acquisition Agreement between Clovis Water Company and New Mexico-American Water Company shall include Years of Service with Southwestern Public Service Company for purposes of determining eligibility to participate, vesting, benefit accrual, eligibility for Early Retirement under Section 4.2, including, for purposes of satisfying the minimum service requirement thereof, eligibility for Disability Retirement under Section 4.3 and eligibility for surviving spouse benefits under Section 6.1(b), and in applying the Early Retirement Reduction Factors of Table 1.

B.11 Indiana-American Water Company, Inc. Service for benefit accrual for employees previously covered by the Indiana-American Water Company, Inc. - Plumbers and Steam-Fitters Local 157 Pension Plan (Terre Haute Bargaining Unit) (the "Terre Haute Pension Plan"), shall begin on May 11, 1987. For purposes of vesting under Section 8.1 and disability retirement under Section 4.3, service for all such employees shall include service taken into account under the Terre Haute Pension Plan. Service for all such employees for purposes of eligibility for early retirement shall include all service credited under the Terre Haute Pension Plan for purposes of determining whether any such employee's age and Years of Service total at least 70, provided that no such employee shall be entitled to early retirement under the Plan before May 11, 1992.

B.12 Brownsville Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by Brownsville Water Company nearest the date that that company was acquired, which was July 1, 1990. Service for benefit accrual under the Plan for such Employee shall begin July 1, 1990.

B.13 California Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by California Water Company nearest the date that that company was acquired, which was July 1, 1990. Service for benefit accrual under the Plan for such Employee shall begin July 1, 1990.

B.14 Certain Transferred Employees. For purposes of computing the monthly normal or late retirement income under Section 5.2 of any Employee of California-American Water Company, West Virginia Water Company, Yardley Water Company, New Mexico-American Water Company or any other Subsidiary, who had been employed by the Company or a Designated Subsidiary and who was transferred to a Subsidiary that, at the time of such transfer was not, but subsequently became, a Designated Subsidiary, that Employee's service with such Subsidiary during the period before it became a Designated Subsidiary shall be credited to the same extent as if it had been performed for the Company or a Designated Subsidiary. In addition, during that interval, such Employee shall be considered a Participant for purposes of eligibility for Early Retirement under Section 4.2 and 5.4, eligibility for Disability Retirement under Section 4.3 and 5.5, and eligibility for survivor benefits under Section 6.1 and 6.3.

B.15 Northern Michigan Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Northern Michigan Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Northern Michigan Water Company shall be counted.

B.16 Ohio Suburban Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Ohio Suburban Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Ohio Suburban Water Company shall be counted.

B.17 Missouri Cities Water Company. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Missouri Cities Water Company will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Missouri Cities Water Company shall be counted.

B.18 Indiana Cities Water Corporation. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Indiana Cities Water Corporation will commence on August 31, 1993, the Closing Date under the Stock Purchase Agreement dated as of January 30, 1993. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Indiana Cities Water Corporation shall be counted.

B.19 Country Place Water Co., Inc. and Country Place Water Treatment Co., Inc. (Monroe County), PA. Service for all purposes under the Plan for non-union Employees who first became Employees by reason of the acquisition of Country Place Water Co., Inc. or Country Place Water Treatment Co., Inc. will commence on June 30, 1995.

B.20 Pennsylvania Gas and Water Company. Service for all purposes under the Plan other than for benefit accrual shall begin on such Employee's date of hire by Pennsylvania Gas and Water Company nearest February 16, 1996, the closing date under the Asset Purchase Agreement by and among Pennsylvania Enterprises, Inc., Pennsylvania Gas and Water Company, American Water Works Company, Inc. and Pennsylvania-American Water Company. Service for benefit accrual under the Plan for such Employee shall begin February 16, 1996.

B.21 Hawaii American Water. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of Hawaii American Water will commence on July 1, 1998. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Hawaii American Water shall be counted.

B.22 United Water Resources, Inc.

(a) Service for benefit accrual for employees previously covered under the United Water Resources, Inc. Retirement Plan, shall begin on the following dates:

Location	Date
United Water of Indiana	February 1, 2000
United Water of West Lafayette	February 1, 2000
United Water of Virginia	February 29, 2000
United Water of Missouri	May 1, 2000
United Water of Illinois	May 31, 2000

For eligibility to participate and vesting under the Plan, service with United Water Resources, Inc. shall be counted.

(b) Service for all purposes for Employees previously covered under the United Waterworks Inc. Employees' Retirement Plan (the "United Waterworks Plan") whose terms and conditions of employment are covered by a union contract shall include all service taken into account under the United Waterworks Plan. Accrued Benefits under the Plan shall be determined on the basis of the United Waterworks Plan formula in effect on the date(s) specified in (a) above, as applicable.

B.23 City of Coatesville Authority. Service for benefit accrual purposes for Employees who first became Employees by reason of the Asset Purchase Agreement by and between the City of Coatesville Authority and American Water Works Company, Inc. will commence on March 23, 2001, the Closing Date under the Asset Purchase Agreement dated February 15, 2000 and amended on October 5, 2000. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with the City of Coatesville Authority shall be counted.

B.24 City of Florissant, MO. Service for benefit accrual for non-union Employees who first became Employees by reason of the acquisition of City of Florissant, MO will commence on November 1, 2001. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with City of Florissant, MO shall be counted.

B.25 Texas American Water Company. Service for all purposes under the Plan for Employees who first became Employees by reason of the acquisition of Texas American Water Company on November 1, 2001, will commence on July 1, 2002.

B.26 Citizens Utilities Companies. Service for benefit accrual purposes for Employees who first became Employees by reason of the Asset Purchase Agreement by and among Citizens Utilities Company and Certain of Its Affiliates and American Water Works Company, Inc. and Arizona-American Water Company will commence on January 15, 2002, the Closing Date under the Asset Purchase Agreement dated October 15, 1999. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with Citizens Utilities Companies shall be counted.

B.27 City of Webster Groves, MO. Service for benefit accrual for Employees who first became Employees by reason of the acquisition of City of Webster Groves, MO will commence on February 8, 2002. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with City of Webster Groves, MO shall be counted.

B.28 LP Water & Sewer Company (Monroe and Pike Counties), PA. Service for benefit accrual for non-union Employees who first became Employees by reason of the acquisition of LP Water & Sewer Company (Monroe and Pike Counties), PA will commence on April 3, 2002. For eligibility to participate, vesting and eligibility for early retirement under the Plan, service with LP Water & Sewer Company (Monroe and Pike Counties), PA shall be counted.

[Personal information intentionally omitted pursuant to Item 601(a)(6) of Regulation S-K]

APPENDIX 4

SPECIAL SERVICE CREDITING RULES AND BENEFIT PROVISIONS RELATING TO NEI ACQUISITION

NON-UNION EMPLOYEES.

Effective July 1, 2001, eligible non-union employees of Northwest Indiana Water Company, Northern Illinois Water Corporation, Long Island Water Corporation and St. Louis Water Company (collectively with their subsidiaries referred to as "NEI") began participation in the Plan. The following special rules apply only to the non-union employees of NEI who were hired prior to July 1, 2001.

I. NORTHWEST INDIANA WATER COMPANY

A. "Service Crediting" means all service including service with Northwest Indiana Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Employees' Pension Plan of Northwest Indiana Water Company ("Northwest Indiana Plan") and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Date" means the first of the month following a Participant's 55th birthday and completion of 5 or more Years of Service.

C. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the fraction from the following schedule:

Lesser of: Years Until Age 65, or Years of Vesting Service less than 30	Applicable Fraction
10	15/30
9	16/30
8	17/30
7	18/30
6	19/30
5	20/30
4	22/30
3	24/30
2	26/30
1	28/30
0	30/30

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. "Normal Retirement Income"

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.667% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001 as determined under the provisions of the Northwest Indiana Plan, up to a maximum of 30 years, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

E. "Vested Benefits in the Event of Termination of Employment"

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section 1.C above.

II. LONG ISLAND WATER CORPORATION

A. "Service Crediting" means all service including service with Long Island Water Corporation (which became part of New York American Water Company, Inc. on October 4, 2012) for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Long Island Water Corporation Employees Retirement Plan ("Long Island Plan") and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced 2% for each year (1/6% for each month) subsequent to age 62, and reduced 4% for each year (1/3% for each month) prior to age 62, by which the Participant's Early Retirement Date precedes their Normal Retirement Date, in accordance with the following table:

Age at Early Retirement	Early Retirement Fraction
65	1.00
64	.98
63	.96
62	.94
61	.90
60	.86
59	.82
58	.78
57	.74
56	.70
55	.66

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. "Supplemental Early Retirement Income"

In addition to the Early Retirement Income, a Supplemental Early Retirement Income, in the yearly amount of $1,200 ($100 per month) will be payable to the Participant, commencing on their Early Retirement Date and ceasing with the earlier of their death or their attainment of age 65, provided that:

(i) the Participant is an Employee on the date they elect an Early Retirement Date, and

(ii) the sum of the Participant's age and Years of Service equals 90 units.

The yearly amount of the Supplemental Early Retirement Income will be reduced by 5% for each unit by which the sum of the Participant's age and Years of Service is less than 90.

D. "Normal Retirement Income"

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.75% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the Long Island Plan, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

In no event shall a Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Long Island Water Corporation Pension Plan as of June 30, 2001.

E. "Vested Benefits in the Event of Termination of Employment"

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section II.B above.

III. ST. LOUIS COUNTY WATER COMPANY

A. "Service Crediting" means all service including service with St. Louis County Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under The St. Louis County Water Company Pension Plan and will commence benefit accrual service effective as of July 1, 2001 under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the applicable factor from Table 4(b); plus

(ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. "Normal Retirement Income"

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.50% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the St. Louis Plan, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

D. "Vested Benefits in the Event of Termination of Employment"

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section III.B above.

IV. NORTHERN ILLINOIS WATER CORPORATION

A. "Service Crediting" means all service including service with Northern Illinois Water Corporation for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2001, non-union employees shall cease to be credited with Years of Service under the Northern Illinois Water Corporation Retirement Income Plan ("Northern Illinois Plan") and will commence benefit accrual service effective as of July 1, 2001 under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. "Early Retirement Date" means the first of the month following a Participant's attainment of age 55.

C. "Early Retirement Income" means the monthly retirement income commencing on a Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following schedule:

Number of Years Early Retirement Date Precedes Normal Retirement Date	Applicable Factor
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. "Normal Retirement Income"

Effective for any Participant retiring after June 30, 2001, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.33% of Final Average Earnings at retirement multiplied by Years of Service prior to July 1, 2001, as determined under the Northern Illinois Plan, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after July 1, 2001 to Normal or Late Retirement Date.

E. "Vested Benefits in the Event of Termination of Employment"

The benefit of any vested active Employee who terminates employment on or after July 1, 2001 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section IV.C above.

UNION EMPLOYEES.

V. INDIANA-AMERICAN WATER COMPANY, INC. (formerly Northwest Indiana Water Corporation) - UNION EMPLOYEES AT THE NORTHWEST OPERATIONS FACILITY

Effective December 31, 2002, or as soon as administratively practicable thereafter, the Northwest Indiana Water Company Retirement Plan (the "Indiana Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Effective January 1, 2003, all eligible union employees of Indiana-American Water Company, Inc. began participation in the Plan.

The following special rules apply only to each active Employee of Indiana-American Water Company, Inc. who, as of December 31, 2002, is both: (1) a member of the USWA, Local 13584 (including Local 13584-01) at the Company's northwest operations facility, and (2) a participant in the Indiana Plan (a "Local 13584 Participant"):

A. Service Crediting. All service with the Company, including service with Northwest Indiana Water Corporation and Indiana-American Water Company, Inc. shall be credited to a Local 13584 Participant for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective December 31, 2002, a Local 13584 Participant will cease to be credited with years of service under the Indiana Plan. Thereafter, a Local 13584 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Indiana Plan through December 31, 2002, plus, beginning January 1, 2003, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Date. A Local 13584 Participant's Early Retirement Date shall be the first of any month following the date they attain at least age 55 (but before age 65) and is credited with 5 Years of Service for vesting purposes.

C. Early Retirement Income. The benefit payable to a Local 13584 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

Lesser of: Years Until Age 65, or Years of Service for Vesting Purposes Less than 30	Applicable Fraction
10	15/30
9	16/30
8	17/30
7	18/30
6	19/30
5	20/30
4	22/30
3	24/30
2	26/30
1	28/30
0	30/30

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 13584 Participant retiring on and after January 1, 2003, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 13584 Participant commencing on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.667% of Final Average Earnings at retirement multiplied by Years of Service prior to January 1, 2003, as determined under the provisions of the Indiana Plan, up to a maximum of 30 years, plus;

(ii) 1.60% multiplied by Years of Service credited to the Local 13584 Participant under the terms of the Plan on and after January 1, 2003, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 13584 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Indiana Plan as of December 31, 2002.

E. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 13584 Participant who terminates employment on or after January 1, 2003, and who is not yet eligible for Early Retirement, shall be determined in accordance with Section C above.

VI. MISSOURI-AMERICAN WATER COMPANY (formerly St. Louis County Water Company) - UNION EMPLOYEES

Effective June 30, 2003, the St. Louis County Water Company Pension Plan (the "St. Louis Plan"), consisting entirely of union Employees, was merged with and into the Plan. These union Employees continued to participate under the terms of the St. Louis Plan until January 1, 2004, at which time all eligible union employees of Missouri-American Water Company began participation in the Plan.

The following special rules apply only to each active Employee of Missouri-American Water Company who, as of December 31, 2003, is both: (1) a member of the Utility Workers Union of America Affiliated with the AFL-CIO, Local 335, and (2) a participant in the St. Louis Plan (a "Local 335 Participant"):

A. Service Crediting. All service with the Company, including service with St. Louis Water Company and Missouri-American Water Company, shall be credited to a Local 335 Participant for purposes of vesting and determining eligibility for early retirement, preretirement death benefits and disability benefits.

For purposes of benefit accrual service, effective December 31, 2003, a Local 335 Participant will cease to be credited with years of service under the St. Louis Plan. Thereafter, a Local 335 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the St. Louis Plan through December 31, 2003, plus, beginning January 1, 2004, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Income. The benefit payable to a Local 335 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

Age	Applicable Factor
64	.970
63	.941
62	.913
61	.885
60	.859
59	.833
58	.808
57	.784
56	.760
55	.737

plus

(ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. Normal Retirement Income. Effective for any Local 335 Participant retiring on and after January 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 335 Participant payable on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.50% multiplied by years of service credited to the Local 335 Participant under the terms of the St. Louis Plan through December 31, 2003, multiplied by their Final Average Earnings as defined by the Plan;

plus

(ii) 1.60% multiplied by Years of Service credited to the Local 335 Participant under the terms of the Plan on and after January 1, 2004, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 335 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the St. Louis Plan as of December 31, 2003.

D. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 335 Participant who terminates employment on or after January 1, 2004, and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.

VII. LONG ISLAND WATER CORPORATION - UNION EMPLOYEES

Effective June 30, 2004, the Long Island Water Corporation Employees Retirement Plan (the "Long Island Plan"), consisting entirely of union Employees, was merged with and into the Plan. Effective July 1, 2004, all eligible union Employees of Long Island Water Company began participation in the Plan. Effective October 4, 2012, Long Island Water Corporation merged with New York Water Services Corporation, Aqua New York, Inc. and Aqua New York of Sea Cliff, Inc. to form New York American Water Company, Inc.

A. Special Rules for Union Employees Hired Prior to July 1, 2004. The following special rules apply only to each active Employee of New York American Water Company, Inc. (formerly Long Island Water Corporation) who, as of June 30, 2004 was both: (1) a member of the Utility Workers Union of America Local 365 at the Company's Long Island, New York facility, and (2) participating in the Long Island Plan (a "Local 365 Participant"):

(i) Service Crediting. All service with the Company, including service with Long Island Water Corporation and New York American Water Company, Inc., shall be credited to a Local 365 Participant for purposes of vesting, determining eligibility for early retirement, preretirement death benefits and disability benefits.

For purposes of benefit accrual service, effective June 30, 2004, a Local 365 Participant will cease to be credited with years of service under the Long Island Plan.

Thereafter, a Local 365 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Long Island Plan through June 30, 2004, plus, beginning July 1, 2004, any additional benefit service credited under the terms of the Plan.

(ii) Early Retirement Income. The benefit payable to a Local 365 Participant on their Early Retirement Date shall be their normal retirement benefit as determined under Section C multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

(iii) Normal Retirement Income. Effective for any Local 365 Participant retiring on or after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 365 Participant on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of the following:

(a) 1.75% multiplied by years of service credited to the Local 365 Participant under the terms of the Long Island Plan through June 30, 2004, multiplied by their Final Average Earnings, as defined by the Plan, as of the earlier of July 31, 2010 or their actual termination of employment; plus

(b) 1.60% multiplied by Years of Service credited to the Local 365 Participant under the terms of the Plan on and after July 1, 2004 but before January 1, 2008, multiplied by their Final Average Earnings, as defined by the Plan, as of the earlier of July 31, 2010 or their actual termination of employment; plus

(c) the greater of:

(1) 1.60% multiplied by Years of Service credited to the Local 365 Participant under the terms of the Plan on and after August 1, 2010 through their date of retirement or other termination employment, multiplied by their Final Average Earnings, as defined by the Plan, as of their actual termination of employment; or

(2) 1.60% multiplied by Earnings, as defined by the Plan, for each Year of Service credited under the terms of the Plan on and after August 1, 2010 but before January 1, 2013.

In no event shall a Local 365 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Long Island Plan as of June 30, 2004.

(iv) Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 365 Participant who terminates employment on or after July 1, 2004 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.

B. Normal Retirement Income - Special Rules for Union Employees Hired On and After July 1, 2004. The following special rules apply only to an Employee of New York American Water Company, Inc. (formerly Long Island Water Corporation) who was hired on or after July 1, 2004, and is a member of the Utility Workers Union of America Local 365 at the Company's Long Island, New York facility ("New Local 365 Participant"). A New Local 365 Participant shall, upon meeting the eligibility

requirements of Section 3.1 of the Plan, commence participation under the terms of the Plan except as otherwise provided in this Section B.

Effective for any New Local 365 Participant hired before January 1, 2006, except as modified by the provisions of Section 6.1(a) of the Plan, a New Local 365 Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.60% multiplied by Years of Service credited to the New Local 365 Participant on and after July 1, 2004 but before January 1, 2006, multiplied by their of Final Average Earnings as of the earlier of December 31, 2005 or their actual termination of employment; plus

(ii) the greater of:

(a) 1.60% multiplied by Years of Service credited to the New Local 365 Participant under the terms of the Plan on and after January 1, 2006 through their date of retirement or other termination employment, multiplied by their Final Average Earnings, as defined by the Plan, as of their actual termination of employment; or

(b) 1.60% multiplied by Earnings for each Year of Service credited to the New Local 365 Participant on and after January 1, 2006 but before January 1, 2013.

VIII. ILLINOIS-AMERICAN WATER COMPANY (formerly Northern Illinois Water Corporation) - UNION EMPLOYEES AT CHAMPAIGN, ILLINOIS

Effective June 30, 2004, the Northern Illinois Water Corporation Retirement Income Plan (the "Northern Illinois Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Effective July 1, 2004, all eligible union employees of Illinois-American Water Company began participation in the Plan.

Employees of Illinois-American Water Company who are members of the IBEW Local 51 at the Company's Sterling, Illinois facility continue to participate under the terms of the former Northern Illinois Plan, as described in Article IX of this Appendix 4.

The following special rules apply only to each active Employee of Illinois-American Water Company who, as of June 30, 2004, is both: (1) a member of the Utility Workers Union of America, Local 500 at the Company's Champaign, Illinois facility, and (2) a participant in the Northern Illinois Plan (a "Local 500 Participant"):

A. Service Crediting. All service with the Company, including service with Northern Illinois Water Corporation and Illinois-American Water Company, shall be credited to a Local 500 Participant for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective June 30, 2004, a Local 500 Participant will cease to be credited with years of service under the Northern Illinois Plan. Thereafter, a

Local 500 Participant's benefit accrual service shall consist of benefit accrual service credited under the terms of the Northern Illinois Plan through June 30, 2004, plus, beginning July 1, 2004, any additional benefit service credited under the terms of the Plan.

B. Early Retirement Date. A Local 500 Participant's Early Retirement Date shall be the first of any month following their attainment of age 55 but before age 65.

C. Early Retirement Income. The benefit payable to a Local 500 Participant commencing on their Early Retirement Date shall be a monthly amount equal to the sum of:

(i) their normal retirement benefit as determined under Section D(i) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

Number of Years Early Retirement Date Precedes Normal Retirement Date	Applicable Factor
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

plus

(ii) their normal retirement benefit as determined under Section D(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 500 Participant retiring on and after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 500 Participant commencing on their Normal or Late Retirement Date shall be a monthly amount equal to the sum of:

(i) 1.33% multiplied by years of service credited to the Local 500 Participant under the terms of the Northern Illinois Plan through June 30, 2004, multiplied by their Final Average Earnings as defined by the Plan; plus

(ii) 1.60% multiplied by Years of Service credited to the Local 500 Participant under the terms of the Plan on and after July 1, 2004, multiplied by their Final Average Earnings as defined by the Plan.

In no event shall a Local 500 Participant's Accrued Benefit be less than their Accrued Benefit earned under the terms of the Northern Illinois Plan as of June 30, 2004.

E. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 500 Participant who terminates employment on or after July 1, 2004 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section C above.

IX. ILLINOIS-AMERICAN WATER COMPANY (formerly Northern Illinois Water Corporation) - UNION EMPLOYEES AT STERLING, ILLINOIS

Effective June 30, 2004, the Northern Illinois Water Corporation Retirement Income Plan (the "Northern Illinois Plan"), consisting of two different groups of union employees, was merged with and into the Plan. Employees of Illinois-American Water Company who were members of the IBEW Local 51 at the Company's Sterling, Illinois facility continued to participate under the terms of the former Northern Illinois Plan, as described in this Article IX prior to July 1, 2012. This Article IX is updated effective July 1, 2012, in accordance with the most recent collective bargaining agreement.

The following special rules apply only to each active Employee of Illinois-American Water Company who was: (1) as of June 30, 2004, both: (a) a member of the IBEW Local 51 at the Company's Sterling, Illinois facility, and (b) a participant in the Northern Illinois Plan; or (2) hired on or after July 1, 2004, but prior to February 1, 2009, as a member of the IBEW Local 51 at the Company's Sterling, Illinois facility (collectively "Local 51 Participants"). Except as otherwise provided under this Article IX, a Local 51 Participant shall participate in and be subject to all provisions of the Plan.

A. Definitions. All capitalized terms which are not defined below shall have the meaning given to them under Section 2.1 of the Plan.

(i) "Actuarial Equivalent" means, effective July 1, 2012, a benefit of equivalent value determine in accordance with Section 2.1(b) of the Plan; provided, however, notwithstanding any other Plan provision to the contrary, the value of an optional form of benefit (other than for benefit determinations subject to the requirements of section 417(e)(3) of the Code) elected by a Local 51 Participant with an Annuity Starting Date on or after July 1, 2012, will not be less than the value of that optional form of benefit based on their accrued benefit as of June 30, 2012, an interest rate of 7.5 percent and the mortality table as set forth in Revenue Ruling 95-6.

(ii) "Compensation" means, for purposes other than the limitations under Appendix 2, the total earnings paid or made available to an Employee by the Employer plus contributed by the Employer pursuant to a salary reduction agreement and which are not includible in the gross income of the employee under sections 125, 132(f)(4), 402(e), 402(h), or 403(b) of the Code. Compensation shall exclude overtime pay, shift or Sunday premiums and special compensation.

(iii) "Average Compensation" means, on any April 1, the average of a Local 51 Participant's monthly Compensation for those five consecutive 12-month periods (all 12-month periods if less than five) which give the highest average out of the final ten 12-month periods (all 12-month periods if less than ten) of employment with the Employer. Solely for purposes of this paragraph, a "12-month period" shall mean the 12-month period beginning on July 1 of a calendar year and ending in June 30 of the following calendar year.

(iv) "Early Retirement Age" means age 55.

(v) "Early Retirement Date" means the first day of any month on or after a Local 51 Participant reaches their Early Retirement Age but before their Normal Retirement Date, and on which they commence their benefit. A Local 51 Participant who has terminated employment with the Employer with a vested benefit before reaching their Early Retirement Age may elect an early retirement benefit upon reaching their Early Retirement Age.

(vi) "Qualified Joint and Survivor Annuity" means a joint and survivor annuity that is the Actuarial Equivalent of the normal form of benefit for an unmarried Local 51 Participant that provides a monthly annuity for the life of the Local 51 Participant's surviving spouse equal to 50% of the monthly annuity payable during the joint lives of the Local 51 Participant and their spouse.

(vii) "Required Beginning Date" means, solely for purposes of this Article IX, the April 1 of the calendar year following the calendar year in which the Local 51 Participant attains age 70-½.

(viii) "Required Contribution Account" means, on any date, the total of a Local 51 Participant's Required Contributions with interest. Contributions previously paid to the Local 51 Participant or applied for them, and any interest that would have been credited on those contributions, shall be excluded. On and after April 1, 1988, interest shall be credited in each Plan Year at the rate of 120% of the Federal mid-term rate (as in effect under section 1274 of the Code for the first month of the Plan Year) per annum compounded annually. Before April 1, 1988, interest was credited at the rate specified in the Plan as in effect on the day immediately before April 1, 1988. Interest shall be credited on each Required Contribution from the end of the Plan Year for which it was made until the month prior to the date of determination.

(ix) "Required Contributions" means nondeductible contributions required from a Local 51 Participant prior to. January 1, 1967 (August 1, 1966 for any Employee of the Champion Division.)

(x) "Required Contribution. Accrued Benefit" means the amount of monthly retirement benefit payable in the form of a Single Life Annuity accrued by a Local 51 Participant which is derived from their Required Contributions.

(xi) "Single Life Annuity" means a monthly benefit payable for the life of the Local 51 Participant with a modified cash refund of their Required Contribution Account, if any.

B. Participation. An eligible Employee who is a member of the IBEW Local 51 at the Company's Sterling, Illinois facility (other than an Employee hired or rehired on or after February 1, 2009) shall commence participation under this Article IX on the first day of the month coincident with or next following the date on which they: (1) attain age 21; and (2) complete one Year of Service for eligibility purposes.

C. Early Retirement Income. The benefit payable to a Local 51 Participant commencing on their Early Retirement Date shall be determined as follows:

(i) Terminated or Retired Prior to July 1, 2012. If the Local 51 Participant terminates employment or retires prior to July 1_ 2012, their benefit commencing on their Early Retirement Date shall be their normal retirement benefit as determined under Section D reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table:

Number of Years Early Retirement Date Precedes Normal Retirement Date	Applicable Factor
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

(ii) Terminated or Retired on or after July 1, 2012. If the Local 51 Participant terminates employment or retires on or after July 1, 2012, their benefit commencing on their Early Retirement Date shall be the sum of

(a) their normal retirement benefit as determined under Sections D(ii)(a) and D(ii)(c) reduced to reflect the early commencement of benefits by multiplying such benefit by the factor from the following table

Number of Years Early Retirement Date Precedes Normal Retirement Date	Applicable Factor
1	.97
2	.94
3	.91
4	.88
5	.85
6	.82
7	.79
8	.76
9	.73
10	.70

and

(b) their normal retirement benefit as determined under Section D(ii)(b) as of their Early Retirement Date multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to the Plan as Table 1.

D. Normal Retirement Income. Effective for any Local 51 Participant retiring on and after July 1, 2004, except as modified by the provisions of Section 6.1(a) of the Plan, the benefit payable to a Local 51 Participant commencing on their Normal Retirement Date shall be determined as follows:

(i) Terminated or Retired Prior to July 1, 2012. If the Local 51 Participant terminates employment or retires prior to July 1, 2012, their benefit shall be a monthly amount equal to the sum of:

(a) 1.33% of their Average Compensation multiplied by their Years of Service; plus

b) $1 for each $144 of their Required Contribution Account, if any.

(ii) Terminated or Retired on or after July 1, 2012. For any Local 51 Participant who continues to be actively employed on or after July 1, 2012, their benefit shall be a monthly amount equal to the sum of:

(a) 1.33% times Years of Service prior to July 1, 2012 times Final Average Earnings; plus

(b) 1.60% times Years of Service on or after July 1, 2012 times Final Average Earnings; plus

(c) $1 for each $144 of their Required Contribution Account, if any.

(iii) A Local 51 Participant may commence receipt of their normal retirement benefit on their Normal Retirement Date regardless of whether they are still employed by the Employer on such date.

E. Late Retirement Income. The benefit payable to a Local 51 Participant commencing on their Late Retirement Date shall be the greatest of:

(i) their normal retirement benefit as determined under Section D on their Late Retirement Date; or

(ii) their normal retirement benefit determined as of June 30, 2012 under Section D multiplied by the factor shown below corresponding to the number of years their Late Retirement Date follows their Normal Retirement Date

Number of Years Late Retirement Date Follows Normal Retirement Date	Applicable Factor
1	1.0600
2	1.1200
3	1.1900
4	1.2600
5	1.3400
6	1.4200
7	1.5000
8	1.5900
9	1.6900
10	1.7900

The above factors shall be prorated for a partial year (counting a partial month as a complete month). Factors for numbers of years beyond 10 shall be determined using a consistently applied reasonable actuarially equivalent method; or

(iii) with respect to a Local 51 Participant whose Late Retirement Date occurs after their Required Beginning Date, their normal retirement benefit as determined under Section D (determined as of June 30, 2012) multiplied by the factor in Section E(ii) for I year past Normal Retirement Date, prorated for a partial year based on the number of months in the period (counting a partial month as a complete month).

The amount in this Section E(iii) shall be redetermined after each subsequent April 1 based on the retirement benefit that would have been paid on their Required Beginning Date (determined as if their Late Retirement Date had occurred on their Required Beginning Date) multiplied by the factor in Section E(ii) for 1 year past Normal Retirement Date, prorated for a partial year based on the number of months since such Yearly Date (counting a partial month as a complete month).

Such greatest amount so determined applies to an active Local 51 Participant, who (1) is not a five-percent owner, (2) has attained age 701/2, and (3) makes an election to defer commencement of their retirement benefit until the calendar year following the calendar year in which they retire.

F. Minimum Benefit. An active Local 51 Participant's benefit payable as a Single Life Annuity shall not be less than the greatest amount of benefit that would have been provided for them had they retired on any earlier retirement date. In any event, an active Local 51 Participant's retirement benefit payable as a Single Life Annuity on their retirement date will not be less than the greater of their Required Contribution Account Accrued Benefit on their retirement date, multiplied by the appropriate factor if their retirement date is an Early Retirement Date, or the monthly benefit payable as a Single Life Annuity which is the Actuarial Equivalent of their Required Contribution Account on such date.

G. Vesting. A Local 51 Participant shall have no vested interest in their Accrued Benefit until they have been credited with five Years of Service for vesting purposes, at which time they shall have a 100% vested interest in their Accrued Benefit determined under this Article IX. Notwithstanding the foregoing, a Local 51 Participant who is actively employed by the Employer shall have a 100% vested interest in their Accrued Benefit upon reaching their Early Retirement Age or Normal Retirement Age.

A Local 51 Participant's Required Contribution Account is fully 100% vested and nonforfeitable at all times.

H. Vested Benefits in the Event of Termination of Employment. The benefit of any vested active Local 51 Participant who terminates employment on or after July 1, 2004 shall be:

(i) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Early Retirement Date, an amount determined in accordance with Section H(ii) below multiplied by the applicable early retirement factor in Section C above.

(ii) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Normal Retirement Date, an amount equal to the sum of (a) and (b):

(a) the Local 51 Participant's Required Contribution Accrued Benefit as of the date of determination (or the date the Required Contribution Account is paid in a single sum, if earlier);

(b) the excess of the Local 51 Participant's Accrued Benefit on the day before they terminated employment over the amount determined under (a) above but not less than $0.

(iii) in the case of a Local 51 Participant who elects to commence their deferred vested benefit on their Late Retirement Date, an amount equal to:

(a) if they terminated on or before their Normal Retirement Date, an amount equal to the amount under Section H(ii) above multiplied by the late retirement factor in Section E(ii) which corresponds to the number of years their Late Retirement Date follows their Normal Retirement Date; or

(b) if they terminated after their Normal Retirement Date, an amount equal to the greater of:

(1) their Accrued Benefit on the day before they terminated employment with the Employer; or

(2) their Accrued Benefit on their Normal Retirement Date multiplied by the late retirement factor in Section E(ii) which corresponds to the number of years their Late Retirement Date follows their Normal Retirement Date.

Provided, however, for a terminated Local 51 Participant whose Late Retirement Date occurs after their Required Beginning Date, their deferred monthly retirement benefit determined in Section H(iii)(a) or (b) of this Article IX, whichever applies, shall be adjusted as provided in Section E(iii) of this Article IX.

I. Forms of Distribution.

(i) Normal Form for Unmarried Local 51 Participants. The normal form of distribution for an unmarried Local 51 Participant shall be a Single Life Annuity as defined in Section A(xi) of this Article IX.

(ii) Normal Form for Married Participants. If a Participant is married on their Annuity Starting Date, their retirement income will be paid to them in the form of a Qualified Joint and Survivor Annuity.

(iii) Required Contribution Account. A Local 51 Participant may elect, subject to the notice and election procedures of Section 6.2 of the Plan, as applicable, to receive their Required Contribution Account in a single-sum payment at any time after they cease to be an Employee and before their retirement date, provided they are not reemployed by the Employer.

(iv) Survivor Benefits Available by Election. A Local 51 Participant who is actively employed on or after July 1, 2012 may elect, subject to the notice and election provisions of Section 6.2 of the Plan, as applicable, to provide benefits for their Contingent Annuitant as described in Section 6.4.

J. Preretirement Survivor Annuity.

(i) Eligibility for Preretirement Survivor Annuity. If a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant dies on or after July 1, 2012 but before their Annuity Starting Date, their surviving spouse or Contingent Annuitant, as applicable, shall receive a Preretirement Survivor Annuity as provided in this Section J. If a Local 51 Participant dies prior to July 1, 2012, the benefit, if any, payable to their spouse or Contingent Annuitant shall be determined under the provisions of the Plan in effect prior to July 1, 2012.

(ii) Death Prior to Early Retirement Eligibility, After Completing Five, But Not Yet Ten Years of Service. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant on or after the date they have competed at least five Years of Service but before they have completed at least ten Years of Service or become eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's

spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Local 51 Participant's death or (B) the date the Local 51 Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant terminated their service, survived to age 55, elected the 50% contingent annuity form of benefit, as determined under Table 2 based on their and their spouse's or Contingent Annuitant's then attained ages, and then died.

(iii) Death Prior to Early Retirement Eligibility but After Completing Ten Years of Service. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant on or after the date they have completed at least ten Years of Service but prior to becoming eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the later of (A) the date of the Local 51 Participant's death or (B) the date the Local 51 Participant would have attained age 55 had they survived. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on the day before their death, or at age 55 if the date of death is prior to the date the Local 51 Participant attains age 55, elected to receive the 100% contingent annuity form of benefit and then died. The amount of such benefit shall be determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, except that for purposes of applying Table 4, the Local 51 Participant's attained age, if less than age 55, shall be considered to be age 55 and their is spouse's or Contingent Annuitant's age shall be adjusted so that it bears the same relationship to age 55 as their actual attained ages bear to each other.

(iv) Death After Becoming Eligible for Early Retirement. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant while they are eligible for Early Retirement, whether such Local 51 Participant is then actively employed or not, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant is then surviving, on the first day of the month coincident with, or next following the date of the Local 51 Participant's death. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on the day before their death, elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, and then died.

(v) Death After Becoming Eligible for Normal Retirement. In the event of the death of a married Local 51 Participant or an unmarried Local 51 Participant who has designated a Contingent Annuitant while actively employed after their Normal Retirement Date, such Local 51 Participant's spouse or Contingent Annuitant, as applicable, shall be entitled to a benefit, payable, if such spouse or Contingent Annuitant

is then surviving, on the first day of the month coincident with, or next following the date of the Local 51 Participant's death. The amount of such benefit shall be the same amount that such surviving spouse or Contingent Annuitant would have received had such Local 51 Participant retired on their Late Retirement Date, elected to receive the 100% contingent annuitant form of benefit as determined under Table 4, based on their attained age and the attained age of their spouse or Contingent Annuitant, and then died.

(vi) Any benefit payable under this Section J shall terminate on the surviving spouse's or Contingent Annuitant's death.

(vii) Notwithstanding anything in this Section J to the contrary, if a single-sum death benefit would otherwise be payable under Section K below, the monthly benefit payable to the spouse or Contingent Annuitant, as applicable, under this Section J shall not be less than the monthly benefit which is the Actuarial Equivalent of the single-sum death benefit at the date benefits start.

K. Single-Sum Death Benefit. If the requirements of Section J above have not been met on the date a Local 51 Participant dies, a single-sum death benefit equal to their Required Contribution Account on the date they died, if any, shall be payable to the Local 51 Participant's spouse, if any, or to the Local 51 Participant's estate. If the requirements of Section J above have been met on the date such Local 51 Participant dies, but the Local 51 Participant's spouse or Contingent Annuitant dies before the preretirement survivor annuity starts, this single-sum death benefit, determined as of the date of the spouse's or Contingent Annuitant's death, shall be paid to the Local 51 Participant's estate.

L. Disability Retirement Income.

(i) A Local 51 Participant who has completed 10 or more Years of Service, and who qualifies for disability retirement under this Section L shall be retired as of the first day of the month following the first month in which the Administration Committee has received both (i) the Local 51 Participant's written request for disability retirement, and (ii) evidence reasonably satisfactory to the Administration Committee that the Local 51 Participant has been determined by the United States Social Security Administration to qualify for total and permanent disability benefits under the Social Security Act. A Local 51 Participant shall be eligible for disability retirement benefits if, as a result of mental or physical illness or injury (other than self-inflicted) while actively employed, they qualify for disability benefits under the Social Security Act. Disability benefit payments shall commence in either the month in which the disabled Local 51 Participant is retired, as described above, or in the next following month, as may be administratively practicable. Such payments under the Plan shall be made retroactively to the first day of the month following the date as of which the Local 51 Participant is deemed to be disabled by the Social Security Administration, or, if later, to the last day of the Local 51 Participant's eligibility for continuation of the Local 51 Participant's salary or hourly wages as sick pay under an applicable Employer sick pay plan. The sum of any retroactive payments shall be paid in a lump sum, without interest, as part of the first monthly payment of disability benefits. A Local 51 Participant shall provide such reasonable evidence of continued Social Security disability as the Administration Committee may require from time to time. Disability benefits shall be discontinued if the Local 51 Participant ceases to qualify for disability benefits under the Social Security Act.

(ii) "Disability Retirement Date" means the date a Participant retires before their Normal Retirement Date in accordance with the provisions of Section L(i).

(iii) A Local 51 Participant who retires under the provisions of Section L(i) before their Normal Retirement Date shall be entitled to receive for life, or as long as their disability continues to qualify under the Social Security Act, a monthly retirement income commencing on their Disability Retirement Date in an amount equal to the benefit which they would have received pursuant to Section D based on their Years of Service and Final Average Earnings as of their Disability Retirement Date, without reduction for early commencement. Notwithstanding the above, if a Local 51 Participant is not actively employed (meaning engaged in work duties for the Employer) on or after July 1, 2012, their benefit shall be determined under the provisions of the Plan in effect prior to July 1, 2012.

(iv) A Local 51 Participant who becomes disabled, while actively employed, on or after attaining age 65, shall be considered to have retired under Section D or Section E, as applicable, and will be entitled to a monthly retirement income, if any, in an amount determined under Section D or E and Section 6.1(a), as applicable.

APPENDIX 5

SPECIAL SERVICE CREDITING RULES AND BENEFIT PROVISIONS RELATING TO MERGER OF EMPLOYEES' RETIREMENT PLAN OF ELIZABETHTOWN WATER COMPANY

Effective January 1, 2006, the Employees' Retirement Plan of Elizabethtown Water Company (the "Elizabethtown Plan") was amended to provide that the benefit of all non-union participants would continue to be paid from the Elizabethtown Plan trust, however all benefits would become payable in accordance with the terms of the Pension Plan for Employees of American Water Works Company, Inc. And Its Designated Subsidiaries provided that certain protected benefits and features would continue to apply. The Elizabethtown Plan was also amended to provide that all Local 423 union employees hired or rehired on or after April 1, 2006 and all Local 68 union employees hired or rehired on or after May 1, 2006 were not eligible to commence or recommence participation in the Elizabethtown Plan.

Effective December 31, 2006, the Elizabethtown Plan was merged with and into the Plan, assets were transferred from the Elizabethtown Plan trust to the Trust for the Plan, and eligible employees of Elizabethtown Water Company began participation in the Plan. The following special rules apply only to the non-union and union employees who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006.

NON-UNION EMPLOYEES.

The following special rules apply only to non-union employees who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006 (the "Non-union Participants").

A. Definitions. All capitalized terms which are not defined below shall have the meaning given to them under Article 2 of the Plan.

(i) "Compensation" means regular earnings paid to an Employee, including contributions made by an Employee to a Code section 125 or 401(k) plan, but excluding bonuses, overtime pay, special pay and all other Employer contributions to benefit plans.

(ii) "Early Retirement Date" means the first of the month following a Non-union Participant's 55th birthday and completion of 10 or more Years of Service.

(iii) "Final Average Earnings" determined for periods beginning on and after January 1, 2006 and before January 1, 2011 shall be based on:

(a) the Non-union Participant's "Compensation" (as defined in Section A(i) above) for the portion of the applicable 60 consecutive months which occurred before January 1, 2006; and

(b) the Non-union Participant's "Earnings" (as defined in Section 2.1(n)) for the portion of the applicable 60 consecutive months which occurred on and after January 1, 2006.

(iv) "Service Crediting" or "Years of Service" means all service including service with Elizabethtown Water Company for purposes of vesting and for purposes of determining entitlement to Early Retirement.

For purposes of benefit accrual service, effective January 1, 2006, Non-union Participants shall cease to be credited with Years of Service under the Elizabethtown Plan and will commence benefit accrual service under the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries.

B. Early Retirement Income means the monthly retirement income commencing on a Non-union Participant's Early Retirement Date in an amount equal to the sum of:

(i) their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by 5/12 of 1% for each month that the commencement of payments precedes their Normal Retirement Date (or, if the Non-union Participant has completed at least 25 Years of Service, the reduction shall apply for each month that the commencement of payments precedes their attainment of age 60); plus

(ii) their normal retirement benefit as determined under Section C(ii) multiplied by the appropriate factor, determined by their attained age and Years of Service at their Early Retirement Date, as set forth in the Schedule of Early Retirement Factors attached to this Plan as Table 1.

C. Normal Retirement Income.

Effective for any Non-union Participant retiring after January 1, 2006, except as modified by the provisions of Section 6.1(a) of the Plan, a Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the sum of the following:

(i) 1.60% of Final Average Earnings at retirement multiplied by Years of Service prior to January 1, 2006 as determined under the provisions of the Elizabethtown Plan, up to a maximum of 40 years, plus

(ii) 1.60% of Final Average Earnings at retirement multiplied by Years of Service after January 1, 2006 to Normal or Late Retirement Date.

D. Vested Benefits in the Event of Termination of Employment.

The benefit of any vested Non-union Participant who terminates employment on or after January 1, 2006 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above.

E. Lump Sum Option.

In addition to the optional forms of payment provided under Section 6.3 of the Plan, if the Actuarially Equivalent present value of a Non-union Participant's vested Accrued Benefit is less than $15,000, they may elect to receive their benefit in the form of a single lump sum payment.

UNION EMPLOYEES.

The following special rules apply only to Local 423 union employees hired before April 1, 2006 and all Local 68 union employees hired before May 1, 2006 who had accrued a benefit under the Elizabethtown Plan as of December 31, 2006 (the "Union Participants").

A. Definitions. All capitalized terms which are not defined below shall have the meaning given to them under Section 2.1 of the Plan.

(i) "Actuarial Equivalent" means an amount of equal value when computed on the basis of the 1978 Group Annuity Mortality Table (1971 Group Annuity Mortality Table Projected to 1978 with scale E) and an interest rate of 5% per annum. An average of male and female rates shall be used. For purposes of determining lump sum present values for distributions with an Annuity Starting Date on and after December 31, 2006, the calculation shall be made using the applicable interest rate under section 417(e)(3) of the Code for the October immediately preceding the calendar year during which the Annuity Starting Date occurs, provided that the lump sum present value for distributions made on or before December 31, 2007, shall not be less than the lump sum present value based on the applicable interest rate under section 417(e)(3) of the Code for the December preceding the calendar year in which the Annuity Starting Date occurs.

(ii) "Average Monthly Compensation" means the average of the Union Participant's "Compensation" (as defined in Section A(iv) below) for any four consecutive calendar years during the period beginning with 1966 and ending on the date their employment terminates which produces the highest average.

(iii) "Beneficiary" means the person, persons or trust entitled to receive the payments, if any, made with respect to a Union Participant after such Participant's death.

(iv) "Compensation" means regular earnings paid to a Union Participant, including contributions made by a Union Participant to a Code section 125 or 401(k) plan, but excluding bonuses, overtime pay, special pay and all other Employer contributions to benefit plans. Compensation shall also include amounts paid to a Union Participant by Elizabethtown Water Company, or any of its participating affiliates, and credited as "Compensation" under the Elizabethtown Plan prior to the merger on December 31, 2006.

(v) "Early Retirement Date" means the first of the month following a Union Participant's 55th birthday and completion of 10 or more Years of Service.

(vi) "Elizabethtown Plan" means the Employees' Retirement Plan of Elizabethtown Water Company, as in effect on December 31, 2006, the date it was merged with and into the Plan.

(vii) "Qualified Joint and Survivor Annuity" or "QJSA" means an annuity for the life of the Union Participant with a survivor annuity for the life of such Participant's surviving Spouse which is equal to 50% of the amount which is payable during the joint lives of the Union Participant and their Spouse.

(viii) "Service Crediting" or "Years of Service". A Union Participant shall be credited with a Year of Service for each Plan Year during which they complete at least 1,000 Hours of Service with the Designated Subsidiary; provided, however, that a Union Participant shall be credited with a Year of Service for the period beginning July 1, 2022 and ending on June 30, 2023 if they complete at least 1,000 Hours of Service during such period. Years of Service shall also include periods of service with Elizabethtown Water Company or its participating affiliates credited under the Elizabethtown Plan as "Credited Service" prior to the merger on December 31, 2006. Notwithstanding the foregoing, the maximum number of Years of Service credited under the Plan shall be 40.

(ix) "Spouse" means the husband or wife to whom the Union Participant had been married throughout the one-year period preceding the earlier of their Annuity Starting Date or date of their death.

B. Early Retirement Income. A Union Participant's monthly retirement income commencing on a Union Participant's Early Retirement Date shall be an amount equal to their normal retirement benefit as determined under Section C(i) reduced to reflect the early commencement of benefits by multiplying such benefit by 5/12 of 1% for each month that the commencement of payments precedes their Normal Retirement Date (or, if the Union Participant has completed at least 25 Years of Service, the reduction shall apply for each month that the commencement of payments precedes their attainment of age 60).

C. Normal or Late Retirement Income.

A Union Participant's monthly retirement income commencing on their Normal or Late Retirement Date shall be an amount equal to the greater of (i) or (ii) as follows:

(i) 1.60% of Average Monthly Compensation at retirement multiplied by Years of Service, up to a maximum of 40 years, or

(ii) their Accrued Benefit as of December 31, 1995, calculated under the terms of the prior Elizabethtown Plan as then effective.

D. Disability. A Union Participant shall not be eligible for any disability retirement benefit under the Plan unless such Union Participant (1) is a Local 423 union employee hired before April 1, 2006 who had a benefit under the Elizabethtown Plan as of December 31, 2006, and (2) becomes eligible for a disability retirement benefit under Section 4.3 of the Plan on or after February 1, 2009 while actively employed by New Jersey-American Water Company, Inc. (formerly known as the Elizabethtown Water Company). A Union Participant who is a Local 68 union employee shall not be eligible for any disability retirement benefit under the Plan.

E. Vested Benefits in the Event of Termination of Employment.

The benefit of any vested Union Participant who terminates employment on or after January 1, 2006 and who is not yet eligible for Early Retirement, shall be determined in accordance with Section B above. Such Union Participant shall be entitled to receive their benefit beginning with the month following their Normal Retirement Date and shall not be eligible to receive their benefit upon termination as provided in Section 8.2(b).

F. Forms of Benefit Payment.

(i) Normal Forms of Payment.

(a) The normal form of retirement benefit for an unmarried Union Participant shall be a monthly annuity for the life of such Participant continuing until the last payment due before their death. An unmarried Union Participant may elect an optional form of payment in lieu of the normal form pursuant to the notice and election procedures under the Plan.

(b) The normal form of retirement benefit for a Union Participant who has been married throughout the one-year period preceding their Annuity Starting Date shall be a Qualified Joint and Survivor Annuity or QJSA. Such a Participant may elect the normal form of benefit for an unmarried Participant or an optional form of benefit under this Section F. The Union Participant's election of an optional form of benefit will be valid only if their Spouse consents to their election in writing, signed before a notary public, pursuant to the notice and election procedures set forth in the Plan.

(ii) Optional Forms of Payment. Subject to the spousal waiver provision described above (if applicable) and in lieu of the normal form of benefit payment, a Union Elizabethtown Participant may elect one of the optional fauns of benefit payment:

(a) 100% Contingent Annuitant Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but after their death 100% of such reduced retirement income shall be paid for life to their Spouse. The amount of reduced retirement income payable to the Participant shall be 80% of the amount otherwise payable. Such reduced retirement income shall be further reduced, or increased, by 1% for each year by which the Union Participant's Spouse is more than five years younger, or older, than the Participant. However, in no event shall the retirement income payable under this option be greater than that payable in the absence of an option.

(b) 50% Contingent Annuitant Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but after their death 50% of such reduced retirement income shall be paid for life to their Spouse. The amount of reduced retirement income payable to the Participant shall be 90% of the amount otherwise payable. Such reduced retirement income shall be further reduced, or increased, by one-half percent (½%) for each year by which the Union Participant's Spouse is more than five years younger, or older, than the Participant. However, in no event shall the retirement income payable under this option be greater than that payable in the absence of an option.

(c) Five-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 60 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 60 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 98% of the amount otherwise payable to them.

(d) Ten-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 120 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 120 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 94% of the amount otherwise payable to them.

(e) Fifteen-Year Certain Option. The amount of retirement income to be paid to the Union Participant shall be reduced, but in the event of their death prior to receiving 180 monthly payments, the same amount of retirement income shall be continued to their Beneficiary until a combined total of 180 monthly payments have been made. The amount of reduced retirement income payable to the Participant shall be 88% of the amount otherwise payable to them.

(f) Lump Sum Option. If the Actuarially Equivalent present value of a Union Participant's vested Accrued Benefit is less than $15,000, they may elect to receive their benefit in the form of a single lump sum payment.

G. Death Benefits. The provisions of this Section shall apply to any vested Union Participant whether or not they have terminated employment with the Employer. Sections 6.3 and 6.4 shall not apply to any Union Participant. In addition, the Automatic Surviving Spouse Benefit under Section 6.1 of the Plan shall not apply to any Union Participant, however Section 6.2(d) (Notice and Election Procedures) for Qualified Joint and Survivor Annuity, shall apply to all Union Participants.

(i) Qualified Preretirement Survivor Annuity (QPSA).

(a) Death After Earliest Retirement Age. If a vested active or terminated vested Union Participant dies after the Earliest Retirement Age (as defined below), the Participant's Spouse or Beneficiary will receive the same benefit that would be payable if the Participant had retired with an immediate QJSA on the day before their date of death.

(b) Death Before Earliest Retirement Age If a vested active or terminated vested Union Participant dies on or before the Earliest Retirement Age, the Participant's Spouse or Beneficiary will receive the same benefit that would be payable if the Participant had:

(1) separated from service on the date of death,

(2) survived to the Earliest Retirement Age,

(3) elected to receive an immediate QJSA at the Earliest Retirement Age, and

(4) died on the day after the Earliest Retirement Age.

Notwithstanding the provisions of this Section, if the value of the QPSA is less than $5,000, the Administration Committee shall direct the immediate distribution of the Actuarial Equivalent thereof in a single lump sum in cash to the Union Participant's Spouse or Beneficiary.

(c) Reduction in Benefit. The benefit payable to the Spouse or Beneficiary will be reduced by 1/6 of one percent for each month that the date of birth of the Spouse or Beneficiary is more than five years after the date of birth of the deceased Union Participant.

(d) Death Benefit after Commencement of Benefits. The benefits, if any, payable as a result of death after the commencement of benefits shall be governed by the payment option in effect in accordance with Section F.

(e) Earliest Retirement Age, for the purpose of this Section, is the earliest date on which, under the Plan, the Union Participant could elect to receive retirement benefits.

(f) Qualified Joint and Survivor Annuity. For purposes of this Section, the definition of Qualified Joint and Survivor Annuity set forth in Section A is changed by substituting the term "Beneficiary" in place of the term "Spouse" wherever it is used therein.

(g) Benefits Payable to Beneficiaries. The death benefit payable pursuant to the provisions of this Section G(g) shall be payable to a Beneficiary only if the Union Participant has no Spouse, unless a valid spousal waiver has been obtained, in accordance with Section G(ii)(d).

(ii) Beneficiary Designation.

(a) Each Union Participant shall have the right to designate one or more Beneficiaries and contingent Beneficiaries to receive any benefit payable under Section G(i)(d) by filing a written designation with the Administration Committee on the form prescribed by the Administration Committee.

(b) If the Union Participant has elected an annuity with a contingent annuitant option, the election of the contingent annuitant shall be irrevocable as of the Annuity Starting Date.

(c) If the Union Participant has elected an annuity with a guaranteed number of monthly payments or commuted death benefit, such Union Participant may thereafter designate a different Beneficiary to receive the guaranteed monthly payments or commuted death benefit at any time by filing a new written designation with the Administration Committee.

(d) Notwithstanding the foregoing, if a married Union Participant designates a contingent annuitant or Beneficiary other than their Spouse and their Spouse does not consent to such designation in writing witnessed by a notary public or a representative of the Administration Committee in a manner prescribed by the Administration Committee, then the Union Participant's Spouse shall be the Participant's sole Beneficiary. A Spouse's consent to the Union Participant's Beneficiary designation given in accordance with the Administration Committee's rules shall be irrevocable by the Spouse with respect to the Beneficiary then designated by the Union Participant unless the Participant makes a new Beneficiary designation.

(e) Any written designation shall become effective only upon its receipt by the Administration Committee. If the Beneficiary designated pursuant to this Section should die on or before distribution of benefits and the Union Participant fails to make a new designation, then their Beneficiary shall be determined pursuant to Section G(iii). The Beneficiary of guaranteed monthly payments shall select the form of distribution in accordance with Section G(iv).

(iii) Beneficiary List. If (1) a Union Participant omits or fails to designate a Beneficiary, (2) no designated Beneficiary survives the Union Participant or (3) the Administration Committee determines that the Union Participant's Beneficiary designation is invalid for any reason, then any guaranteed monthly payments or commuted benefit payable after the death of the Union Participant shall be paid to their Spouse, or if the Union Participant is not survived by their Spouse, then to their estate. If the Union Participant's designated Beneficiary dies after the Union Participant, but before distribution of all guaranteed monthly payments, then the balance of the payments shall be paid to the Beneficiary's estate.

(iv) Manner and Form of Payment.

(a) Death benefits under Section G shall be distributed over a period not extending beyond five years of the Union Participant's date of death unless (1) payment of benefits commenced in the form of an annuity under Section E before the Union Participant's date of death, in which case benefits shall be distributed at least as rapidly as under the method of distribution in effect on the Union Participant's date of death, or (2) the benefit is payable to the Union Participant's designated Beneficiary and the projected distribution period does not exceed the life expectancy of such Beneficiary, provided distribution begins not later than one year after the date of the Participant's death or such later date as applicable regulations under the Code may permit.

(b) Notwithstanding the provisions of this Section, if the value of the death benefit is less than $5,000, the Administration Committee shall direct the immediate

distribution of the Actuarial Equivalent thereof in a single lump sum in cash to the Union Participant's Spouse or Beneficiary.

(v) Distribution of Employee Contributions. If a Union Participant dies prior to retirement and their Spouse is not eligible for a death benefit under Section G, their Beneficiary shall be paid a lump sum amount equal to the contributions, if any, which they made to the Elizabethtown Plan, including interest. Interest will be compounded annually to the date of death based on the following rates:

(a) from the date of contribution to December 31, 1987 at the rate of 5%;

(b) from January 1, 1988 to the date of death at the rate of 120 percent of the Federal mid-term rate as in effect under section 1274 of the Code for the first month of the Plan Year

APPENDIX 6

ARIZONA-NEW MEXICO EMPLOYEES

Effective July 1, 2011, the following Participants shall not be eligible to receive any benefit or future benefit under the Plan –

**AWW PARTICIPANTS ON WHOSE BEHALF
BENEFITS WERE TRANSFERRED TO
THE PENSION PLAN FOR EMPLOYEES OF
ARIZONA-AMERICAN WATER COMPANY AND
NEW MEXICO-AMERICAN WATER COMPANY**

APPENDIX 7

CONTINUED BENEFIT ACCRUAL SERVICE FOR NON-UNION TRANSFERRED EMPLOYEES UNDER SECTION 2.1(oo)(iii) (TRANSFERRED FROM AMERICAN WATER SERVICE COMPANY, INC. TO AMERICAN WATER ENTERPRISES, INC.)

The following non-union Participants who transferred from American Water Works Service Company, Inc. to American Water Enterprises, Inc. effective December 26, 2011 shall continue to be credited with Years of Service on and after December 26, 2011 for purposes of benefit accrual, as well as for vesting and for meeting the eligibility requirements for survivor benefits or for Normal, Late, Early or Disability Retirement Date, until such Participant subsequently terminates employment or is transferred from their December 26, 2011 classification to an ineligible employment classification:

[Personal information intentionally omitted pursuant to Item 601(a)(6) of Regulation S-K.]

APPENDIX 8

TRANSFERRING NYAWC PARTICIPANTS

1.1 Application.

The provisions of this Appendix shall apply to Transferring NYAWC Participants. "Transferring NYAWC Participants" include all of following individuals:

(a) all participants and former participants in the Plan who, as of December 31, 2021, (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and Liberty Utilities Co. to be subject to the pension transfer described in Section 1.3 of this Appendix 8; and

(b) [Employee Name Omitted], but solely with respect to the portion of their benefit under the Plan that was covered under the John Hancock Group Annuity Contract No. 334.

For purposes of clarification, the term "Transferring NYAWC Participant" shall also include beneficiaries or alternate payees of the foregoing Participants and former Participants.

1.2 Transferring NYAWC Participant Benefit Freeze.

Effective as of December 31, 2021 at 11:59 pm, with respect to each Transferring NYAWC Participant, Accrued Benefit shall be frozen. For purposes of benefit accrual, Earnings and Continuous Service shall be determined without regard to any period on or after January 1, 2022.

1.3 Transferring NYAWC Participant Post-Freeze Transfer.

Effective as of January 1, 2022, all of the Plan assets and benefit liabilities with respect to Transferring NYAWC Participants shall be transferred to the defined benefit pension plan designated by Liberty Utilities and its related trust. Following the transfer of assets and liabilities taking effect, a Transferring NYAWC Participant shall not be eligible to accrue additional benefits and shall not remain a Participant under the Plan with respect to benefits accrued prior to January 1, 2022, and New York American Water Company, Inc. shall not be a Designated Subsidiary under the Plan.

[Personal information intentionally omitted pursuant to Item 601(a)(6) of Regulation S-K.]

LIST OF TABLES OMITTED FROM FILING

The following tables to the attached Pension Plan have been omitted from Exhibit 10.16 pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted tables to the U.S. Securities and Exchange Commission upon request.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, M. Susan Hardwick certify that:

1. I have reviewed this annual report on Form 10-K of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

Statements included in Item 1—Business, Item 1A—Risk Factors, and Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations, and in other sections of this Annual Report on Form 10-K, or incorporated by reference therein, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's growth and portfolio optimization strategies, including the timing and outcome of pending or future acquisition activity; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount and allocation of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to execute its current and long-term business, operational and capital expenditures strategies; the Company's ability to finance current operations, capital expenditures and growth initiatives by accessing the debt and equity capital markets; the outcome and impact on the Company of governmental and regulatory proceedings and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the impacts to the Company of the ongoing COVID-19 pandemic; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts related to customer, technology and work execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the factors discussed under Item 1A—Risk Factors, and the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates and regulatory responses to the ongoing COVID-19 pandemic;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water, such as may result from conservation efforts, impacts of the COVID-19 pandemic, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions, the COVID-19 pandemic, or other factors;
- changes in laws, governmental regulations and policies, including with respect to environmental, health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern, public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics (including COVID-19) and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;

- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;
- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain and replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means;
- the Company's ability to obtain permits and other approvals for projects and construction of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, electricity, fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
  - acquiring, closing and successfully integrating regulated operations and market-based businesses;
  - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
  - realizing anticipated benefits and synergies from new acquisitions;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS") and its New York subsidiary, including:
  - the Company's ability to receive any contingent consideration provided for in the HOS sale, as well as amounts due, payable and owing to the Company from time to time under the seller note when due; and
  - the ability of the Company to redeploy successfully and timely the net proceeds of these transactions into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement and security regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;
- the Company's exposure to liabilities related to environmental laws and similar matters resulting from, among other things, water and wastewater service provided to customers;
- changes in general economic, political, business and financial market conditions, including without limitation conditions and collateral consequences associated with the COVID-19 pandemic;
- access to sufficient debt and/or equity capital on satisfactory terms and when and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;
- fluctuations in the value of benefit plan assets and liabilities that could increase the Company's cost and funding requirements;

- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation, (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs, and (iii) the Company's ability to utilize its state income tax net operating loss ("NOL") carryforwards;
- migration of customers into or out of the Company's service territories;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges related to the Company's goodwill or other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract qualified employees;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above and the risk factors included in Item 1A—Risk Factors and other statements contained in this Annual Report on Form 10-K, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Annual Report on Form 10-K was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

PART I

ITEM 1. BUSINESS

The Company

With a history dating back to 1886, American Water is the largest and most geographically diverse, publicly-traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. A holding company originally incorporated in Delaware in 1936, the Company employs approximately 6,400 professionals who provide drinking water, wastewater and other related services to over 14 million people in 24 states. The Company conducts the majority of its business through regulated utilities that provide water and wastewater services, collectively presented as the "Regulated Businesses." The Company also operates market-based businesses that provide complementary services. Individually, these businesses do not meet the criteria of a reportable segment in accordance with generally accepted accounting principles in the United States ("GAAP"), and are collectively presented as the "Market-Based Businesses," which is consistent with how management assesses the results of these businesses.

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests of the HOS subsidiaries. See Item 1—Business—Market-Based Businesses—Sale of Homeowner Services Group below and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

On January 1, 2022, the Company completed the sale of its New York subsidiary, see Item 1—Business—Regulated Businesses—Sale of New York American Water Company, Inc. below and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021 and 2020.

Throughout this Annual Report on Form 10-K, unless the context otherwise requires, references to "we," "us," "our," the "Company," and "American Water" mean American Water Works Company, Inc. and its subsidiaries, taken together as a whole. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries.

Regulated Businesses

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers. The Company's utilities operate in approximately 1,700 communities in 14 states in the United States, with 3.4 million active customers in its water and wastewater networks. Services provided by the Company's utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions ("PUCs"). Federal, state and local governments also regulate environmental, health and safety, and water quality and water accountability matters. The Company reports the results of the services provided by its utilities in the Regulated Businesses segment. Operating revenues for the Regulated Businesses were $3,384 million for 2021, $3,255 million for 2020 and $3,094 million for 2019, accounting for 86%, 86% and 86%, respectively, of the Company's total operating revenues for the same periods.

Presented in the table below is a geographic summary of the Regulated Businesses' operating revenues and the number of customers the Company serves, by type of service, for and as of the year ended December 31, 2021:

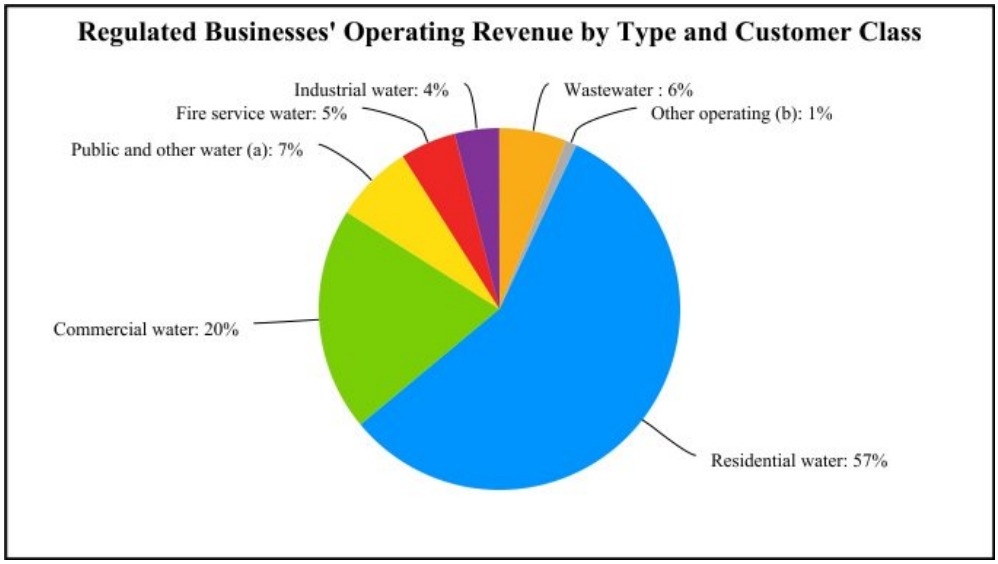
	Operating Revenues (in millions)				Number of Customers (in thousands)			
	Water (a)	Wastewater	Total	% of Total	Water	Wastewater	Total	% of Total
New Jersey	$ 778	$ 48	$ 826	24.4 %	660	55	715	20.3 %
Pennsylvania	688	82	770	22.8 %	677	82	759	21.5 %
Missouri	337	12	349	10.3 %	474	17	491	13.9 %
Illinois	303	37	340	10.0 %	295	69	364	10.3 %
California	265	3	268	7.9 %	187	3	190	5.4 %
Total—Top Five States (b)	2,371	182	2,553	75.4 %	2,293	226	2,519	71.4 %
New York (c)	127	—	127	3.8 %	127	—	127	3.6 %
Other (d)	678	26	704	20.8 %	849	35	884	25.0 %
Total Regulated Businesses	$ 3,176	$ 208	$ 3,384	100.0 %	3,269	261	3,530	100.0 %

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(b) The Company's "Top Five States" are determined based upon operating revenues.

(c) The Company completed the sale of its New York subsidiary on January 1, 2022.

(d) Includes the Company's utility operations in the following states: Georgia, Hawaii, Indiana, Iowa, Kentucky, Maryland, Michigan, Tennessee, Virginia and West Virginia and other revenue attributable collectively to the Regulated Businesses. The Company completed the sale of its Michigan subsidiary on February 4, 2022.



Customers

The Company's Regulated Businesses have a large and geographically diverse customer base. A customer is defined as a person, business, municipality or any other entity that purchases the Company's water or wastewater services as of the last business day of a reporting period. One single customer may purchase the Company's services for use by multiple individuals or businesses. Examples of these customers are homes, apartment complexes, businesses and governmental entities.

The vast majority of the Company's regulated water customers are metered, which allows the Company to measure and bill for its customers' water usage, typically on a monthly basis. The Company employs a variety of methods of customer meter reading to monitor consumption. These methods range from meters with mechanical registers where consumption is manually recorded by meter readers, to meters with electronic registers capable of transmitting consumption data to proximity devices or via radio frequency to mobile or fixed network data collectors. The Company's wastewater customers are billed either a flat rate or based upon their water consumption.

Residential customers make up a substantial portion of the Company's customer base in all of the states in which it operates. The Company also serves (i) commercial customers, such as food and beverage providers, commercial property developers and proprietors, and energy suppliers, (ii) fire service customers, where the Company supplies water through its distribution systems to public fire hydrants for firefighting purposes and to private fire customers for use in fire suppression systems in office buildings and other facilities, (iii) industrial customers, such as large-scale manufacturers, mining and production operations, (iv) public authorities, such as government buildings and other public sector facilities, including schools and universities, and (v) other utilities and community water and wastewater systems in the form of bulk contracts for the supply of water or the treatment of wastewater for their own customers.

The following chart depicts the allocation of the Company's Regulated Businesses' operating revenue of $3,384 million by type, including a breakout of the total water services revenues by class of customer, for the year ended December 31, 2021:

(a) Includes water revenues from public authorities and other utilities and community water systems under bulk contracts.

(b) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

Presented in the table below is the number of water and wastewater customers the Company served by class as of December 31, 2021, 2020 and 2019, which represents approximately 14 million people served as of December 31, 2021:

	2021		2020		2019	
(In thousands)	Water	Wastewater	Water	Wastewater	Water	Wastewater
Residential	2,972	245	2,948	236	2,914	215
Commercial	225	15	225	15	222	13
Fire service	52	—	50	—	49	—
Industrial	4	—	4	—	4	—
Public and other (a)	16	1	17	1	16	1
Total	3,269	261	3,244	252	3,205	229

(a) Includes public authorities and other utilities and community water and wastewater systems under bulk contracts. Bulk contracts, which are accounted for as a single customer in the table above, generally result in service to multiple customers.

Customer growth in the Company's Regulated Businesses is primarily from (i) adding new customers to its customer base through acquisitions of water and/or wastewater utility systems, (ii) population growth in its authorized service areas, and (iii) sale of water to other water utilities and community water systems.

Capital Investment

The Company plans to invest between $28 billion and $32 billion over the next 10 years for capital improvements, including acquisitions, to its Regulated Businesses' water and wastewater infrastructure, largely for pipe replacement and upgrading aging water and wastewater treatment facilities. The Company has proactively improved its pipe renewal rate from a 250-year replacement cycle in 2009 to an expected 110-year replacement cycle by 2026, which it anticipates will enable the Company to replace nearly 2,200 miles of mains and collection pipes between 2022 and 2026. In addition, from 2022 to 2026, the Company's capital investment in treatment plants, storage tanks and other key, above-ground facilities is expected to increase, further addressing infrastructure renewal, resiliency, water quality, operational efficiency, technology and innovation, and emerging regulatory compliance needs. Additionally, the Company continues to invest significantly in resiliency projects to address the impacts of climate and weather variability by hardening its assets. The benefit of investing in resiliency projects was seen firsthand in the aftermath of Tropical Depression Ida, when the Company's New Jersey subsidiary reported that all its operating areas successfully withstood widespread flooding and drinking water quality was not impacted in any of its service areas. Specifically, the New Jersey subsidiary's Raritan-Millstone Water Treatment Plant, which was fortified with a $37 million flood protection project in 2018, withstood a record flood and continued to provide potable water supply for approximately 1 million people in parts of seven counties in central New Jersey.

Regulation and Rate Making

The operations of the Company's Regulated Businesses are generally subject to regulation by PUCs in the states in which they operate, with the primary responsibility of the PUCs being the promotion of the overall public interest by balancing the interest of customers and utility investors. Specific authority might differ from state to state, but in most states, PUCs review and approve rates charged to customers, accounting treatments, long-term financing programs and cost of capital, operation and maintenance ("O&M") expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers and acquisitions, and dispositions, along with imposing certain penalties or granting certain incentives. Regulatory policies vary from state to state and can change over time. These policies will affect the timing, as well as the extent, of recovery of expenses and the realized return on invested capital.

Periodic changes in customer rates generally occur through the filing of a rate case by the utility with the PUC. The timing of rate case filings is typically determined by either periodic requirements in the regulatory jurisdiction or by the utility's need to increase its revenue requirement to recover capital investment costs, changes in operating revenues, operating costs or other market conditions. The Company attempts to minimize "regulatory lag," which is the time between the occurrence of an event that triggers a change in the utility's revenue requirement and the recognition in rates of that change.

The Company's Regulated Businesses support regulatory practices at the PUCs and state legislatures that mitigate the adverse impact of regulatory lag. Presented in the table below are examples of approved regulatory practices:

Regulatory Practices	Description	States Allowed
Infrastructure replacement surcharge mechanisms	Allows rates to change periodically, outside a general rate case proceeding, to reflect recovery of capital investments made to replace infrastructure necessary to sustain safe and reliable services for the Company's customers. These mechanisms typically involve periodic filings and reviews to ensure transparency.	IA, IL, IN, KY, MO, NJ, PA, TN, VA, WV
Future test year	A "test year" is a period used for setting rates, and a future test year describes the first 12 months that new rates are proposed to be effective. The use of a future test year allows current or projected revenues, expenses and capital investments to be collected on a more timely basis.	CA, HI, IA, IL, IN, KY, PA, TN, VA
Hybrid test year	A historical test year sets rates using data from a 12-month period that ends prior to a general rate case filing. A hybrid test year allows an update to historical data for "known and measurable" changes that occur subsequent to the historical test year.	MD, MO, NJ, WV
Utility plant recovery mechanisms	Allows recovery of the full return on utility plant costs during the construction period, instead of capitalizing an allowance for funds used during construction ("AFUDC"). In addition, some states allow the utility to seek pre-approval of certain capital projects and associated costs. In this pre-approval process, the PUC may assess the prudency of such projects.	CA, IL, KY, PA, TN, VA
Expense mechanisms	Allows changes in certain operating expenses, which may fluctuate based on conditions beyond the utility's control, to be recovered outside of a general rate case proceeding or deferred until the next general rate case proceeding.	CA, IL, MD, MO, NJ, PA, TN, VA
Revenue stability mechanisms	Adjusts rates periodically to ensure that a utility recovers the revenues authorized in its general rate case, regardless of sales volume, including recognition of declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently.	CA, IL
Consolidated tariffs	Use of a unified rate structure for water systems owned and operated by a single utility, which may or may not be physically interconnected. The consolidated tariff pricing structure may be used fully or partially in a state, and is generally used to moderate the price impact of periodic fluctuations in local costs, while lowering administrative costs for customers. Pennsylvania also permits a blending of water and wastewater revenue requirements.	CA, IA, IL, IN, KY, MD, MO, NJ, PA, VA, WV
Deferred accounting	A regulators' willingness to defer recognition of financial impacts when setting rates for utilities.	All

The Company pursues enhancements to these regulatory practices to facilitate efficient recovery of its costs and capital investments and to continue to provide safe, clean, reliable and affordable services to its customers. The ability to seek regulatory treatment using the regulatory practices described above does not guarantee that the PUCs will accept the Company's proposal in the context of a particular rate case, and these regulatory practices may reduce, but not eliminate, regulatory lag associated with traditional rate making processes. It is also the Company's strategy to expand the use of these mechanisms in areas where they may not currently apply and enhance certain mechanisms where they already exist.

Acquisitions and Strategic Growth

The U.S. water and wastewater industries include investor-owned systems as well as municipal systems that are owned and operated by local governments or governmental subdivisions. According to the U.S. Environmental Protection Agency ("EPA"), as of 2017, approximately 84% of the water market is served by municipal systems and approximately 98% of the country's wastewater systems are government owned. The EPA also estimates, as of 2017, that there are approximately 50,000 community water systems and approximately 15,000 community wastewater systems in the United States, with approximately 80% of the community water systems serving a population of 3,000 or less.

A fundamental aspect of the Company's growth strategy is to pursue acquisitions of water and/or wastewater systems in geographic proximity to areas where the Company operates its Regulated Businesses, see Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations for additional information. The proximity of acquisition opportunities to the Company's regulated footprint allows it to integrate and manage the acquired systems and operations primarily using the Company's existing management (although the Company typically retains the majority, if not all, of the employees of the acquired systems) and to achieve operational efficiencies and prioritize capital investment needs. The Company's current customer mix of 93% water and 7% wastewater also presents strategic opportunities for wastewater growth and systems consolidation, allowing the Company to add wastewater customers where it already serves water customers. The Company intends to continue to expand its regulated footprint geographically by acquiring water and wastewater systems in its existing markets and, if appropriate, pursuing acquisition opportunities in certain domestic markets where the Company does not currently operate its Regulated Businesses. Before entering new regulated markets, the Company will evaluate the business and regulatory climates to ensure that it will have the opportunity to achieve an appropriate rate of return on its investment while maintaining its high standards for providing safe, reliable and affordable services to its customers, as well as a line of sight to grow the Company's base customers to attain efficiencies after entering the new domestic market.

Increasingly stringent environmental, health and safety, and water quality and water accountability regulations, the amount of infrastructure in need of significant capital investment, financial challenges and industry legislation are several elements, among others, that may drive more municipalities to consider selling their water and wastewater assets.

Sale of New York American Water Company, Inc.

On January 1, 2022, the Company completed the sale of its New York subsidiary to Liberty Utilities (Eastern Water Holdings) Corp. ("Liberty"), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Under the terms of the Stock Purchase Agreement, dated November 20, 2019, as amended, by and among the Company, the Company's New York subsidiary and Liberty (the "Stock Purchase Agreement"), Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of $608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations had approximately 127,000 customers in the State of New York. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Industry Legislation

On November 15, 2021, the Infrastructure Investment and Jobs Act (the "IIJA") was signed into law and provides for up to $55 billion to aid in improving the country's ailing water infrastructure, including $23.4 billion for drinking water and wastewater, $15 billion for lead service line replacement (through the drinking water state revolving fund), and $10 billion for the treatment of per- and polyfluoroalkyl substances ("PFAS") and other contaminants of emerging concern. The bill also includes a low-income assistance program, which provides eligible low-income customers who receive their water from public and private entities to be eligible to participate in the program. The Company is awaiting further guidance on the distribution of these funds.

In December 2020, Congress passed, and the President signed into law, a $900 billion COVID-19 relief and $1.4 trillion U.S. government appropriations package for 2021, which included $638 million for a low-income water assistance program and $2.8 billion for capitalization grants under the Clean Water and Drinking Water State Revolving Funds.

In 2017, New Jersey enacted the Water Quality Accountability Act (the "WQAA"), which sets operational standards for all water utilities in New Jersey, including municipal and investor-owned utilities with more than 500 service connections. This law imposes requirements in areas such as asset management, water quality reporting, remediation of notices of violation, and hydrant and valve maintenance. The WQAA requires the most senior water manager, or either the executive director for municipal utility authorities or the mayor or chief executive officer for municipally owned public water systems, to certify that the system meets the requirements under the WQAA. Enhanced WQAA legislation includes additional enforcement requirements for disclosure of results, requires the sale of systems for prolonged violations and imposes new cyber security requirements and asset management plans. The new amendments, which provide for both civil and criminal penalties for falsification of documents, were signed by the Governor with an effective date of November 8, 2021.

In 2018, Indiana passed a law to set minimum operational expectations for all water and wastewater utilities in the state, including municipal and investor-owned utilities. The law requires water and wastewater utilities to conduct rate analyses, develop capital asset management plans and conduct cybersecurity and water loss audits. It also requires water and wastewater utilities to participate in regional discussions and planning to assess opportunities for the more efficient use of water and wastewater utility assets and infrastructure. Water and wastewater utilities that fail to comply with the requirements of the law may be ineligible for grants and loans from the State Revolving Fund. Under the law, all new municipal and investor-owned utilities are required to be regulated by the Indiana Utility Regulatory Commission for ten years from inception of operations.

In 2020, Missouri enacted the Water Safety and Security Act, which requires small and medium-sized water providers to create cybersecurity, valve inspection and hydrant inspection programs. Upon request by the Missouri Department of Natural Resources, the water providers must certify compliance with all regulations regarding water quality sampling, testing and reporting, hydrant and valve testing and reporting and cybersecurity plans and procedures.

The Company's regulated subsidiaries in California, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, New Jersey, Pennsylvania, Tennessee, Virginia and West Virginia have access to utility valuation legislation and regulation for private sector investment in public sector water and wastewater systems. The Company supports full optionality for municipalities, including state legislation that enables the consolidation of the largely fragmented water and wastewater industries through third-party fair market valuations of purchased property. Fair market value assessment of water and wastewater systems is an alternative to the traditional depreciated original cost method of valuation, which allows the Company to offer municipalities a purchase price for their system assets that is reflective of the assets' fair market value, while providing the Company with increased opportunity to recover the purchase price over the life of the purchased system assets, subject to PUC approval. In 2021, the Tennessee Public Utilities Commission implemented acquisition valuation rules that create a mechanism to value water and wastewater assets based upon replacement cost new less depreciation.

Consolidated tariffs use a unified rate structure for systems owned and operated by a single utility, which may or may not be physically interconnected. Consolidated tariff pricing moderates the impact of periodic fluctuations in local costs and promotes a more universal water infrastructure investment in a state. As a result, consolidated tariffs can make it easier to incorporate new systems into an existing utility, support economies of scale for even the smallest of systems and prioritize capital needs across the state. Overall, the Company believes that consolidated tariffs bring cost-effective, high-quality services to a larger number of customers. Eleven of the Company's regulated jurisdictions currently have some form of consolidated tariff pricing, including California, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, New Jersey, Pennsylvania, Virginia and West Virginia.

Competition

The Company's Regulated Businesses generally do not face direct competition in their existing markets because (i) the Company operates in those markets pursuant to franchises, charters, certificates of public convenience and necessity or similar authorizations (collectively, "CPCNs") issued by state PUCs or other authorities, and (ii) the high cost of constructing a new water and wastewater system in an existing market creates a significant barrier to market entry. However, the Company's Regulated Businesses do face competition from governmental agencies, other investor-owned utilities, large industrial customers with the ability to provide their own water supply/treatment process and strategic buyers that are entering new markets and/or making strategic acquisitions. When pursuing acquisitions, the Company's largest investor-owned competitors, based on a comparison of operating revenues and population served, include Essential Utilities, Inc., Suez North America, American States Water Company and California Water Service Group. From time to time, the Company also faces competition from infrastructure funds, multi-utility companies and others, such as Algonquin Power and Utilities Corp., Eversource Energy and Corix.

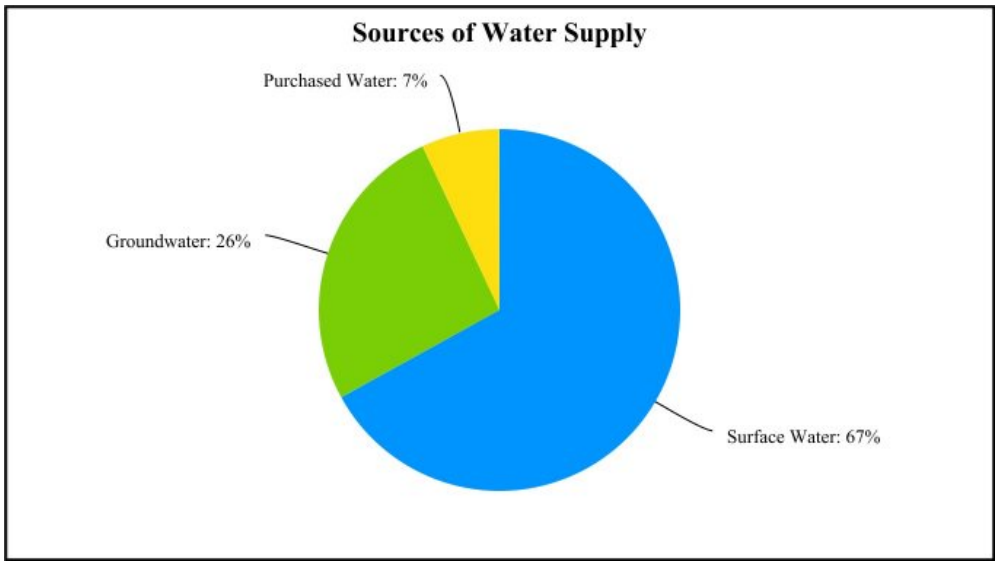
Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original CPCN was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law, or may be negotiated or fixed by appraisers as prescribed by the law of the state or in the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, a citizens group in Monterey, California successfully added "Measure J" to the November 2018 election ballot asking voters to decide whether the Monterey Peninsula Water Management District (the "MPWMD") should conduct a feasibility study concerning the potential purchase of the Monterey water service system assets (the "Monterey system assets") of the Company's California subsidiary, and, if feasible, to proceed with a purchase of those assets without an additional public vote. This service territory represents approximately 40,000 customers. In November 2018, Measure J was certified to have passed. In August 2019, the MPWMD's General Manager issued a report that recommends that the MPWMD board (1) develop criteria to determine which water systems should be considered for acquisition; (2) examine the feasibility of acquiring the Monterey system assets and consider public ownership of smaller systems only if the MPWMD becomes the owner of a larger system; (3) evaluate whether the acquisition of the Monterey system assets by the MPWMD is in the public interest and sufficiently satisfies the criterion of "feasible" as provided in Measure J; (4) ensure there is significant potential for cost savings before agreeing to commence an acquisition; and (5) develop more fully alternate operating plans before deciding whether to consider a Resolution of Necessity.

In November 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (1) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (2) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (3) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. On June 12, 2020, the MPWMD issued a draft environmental impact report for the potential acquisition of the Monterey system assets and a related district boundary adjustment that would be required if the MPWMD were to acquire and operate certain of the Monterey system assets located outside the MPWMD's boundaries. On September 15, 2020, the MPWMD gave notice of its intention to appraise the Monterey system assets and related property interests. On September 29, 2020, the Company's California subsidiary declined to make the Monterey system assets and related property interests available for inspection or to comply with any of the other requests contained in the MPWMD's notice. On October 7, 2020, the MPWMD issued a final environmental impact report ("FEIR"), and on November 4, 2020, the MPWMD certified the FEIR, which purports to analyze the environmental impacts of the MPWMD's project to (1) acquire the Monterey system assets through the power of eminent domain, if necessary, and (2) expand its geographic boundaries to include all parts of this system. On November 25, 2020, the Company's California subsidiary filed a petition challenging this certification in court. A hearing on the matter was held on August 30, 2021, and on November 19, 2021, the court denied the petition. See Item 3—Legal Proceedings—Challenge of Certification—Proposed Monterey System Final Environmental Impact Report.

On February 26, 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. On June 28, 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. On December 6, 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. On January 5, 2022, LAFCO's commissioners confirmed the denial. On January 31, 2022, the MPWMD filed an application for reconsideration of LAFCO's confirmation of denial. A hearing on the application has been set for February 28, 2022.



Also, five municipalities in the Chicago, Illinois area (approximately 30,300 customers in total) formed a water agency and filed an eminent domain lawsuit against the Company in January 2013, seeking to condemn the water pipeline that serves those five municipalities. Before filing its eminent domain lawsuit, the water agency made an offer of $38 million for the pipeline. The parties have filed with the court updated valuation reports. A valuation trial was originally scheduled for October 2021 but has been continued to June 2022.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Water Supply and Wastewater Services

The Company's Regulated Businesses generally own the physical assets used to store, pump, treat and deliver water to its customers and collect, treat, transport and recycle wastewater. Typically, the Company does not own the water, which is held in public trust and is allocated to the Company through contracts, permits and allocation rights granted by federal and state or multi-state agencies or through the ownership of water rights pursuant to local law. The Company is dependent on defined sources of water supply and obtains its water supply from surface water sources such as reservoirs, lakes, rivers and streams; from groundwater sources, such as wells and aquifers; and water purchased from third-party water suppliers. The level of water treatment the Company applies varies significantly depending upon the quality of the water source and customer stipulations. Surface water sources typically generally require significant treatment, while groundwater sources often require chemical treatment only.

Presented in the chart below are the Company's sources of water supply as of December 31, 2021:

Presented in the table below are the percentages of water supply by source type for the Company's Top Five States for the year ended December 31, 2021:

	Surface Water	Ground Water	Purchased Water
New Jersey	74%	22%	4%
Pennsylvania	91%	7%	2%
Missouri	78%	21%	1%
Illinois	54%	35%	11%
California	—	65%	35%

The Company's ability to meet the existing and future water demands of its customers depends on an adequate water supply. Drought, governmental restrictions, overuse of sources of water, the protection of threatened species or habitats, contamination or other factors may limit the availability of ground and surface water. The Company employs a variety of measures in an effort to obtain adequate sources of water supply, both in the short-term and over the long-term. The geographic diversity of the Company's service areas may mitigate some of the economic effects on the water supply associated with weather extremes it might encounter in any particular service territory. For example, in any given summer, some areas may experience drier than average weather, which may reduce the amount of source water available, while other areas the Company serves may experience wetter than average weather.

The Company evaluates quality, quantity, growth needs and alternate sources of water supply as well as transmission and distribution capacity to provide water service to its customers. Water supply is seasonal in nature and weather conditions can have a pronounced effect on supply. In order to ensure that the Company has adequate water supply, it uses long-term planning processes and maintains contingency plans to minimize the potential impact on service caused by climate variability and a wide range of weather fluctuations. The Company reviews current climate science and global models related to temperature, precipitation and sea level rise on an ongoing basis. Where actionable forecasts are available, the Company will use this information in its comprehensive planning studies and asset management plans. These studies and plans, which are used by the Company to develop its asset management and system reliability strategies, assess the climate risk and resiliency of the Company's water and wastewater systems over short-, medium- and long-term time horizons, and include evaluations of the availability of water supplies and system capacity against a number of different factors, projections and estimates.

In connection with supply planning for most surface or groundwater sources, the Company employs models to determine safe yields under different rainfall and drought conditions. Surface and ground water levels are routinely monitored so that supply capacity deficits may, to the extent possible, be predicted and mitigated through demand management and additional supply development. In California, where the state has been experiencing a multi-year drought, the Company utilizes multiple water supply options including numerous ground water wells in multiple aquifers as well as various long-term purchase water agreements with regional water suppliers to optimize supplies while assuring resiliency during dry years. An example of the Company's use of long-term planning to ensure that it has adequate water supply is its involvement in the Monterey Peninsula Water Supply Project (the "Water Supply Project") in California. The Water Supply Project includes the construction of a desalination plant, to be owned by the Company's California subsidiary, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes the California subsidiary's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water (formerly known as the Monterey Regional Water Pollution Control Agency) and the MPWMD. The Water Supply Project is intended, among other things, to fulfill obligations of the California subsidiary to eliminate unauthorized diversions from the Carmel River as required under orders of the California State Water Resources Control Board (the "SWRCB"). For more information, see Item 3—Legal Proceedings—Alternative Water Supply in Lieu of Carmel River Diversions and Note 17—Commitments and Contingencies—Contingencies—Alternative Water Supply in Lieu of Carmel River Diversions, in the Notes to the Consolidated Financial Statements.

Wastewater services involve the collection of wastewater from customers' premises through sewer lines. The wastewater is then transported through a sewer network to a treatment facility, where it is treated to meet required regulatory standards for wastewater before being returned to the environment. The solid waste by-product of the treatment process is disposed of or recycled in accordance with applicable standards and regulations.

Seasonality

Customer demand for the Company's water service is affected by weather and tends to vary with temperature and amount and frequency of rainfall. Customer demand is generally greater during the warmer months, primarily due to increased water usage for irrigation systems and other outdoor water use. As such, the Company typically expects its operating revenues to be the highest in the third quarter of each year. Weather that is hotter and/or drier than average generally increases operating revenues, whereas, weather that is cooler and/or wetter than average generally serves to suppress customer water demand and can reduce water operating revenues. Two of the Company's jurisdictions, California and Illinois, have adopted revenue stability mechanisms which permit the Company to collect state PUC-authorized revenue for a given period which is not tied to the volume of water sold during that period, thereby lessening the impact of weather variability. See Regulated Businesses—Regulation and Rate Making for additional information regarding revenue stability mechanisms.

Market-Based Businesses

The Company's Market-Based Businesses provide water and wastewater services to the U.S. government on military installations, as well as municipalities, and utility customers, and previously provided home services primarily to residential and smaller commercial customers through its former HOS business, which was sold on December 9, 2021. These businesses are not subject to regulation by state PUCs and the services provided generally do not require significant capital investment. Operating revenues for the Company's Market-Based Businesses were $563 million for 2021, $540 million for 2020 and $539 million for 2019, accounting for 14%, 14% and 15%, respectively, of the Company's total operating revenues for the same periods.

MSG enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations. MSG is the Company's remaining primary market-based business.

The Company also has five contracts with municipal customers to operate and manage water and wastewater facilities and provide other related services through its Contract Services Group ("CSG").

Military Services Group

MSG operates on 17 military installations under 50-year contracts with the U.S. government as part of its Utilities Privatization Program. The scope of these contracts generally includes the operation and maintenance of the installation's water and wastewater systems and a capital program focused on asset replacement and, in certain instances, systems expansion. The replacement of assets assumed when a contract is awarded to MSG is completed either through a discrete set of projects executed in the first five years of the contract or through the long term recapitalization program performed over the life of the contract. Traditionally, both of these programs are funded from the contract fee. At times, new assets are required to support the installation's mission, and the construction of these assets is funded by the U.S. government as separate modifications or amendments to the contract. The capital for these assets historically has not been funded through the Company's debt or equity issuances; rather, the Company has used limited working capital for short-term needs under these contracts. In April 2018, the U.S. Army instituted a requirement that a bidder must offer financing in its proposal for these new capital projects under existing contracts, but the U.S. Army's implementation of this requirement on existing contracts has limited the need for such financing. However, recent U.S. Army and Navy Utilities Privatization solicitations have included requirements for the successful bidder to finance discrete initial capital projects over either a five- or ten-year period after project completion. Three of MSG's current contracts require such capital project financing, which the Company is currently addressing through internal sources of liquidity.

The contract price for six of MSG's contracts with the U.S. government is subject to redetermination two years after commencement of operations, and every three years thereafter. Price redetermination is a contract mechanism to periodically adjust the service fee in the next period, to reflect changes in contract obligations and anticipated market conditions. The remaining 11 contracts with the U.S. government are subject to annual price adjustments under a mechanism called "Economic Price Adjustment." All 17 contracts could be terminated, in whole or in part, prior to the end of the 50-year term for convenience of the U.S. government, or as a result of default or non-performance by the MSG subsidiary performing the contract. In either event, pursuant to termination provisions applicable to all of these contracts, MSG would be entitled to recover allowable costs that it may have incurred under the contract, plus the contract profit margin on incurred costs. MSG's backlog of revenue associated with its contracts with the U.S. government is approximately $6.2 billion, with an average remaining contract term of 41 years.

Sale of Homeowner Services Group

The Company has provided various warranty protection programs and other home services primarily to residential and smaller commercial customers through its HOS operations. On the Closing Date, the Company sold all of the equity interests in its HOS subsidiaries to an indirect, wholly owned subsidiary of funds advised by Apax Partners LLP, a global private equity advisory firm (the "Buyer"), for total consideration of approximately $1.275 billion. See Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Competition

MSG faces competition from a number of service providers, including American States Water Company, Suez North America, and Veolia Environnement S.A.

Environmental, Health and Safety, Water Quality and Other Regulation

The Company's water and wastewater operations, including the services provided by both its Regulated Businesses and Market-Based Businesses, are subject to extensive federal, state and local laws and regulations governing the protection of the environment, health and safety, the provision of water and wastewater services, particularly with respect to the quality of water the Company delivers to its customers, and the manner in which it collects, treats, discharges, recycles and disposes of wastewater. In the United States, these regulations are developed under federal legislation including the Safe Drinking Water Act, the Reduction of Lead in Drinking Water Act and the Clean Water Act, and under a variety of applicable state laws. Environmental, health and safety, and water quality regulations are complex and may vary from state to state in those instances where a state has adopted a standard that is more stringent than the federal standard. For example, while the EPA has issued a non-enforceable Health Advisory for the combined level of two perfluorinated compounds (perfluorooctanoic acid, or PFOA, and perfluorooctane sulfonic acid, or PFOS), the New Jersey Department of Environmental Protection was the first state agency to establish a standard for perfluorononanoic acid, or PFNA, in 2018 and has since established maximum containment levels for PFOA and PFOS, with implementation occurring in January 2021. The Company is also subject to various federal, state, and local laws and regulations governing the storage of hazardous materials, the management and disposal of hazardous and solid wastes, discharges to air and water, the cleanup of contaminated sites, dam safety and other matters relating to the protection of the environment and health and safety. PUCs also set conditions and standards for the water and wastewater services the Company delivers.

The Company maintains an environmental program that includes responsible business practices focused on compliance with environmental laws and regulations and the effective use of natural resources, recognizing that drinking water standards have generally, over time, increased in number and become increasingly more stringent. As newer or stricter standards are introduced, the Company's capital and operating costs needed to comply with them will likely increase. The Company incurs substantial costs associated with compliance with the environmental, health and safety, and water quality standards to which its operations are subject and the Company invests in technology solutions for enhanced detection and monitoring of water quality issues. The Company estimates that it will make capital expenditures of approximately $850 million over the next five years, including $180 million in 2022, for environmental control facilities, which the Company defines for this purpose as any project (or portion thereof) that involves the preservation of air, water or land. The Company believes that its operations are materially in compliance with, and in many cases surpass, minimum standards required by applicable environmental laws and regulations.

The Company's operations also involve the use, storage and disposal of hazardous substances and wastes. For example, the Company's water and wastewater treatment facilities store and use chlorine and other chemicals that generate wastes that require proper handling and disposal under applicable environmental requirements. The Company also could incur remedial costs in connection with any contamination relating to its operations or facilities or its off-site disposal of wastes. The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"), authorizes the EPA, and comparable state laws authorize state environmental authorities, to issue orders and bring enforcement actions to compel responsible parties to investigate and take remedial actions at any site that is determined to present an actual or potential threat to human health or the environment because of an actual or threatened release of one or more hazardous substances. Parties that generated or transported hazardous substances to such sites, as well as current and former owners and operators of such sites, may be deemed liable, without regard to fault, under CERCLA or comparable state laws. Although the Company is not aware of any material cleanup or decontamination obligations, the discovery of contamination or the imposition of such obligations in the future could result in additional costs to the Company. The Company's facilities and operations are also subject to requirements under the U.S. Occupational Safety and Health Act and inspections thereunder.

Safe Drinking Water Act

The Safe Drinking Water Act and related regulations establish national quality standards for drinking water. The EPA has issued rules governing the levels of numerous, naturally occurring and manufactured chemical and microbial contaminants and radionuclides allowable in drinking water, and continues to propose new rules. These rules also prescribe testing requirements for detecting regulated contaminants, the treatment systems that may be used for removing those contaminants, and other requirements. To date, the EPA has set standards for over 90 contaminants and water quality indicators for drinking water, and there is a process in place to make a regulatory determination on at least five additional compounds every five years.

To help formulate the basis for future regulations, the EPA has the authority to require monitoring for additional, unregulated contaminants under the Unregulated Contaminant Monitoring Rule (the "Monitoring Rule"). The Company's facilities have participated in the data gathering effort for the Monitoring Rule in previous rounds, which occurs every five years, including the fourth round that concluded at the end of 2020. There are millions of other chemical compounds that are not regulated, many of which lack a testing methodology, occurrence data, health effects information and/or cost-effective treatment options. The process of developing new drinking water standards is long and complex, but the Company actively participates with the EPA and other water industry groups by sharing research and water quality operational knowledge. See Research and Development—Contaminants of Emerging Concern for additional information.

To effect the removal or inactivation of microbial contaminants, the EPA has established various rules to improve the disinfection and filtration of drinking water and to reduce consumers' exposure to disinfectants and/or the by-products of their use in the disinfection process. Examples of these rules are the Long-Term 2 Enhanced Surface Water Treatment Rule (the "Long-Term 2 Rule"), the Stage 2 Disinfectants and Disinfection Byproduct Rule, the Ground Water Rule, which is applicable to systems providing water from underground sources and the revised Total Coliform Rule, which implemented a "find and fix" process where exceeding bacterial trigger levels requires an assessment to correct any sanitary defects. The Company is within the EPA's time frame for compliance with all of these standards, which includes sample collection, data analysis, and, in some instances engineering planning and implementation of treatment enhancements. Recent monitoring as required by the Long-Term 2 Rule has indicated that up to 30 of the Company's surface water systems have recently completed or need to implement additional disinfection protection mechanisms against Cryptosporidium. In many cases, this will involve installing ultraviolet light disinfection systems, and although several plants have already completed assessments and upgrades, an estimated $100 million to $150 million of investment will still be required to upgrade the remaining facilities for Cryptosporidium disinfection. Further, the EPA is actively considering regulations for a number of contaminants, including strontium, hexavalent chromium, fluoride, nitrosamines, some pharmaceuticals and certain volatile organic compounds. The Company does not anticipate that any such regulations, if enacted, will require implementation in 2022.

The Company conducted over 10 million water quality and turbidity tests in 2021 at its laboratory facilities and plant operations, including continuous online instrumentations such as monitoring turbidity levels, disinfectant residuals and adjustments to chemical treatment based on changes in incoming water. The Company participates in the Partnership for Safe Water, the EPA's voluntary program to meet more stringent goals for reducing microbial contaminants. With 67 of the Company's surface water treatment plants receiving the EPA program's prestigious "Director" award, which recognizes utilities that (i) have completed a comprehensive self-assessment report, (ii) created an action plan for continuous improvement, and (iii) produced high-quality drinking water, the Company accounts for approximately one-third of the plants receiving such awards nationwide. In addition, 66 of the Company's surface water treatment plants have received the "Five-Year Phase III" award, 62 plants have received the "Ten-Year Phase III" award, 57 plants have received the "Fifteen-Year Phase III" award, and 39 plants have received the "Twenty-Year Phase III" award; these awards recognize plants that have met the Director award status for five, 10, 15 and 20 years, respectively. Further, nine of the Company's surface water plants have received the "Presidents" award, which recognizes treatment plants that achieve the Partnership's rigorous individual filter effluent turbidity standards and have maintained this status for at least five years.

Although it is difficult to project the ultimate costs of complying with the above or other pending or future requirements, the Company expects current cost requirements under the Safe Drinking Water Act and other similar laws to be recoverable through the regulatory process and therefore compliance costs are not expected to have a material impact on its operations or financial condition. In addition, capital expenditures and operating costs to comply with environmental mandates have been traditionally recognized by PUCs as appropriate for inclusion in establishing rates. As a result, the Company expects to recover the operating and capital costs resulting from these pending or future requirements.

Lead and Copper Rule and Reduction of Lead in Drinking Water Act

In 1991, the EPA published the Lead and Copper Rule ("LCR") to control lead and copper in drinking water and, since that time, has issued minor revisions in 2000, 2004 and 2007, enhancing monitoring, reporting and public education requirements. In 2011, Congress enacted the Reduction of Lead in Drinking Water Act regarding the use and introduction into commerce of lead pipes, plumbing fittings for fixtures, solder and flux. While these advances have made an impact in reducing lead exposure in drinking water, legacy lead plumbing materials, primarily in building plumbing, still remain in many communities. The failure of certain water systems in the United States to comply with the requirements of the LCR has received recent media attention and scrutiny, and in certain cases, has led to a number of investigations and the imposition of significant penalties and sanctions against the operators of those systems and others. As part of its ongoing water main replacement and service line renewal projects, the Company has started to replace lead service lines ("LSLs") in accordance with current scientific guidance. Also, the Company utilizes appropriate corrosion control techniques as necessary to comply with current water quality regulatory requirements. The EPA finalized revisions to the LCR (the "Revised LCR") on January 15, 2021 that are designed to provide more effective protection of public health by reducing exposure to lead and copper in drinking water. The Company is executing an implementation strategy to comply with the new requirements, which were originally mandated by January 2024 but have been delayed until at least late 2024 pending EPA additional review. Capital expenditures and operating costs associated with the Revised LCR will be determined once the EPA completes its additional review, but as previously noted, costs associated with compliance with federal water quality regulations have been traditionally recognized by PUCs as appropriate for inclusion in establishing rates.

The Company currently estimates that less than 5% of the service lines within its regulated service territories contain lead on either the Company or customer portion of the service line. The Company is replacing LSLs as part of its ongoing water main replacement and service line renewal projects. The Company's goal is to work with the communities it currently serves to replace a significant majority of presently known LSLs in most of its service areas by the end of 2030, at an estimated cost ranging from $600 million to $1.2 billion. The Company believes this will be attainable for most of its service areas where public policy is supportive of this goal. The IIJA was signed into law in November 2021 and provides for up to $15 billion for lead service line replacement through drinking water state revolving funds. The Company is awaiting further guidance on eligibility, the application process and the distribution of these funds. With regard to future acquisitions, the Company will work with those communities as part of the acquisition process to set LSL removal goals appropriate for those systems. The prioritization of LSL removal is dependent on several factors, including the Company's planned water main and service line renewal projects, adjacent projects by municipalities or other utilities, LCR compliance monitoring results, and cooperation with its customers with respect to replacing the customer-owned portion of the LSL as necessary. In certain cases, these and other factors may result in a shorter or longer time frame for replacement. Because replacing the external LSL in its entirety is advised by several water industry organizations including the U.S. National Drinking Water Advisory Council, the Lead Service Line Replacement Collaborative, and the American Water Works Association, the Company's preferred approach is to replace the entire external LSL if lead is found on either the Company or customer portion of the service line; full LSL replacement is also consistent with the Revised LCR. The Lead Service Line Replacement Collaborative is a diverse group of public health, water utility, environmental, labor, consumer and housing organizations from across the country working together to encourage communities to accelerate the full replacement of LSLs through collaborative efforts at the local level.

Clean Water Act

The Clean Water Act regulates discharges from drinking water and wastewater treatment facilities into lakes, rivers, streams and groundwater. In addition to requirements applicable to the Company's wastewater collection systems, its operations require discharge permits under the National Pollutant Discharge Elimination System ("NPDES") permit program established under the Clean Water Act, which must be renewed every five years. Pursuant to the NPDES permit program, the EPA and implementing states set maximum discharge limits for wastewater effluents and overflows from wastewater collection systems. Discharges that exceed the limits specified under NPDES permits can lead to the imposition of fines and penalties, and persistent non-compliance could lead to significant fines and penalties and other compliance costs. In addition, the difficulty of obtaining and complying with NPDES permits, and renewing expiring permits, may impose time and cost burdens on the Company's operations. From time to time, discharge violations occur at the Company's facilities, some of which result in fines. The Company does not expect any such violations or fines to have a material impact on its results of operations or financial condition.

Research and Development

The Company's Research and Development Program

The Company maintains an industry-leading research and development ("R&D") program that is designed to enhance its services, support its compliance activities, improve service quality and operational effectiveness, and provide environmental leadership. For more than three decades from its inception, American Water's R&D program has evolved into an industry-leading effort and has achieved numerous advancements in the science of drinking water, wastewater, and desalination. Through laboratory and industry resources and the team's expertise, efforts are focused on contaminants of emerging concern, including but not limited to COVID-19, PFAS, Legionella, cyanotoxin-forming algal blooms, a variety of pathogens (for example, Cryptosporidium, Giardia, enteric viruses, and various bacteria), microbial indicators and disinfection byproducts. The Company's R&D personnel are located at the Company's corporate headquarters and at two laboratory testing facilities in New Jersey and Illinois, the latter housing its quality control and testing laboratory, which supports the Company's R&D activities through testing and analysis.

The Company continues to leverage its expertise and collaborates with the EPA and state agencies to help establish effective environmental, health and safety, and water quality standards and regulations. This relationship includes the sharing of the Company's research, such as its treatment and distribution system optimization research and its national water quality monitoring data. The Company's engagement with the EPA provides it with early insight into emerging regulatory issues and initiatives, thereby allowing the Company to anticipate and to accommodate its future compliance requirements. The Company also frequently engages with the Centers for Disease Control and Prevention, other state environmental agencies, and national and international water research foundations. The Company believes that continued R&D activities are critical for providing safe, reliable and affordable services, as well as maintaining its leadership position in the industry, which provides the Company with a competitive advantage as it seeks business and operational growth.

Contaminants of Emerging Concern

Contaminants of emerging concern include numerous chemicals such as PFAS, pharmaceuticals, personal care products, pesticides, herbicides, endocrine disrupting compounds and industrial chemicals, as well as certain naturally occurring microbes, such as bacteria, viruses and parasites, which have been detected in drinking water supplies, for which the risk to the public's health is not fully understood and/or has not been assessed. Technological advances have only recently made it possible to detect many of these contaminants at trace levels. The ability to detect contaminants, even at trace levels, has invited discussion about these contaminants among regulators and government agencies, which in turn shapes the public's perception of drinking water quality.

The Chemicals Abstract Service Registry contains over 192 million registered chemicals, with an estimated 1,400 species of disease-causing microbes that can affect humans. The Company is continually investigating new substances and contaminants, employing a team of scientists, engineers and public health professionals to identify threats to its water supply, to act on emerging regulations and new health advisories, and to evaluate the benefits of alternative or advanced treatment technologies. The Company utilizes water quality testing equipment and implements new and emerging technologies to help detect potential water supply contamination issues. Examples of the Company's efforts include:

- monitoring impacts of the COVID-19 pandemic on environmental virus loads and removal efforts through wastewater systems;
- characterizing factors that contribute to the formation of potentially carcinogenic disinfection by-products to define best practices for their mitigation;
- using its research findings to communicate information to its customers regarding potential actions to limit occurrences of Legionella in their buildings; in this regard, the Centers for Disease Control and Prevention statistics indicate that water-associated disease from Legionella is on the rise, with exposure typically associated with customer-owned plumbing systems in large buildings;
- defining a framework to support management or possible future regulation of opportunistic pathogens;
- developing expanded monitoring methods for PFAS compounds and piloting treatment techniques;
- leading a PFAS risk communication strategy for the water sector;
- using innovative technologies to detect and manage algal blooms to help prevent taste and odor events and cyanotoxins before they get to the water treatment plant;
- monitoring of taste and odor issues that impact customer satisfaction using expanded analytical methods to detect compounds, and evaluating and recommending treatment practices;
- implementing water source assessment tools, including sensors and data analytics, to evaluate and track chemical storage and aid in the identification of source water contamination events;
- developing methodology and advanced measurement techniques for contaminants of emerging concern to investigate transport, occurrence and treatment; and
- implementing activated carbon, biofiltration and ion exchange treatment to seek to control contaminants of emerging concern.

Service Company and Security

American Water Works Service Company, Inc. ("Service Company") is a wholly owned subsidiary of the Company that provides support and operational services to the Company and its affiliates. These services are predominantly provided to the Company's Regulated Businesses under contracts that have been approved by PUCs, where necessary, and are also provided to its Market-Based Businesses as requested or may otherwise be necessary. Services provided by Service Company may include accounting and finance, administration, business development, communications, compliance, education and training, engineering, health and safety, human resources, information systems, internal audit, investor relations, legal and governance, operations, procurement, R&D, rates and regulatory support, security, risk management and insurance, treasury, and water quality. Service Company also provides customer support to the Company's Regulated Businesses, which includes call handling, billing, a major accounts program and other related services. Services are provided by Service Company at cost, enabling the Company's operating subsidiaries to fulfill their responsibilities in a cost-effective manner, while providing them access to in-depth, functional expertise.

The Company's security team provides oversight and policy guidance on physical, cyber and information security, as well as business continuity, throughout its operations. It is responsible for designing, implementing, monitoring and supporting effective physical and technical security controls for the Company's physical assets, business systems and operational technologies. Risk assessments are conducted periodically to evaluate the effectiveness of existing security controls and serve as the basis for additional safeguards, security controls and measures. Operational and technical security controls are deployed and integrated as safeguards against unauthorized access to the Company's information systems. These controls are aimed at (i) assuring the continuity of business processes that are dependent upon automation, (ii) maintaining the integrity of the Company's data, (iii) supporting regulatory and legislative compliance requirements, and (iv) maintaining safe and reliable service to the Company's customers. The Company engages in partnerships with U.S. federal, state and local law enforcement agencies to coordinate and improve the security of its water delivery systems and to safeguard its water supply and operations.

Environmental, Social Responsibility and Governance

The Company considers environmental, social responsibility and governance ("ESG") principles fundamental to its corporate strategy and values. Integration of these principles into the Company's daily operations emphasizes its belief that "how" a company operates is just as important as "what" a company does. The Company's vision and values drive its strategies, which are centered on five central themes:

- Safety—The safety of the Company's employees and customers is the number one focus for American Water.
- Customers—The Company's customers are at the center of everything it does, helping the Company to shape its strategic priorities.
- People—Maintaining an environment that is open, transparent, diverse and inclusive, and where the Company's people feel valued, included and accountable, is critical to the Company's ability to serve its customers every day.
- Operational Excellence—The Company strives to find better and more efficient ways to do business, and to provide safe, clean and affordable water services for its customers.
- Growth—The Company believes that through growth, it can invest in creating more jobs, better training and benefits, and improved infrastructure in its communities. The Company's growth also creates greater efficiencies of scale and drives improved customer affordability, which benefits all of its stakeholders, including shareholders.

In 2021, the Company issued its sixth biennial Sustainability Report, covering its sustainability performance for calendar years 2020 and 2019. This report can be accessed on the Company's website. In addition, the Company issued its first annual Inclusion & Diversity Report, which shares the inclusion and diversity strategies, practices, policies, and programs from across the business. The Company's values and actions have achieved prestigious recognition by many leading firms devoted to recognizing companies that demonstrate ESG leadership. Most recently, the Company received the highest S&P Global Ratings ESG Evaluation score given to a U.S. company and the third highest globally, and was ranked 19th within Barron's list of the 100 Most Sustainable Companies. Additionally, the Company was included in the Bloomberg Gender Equality Index for the fourth consecutive year, and the Company recently achieved the ranking of sixth on the Corporate Knights' Global 100 Most Sustainable Corporations in the World index.

The following goals and actions highlight the Company's commitment to embedding ESG principles throughout its business:

Environmental and Sustainability

- Energy and Emissions for the Company's Regulated Businesses
  - The Company clarified its existing goal to reduce by more than 40% its greenhouse gas ("GHG") emissions by 2025, from a 2007 baseline, as an absolute measurement of its scope 1 (direct) emissions, and scope 2 (indirect, derived from the Company's purchases of energy) emissions.
  - The Company lowered its GHG emissions through December 31, 2020 by approximately 36% since its base year of 2007. GHG emissions data for the full calendar year 2021 is expected to be released in April 2022.
- Water Efficiency and Resiliency for the Company's Regulated Businesses
  - The Company established a water efficiency goal to meet customer needs while saving 15% in water volume delivered per customer by 2035, compared to a 2014 and 2015 averaged baseline. The Company has lowered its water delivery per customer over the last three years. The Company reduced its water volume delivered per customer compared to a 2015 baseline by 5.0%, 5.3% and 4.3% as of December 31, 2021, 2020, and 2019, respectively.

- The Company has further utilized a uniform water system resiliency metric, the Utility Resilience Index ("URI"), to track enhancements in the Company's ability to prepare for, respond to, remediate and effectively manage incidents impacting its operations. The Company plans to increase its URI weighted average by 10% by 2030 from a 2020 baseline. The URI is a part of the American Water Works Association's J-100 voluntary consensus risk and resilience standard and focuses on a utility's ability to manage incidents affecting its customers, employees and assets, and return to normal operations as quickly as possible.
- Approximately 10-12% of the Company's total projected capital investment over the next five years is dedicated to resiliency, accounting for approximately $1.2 billion to $1.4 billion allocated to renewing and improving assets of the Regulated Businesses.

- Policy Leadership
  - The Company employs a team of R&D scientists dedicated to partnering with water research organizations on water quality and technology-based source water monitoring.
  - The Company collaborates and partners with federal and state agencies to support effective environmental, health and safety and water quality standards and regulations.

Social Responsibility

- Customers
  - For 2021, the Company achieved an aggregate customer satisfaction rating in the top quartile among the Company's industry peer group.
  - To better reflect the customers that the Company serves, the Company increased spend with diverse suppliers and small businesses in 2021 by more than 10% year over year.
- Employees
  - During 2021, over 109,000 hours of safety training were completed by the Company's employees.
  - The Company has made significant progress toward its zero injuries goal, reducing workplace injuries by 66% since 2015. Through year end 2021, the Company has further reduced its OSHA recordable injury rate ("ORIR") to 0.97, the lowest in the Company's recorded history, which is approximately two times better than the water industry average.
  - During 2021, approximately 86% of the Company's job requisitions had a diverse candidate pool, with approximately 58% of transfers or promotions filled by diverse individuals.
  - In 2021, the Company named Cheryl Norton as its first female Executive Vice President and Chief Operating Officer.
- Communities
  - In December 2021, the Company authorized the contribution of $45 million to the American Water Charitable Foundation ("AWCF"), a 501(c)(3) private foundation established by American Water in 2010.
  - More than $941 thousand was donated in 2021 by the Company's employees and the AWCF through workplace giving campaigns including the United Way, Water For People and other volunteering giving campaigns that supported more than 1,500 public charities nationwide.

Governance

- Board and Committees
  - The Board of Directors and each of its standing committees are led by an independent, non-executive chairperson.
  - The Board of Directors met 14 times in 2021.
  - The Board of Directors reflects gender, racial and experiential diversity. As of December 31, 2021, 54.5% of the Company's directors voluntarily self-identified as female or racially diverse.
  - The Company's average director tenure was approximately 7.2 years as of December 31, 2021.

- Demonstrated and Representative Expertise
  - The members of the Company's Board of Directors have demonstrated expertise, including, among others, experience in utility and finance operations, customer service, cybersecurity, the military, financial services and capital markets, service as a public company CEO, CFO and/or board member, and management of global operations.
- Transparency
  - The Company discloses on its website its Political Contributions Policy and, on an annual basis, information related to its political contributions and lobbying expenditures.
  - The Company makes available on its website its ESG goals and achievements.

Human Capital Resources

Overview

The Company's people are a critical part of its business, and the Company's investment in its people begins with recruitment of qualified and diverse talent. The Company believes that representing the communities in which it serves plays a key role in its ability to serve its customers and improves its talent. The Company promotes an inclusive culture where its employees are given the opportunity to develop to their fullest potential and understand that they directly contribute to the Company's ability to operate, grow and serve its customers. The Company believes that investing in the safety, health and well-being of its employees is a key component of its people and culture goals, and that these investments in its people allow employees to generate great ideas, provide quality customer service and make a difference in the lives of the Company's customers.

Employee Health and Safety

A longstanding value and strategy of the Company is safety. In this regard, the Company continues to focus on the safety of its employees and contractors so that they may return home from work in the same, or better, condition than when they arrived. The Company strives for all employees to feel emotionally safe, live a healthy lifestyle and be physically safe at work and at home. The Company assesses occupational health and safety to measure performance across the entire organization, with the ultimate goal of achieving zero incidents, injuries and fatalities for the Company's employees and contractors.

To uphold the Company's commitment to safety, the Company's employees completed over 100,000 hours of employee safety training during 2021. Additionally, through frequent labor-management meetings, the Company encourages open exchanges to explore new ways to further enhance safety on the job. All employees are empowered to demonstrate safety leadership by taking the time they need to complete a task safely and to use "Stop Work Authority" — the power to stop working immediately whenever they believe a task is unsafe — to personally mitigate the hazard or issue or collaborate with management to create a safe situation. The Company believes that this Stop Work Authority is so important that it is stated on the back of every employee's identification badge.

For 2021, the Company had its lowest ORIR injury rate in its recorded history, achieving a 2% reduction compared to 2020, even though labor hours increased by 5%. Also, the number of injuries for purposes of the Company's Days Away Restricted or Transferred ("DART") rate decreased by 14% compared to 2020. For 2021, the Company's ORIR was 0.97 (64 injuries) and its DART rate was 0.54 (36 injuries), compared to an ORIR of 0.99 (63 injuries) and a DART rate of 0.63 in 2020.

In 2021, American Water teams led by promoting safety leading indicator activities, including pre-job safety briefings and near miss reporting, and by achieving internal Certified Safe Worker designations. Near miss reports, where employees report potential hazards or incidents in a safe and secure manner, increased by 27% in 2021 over 2020, and 99% of near miss incident corrective actions were completed within 30 days, meeting the Company's 2021 goal. The Company utilizes near miss reporting and timely corrective actions as key measurements of employee engagement and safety performance.

Understanding that some employees may have delayed seeking preventative or other medical care due to the COVID-19 pandemic, a 2021 priority for the Company was to encourage employees to increase their utilization of preventative exams. Through the Company's marketing efforts and targeted incentives in its myWellness program, the Company sought to encourage employees to take preventative health actions. The number of total preventative care exams completed by the Company's employees increased by 15% during 2021 compared to 2020.

Supporting Employees During the COVID-19 Pandemic

American Water remains committed to the health, well-being and safety of its employees and families, as well as its customers and communities. The Company's Emergency Crisis Response Team ("ECRT") continued to deploy a COVID-19 contact tracing program to reduce the risk of COVID-19 transmission at work. The ECRT consistently monitors current events and the latest public health guidance and adjusts workplace safety measures and the Company's COVID-19 guidance accordingly. During the pandemic, American Water provided temporary medical and emotional health benefits, including paid time off and emergency leave. The Company also supported employees and their families during the uncertainty of the pandemic by providing additional resources, such as enhanced well-being support, workplace flexibility, back-up dependent care, caretaker database discounts and academic support. American Water did not lay off any employees due to the pandemic.

As an essential business that must continue to provide water and wastewater services during the COVID-19 pandemic, the Company continued to focus on the care and safety of its employees, contractors, vendors and others who work at or visit the Company's worksites. In 2021, as COVID-19 vaccines became more readily available, the Company began planning for the reintegration of those who had been working remotely back to its work facilities, and also began to implement safety protocols based on current COVID-19 health guidance for the return of employees to perform work in customers' homes. Furthermore, the Company has continued to support employee health and safety by providing safety training and resources, continuing to enforce safety protocols such as maintaining social distancing, requiring the use of face coverings at work, and encouraging good hygiene and frequent handwashing and cleaning of work areas. The Company continues to receive input from its employees via pulse surveys throughout the COVID-19 pandemic, which has also helped to shape the Company's pandemic-related responses and a flexible return to hybrid work where possible. Throughout the fall of 2021, managers and employees who had been working remotely during the pandemic began to return to the Company's offices and facilities with increasing frequency, in preparation for a three-day in-person, two-day remote work week, where feasible.

Inclusion, Diversity and Equity

In 2021, the Company continued to evolve its inclusion and diversity strategic framework to include equity. The Company defines equity as fair treatment, access, opportunity and advancement for all people, while also eliminating barriers that may prevent some groups from full participation. The Company promotes an environment where inclusion, diversity and equity are embedded in its culture. At all levels, the Company strives to understand, respect, value and provide equal opportunity to each employee. The Company seeks to foster an environment where employees' differences are embraced and celebrated. The Company holds as an essential concept the right of employees to proudly share their ideas and unique perspectives in an environment built on mutual respect, equity and inclusion. The Company is committed to diversity among its workforce, executive and senior management leadership teams, by reflecting the diversity of the communities in which the Company serves. The Company expects all of its leaders to lead with inclusion, diversity and equity.

During 2021, the Company published its first Inclusion & Diversity Report. The report shares the Company's diversity strategies, practices, policies and programs from across the business and includes more than 100 data points related to building a culture of inclusion. The following graphic highlights the Company's principal employee inclusion, diversity and equity metrics for 2021 based on its employee headcount as of January 1, 2022, and which are based on responses from employees who voluntarily self-reported this information to the Company.

During 2021, 85.6% of the Company's hiring candidate pools were diverse. For this purpose, diversity refers to gender, race, ethnicity, disability and/or veteran/military status, based on voluntary, self-identified employee information.

The Company maintains active memberships with groups such as Hiring our Heroes, Military Spouse Employment Partnership, American Corporate Partners, CEO Action for Diversity and Inclusion, Disability:IN, Paradigm for Parity, and Out and Equal, to further enhance its ability to recruit and retain diverse employees. Among this year's recognitions, the Company was designated as a 2021 Military Friendly® Top 10 Gold Employer and recognized by Military Times for its industry-leading efforts on hiring and supporting U.S. military veterans. The Company was also a top scorer in the 2021 Disability Equality Index for the third consecutive year and was recognized by U.S. Veterans Magazine as a veteran-friendly company and as an organization with a veteran-friendly supplier diversity program.

In keeping with the Company's values, the Company does not tolerate discrimination, harassment or retaliation by or toward any employee, vendor, customer or other person in its workplace. All employees are required to complete anti-harassment, workplace respect and dignity, unconscious bias and inclusion and diversity training. In addition, annual Code of Ethics training is provided to all employees, which includes education on using the Company's anonymous hotline for reporting potential Code of Ethics violations.

In 2021, the Company launched four employee business resource groups ("EBRGs"), which represent diverse employee demographics (Women, African American/Black, LGBTQ+ and Disabilities) throughout the Company. EBRGs offer opportunities for employees to share ideas and best practices, and to create measurable and long-lasting positive impacts on the Company's culture. The Company's Inclusion and Diversity Advisory Council oversees the formation, goals and actions of the EBRGs to support the Company's inclusion diversity and equity priorities.

To further its commitment to inclusion, diversity and equity, and in response to feedback from employees about work-life balance, in 2021, the Company announced a new Inclusion Holiday Swap benefit, to allow the opportunity for all employees to swap a Company holiday with another day of their choosing that more closely reflects their personal values, beliefs or culture. In addition, the Company is evaluating the implementation of workforce diversity goals in certain of its compensation programs.

Total Rewards

Employees are considered the Company's greatest assets and the Company views their overall well-being to be as important as their physical safety. American Water's health and well-being programs aim for employees to go home in the same or better condition than when they came to work. Health and well-being programs are approached holistically by offering the following benefits, among others: medical, prescription, dental, vision, disability and life insurance coverage, as well as a health and wellness program and a menu of additional voluntary benefits. The Company's Total Rewards programs are designed to reflect many aspects of employee health and well-being, cultivate an inclusive workforce and motivate, attract and retain talent to seek to achieve the Company's strategic business priorities.

As part of Total Rewards, the Company provides a comprehensive compensation and benefit program designed to recognize the vital roles the Company's employees play. Further, all of the Company's employees, including those who are union-represented,

participate in the Company's Annual Performance Plan, to promote alignment in bonus compensation to the Company's short-term performance goals. Moreover, all employees who average 30 hours or more per week receive full-time benefits. Approximately 90% of all benefit eligible employees are enrolled in the Company's healthcare benefits. Full-time employees pay approximately 16% of the total cost of medical, dental and vision coverage. The Company offers its non-union employees who average 20 to 30 hours per week medical, dental and vision coverage at 50% of the total cost. Additional medical benefits include coverage for applied behavior analysis, autism treatment, transgender services and hearing aids, as well as a fertility assistance benefit to assist employees in building a family. The Company also offers additional employment benefits, including holiday, vacation and sick time, which are at levels generally greater than or equal to those offered by other companies in the utility industry. For example, the Company offers its employees up to two weeks of paid leave in connection with the birth, adoption or foster placement of a child, or to take care of a sick family member.

The Company believes that good emotional and mental health is fundamental, and offers a behavioral health benefit to assist employees and their families to maintain their well-being. Additionally, the Company offers an employee assistance program (EAP) that provides all employees and their eligible dependents with access to a variety of support resources free of charge. The EAP provides confidential support through its Work-Life Specialists to help individuals who are experiencing a variety of challenges, including financial, legal, family and emotional needs. The EAP provides guidance, resources and expert referrals based on an individual's needs. In addition, the Company provides all employees and their families with access to an interactive online wellness program that supports and encourages a healthy lifestyle both at work and at home. In 2021, the Company enhanced its internal myWellness website to include additional tools and activities for employees, including customized programs and action cards tailored to an individual's self-identified health needs.

Talent Development

The Company provides learning opportunities and work experiences to equip its employees with the tools, skills, and competencies they need to operate safely and effectively and to grow professionally. To this end, the Company has established an Employee Experience and Talent Development team to help develop and deploy programs that are designed to attract, motivate, develop and retain talented employees, and foster a learning culture. The Company requires every employee, including its union-represented employees, to complete a minimum of 25 hours of training each year (an increase in the 20-hour requirement for 2020). Approximately 98% of active full-time employees hired before October 1, 2021 met this requirement for 2021, with over 331,000 hours of total training completed during the year, including approximately 109,000 hours of safety training. In addition to required role-based training, managers assist employees to identify professional development opportunities to help them reach their full potential and grow their careers. Additionally, in 2021, approximately 58% of the Company's internal employee transfers and promotions were diverse (defined as female, minority, disability, military, military spouse, and LGBTQ+ status, based on voluntary employee self-identification), which reflects the Company's commitment to employee development and career growth as well as the Company's focus on diversity, inclusion and equity, and a desire for its employees to reflect the communities in which it operates.

Developing talent and ensuring a pipeline to executive leadership is a critical priority for the Company. During 2021, the Company engaged in succession planning activities for the Company's critical positions and executive leaders. These succession plans aid in providing continued leadership for the growth and future of the Company's business, while also seeking to promote diversity, retention and development. In addition to succession of executive leadership roles, in 2022, the Company plans to focus on talent reviews, which will include identification of critical skill and competency areas, a focus on diverse emerging talent, and a discussion of strengths, gaps, and development plans. Talent reviews will be conducted for a select group of employees, including employees who are being assessed for senior leadership or other critical roles.

Employee Experience

The Company's employee value proposition ("EVP") focuses on employee experience as an influencer of an employee's opinions and emotional response about the Company as an employer. The Company continually seeks to shape and refine its employee experience, and therefore its EVP, by offering an inclusive employee culture, employee development opportunities and competitive compensation and benefits. In developing its current EVP, the Company identified components that it believes are important to its employees and then solicited and received feedback from over 400 Company employees on those components to understand better the aspects that they value from their employer. From this employee outreach, and as a part of its EVP, the Company developed weCare, which is comprised of the following five components: deeper connections, personal growth, shared purpose, flexibility and well-being.

Workforce Data

As of January 1, 2022, the Company had approximately 6,400 employees. For 2021, the Company's employee turnover rate, which the Company defines as the ratio of the number of separated employees to the 12-month average headcount during 2021, was 13.1%, up from 7.4% in 2020. American Water seeks to reduce employee turnover by assessing its EVP and through its efforts to foster the Company's employee experience.

As of January 1, 2022, approximately 47% of the Company's workforce was represented by unions, which include 73 collective bargaining agreements with 14 different unions. Additionally, in 2022, the Company has begun to negotiate two new collective bargaining agreements, which would cover approximately 180 employees. During 2022, 21 of the Company's collective bargaining agreements are set to expire in accordance with their terms and the Company expects to be able to negotiate these agreements during the year. The Company collaborates with union leadership on topics such as safety, customer, technology and employee benefits in forums such as the Joint Healthcare Committee, National Labor Management Committee and the annual Labor Management Conference.

Board Oversight

The Executive Development and Compensation Committee ("ED&CC") of the Board of Directors establishes and reviews the Company's overall compensation philosophy and oversees the compensation and benefits plans and programs for its executive officers. The ED&CC oversees the process of planning for executive officer succession. It also provides oversight of the Company's inclusion, diversity and equity programs and initiatives. Further, the ED&CC is responsible for reviewing and assessing, at least annually, the Company's culture and related culture engagement, its organizational and leadership development plans and programs, and its programs designed to identify, attract and retain high-potential employees.

Information About Our Executive Officers

Presented in the table below are the name, age, offices held and business experience for each of the Company's executive officers, as of February 16, 2022:

Name	Age	Office and Experience
M. Susan Hardwick	59	**President, Chief Executive Officer and Chief Financial Officer.** Ms. Hardwick joined the Company in June 2019 as its Executive Vice President—Finance and has served as its Executive Vice President and Chief Financial Officer since July 2019. From December 7, 2021 until January 31, 2022, Ms. Hardwick also served as Interim Chief Executive Officer, and, on February 2, 2022, was elected as President and Chief Executive Officer. Ms. Hardwick previously served as the Executive Vice President and Chief Financial Officer of Vectren Corporation, which was sold to CenterPoint Energy, Inc., an electric and natural gas utility, on February 1, 2019. Ms. Hardwick joined Vectren Corporation in January 2000 and served in a variety of positions, including: Vice President, Controller and Assistant Treasurer; Senior Vice President, Finance; Senior Vice President, Chief Financial Officer; and Executive Vice President and Chief Financial Officer. Prior to joining Vectren, Ms. Hardwick was Assistant Corporate Comptroller at Cinergy Corp. She began her career with Arthur Andersen & Co. Ms. Hardwick is a Certified Public Accountant. Since September 2020, Ms. Hardwick has served on the Board of Directors of New Jersey Resources Corporation, a diversified energy services company, where she is currently serving a three-year term expiring in 2024, and since January 1, 2021, she has served as a member of its Audit Committee.
Maureen Duffy	52	**Senior Vice President, Communications and External Affairs.** Ms. Duffy has served as Senior Vice President, Communications and External Affairs since January 2020 and has been an executive officer of the Company since June 2020. Prior to that, Ms. Duffy served as Vice President, Corporate Communications and Federal Affairs from May 2017 to December 2019 and Vice President, Corporate Communications and External Affairs from September 2011 to May 2017. From July 2006 to September 2011, Ms. Duffy held various positions of increasing responsibility in the Company's internal and external corporate communications function. From November 1999 to July 2006, she held various positions with the Company's New Jersey subsidiary, including Government Affairs/Media Specialist, Communications Manager and Director of Corporate Communications. Prior to joining American Water, Ms. Duffy reported and produced news for WNJN/WNET-TV.
Melanie M. Kennedy	48	**Executive Vice President, Chief Human Resources Officer.** Ms. Kennedy has served as the Company's Executive Vice President, Chief Human Resources Officer since December 9, 2021, and as Senior Vice President, Chief Human Resources Officer from December 2020 to December 2021. Prior to that, she served as the Company's Senior Vice President, Human Resources from March 2017 to December 2020. From August 2014 through February 2017, Ms. Kennedy served as the Company's Vice President, Human Resources, and from August 2012 to August 2014, she served as Director, Human Resources in the Company's Northeast Division. Ms. Kennedy initially joined the Company in 2007, and before that time, she practiced law for nine years.

Name	Age	Office and Experience
James S. Merante	47	**Vice President and Treasurer**. Mr. Merante has served as the Company's Vice President and Treasurer since February 2019. Prior to that, Mr. Merante was Vice President, Internal Audit from February 2018 to February 2019, and served as Divisional Chief Financial Officer for the Company's Mid-Atlantic Division from July 2014 until February 2018. Mr. Merante is a Certified Public Accountant.
Adam Noble	56	**Chief Technology and Innovation Officer.** Mr. Noble has over 30 years of collective experience in the information technology sector. Mr. Noble joined the Company in August 2020 as its Chief Technology and Innovation Officer. Prior to joining the Company, Mr. Noble served as Senior Vice President and Chief Information Officer of Veritiv Corporation, a North American business-to-business distributor of packaging and facility solutions, since June 2019. Previously, Mr. Noble served as Senior Vice President and Global Chief Information Officer at GAF Materials Corporation, a global manufacturing company, from May 2010 to March 2019, and as its Vice President and Chief Information Officer from May 2006 to April 2010.
Cheryl Norton	57	**Executive Vice President and Chief Operating Officer.** Ms. Norton has over 30 years of employment with the Company serving in various roles, including operational leadership, environmental stewardship, laboratory management and research. She has been serving as the Company's Executive Vice President and Chief Operating Officer since March 1, 2021 and served as its Senior Vice President, Chief Environmental Officer from March 2020 to March 2021. She was also the Company's Senior Vice President, Eastern Division and President of its New Jersey subsidiary from March 2019 to March 2021. Prior to that, Ms. Norton served as President of the Company's Missouri subsidiary from November 2015 to March 2019, and President of its Kentucky subsidiary from January 2011 until November 2015. In addition, Ms. Norton also serves as a member of the Board of Directors of the Water Research Foundation.
Melissa K. Wikle	56	**Chief Accounting Officer.** Ms. Wikle joined the Company in July 2016 as its Vice President and Controller and assumed the duties of the Company's principal accounting officer in August 2016. She has served as Chief Accounting Officer since December 9, 2021. Prior to joining the Company, Ms. Wikle served as Corporate Controller and Chief Accounting Officer of Columbus McKinnon Corporation, a publicly traded worldwide designer, manufacturer and marketer of material handling products, systems and services, since April 2011. Ms. Wikle is a Certified Public Accountant.

Each executive officer is elected annually by the Board of Directors and serves until his or her respective successor has been elected and qualified or his or her earlier death, resignation or removal.

Available Information

The Company is subject to the reporting requirements of the Exchange Act. The Company files or furnishes annual, quarterly and current reports, proxy statements and other information with the SEC. Readers may obtain a copy of the Company's annual reports on Form 10-K, its quarterly reports on Form 10-Q or its current reports on Form 8-K, or any amendments to them, that are filed with or furnished to the SEC, free of charge, from the Investor Relations section of the Company's website, *https://ir.amwater.com,* as soon as reasonably practicable after the Company files or furnishes the information to the SEC.

The Company maintains a website at *https://amwater.com*. Information contained on the Company's website, including its Sustainability Report, its Inclusion and Diversity Annual Report, and other reports or documents, shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks. The Company recognizes its website as a key channel of distribution to reach public investors and as a means of disclosing information to comply with SEC Regulation FD.

The American Water corporate governance guidelines and the charters for each of the standing committees of the Board of Directors, together with the American Water Code of Ethics and additional information regarding the Company's corporate governance, are available on its Investor Relations website, *https://ir.amwater.com,* and will be made available, without charge, in print to any shareholder who requests such documents from its Investor Relations Department, American Water Works Company, Inc., 1 Water Street, Camden, NJ, 08102.

ITEM 1A. RISK FACTORS

We operate in a market and regulatory environment that involves significant risks, many of which are beyond our control. In addition to the other information included or incorporated by reference in this Annual Report on Form 10-K, the following material factors should be considered in evaluating our business and future prospects. Any of the following risks, either alone or taken together, could materially and adversely affect our business, financial position, results of operations, cash flows and liquidity.

Risks Related to Our Industry and Business Operations

Our Regulated Businesses are subject to extensive regulation by state PUCs and other regulatory agencies, which significantly affects our business, financial condition, results of operations and cash flows. Our Regulated Businesses also may be subject to fines, penalties and other sanctions for an inability to meet these regulatory requirements.

Our Regulated Businesses provide water and wastewater services to our customers through subsidiaries that are subject to regulation by state PUCs. This regulation affects the rates we charge our customers and has a significant impact on our business and operations. Generally, the state PUCs authorize us to charge rates that they determine are sufficient to recover our prudently incurred operating expenses, including, but not limited to, operating and maintenance costs, depreciation, financing costs and taxes, and provide us with the opportunity to earn an appropriate rate of return on invested capital.

Our ability to successfully implement our business plan and strategy depends on the rates authorized by the various state PUCs. We periodically file rate increase applications with state PUCs. The ensuing administrative process may be lengthy and costly. Our rate increase requests may or may not be approved, or may be partially approved, and any approval may not occur in a timely manner. Moreover, a PUC may not approve a rate request to an extent that is sufficient to:

- cover our expenses, including purchased water and costs of chemicals, fuel and other commodities used in our operations;
- enable us to recover our investment; and
- provide us with an opportunity to earn an appropriate rate of return on our investment.

Approval by the PUCs is also required in connection with other aspects of our Regulated Businesses, which are required to have numerous permits, approvals and certificates from the PUCs that regulate their businesses and authorize acquisitions, dispositions, debt and/or equity financing, and, in certain cases, affiliated transactions. Some state PUCs are empowered to impose financial penalties, fines and other sanctions for non-compliance with applicable rules and regulations. Although we believe that each utility subsidiary has obtained or sought renewal of the material permits, approvals and certificates necessary for its existing operations, we are unable to predict the impact that future regulatory activities may have on our business.

PUCs and other governmental authorities have taken, and may continue to take, emergency or other actions in light of the on-going COVID-19 pandemic that may impact us, including prohibiting the termination of service for non-payment and extending or delaying procedural schedules in our regulatory proceedings. We are unable to predict the range of impacts that the ongoing COVID-19 pandemic and other related events may have on our ability to obtain these approvals as needed or requested by our Regulated Businesses in the ordinary course or at all, or the nature or impacts of any further emergency or other action that may be taken by the PUCs or other governmental authorities.

In any of these cases, our business, financial condition, results of operations, cash flows and liquidity may be adversely affected. Even if the rates approved are sufficient, we face the risk that we will not achieve the rates of return on our invested capital to the extent permitted by state PUCs. This could occur if certain conditions exist, including, but not limited to, water usage is less than the level anticipated in establishing rates, customers increase their conservation efforts, or we experience unanticipated impacts of the on-going COVID-19 pandemic, or if our investments or expenses prove to be higher than the levels estimated in establishing rates.

Our operations and the quality of water we supply are subject to extensive and increasingly stringent environmental, water quality and health and safety laws and regulations, including with respect to contaminants of emerging concern, compliance with which could impact both our operating costs and capital expenditures, and violations of which could subject us to substantial liabilities and costs, as well as damage to our reputation.

Our regulated water and wastewater operations and the operations of our Market-Based Businesses are subject to extensive federal, state and local laws and regulations. These requirements include, among others, CERCLA, the Clean Water Act, the Safe Drinking Water Act, the LCR, and other federal and state requirements. For example, state PUCs and environmental regulators set conditions and standards for the water and wastewater services we deliver. If we deliver water or wastewater services to our customers that do not comply with regulatory standards, or otherwise violate environmental laws, regulations or permits, or other health and safety and water quality regulations, we could incur substantial fines, penalties or other sanctions or costs, as well as damage to our reputation. In the most serious cases, regulators could reduce requested rate increases or force us to discontinue operations and sell our

operating assets to another utility or to a municipality. Given the nature of our business which, in part, involves providing water service for human consumption, any potential non-compliance with, or violation of, environmental, water quality and health and safety laws or regulations would likely pose a more significant risk to us than to a company not similarly involved in the water and wastewater industry.

In addition, CERCLA authorizes the EPA to issue orders and bring enforcement actions to compel responsible parties to investigate and take remedial actions with respect to actual or threatened releases of hazardous substances, and can impose joint and several liability, without regard to fault, on responsible parties for the costs thereof. We are also required to obtain various environmental permits from regulatory agencies for our operations.

We incur substantial operating and capital costs on an ongoing basis to comply with environmental, water quality and health and safety laws and regulations. These laws and regulations and their enforcement, have become more stringent over time, and new or stricter requirements could increase our costs. Although we may seek to recover ongoing compliance costs in our Regulated Businesses through customer rates, there can be no guarantee that the various state PUCs or similar regulatory bodies that govern our Regulated Businesses would approve rate increases that would enable us to recover such costs or that such costs will not materially and adversely affect our financial condition, results of operations, cash flows and liquidity.

We may also incur liabilities if, under environmental laws and regulations, we are required to investigate and clean up environmental contamination, including potential releases of hazardous chemicals, such as chlorine, which we use to treat water, or at off-site locations where we have disposed of residual waste or caused an adverse environmental impact. The discovery of previously unknown conditions, or the imposition of cleanup obligations in the future, could result in significant costs and could adversely affect our financial condition, results of operations, cash flows and liquidity. Such remediation costs may not be covered by insurance and may make it difficult for us to secure insurance at acceptable rates in the future.

Attention is being given to contaminants of emerging concern, including, without limitation, chemicals and other substances that currently do not have any regulatory standard in drinking water or have been recently created or discovered (including by means of scientific achievements in the analysis and detection of trace amounts of substances). Examples of sources of contaminants include, but are not limited to, newly created chemical compounds (including, for example, manufactured nanomaterials); human and veterinary products; perfluorinated and polyfluorinated compounds; bacteria, microbes, viruses (including the coronavirus), amoebae and other pathogens; and residual by-products of disinfection. We rely upon governmental agencies to set appropriate regulatory standards to protect the public from these and other contaminants, and our role is to provide service that meets these standards, if any. In some of our states, PUCs may disapprove of cost recovery, in whole or in part, for implementation of treatment infrastructure for a contaminant in the absence of a regulatory standard. Furthermore, given the rapid pace at which these contaminants are being created and/or discovered, we may not be able to detect and/or mitigate all such substances in our drinking water system or supplies, which could have a material adverse impact on our financial condition, results of operations and reputation. In addition, we believe these contaminants may form the basis for additional or increased federal or state regulatory initiatives and requirements in the future, which could significantly increase the cost of our operations.

Limitations on availability of water supplies or restrictions on our use of water supplies as a result of government regulation or action may adversely affect our access to sources of water, our ability to supply water to customers or the demand for our water services.

Our ability to meet the existing and future demand of our customers depends on the availability of an adequate supply of water. As a general rule, sources of public water supply, including rivers, lakes, streams, groundwater aquifers and recycled water sources, are held in the public trust and are not generally owned by private interests. As a result, we typically do not own the source water that we use in our operations, and the availability of our water supply is established through allocation rights (determined by legislation or court decisions) and passing-flow requirements set by governmental entities or by entering into water purchase agreements. These requirements, which can change from time to time, and vary by state or region, may adversely impact our water supply. Supply issues, such as drought, overuse of sources of water, the protection of threatened species or habitats, contamination or other factors may limit the availability of ground and surface water. If we are unable to secure available or alternative sources of water, our business, financial condition, results of operations and cash flows could be adversely affected.

For example, in our Monterey County, California operations, we are seeking to augment our sources of water supply, principally to comply with an October 2009 cease and desist order (the "2009 Order"), as amended by a July 2016 order (the "2016 Order"), of the SWRCB that requires our California subsidiary to significantly decrease its diversions from the Carmel River in accordance with a reduction schedule that terminated on December 31, 2021 (the "2021 Deadline"). See Item 3—Legal Proceedings—Alternative Water Supply in Lieu of Carmel River Diversions, which includes additional information regarding this matter. We are also required to augment our Monterey County sources of water supply to comply with the requirements of the Endangered Species Act. Beginning in January 2022, Cal Am currently expects that it will be able to comply with the diversion reduction requirement schedule contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years

will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order may result in material additional costs or obligations, including fines and penalties against our California subsidiary in the event of noncompliance with the 2009 Order and the 2016 Order, which could have a material adverse effect upon us and our business, results of operations and cash flows.

Service disruptions caused by severe weather conditions, climate variability patterns or natural or other disasters may disrupt our operations or reduce the demand for our water services, which could adversely affect our financial condition, results of operations, cash flows and liquidity.

Service interruptions due to severe weather, climate variability patterns and natural or other events are possible across all our businesses. These include, among other things, storms, freezing conditions, high wind conditions, hurricanes, tornadoes, earthquakes, landslides, drought, wildfires, coastal and intercoastal floods or high water conditions, including those in or near designated flood plains, pandemics (including the COVID-19 pandemic) and epidemics, severe electrical storms, sinkholes and solar flares. Weather and other natural events such as these may affect the condition or operability of our facilities, limiting or preventing us from delivering water or wastewater services to our customers, or requiring us to make substantial capital expenditures to repair any damage. Tariffs in place or cost recovery proceedings with respect to our Regulated Businesses may not provide reimbursement to us, in whole or in part, for any of these impacts.

Government restrictions on water use may also result in decreased use of water services, even if our water supplies are sufficient to serve our customers, which may adversely affect our financial condition, results of operations and cash flows. Seasonal drought conditions that may impact our water services are possible across all of our service areas. Governmental restrictions imposed in response to a drought may apply to all systems within a region independent of the supply adequacy of any individual system. Responses may range from voluntary to mandatory water use restrictions, rationing restrictions, water conservation regulations, and requirements to minimize water system leaks. While expenses incurred in implementing water conservation and rationing plans may generally be recoverable provided the relevant PUC determines they were reasonable and prudent, we cannot assure that any such expenses incurred will, in fact, be fully recovered. Moreover, reductions in water consumption, including those resulting from installation of equipment or changed consumer behavior, may persist even after drought restrictions are repealed and the drought has ended, which could adversely affect our business, financial condition, results of operations and cash flows.

Climate variability may cause increased volatility in weather and may impact water usage and related revenue or require additional expenditures, all of which may not be fully recoverable in rates or otherwise.

The issue of climate variability is receiving increasing attention nationally and worldwide. There is consensus among climate scientists that there will be worsening of weather volatility in the future associated with climate variability. Many climate variability predictions present several potential challenges to water and wastewater utilities, including us, such as:

- increased frequency and duration of droughts;
- increased precipitation and flooding;
- increased frequency and severity of storms and other weather events;
- challenges associated with changes in temperature or increases in ocean levels;
- potential degradation of water quality;
- decreases in available water supply and changes in water usage patterns;
- increases in disruptions in service;
- increased costs to repair damaged facilities; or
- increased costs to reduce risks associated with the increasing frequency and severity of natural events, including to improve the resiliency and reliability of our water and wastewater treatment and conveyance facilities and systems.

Because of the uncertainty of weather volatility related to climate variability, we cannot predict its potential impact on our business, financial condition, results of operations, cash flows and liquidity. Furthermore, laws and regulations have been enacted that seek to reduce or limit GHG emissions and require additional reporting and monitoring, and these regulations may become more pervasive or stringent in light of changing governmental agendas and priorities, although the exact nature and timing of these changes is uncertain. Although some or all potential expenditures and costs associated with the impact of climate variability and related laws and regulations on our Regulated Businesses could be recovered through rates, infrastructure replacement surcharges or other regulatory mechanisms, there can be no assurance that state PUCs would authorize rate increases to enable us to recover such

expenditures and costs, in whole or in part.

The current regulatory rate setting process may result in a significant delay, also known as "regulatory lag," from the time that we invest in infrastructure improvements, incur increased operating expenses as a result of inflation or other factors, incur increased cost of capital, including as a result of increasing short- and long-term rates, or experience declining water usage, to the time at which we can seek to address these events in rate case applications; our inability to mitigate or minimize regulatory lag could adversely affect our business.

There is typically a delay, known as "regulatory lag," between the time our Regulated Businesses make a capital investment or incur an operating expense increase and the time when those costs are reflected in rates. In addition, billings permitted by state PUCs typically are, to a considerable extent, based on the volume of water usage in addition to a minimum base rate. Thus, we may experience regulatory lag between the time our revenues are affected by declining usage and the time we are able to adjust the rate per gallon of usage to address declining usage. Our inability to mitigate or reduce regulatory lag could have an adverse effect on our financial condition, results of operations, cash flows and liquidity.

We endeavor to mitigate or reduce regulatory lag by pursuing constructive regulatory practices. For example, two of our states have approved revenue stability mechanisms that adjust rates periodically to ensure that a utility's revenue will be sufficient to cover its costs regardless of sales volume, including recognition of declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently. In addition, 10 of our state PUCs permit rates to be adjusted outside of the general rate case application process through surcharges that address certain capital investments, such as replacement of aging infrastructure. These surcharges are adjusted periodically based on factors such as project completion or future budgeted expenditures, and specific surcharges are eliminated once the related capital investment is incorporated in new PUC approved rates. Furthermore, in setting rates, nine of our state PUCs allow us to use future test years, which extend beyond the date a rate request is filed to allow for current or projected revenues, expenses and investments to be reflected in rates on a more timely basis. Other examples of such regulatory practices include expense mechanisms that allow us to increase rates for certain cost increases that are beyond our control, such as purchased water costs, property or other taxes, or power, conservation, chemical or other expenditures. These mechanisms enable us to adjust rates in less time after costs have been incurred than would be the case under a general rate case application process without the mechanisms.

While these mechanisms have mitigated or reduced regulatory lag in several of our regulated states, we continue to seek approval of regulatory practices to mitigate or reduce regulatory lag in those jurisdictions that have not approved them. Furthermore, PUCs may fail to adopt new surcharges and existing mechanisms may not continue in their current form, or at all, or we may be unable or become ineligible to continue to utilize certain of these mechanisms in the future. Although we intend to continue our efforts to seek state PUC approval of constructive regulatory practices to mitigate or reduce regulatory lag, our efforts may not be successful, or even if partially successful, our business, financial condition, results of operations, cash flows and liquidity may be materially and adversely affected.

Changes in laws and regulations can significantly and materially affect our business, financial condition, results of operations, cash flows and liquidity.

The impact of any future revisions or changes in interpretations of existing regulations or the adoption of new laws and regulations applicable to our Regulated Businesses is uncertain. Changes in laws or regulations, the imposition of additional laws and regulations, changes in enforcement practices of regulators, government policies or court decisions can materially affect our operations, results of operations and cash flows. Certain of the individuals who serve as regulators are elected or political appointees. Therefore, elections which result in a change of political administration or new appointments may also result in changes of the individuals who serve as regulators and changes in the policies of the regulatory agencies that they serve. New laws or regulations, new interpretations of existing laws or regulations, changes in agency policy, including those made in response to shifts in public opinion, or conditions imposed during the regulatory hearing process could have the following consequences, among others:

- making it more difficult for us to increase our rates and, as a consequence, to recover our costs or earn our expected rates of return;
- changing the determination of the costs, or the amount of costs, that would be considered recoverable in rate cases and other regulatory proceedings;
- restricting our ability to terminate our services to customers who owe us money for services previously provided or limiting our bill collection efforts;
- requiring us to provide water or wastewater services at reduced rates to certain customers;
- limiting or restricting our ability to acquire water or wastewater systems, purchase or dispose of assets, or issue long-term debt or equity, or making it less cost-effective for us to do so;

- negatively impacting, among other things: (i) tax rates or positions or the deductibility of expenses under federal or state tax laws, (ii) the availability or amount of, or our ability to comply with the terms and conditions of, tax credits or tax abatement benefit, (iii) the amount of taxes owed, (iv) the timing of tax effects on rates or (v) the ability to utilize our net operating loss carryforwards;
- changing regulations that affect the benefits we expected to receive when we began offering services in a particular area;
- increasing the associated costs of, or difficulty complying with, environmental, health, safety, consumer privacy, water quality, and water quality accountability laws and regulations to which our operations are subject;
- changing or placing additional limitations on change in control requirements relating to any concentration of ownership of our common stock;
- making it easier for governmental entities to convert our assets to public ownership via condemnation, eminent domain or other similar process, or for governmental agencies or private plaintiffs to assess liability against us for damages under these or similar processes;
- placing limitations, prohibitions or other requirements with respect to the sharing of information and participation in transactions by or between a regulated subsidiary and us or our other affiliates, including Service Company and any of our other subsidiaries;
- restricting or prohibiting our extraction of water from rivers, streams, reservoirs or aquifers; and
- revoking or altering the terms of a CPCN issued to us by a state PUC or other governmental authority.

Regulatory and environmental risks associated with the collection, treatment and disposal of wastewater may impose significant costs and liabilities.

The wastewater collection, treatment and disposal operations of our subsidiaries are subject to substantial regulation and involve environmental risks. If collection, treatment or disposal systems fail, overflow, or do not operate properly, untreated or inadequately treated wastewater or other contaminants could spill onto nearby properties or into nearby streams and rivers, causing damage to persons or property, injury to aquatic life and economic damages. This risk is most acute during periods of substantial rainfall or flooding, which are the main causes of sewer overflow and system failure. Liabilities resulting from such damage could adversely and materially affect our business, financial condition, results of operations and cash flows. Certain of our wastewater systems have commercial and industrial customers that are subject to specific limitations on the type, character and strength of the wastewater they are permitted to discharge into our systems. The failure by these commercial and industrial customers to comply with their respective discharge requirements could, in turn, negatively impact our operations, damage our facilities or cause us to exceed applicable discharge limitations and requirements. Liabilities resulting from such exceedance events could adversely and materially affect our business, financial condition, results of operations and cash flows.

A loss of one or more large industrial or commercial customers could have a material adverse impact upon the results of operations of one or more of our Regulated Businesses.

Adverse economic conditions, including the COVID-19 pandemic or other factors, may cause our customers, particularly industrial and large commercial customers, to curtail operations. A curtailment of operations by such a customer typically results in reduced water usage by that customer. In more severe circumstances, the decline in usage could be permanent. Any decrease in demand resulting from difficult economic conditions affecting these customers could adversely affect our financial condition and results of operations. Tariffs in place with respect to our Regulated Businesses may not reimburse us, in whole or in part, for any of these impacts.

Our Regulated Businesses require significant capital expenditures and may suffer if we fail to secure appropriate funding to make investments, experience increases in short- and long-term interest rates or if we experience delays in completing major capital expenditure projects.

The water and wastewater utility business is capital intensive. We invest significant amounts of capital to add, replace and maintain property, plant and equipment, and to improve aging infrastructure. In 2021, we invested $1.8 billion in net Company-funded capital improvements. The level of capital expenditures necessary to maintain the integrity of our systems will continue into the future and, we believe, will increase. We expect to fund capital improvement projects using cash generated from operations (including, among other things, a portion of the net proceeds from the sales of HOS and our New York subsidiary), borrowings under our revolving credit facility and commercial paper programs and issuances of long-term debt and equity. We may not be able to access our revolving credit facility or the commercial paper, long-term debt and equity capital markets, when necessary or desirable to fund capital improvements on favorable terms or at all. If we are not able to obtain sufficient financing, we may be unable to maintain our existing property, plant and equipment, fund our capital investment strategies, meet our growth targets and expand our rate base to enable us to earn satisfactory future returns on our investments. Even with adequate financial resources to make required capital expenditures, we face the additional risk that we will not complete our major capital projects on time, as a result of supply chain interruptions, construction delays, permitting delays, labor shortages or other disruptions, environmental restrictions, legal and

regulatory challenges, or other obstacles. Each of these outcomes could adversely affect our business, financial condition, results of operations and cash flows.

Aging infrastructure may lead to service disruptions, property damage and increased capital expenditures and O&M costs, all of which could negatively impact our financial results.

We have risks associated with aging infrastructure, including water and sewer mains, pumping stations and water and wastewater treatment facilities. Additionally, we may have limited information regarding buried and newly acquired assets, which could challenge our ability to conduct efficient asset management and maintenance practices. Assets that have aged beyond their expected useful lives may experience a higher rate of failure. Failure of aging infrastructure could result in increased capital expenditures and O&M costs, and negatively impact our future O&M efficiency ratio. In addition, failure of aging infrastructure may result in property damage, and in safety, environmental and public health impacts. To the extent that any increased costs or expenditures are not fully recovered in rates, our results of operations, liquidity and cash flows could be negatively impacted.

Seasonality could adversely affect the volume of water sold and our revenues.

The volume of water we sell during the warmer months, typically in the summer, is generally greater than during other months, due primarily to increased water usage for irrigation systems, swimming pools, cooling systems and other applications. Throughout the year, and particularly during typically warmer months, the volume of water sold tends to vary with temperature, rainfall levels and rainfall frequency. In the event that temperatures during the typically warmer months are cooler than normal, or if there is more rainfall than normal, the amount of water we sell may decrease and adversely affect our revenues.

Two of our jurisdictions, California and Illinois, have adopted revenue stability mechanisms that permit us to recover the revenues authorized in a general rate case, regardless of sales volume. Revenue stability mechanisms are designed to recognize declining sales resulting from reduced consumption, while providing an incentive for customers to use water more efficiently. In those jurisdictions that have not adopted a revenue stability mechanism, our operating results could continue to be affected by seasonality.

Contamination of water supplies or our water service provided to our customers could result in service limitations and interruptions and exposure to substances not typically found in potable water supplies, and could subject us and our subsidiaries to reductions in usage and other responsive obligations, government enforcement actions, damage to our reputation and private litigation.

The water supplies that flow into our treatment plants or are delivered through our distribution system, or the water service that is provided to our customers, may be subject to contamination, including, among other items, contamination from naturally-occurring compounds, chemicals in groundwater systems, pollution resulting from manufactured sources (such as perchlorate, perfluorinated and polyfluorinated compounds, methyl tertiary butyl ether, 1,4-dioxane, lead and other materials, or chemical spills or other incidents that result in contaminants entering the water source), and possible terrorist attacks or other similar incidents. In addition, new categories of contaminants continue to emerge in the water industry. If one of our water supplies or the water service provided to our customers is contaminated, depending on the nature of the contamination, we may have to take responsive actions that could include, among other things (1) limiting use of the water supply under a “Do Not Use” protective order that enables continuation of basic sanitation and essential fire protection, or (2) interrupting the use of that water supply, in whole or in part, potentially impacting basic sanitation and fire protection needs. If service is disrupted, our financial condition, results of operations, cash flows, liquidity and reputation may be adversely affected. In addition, we may incur significant costs in order to treat the contaminated source through the expansion of our current treatment facilities or the development of new sources of supply or new treatment methods. We may be unable to recover costs associated with treating or decontaminating water supplies through insurance, customer rates, tariffs or contract terms, and any recovery of these costs that we are able to obtain through regulatory proceedings or otherwise may not occur in a timely manner. Moreover, we could be subject to claims for damages arising from government enforcement actions or toxic tort or other lawsuits arising out of an interruption of service or human exposure to hazardous substances in our drinking water and water supplies. See Item 3—Legal Proceedings for information on certain pending lawsuits related to interruptions of water service.

Since we are engaged in the business of providing water service to our customers, contamination of the water supply, or the water service provided to our customers, could result in substantial injury or damage to our customers, employees or others and we could be exposed to substantial claims and litigation. Such claims could relate to, among other things, personal injury, loss of life, business interruption, property damage, pollution, and environmental damage and may be brought by our customers or third parties. Litigation and regulatory proceedings are subject to inherent uncertainties and unfavorable rulings can and do occur. We may not be protected from these claims or negative impacts of these claims in whole or in part by tariffs or other contract terms. Negative impacts to our reputation may occur even if we are not liable for any contamination or other environmental damage or the consequences arising out of human exposure to contamination or hazardous substances within the water supply or distributed finished drinking water. In addition, insurance coverage may not cover all or a portion of these losses, and are subject to deductibles and other limitations. Pending or future claims against us could have a material adverse impact on our business, financial condition, results of operations and cash flows.

We are subject to adverse publicity and reputational risks, which make us vulnerable to negative customer perception and could lead to increased regulatory oversight or sanctions.

Our business and operations have a large direct and indirect customer base and, as a result, we are exposed to public criticism regarding, among other things, the reliability of water service, wastewater and related or ancillary services, the quality of water provided, and the amount, timeliness, accuracy and format of bills that are provided for such services. Adverse publicity and negative consumer sentiment arising out of these and other incidents may render legislatures and other governing bodies, state PUCs and other regulatory authorities, and government officials less likely to view us in a favorable light, and may cause us to be susceptible to less favorable legislative, regulatory and economic outcomes, as well as increased regulatory or other oversight and more stringent regulatory or economic requirements. Unfavorable regulatory and economic outcomes may include the enactment of more stringent laws and regulations governing our operations and less favorable economic terms in our agreements related to our Military Services Group, as well as fines, penalties or other sanctions or requirements. The imposition of any of the foregoing could have a material negative impact on us and our financial condition, results of operations and cash flows.

The failure of, or the requirement to repair, upgrade or dismantle, any of our dams may adversely affect our financial condition, results of operations, cash flows and liquidity.

The properties of our Regulated Businesses segment include 76 dams, the majority of which are earthen dams. The failure of any of these dams could result in personal injury and property damage, including without limitation downstream property damage, for which we may be liable. The failure of a dam would also adversely affect our ability to supply water in sufficient quantities to our customers and could adversely affect our financial condition and results of operations. Any losses or liabilities incurred due to a failure of one of our dams might not be covered by insurance policies or be recoverable in rates, and such losses may make it difficult for us to secure insurance at acceptable rates in the future.

We also are required from time to time to decommission, repair or upgrade the dams that we own. The cost of such repairs or upgrades can be and has been material. The federal and state agencies that regulate our operations may adopt rules and regulations requiring us to dismantle our dams, which also could entail material costs. Although in most cases the PUC has permitted recovery of expenses and capital investment related to dam rehabilitation, we might not be able to recover costs of repairs, upgrades or dismantling through rates in the future. The inability to recover these costs or delayed recovery of the costs as a result of regulatory lag can affect our financial condition, results of operations, cash flows and liquidity.

Any failure of our network of water and wastewater pipes, water mains and water reservoirs could result in losses and damages that may affect our financial condition and reputation.

Our operating subsidiaries distribute water and collect wastewater through an extensive network of pipes, water mains and storage systems located across the United States. A failure of major pipes, mains or reservoirs could result in injuries, property and other damage for which we may be liable. The failure of major pipes, mains and reservoirs may also result in the need to shut down some facilities or parts of our network in order to conduct repairs. Such failures and shutdowns may limit our ability to supply water in sufficient quantities to our customers and to meet the water and wastewater delivery requirements prescribed by government regulators, including state PUCs with jurisdiction over our operations, and adversely affect our financial condition, results of operations, cash flows, liquidity and reputation. Any business interruption or other losses might not be covered by insurance policies or be recoverable in rates, and such losses may make it difficult for us to secure insurance at acceptable rates in the future. Moreover, to the extent such business interruptions or other losses are not covered by insurance, they may not be recovered through rate adjustments.

An important part of our growth strategy is the acquisition of water and wastewater systems, which involves risks, including competition for acquisition opportunities from other regulated utilities, governmental entities and other buyers, which may hinder or limit our ability to grow our business.

An important element of our growth strategy is the acquisition and optimization of water and wastewater systems in order to broaden our current, and move into new, service areas. We may not be able to acquire other systems or businesses if we cannot identify suitable acquisition opportunities or reach mutually agreeable terms with acquisition candidates. Further, competition for acquisition opportunities from other regulated utilities, governmental entities and other buyers may hinder our ability to expand our business.

The negotiation and execution of potential acquisitions as well as the integration of acquired systems or businesses with our existing operations could require us to incur significant costs and cause diversion of our management’s time and resources. Future acquisitions by us could result in, among other things:

- incurrence or assumption of debt, contingent liabilities and environmental liabilities and obligations, including liabilities that were unknown or undisclosed at the time of acquisition;
- failure to recover acquisition premiums;

- unanticipated capital expenditures;
- failure to maintain effective internal control over financial reporting;
- the need to successfully integrate the acquired systems' operations and water quality, cybersecurity and infrastructure protection measures;
- recording goodwill and other intangible assets at values that ultimately may be subject to impairment charges;
- fluctuations in quarterly results;
- unanticipated acquisition-related expenses;
- failure to realize anticipated benefits and synergies, such as cost savings and revenue enhancements; and
- difficulties in integrating or assimilating personnel, benefits, services and systems.

Some or all of these items could have a material adverse effect on our business. The systems and businesses we acquire in the future may not achieve anticipated revenue, return on equity or profitability, or other perceived synergies, and any difficulties we encounter in the integration process could interfere with our operations, reduce our net income and profitability or adversely affect our internal control over financial reporting.

We compete with governmental entities, other regulated utilities, and strategic and financial buyers for acquisition opportunities. As consolidation activity increases in the water and wastewater industries and competition for acquisitions continues to increase, the prices for suitable acquisition candidates may increase and limit our ability to expand through acquisitions.

Our Regulated Businesses are subject to condemnation and other proceedings through eminent domain or other similar authorized process, which could materially and adversely affect their results of operations and financial condition.

Municipalities and other government subdivisions have historically been involved in the provision of water and wastewater services in the United States, and organized efforts may arise from time to time in one or more of the service areas in which our Regulated Businesses operate to convert our assets to public ownership and operation through exercise of the governmental power of eminent domain, or another similar authorized process. A municipality, other government subdivision or a citizen group may seek to acquire our assets through eminent domain or such other process, either directly or indirectly as a result of a citizen petition.

For example, in November 2018, Monterey, California ballot Measure J, which was added by a citizens group, was certified as having been approved by a public vote, requiring the MPWMD to conduct a study and submit a written plan concerning the feasibility of a potential purchase of the Monterey system assets without an additional public vote. The public vote led to the issuance by the MPWMD in November 2019 of a preliminary report finding, among other things, that the acquisition of the Monterey system assets by the MPWMD would be economically feasible. Also, five municipalities in the Chicago, Illinois area formed a water agency that filed an eminent domain lawsuit against our Illinois subsidiary in January 2013, seeking to condemn a water pipeline that serves those five municipalities. This lawsuit remains pending, and a valuation trial is scheduled for the second quarter of 2022. See Item 1—Business—Regulated Businesses—Condemnation and Eminent Domain, which includes additional information regarding these matters.

Furthermore, the law in certain jurisdictions in which our Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if the public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has disallowed recovery in rates of losses incurred by these utilities as a result of such lawsuits.

Contesting an exercise of condemnation, eminent domain or other similar process, or responding to a citizen petition, may result in costly legal proceedings and may divert the attention of management. Moreover, our efforts to resist the condemnation, eminent domain or other process may not be successful, which may require us to sell the operations at issue in a condemnation proceeding or to pay a private property owner compensation for the property damage suffered. If a municipality or other government subdivision succeeds in acquiring the assets of one or more of our Regulated Businesses through eminent domain or other process, there is a risk that we will not receive adequate compensation for the business, that we will not be able to keep the compensation, or that we will not be able to divest the business without incurring significant charges. Any of these outcomes may have a material adverse effect on our business, results of operations, financial condition, cash flows and liquidity.

We may be subject to physical and cyber attacks.

As operators of critical infrastructure, we may face a heightened risk of physical and cyber attacks from internal or external sources. Our water and wastewater systems may be vulnerable to disability or failures as a result of physical or cyber attacks, acts of war or terrorism, vandalism or other causes. Our operational and technology systems throughout our businesses may be vulnerable to unauthorized external or internal access, due to hacking, viruses, acts of war or terrorism, and other causes. Unauthorized access to confidential information located or stored on these systems could negatively and materially impact our customers, employees, suppliers and other third parties. Further, third parties, including vendors, suppliers and contractors, who perform certain services for us or administer and maintain our sensitive information, could also be targets of cyber attacks and unauthorized access. While we have instituted safeguards to protect our operational and technology systems, those safeguards may not always be effective due to the evolving nature of cyber attacks and cyber vulnerabilities. We cannot guarantee that such protections will be completely successful in the event of a cyber attack.

If, despite our security measures, a significant physical attack or cyber breach occurred, our operations could be disrupted, property damaged, and customer and other confidential information lost or stolen; we could experience substantial loss of revenues, response costs and other financial loss; we could suffer a loss of management time, attention and resources from our regular business operations; and we may be subject to increased regulation, litigation and damage to our reputation, any of which could have a negative impact on our business, results of operations and cash flows. Experiencing a cyber security incident could also cause us to be non-compliant with applicable laws and regulations or contracts that require us to securely maintain confidential data, causing us to incur costs related to legal claims or proceedings and regulatory fines or penalties. These types of events, either impacting our facilities or the industry in general, could also cause us to incur additional security and insurance related costs.

In addition, in the ordinary course of business, we collect and retain sensitive information, including personally identifiable information, about our customers and employees. In many cases, we outsource administration of certain functions to vendors that could be targets of cyber attacks. Any theft, loss or fraudulent use of customer, employee or proprietary data as a result of a cyber attack could subject us to significant litigation, liability and costs, as well as adversely impact our reputation with customers and regulators, among others.

We have obtained cyber insurance to provide coverage for a portion of the losses and damages that may result from a security breach, but such insurance is subject to a number of exclusions and may not cover the total loss or damage caused by a breach. The market for cybersecurity insurance is relatively new and coverage available for cybersecurity events may evolve as the industry matures. In the future, adequate insurance may not be available at rates that we believe are reasonable, and the costs of responding to and recovering from a cyber incident may not be covered by insurance or recoverable in rates.

Our business is subject to complex and evolving federal, state and local laws and regulations regarding consumer privacy and the protection or transfer of data relating to individuals, which could result in, among other things, private or governmental claims or litigation against us, changes to our business practices, monetary penalties, reputational harm and increased cost of operations.

Laws and regulations are changing and increasing rapidly with respect to data and consumer privacy, security and protection. We are becoming subject to an increasing number of complex and continually evolving data and consumer privacy, security and protection laws and regulations administered by various federal, state and local governments, including, for example, the California Consumer Privacy Act of 2018. Federal and state governments have also adopted or are proposing other limitations on, or requirements regarding, the collection, distribution, use, security and storage of personally identifiable information. In addition, the Federal Trade Commission and state attorneys general are applying federal and state consumer protection laws to impose standards on the collection, use and dissemination of data. Moreover, we expect that current laws, regulations and industry standards concerning privacy, data protection and information security in the United States will continue to evolve and increase, and we cannot determine the impact that compliance with such future laws, regulations or standards will have on us or on our business. Any failure or perceived failure by us to comply with current or future federal, state, or local data or consumer privacy or security laws, regulations, policies, guidance, industry standards, or legal obligations, or any incident resulting in unauthorized access to, or acquisition, release, or transfer of personally identifiable information or other data relating to our customers, employees and others, may result in private or governmental enforcement actions, litigation or other claims against us, fines and penalties, or adverse perception or publicity about us and our businesses, which could have a material adverse effect on our reputation and business and could result in us incurring substantial costs. These events could also require us to change our business practices, and the events or such changes may result in significant diversions of resources, distract management and divert the focus and attention of our security and technical personnel from other critical activities. Any of the foregoing consequences could have a material adverse effect on our business, financial condition, results of operations, cash flows and liquidity.

We may sustain losses that exceed or are excluded from our insurance coverage or for which we are self-insured.

We maintain insurance coverage as part of our overall legal and risk management strategy to minimize potential liabilities arising from our Regulated Businesses, as well as the operations of our Market-Based Businesses. Our insurance programs have

varying coverage limits, exclusions and maximums, and insurance companies may seek to deny claims we might make. Generally, our insurance policies cover property damage, worker's compensation, employer's liability, general liability, cybersecurity, terrorism risks and automobile liability. Each policy includes deductibles or self-insured retentions and policy limits for covered claims. As a result, we may sustain losses that exceed or that are excluded from our insurance coverage or for which we are self-insured.

Although in the past we have been generally able to obtain insurance coverage related to our business, there can be no assurance that we can secure all necessary or appropriate insurance in the future, or that such insurance can be economically secured. For example, catastrophic events can result in decreased coverage limits, more limited coverage, increased premium costs or deductibles.

We rely on technology to facilitate the management of our business as well as our customer and supplier relationships, and a failure or disruption of implemented technology could materially and adversely affect our business.

Technology is an integral part of our business and operations, and any failure or disruption of the technology or related systems we implement could significantly limit our ability to manage and operate our business effectively and efficiently, which, in turn, could cause our business and competitive position to suffer and adversely affect our results of operations. We use technology systems to, among other things, bill customers, process orders, provide customer service, manage certain plant operations and construction projects, manage our financial records, track assets, remotely monitor our plants and facilities, and manage human resources, supply chain, inventory, and accounts receivable collections. As a specific example, we depend on water meters to record and communicate the amount of water our customers use, and in recent years, we have experienced greater than expected performance failures with certain water meters used in the Regulated Businesses. When these occur, we work with meter manufacturers to determine and address the cause of such failures. While these and other failures that we have experienced have not to date had a material adverse effect on our operations, there can be no assurance that efforts to address performance failures or other issues we may experience with water meters will be successful and that these or future failures of water meters or other issues will not have a material adverse effect on us.

Although we do not believe that the technology we have implemented or may in the future implement is at a materially greater risk of failure than that used by other similar organizations, our technology and operations that use or rely on technology remain vulnerable to damage or interruption from, among other things: failure or interruption of the technology or its related systems; loss or failure of power, internet, telecommunications or data network systems; and operator error or improper operation by, the negligent or improper supervision of, or the intentional acts of, employees, contractors and other third parties. Any or all of these events could have a material adverse impact on our business, results of operations, financial condition and cash flows.

An inability to successfully develop and implement new technologies poses substantial risks to our business and operational excellence strategies, which could have a material adverse effect on our business and financial results.

A significant part of our long-term strategic focus on safety, operational excellence, O&M expense efficiency, water quality, asset and capital management and the customer experience includes implementing new technologies for, among other things: customer service and support; environmental compliance; water metering; water quality and source monitoring; cybersecurity; business development and growth; data analysis; employee development and training; and other initiatives. For example, we have made and plan to continue to make significant investments in developing, deploying and maintaining customer-facing technologies, applications to support field service and customer service operations, water source sensor and evaluation technologies, data analytics and hyperautomation technologies and artificial intelligence technologies. Where appropriate, we also seek to align these new technologies with existing technology infrastructure and systems. There can be no assurance that we will be successful in designing, developing, deploying, integrating or maintaining these new technologies. Because these efforts can be long-term in nature, these new technologies may be more costly or time-consuming than expected to design, develop, integrate and complete and may not ultimately deliver the expected or desired benefits upon completion. While we have and will continue to seek to recover costs and earn a return on capital expenditures with respect to the costs and expenses of development and deployment of these new technologies in our Regulated Businesses, there can be no assurance that we will be able to do so in every instance or at all, and our inability to do so may adversely affect our ability to achieve intended O&M expense efficiencies or other key performance results and, ultimately, could materially and adversely impact our business, financial condition, results of operations and cash flows.

Our inability to efficiently upgrade and improve our operational and technology systems, or implement new systems, could result in higher than expected costs or otherwise adversely impact our internal controls environment, operations and profitability.

Upgrades and improvements to computer systems and networks, or the implementation of new systems, may require substantial amounts of management's time and financial resources to complete, and may also result in system or network defects or operational errors due to multiple factors, including employees' ability to effectively use the new or upgraded system. We continue to implement technology to improve our business processes and customer interactions, and have installed new, and upgraded existing, technology systems. Any technical or other difficulties in upgrading and improving existing or implementing new technology systems may increase costs beyond those anticipated and have an adverse or disruptive effect on our operations and reporting processes, including our internal control over financial reporting. We may also experience difficulties integrating current systems with new or upgraded systems, which may impact our ability to serve our customers effectively or efficiently. Although we make efforts to minimize any

adverse impact on our controls, business and operations, we cannot assure that all such impacts have been or will be mitigated, and any such impacts could harm our business (individually or collectively) and have a material adverse effect on our results of operations, financial condition and cash flows.

Disruptions in our supply chain related to goods, such as pipe, chemicals, fuel, electricity, equipment, water and other raw materials, and services, could adversely impact our operations and our ability to serve our customers, as well as our financial results.

Our ability to serve our customers and operate our business in compliance with regulatory requirements is dependent upon purchasing or securing necessary goods and services from our suppliers and vendors. These items include but are not limited to contracted services, chemicals, pipe, valves, hydrants, fittings, fuel, equipment (including personal protective equipment), water and electricity. Examples of supply chain disruptions include reduced quantities of goods available in the marketplace, delays in manufacturing or shipping goods, labor shortages at our suppliers or vendors, natural disasters and operational impacts to some of our suppliers or vendors. Disruptions in our supply chain related to goods and services have occurred and we anticipate will continue to occur into the foreseeable future. Supply chain disruptions may cause us to be unable to purchase or otherwise obtain needed goods or services at a reasonable price or at all, and may significantly increase the price of goods and services we may obtain from suppliers and vendors. This, in turn, may adversely impact our operations and our ability to serve our customers in compliance with regulatory requirements, as well as our associated results of operations, cash flows and financial condition. While we attempt to plan for and have contingencies in place to address supply chain disruptions, our mitigation efforts may not be successful or may have further negative impacts on us.

Our business has inherently dangerous work sites. If we fail to maintain safe work sites, we may experience workforce or customer injuries or loss of life, and be exposed to financial losses, including penalties and other liabilities.

Safety is a core value and a strategy at American Water. Our safety performance and progress to our ultimate desired goal of zero injuries are critical to our ability to carry out our operations effectively and to serve our customers, and thereby, to support our reputation. We maintain health and safety practices to protect our employees, customers, contractors, vendors and the public. Eliminating all hazards all of the time is extremely challenging, but through strict adherence to our health and safety practices, and empowering employees to be safety leaders who are expected to stop work if deemed “unsafe,” we believe we can achieve an injury-free workplace.

At our business sites, including construction and maintenance sites, our employees, contractors and others are often in close proximity to large mechanical operating equipment, moving vehicles, pressurized water, electric and gas utility lines, below grade trenches and vaults, electrical and pneumatic hazards, fall from height hazards, suspended loads, hazardous chemicals and other regulated materials. On many sites, we are responsible for safety and, accordingly, must implement important safety procedures and practices above governmental regulatory requirements. As an essential business that must continue to provide water and wastewater services during the COVID-19 pandemic, we are focused on the health and safety of our employees, contractors, vendors, customers and others who work at or visit our worksites. If the procedures we implement are ineffective or are not followed by our employees or others, or we fail to implement procedures, our employees, contractors and others may experience illness, or minor, serious or fatal injuries. Unsafe work sites have the potential to increase employee turnover, expose us to litigation and raise our operating costs. Any of the foregoing could result in financial losses, which could have a material adverse impact on our business, financial condition, results of operations and cash flows.

In addition, our operations can involve the delivery, handling, storage, use and disposal of hazardous chemicals, which, if improperly delivered, handled, stored, used or disposed of, could result in serious injury, death, environmental damage or property damage, and could subject us to penalties or other liabilities. We are also subject to various environmental, transportation and occupational health and safety regulations. Although we maintain functional employee groups whose primary purpose is to implement effective environmental health and safety work procedures and practices throughout our organization, including construction sites and operating facilities, the failure to comply with these regulations or procedures could subject us to liability.

Work stoppages and other labor relations matters could adversely affect our results of operations and the ability to serve our customers.

As of December 31, 2021, approximately 47% of our workforce was represented by unions, and we had 73 collective bargaining agreements in place with 14 different unions representing our unionized employees. These collective bargaining agreements, 21 of which will expire during 2022, are subject to periodic renewal and renegotiation. We may not be able to successfully renew or renegotiate these labor contracts, or enter into new agreements, on terms that are acceptable to us. Any negotiations or dispute resolution processes undertaken in connection with our labor contracts could be delayed or affected by labor actions or work stoppages. Labor actions, work stoppages or the threat of work stoppages, and our failure to obtain favorable labor contract terms during renegotiations, may disrupt our operations, negatively impact the ability to serve our customers, and result in higher labor costs, which could adversely affect our reputation, financial condition, results of operations, cash flows and liquidity.

While we have developed contingency plans to be implemented as necessary if a work stoppage or strike does occur, a strike or work stoppage may have a material adverse impact on our financial position, results of operations and cash flows.

Financial, Economic and Market-Related Risks

Our indebtedness could adversely affect our business and limit our ability to plan for or respond to changes in our business, and we may be unable to generate sufficient cash flows to satisfy our liquidity needs.

As of December 31, 2021, our aggregate long-term and short-term debt balance (including preferred stock with mandatory redemption requirements) was $11.0 billion, and our working capital (defined as current assets less current liabilities) was in a deficit position. Our indebtedness could have important consequences, including:

- limiting our ability to obtain additional financing to fund future working capital requirements or capital expenditures;
- exposing us to interest rate risk with respect to the portion of our indebtedness that bears interest at variable rates;
- limiting our ability to pay dividends on our common stock or make payments in connection with our other obligations;
- impairing our access to the capital markets for debt and equity;
- requiring that an increasing portion of our cash flows from operations be dedicated to the payment of the principal and interest on our debt, thereby reducing funds available for future operations, dividends on our common stock or capital expenditures;
- limiting our ability to take advantage of significant business opportunities, such as acquisition opportunities, and to react to changes in market or industry conditions; and
- placing us at a competitive disadvantage compared to those of our competitors that have less debt.

In order to meet our capital expenditure needs, we may be required to borrow additional funds under the revolving credit facility or issue a combination of new short-term and long-term debt securities and/or equity. We continue to assess our short- and long-term liquidity needs in light of the impact of the COVID-19 pandemic on the financial and capital markets, especially with respect to the market for corporate commercial paper, which experienced volatility and shortages of liquidity in March 2020. In response to these events, in March 2020, we entered into a $750 million 364-day term loan facility and immediately executed a $500 million draw thereunder to support our short-term liquidity by retaining that amount in cash. We repaid this term loan facility in full in March 2021. During 2021, we utilized other existing sources of liquidity, such as our current cash balances, cash flows from operations and borrowings under the revolving credit facility as necessary or desirable to meet our short-term liquidity requirements. We believe that existing sources of liquidity will be sufficient to meet our cash requirements for the foreseeable future. However, as the impacts of the COVID-19 pandemic on the economy, the financial and capital markets and our operations continue to evolve, we will continue to assess our liquidity needs. In the event of a sustained market deterioration, we may need to obtain additional sources of liquidity, which would require us to evaluate available alternatives and take appropriate actions.

Moreover, additional borrowings may be required to repay or refinance outstanding indebtedness. Other than debt with respect to the term loan facility, debt maturities and sinking fund payments in 2022, 2023 and 2024 will be $57 million, $280 million and $474 million, respectively. We can provide no assurance that we will be able to access the debt or equity capital markets on favorable terms, if at all, to repay or refinance this debt. Moreover, as new debt is added to our current debt levels, the related risks we now face could intensify, limiting our ability to repay or refinance existing debt on favorable terms.

We have in the past entered into, and in the future may enter into, financial derivative instruments, including without limitation, interest rate swaps, forward starting swaps and U.S. Treasury lock agreements. See Item 7A—Quantitative and Qualitative Disclosures About Market Risk. However, these efforts may not be effective to fully mitigate interest rate risk, and may expose us to other risks and uncertainties, including quarterly “mark to market” valuation risk associated with these instruments, that could negatively and materially affect our financial condition, results of operations and cash flows.

Our ability to pay our expenses and satisfy our debt service obligations depends in significant part on our future performance, which will be affected by the financial, business, economic, competitive, legislative (including tax initiatives and reforms, and other similar legislation or regulation), regulatory and other risk factors described in this section, many of which are beyond our control. If we do not have sufficient cash flows to pay the principal and interest on our outstanding debt, we may be required to refinance all or part of our existing debt, reduce capital investments, sell assets, borrow additional funds or sell additional equity. In addition, if our business does not generate sufficient cash flows from operations, or if we are unable to incur indebtedness sufficient to enable us to fund our liquidity needs, we may be unable to plan for or respond to changes in our business, which could cause our financial condition, operating results and prospects to be affected materially and adversely.

Our inability to access the debt or equity capital or financial markets or other events could affect our ability to meet our liquidity needs at reasonable cost and our ability to meet long-term commitments, which could adversely affect our financial condition and results of operations.

In addition to cash from operations, during 2021, we generally relied primarily on a $2.25 billion revolving credit facility, a $2.10 billion commercial paper program, our $750 million 364-day term loan facility (which expired and was repaid in full in March 2021) and the capital markets, to satisfy our liquidity needs. The revolving credit facility currently expires in accordance with its terms in March 2025. Historically, we have regularly used our commercial paper program rather than the revolving credit facility as a principal source of short-term borrowing due to the generally more attractive rates we generally could obtain in the commercial paper market. As of December 31, 2021, there were no outstanding borrowings under the revolving credit facility, $584 million of commercial paper outstanding and $76 million in outstanding letters of credit. There can be no assurance that we will be able to continue to access this commercial paper program or revolving credit facility, when, as and if desired, or that the amount of capital available thereunder will be sufficient to meet all of our liquidity needs at a reasonable, or any, cost.

Under the terms of the revolving credit facility, our consolidated debt cannot exceed 70% of our consolidated capitalization, as determined under the terms of the facility. If our equity were to decline or debt were to increase to a level that causes us to exceed this limit, lenders under the facility would be entitled to refuse any further extension of credit and to declare all of the outstanding debt thereunder immediately due and payable. To avoid such a default, a waiver or renegotiation of this covenant would be required, which would likely increase funding costs and could result in additional covenants that would restrict our operational and financing flexibility. Our ability to comply with this and other covenants contained in the revolving credit facility and our other consolidated indebtedness is subject to various risks and uncertainties, including events beyond our control. For example, events that could cause a reduction in equity include, without limitation, a significant write-down of our goodwill. Even if we are able to comply with this or other covenants, the limitations on our operational and financial flexibility could harm our business by, among other things, limiting our ability to incur indebtedness or reduce equity in connection with financings or other corporate opportunities that we may believe would be in our best interests or the interests of our shareholders to complete.

Disruptions in the capital markets or changes in our credit ratings could also limit our ability to access capital on terms favorable to us or at all. While the lending banks that participate in the revolving credit facility have to date honored their commitments under those facilities, disruptions in the credit markets, changes in our credit ratings, or deterioration of the banking industry's financial condition could discourage or prevent lenders from meeting their existing lending commitments, extending the terms of such commitments, or agreeing to new commitments. In such a case, we may not be able to access the commercial paper or debt or capital markets, or other sources of potential liquidity, in the future on terms acceptable to us or at all. Furthermore, our inability to maintain, renew or replace commitments under our revolving credit facility could materially increase our cost of capital and adversely affect our financial condition, results of operations and liquidity. Short- or long-term disruptions in the capital and credit markets as a result of economic, legislative, political or other uncertainty, including as a result of the COVID-19 pandemic, changes in U.S. tax and other laws, reduced financing alternatives, or failures of significant financial institutions could adversely affect our access to the liquidity needed for our business. Any significant disruption in the capital, debt or credit markets, or financial institution failures could require us to take measures to conserve cash until the market stabilizes or until alternative financing can be arranged. Such measures could include delaying or deferring capital expenditures, reducing or suspending dividend payments, and reducing other discretionary expenditures. Finally, there is no assurance that we will be able to access the equity markets to obtain capital or financing when necessary or desirable and on terms that are reasonable or acceptable to us.

Any of the foregoing events that impede our access to the debt or equity capital markets, or the failure of any of our lenders to meet their commitments that result from financial market disruptions, could expose us to increased interest expense, require us to institute cash conservation measures or otherwise adversely and materially affect our business, financial condition, results of operations, cash flows and liquidity.

Parent company may be unable to meet its ongoing and future financial obligations and to pay dividends on its common stock if its subsidiaries are unable to pay upstream dividends or repay funds.

Parent company is a holding company and, as such, it has no substantive operations of its own. Substantially all of our consolidated assets are held by subsidiaries. Parent company's ability to meet its financial obligations and to pay dividends on its common stock is primarily dependent on the net income and cash flows of its subsidiaries and their ability to pay upstream dividends or repay indebtedness to parent company. Prior to paying dividends to parent company, our regulated subsidiaries must comply with applicable regulatory restrictions and financial obligations, including, for example, debt service and preferred and preference stock dividends, as well as applicable corporate, tax and other laws and regulations and agreements, and our covenants and other agreements. Our subsidiaries are separate legal entities and have no obligation to pay or upstream dividends to parent company. A failure or inability of any of these subsidiaries to pay such dividends or repay intercompany obligations could have a material adverse impact on our liquidity and parent company's ability to pay dividends on its common stock and meet its other obligations.

We may not be able to fully utilize our state net operating loss carryforwards.

As of December 31, 2021, we had state NOL carryforwards of approximately $123 million, and management believes it is more likely than not that these NOL carryforwards will be recovered in the future. Our state NOL carryforwards began to expire in 2021 and will continue to expire through 2041. We have, in the past, been unable to utilize certain of our state NOL carryforwards, and the establishment or increase of a valuation allowance in the future would reduce our deferred income tax assets and our net income. Our actual results may differ from those estimated by management in making its assessment as to our ability to use the state NOL carryforwards. If we are unable to fully utilize our state NOL carryforwards to offset taxable income generated in the future, our financial position, results of operations and cash flows could be materially adversely affected.

We have recorded a significant amount of goodwill, and we may never realize the full value of our intangible assets, causing us to record impairments that may negatively affect our results of operations.

Our total assets include $1.1 billion of goodwill at December 31, 2021. The goodwill is primarily associated with the acquisition of American Water by an affiliate of our previous owner in 2003. Goodwill represents the excess of the purchase price the purchaser paid over the fair value of the net tangible and other intangible assets acquired. Goodwill is recorded at fair value on the date of an acquisition and is reviewed annually or more frequently if changes in circumstances indicate the carrying value may not be recoverable. As required by the applicable accounting rules, we have taken significant non-cash charges to operating results for goodwill impairments in the past. We may be required to recognize an impairment of goodwill in the future due to market conditions or other factors related to our performance or the performance of an acquired business. These market conditions could include a decline over a period of time of our stock price, a decline over a period of time in valuation multiples of comparable water utilities, market price performance of our common stock that compares unfavorably to our peer companies, decreases in control premiums, or other circumstances. A decline in the results forecasted in our business plan due to events such as changes in rate case results, capital investment budgets or interest rates, could also result in an impairment charge. Recognition of impairments of goodwill would result in a charge to income in the period in which the impairment occurred, which may negatively affect our financial condition, results of operations and total capitalization. The effects of any such impairment could be material and could make it more difficult to maintain our credit ratings, secure financing on attractive terms, maintain compliance with debt covenants and meet the expectations of our regulators.

Market volatility and other conditions may impact the value of benefit plan assets and liabilities, as well as assumptions related to the benefit plans, which may require us to provide significant additional funding.

The performance of the capital markets affects the values of the assets that are held in trust to satisfy significant future obligations under our pension and postretirement benefit plans. The value of these assets is subject to market fluctuations and volatility, which may cause investment returns to fall below our projected return rates. We are currently unable to predict the effect, if any, of the COVID-19 pandemic or other events on the valuation of our pension assets and liabilities. A decline in the market value of our pension and postretirement benefit plan assets as of the measurement date can increase the funding requirements under our pension and postretirement benefit plans. Additionally, our pension and postretirement benefit plan liabilities are sensitive to changes in interest rates. Interest rates have experienced volatility and are subject to potential further adjustments based on the actions of the U.S. Federal Reserve, and others. If interest rates are lower at the measurement date, our liabilities would increase, potentially increasing benefit expense and funding requirements. Further, changes in assumptions, such as increases in life expectancy assumptions and increasing trends in health care costs may also increase our funding requirements. Future increases in pension and other postretirement costs as a result of reduced plan assets may not be fully recoverable in rates, in which case our results of operations and financial position could be negatively affected. In addition, market factors can affect assumptions we use in determining funding requirements with respect to our pension and postretirement plans. For example, a relatively modest change in our assumptions regarding discount rates can materially affect our calculation of funding requirements. To the extent that the discount rate used in our assumptions is reduced, our benefit obligations could be materially increased, which could adversely affect our financial position, results of operations and cash flows.

Additional Risks Related to Market-Based Businesses

Parent company provides performance guarantees with respect to certain of the obligations of our Market-Based Businesses, including financial guarantees or deposits, which may adversely affect parent company if the guarantees are successfully enforced.

Under the terms of certain agreements under which our Market-Based Businesses, primarily MSG, provide water and wastewater services to municipalities and federal governmental entities, parent company provides guarantees of specified performance obligations, including financial guarantees or deposits. In the event these obligations are not performed, the entity holding the guarantees may seek to enforce the performance commitments against parent company or proceed against the deposit. In that event, our financial condition, results of operations, cash flows and liquidity could be adversely affected. At December 31, 2021, we had remaining performance commitments as measured by remaining contract revenue totaling approximately $6.2 billion related to MSG's contracts, and this amount is likely to increase if the number of military bases served by MSG increases. The presence of these commitments may adversely affect our financial condition and make it more difficult for us to secure financing on attractive terms.

MSG's operations are subject to various risks associated with doing business with the U.S. government.

MSG enters into contracts with the U.S. government for the operation and maintenance of water and wastewater systems, which contracts may be terminated, in whole or in part, prior to the end of the 50-year term for convenience of the U.S. government or as a result of default or non-performance by the subsidiary performing the contract. In addition, the contract price for each of these military contracts is typically subject to either an annual economic price adjustment, or a redetermination two years after commencement of operations and every three years thereafter. Annual economic price adjustment is an inflation index-based contract price increase mechanism. Price redetermination is a contract mechanism to periodically adjust the service fee in the next period to reflect changes in contract obligations and anticipated market conditions. Any early contract termination or unfavorable annual economic price adjustment or price redetermination could adversely affect our financial condition, results of operations and cash flows.

Moreover, entering into contracts with the U.S. government subjects us to a number of operational and compliance risks, including dependence on the level of government spending and compliance with and changes in governmental procurement and security regulations. We are subject to potential government investigations of our business practices and compliance with government procurement and security regulations, which are complex, and compliance with these regulations can be expensive and burdensome. If we were charged with wrongdoing as a result of an investigation, we could be suspended or debarred from bidding on or receiving awards of new contracts with the U.S. government or our existing contracts could be terminated, which could have a material adverse effect on our results of operations and cash flows.

General Risk Factors

New accounting standards or changes to existing accounting standards could materially impact how we report our results of operations, cash flow and financial condition.

Our Consolidated Financial Statements are prepared in accordance with GAAP. The SEC, the Financial Accounting Standards Board or other authoritative bodies or governmental entities may issue new pronouncements or new interpretations of existing accounting standards that may require us to change our accounting policies or critical accounting estimates. These changes are beyond our control, can be difficult to predict and could materially impact how we report our results of operations, cash flow and financial condition. We could be required to apply a new or revised standard retroactively, which could also adversely affect our previously reported results of operations, cash flow and financial condition.

Undetected errors in internal controls and information reporting could result in the disallowance of cost recovery and noncompliant disclosure.

Our internal controls, accounting policies and practices and internal information systems are designed to enable us to capture and process transactions and information in a timely and accurate manner in compliance with GAAP, taxation requirements, federal securities laws and regulations and other laws and regulations applicable to us. We have also implemented corporate governance, internal control and accounting policies and procedures in connection with the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") and relevant SEC rules, as well as other applicable regulations. Such internal controls and policies have been and continue to be closely monitored by our management and Board of Directors to ensure continued compliance with these laws, rules and regulations. Management is also responsible for establishing and maintaining internal control over financial reporting and is required to assess annually the effectiveness of these controls. While we believe these controls, policies, practices and systems are adequate to verify data integrity, unanticipated or unauthorized actions of employees or temporary lapses in internal controls due to shortfalls in oversight or resource constraints could lead to undetected errors that could result in the disallowance of cost recovery and non-compliant disclosure and reporting. The consequences of these events could have a negative impact on our results of operations, cash flows and financial condition. The inability of management to certify as to the effectiveness of these controls due to the identification of one or more material weaknesses in these controls could also harm our reputation, increase financing costs or adversely affect our ability to access the capital markets.

Our continued success is dependent upon our ability to hire, retain and utilize qualified personnel.

The success of our business is dependent upon our ability to hire, retain and utilize qualified personnel, including engineers, licensed operators, water quality and other operating and craft personnel, and management professionals who have the required experience and expertise. From time to time, it may be difficult to attract and retain qualified individuals with the expertise and in the timeframe demanded for our business needs. In certain geographic areas, for example, we may not be able to satisfy the demand for our services because of our inability to successfully hire and retain qualified personnel.

In addition, as key personnel approach retirement age, we need to have appropriate succession plans in place and to successfully implement such plans. If we cannot attract and retain qualified personnel or effectively implement appropriate succession plans, our business, financial condition, results of operations and cash flows may be materially and adversely impacted.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The Company's properties consist primarily of (i) water and wastewater treatment plants, (ii) mains and pipes used for transmission, distribution and collection of water and wastewater, (iii) wells and other sources of water supply, such as reservoirs, (iv) water and wastewater pumping stations, (v) meters and fire hydrants, (vi) general structures, including buildings, dams and treated water storage facilities, (vii) land and easements, (viii) vehicles, (ix) software rights, and (x) other equipment and facilities, the majority of which are used directly in the operation of its systems. Substantially all of the Company's properties are owned by its subsidiaries, with a large percentage subject to liens of its mortgage bonds. A wholly owned subsidiary of parent company owns the Company's corporate headquarters, located in Camden, New Jersey, and the Company and its operating subsidiaries lease office space, equipment and furniture from certain of the Company's wholly owned subsidiaries. These properties are utilized by the Company's directors, officers and staff in the conduct of the business.

The properties of the Company's Regulated Businesses consist mainly of approximately:

- 80 surface water treatment plants;
- 480 groundwater treatment plants;
- 160 wastewater treatment plants;
- 52,500 miles of transmission, distribution and collection mains and pipes;
- 1,100 groundwater wells;
- 1,700 water and wastewater pumping stations;
- 1,300 treated water storage facilities; and
- 76 dams.

The Company has ongoing infrastructure renewal programs in all states in which its Regulated Businesses operate. These programs consist of both the rehabilitation of existing mains and equipment, and the replacement of mains and equipment that have been damaged or have reached, or are near, the end of their useful service lives. The properties of its Market-Based Businesses consist mainly of office furniture and IT equipment. Approximately 51% of all properties that the Company owns are located in New Jersey and Pennsylvania.

The Company maintains property insurance against loss or damage to its properties by fire or other perils, subject to certain exceptions. For insured losses, the Company is self-insured to the extent that any losses are within the policy deductible or exceed the amount of insurance maintained.

The Company believes that its properties are generally maintained in good operating condition and in accordance with current standards of good water and wastewater industry practice.

ITEM 3. LEGAL PROCEEDINGS

Set forth below is information related to the Company's material pending legal proceedings as of February 16, 2022, other than ordinary routine litigation incidental to the business, required to be disclosed in this Annual Report on Form 10-K. The information below should be read together with Note 17—Commitments and Contingencies in the Notes to the Consolidated Financial Statements. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is $1 million or more**.**

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with SWRCB Orders to Reduce Carmel River Diversions

Under the 2009 Order, California-American Water Company, the Company's California subsidiary ("Cal Am") is required, among other things, to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. See Item 1—Business—Regulated Businesses—Water Supply and Wastewater Services and Item 1A—Risk Factors. The 2009 Order responded to claims that Cal Am had not sufficiently implemented actions to terminate its unpermitted diversions of water from the Carmel River as required by a 1995 order of the SWRCB. In July 2016, at the request of Cal Am and several Monterey County government agencies, the SWRCB issued the 2016 Order approving the 2021 Deadline.

The 2009 Order includes a condition prohibiting Cal Am from diverting water from the Carmel River for new service connections or for any increased use of water at existing service addresses resulting from a change in zoning or use. In 2011, the California Public Utilities Commission (the "CPUC") issued a decision directing modifications in Cal Am's tariffs to recognize the moratorium mandated by the 2009 Order, and directing Cal Am to seek written guidance from the SWRCB with respect to any unresolved issues of interpretation or implementation of this condition. In 2012, the Deputy Director of the SWRCB sent a letter to Cal Am providing an interpretation as to the calculation of a baseline to determine increases in use of water at existing service addresses. In March 2018, the MPWMD adopted a resolution directing Cal Am to interpret the baseline in a manner that conflicts with the SWRCB's written interpretation. In May 2018, Cal Am notified the MPWMD and the SWRCB that it intends to seek declaratory relief concerning the conflicting regulatory interpretations under the 2009 Order. In an attempt to resolve these conflicting interpretations prior to seeking judicial intervention, Cal Am has met with the MPWMD and the SWRCB several times. The SWRCB agreed to circulate revisions to its 2012 interpretive letter, which would be subject to a public comment period. Any failure to follow the MPWMD's resolution or the SWRCB's written interpretation, despite these conflicting interpretations, could potentially result in fines, penalties and other actions against Cal Am.

Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining required approvals for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. Beginning in January 2022, Cal Am expects to be able to comply with the diversion reduction requirements contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order in the future may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the 2009 Order and the 2016 Order.

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

Cal Am's ability to move forward on the Water Supply Project is and has been subject to extensive administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In September 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to the incurred $50 million in associated costs plus AFUDC, subject to meeting certain criteria.

In July 2019, Cal Am notified the MPWMD and Monterey One Water (collectively, the "Agencies") that an event of default occurred under the water purchase agreement for the GWR Project because the Agencies failed to deliver to Cal Am by July 1, 2019 advanced treated recycled water produced by the GWR Project. In its notification to the Agencies, Cal Am expressly reserved its right to terminate the water purchase agreement until the Performance Start Date, which was September 1, 2020. As of June 30, 2021, Cal Am determined that the Agencies met their performance obligations under the water purchase agreement with respect to the first fiscal year of the contract.

In September 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a CPCN and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, O&M costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed in the first general rate case filed by Cal Am after it becomes operational. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $186 million in aggregate costs as of December 31, 2021 related to the Water Supply Project, which includes $47 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from the expansion to the GWR Project, which is not expected to produce additional water until 2024 at the earliest. The amended and restated water purchase agreement for the GWR Project is subject to review and approval of the CPUC, and on November 29, 2021, Cal Am filed an application with the CPUC seeking review and approval of the amended and restated water purchase agreement. Cal Am is also requesting rate base treatment of the additional capital investment for certain Cal Am facilities required to maximize the water supply from the expansion to the GWR Project and a related Aquifer Storage and Recovery Project, totaling approximately $81 million. This amount is in addition to, and consistent in regulatory treatment with, the prior $50 million of recovery for facilities associated with the original water purchase agreement, which was approved by the CPUC in its 2016 final decision.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the 2009 Order and the 2016 Order, as well as the CPUC's 2016 and 2018 final decisions, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $50 million in construction costs previously approved by the CPUC in its 2016 final decision. See Note 17—Commitments and Contingencies in the Notes to the Consolidated Financial Statements for further discussion.

Coastal Development Permit Application

In June 2018, Cal Am submitted a coastal development permit application to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of Cal Am's coastal development permit application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. In October 2019, staff of the Coastal Commission issued a report recommending a denial of Cal Am's application for a coastal development permit with respect to the Water Supply Project, largely based on a memorandum prepared by the general manager of the MPWMD that contradicted findings made by the CPUC in its final decision approving the Water Supply Project. In November 2019, discussions between staffs of the Coastal Commission and the CPUC took place regarding the Coastal Commission staff recommendation, at which time the CPUC raised questions about the Coastal Commission staff's findings on water supply and demand, groundwater impacts and the viability of a project that the Coastal Commission staff believes may be a possible alternative to the Water Supply Project.

In August 2020, the staff of the Coastal Commission released a report again recommending denial of Cal Am's application for a coastal development permit. Although the report concluded that the Water Supply Project would have a negligible impact on groundwater resources, the report also concluded it would impact other coastal resources, such as environmentally sensitive habitat areas and wetlands, and that the Coastal Commission staff believes that a feasible alternative project exists that would avoid those impacts. The staff's report also noted disproportionate impacts to communities of concern. In September 2020, Cal Am withdrew its original jurisdiction application to allow additional time to address the Coastal Commission staff's environmental justice concerns. The withdrawal of the original jurisdiction application did not impact Cal Am's appeal of the City's denial, which remains pending before the Coastal Commission. Cal Am refiled the original jurisdiction application in November 2020. In December 2020, the Coastal Commission sent to Cal Am a notice of incomplete application, identifying certain additional information needed to consider the application complete.

In March 2021, Cal Am provided responses to the Coastal Commission's notice of incomplete application. On June 18, 2021, the Coastal Commission responded, acknowledging the responses and requesting certain additional information before the application could be considered complete. Cal Am responded with the requested additional information on January 11, 2022, and on February 8, 2022, the Coastal Commission requested additional information. The original jurisdiction application remains pending.

Desalination Plant Development Permit

The proposed desalination plant for the Water Supply Project is to be located in an unincorporated portion of Monterey County, California on a site owned by CEMEX, Inc. ("CEMEX"), and requires a combined development permit from the County of Monterey prior to commencement of construction. On April 24, 2019, the County's Planning Commission voted to approve the permit. In July 2019, the Board of Supervisors heard appeals filed by MCWD and a public advocacy group, at which time it denied the appeals and approved the permit. In August 2019, MCWD filed a petition in Monterey County Superior Court challenging Monterey County's approval of Cal Am's combined development permit application and seeking injunctive relief to enjoin Monterey County and Cal Am from commencing construction of the desalination plant. In October 2019, after a hearing, the court denied, without prejudice, MCWD's motion for a preliminary injunction, but issued a stay of the County's approval of the combined development permit, precluding commencement of physical construction of the desalination plant, but allowing Cal Am to continue to obtain permits needed for the desalination plant's construction. On January 21, 2021, the court issued its decision granting in part and denying in part MCWD's petition. The court found that the County of Monterey did not completely comply with all of the requirements necessary to approve the combined development permit and set aside its approval so that the County could come into compliance. The court denied all of MCWD's other claims. The court also lifted its stay on physical construction at the plant site.

On May 25, 2021, Cal Am filed a notice of appeal as to the Monterey County Superior Court's January 21, 2021 decision, seeking to challenge the court's decision on Monterey County's statement of overriding considerations. Monterey County filed a notice of appeal as to the same issue on May 26, 2021. On June 22, 2021, MCWD filed cross-appeals on its claims that had been denied by the court.

Proposed Zoning Changes at CEMEX Site for Slant Wells

In August 2018, the City circulated a public review draft of proposed amendments to its local coastal program and zoning ordinance, and placed the matter for consideration on the Planning Commission's agenda for its September 2018 meeting. The proposed amendments would change zoning at the CEMEX site to open space and restrict future uses, including with respect to Cal Am's planned use of the site for the slant wells for the Water Supply Project. Any change to the City's local coastal program must ultimately be approved by the Coastal Commission. Cal Am, CEMEX and the Coastal Commission each submitted letters opposing the proposed amendments. At its November 2018 meeting, the Planning Commission adopted a resolution recommending that the Marina City Council consider approving the amendments.

In December 2018, the Marina City Council considered the proposed amendments. Cal Am, CEMEX and the Coastal Commission again submitted letters opposing the proposed changes, but the City Council unanimously adopted a resolution amending its local coastal plan and a draft amendment to its zoning ordinance. Changes to the ordinance require a second reading before becoming final, which occurred at the City's December 2018 meeting. The changes to the local coastal plan must be submitted to the Coastal Commission for approval and are not effective until such approval is obtained.

Test Slant Well Permitting

A preliminary step to building the Water Supply Project desalination plant is the construction and operation of a test slant well to confirm the suitability of the property on which intake wells will be located to draw water from under Monterey Bay. In November 2014, the Coastal Commission approved coastal development permits for the test slant well, enabling Cal Am to construct and operate the test slant well. Because Cal Am may use the test slant well as one of the slant wells for the Water Supply Project, Cal Am sought and obtained from the Coastal Commission permit amendments to allow the test slant well to remain in place and be maintained until February 23, 2023. A required lease obtained from the California State Lands Commission, as amended, will expire on December 16, 2022. Effective February 28, 2018, test slant well pumping ceased, except for minimal maintenance pumping activities, in accordance with Cal Am's coastal development permits.

Water Supply Project Land Acquisition and Slant Well Site Use

In July 2017, the Coastal Commission adopted a consent agreement and cease and desist order requiring sand mining operations on the property owned by CEMEX on which intake wells for the Water Supply Project will be located, to cease by the end of 2020 and the property to be sold to either a non-profit or governmental entity. The consent agreement strictly limits future use of the property but preserves Cal Am's existing property rights and allows uses consistent with existing easements and other rights of record. A permanent easement granted by CEMEX to Cal Am was recorded in June 2018 to allow Cal Am access to the property and to construct, operate and maintain the Water Supply Project intake wells. On November 26, 2019, the City notified CEMEX that, based on this permanent easement and Cal Am's proposed use of the site for the intake wells, CEMEX has breached or will soon breach a prior 1996 annexation agreement (to which Cal Am was not a party). The City states that it intends to seek declaratory relief from CEMEX and Cal Am ordering that Cal Am's extraction is limited to 500 acre-feet per year of groundwater, that Cal Am cannot export extracted water out of the basin, and that the permanent easement granted by CEMEX to Cal Am is void. CEMEX has denied the City's claims and requested indemnification from Cal Am under the terms of the permanent easement. Cal Am and CEMEX believe that there is no valid limitation under the annexation agreement on Cal Am's right to pump brackish groundwater and seawater at the site for desalination and use by Cal Am's customers.

In May 2020, the City filed a lawsuit in Monterey County Superior Court, naming Cal Am and CEMEX as defendants, and MCWRA and MCWD as real parties in interest. The lawsuit, as amended, alleges a claim for breach of contract against CEMEX and seeks declaratory relief to void the permanent easement and prohibiting extraction of water by Cal Am's slant wells at the CEMEX site in excess of 500 acre-feet per year and the export of such water outside the groundwater basin. In November 2020, Cal Am, CEMEX and MCWRA filed demurrers, which were overruled by the court at a hearing held on February 9, 2021.

In August 2020, MCWD filed a cross-complaint in the May 8, 2020 lawsuit against Cal Am, CEMEX and MCWRA, alleging claims for specific performance of certain provisions of the 1996 annexation agreement related to the property owned by CEMEX on which intake wells for the Water Supply Project will be located, as well as claims of water rights, nuisance and unreasonable water use, and seeking additional declaratory relief. Following various rulings on demurrers filed by Cal Am, CEMEX and MCWRA, on February 23, 2021, the court sustained, without leave to amend, the demurrer to MCWD's nuisance claim and overruled the remainder of the demurrers. On October 7, 2021, the court granted a motion filed by Cal Am related to MCWD's cross-complaint, which motion requested a referral of certain issues related to MCWD's water rights and unreasonable use claims to the SWRCB for its expert advisory opinion.

Challenges Related to Compliance with California's Sustainable Groundwater Management Act

Under California's Sustainable Groundwater Management Act ("SGMA") enacted in 2015, groundwater basins designated by the state as critically overdrafted must be managed by a groundwater sustainability agency ("GSA") by 2020 in accordance with an approved groundwater sustainability plan ("GSP") designed to achieve sustainability by 2040. Under the SGMA, GSAs have broad powers to achieve sustainability including, but not limited to, regulating groundwater extraction by imposing fees on groundwater extractions and controlling groundwater extractions by regulating, limiting or suspending extractions from wells. The 400-acre CEMEX site overlies a small portion of the 180/400 Subbasin of the Salinas Valley Groundwater Basin; the 84,000-acre 180/400 Subbasin has been designated by the state as critically overdrafted, mainly due to seawater intrusion into the subbasin.

In late 2016, the Salinas Valley Basin Groundwater Sustainability Agency (the "SVBGSA") was formed as a joint powers authority to become the GSA for the Salinas Valley Groundwater Basin and prepare a GSP. In April 2018, the City filed a notice to become the GSA for the CEMEX site, creating an overlap with the SVBGSA's filing for the 180/400 Subbasin. In 2016, the SVBGSA commenced preparation of a GSP covering the entire 180/400 subbasin, including the CEMEX site, but in August 2019 the City filed a notice that it intends to prepare its own GSP for the CEMEX site with the intent to severely limit or prohibit groundwater pumping at that site. The State Department of Water Resources ("SDWR") has taken the position that until the overlap is resolved, it will not accept the GSP from either agency, placing the subbasin at risk of being placed in a probationary status and subject to state management. In December 2019, the County of Monterey filed its own notice to become the exclusive GSA at the CEMEX site in order to resolve the overlap, which is permitted under SGMA. SDWR accepted Monterey County's filing on December 18, 2019, and now lists Monterey County as the exclusive GSA for the site.

On December 30, 2019, the City filed a lawsuit in Monterey County Superior Court challenging Monterey County's filing, and SDWR's acceptance of the filing, as the exclusive GSA for the CEMEX site. The City has named Monterey County and its Board of Supervisors, its GSA, and SDWR and its director as defendants, and the SVBGSA and its Board of Directors as real parties. The City seeks to invalidate Monterey County's filing, as well as injunctive relief to preserve the City's status as a GSA for the site. To protect its interest in the matter, Cal Am filed an application to intervene in this lawsuit, which was granted. Monterey County filed cross-claims against the City and SDWR. After a hearing, on August 24, 2021, the court denied the claims brought by the City and granted Monterey County's cross-claims, finding that the City's GSA notice was untimely, the Monterey County GSA was the exclusive GSA for the CEMEX site, and the SVBGSA's GSP was properly adopted for the entire 180/400 subbasin, including the CEMEX site. On November 15, 2021, the City appealed this decision, and on December 13, 2021, Monterey County appealed the court's decision as to the finding that the City's action creating a GSA was not void.

On September 14, 2020, Cal Am filed a separate but related complaint in Monterey County Superior Court challenging the validity of actions taken by the City and its GSA in adopting a groundwater sustainability plan for the CEMEX site, and the validity of the provisions of such plan. Due to the overlap of issues in the City's lawsuit with those in the validation action, the parties stipulated to a stay of the validation action pending determination of the claims in the City's action, which was approved by the court in December 2020.

On February 16, 2021, the City filed a separate but related *in rem* reverse validation complaint challenging the adoption by Monterey County of a GSP for the CEMEX site. This complaint remains pending. Currently, both validation actions remain stayed during the pendency of the City's appeals.

Challenge of Certification — Proposed Monterey System Acquisition Final Environmental Impact Report

In November 2018, voters in Monterey, California passed "Measure J," which decided that the MPWMD should conduct a feasibility study concerning the potential purchase of Cal Am's Monterey system assets, and, if feasible, to proceed with a purchase of those assets without an additional public vote. This service territory represents approximately 40,000 customers. See Item 1—Business—Regulated Businesses—Condemnation and Eminent Domain for more information on this matter. In August 2019, the MPWMD's General Manager issued a report that recommends that the MPWMD board, among other things, (1) evaluate whether the acquisition of the Monterey system assets by the MPWMD is in the public interest and sufficiently satisfies the criterion of "feasible" as provided in Measure J, (2) ensure there is significant potential for cost savings before agreeing to commence an acquisition, and (3) develop more fully alternate operating plans before deciding whether to consider a Resolution of Necessity.

On October 7, 2020, the MPWMD issued a FEIR for the potential acquisition of the Monterey system assets, and on November 4, 2020, the MPWMD certified the FEIR, which purports to analyze the environmental impacts of the MPWMD's project to (1) acquire the Monterey system assets through the power of eminent domain, if necessary, and (2) expand its geographic boundaries to include all parts of this system. On November 25, 2020, Cal Am filed a petition for writ of mandate in Monterey County Superior Court challenging certification of the FEIR, alleging that the MPWMD's analysis of environmental impacts was inadequate and that certification was improper. A hearing on the matter was held on August 30, 2021, and on November 19, 2021, the court denied Cal Am's petition.

West Virginia Elk River Freedom Industries Chemical Spill

See Note 17—Commitments and Contingencies—Contingencies—West Virginia Elk River Freedom Industries Chemical Spill in the Notes to Consolidated Financial Statements for information regarding the final court approval of the global settlement with respect to the January 2014 Freedom Industries, Inc. chemical spill.

Dunbar, West Virginia Water Main Break Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by West Virginia-American Water Company, the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking but the water main was usable until June 29, 2015 to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored on July 1, 2015 to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. In August 2020, WVAWC filed a Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia seeking to vacate or remand the Circuit Court's order certifying the issues class. On January 28, 2021, the Supreme Court of Appeals remanded the case back to the Circuit Court for further consideration in light of a decision issued in another case relating to the class certification issues raised on appeal. On July 16, 2021, oral argument was heard by the Circuit Court on the issue of addressing the Supreme Court of Appeals' remand. This matter remains pending.

The Company and WVAWC believe that WVAWC has meritorious defenses to the claims raised in this class action complaint and WVAWC will continue to vigorously defend itself against these allegations.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, Tennessee-American Water Company, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and Service Company (collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. The court has entered an agreed scheduling order, which sets a hearing in October 2022 to address the question of class certification.

TAWC and the Company believe that TAWC has meritorious defenses to the claims raised in this class action complaint, and TAWC is vigorously defending itself against these allegations.

Other Matters

On April 2, 2021, American Water Resources, LLC ("AWR"), which, prior to the Closing Date was one of the indirect, wholly owned subsidiaries comprising the Company's former HOS operations, received a grand jury subpoena in connection with an investigation by the U.S. Attorney's Office for the Eastern District of New York (the "EDNY"). The subpoena seeks documents regarding AWR's operations and its contractor network in the New York City metropolitan area.

In connection with the sale of the HOS operations to the Buyer (including all of the Company's equity interests in AWR), the Company, AWR and the Buyer entered into a Common Interest and Cooperation Agreement (the "Cooperation Agreement"), dated as of the Closing Date, which facilitates a common defense for, and the sharing of information concerning, the EDNY investigation and any legal or regulatory inquiries or proceedings related to or resulting from it or the subject matter in the subpoena (collectively, the "Covered Matters"). The Company, on behalf of AWR, is required to defend any Covered Matter, using commercially reasonable efforts to resolve it on a reasonably expedient basis. Further, the Company is required to consult with the Buyer in specified circumstances and obtain its prior written consent (which consent may not be unreasonably withheld, conditioned or delayed) before entering into any resolution of any Covered Matter that imposes non-monetary provisions or undertakings or any other terms for which there will be no indemnification under the Cooperation Agreement. In addition, for the period from the Closing Date to March 9, 2025, the Company is required to indemnify the Buyer for any monetary losses or out-of-pocket damages (as described in the Cooperation Agreement) incurred by the Buyer or certain of the HOS subsidiaries to the extent directly arising in connection with, or directly resulting from, any Covered Matter.

Based on the subpoena and discussions with the EDNY, the investigation does not appear to be focused on the Company, and the Company is cooperating fully with the investigation. While it is not possible at this time to predict the outcome of the investigation or determine the amount, if any, of fines, penalties or other liabilities that may be incurred in connection with it, the Company does not currently believe that the investigation will have a material adverse effect on the Company's results of operations, financial condition or liquidity.

General

Periodically, the Company is involved in other proceedings or litigation arising in the ordinary course of business. Other than those proceedings described in this Item 3—Legal Proceedings, the Company does not believe that the ultimate resolution of these matters will materially affect its financial position or results of operations. However, litigation and other proceedings are subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. It is possible that some litigation and other proceedings could be decided unfavorably to the Company, and that any such unfavorable decisions could have a material adverse effect on its business, financial condition, results of operations and cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Since April 23, 2008, the Company's common stock has traded on the New York Stock Exchange ("NYSE") under the symbol "AWK." As of February 10, 2022, there were 181,724,991 shares of common stock outstanding held by approximately 2,333 record holders. Holders of the Company's common stock are entitled to receive dividends when they are declared by its Board of Directors. See Note 10—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information regarding the Company's dividends.

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment, employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through December 31, 2021, the Company repurchased an aggregate of 4,860,000 shares of its common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program. There were no repurchases of common stock in 2021.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the Consolidated Financial Statements and the Notes thereto included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Form 10-K should be read as applying to all related forward-looking statements whenever they appear in this Form 10-K. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements," Item 1A—Risk Factors and elsewhere in this Form 10-K. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings. For a discussion and analysis of the Company's financial statements for fiscal 2020 compared to fiscal 2019, please refer to Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC on February 24, 2021.

Overview

American Water is the largest and most geographically diverse, publicly-traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company employs approximately 6,400 professionals who provide drinking water, wastewater and other related services to over 14 million people in 24 states. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company's utilities operate in approximately 1,700 communities in 14 states in the United States, with 3.4 million active customers with services provided by its water and wastewater networks. Services provided by the Company's utilities are subject to regulation by PUCs. The Company also operates other market-based businesses that provide water, wastewater and other services to residential and smaller commercial customers, the U.S. government on military installations, as well as municipalities and utility customers, collectively presented as the "Market-Based Businesses." These Market-Based Businesses are not subject to economic regulation by state PUCs. See Item 1—Business for additional information.

COVID-19 Pandemic Update

American Water continues to monitor the COVID-19 pandemic and has taken steps since the beginning of the pandemic to mitigate adverse impacts to the Company. The Company has three main areas of focus as part of its response to COVID-19: the care and safety of its employees; the safety of its customers and the communities it serves; and the execution of its business continuity plan. American Water continues to work with its vendors to prevent disruptions in its supply chain, and, at this time, has not experienced, and does not anticipate, any material disruptions. The Company also continues to monitor the impacts of the COVID-19 pandemic on the capital markets, including impacts that could increase its cost of capital.

The Company has experienced financial impacts since the beginning of the pandemic resulting from lower revenues from the suspension of late fees and foregone reconnect fees in certain states, certain incremental O&M expenses, an increase in uncollectible accounts expense and additional debt costs. These impacts are collectively referred to as "financial impacts." See Note 3—Impact of the COVID-19 Pandemic in the Notes to Consolidated Financial Statements for additional information. The extent to which the COVID-19 pandemic may further impact American Water, including without limitation, its liquidity, financial condition, and results of operations, will depend on future developments, which presently cannot be predicted.

As of February 16, 2022, American Water has commission orders authorizing deferred accounting or cost recovery for COVID-19 financial impacts in 11 of 13 jurisdictions. Other regulatory actions to date are presented in the table below:

Commission Actions	Description	States
Orders issued with deferred accounting	Allows the Company to establish regulatory assets to record certain financial impacts related to the COVID-19 pandemic.	HI, IN, MD, NJ, PA, VA, WV
Orders issued with cost recovery	California's Catastrophic Event Memorandum Account allows the Company's California subsidiary to track certain financial impacts related to the COVID-19 pandemic for future recovery requests. Iowa issued a base rate case order on June 28, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred within its annual non-recurring expense rider. Illinois has authorized cost recovery of the COVID-19 financial impacts through a special purpose rider over a 24-month period, which was implemented effective October 1, 2020. Additionally, Illinois approved a bad debt rider tariff on December 16, 2020, allowing collection of actual bad debt expense over last authorized beginning April 2021 through February 2023. Illinois approved a stipulation in March 2021 to allow the rider to be extended through the end of 2023. Missouri issued a base rate case order on April 7, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred through March 31, 2021 over a three-year period.	CA, IA, IL, MO

The Company's Pennsylvania subsidiary filed for a request with the Pennsylvania Public Utility Commission (the "PaPUC") to defer as a regulatory asset all identified COVID-19 financial impacts. On September 15, 2021, the PaPUC issued an order approving the Company's request to defer, with carrying costs, incremental uncollectible expense and other incremental costs net of savings attributed to the COVID-19 pandemic. The PaPUC order denied the request to include lost revenues attributed to the waiver of late fees and reconnect fees and expenses associated with additional interest costs. Additionally, the PaPUC order approved the request to allow for the continuation of the deferral of financial impacts, rejecting proposals from the intervening parties to define an end date to the deferral in 2021. As a result of the order discussed above, the Company recorded a net $7 million reduction to its regulatory assets and corresponding impacts to revenue, interest expense and uncollectible expense during the third quarter of 2021. The Company continues to evaluate options within its next base rate case to address these denied items and the resulting financial impact.

On July 28, 2021, the Company's Tennessee subsidiary filed a stipulation and settlement agreement with the Consumer Advocate Unit in the Financial Division of the Office of the Tennessee Attorney General, which reflected agreement on the deferral of COVID-19-related financial impacts through April 30, 2021. On August 9, 2021, the Tennessee Public Utility Commission denied the stipulation and settlement agreement and moved to address the Company's Tennessee subsidiary's petition to defer the COVID-19 financial impacts in a future hearing. On August 26, 2021, the Company's Tennessee subsidiary filed a motion to withdraw its pending petition, preserving its right to seek recovery of the COVID-19 financial impacts in a future proceeding.

In December 2020, the Kentucky Public Service Commission issued an order denying a request to defer to a regulatory asset the financial impacts related to the COVID-19 pandemic.

Consistent with these regulatory orders, the Company has recorded $36 million in regulatory assets and $6 million of regulatory liabilities for the financial impacts related to the COVID-19 pandemic on the Consolidated Balance Sheets as of December 31, 2021.

As of February 16, 2022, one state, New Jersey, continues moratoria until March 15, 2022, on the suspension of service disconnections due to non-payment. The moratoria on disconnects have expired in 12 states. The Company continues to monitor the COVID-19 pandemic and will continue to comply with the current ordered moratoria and any future moratoria implemented.

In 2019, the Company completed and submitted its project completion certification to the New Jersey Economic Development Authority ("NJEDA") in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The NJEDA determined that the Company is qualified to receive $164 million in tax credits over a ten-year period. The Company is required to meet various annual requirements in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15. The Company has made the necessary annual filings for the years ended December 31, 2019 and 2020 and expects to make the 2021 filing by April 30, 2022. As a result, the Company had receivables of $49 million and $115 million in other current assets and other long-term assets, respectively, on the Consolidated Balance Sheets as of December 31, 2021. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the credits in the first half of 2022.

In March 2020, in connection with the COVID-19 pandemic, the NJEDA, pursuant to Executive Order 103 - State of Emergency and a Public Health Emergency, temporarily waived the requirement that a full-time employee must spend at least 80% of his or her time at the qualified business facility ("QBF") to meet the definition of eligible position or full-time job. The waiver will continue for as long as New Jersey's Executive Order 281 is valid. On July 2, 2021, New Jersey's Governor approved a bill that revised provisions of the Economic Recovery Act of 2020 and other economic development programs, including amending the definition of an eligible position and full-time job in the Grow New Jersey Program and replacing the 80% requirement of time spent at the QBF. The bill states that an eligible position is one that is filled by a full-time employee who has their primary office at the QBF and spends at least 60% of their time at the QBF. The bill specifically states that it supersedes the existing regulations and existing incentive agreements that require an eligible employee spend at least 80% of their time at the QBF.

Sale of Homeowner Services Group

On the Closing Date, the Company sold all of the equity interests in subsidiaries that comprised HOS to the Buyer for total consideration of approximately $1.275 billion, resulting in a pre-tax gain on sale of $748 million. The consideration is comprised of $480 million in cash, a seller promissory note issued by the Buyer in the principal amount of $720 million, and a contingent cash payment of $75 million payable upon satisfaction of certain conditions on or before December 31, 2023. The structure of the transaction enables the initial cash proceeds to be redeployed into the Regulated Businesses to fund near-term incremental capital investments, while interest on the seller note provides a stream of earnings during its term. Upon maturity, the proceeds from the repayment of the seller note are expected to be used to fund capital investment in the Regulated Businesses. This sale narrowed the focus of the Company's Market-Based Businesses primarily to MSG.

The seller note has a five-year term, is payable in cash, and bears interest at a rate of 7.00% per year during the term. The repayment obligations of the Buyer under the seller note have been secured by a first priority security interest in certain property of the Buyer and the former HOS subsidiaries, including their cash and securities accounts, as well as a pledge of the equity interests in each of those subsidiaries, subject to certain limitations and exceptions. The seller note requires compliance with affirmative and negative covenants (subject to certain conditions, limitations and exceptions), including a covenant limiting the incurrence by the Buyer and certain affiliates of additional indebtedness in excess of certain thresholds, but does not include any financial maintenance covenants.

Beginning December 9, 2024, the Company has a put right pursuant to which it may require the seller note to be repaid in full at par, plus accrued and unpaid interest, except that upon the occurrence of a disruption event in the broadly syndicated term loan "B" debt financing market, repayment by the Buyer pursuant to the Company's exercise of the put right will be delayed until the market disruption event ends.

The seller note may not be prepaid at the Buyer's election except in certain limited circumstances before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the seller note in breach of this non-call provision, an event of default will occur under the seller note and the Company may, among other actions, demand repayment in full together with a premium ranging from 105.5% to 107.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

The Company and the Buyer also entered into a revenue share agreement, pursuant to which the Company is to receive 10% of the revenue generated from customers who are billed for home warranty services through an applicable Company subsidiary (an "on-bill" arrangement), and 15% of the revenue generated from any future on-bill arrangements entered into after the closing. Unless earlier terminated, this agreement has a term of up to 15 years, which may be renewed for up to two five-year periods.

Financing Activities

On May 10, 2021, American Water Capital Corp. ("AWCC") completed a $1.1 billion debt offering, which included the sale of $550 million aggregate principal amount of its 2.30% senior notes due 2031 and $550 million aggregate principal amount of its 3.25% senior notes due 2051. Net proceeds of this offering were used to lend funds to parent company and its regulated subsidiaries, to prepay $327 million in aggregate principal amount of AWCC's outstanding senior notes, to repay AWCC's commercial paper obligations and for general corporate purposes. See Note 12—Long-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As a result of AWCC's prepayment of the various senior notes, a make-whole premium of $15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

Selected Financial Data

This selected financial data below should be read in conjunction with the Company's Consolidated Financial Statements and related Notes in this Annual Report on Form 10-K as well as the remainder of this Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations.

	For the Years Ended December 31,				
(In millions, except per share data)	**2021**	**2020**	**2019**	**2018**	**2017**
Statement of Operations data:					
Operating revenues	$ 3,930	$ 3,777	$ 3,610	$ 3,440	$ 3,357
Net income attributable to common shareholders	1,263	709	621	567	426
Net income attributable to common shareholders per basic common share	$ 6.96	$ 3.91	$ 3.44	$ 3.16	$ 2.39
Net income attributable to common shareholders per diluted common share	6.95	3.91	3.43	3.15	2.38
Balance Sheet data:					
Total assets	$ 26,075	$ 24,766	$ 22,682	$ 21,223	$ 19,482
Long-term debt and redeemable preferred stock at redemption value	10,344	9,333	8,644	7,576	6,498
Other data:					
Cash dividends declared per common share	$ 2.41	$ 2.20	$ 2.00	$ 1.82	$ 1.66
Net cash provided by operating activities	1,441	1,426	1,383	1,386	1,449
Net cash used in investing activities	(1,536)	(2,061)	(1,945)	(2,036)	(1,672)
Net cash (used in) provided by financing activities	(345)	1,120	494	726	207
Capital expenditures included in net cash used in investing activities	(1,764)	(1,822)	(1,654)	(1,586)	(1,434)

Financial Results

For the years ended December 31, 2021, 2020 and 2019, diluted earnings per share (GAAP) were $6.95, $3.91 and $3.43, respectively. In 2021, as compared to 2020, diluted earnings per share increased $3.04. This increase was primarily driven by a pre-tax gain on sale of $748 million relating to the sale of HOS and continued growth in the Regulated Businesses from infrastructure investment, acquisitions and organic growth. These increases were offset by the $45 million pre-tax contribution to the AWCF authorized by the Company in 2021, and the impacts from weather in both 2021 and 2020, which had an estimated net decrease of $13 million in revenues in 2021, or $0.05 per share. The consolidated net income impact of the gain on sale of HOS and the AWCF contribution is $491 million, or $2.70 per share, inclusive of a $13 million net income benefit included in the Other segment, from the revaluation of state net operating losses that can now be utilized as a result of the sale.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company expects to continue to grow its businesses, with the majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, and (ii) regulated acquisitions to expand the Company's services to new customers. In 2021, the Company invested $1.9 billion, primarily in the Regulated Businesses, as discussed below:

Regulated Businesses Growth and Optimization

- $1.8 billion capital investment in the Regulated Businesses, the majority for infrastructure improvements and replacements; and
- $135 million to fund acquisitions, including deposits discussed below, in the Regulated Businesses, which added approximately 20,000 water and wastewater customers during 2021, in addition to approximately 17,500 customers added through organic growth during 2021.

On April 6, 2021, the Company's Pennsylvania subsidiary entered into an agreement to acquire the wastewater assets of the York City Sewer Authority for $235 million, plus an amount of average daily revenue calculated for the period between the final meter reading and the date of closing. This system, directly and indirectly through bulk contracts, serves more than 45,000 customers. In connection with the execution of the acquisition agreement, the Company's Pennsylvania subsidiary paid a $20 million deposit to the seller on April 30, 2021, which is refundable in the event the agreement is terminated prior to closing of the acquisition. The Company expects to close this acquisition in the first half of 2022, pending regulatory approval.

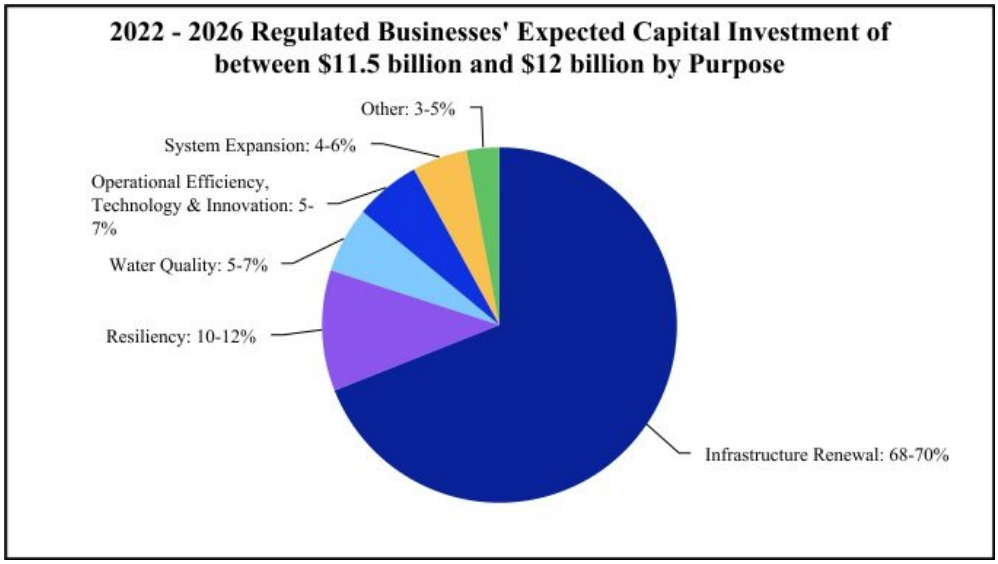
On March 29, 2021, the Company's New Jersey subsidiary entered into an agreement to acquire the water and wastewater assets of Egg Harbor City for $22 million. The water and wastewater systems currently serve approximately 1,500 customers each, or 3,000 combined, and are being sold through the New Jersey Water Infrastructure Protection Act process. The Company expects to close this acquisition in the second half of 2022, pending regulatory approval.

During 2022, the Company closed on the acquisition of two regulated water and wastewater systems adding approximately 700 customers, for a total aggregate purchase price of $2 million. As of February 16, 2022, the Company has entered into agreements for pending acquisitions in the Regulated Businesses, including the York City Sewer Authority and Egg Harbor City agreements discussed above, to add approximately 77,000 additional customers.

Sale of New York American Water Company, Inc.

On January 1, 2022, the Company completed the previously disclosed sale of its regulated utility operations in New York to Liberty, an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of $608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations represented approximately 127,000 customers in the State of New York. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Sale of Michigan American Water Company



On February 4, 2022, the Company completed the sale of its operations in Michigan for approximately $6 million.

Future Growth

The Company expects to invest between $13 billion to $14 billion over the next five years, and between $28 billion to $32 billion over the next 10 years, including $2.5 billion in 2022. The Company's expected future investments include:

- capital investment for infrastructure improvements in the Regulated Businesses between $11.5 billion to $12 billion over the next five years, and between $25 billion to $28 billion over the next 10 years, including $2 billion expected in 2022; and
- growth from acquisitions in the Regulated Businesses to expand the Company's water and wastewater customer base of between $1.5 billion to $2 billion over the next five years, and between $3 billion to $4 billion over the next 10 years, including $500 million expected in 2022.

Presented in the following chart is the estimated allocation of the Company's expected capital investment for infrastructure improvements in its Regulated Businesses over the next five years, by purpose:

Operational Excellence

The Company's adjusted regulated O&M efficiency ratio, which is used as a measure of the operating performance of the Regulated Businesses, was 34.1% for the year ended December 31, 2021, compared to 34.3% for the year ended December 31, 2020. The improvement in this ratio reflects the continued focus on operating costs, as well as an increase in operating revenues for the Regulated Businesses after considering the adjustment for the amortization of the excess accumulated deferred income taxes ("EADIT") shown in the table below.

The Company's adjusted regulated O&M efficiency ratio is a non-GAAP measure and is defined by the Company as its operation and maintenance expenses from the Regulated Businesses, divided by the operating revenues from the Regulated Businesses, where both operation and maintenance expenses and operating revenues were adjusted to eliminate purchased water expense. Operating revenues were further adjusted to exclude reductions for the amortization of the EADIT. Also excluded from operation and maintenance expenses is the allocable portion of non-O&M support services costs, mainly depreciation and general taxes, which is reflected in the Regulated Businesses segment as operation and maintenance expenses, but for consolidated financial reporting purposes, is categorized within other line items in the accompanying Consolidated Statements of Operations. Additionally, the Company excluded the impact of certain Freedom Industries chemical spill settlement activities recognized in 2019 from operation and maintenance expenses. The items discussed above were excluded from the O&M efficiency ratio calculation as they are not reflective of management's ability to increase the efficiency of the Regulated Businesses.

The Company evaluates its operating performance using this ratio, and believes it is useful to investors because it directly measures improvement in the operating performance and efficiency of the Regulated Businesses. This information is derived from the Company's consolidated financial information but is not presented in its financial statements prepared in accordance with GAAP. This information supplements and should be read in conjunction with the Company's GAAP disclosures, and should be considered as an addition to, and not a substitute for, any GAAP measure. The Company's adjusted regulated O&M efficiency ratio (i) is not an accounting measure that is based on GAAP; (ii) is not based on a standard, objective industry definition or method of calculation; (iii) may not be comparable to other companies' operating measures; and (iv) should not be used in place of the GAAP information provided elsewhere in this Annual Report on Form 10-K.

Presented in the table below is the calculation of the Company's adjusted regulated O&M efficiency ratio and a reconciliation that compares operation and maintenance expenses and operating revenues, each as determined in accordance with GAAP, to those amounts utilized in the calculation of its adjusted O&M efficiency ratio:

	For the Years Ended December 31,		
(Dollars in millions)	**2021**	**2020**	**2019**
Total operation and maintenance expenses	$ 1,777	$ 1,622	$ 1,544
Less:			
Operation and maintenance expenses—Market-Based Businesses	482	389	393
Operation and maintenance expenses—Other	(30)	(25)	(31)
Total operation and maintenance expenses—Regulated Businesses	1,325	1,258	1,182
Less:			
Regulated purchased water expenses	153	149	135
Allocation of non-operation and maintenance expenses	34	41	31
Impact of Freedom Industries settlement activities (a)	—	—	(4)
Adjusted operation and maintenance expenses—Regulated Businesses (i)	$ 1,138	$ 1,068	$ 1,020
Total operating revenues	$ 3,930	$ 3,777	$ 3,610
Less:			
Operating revenues—Market-Based Businesses	563	540	539
Operating revenues—Other	(17)	(18)	(23)
Total operating revenues—Regulated Businesses	3,384	3,255	3,094
Less:			
Regulated purchased water revenues (b)	153	149	135
Revenue reductions from the amortization of EADIT	(104)	(7)	—
Adjusted operating revenues—Regulated Businesses (ii)	$ 3,335	$ 3,113	$ 2,959
Adjusted O&M efficiency ratio—Regulated Businesses (i) / (ii)	34.1 %	34.3 %	34.5 %

(a) Includes the impact of a reduction of a liability in the first quarter of 2019 related to the Freedom Industries chemical spill.

(b) The calculation assumes regulated purchased water revenues approximate regulated purchased water expenses.

Regulatory Matters

General Rate Cases

Presented in the table below are annualized incremental revenues, excluding reductions for the amortization of EADIT that are generally offset in income tax expense, assuming a constant water sales volume, resulting from general rate cases authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
General rate cases by state (a):			
Iowa (effective October 11, 2021)	$ 1	$ —	$ —
Missouri (effective May 28, 2021)	22	—	—
Pennsylvania (effective January 28, 2021)	70	—	—
California (effective January 1, 2021, January 1, 2020 and May 11, 2019)	22	5	4
New Jersey (effective November 1, 2020)	—	54	—
Indiana (effective May 1, 2020 and July 1, 2019)	—	13	4
Kentucky (effective June 28, 2019)	—	—	13
West Virginia (effective February 25, 2019)	—	—	19
Maryland (effective February 5, 2019)	—	—	1
Total general rate case authorizations	$ 115	$ 72	$ 41

(a) Excludes authorized increases of $7 million and $4 million in 2021 and 2019, respectively, for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures in the Notes to the Consolidated Financial Statements for additional information.

On November 18, 2021, the CPUC unanimously approved a final decision in the test year 2021 general rate case filed by the Company's California subsidiary, which is retroactive to January 1, 2021. The Company's California subsidiary received authorization for additional annualized water and wastewater revenues of $22 million, excluding agreed to reductions for EADIT as a result of the Tax Cuts and Jobs Act of 2017 (the "TCJA"). The EADIT reduction in revenues is $4 million and is offset by a like reduction in income tax expense. On January 18, 2022, the Company's California subsidiary filed for approval of $13 million in 2022 escalation increases, excluding $4 million of reductions related to the TCJA. This filing, which is retroactive to January 1, 2022, is subject to CPUC approval with a 45-day review period.

On June 28, 2021, an order was issued authorizing an increase of $1 million in the general rate case filed by the Company's Iowa subsidiary in 2020. The Company's Iowa subsidiary filed tariffs consistent with the order on September 23, 2021. Effective October 11, 2021, the Iowa Utilities Board approved the tariffs and implemented the new rates.

On April 7, 2021, the Company's Missouri subsidiary was authorized additional annualized revenues of $22 million, effective May 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA. The EADIT reduction in revenues is $25 million and is offset by a like reduction in income tax expense. The protected EADIT balance of $72 million is being returned to customers using the average rate assumption method ("ARAM"), and the unprotected EADIT balance of $74 million is being returned to customers over 10 years. The $25 million EADIT reduction includes both the protected and unprotected catch-up period EADIT of $13 million. The catch-up period of January 1, 2018 through May 31, 2021 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over 2.5 years.

On March 2, 2021, an administrative law judge ("ALJ") in the Office of Administrative Law of New Jersey filed an initial decision with the New Jersey Board of Public Utilities (the "NJBPU") that recommended denial of a petition filed by the Company's New Jersey subsidiary, which sought approval of acquisition adjustments in rate base of $29 million associated with the acquisitions of Shorelands Water Company, Inc. in 2017 and the Borough of Haddonfield's water and wastewater systems in 2015. On July 29, 2021, the NJBPU issued an order adopting the ALJ's initial decision without modification. The Company's New Jersey subsidiary filed a Notice of Appeal with the New Jersey Appellate Division on September 10, 2021. A scheduling order was issued on October 18, 2021 establishing a briefing schedule through March 2022. There is no financial impact to the Company as a result of the NJBPU's order, since the acquisition adjustments are currently recorded as goodwill on the Consolidated Balance Sheets.

On February 25, 2021, the Company's Pennsylvania subsidiary was authorized additional annualized revenues of $90 million, effective January 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA, over two steps. The EADIT reduction in revenues is $19 million. The overall increase, net of TCJA reductions, is $71 million in revenues combined over two steps. The first step was effective January 28, 2021 in the amount of $70 million ($51 million including TCJA reductions) and the second step will be effective January 1, 2022 in the amount of $20 million. The protected EADIT balance of $200 million is being returned to customers using the ARAM, and the unprotected EADIT balance of $116 million is being returned to customers over 20 years. The $19 million annually includes both the protected and unprotected EADIT amortizations and a portion of catch-up period EADIT. A bill credit of $11 million annually for two years returns to customers the remainder of the EADIT catch-up period amortization. The catch-up period of January 1, 2018 through December 31, 2020 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over two years.

Pending General Rate Case Filings

On February 10, 2022, the Company's Illinois subsidiary filed a general rate case requesting $71 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On January 14, 2022, the Company's New Jersey subsidiary filed a general rate case requesting $110 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On December 1, 2021, the Company's Kentucky subsidiary filed a wastewater rate case requesting additional revenues of $1 million, excluding proposed reductions for EADIT as a result of TCJA. The Company requested a four-step rate increase for their wastewater operations with effective dates of June 1, 2022, June 1, 2023, June 1, 2024 and June 1, 2025 for annual amounts of less than $1 million each year. The Company filed their wastewater case under the alternative rate filing process for smaller utilities which calculates an operating ratio of 88% rather than a return on equity.

On November 15, 2021, the Company's Virginia subsidiary filed a general rate case requesting $15 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On August 18, 2021, the Company's Hawaii subsidiary filed a general rate case requesting $2 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On April 30, 2021, the Company's West Virginia subsidiary filed a general rate case requesting $32 million in annualized incremental revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges. The proposed EADIT reduction in revenues is $1 million and the exclusion for infrastructure surcharges is $10 million. Intervenor testimony was received on September 20, 2021. The Company's rebuttal testimony was filed on October 5, 2021. Hearings were conducted on November 3 and 4, 2021. A final order is expected no later than February 24, 2022.

The Company's California subsidiary submitted its application on May 3, 2021 to set its cost of capital for 2022 through 2024. According to the CPUC's process, a decision is expected to be issued, setting the authorized cost of capital in the third quarter of 2022.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
Infrastructure surcharges by state (a):			
New Jersey (b)	$ 26	$ 20	$ 15
Missouri (c)	7	12	14
Kentucky (effective July 1, 2021 and July 1, 2020)	1	1	—
Indiana (effective March 17, 2021)	8	—	—
Pennsylvania (d)	8	27	11
Illinois (effective January 1, 2021, January 1, 2020 and January 1, 2019)	7	7	8
West Virginia (effective January 1, 2021, January 1, 2020 and January 1, 2019)	5	3	2
Tennessee (effective January 1, 2021, January 1, 2020 and September 1, 2019)	3	2	1
Total infrastructure surcharge authorizations	$ 65	$ 72	$ 51

(a) Excludes authorized increases of $2 million in 2019 for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures in the Notes to the Consolidated Financial Statements for additional information.

(b) In 2021, $12 million was effective on December 30 and $14 million was effective June 28. In 2020, $10 million was effective June 29 and $10 million was effective January 1. In 2019, the effective date was July 1.

(c) In 2021, the effective date was October 7. In 2020, $2 million was effective December 14 and $10 million was effective June 27. In 2019, $5 million was effective December 21 and $9 million was effective June 24.

(d) In 2021, the effective date was January 1. In 2020, $8 million was effective October 1, $4 million was effective July 1, $5 million was effective April 1 and $10 million was effective January 1. In 2019, $6 million was effective October 1, $3 million was effective July 1 and $2 million was effective April 1.

Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective after January 1, 2022:

(In millions)	Amount
Infrastructure surcharge filings by state:	
Illinois (effective January 1, 2022)	$ 6
Missouri (effective February 1, 2022)	12
Total infrastructure surcharge filings	$ 18

Pending Infrastructure Surcharge Filings

On January 19, 2022, the Company's Indiana subsidiary filed for infrastructure surcharges requesting $8 million in additional annualized revenues.

On June 30, 2021, the Company's West Virginia subsidiary filed for an infrastructure surcharge requesting $3 million in additional annualized revenues.

Tax Matters

Federal Tax Legislation

On November 15, 2021, the IIJA was signed into law and was designed to provide significant investment in the nation's infrastructure. The Company has analyzed the bill to assess legislative tax impacts, and determined that the most significant aspect impacting the Company is the provision for special rules for regulated water and wastewater utilities as it relates to the tax treatment of contributions in aid of construction ("CIAC"). The bill reinstates the pre-TCJA tax treatment of CIAC, which allows regulated water and wastewater utilities to generally exclude the receipt of CIAC from taxable income. This provision is effective for contributions made after December 31, 2020. For the year ended December 31, 2021, the Company has reflected the exemption retroactively to January 1, 2021.

On December 22, 2017, the TCJA was signed into law, which, among other things, enacted significant and complex changes to the Internal Revenue Code of 1986, as amended (the "Code"), including a reduction in the federal corporate income tax rate from 35% to 21% as of January 1, 2018. The enactment of the TCJA required a re-measurement of the Company's deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT will be used to benefit the Company's regulated customers in future rates. Twelve of the Company's regulated subsidiaries are amortizing EADIT and crediting customers. The Company expects the timing of the amortization of EADIT credits for the one remaining regulated subsidiary to be addressed in a pending rate case or other proceedings. When crediting EADIT to the customer, the Company records both a reduction to revenue and a reduction to income tax expense, having no material impact on net income.

Federal Net Operating Loss

The Company had no federal NOL carryover balance remaining as of December 31, 2021 due to the HOS sale, after which time the Company became a cash taxpayer for federal income tax purposes.

Legislative Updates

During 2021, the Company's regulatory jurisdictions enacted the following legislation that has been approved and is effective as of February 16, 2022:

- California passed electronic payment legislation, Assembly Bill 1058, which permanently changes state law to allow investor-owned water and wastewater utilities to accept electronic payments, including credit and debit cards, without charging processing fees to customers.
- California passed CPUC consolidation timeline legislation, Assembly Bill 1250, which requires the CPUC to make timely decisions on applications to acquire systems. Consolidations of $5 million or less are to be processed within 180 days and those more than $5 million are required to be processed within 12 months.
- The Kentucky General Assembly adopted House Bill 465 relating to the acquisition of water and wastewater utilities. The legislation affirms a method in valuing water and wastewater systems above net book value and establishes a timeline of 60 days for Public Service Commission approval of an acquisition.
- Indiana House Enrolled Act 1287 creates a mechanism that reduces the required upfront cost to new customers for a water or wastewater utility to extend service to underserved areas.
- Indiana House Enrolled Act 349 establishes a tax rider for water and wastewater utilities based upon a change in state or federal income tax law. The legislation also requires the Indiana Finance Authority to prioritize loans that secure long-term benefits over shorter term projects.
- New Jersey passed Lead Service Line Replacement Bill, Senate Bill 3398/Assembly Bill 5343, which provides for the replacement of lead service lines within 10 years of the effective date of the bill and authorizes cost recovery of customer-owned lead service lines as an O&M expense plus interest through a semi-annual surcharge.
- Missouri passed the Water and Sewer Infrastructure Act, Senate Bill 44/House Bill 397, to establish a new statewide surcharge mechanism program which covers replacement of aging water distribution and sewer collection infrastructure. This legislation broadens the eligible projects covered by the current Infrastructure System Replacement Surcharge mechanism and expands its applicability to projects across the state.
- New Jersey passed Senate Bill 647/House Bill 4825 which strengthens the WQAA by requiring the Department of Environmental Protection to adopt regulations to implement the WQAA, enhancing asset management plans and reporting, upgrading cyber security standards and adding criminal penalties for falsifying reports.
- Illinois passed House Bill 414, Low Income Water & Sewer Financial Assistance Program, which authorizes the state's Department of Commerce and Economic Opportunity to institute a water and sewer assistance program for customers of privately and publicly owned systems. The program is modeled off the existing energy supplemental state Low Income Home Energy Assistance Program.

In September 2020, the CPUC released a decision under its Low-Income Rate Payer Assistance program rulemaking that will require the Company's California subsidiary to file a proposal to alter its water revenue adjustment mechanism in its next general rate case filing in 2022, which would become effective in January 2024. On October 5, 2020, the Company's California subsidiary filed an application for rehearing of the decision and following the CPUC's denial of its rehearing application in September 2021, the Company's California subsidiary filed a petition for writ of review with the California Supreme Court on October 27, 2021.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	$ 3,930	$ 3,777	$ 3,610
Operating expenses:			
Operation and maintenance	1,777	1,622	1,544
Depreciation and amortization	636	604	582
General taxes	321	303	280
Other	—	—	(10)
Total operating expenses, net	2,734	2,529	2,396
Operating income	1,196	1,248	1,214
Other income (expense):			
Interest expense	(403)	(397)	(386)
Interest income	4	2	4
Non-operating benefit costs, net	78	49	16
Gain or (loss) on sale of businesses	747	—	(44)
Other, net	18	22	29
Total other income (expense)	444	(324)	(381)
Income before income taxes	1,640	924	833
Provision for income taxes	377	215	212
Net income attributable to common shareholders	$ 1,263	$ 709	$ 621

Segment Results of Operations

The Company's operating segments are comprised of the revenue-generating components of its business for which separate financial information is internally produced and regularly used by management to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. The Company also operates other businesses that, individually, do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented as the Market-Based Businesses, which is consistent with how management assesses the results of these businesses. For a discussion and analysis of the Company's financial statements for fiscal 2020 compared to fiscal 2019, please refer to Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC on February 24, 2021.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	$ 3,384	$ 3,255	$ 3,094
Operation and maintenance	1,325	1,258	1,182
Depreciation and amortization	601	562	529
General taxes	301	285	262
Other operating expenses	1	(3)	(10)
Other income (expenses)	(195)	(221)	(262)
Income before income taxes	962	932	869
Provision for income taxes	172	217	215
Net income attributable to common shareholders	789	715	654

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Water services:			
Residential	$ 1,935	$ 1,895	$ 1,735
Commercial	676	627	639
Fire service	151	147	142
Industrial	141	133	138
Public and other	239	226	230
Total water services	3,142	3,028	2,884
Wastewater services:			
Residential	151	134	119
Commercial	37	34	31
Industrial	4	3	3
Public and other	16	14	14
Total wastewater services	208	185	167
Other (a)	34	42	43
Total operating revenues	$ 3,384	$ 3,255	$ 3,094

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(Gallons in millions)	For the Years Ended December 31, 2021	2020	2019
Billed water services volumes:			
Residential	173,644	178,753	167,470
Commercial	77,476	75,875	81,268
Industrial	35,738	34,875	37,242
Fire service, public and other	51,957	49,031	50,501
Total billed water services volumes	338,815	338,534	336,481

In 2021, as compared to 2020, operating revenues increased $129 million primarily due to $208 million increase from authorized rate increases, including infrastructure surcharges, principally to fund infrastructure investment in various states, and a $26 million increase from water and wastewater acquisitions, as well as organic growth in existing systems. These increases were offset by an estimated net decrease of $13 million from weather in both 2021 and 2020, a $5 million decrease from lower water services demand and ongoing customer usage reductions from conservation, and a $79 million decrease in revenues due to the amortization of EADIT, which is generally offset with a reduction in income tax expense. Additionally, there was an $8 million decrease in revenue due to the denial of authorization to defer certain COVID-19 financial impacts based on the PaPUC order received by the Company's Pennsylvania subsidiary. See Note 3—Impact of the COVID-19 Pandemic in the Notes to Consolidated Financial Statements for additional information.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operating and maintenance expense:

(In millions)	For the Years Ended December 31, 2021	2020	2019
Employee-related costs	$ 522	$ 495	$ 462
Production costs	353	335	317
Operating supplies and services	245	242	237
Maintenance materials and supplies	93	84	74
Customer billing and accounting	66	58	55
Other	46	44	37
Total	$ 1,325	$ 1,258	$ 1,182

Employee-Related Costs

(In millions)	For the Years Ended December 31, 2021	2020	2019
Salaries and wages	$ 402	$ 382	$ 363
Group insurance	66	65	60
Pensions	25	20	12
Other benefits	29	28	27
Total	$ 522	$ 495	$ 462

In 2021, as compared to 2020, employee-related costs increased $27 million primarily due to a $20 million increase in salaries and wages from higher headcount and related compensation expense supporting growth in the businesses and a $5 million increase in pension service costs.

Production Costs

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Purchased water	$ 153	$ 149	$ 135
Fuel and power	97	88	90
Chemicals	59	57	54
Waste disposal	44	41	38
Total	$ 353	$ 335	$ 317

In 2021, as compared to 2020, production costs increased $18 million primarily due to a $9 million increase in fuel and power due to higher rates and system delivery across several subsidiaries and a $4 million increase in purchased water primarily due to usage in the Company's California subsidiary.

Maintenance Materials and Supplies

In 2021, as compared to 2020, maintenance materials and supplies increased $9 million primarily due to timing of maintenance and tank painting projects in the Company's New Jersey subsidiary and increased paving costs from a higher volume of main breaks.

Customer Billing and Accounting

In 2021, as compared to 2020, customer billing and accounting increased $8 million primarily due to higher call volumes experienced at our customer service centers, higher collections costs and higher uncollectible costs.

Depreciation and Amortization

In 2021, as compared to 2020, depreciation and amortization increased $39 million primarily due to additional utility plant placed in service from capital infrastructure investments and acquisitions.

General Taxes

In 2021, as compared to 2020, general taxes increased $16 million, primarily due to increased capital investments, including acquisitions, increased tax rates across several subsidiaries and an increase in the New Jersey Gross Receipts Tax.

Other Income (Expenses)

In 2021, as compared to 2020, other income (expenses) increased $26 million primarily due to the reduction in the non-service cost components of pension and other postretirement benefits expense resulting from higher asset returns.

Provision for Income Taxes

In 2021, as compared to 2020, the Regulated Businesses' provision for income taxes decreased $45 million. The Regulated Businesses' effective income tax rate was 17.9% and 23.3% for the years ended December 31, 2021 and 2020, respectively. The decrease was primarily due to an increase in the amortization of EADIT resulting from the TCJA, pursuant to regulatory orders. The amortization of EADIT is generally offset with reductions in revenue.

Market-Based Businesses

Presented in the table below is information for the Market-Based Businesses:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating revenues	$ 563	$ 540	$ 539
Operation and maintenance	482	389	393
Depreciation and amortization	22	26	37
Gain or (loss) on sale of businesses	748	(1)	(44)
Income before income taxes	798	120	66
Provision for income taxes	248	29	20
Net income attributable to common shareholders	550	91	46

Operating Revenues

In 2021, as compared to 2020, operating revenues increased $23 million primarily due to a $32 million increase in capital and O&M projects in the MSG, across several of the Company's military bases, primarily at the United States Military Academy at West Point, New York, Fort Belvoir and Joint Base Lewis-McChord and a $7 million increase in the CSG related to the contract with the City of Camden, New Jersey. These increases were partially offset by a $17 million year over year decrease at HOS due to the sale of the business in the fourth quarter of 2021.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Market-Based Businesses' operating and maintenance expense:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Operating supplies and services	$ 221	$ 148	$ 128
Maintenance materials and supplies	123	114	109
Employee-related costs	96	90	109
Production costs	22	21	29
Other	20	16	18
Total	$ 482	$ 389	$ 393

Operating Supplies and Services

In 2021, as compared to 2020, operating supplies and services increased $73 million primarily due to the $45 million pre-tax contribution to the AWCF authorized by the Company in 2021, costs associated with MSG from increased capital and O&M projects as discussed above and an increase in additional O&M costs related to CSG.

Maintenance Materials and Supplies

In 2021, as compared to 2020, maintenance materials and supplies increased $9 million primarily due to an increase in CSG related to the contract with the City of Camden, New Jersey and an increase in HOS due to contract growth and an increase in claims. These increases were partially offset by a decrease in HOS due to the sale of its business in the fourth quarter of 2021.

Employee-Related Costs

In 2021, as compared to 2020, employee-related costs increased $6 million primarily due to an increase in salaries and wages in MSG from the addition of new bases in the second half of 2020 and HOS for additional customer service costs to support the business.

Depreciation and Amortization

In 2021, as compared to 2020, depreciation and amortization decreased $4 million primarily due to lower intangible asset amortization expenses in HOS.

Gain or (Loss) on Sale of Businesses

During the fourth quarter of 2021, the Company recognized a pre-tax gain on sale of $748 million relating to the sale of HOS. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Provision for Income Taxes

In 2021, as compared to 2020, provision for income taxes increased $219 million primarily due to the sale of HOS. See Note 6—Acquisitions and Divestitures in the Notes to Consolidated Financial Statements for additional information.

Liquidity and Capital Resources

The Company uses its capital resources, including cash, primarily to (i) fund operating and capital requirements, (ii) pay interest and meet debt maturities, (iii) pay dividends, (iv) fund acquisitions, (v) fund pension and postretirement benefit obligations, and (vi) to pay federal income taxes, which the Company began to pay as a result of fully utilizing its NOL carryforward in 2021. The Company invests a significant amount of cash on regulated capital projects where it expects to earn a long-term return on investment. Additionally, the Company operates in rate regulated environments in which the amount of new investment recovery may be limited, and where such recovery generally takes place over an extended period of time, and certain capital recovery is also subject to regulatory lag. See Item 1—Business—Regulated Businesses—*Regulation and Rate Making* for additional information. The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity in addition to the proceeds from the sales of HOS and the Company's New York subsidiary. If necessary, the Company may delay certain capital investments or other funding requirements, or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

The Company regularly evaluates and monitors its cash requirements for capital investments, acquisitions, operations, commitments, debt maturities, interest and dividends. The Company's business is capital intensive, with a majority of this capital funded by cash flows from operations. When necessary, the Company also obtains funds from external sources, primarily in the debt markets and through short-term commercial paper borrowings. In order to meet short-term liquidity needs, AWCC issues commercial paper that is supported by its revolving credit facility. The Company may also access the equity capital markets to support its capital funding requirements, as needed. The Company's access to external financing on reasonable terms depends on its credit ratings and current business conditions, including that of the utility and water utility industry in general, as well as conditions in the debt or equity capital markets, and the national and international economic and geopolitical arenas. Disruptions in the credit markets may discourage lenders from extending the terms of such commitments or agreeing to new commitments. Market disruptions may also limit the Company's ability to issue debt and equity securities in the capital markets.

If these unfavorable business, market, financial and other conditions deteriorate to the extent that the Company is no longer able to access the commercial paper and/or capital markets on reasonable terms, AWCC has access to an unsecured revolving credit facility that expires in March 2025 with aggregate bank commitments of $2.25 billion. The facility is used principally to fulfill the Company's short-term liquidity needs by supporting AWCC's $2.10 billion commercial paper program and to provide a sublimit of up to $150 million for letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to $500 million. As of December 31, 2021, AWCC had no outstanding borrowings and $76 million of outstanding letters of credit under its revolving credit facility, with $1.59 billion available to fulfill its short-term liquidity needs and to issue letters of credit.

To ensure adequate liquidity given the impacts of the COVID-19 pandemic on debt and capital markets, on March 20, 2020, AWCC entered into a Term Loan Credit Agreement, by and among parent company, AWCC and the lenders party thereto (the "Term Loan Facility"). The net proceeds were used for general corporate purposes of AWCC and American Water and to provide additional liquidity. The Term Loan Facility commitments terminated at maturity on March 19, 2021, and the Term Loan Facility was repaid in full.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Credit Facilities and Short-Term Debt below for additional information.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. The Company's future cash flows from operating activities will be affected by, among other things: customers' ability to pay for service in a timely manner, economic utility regulation, inflation, compliance with environmental, health and safety standards, production costs, maintenance costs, customer growth, declining customer usage of water, employee-related costs, including pension funding, weather and seasonality, taxes, and overall economic conditions.

Operating cash flows can be negatively affected by changes in the Company's rate regulated environments, changes in the Market-Based Businesses, changes in the economy, interest rates, the timing of tax payments, and the Company's customers' ability to pay for service in a timely manner, among other items. The Company can provide no assurance that its customers' historical payment pattern will continue in the future. The Company's current liabilities may exceed current assets mainly from debt maturities due within one year and the use of short-term debt as a funding source, primarily to meet scheduled maturities of long-term debt, fund acquisitions and construction projects, as well as cash needs, which can fluctuate significantly due to the seasonality of the business and other factors. The Company addresses cash timing differences primarily through its short-term liquidity funding mechanisms.

Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

	For the Years Ended December 31,		
(In millions)	**2021**	**2020**	**2019**
Net income	$ 1,263	$ 709	$ 621
Add (less):			
Depreciation and amortization	636	604	582
Deferred income taxes and amortization of investment tax credits	230	207	208
Other non-cash activities (a)	(27)	—	4
Changes in working capital (b)	126	(49)	(5)
Settlement of cash flow hedges	—	(6)	(30)
Pension and non-pension postretirement benefit contributions	(40)	(39)	(31)
(Gain) or loss on sale of businesses	(747)	—	34
Net cash provided by operating activities	$ 1,441	$ 1,426	$ 1,383

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net. Details of each component can be found on the Consolidated Statements of Cash Flows.

(b) Changes in working capital include changes to receivables and unbilled revenues, accounts payable and accrued liabilities, and other current assets and liabilities, net, less the settlement of cash flow hedges.

In 2021, cash flows provided by operating activities increased $15 million, primarily due to an increase in net income, changes in working capital, primarily from an increase in accrued taxes, and an increase in depreciation and amortization due to additional utility plant placed in service from capital infrastructure investments. Partially offsetting these increases was the gain on sale of businesses, due to the gain on the sale of HOS.

The Company expects to make pension contributions to the plan trusts of $37 million in 2022. In addition, the Company estimates that contributions will amount to $35 million, $33 million, $30 million and $27 million in 2023, 2024, 2025 and 2026, respectively. Actual amounts contributed could change materially from these estimates as a result of changes in assumptions and actual investment returns, among other factors.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

	For the Years Ended December 31,		
(In millions)	**2021**	**2020**	**2019**
Capital expenditures	$ (1,764)	$ (1,822)	$ (1,654)
Acquisitions, net of cash acquired	(135)	(135)	(235)
Proceeds from sale of assets, net of cash on hand	472	2	48
Removal costs from property, plant and equipment retirements, net	(109)	(106)	(104)
Net cash used in investing activities	$ (1,536)	$ (2,061)	$ (1,945)

In 2021, cash flows used in investing activities decreased $525 million primarily due to proceeds received from the sale of HOS and timing of payments for capital expenditures. The Company continues to invest across all infrastructure categories, mainly replacement and renewal of transmission and distribution and services, meter and fire hydrants infrastructure in the Company's Regulated Businesses, as discussed below.

The Company's infrastructure investment plan consists of both infrastructure renewal programs, where the Company replaces infrastructure, as needed, and major capital investment projects, where the Company constructs new water and wastewater treatment and delivery facilities to meet new customer growth and water quality regulations. The Company's projected capital expenditures and other investments are subject to periodic review and revision to reflect changes in economic conditions and other factors.

Presented in the table below is a summary of the Company's capital expenditures by category:

	For the Years Ended December 31,		
(In millions)	**2021**	**2020**	**2019**
Transmission and distribution	$ 749	$ 704	$ 661
Treatment and pumping	197	306	190
Services, meter and fire hydrants	366	333	346
General structure and equipment	251	299	234
Sources of supply	64	54	83
Wastewater	137	126	140
Total capital expenditures	$ 1,764	$ 1,822	$ 1,654

In 2021, the Company's capital expenditures decreased $58 million primarily due to a decrease in treatment and pumping and general structure and equipment infrastructure investment partially offset by increases in transmission and distribution and services, meter and fire hydrants infrastructure investment.

The Company also grows its business primarily through acquisitions of water and wastewater systems. These acquisitions are generally located in geographic proximity to the Company's existing Regulated Businesses and support continued geographical diversification and growth of its operations. Generally, acquisitions are funded initially with short-term debt, and later refinanced with long-term financing. During 2021, the Company paid $112 million for the acquisition of 23 water and wastewater systems, representing in the aggregate approximately 20,000 customers and paid $23 million in deposits for future acquisitions.

As previously noted, over the next five years the Company expects to invest between $13 billion to $14 billion, with $11.5 billion to $12 billion for infrastructure improvements in the Regulated Businesses, and the Company expects to invest between $28 billion to $32 billion over the next 10 years. In 2022, the Company expects to invest $2.5 billion, consisting of $2 billion for infrastructure improvements and $500 million for acquisitions in the Regulated Businesses.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

	For the Years Ended December 31,		
	2021	2020	2019
(In millions)			
Proceeds from long-term debt	$ 1,118	$ 1,334	$ 1,530
Repayments of long-term debt	(372)	(342)	(495)
(Repayments of) proceeds from term loan	(500)	500	—
Net short-term borrowings with maturities less than three months	(198)	(5)	(178)
Dividends paid	(428)	(389)	(353)
Anti-dilutive share repurchases	—	—	(36)
Other financing activities, net (a)	35	22	26
Net cash (used in) provided by financing activities	$ (345)	$ 1,120	$ 494

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment plan, net of taxes paid, advances and contributions in aid of construction, net of refunds, and debt issuance costs and make-whole premiums on early debt redemption.

In 2021, cash flows provided by financing activities decreased $1,465 million, primarily due to the repayment in full at maturity of the $500 million Term Loan Facility during the first quarter of 2021, an increase in net repayments of commercial paper borrowings, higher dividends paid in 2021 and an increase in repayments of long-term debt due to the prepayment of $327 million in aggregate principal amount of AWCC's outstanding senior notes during the second quarter of 2021.

The Company's financing activities are primarily focused on funding regulated infrastructure expenditures, regulated acquisitions and payment of dividends. These activities included the issuance of long-term and short-term debt, primarily through AWCC. Based on the needs of the Regulated Businesses and the Company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide those borrowings to the Regulated Businesses and parent company. The Regulated Businesses and parent company are obligated to pay their portion of the respective principal and interest to AWCC, in the amount necessary to enable AWCC to meet its debt service obligations. Parent company's borrowings are not a source of capital for the Regulated Businesses, therefore, parent company is not able to recover the interest charges on its debt through regulated water and wastewater rates. As of December 31, 2021, AWCC has made long-term fixed rate loans and commercial paper loans to the Regulated Businesses amounting to $6.7 billion. Additionally, as of December 31, 2021, AWCC has made long-term fixed rate loans and commercial paper loans to parent company amounting to $3.1 billion.

On May 10, 2021, AWCC completed a $1.1 billion debt offering, which included the sale of $550 million aggregate principal amount of its 2.30% Senior Notes due 2031 and $550 million aggregate principal amount of its 3.25% Senior Notes due 2051. At the closing of the offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of $1,086 million. AWCC used the net proceeds of this offering: (i) to lend funds to parent company and its regulated subsidiaries; (ii) to prepay $251 million aggregate principal amount of AWCC's outstanding 5.77% Series D Senior Notes due December 21, 2021 (the "Series D Notes") and $76 million aggregate principal amount of AWCC's outstanding 6.55% Series H Senior Notes due May 15, 2023 (the "Series H Notes," and together with the Series D Notes, the "Series Notes"); (iii) to repay AWCC's commercial paper obligations; and (iv) for general corporate purposes. After the prepayments described above, none of the Series D Notes, and approximately $14 million aggregate principal amount of the Series H Notes, remain outstanding. As a result of AWCC's prepayment of the Series Notes, a make-whole premium of $15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as swaps. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company does not enter into derivative contracts (through AWCC) for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations. The Company minimizes the counterparty credit risk on these transactions by dealing only with leading, creditworthy financial institutions, having long-term credit ratings of "A" or better.

On May 10, 2021, the Company terminated two treasury lock agreements with an aggregate notional amount of $275 million, realizing a net gain of less than $1 million, to be amortized through interest, net over a ten-year period, in accordance with the terms of the new debt issued on May 10, 2021. No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2021 and 2020.

In February 2021, parent company and AWCC filed with the SEC a universal shelf registration statement that enables the Company to meet its capital needs through the offer and sale to the public from time to time of an unlimited amount of various types of securities, including American Water common stock, preferred stock, and other equity and hybrid securities, and AWCC debt securities, all subject to market conditions and demand, general economic conditions, and as applicable, rating status. The shelf registration statement will expire in February 2024. During 2021, 2020 and 2019, $1.10 billion, $1.00 billion, and $1.10 billion, respectively, of debt securities were issued under this and predecessor registration statements.

Presented in the table below are the issuances of long-term debt in 2021:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC (a)	Senior notes—fixed rate	2.30%-3.25%	2.78%	2031-2051	$ 1,100
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.04%	2022-2047	18
Total issuances					$ 1,118

(a) This indebtedness is considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness. See "—Issuer and Guarantor of Senior Notes" below.

Presented in the table below are the retirements and redemptions of long-term debt in 2021 through sinking fund provisions, optional redemption or payment at maturity:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC	Private activity bonds and government funded debt—fixed rate	1.79%-6.55%	5.94%	2021-2031	$ 327
Other American Water subsidiaries	Private activity mortgage bonds	9.13%-9.69%	9.52%	2021	31
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.38%	2021-2048	13
Other American Water subsidiaries	Mandatory redeemable preferred stock	8.49%-8.49%	8.49%	2022-2022	1
Total retirements and redemptions					$ 372

From time to time and as market conditions warrant, the Company may engage in long-term debt retirements through make-whole redemptions, tender offers, open market repurchases or other viable alternatives.

Issuer and Guarantor of Senior Notes

The outstanding senior notes issued by AWCC, the wholly owned finance subsidiary of parent company, have been issued under two indentures, each by and between AWCC and Wells Fargo Bank, National Association, as trustee, providing for the rights and obligations of the parties thereto and the holders of the notes issued thereunder. The senior notes also have been issued with the benefit of a support agreement, as amended, between parent company and AWCC, which serves as the functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under the senior notes. No other subsidiary of parent company provides guarantees for any of the outstanding senior notes. If AWCC is unable to make timely payment of any interest, principal or premium, if any, on such senior notes, parent company will provide to AWCC, at its request or the request of any holder of such senior notes, funds to make such payment in full. If AWCC fails or refuses to take timely action to enforce certain rights under the support agreement or if AWCC defaults in the timely payment of any amounts owed to any holder of such senior notes, when due, the support agreement provides that the holder may proceed directly against parent company to enforce such rights or to obtain payment of the defaulted amounts owed to that holder.

As a wholly owned finance subsidiary of parent company, AWCC has no significant assets other than obligations of parent company and certain of its subsidiaries in its Regulated Businesses segment to repay certain intercompany loans made to them by AWCC. AWCC's ability to make payments of amounts owed to holders of the senior notes will be dependent upon AWCC's receipt of sufficient payments of amounts owed pursuant to the terms of such intercompany loans and from its ability to issue indebtedness or otherwise obtain loans in the future, the proceeds of which would be used to fund the repayment of the senior notes.

Because parent company is a holding company and substantially all of its operations are conducted through its subsidiaries other than AWCC, parent company's ability to fulfill its obligations under the support agreement will be dependent upon its receipt of sufficient cash dividends or distributions from its operating subsidiaries. See Note 10—Shareholders' Equity—Dividends and Distributions, in the Notes to the Consolidated Financial Statements for a summary of the limitations on parent company and its subsidiaries to pay dividends or make distributions. Furthermore, parent company's operating subsidiaries are separate and distinct legal entities and, other than AWCC, have no obligation to make any payments on the senior notes or to make available or provide any funds for such payment, other than through their repayment obligations under intercompany loans, if any, with AWCC. Based on the foregoing, parent company's obligations under the support agreement will be effectively subordinated to all indebtedness and other liabilities, including trade payables, lease commitments and moneys borrowed or other indebtedness incurred or issued by parent company's subsidiaries other than AWCC.

Credit Facilities and Short-Term Debt

Interest rates on advances under the Company's revolving credit facility are based on a credit spread to the LIBOR rate (or applicable market replacement rate) or base rate in accordance with Moody Investors Service's and Standard & Poor's Financial Services' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt. The facility is used principally to support AWCC's commercial paper program and to provide up to $150 million in letters of credit. Indebtedness under the facility and AWCC's commercial paper are considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations thereunder.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2021		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,100	$ 150	$ 2,250
Outstanding debt	(584)	(76)	(660)
Remaining availability as of December 31, 2021	$ 1,516	$ 74	$ 1,590

(a) Total remaining availability of $1.59 billion as of December 31, 2021 may be accessed through revolver draws.

	2020		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,100	$ 150	$ 2,250
Outstanding debt	(786)	(76)	(862)
Remaining availability as of December 31, 2020	$ 1,314	$ 74	$ 1,388

(a) Total remaining availability may be accessed through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2021 and 2020:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2021	$ 116	$ 1,590	$ 1,706
Available liquidity as of December 31, 2020	547	1,388	1,935

The weighted average interest rate on AWCC short-term borrowings, including as of December 31, 2020, $500 million of outstanding principal on the Term Loan Facility, was approximately 0.25% and 1.16%, for the years ended December 31, 2021 and 2020, respectively.

Capital Structure

Presented in the table below is the percentage of the Company's capitalization represented by the components of its capital structure as of December 31:

	2021	2020	2019
Total common shareholders' equity	39.9 %	37.1 %	39.2 %
Long-term debt and redeemable preferred stock at redemption value	56.6 %	53.6 %	55.6 %
Short-term debt and current portion of long-term debt	3.5 %	9.3 %	5.2 %
Total	100 %	100 %	100 %

The changes in the capital structure mix between periods were mainly attributable to the impacts of the HOS sale, repayment of the Term Loan Facility at maturity on March 19, 2021, and the Company's long-term debt offering that was completed on May 10, 2021.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On December 31, 2021, the Company's ratio was 0.60 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of February 16, 2022 as issued by the following rating agencies:

Securities	Moody's Investors Service	Standard & Poor's Ratings Service
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. None of the Company's borrowings are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, energy, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends and Regulatory Restrictions

For discussion of the Company's dividends, dividend restrictions and dividend policy, see Note 10—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Insurance Coverage

The Company carries various property, casualty, cyber and financial insurance policies with limits, deductibles and exclusions that it believes are consistent with industry standards. However, insurance coverage may not be adequate or available to cover unanticipated losses or claims. Additionally, annual policy renewals can be impacted by claims experience which in turn can impact coverage terms and conditions on a going-forward basis. The Company is self-insured to the extent that losses are within the policy deductible or exceed the amount of insurance maintained. Such losses could have a material adverse effect on the Company's short-term and long-term financial condition and its results of operations and cash flows.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires that management apply accounting policies and make estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. Management believes that the areas described below require significant judgment in the application of accounting policy or in making estimates and assumptions in matters that are inherently uncertain and that may change in subsequent periods. Accordingly, changes in the estimates, assumptions and judgments applied to these accounting policies could have a significant impact on the Company's financial condition, results of operations and cash flows, as reflected in the Company's Consolidated Financial Statements. Management has reviewed the critical accounting polices described below with the Company's Audit, Finance and Risk Committee, including the estimates, assumptions and judgments used in their application. Additional discussion regarding these critical accounting policies and their application can be found in Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements.

Regulation and Regulatory Accounting

The Company's regulated utilities are subject to regulation by PUCs and, as such, the Company follows the authoritative accounting principles required for rate regulated utilities, which requires the Company to reflect the effects of rate regulation in its Consolidated Financial Statements. Use of this authoritative guidance is applicable to utility operations that meet the following criteria: (i) third-party regulation of rates; (ii) cost-based rates; and (iii) a reasonable assumption that rates will be set to recover the estimated costs of providing service, plus a return on net investment, or rate base. As of December 31, 2021, the Company concluded that the operations of its utilities met the criteria.

Application of this authoritative guidance has a further effect on the Company's financial statements as it pertains to allowable costs used in the ratemaking process. The Company makes significant assumptions and estimates to quantify amounts recorded as regulatory assets and liabilities. Such judgments include, but are not limited to, assets and liabilities related to regulated acquisitions, pension and postretirement benefits, depreciation rates and taxes. Due to timing and other differences in the collection of revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, the principles require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers.

For each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation. If subsequent events indicate that the regulatory assets or liabilities no longer meet the criteria for probable future recovery or probable future settlement, the Company's Consolidated Statements of Operations and financial position could be materially affected. In addition, if the Company concludes in a future period that a separable portion of the business no longer meets the criteria, the Company is required to eliminate the financial statement effects of regulation for that part of the business, which would include the elimination of any or all regulatory assets and liabilities that had been recorded in the Consolidated Financial Statements. Failure to meet the criteria of this authoritative guidance could materially impact the Company's Consolidated Financial Statements.

As of December 31, 2021 and 2020, the Company's regulatory asset balance was $1.1 billion and its regulatory liability balance was $1.6 billion and $1.8 billion, respectively. See Note 4—Regulatory Matters in the Notes to Consolidated Financial Statements for further information regarding the Company's significant regulatory assets and liabilities.

Accounting for Income Taxes

Significant management judgment is required in determining the provision for income taxes, primarily due to the uncertainty related to tax positions taken, as well as deferred tax assets and liabilities, valuation allowances and the utilization of NOL carryforwards.

In accordance with applicable authoritative guidance, the Company accounts for uncertain income tax positions using a benefit recognition model with a two-step approach, including a more-likely-than-not recognition threshold and a measurement approach based on the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement. If it is not more-likely-than-not that the benefit of the tax position will be sustained on its technical merits, no benefit is recorded. Uncertain tax positions that relate only to timing of when an item is included on a tax return are considered to have met the recognition threshold. Management evaluates each position based solely on the technical merits and facts and circumstances of the position, assuming the position will be examined by a taxing authority having full knowledge of all relevant information. Significant judgment is required to determine whether the recognition threshold has been met and, if so, the appropriate amount of unrecognized tax benefit to be recorded in the Consolidated Financial Statements.

The Company evaluates the probability of realizing deferred tax assets quarterly by reviewing a forecast of future taxable income and its intent and ability to implement tax planning strategies, if necessary, to realize deferred tax assets. The Company also assesses its ability to utilize tax attributes, including those in the form of carryforwards, for which the benefits have already been reflected in the financial statements. The Company records valuation allowances for deferred tax assets when it concludes that it is more-likely-than-not such benefit will not be realized in future periods.

Under GAAP, specifically Accounting Standards Codification Topic 740, *Income Taxes* ("ASC 740"), the tax effects of changes in tax laws must be recognized in the period in which the law is enacted. ASC 740 also requires deferred tax assets and liabilities to be measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled. Thus, at the date of enactment of the TCJA, the Company's deferred taxes were re-measured based upon the new tax rate. For the Company's regulated entities, the change in deferred taxes are recorded as either an offset to a regulatory asset or a regulatory liability and may be subject to refund to customers. For the Company's unregulated operations, the change in deferred taxes are recorded as a non-cash re-measurement adjustment to earnings.

Actual income taxes could vary from estimated amounts due to the future impacts of various items, including changes in income tax laws, the Company's forecasted financial condition and results of operations, failure to successfully implement tax planning strategies and recovery of taxes through the regulatory process for the Regulated Businesses, as well as results of audits and examinations of filed tax returns by taxing authorities. The resulting tax balances as of December 31, 2021 and 2020 are appropriately accounted for in accordance with the applicable authoritative guidance; however, the ultimate outcome of tax matters could result in favorable or unfavorable adjustments to the Consolidated Financial Statements and such adjustments could be material. See Note 15—Income Taxes in the Notes to Consolidated Financial Statements for additional information regarding income taxes.

Accounting for Pension and Postretirement Benefits

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared service operations. See Note 16—Employee Benefits in the Notes to Consolidated Financial Statements for additional information regarding the description of and accounting for the defined benefit pension plans and postretirement benefit plans.

The Company's pension and postretirement benefit costs are developed from actuarial valuations. Inherent in these valuations are key assumptions provided by the Company to its actuaries, including the discount rate and expected long-term rate of return on plan assets. Material changes in the Company's pension and postretirement benefit costs may occur in the future due to changes in these assumptions as well as fluctuations in plan assets. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes. The primary assumptions are:

- Discount Rate—The discount rate is used in calculating the present value of benefits, which are based on projections of benefit payments to be made in the future. The objective in selecting the discount rate is to measure the single amount that, if invested at the measurement date in a portfolio of high-quality debt instruments, would provide the necessary future cash flows to pay the accumulated benefits when due.
- Expected Return on Plan Assets ("EROA")—Management projects the future return on plan assets considering prior performance, but primarily based upon the plans' mix of assets and expectations for the long-term returns on those asset classes. These projected returns reduce the net benefit costs the Company records currently.
- Rate of Compensation Increase—Management projects employees' pay increases, which are used to project employees' pension benefits at retirement.
- Health Care Cost Trend Rate—Management projects the expected increases in the cost of health care.
- Mortality— Management adopted the Society of Actuaries Pri-2012 mortality base table, the most recent table developed from private pension plan experience, which provides rates of mortality in 2012 and adopted the new MP-2021 mortality improvement scale to gradually adjust future mortality rates downward due to increased longevity in each year after 2012.

The discount rate assumption, which is determined for the pension and postretirement benefit plans independently, is subject to change each year, consistent with changes in applicable high-quality, long-term corporate bond indices. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. For each plan, the discount rate was developed as the level equivalent rate that would yield the same present value as using spot rates aligned with the projected benefit payments. The discount rate for determining pension benefit obligations was 2.94%, 2.74% and 3.44% at December 31, 2021, 2020 and 2019, respectively. The discount rate for determining other postretirement benefit obligations was 2.90%, 2.56% and 3.36% at December 31, 2021, 2020 and 2019, respectively.

In selecting an EROA, the Company considered tax implications, past performance and economic forecasts for the types of investments held by the plans. The long-term EROA assumption used in calculating pension cost was 6.50% for 2021, 6.50% for 2020, and 6.20% for 2019. The weighted average EROA assumption used in calculating other postretirement benefit costs was 3.67% for 2021, 3.68% for 2020 and 3.56% for 2019.

Presented in the table below are the allocations of the pension plan assets by asset category:

		Percentage of Plan Assets as of December 31,	
Asset Category	2022 Target Allocation	2021	2020
Equity securities	43 %	46 %	49 %
Fixed income	50 %	47 %	45 %
Real Estate	5 %	7 %	6 %
Real estate investment trusts ("REITs")	2 %	— %	— %
Total	100 %	100 %	100 %

Postretirement Medical Bargaining Plan Changes

On August 31, 2018, the Postretirement Medical Benefit Plan was remeasured as a result of an announced plan amendment which changed benefits for certain union and non-union plan participants. The plan change resulted in a $175 million reduction in future benefits payable to plan participants, and, in combination with other experience reflected as of the remeasurement date, resulted in a $227 million reduction to the net accumulated postretirement benefit obligation. As of December 31, 2021, the remaining amortization period of the impact of the plan amendment is 6.9 years. As a result of the remeasurement and change in funded status, the Company decreased the investment risk in the plan and reduced its exposure to changes in interest rates by matching the assets of the plan to the projected cash flows for future benefit payments of the liability. Plan assets in excess of those securities designed to match the long-term liabilities are invested in shorter duration fixed income securities and equities.

Presented in the table below are the allocations of the other postretirement benefit plan assets by asset category:

		Percentage of Plan Assets as of December 31,	
Asset Category	2022 Target Allocation (a)	2021	2020
Equity securities	18 %	22 %	18 %
Fixed income	82 %	78 %	82 %
Total	100 %	100 %	100 %

(a) Includes the American Water Postretirement Medical Benefits Bargaining Plan, the American Water Postretirement Medical Benefits Non-Bargaining Plan, and the American Water Life Insurance Trust.

The investments of the pension and postretirement welfare plan trusts include debt and equity securities held either directly or through mutual funds, commingled funds and limited partnerships. The trustee for the Company's defined benefit pension and postretirement welfare plans uses an independent valuation firm to calculate the fair value of plan assets.

In selecting a rate of compensation increase, the Company considers past experience in light of movements in inflation rates. The Company's rate of compensation increase was 3.51% for 2021, 3.51% for 2020 and 2.97% for 2019.

In selecting health care cost trend rates, the Company considers past performance and forecasts of increases in health care costs. As of January 1, 2021, the Company's health care cost trend rate assumption used to calculate the periodic cost was 6.25% in 2021 gradually declining to 5.00% in 2026 and thereafter. As of December 31, 2021, the Company projects that medical inflation will be 6.00% in 2022 gradually declining to 5.00% in 2026 and thereafter.

The Company will use a discount rate and EROA of 2.94% and 6.50%, respectively, for estimating its 2022 pension costs. Additionally, the Company will use a discount rate and expected blended return based on weighted assets of 2.90% and 3.60%, respectively, for estimating its 2022 other postretirement benefit costs. A decrease in the discount rate or the EROA would increase the Company's pension expense. The Company's 2021 pension and postretirement benefit credit was $41 million and the 2020 pension and postretirement benefit credit was $14 million. The Company expects to make pension contributions to the plan trusts of $37 million in 2022, and $35 million, $33 million, $30 million and $27 million in 2023, 2024, 2025 and 2026, respectively. Actual amounts contributed could change significantly from these estimates. The assumptions are reviewed annually and at any interim re-measurement of the plan obligations. The impact of assumption changes is reflected in the recorded pension and postretirement benefit amounts as they occur, or over a period of time if allowed under applicable accounting standards.

Revenue Recognition

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis, and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer.

Increases or decreases in the volumes delivered to customers and rate mix due to changes in usage patterns in customer classes in the period could be significant to the calculation of unbilled revenue. In addition, changes in the timing of meter reading schedules and the number and type of customers scheduled for each meter reading date would also have an effect on the unbilled revenue calculation. Unbilled revenue for the Company's regulated utilities as of December 31, 2021 and 2020 was $162 million and $150 million, respectively.

The Company also recognizes revenue when it is probable that future recovery of previously incurred costs or future refunds that are to be credited to customers will occur through the ratemaking process.

Revenue from the Company's former HOS business was generated through various protection programs in which the Company provided fixed fee services to domestic homeowners and smaller commercial customers for interior and exterior water and sewer lines, interior electric and gas lines, heating and cooling systems, water heaters, power surge protection and other related services. Most of the contracts had a one-year term and each service was a separate performance obligation, satisfied over time, as the customers simultaneously received and consumed the benefits provided from the service. Customers were obligated to pay for the protection programs ratably over 12 months or via a one-time, annual fee, with revenues recognized ratably over time for those services. Advances from customers were deferred until the performance obligation was satisfied.

The Company also has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on various military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues, with billings in excess of revenues recorded as other current liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. Unbilled revenue for the Market-Based Businesses as of December 31, 2021 and 2020 was $86 million and $56 million, respectively.

Accounting for Contingencies

The Company records loss contingencies when management determines that the outcome of future events is probable of occurring and when the amount of the loss or a range of losses can be reasonably estimated. The determination of a loss contingency is based on management's judgment and estimates about the likely outcome of the matter, which may include an analysis of different scenarios. Liabilities are recorded or adjusted when events or circumstances cause these judgments or estimates to change. In assessing whether a loss is reasonably possible, management considers many factors, which include, but are not limited to: the nature of the litigation, claim or assessment, review of applicable law, opinions or views of legal counsel and other advisors, and the experience gained from similar cases or situations. The Company provides disclosures for material contingencies when management deems there is a reasonable possibility that a loss or an additional loss may be incurred. The Company provides estimates of reasonably possible losses when such estimates may be reasonably determined, either as a single amount or within a reasonable range.

Actual amounts realized upon settlement or other resolution of loss contingencies may be different than amounts recorded and disclosed and could have a significant impact on the liabilities, revenue and expenses recorded on the Consolidated Financial Statements. See Note 17—Commitments and Contingencies in the Notes to Consolidated Financial Statements for additional information regarding contingencies.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of recent accounting standards.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk associated with changes in commodity prices, equity prices and interest rates. The Company is exposed to risks from changes in interest rates as a result of its issuance of variable and fixed rate debt and commercial paper. The Company manages its interest rate exposure by limiting its variable rate exposure and by monitoring the effects of market changes in interest rates. The Company also has the ability to enter into financial derivative instruments, which could include instruments such as, but not limited to, interest rate swaps, forward starting swaps and U.S. Treasury lock agreements to manage and mitigate interest rate risk exposure. As of December 31, 2021, a hypothetical increase of interest rates by 1% associated with the Company's short-term borrowings would result in a $8 million increase in short-term interest expense.

The Company's risks associated with price increases for chemicals, electricity and other commodities are reduced through contractual arrangements and the expected ability to recover price increases through rates, in the next general rate case proceeding or other regulatory mechanism, as authorized by each regulatory jurisdiction. Non-performance by these commodity suppliers could have a material adverse impact on the Company's results of operations, financial position and cash flows.

The market price of the Company's common stock may experience fluctuations, which may be unrelated to its operating performance. In particular, the Company's stock price may be affected by general market movements as well as developments specifically related to the water and wastewater industry. These could include, among other things, interest rate movements, quarterly variations or changes in financial estimates by securities analysts and governmental or regulatory actions. This volatility may make it difficult for the Company to access the capital markets in the future through additional offerings of its common stock or other equity securities, regardless of its financial performance, and such difficulty may preclude the Company from being able to take advantage of certain business opportunities or meet business obligations.

The Company is exposed to credit risk through its water, wastewater and other water-related services provided by the Regulated Businesses and Market-Based Businesses. The Company's Regulated Businesses serve residential, commercial, industrial and other customers, while the Market-Based Businesses engage in business activities with developers, government entities and other customers. The Company's primary credit risk is exposure to customer default on contractual obligations and the associated loss that may be incurred due to the non-payment of customer accounts receivable balances. The Company's credit risk is managed through established credit and collection policies which are in compliance with applicable regulatory requirements and involve monitoring of customer exposure and the use of credit risk mitigation measures such as letters of credit or prepayment arrangements. The Company's credit portfolio is diversified with no significant customer or industry concentrations. In addition, the Regulated Businesses are generally able to recover all prudently incurred costs including uncollectible customer accounts receivable expenses and collection costs through rates.

The Company's retirement trust assets are exposed to the market prices of debt and equity securities. Changes to the retirement trust asset values can impact the Company's pension and other benefits expense, funded status and future minimum funding requirements. Changes in interest rates can impact retirement liabilities. The Company aims to reduce risk through asset diversification and by investing in long duration fixed-income securities that have a duration similar to that of its pension liabilities, seeking to hedge some of the interest rate sensitivity of its liabilities. That way, if interest rates fall and liabilities increase, the Company expects that the fixed-income assets in its retirement trust will also increase in value. The Company also expects its risk to be reduced through its ability to recover pension and other benefit costs through rates.

The Company is also exposed to a potential national economic recession or deterioration in local economic conditions in the markets in which it operates. The credit quality of the Company's customer accounts receivable is dependent on the economy and the ability of its customers to manage through unfavorable economic cycles and other market changes. In addition, there can be no assurances that regulators will grant sufficient rate authorizations. Therefore, the Company's ability to fully recover operating expense, recover its investment and provide an appropriate return on invested capital made in the Regulated Businesses may be adversely impacted.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
American Water Works Company, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of American Water Works Company, Inc. and its subsidiaries (the "Company") as of December 31, 2021 and 2020, and the related consolidated statements of operations, comprehensive income, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2021, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020**,** and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Accounting for the Effects of Rate Regulation

As described in Notes 2 and 4 to the consolidated financial statements, the Company's consolidated regulatory assets and liabilities balances were $1,067 million and $1,608 million, respectively, as of December 31, 2021. The Company's regulated utilities are subject to regulation by multiple state utility commissions and the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's consolidated financial statements. As disclosed by management, for each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation.

The principal considerations for our determination that performing procedures relating to accounting for the effects of rate regulation is a critical audit matter are the significant judgment by management in accounting for regulatory assets and liabilities relative to whether regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement as a result of changes in regulatory environments, recent rate orders, and the status of any pending or potential legislation. This in turn led to a high degree of auditor judgment, subjectivity, and effort in performing audit procedures and evaluating audit evidence obtained relating to management's judgments.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the Company's regulatory accounting process, including controls over management's assessment and consideration of factors related to the probability of future recovery or settlement. These procedures also included, among others, evaluating the reasonableness of management's judgments regarding the probability of recovery and settlement based on the Company's correspondence with regulators, status of regulatory proceedings, past practices, and other relevant information; evaluating the related accounting and disclosure implications; and evaluating regulatory assets and liabilities balances based on provisions and formulas outlined in rate orders and other correspondence with the Company's regulators.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements
(Unless otherwise noted, in millions, except per share data)

Note 1: Organization and Operation

American Water Works Company, Inc. (the "Company" or "American Water") is a holding company for regulated and market-based subsidiaries that provide water and wastewater services throughout the United States. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The Company's primary business involves the ownership of regulated utilities that provide water and wastewater services in 14 states in the United States, collectively referred to as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services within non-reportable operating segments, collectively referred to as the "Market-Based Businesses." The Company's primary Market-Based Businesses include the Military Services Group ("MSG"), which enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations; and the former Homeowner Services Group ("HOS"), which provided various warranty protection programs and other home services to residential customers.

Note 2: Significant Accounting Policies

Regulation

The Company's regulated utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as Public Utility Commissions ("PUCs"). As such, the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's Consolidated Financial Statements. PUCs generally authorize revenue at levels intended to recover the estimated costs of providing service, plus a return on net investments, or rate base. Regulators may also approve accounting treatments, long-term financing programs and cost of capital, operation and maintenance ("O&M") expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers, acquisitions and dispositions, along with imposing certain penalties or granting certain incentives. Due to timing and other differences in the collection of a regulated utility's revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, these principles also require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers. See Note 4—Regulatory Matters for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires that management make estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. The Company considers its critical accounting estimates to include (i) the application of regulatory accounting principles and the related determination and estimation of regulatory assets and liabilities, (ii) revenue recognition and the estimates used in the calculation of unbilled revenue, (iii) accounting for income taxes, (iv) benefit plan assumptions and (v) the estimates and judgments used in determining loss contingencies. The Company's critical accounting estimates that are particularly sensitive to change in the near term are amounts reported for regulatory assets and liabilities, income taxes, benefit plan assumptions and contingency-related obligations.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of American Water and all of its subsidiaries in which a controlling interest is maintained after the elimination of intercompany balances and transactions.

Property, Plant and Equipment

Property, plant and equipment consists primarily of utility plant utilized by the Company's regulated utilities. Additions to utility plant and replacement of retirement units of utility plant are capitalized and include costs such as materials, direct labor, payroll taxes and benefits, indirect items such as engineering and supervision, transportation and an allowance for funds used during construction ("AFUDC"). Costs for repair, maintenance and minor replacements are charged to O&M expense as incurred.

The cost of utility plant is depreciated using the straight-line average remaining life, group method. The Company's regulated utilities record depreciation in conformity with amounts approved by PUCs, after regulatory review of the information the Company submits to support its estimates of the assets' remaining useful lives.

Nonutility property consists primarily of buildings and equipment utilized by the Company's Market-Based Businesses and for internal operations. This property is stated at cost, net of accumulated depreciation, which is calculated using the straight-line method over the useful lives of the assets.

When units of property, plant and equipment are replaced, retired or abandoned, the carrying value is credited against the asset and charged to accumulated depreciation. To the extent the Company recovers cost of removal or other retirement costs through rates after the retirement costs are incurred, a regulatory asset is recorded. In some cases, the Company recovers retirement costs through rates during the life of the associated asset and before the costs are incurred. These amounts result in a regulatory liability being reported based on the amounts previously recovered through customer rates, until the costs to retire those assets are incurred.

The costs incurred to acquire and internally develop computer software for internal use are capitalized as a unit of property. The carrying value of these costs amounted to $374 million and $360 million as of December 31, 2021 and 2020, respectively.

Cash and Cash Equivalents, and Restricted Funds

Substantially all cash is invested in interest-bearing accounts. All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Restricted funds consist primarily of proceeds from financings for the construction and capital improvement of facilities, and deposits for future services under O&M projects. Proceeds are held in escrow or interest-bearing accounts until the designated expenditures are incurred. Restricted funds are classified on the Consolidated Balance Sheets as either current or long-term based upon the intended use of the funds.

Accounts Receivable and Unbilled Revenues

Accounts receivable include regulated utility customer accounts receivable, which represent amounts billed to water and wastewater customers generally on a monthly basis. Credit is extended based on the guidelines of the applicable PUCs and collateral is generally not required. Also included are market-based trade accounts receivable and nonutility customer receivables of the regulated subsidiaries. Unbilled revenues are accrued when service has been provided but has not been billed to customers and when costs exceed billings on market-based construction contracts.

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding. An increase in the allowance for uncollectible accounts for the periods ending December 31, 2021 and 2020 reflects the impacts from the COVID-19 pandemic, including an increase in uncollectible accounts expense and a reduction in amounts written off due to shutoff moratoria in place across the Company's subsidiaries. See Note 8—Allowance for Uncollectible Accounts for additional information.

Materials and Supplies

Materials and supplies are stated at the lower of cost or net realizable value. Cost is determined using the average cost method.

Seller Promissory Note

The Company's seller promissory note is accounted for under ASC 310, Receivables, and is classified as held for investment and accounted for at amortized cost at the present value of consideration received for the sale of its HOS business. Interest income from the seller promissory note is accrued based on the principal amount outstanding and earned over the contractual life of the loan.

Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets, accrued liabilities and operating lease liabilities on the Consolidated Balance Sheets. Finance leases are included in property, plant and equipment, accrued liabilities and other long-term liabilities on the Consolidated Balance Sheets. The Company has made an accounting policy election not to include operating leases with a lease term of twelve months or less.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent the obligation to make lease payments arising from the lease. ROU assets and lease liabilities are generally recognized at the commencement date based on the present value of discounted lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of discounted lease payments. The implicit rate is used when readily determinable. ROU assets also include any upfront lease payments and excludes lease incentives. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the option will be exercised. Lease expense is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease components (e.g., fixed payments including rent, real estate taxes and insurance costs) and non-lease components (e.g., common-area maintenance costs), which are generally accounted for separately; however, the Company accounts for the lease and non-lease components as a single lease component for certain leases. Certain lease agreements include variable rental payments adjusted periodically for inflation. Additionally, the Company applies a portfolio approach to effectively account for the ROU assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Goodwill

Goodwill represents the excess of the purchase price paid over the estimated fair value of the assets acquired and liabilities assumed in the acquisition of a business. Goodwill is not amortized and must be allocated at the reporting unit level, which is defined as an operating segment or one level below, and tested for impairment at least annually, or more frequently if an event occurs or circumstances change that would more likely than not, reduce the fair value of a reporting unit below its carrying value.

The Company's goodwill is primarily associated with the acquisition of American Water by an affiliate of the Company's previous owner in 2003 and has been allocated to reporting units based on the fair values at the date of the acquisitions. For purposes of testing goodwill for impairment, the reporting units in the Regulated Businesses segment are aggregated into a single reporting unit. The goodwill of the Market-Based Businesses is comprised of the MSG reporting unit.

The Company's annual impairment testing is performed as of November 30 of each year, in conjunction with the completion of the Company's annual business plan. The Company assesses qualitative factors to determine whether quantitative testing is necessary. If it is determined, based upon qualitative factors, that the estimated fair value of a reporting unit is more likely than not, greater than its carrying value, no further testing is required. If the Company bypasses the qualitative assessment or performs the qualitative assessment and determines that the estimated fair value of a reporting unit is more likely than not, less than its carrying value, a quantitative, fair value-based assessment is performed. This quantitative testing compares the estimated fair value of the reporting unit to its respective net carrying value, including goodwill, on the measurement date. An impairment loss will be recognized in the amount equal to the excess of the reporting unit's carrying value compared to its estimated fair value, limited to the total amount of goodwill allocated to that reporting unit.

Application of goodwill impairment testing requires management judgment, including the identification of reporting units and determining the fair value of reporting units. Management estimates fair value using a discounted cash flow analysis. Significant assumptions used in these fair value estimations include, but are not limited to, forecasts of future operating results, discount and growth rates.

The Company believes the assumptions and other considerations used to value goodwill to be appropriate, however, if actual experience differs from the assumptions and considerations used in its analysis, the resulting change could have a material adverse impact on the Consolidated Financial Statements. See Note 9—Goodwill and Other Intangible Assets for additional information.

Intangible Assets

Intangible assets consisted primarily of finite-lived customer relationships associated with the acquisition of Pivotal Home Solutions in June 2018. Finite-lived intangible assets were initially measured at their estimated fair values and were amortized over their estimated useful lives based on the pattern in which the economic benefits of the intangible assets were consumed or otherwise used. See Note 9—Goodwill and Other Intangible Assets for additional information. All of the Company's finite-lived intangible assets were sold as part of the HOS sale transaction.

Impairment of Long-Lived Assets

Long-lived assets include property, plant and equipment, goodwill, intangible assets and long-term investments. The Company evaluates long-lived assets for impairment when circumstances indicate the carrying value of those assets may not be recoverable. When such indicators arise, the Company estimates the fair value of the long-lived asset from future cash flows expected to result from its use and, if applicable, the eventual disposition of the asset, comparing the estimated fair value to the carrying value of the asset. An impairment loss will be recognized in the amount equal to the excess of the long-lived asset's carrying value compared to its estimated fair value.

The long-lived assets of the Company's regulated utilities are grouped on a separate entity basis for impairment testing, as they are integrated state-wide operations that do not have the option to curtail service and generally have uniform tariffs. A regulatory asset is charged to earnings if and when future recovery in rates of that asset is no longer probable.

The Company believes the assumptions and other considerations used to value long-lived assets to be appropriate, however, if actual experience differs from the assumptions and considerations used in its estimates, the resulting change could have a material adverse impact on the Consolidated Financial Statements.

Advances for Construction and Contributions in Aid of Construction

Regulated utility subsidiaries may receive advances for construction and contributions in aid of construction from customers, home builders and real estate developers to fund construction necessary to extend service to new areas.

Advances are refundable for limited periods of time as new customers begin to receive service or other contractual obligations are fulfilled. Included in other current liabilities as of December 31, 2021 and 2020 on the Consolidated Balance Sheets are estimated refunds of $23 million and $23 million, respectively. Those amounts represent expected refunds during the next 12-month period.

Advances that are no longer refundable are reclassified to contributions. Contributions are permanent collections of plant assets or cash for a particular construction project. For ratemaking purposes, the amount of such contributions generally serves as a rate base reduction since the contributions represent non-investor supplied funds.

Generally, the Company depreciates utility plant funded by contributions and amortizes its contributions balance as a reduction to depreciation expense, producing a result which is functionally equivalent to reducing the original cost of the utility plant for the contributions. In accordance with applicable regulatory guidelines, some of the Company's utility subsidiaries do not amortize contributions, and any contribution received remains on the balance sheet indefinitely. Amortization of contributions in aid of construction was $36 million, $32 million and $29 million for the years ended December 31, 2021, 2020 and 2019, respectively.

Revenue Recognition

Under Accounting Standards Codification Topic 606, *Revenue From Contracts With Customers,* and all related amendments (collectively, "ASC 606"), a performance obligation is a promise within a contract to transfer a distinct good or service, or a series of distinct goods and services, to a customer. Revenue is recognized when performance obligations are satisfied and the customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for goods or services. Under ASC 606, a contract's transaction price is allocated to each distinct performance obligation. To determine revenue recognition for arrangements that the Company determines are within the scope of ASC 606, the Company performs the following five steps: (i) identifies the contracts with a customer; (ii) identifies the performance obligations within the contract, including whether any performance obligations are distinct and capable of being distinct in the context of the contract; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations in the contract; and (v) recognizes revenue when, or as, the Company satisfies each performance obligation.

The Company's revenues from contracts with customers are discussed below. Customer payments for contracts are generally due within 30 days of billing and none of the contracts with customers have payment terms that exceed one year; therefore, the Company elected to apply the significant financing component practical expedient and no amount of consideration has been allocated as a financing component.

Regulated Businesses Revenue

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water and/or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer. The Company also recognizes revenue when it is probable that future recovery of previously incurred costs or future refunds that are to be credited to customers will occur through the ratemaking process.

Market-Based Businesses Revenue

The Company has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on various military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues, with billings in excess of revenues recorded as other current liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. See Note 5—Revenue Recognition for additional information.

Through various warranty protection programs and other home services, the Company previously provided fixed fee services to residential customers for interior and exterior water and sewer lines, interior electric and gas lines, heating and cooling systems, water heaters and other home appliances, as well as power surge protection and other related services through its former HOS business. Most of the contracts had a one-year term and each service was a separate performance obligation, satisfied over time, as the customers simultaneously received and consumed the benefits provided from the service. Customers were obligated to pay for the protection programs ratably over 12 months or via a one-time, annual fee, with revenues recognized ratably over time for those services. Advances from customers were deferred until the performance obligation was satisfied.

Income Taxes

The Company and its subsidiaries participate in a consolidated federal income tax return for U.S. tax purposes. Members of the consolidated group are charged with the amount of federal income tax expense determined as if they filed separate returns.

Certain income and expense items are accounted for in different time periods for financial reporting than for income tax reporting purposes. The Company provides deferred income taxes on the difference between the tax basis of assets and liabilities and the amounts at which they are carried in the financial statements. These deferred income taxes are based on the enacted tax rates expected to be in effect when these temporary differences are projected to reverse. In addition, the regulated utility subsidiaries recognize regulatory assets and liabilities for the effect on revenues expected to be realized as the tax effects of temporary differences, previously flowed through to customers, reverse.

Investment tax credits have been deferred by the regulated utility subsidiaries and are being amortized to income over the average estimated service lives of the related assets.

The Company recognizes accrued interest and penalties related to tax positions as a component of income tax expense and accounts for sales tax collected from customers and remitted to taxing authorities on a net basis. See Note 15—Income Taxes for additional information.

Allowance for Funds Used During Construction

AFUDC is a non-cash credit to income with a corresponding charge to utility plant that represents the cost of borrowed funds or a return on equity funds devoted to plant under construction. The regulated utility subsidiaries record AFUDC to the extent permitted by the PUCs. The portion of AFUDC attributable to borrowed funds is shown as a reduction of interest, net on the Consolidated Statements of Operations. Any portion of AFUDC attributable to equity funds would be included in other, net on the Consolidated Statements of Operations. Presented in the table below is AFUDC for the years ended December 31:

	2021	2020	2019
Allowance for other funds used during construction	$ 27	$ 30	$ 28
Allowance for borrowed funds used during construction	10	13	13

Environmental Costs

The Company's water and wastewater operations and the operations of its Market-Based Businesses are subject to U.S. federal, state, local and foreign requirements relating to environmental protection, and as such, the Company periodically becomes subject to environmental claims in the normal course of business. Environmental expenditures that relate to current operations or provide a future benefit are expensed or capitalized as appropriate. Remediation costs that relate to an existing condition caused by past operations are accrued, on an undiscounted basis, when it is probable that these costs will be incurred and can be reasonably estimated. A conservation agreement entered into by a subsidiary of the Company with the National Oceanic and Atmospheric Administration in 2010 and amended in 2017 required the subsidiary to, among other provisions, implement certain measures to protect the steelhead trout and its habitat in the Carmel River watershed in the State of California. The subsidiary agreed to pay $1 million annually commencing in 2010 with the final payment made in 2021. No remediation costs were accrued as of December 31, 2021 and $1 million was accrued as of December 31, 2020.

Derivative Financial Instruments

The Company uses derivative financial instruments primarily for purposes of hedging exposures to fluctuations in interest rates. These derivative contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

All derivatives are recognized on the balance sheet at fair value. On the date the derivative contract is entered into, the Company may designate the derivative as a hedge of the fair value of a recognized asset or liability (fair-value hedge) or a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash-flow hedge).

Changes in the fair value of a fair-value hedge, along with the gain or loss on the underlying hedged item, are recorded in current-period earnings. The gains and losses on the effective portion of cash-flow hedges are recorded in other comprehensive income, until earnings are affected by the variability of cash flows. Any ineffective portion of designated cash-flow hedges is recognized in current-period earnings.

Cash flows from derivative contracts are included in net cash provided by operating activities on the Consolidated Statements of Cash Flows. See Note 12—Long-Term Debt for additional information.

New Accounting Standards

Presented in the table below are new accounting standards that were adopted by the Company in 2021:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Facilitation of the Effects of Reference Rate Reform on Financial Reporting	Provided optional guidance for a limited time to ease the potential accounting burden associated with the transition from London Interbank Offered Rate ("LIBOR"). The guidance contains optional expedients and exceptions for contract modifications, hedging relationships, and other transactions that reference LIBOR or other reference rates expected to be discontinued. The expedients elected must be applied for all eligible contracts or transactions, with the exception of hedging relationships, which can be applied on an individual basis.	March 12, 2020 through December 31, 2022	Prospective for contract modifications and hedging relationships; applied as of January 1, 2020.	The standard did not have a material impact on the Consolidated Financial Statements.
Simplifying the Accounting for Income Taxes	The guidance removes exceptions related to the incremental approach for intraperiod tax allocation, the requirement to recognize a deferred tax liability for changes in ownership of a foreign subsidiary or equity method investment, and the general methodology for calculating income taxes in an interim period when the year-to-date loss exceeds the anticipated loss. The guidance adds requirements to reflect changes to tax laws or rates in the annual effective tax rate computation in the interim period in which the changes were enacted, to recognize franchise or other similar taxes that are partially based on income as an income-based tax and any incremental amounts as non-income-based tax, and to evaluate when a step up in the tax basis of goodwill should be considered part of the business combination in which the book goodwill was originally recognized and when it should be considered a separate transaction.	January 1, 2021	Modified retrospective for amendments related to changes in ownership of a foreign subsidiary or equity method investment; Modified retrospective or retrospective for amendments related to taxes partially based on income; Prospective for all other amendments.	The standard did not have a material impact on the Consolidated Financial Statements.

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of December 31, 2021:

Standard	Description	Date of Adoption	Application	Estimated Effect on the Consolidated Financial Statements
Accounting for Convertible Instruments and Contracts in an Entity's Own Equity	Simplification of financial reporting associated with accounting for convertible instruments and contracts in an entity's own equity. The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. This will result in fewer embedded conversion features being separately recognized from the host contract. Earnings per share ("EPS") calculations have been simplified for certain instruments.	January 1, 2022	Either modified retrospective or fully retrospective	The Company anticipates the adoption of the standard will not have a material impact on its Consolidated Financial Statements.
Disclosures by Business Entities about Government Assistance	The amendments in this update requires additional disclosures regarding government grants and contributions. These disclosures require information on the following three items about these government transactions to be provided: information on the nature of transactions and related accounting policy used to account for transactions, the line items on the balance sheet and income statement affected by these transactions including amounts applicable to each line, and significant terms and conditions of the transactions, including commitments and contingencies	January 1, 2022	Either prospective or retrospective	The Company is evaluating any impact on its Consolidated Financial Statements.
Accounting for Contract Asset and Contract Liabilities from Contracts with Customers	The guidance requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with ASC 606 as if it had originated the contracts.	January 1, 2023; early adoption permitted	Prospective	The Company is evaluating any impact on its Consolidated Financial Statements, as well as the timing of adoption.

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation. The Company reclassified $44 million relating to loss on the sale of Keystone Clearwater Solutions, LLC in 2019 from operating expenses to other income (expenses) included in Gain or (loss) on sale of businesses on the Consolidated Statements of Operations.

Note 3: Impact of the COVID-19 Pandemic

American Water continues to monitor the COVID-19 pandemic and has experienced financial impacts since the start of the pandemic resulting from lower revenues from the suspension of late fees and foregone reconnect fees in certain states, certain incremental O&M expenses, an increase in uncollectible accounts expense and additional debt costs. These impacts are collectively referred to as "financial impacts."

As of February 16, 2022, American Water has commission orders authorizing deferred accounting or cost recovery for COVID-19 financial impacts in 11 of 13 jurisdictions. Other regulatory actions to date are presented in the table below:

Commission Actions	Description	States
Orders issued with deferred accounting	Allows the Company to establish regulatory assets to record certain financial impacts related to the COVID-19 pandemic.	HI, IN, MD, NJ, PA, VA, WV
Orders issued with cost recovery	California's Catastrophic Event Memorandum Account allows the Company's California subsidiary to track certain financial impacts related to the COVID-19 pandemic for future recovery requests. Iowa issued a base rate case order on June 28, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred within its annual non-recurring expense rider. Illinois has authorized cost recovery of the COVID-19 financial impacts through a special purpose rider over a 24-month period, which was implemented effective October 1, 2020. Additionally, Illinois approved a bad debt rider tariff on December 16, 2020, allowing collection of actual bad debt expense over last authorized beginning April 2021 through February 2023. Illinois approved a stipulation in March 2021 to allow the rider to be extended through the end of 2023. Missouri issued a base rate case order on April 7, 2021, authorizing recovery in rates of the COVID-19 financial impacts deferred through March 31, 2021 over a three-year period.	CA, IA, IL, MO

The Company's Pennsylvania subsidiary filed for a request with the Pennsylvania Public Utility Commission (the "PaPUC") to defer as a regulatory asset all identified COVID-19 financial impacts. On September 15, 2021, the PaPUC issued an order approving the Company's request to defer, with carrying costs, incremental uncollectible expense and other incremental costs net of savings attributed to the COVID-19 pandemic. The PaPUC order denied the request to include lost revenues attributed to the waiver of late fees and reconnect fees and expenses associated with additional interest costs. Additionally, the PaPUC order approved the request to allow for the continuation of the deferral of financial impacts, rejecting proposals from the intervening parties to define an end date to the deferral in 2021. As a result of the order discussed above, the Company recorded a net $7 million reduction to its regulatory assets and corresponding impacts to revenue, interest expense and uncollectible expense during the third quarter of 2021. The Company continues to evaluate options within its next base rate case to address these denied items and the resulting financial impact.

On July 28, 2021, the Company's Tennessee subsidiary filed a stipulation and settlement agreement with the Consumer Advocate Unit in the Financial Division of the Office of the Tennessee Attorney General, which reflected agreement on the deferral of COVID-19-related financial impacts through April 30, 2021. On August 9, 2021, the Tennessee Public Utility Commission denied the stipulation and settlement agreement and moved to address the Company's Tennessee subsidiary's petition to defer the COVID-19 financial impacts in a future hearing. On August 26, 2021, the Company's Tennessee subsidiary filed a motion to withdraw its pending petition, preserving its right to seek recovery of the COVID-19 financial impacts in a future proceeding.

In December 2020, the Kentucky Public Service Commission issued an order denying a request to defer to a regulatory asset the financial impacts related to the COVID-19 pandemic.

Consistent with these regulatory orders, the Company has recorded $36 million in regulatory assets and $6 million of regulatory liabilities for the financial impacts related to the COVID-19 pandemic on the Consolidated Balance Sheets as of December 31, 2021.

As of February 16, 2022, one state, New Jersey, continues moratoria until March 15, 2022, on the suspension of service disconnections due to non-payment. The moratoria on disconnects have expired in 12 states.

Note 4: Regulatory Matters

General Rate Cases

Presented in the table below are annualized incremental revenues, excluding reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense, assuming a constant water sales volume, resulting from general rate cases authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
General rate cases by state (a):			
Iowa (effective October 11, 2021)	$ 1	$ —	$ —
Missouri (effective May 28, 2021)	22	—	—
Pennsylvania (effective January 28, 2021)	70	—	—
California (effective January 1, 2021, January 1, 2020 and May 11, 2019)	22	5	4
New Jersey (effective November 1, 2020)	—	54	—
Indiana (effective May 1, 2020 and July 1, 2019)	—	13	4
Kentucky (effective June 28, 2019)	—	—	13
West Virginia (effective February 25, 2019)	—	—	19
Maryland (effective February 5, 2019)	—	—	1
Total general rate case authorizations	$ 115	$ 72	$ 41

(a) Excludes authorized increases of $7 million and $4 million in 2021 and 2019, respectively, for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures for additional information.

On November 18, 2021, the California Public Utilities Commission (the "CPUC") unanimously approved a final decision in the test year 2021 general rate case filed by the Company's California subsidiary, which is retroactive to January 1, 2021. The Company's California subsidiary received authorization for additional annualized water and wastewater revenues of $22 million, excluding agreed to reductions for EADIT as a result of the Tax Cuts and Jobs Act of 2017 (the "TCJA"). The EADIT reduction in revenues is $4 million and is offset by a like reduction in income tax expense. On January 18, 2022, the Company's California subsidiary filed for approval of $13 million in 2022 escalation increases, excluding $4 million of reductions related to the TCJA. This filing, which is retroactive to January 1, 2022, is subject to CPUC approval with a 45-day review period.

On June 28, 2021, an order was issued authorizing an increase of $1 million in the general rate case filed by the Company's Iowa subsidiary in 2020. The Company's Iowa subsidiary filed tariffs consistent with the order on September 23, 2021. Effective October 11, 2021, the Iowa Utilities Board approved the tariffs and implemented the new rates.

On April 7, 2021, the Company's Missouri subsidiary was authorized additional annualized revenues of $22 million, effective May 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA. The EADIT reduction in revenues is $25 million and is offset by a like reduction in income tax expense. The protected EADIT balance of $72 million is being returned to customers using the average rate assumption method ("ARAM"), and the unprotected EADIT balance of $74 million is being returned to customers over 10 years. The $25 million EADIT reduction includes both the protected and unprotected catch-up period EADIT of $13 million. The catch-up period of January 1, 2018 through May 31, 2021 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over 2.5 years.

On March 2, 2021, an administrative law judge ("ALJ") in the Office of Administrative Law of New Jersey filed an initial decision with the New Jersey Board of Public Utilities (the "NJBPU") that recommended denial of a petition filed by the Company's New Jersey subsidiary, which sought approval of acquisition adjustments in rate base of $29 million associated with the acquisitions of Shorelands Water Company, Inc. in 2017 and the Borough of Haddonfield's water and wastewater systems in 2015. On July 29, 2021, the NJBPU issued an order adopting the ALJ's initial decision without modification. The Company's New Jersey subsidiary filed a Notice of Appeal with the New Jersey Appellate Division on September 10, 2021. A scheduling order was issued on October 18, 2021 establishing a briefing schedule through March 2022. There is no financial impact to the Company as a result of the NJBPU's order, since the acquisition adjustments are currently recorded as goodwill on the Consolidated Balance Sheets.

On February 25, 2021, the Company's Pennsylvania subsidiary was authorized additional annualized revenues of $90 million, effective January 28, 2021, excluding agreed to reductions for EADIT as a result of the TCJA, over two steps. The EADIT reduction in revenues is $19 million. The overall increase, net of TCJA reductions, is $71 million in revenues combined over two steps. The first step was effective January 28, 2021 in the amount of $70 million ($51 million including TCJA reductions) and the second step will be effective January 1, 2022 in the amount of $20 million. The protected EADIT balance of $200 million is being returned to customers using the ARAM, and the unprotected EADIT balance of $116 million is being returned to customers over 20 years. The $19 million annually includes both the protected and unprotected EADIT amortizations and a portion of catch-up period EADIT. A bill credit of $11 million annually for two years returns to customers the remainder of the EADIT catch-up period amortization. The catch-up period of January 1, 2018 through December 31, 2020 covers the period from when the lower federal corporate income tax rate went into effect until new base rates went into effect and will be amortized over two years.

Pending General Rate Case Filings

On February 10, 2022, the Company's Illinois subsidiary filed a general rate case requesting $71 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On January 14, 2022, the Company's New Jersey subsidiary filed a general rate case requesting $110 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges.

On December 1, 2021, the Company's Kentucky subsidiary filed a wastewater rate case requesting additional revenues of $1 million, excluding proposed reductions for EADIT as a result of TCJA. The Company requested a four-step rate increase for their wastewater operations with effective dates of June 1, 2022, June 1, 2023, June 1, 2024 and June 1, 2025 for annual amounts of less than $1 million each year. The Company filed their wastewater case under the alternative rate filing process for smaller utilities which calculates an operating ratio of 88% rather than a return on equity.

On November 15, 2021, the Company's Virginia subsidiary filed a general rate case requesting $15 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On August 18, 2021, the Company's Hawaii subsidiary filed a general rate case requesting $2 million in additional annualized revenues excluding proposed reductions for EADIT as a result of TCJA.

On April 30, 2021, the Company's West Virginia subsidiary filed a general rate case requesting $32 million in annualized incremental revenues excluding proposed reductions for EADIT as a result of TCJA and infrastructure surcharges. The proposed EADIT reduction in revenues is $1 million and the exclusion for infrastructure surcharges is $10 million. Intervenor testimony was received on September 20, 2021. The Company's rebuttal testimony was filed on October 5, 2021. Hearings were conducted on November 3 and 4, 2021. A final order is expected no later than February 24, 2022.

The Company's California subsidiary submitted its application on May 3, 2021 to set its cost of capital for 2022 through 2024. According to the CPUC's process, a decision is expected to be issued, setting the authorized cost of capital in the third quarter of 2022.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective during 2019 through 2021:

(In millions)	2021	2020	2019
Infrastructure surcharges by state (a):			
New Jersey (b)	$ 26	$ 20	$ 15
Missouri (c)	7	12	14
Kentucky (effective July 1, 2021 and July 1, 2020)	1	1	—
Indiana (effective March 17, 2021)	8	—	—
Pennsylvania (d)	8	27	11
Illinois (effective January 1, 2021, January 1, 2020 and January 1, 2019)	7	7	8
West Virginia (effective January 1, 2021, January 1, 2020 and January 1, 2019)	5	3	2
Tennessee (effective January 1, 2021, January 1, 2020 and September 1, 2019)	3	2	1
Total infrastructure surcharge authorizations	$ 65	$ 72	$ 51

(a) Excludes authorized increases of $2 million in 2019 for the Company's New York subsidiary, which was sold on January 1, 2022. See Note 6—Acquisitions and Divestitures for additional information.

(b) In 2021, $12 million was effective on December 30 and $14 million was effective June 28. In 2020, $10 million was effective June 29 and $10 million was effective January 1. In 2019, the effective date was July 1.

(c) In 2021, the effective date was October 7. In 2020, $2 million was effective December 14 and $10 million was effective June 27. In 2019, $5 million was effective December 21 and $9 million was effective June 24.

(d) In 2021, the effective date was January 1. In 2020, $8 million was effective October 1, $4 million was effective July 1, $5 million was effective April 1 and $10 million was effective January 1. In 2019, $6 million was effective October 1, $3 million was effective July 1 and $2 million was effective April 1.

Presented in the table below are annualized incremental revenues, assuming a constant water sales volume, resulting from infrastructure surcharge authorizations that became effective after January 1, 2022:

(In millions)	Amount
Infrastructure surcharge filings by state:	
Illinois (effective January 1, 2022)	$ 6
Missouri (effective February 1, 2022)	12
Total infrastructure surcharge filings	$ 18

Pending Infrastructure Surcharge Filings

On January 19, 2022, the Company's Indiana subsidiary filed for infrastructure surcharges requesting $8 million in additional annualized revenues.

On June 30, 2021, the Company's West Virginia subsidiary filed for an infrastructure surcharge requesting $3 million in additional annualized revenues.

Regulatory Assets

Regulatory assets represent costs that are probable of recovery from customers in future rates. Approximately 50% of the Company's total regulatory asset balance at December 31, 2021 earns a return. Presented in the table below is the composition of regulatory assets as of December 31:

	2021	2020
Deferred pension expense	$ 323	$ 374
Removal costs recoverable through rates	313	314
Regulatory balancing accounts	52	57
Other	439	446
Less: Regulatory assets included in assets held for sale (a)	(76)	(64)
Total regulatory assets	$ 1,051	$ 1,127

(a) These regulatory assets are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

The Company's deferred pension expense includes a portion of the underfunded status that is probable of recovery through rates in future periods of $317 million and $366 million as of December 31, 2021 and 2020, respectively. The remaining portion is the pension expense in excess of the amount contributed to the pension plans which is deferred by certain subsidiaries and will be recovered in future service rates as contributions are made to the pension plan.

Removal costs recoverable through rates represent costs incurred for removal of property, plant and equipment or other retirement costs.

Regulatory balancing accounts accumulate differences between revenues recognized and authorized revenue requirements until they are collected from customers or are refunded. Regulatory balancing accounts include low income programs and purchased power and water accounts.

Other regulatory assets include the financial impacts relating to the COVID-19 pandemic, purchase premium recoverable through rates, tank painting costs, certain construction costs for treatment facilities, property tax stabilization, employee-related costs, business services project expenses, coastal water project costs, rate case expenditures and environmental remediation costs among others. These costs are deferred because the amounts are being recovered in rates or are probable of recovery through rates in future periods.

The Company has current regulatory assets of $16 million and $13 million included in other current assets on the Consolidated Balance Sheet as of December 31, 2021 and 2020, respectively, which is primarily made up of deferred vacation pay.

Regulatory Liabilities

Regulatory liabilities generally represent amounts that are probable of being credited or refunded to customers through the rate making process. Also, if costs expected to be incurred in the future are currently being recovered through rates, the Company records those expected future costs as regulatory liabilities. Presented in the table below is the composition of regulatory liabilities as of December 31:

	2021	2020
Income taxes recovered through rates	$ 1,093	$ 1,230
Removal costs recovered through rates	291	301
Postretirement benefit liability	153	170
Other	110	111
Less: Regulatory liabilities included in liabilities related to assets held for sale (a)	(47)	(42)
Total regulatory liabilities	$ 1,600	$ 1,770

(a) These regulatory liabilities are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Income taxes recovered through rates relate to deferred taxes that will likely be refunded to the Company's customers. On December 22, 2017, the TCJA was signed into law, which, among other things, enacted significant and complex changes to the Internal Revenue Code of 1986, as amended (the "Code"), including a reduction in the federal corporate income tax rate from 35% to 21% as of January 1, 2018. The enactment of the TCJA required a re-measurement of the Company's deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT will be used to benefit its regulated customers in future rates. Twelve of the Company's regulated subsidiaries are amortizing EADIT and crediting customers. The Company expects the timing of the amortization of EADIT credits for the one remaining regulated subsidiary to be addressed in a pending or future rate case or other proceedings.

Removal costs recovered through rates are estimated costs to retire assets at the end of their expected useful lives that are recovered through customer rates over the lives of the associated assets.

On August 31, 2018, the Postretirement Medical Benefit Plan was remeasured to reflect an announced plan amendment which changed benefits for certain union and non-union plan participants. As a result of the remeasurement, the Company recorded a $227 million reduction to the net accumulated postretirement benefit obligation, with a corresponding regulatory liability.

Other regulatory liabilities include the financial impacts relating to the COVID-19 pandemic, TCJA reserve on revenue, pension and other postretirement benefit balancing accounts, legal settlement proceeds, deferred gains and various regulatory balancing accounts.

The Company has current regulatory liabilities of $8 million and $6 million included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2021 and 2020, respectively, which primarily is made up of TCJA reserve on revenue.

Note 5: Revenue Recognition

Disaggregated Revenues

Presented in the table below are operating revenues disaggregated for the year ended December 31, 2021:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 1,935	$ —	$ 1,935
Commercial	676	—	676
Fire service	151	—	151
Industrial	141	—	141
Public and other	230	—	230
Total water services	3,133	—	3,133
Wastewater services:			
Residential	151	—	151
Commercial	37	—	37
Industrial	4	—	4
Public and other	16	—	16
Total wastewater services	208	—	208
Miscellaneous utility charges	26	—	26
Alternative revenue programs	—	9	9
Lease contract revenue	—	8	8
Total Regulated Businesses	3,367	17	3,384
Market-Based Businesses	563	—	563
Other	(16)	(1)	(17)
Total operating revenues	$ 3,914	$ 16	$ 3,930

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the year ended December 31, 2020:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 1,895	$ —	$ 1,895
Commercial	627	—	627
Fire service	147	—	147
Industrial	133	—	133
Public and other	201	—	201
Total water services	3,003	—	3,003
Wastewater services:

Total Regulated Businesses	3,070	24	3,094
Market-Based Businesses	539	—	539
Other	(22)	(1)	(23)
Total operating revenues	$ 3,587	$ 23	$ 3,610

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings and cash collections. In the Company's Market-Based Businesses, certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $71 million, $39 million and $13 million are included in unbilled revenues on the Consolidated Balance Sheets as of December 31, 2021, 2020 and 2019, respectively. There were $71 million of contract assets added during 2021, and $39 million of contract assets were transferred to accounts receivable during 2021. There were $60 million of contract assets added during 2020, and $34 million of contract assets were transferred to accounts receivable during 2020.

Contract liabilities of $19 million, $35 million and $27 million are included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2021, 2020 and 2019, respectively. There were $152 million of contract liabilities added during 2021, and $168 million of contract liabilities were recognized as revenue during 2021. There were $120 million of contract liabilities added during 2020, and $112 million of contract liabilities were recognized as revenue during 2020.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of December 31, 2021, the Company's O&M and capital improvement contracts in the Market-Based Businesses have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2071 and have RPOs of $6.2 billion as of December 31, 2021, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2022 and 2038 and have RPOs of $584 million as of December 31, 2021, as measured by estimated remaining contract revenue. Some of the Company's long-term contracts to operate and maintain the federal government's, a municipality's or other party's water or wastewater treatment and delivery facilities include responsibility for certain maintenance for some of those facilities, in exchange for an annual fee. Unless specifically required to perform certain maintenance activities, the maintenance costs are recognized when the maintenance is performed.

Note 6: Acquisitions and Divestitures

Regulated Businesses

Acquisitions

During 2021, the Company closed on 23 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $112 million, which added approximately 20,000 water and wastewater customers, including the acquisitions of the East Pasadena Water Company in California on September 23, 2021 for $34 million, the water and wastewater system assets of Valley Township in Pennsylvania on November 19, 2021 for $21 million and the Lowell water system in Indiana on December 28, 2021 for $25 million. Assets acquired from these acquisitions, principally utility plant, totaled $114 million and liabilities assumed totaled $2 million. Several of these acquisitions were accounted for as business combinations. The preliminary purchase price allocations related to acquisitions accounted for as business combinations will be finalized once the valuation of assets acquired has been completed, no later than one year after their acquisition date.

On April 6, 2021, the Company's Pennsylvania subsidiary entered into an agreement to acquire the wastewater assets of the York City Sewer Authority for $235 million, plus an amount of average daily revenue calculated for the period between the final meter reading and the date of closing. This system, directly and indirectly through bulk contracts, serves more than 45,000 customers. In connection with the execution of the acquisition agreement, the Company's Pennsylvania subsidiary paid a $20 million deposit to the seller on April 30, 2021, which is refundable in the event the agreement is terminated prior to closing of the acquisition. The Company expects to close this acquisition in the first half of 2022, pending regulatory approval.

On March 29, 2021, the Company's New Jersey subsidiary entered into an agreement to acquire the water and wastewater assets of Egg Harbor City for $22 million. The water and wastewater systems currently serve approximately 1,500 customers each, or 3,000 combined, and are being sold through the New Jersey Water Infrastructure Protection Act process. The Company expects to close this acquisition in the second half of 2022, pending regulatory approval.

During 2020, the Company closed on 23 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $135 million. Assets acquired from these acquisitions, principally utility plant, totaled $159 million and liabilities assumed totaled $29 million, including $21 million of contributions in aid of construction and assumed debt of $7 million. The Company recorded additional goodwill of $5 million associated with two of its acquisitions, which is reported in its Regulated Businesses segment.

During 2019, the Company closed on 21 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $235 million. Assets acquired from these acquisitions, principally utility plant, totaled $237 million and liabilities assumed, primarily contributions in aid of construction, totaled $5 million. The Company recorded additional goodwill of $3 million associated with three of its acquisitions, which is reported in its Regulated Businesses segment.

Assets Held for Sale

On January 1, 2022, the Company completed the previously disclosed sale of its regulated utility operations in New York to Liberty Utilities (Eastern Water Holdings) Corp. ("Liberty"), an indirect, wholly owned subsidiary of Algonquin Power & Utilities Corp. Liberty purchased from the Company all of the capital stock of the Company's New York subsidiary for a purchase price of $608 million in cash. The sale was approved by the New York State Department of Public Service on December 16, 2021. The Company's regulated New York operations represented approximately 127,000 customers in the State of New York. The assets and related liabilities of the New York subsidiary were classified as held for sale on the Consolidated Balance Sheets as of December 31, 2021 and 2020.

Presented in the table below are the components of assets held for sale and liabilities related to assets held for sale of the New York subsidiary as of December 31, 2021:

	December 31, 2021
Property, plant and equipment	$ 556
Current assets	18
Regulatory assets	76
Goodwill	27
Other assets	6
Assets held for sale	$ 683
Current liabilities	13
Regulatory liabilities	47
Other liabilities	23
Liabilities related to assets held for sale	$ 83

Sale of Michigan American Water Company

On February 4, 2022, the Company completed the sale of its operations in Michigan for approximately $6 million.

Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised HOS to a wholly owned subsidiary of funds advised by Apax Partners LLP, a global private equity advisory firm (the "Buyer"), for total consideration of approximately $1.275 billion, resulting in pre-tax gain on sale of $748 million. The consideration is comprised of $480 million in cash, a seller promissory note issued by the Buyer in the principal amount of $720 million, and a contingent cash payment of $75 million payable upon satisfaction of certain conditions on or before December 31, 2023. See Note 19—Fair Value of Financial Information for additional information relating to the seller promissory note and contingent cash payment.

The seller note has a five-year term, is payable in cash, and bears interest at a rate of 7.00% per year during the term. The repayment obligations of the Buyer under the seller note have been secured by a first priority security interest in certain property of the Buyer and the former HOS subsidiaries, including their cash and securities accounts, as well as a pledge of the equity interests in each of those subsidiaries, subject to certain limitations and exceptions. The seller note requires compliance with affirmative and negative covenants (subject to certain conditions, limitations and exceptions), including a covenant limiting the incurrence by the Buyer and certain affiliates of additional indebtedness in excess of certain thresholds, but does not include any financial maintenance covenants.

Beginning December 9, 2024, the Company has a put right pursuant to which it may require the seller note to be repaid in full at par, plus accrued and unpaid interest, except that upon the occurrence of a disruption event in the broadly syndicated term loan "B" debt financing market, repayment by the Buyer pursuant to the Company's exercise of the put right will be delayed until the market disruption event ends.

The seller note may not be prepaid at the Buyer's election except in certain limited circumstances before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the seller note in breach of this non-call provision, an event of default will occur under the seller note and the Company may, among other actions, demand repayment in full together with a premium ranging from 105.5% to 107.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

The Company and the Buyer also entered into a revenue share agreement, pursuant to which the Company is to receive 10% of the revenue generated from customers who are billed for home warranty services through an applicable Company subsidiary (an "on-bill" arrangement), and 15% of the revenue generated from any future on-bill arrangements entered into after the closing. Unless earlier terminated, this agreement has a term of up to 15 years, which may be renewed for up to two five-year periods.

The pro forma impact of the Company's divestitures was not material to the Consolidated Statements of Operations for the years ended December 31, 2021, 2020 and 2019.

Note 7: Property, Plant and Equipment

Presented in the table below are the major classes of property, plant and equipment by category as of December 31:

	2021	2020	Range of Remaining Useful Lives	Weighted Average Useful Life
Utility plant:				
Land and other non-depreciable assets	$ 210	$ 174		
Sources of supply	938	897	2 to 127 years	46 years
Treatment and pumping facilities	4,198	3,984	3 to 111 years	39 years
Transmission and distribution facilities	12,308	11,457	9 to 130 years	69 years
Services, meters and fire hydrants	4,888	4,555	5 to 90 years	31 years
General structures and equipment	2,200	2,003	1 to 109 years	15 years
Waste collection	1,363	1,288	5 to 113 years	58 years
Waste treatment, pumping and disposal	912	859	2 to 139 years	38 years
Construction work in progress	934	837		
Less: Utility plant included in assets held for sale (a)	(664)	(646)		
Total utility plant	27,287	25,408		
Nonutility property	126	211	3 to 50 years	6 years
Less: Nonutility plant included in assets held for sale (a)	—	(5)		
Total property, plant and equipment	$ 27,413	$ 25,614		

(a) This property, plant and equipment is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Property, plant and equipment depreciation expense amounted to $550 million, $520 million and $508 million for the years ended December 31, 2021, 2020 and 2019, respectively and was included in depreciation and amortization expense on the Consolidated Statements of Operations. The provision for depreciation expressed as a percentage of the aggregate average depreciable asset balances was 2.77%, 2.82% and 2.96% for years December 31, 2021, 2020 and 2019, respectively. Additionally, the Company had capital expenditures acquired on account but unpaid of $292 million and $221 million included in accrued liabilities on the Consolidated Balance Sheets as of December 31, 2021 and 2020, respectively.

In 2019, the Company completed and submitted its project completion certification to the New Jersey Economic Development Authority ("NJEDA") in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The NJEDA determined that the Company is qualified to receive $164 million in tax credits over a ten-year period. The Company is required to meet various annual requirements in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15. The Company has made the necessary annual filings for the years ended December 31, 2019 and 2020 and expects to file the 2021 filing by April 30, 2022. As a result, the Company had receivables of $49 million and $115 million in other current assets and other long-term assets, respectively, on the Consolidated Balance Sheets as of December 31, 2021. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the credits in the first half of 2022.

In March 2020, in connection with the COVID-19 pandemic, the NJEDA, pursuant to Executive Order 103 - State of Emergency and a Public Health Emergency, temporarily waived the requirement that a full-time employee must spend at least 80% of his or her time at the qualified business facility ("QBF") to meet the definition of eligible position or full-time job. The waiver will continue for as long as New Jersey's Executive Order 281 is valid. On July 2, 2021, New Jersey's Governor approved a bill that revised provisions of the Economic Recovery Act of 2020 and other economic development programs, including amending the definition of an eligible position and full-time job in the Grow New Jersey Program and replacing the 80% requirement of time spent at the QBF. The bill states that an eligible position is one that is filled by a full-time employee who has their primary office at the QBF and spends at least 60% of their time at the QBF. The bill specifically states that it supersedes the existing regulations and existing incentive agreements that require an eligible employee spend at least 80% of their time at the QBF.

Note 8: Allowance for Uncollectible Accounts

Presented in the table below are the changes in the allowances for uncollectible accounts for the years ended December 31:

	2021	2020	2019
Balance as of January 1	$ (60)	$ (41)	$ (45)
Amounts charged to expense	(37)	(34)	(28)
Amounts written off	17	12	32
Less: Allowance for uncollectible accounts included in assets held for sale (a)	5	3	—
Balance as of December 31	$ (75)	$ (60)	$ (41)

(a) This portion of the allowance for uncollectible accounts is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Note 9: Goodwill and Other Intangible Assets

Goodwill

Presented in the table below are the changes in the carrying value of goodwill for the years ended December 31, 2021 and 2020:

	Regulated Businesses		Market-Based Businesses		Consolidated		
	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Total Net
Balance as of January 1, 2020	$ 3,497	$ (2,332)	$ 483	$ (108)	$ 3,980	$ (2,440)	$ 1,540
Goodwill from acquisitions	5	—	—	—	5	—	5
Measurement period adjustments	(2)	—	—	—	(2)	—	(2)
Less: Goodwill included in assets held for sale (a)	(39)	—	—	—	(39)	—	(39)
Balance as of December 31, 2020	$ 3,461	$ (2,332)	$ 483	$ (108)	$ 3,944	$ (2,440)	$ 1,504
Measurement period adjustments	(7)	—	—	—	(7)	—	(7)
Goodwill included in assets held for sale (a)	12	—	—	—	12	—	12
Goodwill reduced through sale of HOS	—	—	(370)	—	(370)	—	(370)
Balance as of December 31, 2021	$ 3,466	$ (2,332)	$ 113	$ (108)	$ 3,579	$ (2,440)	$ 1,139

(a) This goodwill is related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and is included in assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

In 2021, the Company reduced goodwill by $370 million included in Market-Based Businesses through the sale of HOS. See Note 6—Acquisitions and Divestitures for additional information relating to the sale of HOS.

The Company completed its annual impairment testing of goodwill as of November 30, 2021, which included qualitative assessments of its Regulated Businesses and MSG reporting units. Based on these assessments, the Company determined that there were no factors present that would indicate that the fair value of these reporting units was less than their respective carrying values as of November 30, 2021.

In 2020, the Company acquired goodwill of $5 million associated with two of its acquisitions in the Regulated Businesses segment.

Intangible Assets

The Company held finite-lived intangible assets, including customer relationships and other intangible assets prior to the sale of HOS during the fourth quarter of 2021. All of the Company's finite-lived intangible assets were sold as part of the HOS sale transaction. As a result, there was no gross carrying value or net book value of customer relationships and other intangible assets remaining as of December 31, 2021. The gross carrying value of customer relationships and other intangible assets as of December 31, 2020 was $78 million and $13 million, respectively. Accumulated amortization of customer relationships and other intangible assets was $29 million and $7 million, respectively, as of December 31, 2020. Intangible asset amortization expense amounted to $9 million, $12 million and $14 million for the years ended December 31, 2021, 2020 and 2019, respectively. Amortization expense related to customer relationships and other intangible assets was $7 million and $2 million, respectively, for the year ended December 31, 2021.

Note 10: Shareholders' Equity

Common Stock

Under the Company's dividend reinvestment and direct stock purchase plan (the "DRIP"), shareholders may reinvest cash common stock dividends and purchase additional shares of Company common stock, up to certain limits, through the plan administrator without paying brokerage commissions. Shares purchased by participants through the DRIP may be newly issued shares, treasury shares, or at the Company's election, shares purchased by the plan administrator in the open market or in privately negotiated transactions. Purchases generally will be made and credited to DRIP accounts once each week. As of December 31, 2021, there were approximately 5.1 million shares available for future issuance under the DRIP.

Anti-dilutive Stock Repurchase Program

In February 2015, the Company's Board of Directors authorized an anti-dilutive stock repurchase program, which allows the Company to purchase up to 10 million shares of its outstanding common stock from time to time over an unrestricted period of time. The Company did not repurchase shares of common stock during the years ended December 31, 2021 and 2020. As of December 31, 2021, there were 5.1 million shares of common stock available for purchase under the program.

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the years ended December 31, 2021 and 2020:

	Defined Benefit Plans				
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedge	Accumulated Other Comprehensive Loss
Beginning balance as of January 1, 2020	$ (94)	$ 1	$ 60	$ (3)	$ (36)
Other comprehensive income (loss) before reclassification	(12)	—	—	(4)	(16)
Amounts reclassified from accumulated other comprehensive loss	—	—	3	—	3
Net other comprehensive income (loss)	(12)	—	3	(4)	(13)
Ending balance as of December 31, 2020	$ (106)	$ 1	$ 63	$ (7)	$ (49)
Other comprehensive income (loss) before reclassification	(1)	—	—	1	—
Amounts reclassified from accumulated other comprehensive loss	—	—	4	—	4
Net other comprehensive income (loss)	(1)	—	4	1	4
Ending balance as of December 31, 2021	$ (107)	$ 1	$ 67	$ (6)	$ (45)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive loss directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 16—Employee Benefits for additional information.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in interest, net in the accompanying Consolidated Statements of Operations.

Dividends and Distributions

The Company's Board of Directors authorizes the payment of dividends. The Company's ability to pay dividends on its common stock is subject to having access to sufficient sources of liquidity, net income and cash flows of the Company's subsidiaries, the receipt of dividends and direct and indirect distributions from, and repayments of indebtedness of, the Company's subsidiaries, compliance with Delaware corporate and other laws, compliance with the contractual provisions of debt and other agreements and other factors.

The Company's dividend rate on its common stock is determined by the Board of Directors on a quarterly basis and takes into consideration, among other factors, current and possible future developments that may affect the Company's income and cash flows. When dividends on common stock are declared, they are typically paid in March, June, September and December. Historically, dividends have been paid quarterly to holders of record less than 30 days prior to the distribution date. Since the dividends on the Company's common stock are not cumulative, only declared dividends are paid.

During 2021, 2020 and 2019, the Company paid $428 million, $389 million and $353 million in cash dividends, respectively. Presented in the table below is the per share cash dividends paid for the years ended December 31:

	2021	2020	2019
December	$ 0.6025	$ 0.55	$ 0.50
September	$ 0.6025	$ 0.55	$ 0.50
June	$ 0.6025	$ 0.55	$ 0.50
March	$ 0.55	$ 0.50	$ 0.455

On December 9, 2021, the Company's Board of Directors declared a quarterly cash dividend payment of $0.6025 per share payable on March 1, 2022, to shareholders of record as of February 8, 2022.

Under applicable law, the Company's subsidiaries may pay dividends on their capital stock or other equity only from retained, undistributed or current earnings. A significant loss recorded at a subsidiary may limit the amount of the dividend that the subsidiary can pay. The ability of the Company's subsidiaries to pay upstream dividends, make other upstream distributions or repay indebtedness to parent company or American Water Capital Corp. ("AWCC"), the Company's wholly owned financing subsidiary, as applicable, is subject to compliance with applicable corporate, tax and other laws, regulatory restrictions and financial and other contractual obligations, including, for example, (i) regulatory capital, surplus or net worth requirements, (ii) outstanding debt service obligations, (iii) requirements to make preferred and preference stock dividend payments, and (iv) other contractual agreements, covenants or obligations made or entered into by the Company and its subsidiaries.

Regulatory Restrictions on Indebtedness

The issuance of long-term debt or equity securities by the Company or long-term debt by AWCC does not require authorization of any state PUC if no guarantee or pledge of the regulated subsidiaries is utilized. Based on the needs of the Regulated Businesses and parent company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide these borrowings to the Regulated Businesses or parent company. PUC authorization is generally required for the regulated subsidiaries to incur long-term debt. The Company's regulated subsidiaries normally obtain these required PUC authorizations on a periodic basis to cover their anticipated financing needs for a period of time, or, as necessary, in connection with a specific financing or refinancing of debt.

Note 11: Stock Based Compensation

The Company has granted stock options, stock units and dividend equivalents to non-employee directors, officers and other key employees of the Company pursuant to the terms of its 2007 Omnibus Equity Compensation Plan (the "2007 Plan"). Stock units under the 2007 Plan generally vest based on (i) continued employment with the Company ("RSUs"), or (ii) continued employment with the Company where distribution of the shares is subject to the satisfaction in whole or in part of stated performance-based goals ("PSUs"). The 2007 Plan has been replaced by the 2017 Omnibus Plan, as defined below, and no additional awards may be granted under the 2007 Plan. However, shares may still be issued under the 2007 Plan pursuant to the terms of awards previously issued under that plan prior to May 12, 2017.

In May 2017, the Company's shareholders approved the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "2017 Omnibus Plan"). The Company has granted stock units, including RSUs and PSUs, stock awards and dividend equivalents to non-employee directors, officers and employees under the 2017 Omnibus Plan. A total of 7.2 million shares of common stock may be issued under the 2017 Omnibus Plan. As of December 31, 2021, 6.5 million shares were available for grant under the 2017 Omnibus Plan. The 2017 Omnibus Plan provides that grants of awards may be in any of the following forms: incentive stock options, nonqualified stock options, stock appreciation rights, stock units, stock awards, other stock-based awards and dividend equivalents. Dividend equivalents may be granted only on stock units or other stock-based awards. The 2017 Omnibus Plan expires in 2027.

The cost of services received from employees in exchange for the issuance of stock options and restricted stock awards is measured based on the grant date fair value of the awards issued. The value of stock options and stock unit awards at the date of the grant is amortized through expense over the requisite service period. All awards granted in 2021, 2020 and 2019 are classified as equity. The Company recognizes compensation expense for stock awards over the vesting period of the award. The Company stratified its grant populations and used historic employee turnover rates to estimate employee forfeitures. The estimated rate is compared to the actual forfeitures at the end of the reporting period and adjusted as necessary. There have been no significant adjustments to the forfeiture rates during 2021, 2020 and 2019. There were no grants of stock options to employees after 2016, and the remaining stock options outstanding as of December 31, 2021 were not material. Presented in the table below is the stock-based compensation expense recorded in O&M expense in the accompanying Consolidated Statements of Operations for the years ended December 31:

	2021	2020	2019
RSUs and PSUs	$ 15	$ 19	$ 15
Nonqualified employee stock purchase plan	2	2	2
Stock-based compensation	17	21	17
Income tax benefit	(4)	(5)	(4)
Stock-based compensation expense, net of tax	$ 13	$ 16	$ 13

There were no significant stock-based compensation costs capitalized during the years ended December 31, 2021, 2020 and 2019.

Subject to limitations on deductibility imposed by the Federal income tax code, the Company receives a tax deduction based on the intrinsic value of the award at the exercise date for stock options and the distribution date for stock units. For each award, throughout the requisite service period, the Company records the tax impacts related to compensation costs as deferred income tax assets. The tax deductions in excess of the deferred benefits recorded throughout the requisite service period are recorded to the Consolidated Statements of Operations and are presented in the financing section of the Consolidated Statements of Cash Flows.

Stock Units

During 2021, 2020 and 2019, the Company granted RSUs to certain employees under the 2017 Omnibus Plan. RSUs generally vest based on continued employment with the Company over periods ranging from one to three years.

During 2021, 2020 and 2019, the Company granted stock units to non-employee directors under the 2017 Omnibus Plan. The stock units were vested in full on the date of grant; however, distribution of the shares will be made within 30 days of the earlier of (i) 15 months after the date of the last annual meeting of shareholders, subject to any deferral election by the director, or (ii) the participant's separation from service. Because these stock units vested on the grant date, the total grant date fair value was recorded in operation and maintenance expense on the grant date.

The RSUs are valued at the closing price of the Company's common stock on the date of the grant and the majority vest ratably over a three-year service period. These RSUs are amortized through expense over the requisite service period using the straight-line method.

Presented in the table below is RSU activity for the year ended December 31, 2021:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2020	92	$ 100.39
Granted	45	158.54
Vested	(76)	122.26
Forfeited	(13)	128.93
Non-vested total as of December 31, 2021	48	$ 112.22

As of December 31, 2021, $3 million of total unrecognized compensation cost related to the nonvested RSUs is expected to be recognized over the weighted average remaining life of 1.33 years. The total fair value of stock units and RSUs vested was $9 million, $5 million and $4 million for the years ended December 31, 2021, 2020 and 2019, respectively.

During 2021, 2020 and 2019, the Company granted PSUs to certain employees under the 2017 Omnibus Plan. The majority of PSUs vest ratably based on continued employment with the Company over the three-year performance period (the "Performance Period"). Distribution of the performance shares is contingent upon the achievement of one or more internal performance measures and, separately, a relative total shareholder return performance measure, over the Performance Period.

Presented in the table below is PSU activity for the year ended December 31, 2021:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2020	293	$ 105.70
Granted	145	128.30
Vested	(186)	75.47
Forfeited	(20)	159.99
Non-vested total as of December 31, 2021	232	$ 139.40

As of December 31, 2021, $3 million of total unrecognized compensation cost related to the nonvested PSUs is expected to be recognized over the weighted average remaining life of 0.71 years. The total fair value of PSUs vested was $22 million, $18 million and $14 million for the years ended December 31, 2021, 2020 and 2019, respectively.

PSUs granted with one or more internal performance measures are valued at the market value of the closing price of the Company's common stock on the date of grant. PSUs granted with a relative total shareholder return condition are valued using a Monte Carlo simulation model. Expected volatility is based on historical volatilities of traded common stock of the Company and comparative companies using daily stock prices over the past three years. The expected term is three years and the risk-free interest rate is based on the three-year U.S. Treasury rate in effect as of the measurement date. Presented in the table below are the weighted average assumptions used in the Monte Carlo simulation and the weighted average grant date fair values of PSUs granted for the years ended December 31:

	2021	2020	2019
Expected volatility	28.59%	16.65%	16.80%
Risk-free interest rate	0.22%	1.28%	2.47%
Expected life (years)	3.0	3.0	3.0
Grant date fair value per share	$229.22	$159.64	$110.37

The grant date fair value of PSUs that vest ratably and have market and/or performance conditions are amortized through expense over the requisite service period using the graded-vesting method.

Employee Stock Purchase Plan

The Company maintains a nonqualified employee stock purchase plan (the "ESPP") that expires in 2027 through which employee participants (other than the Company's executive officers) may use payroll deductions to acquire Company common stock at a purchase price of 85% of the fair market value of the common stock at the end of a three-month purchase period. A total of 2.0 million shares may be issued under the ESPP, and as of December 31, 2021, there were 1.6 million shares of common stock reserved for issuance under the ESPP. The ESPP is considered compensatory. During the years ended December 31, 2021, 2020 and 2019, the Company issued 80 thousand, 86 thousand and 88 thousand shares, respectively, under the ESPP.

Note 12: Long-Term Debt

The Company obtains long-term debt through AWCC primarily to fund capital expenditures of the Regulated Businesses and to lend funds to parent company to refinance debt and for other purposes. Presented in the table below are the components of long-term debt as of December 31:

	Rate	Weighted Average Rate	Maturity	2021	2020
Long-term debt of AWCC: (a)					
Senior notes—fixed rate	2.30%-8.27%	3.83%	2023-2051	$ 8,965	$ 8,191
Private activity bonds and government funded debt—fixed rate	0.60%-2.45%	1.63%	2023-2031	190	191
Long-term debt of other American Water subsidiaries:					
Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.70%	2022-2048	739	735
Mortgage bonds—fixed rate	6.35%-9.19%	7.36%	2023-2039	534	565
Mandatorily redeemable preferred stock	8.47%-9.75%	8.60%	2024-2036	4	5
Finance lease obligations	12.25%	12.25%	2026	1	1
Long-term debt				10,433	9,688
Unamortized debt (discount) premium, net (b)				(9)	(4)
Unamortized debt issuance costs				(23)	(22)
Less current portion of long-term debt				(57)	(329)
Total long-term debt				$ 10,344	$ 9,333

(a) This indebtedness is considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness.

(b) Includes debt discount, net of fair value adjustments previously recognized in acquisition purchase accounting.

All mortgage bonds and $738 million of the private activity bonds and government funded debt held by the Company's subsidiaries were collateralized as of December 31, 2021.

Long-term debt indentures contain a number of covenants that, among other things, limit, subject to certain exceptions, AWCC from issuing debt secured by the Company's consolidated assets. Certain long-term notes require the Company to maintain a ratio of consolidated total indebtedness to consolidated total capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2021 was 0.60 to 1.00. In addition, the Company has $859 million of notes which include the right to redeem the notes at par value, in whole or in part, from time to time, subject to certain restrictions, with a weighted average interest rate of 1.84%.

Presented in the table below are future sinking fund payments and debt maturities:

	Amount
2022	$ 57
2023	280
2024	474
2025	597
2026	441
Thereafter	8,584

Presented in the table below are the issuances of long-term debt in 2021:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Senior notes—fixed rate	2.30%-3.25%	2.78%	2031-2051	$ 1,100
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.04%	2022-2047	18
Total issuances					$ 1,118

The Company incurred debt issuance costs of $11 million related to the above issuances.

Presented in the table below are the retirements and redemptions of long-term debt in 2021 through sinking fund provisions, optional redemption or payment at maturity:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Private activity bonds and government funded debt—fixed rate	1.79%-6.55%	5.94%	2021-2031	$ 327
Other American Water subsidiaries	Private activity mortgage bonds	9.13%-9.69%	9.52%	2021	31
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.50%	1.38%	2021-2048	13
Other American Water subsidiaries	Mandatory redeemable preferred stock	8.49%-8.49%	8.49%	2022-2022	1
Total retirements and redemptions					$ 372

On May 10, 2021, AWCC completed a $1.1 billion debt offering which included the sale of $550 million aggregate principal amount of its 2.30% senior notes due 2031 and $550 million aggregate principal amount of its 3.25% senior notes due 2051. At the closing of the offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of $1,086 million. AWCC used the net proceeds of this offering: (i) to lend funds to parent company and its regulated subsidiaries; (ii) to prepay $251 million aggregate principal amount of AWCC's outstanding 5.77% Series D Senior Notes due December 21, 2021 (the "Series D Notes") and $76 million aggregate principal amount of AWCC's outstanding 6.55% Series H Senior Notes due May 15, 2023 (the "Series H Notes," and together with the Series D Notes, the "Series Notes"); (iii) to repay AWCC's commercial paper obligations; and (iv) for general corporate purposes. After the prepayments described above, none of the Series D Notes, and approximately $14 million aggregate principal amount of the Series H Notes, remain outstanding. As a result of AWCC's prepayment of the Series Notes, a make-whole premium of $15 million was paid to the holders thereof on June 14, 2021. Substantially all of the early debt extinguishment costs were allocable to the Company's utility subsidiaries and recorded as regulatory assets, as the Company believes they are probable of recovery in future rates.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as swaps. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations and minimizes this risk by dealing only with leading, creditworthy financial institutions having long-term credit ratings of "A" or better.

On May 6, 2021, the Company entered into two 10-year treasury lock agreements, with notional amounts of $125 million and $150 million, to reduce interest rate exposure on debt, which was subsequently issued on May 10, 2021. These treasury lock agreements had an average fixed rate of 1.58%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss. On May 10, 2021, the Company terminated these two treasury lock agreements with an aggregate notional amount of $275 million, realizing a net gain of less than $1 million, to be amortized through interest, net over a 10-year period, in accordance with the terms of the $1.1 billion new debt issued on May 10, 2021. No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2021 and 2020.

Note 13: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, commercial paper markets and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. Additionally, proceeds from the aforementioned sales of HOS and the Company's New York subsidiary will be used primarily for capital investment in the Regulated Businesses. The revolving credit facility provides $2.25 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is March 21, 2025. The facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit of up to $150 million for letters of credit. Letters of credit are non-debt instruments maintained to provide credit support for certain transactions as requested by third parties. Subject to satisfying certain conditions, the credit agreement also permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million. As of December 31, 2021, AWCC had no outstanding borrowings and $76 million of outstanding letters of credit under the revolving credit facility, with $1.59 billion available to fulfill the Company's short-term liquidity needs and to issue letters of credit. The Company regularly evaluates the capital markets and closely monitors the financial condition of the financial institutions with contractual commitments in its revolving credit facility. Interest rates on advances under the facility are based on a credit spread to the LIBOR rate (or applicable market replacement rate) or base rate in accordance with Moody Investors Service's and Standard & Poor's Financial Services' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt.

On March 20, 2020, AWCC entered into a Term Loan Credit Agreement, by and among parent company, AWCC and the lenders party thereto (the "Term Loan Facility"). As of December 31, 2020, $500 million of principal was outstanding under the Term Loan Facility. The Term Loan Facility commitments terminated at maturity on March 19, 2021, and the Term Loan Facility was repaid in full. Borrowings under the Term Loan Facility bore interest at a variable annual rate based on LIBOR, plus a margin of 0.80%.

Short-term debt consists of commercial paper and credit facility borrowings totaling $584 million and $786 million as of December 31, 2021 and 2020, respectively. The weighted average interest rate on AWCC's outstanding short-term borrowings was approximately 0.25%, for the year ended December 31, 2021. The weighted average interest rate on AWCC's outstanding short-term borrowings was 1.16%, for the year ended December 31, 2020, including $500 million of outstanding principal on the Term Loan Facility as of December 31, 2020. As of December 31, 2021 there were no commercial paper or credit facility borrowings outstanding with maturities greater than three months.

Presented in the tables below is the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2021		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,100	$ 150	$ 2,250
Outstanding debt	(584)	(76)	(660)
Remaining availability as of December 31, 2021	$ 1,516	$ 74	$ 1,590

(a) Total remaining availability of $1.59 billion as of December 31, 2021 may be accessed through revolver draws.

	2020		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,100	$ 150	$ 2,250
Outstanding debt	(786)	(76)	(862)
Remaining availability as of December 31, 2020	$ 1,314	$ 74	$ 1,388

(a) Total remaining availability may be accessed through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2021 and 2020, respectively:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2021	$ 116	$ 1,590	$ 1,706
Available liquidity as of December 31, 2020	$ 547	$ 1,388	$ 1,935

Presented in the table below is the short-term borrowing activity for AWCC for the years ended December 31:

	2021	2020
Average borrowings	$ 910	$ 1,047
Maximum borrowings outstanding	1,647	2,172
Weighted average interest rates, computed on daily basis	0.25 %	1.16 %
Weighted average interest rates, as of December 31	0.20 %	0.53 %

The changes in average borrowings between periods were mainly attributable to the $500 million borrowed under the Term Loan Facility during 2020, which terminated and was repaid in full at maturity on March 19, 2021.

The credit facility requires the Company to maintain a ratio of consolidated debt to consolidated capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2021 was 0.60 to 1.00.

None of the Company's borrowings are subject to default or prepayment as a result of a downgrading of securities, although such a downgrading could increase fees and interest charges under AWCC's revolving credit facility.

Note 14: General Taxes

Presented in the table below is the components of general tax expense for the years ended December 31:

	2021	2020	2019
Property and capital stock	$ 149	$ 140	$ 124
Gross receipts and franchise	121	116	110
Payroll	39	36	35
Other general	12	11	11
Total general taxes	$ 321	$ 303	$ 280

Note 15: Income Taxes

Presented in the table below is the components of income tax expense for the years ended December 31:

	2021	2020	2019
Current income taxes:			
State	$ 72	$ 8	$ 4
Federal	75	—	—
Total current income taxes	$ 147	$ 8	$ 4
Deferred income taxes:			
State	$ 10	$ 49	$ 54
Federal	221	159	155
Amortization of deferred investment tax credits	(1)	(1)	(1)
Total deferred income taxes	230	207	208
Provision for income taxes	$ 377	$ 215	$ 212

Presented in the table below is a reconciliation between the statutory federal income tax rate and the Company's effective tax rate for the years ended December 31:

	2021	2020	2019
Income tax at statutory rate	21.0 %	21.0 %	21.0 %
Increases (decreases) resulting from:			
State taxes, net of federal taxes	3.9 %	4.8 %	5.4 %
EADIT	(3.6)%	(2.1)%	(0.9)%
Tax impact due to the sale of HOS	1.6 %	— %	— %
Other, net	0.1 %	(0.4)%	(0.1)%
Effective tax rate	23.0 %	23.3 %	25.4 %

Presented in the table below are the components of the net deferred tax liability as of December 31:

	2021	2020
Deferred tax assets:		
Advances and contributions	$ 439	$ 424
Tax losses and credits	10	65
Regulatory income tax assets	301	329
Pension and other postretirement benefits	50	100
Other	144	165
Total deferred tax assets	944	1,083
Valuation allowance	(10)	(19)
Total deferred tax assets, net of allowance	$ 934	$ 1,064
Deferred tax liabilities:		
Property, plant and equipment	$ 3,087	$ 2,913
Deferred pension and other postretirement benefits	69	97
Other	180	216
Total deferred tax liabilities	3,336	3,226
Less: Deferred tax liabilities included in liabilities related to assets held for sale (a)	—	69
Total deferred tax liabilities, net of deferred tax assets	$ (2,402)	$ (2,093)

(a) These deferred tax liabilities are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

The Company recognized no federal net operating loss ("NOL") carryforwards as of December 31, 2021 and $366 million as of December 31, 2020. The Company fully utilized its federal NOL carryforwards in 2021 due to the sale of HOS, and therefore, no valuation allowance is required.

As of December 31, 2021 and 2020, the Company had state NOLs of $123 million and $357 million, respectively, a portion of which are offset by a valuation allowance as the Company does not believe these NOLs are more likely than not to be realized. The state NOL carryforwards expire in 2021 through 2041.

The Company files income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state or local or non-U.S. income tax examinations by tax authorities for years on or before 2012. The Company has state income tax examinations in progress and does not expect material adjustments to result.

Presented in the table below are the changes in gross liability, excluding interest and penalties, for unrecognized tax benefits:

	Amount
Balance as of January 1, 2020	$ 110
Increases in current period tax positions	18
Decreases in prior period measurement of tax positions	(6)
Balance as of December 31, 2020	$ 122
Increases in current period tax positions	23
Decreases in prior period measurement of tax positions	(5)
Balance as of December 31, 2021	$ 140

The Company's tax positions relate primarily to the deductions claimed for repair and maintenance costs on its utility plant. The Company does not anticipate material changes to its unrecognized tax benefits within the next year. As discussed above, the Company utilized its remaining federal NOLs in 2021, and therefore this federal tax attribute will not be available to reduce the federal liabilities for uncertain tax positions or interest accrued as presented on the Company's Consolidated Financial Statements.

If the Company sustains all of its positions as of December 31, 2021, an unrecognized tax benefit of $10 million, excluding interest and penalties, would impact the Company's effective tax rate. The Company had an insignificant amount of interest and penalties related to its tax positions as of December 31, 2021 and 2020.

Presented in the table below are the changes in the valuation allowance:

	Amount
Balance as of January 1, 2019	$ 14
Increases in current period tax positions	7
Balance as of December 31, 2019	$ 21
Decreases in current period tax positions	(2)
Balance as of December 31, 2020	$ 19
Decreases in current period tax positions	(9)
Balance as of December 31, 2021	$ 10

Note 16: Employee Benefits

Pension and Other Postretirement Benefits

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations. Benefits under the plans are based on the employee's years of service and compensation. The pension plans have been closed for all new employees. The pension plans were closed for most employees hired on or after January 1, 2006. Union employees hired on or after January 1, 2001, except for specific eligible groups specified in the plan, had their accrued benefit frozen and will be able to receive this benefit as a lump sum upon termination or retirement. Union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006 are provided with a 5.25% of base pay defined contribution plan. The Company does not participate in a multi-employer plan. The Company also has unfunded noncontributory supplemental nonqualified pension plans that provide additional retirement benefits to certain employees.

The Company's pension funding practice is to contribute at least the greater of the minimum amount required by the Employee Retirement Income Security Act of 1974 or the normal cost. Further, the Company will consider additional cash contributions and/or available prefunding balances if needed to avoid "at risk" status and benefit restrictions under the Pension Protection Act of 2006 ("PPA"). The Company may also consider increased contributions, based on other financial requirements and the plans' funded position. Pension expense in excess of the amount contributed to the pension plans is deferred by certain regulated subsidiaries pending future recovery in rates charged for utility services as contributions are made to the plans. See Note 4—Regulatory Matters for additional information. Pension plan assets are invested in a number of actively managed, commingled funds, and limited partnerships including equities, fixed income securities, guaranteed annuity contracts with insurance companies, real estate funds and real estate investment trusts ("REITs").

The Company maintains other postretirement benefit plans providing varying levels of medical and life insurance to eligible retirees. The retiree welfare plans are closed for union employees hired on or after January 1, 2006. The plans had previously closed for non-union employees hired on or after January 1, 2002. The Company's policy is to fund other postretirement benefit costs up to the amount recoverable through rates. Assets of the plans are invested in a number of actively managed funds in the form of separate accounts, commingled funds and limited partnerships, including equities and fixed income securities.

The investment policy guideline of the pension plan is focused on diversification, improving returns and reducing the volatility of the funded status over a long-term horizon. The investment policy guidelines of the postretirement plans focus on the appropriate strategy given the funded status of the plans. None of the Company's securities are included in pension or other postretirement benefit plan assets.

The Company uses fair value for all classes of assets in the calculation of market-related value of plan assets. As of 2018, the fair values and asset allocations of the pension plan assets include the American Water Pension Plan, the New York Water Service Corporation Pension Plan, and the Shorelands Water Company, Inc. Pension Plan.

As a result of the sale of the Company's New York subsidiary, there will be a transfer of assets from two pension plans and two other postretirement benefit plans from the Company to Liberty. The Company does not expect the assets to be transferred to be a significant percentage of the Company's overall pension and other postretirement benefit plans.

Presented in the tables below are the fair values and asset allocations of the pension plan assets as of December 31, 2021 and 2020, respectively, by asset category:

Asset Category	2022 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2021
Cash		$ 54	$ 54	$ —	$ —	3 %

Presented in the tables below are a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for 2021 and 2020, respectively:

	Level 3
Balance as of January 1, 2021	$ 356
Actual return on assets	41
Purchases, issuances and settlements, net	(61)
Balance as of December 31, 2021	$ 336

	Level 3
Balance as of January 1, 2020	$ 349
Actual return on assets	3
Purchases, issuances and settlements, net	4
Balance as of December 31, 2020	$ 356

The Company's postretirement benefit plans have different levels of funded status and the assets are held under various trusts. The investments and risk mitigation strategies for the plans are tailored specifically for each trust. In setting new strategic asset mixes, consideration is given to the likelihood that the selected asset allocation will effectively fund the projected plan liabilities and meet the risk tolerance criteria of the Company. The Company periodically updates the long-term, strategic asset allocations for these plans through asset liability studies and uses various analytics to determine the optimal asset allocation. Considerations include plan liability characteristics, liquidity needs, funding requirements, expected rates of return and the distribution of returns.

In 2018, the Company announced plan design changes to the medical bargaining benefit plan, which resulted in a cap on future benefits and an over funded postretirement medical benefits bargaining plan. As a result of the change in funded status, the Company decreased the investment risk in the plan and reduced its exposure to changes in interest rates by matching the assets of the plan to the projected cash flows for future benefit payments of the liability.

The Company engages third-party investment managers for all invested assets. Managers are not permitted to invest outside of the asset class (e.g. fixed income, equity, alternatives) or strategy for which they have been appointed. Investment management agreements and recurring performance and attribution analysis are used as tools to ensure investment managers invest solely within the investment strategy they have been provided. Futures and options may be used to adjust portfolio duration to align with a plan's targeted investment policy.

In order to minimize asset volatility relative to the liabilities, a portion of plan assets is allocated to long duration fixed income investments that are exposed to interest rate risk. Increases in interest rates generally will result in a decline in the value of fixed income assets while reducing the present value of the liabilities. Conversely, rate decreases will increase fixed income assets, partially offsetting the related increase in the liabilities. Within equities, risk is mitigated by constructing a portfolio that is broadly diversified by geography, market capitalization, manager mandate size, investment style and process. For the postretirement medical bargaining plan, its asset structure is designed to meet the cash flows of the liabilities. This design reduces the plan's exposure to changes in interest rates.

Actual allocations to each asset class vary from target allocations due to periodic investment strategy updates, market value fluctuations, the length of time it takes to fully implement investment allocations, and the timing of benefit payments and contributions. The asset allocation is rebalanced on a quarterly basis, if necessary. Voluntary Employees' Beneficiary Association ("VEBA") Trust assets include the American Water Postretirement Medical Benefits Bargaining Plan, the New York Water Service Corporation Postretirement Medical Benefits Bargaining Plan, the American Water Postretirement Medical Benefits Non-Bargaining Plan, and the American Water Life Insurance Trust.

Presented in the tables below are the fair values and asset allocations of the postretirement benefit plan assets as of December 31, 2021 and 2020, respectively, by asset category:

Asset Category	2022 Target Allocation	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percentage of Plan Assets as of December 31, 2021

Valuation Techniques Used to Determine Fair Value

Cash—Cash and investments with maturities of three months or less when purchased, including certain short-term fixed-income securities, are considered cash and are included in the recurring fair value measurements hierarchy as Level 1.

Equity securities—For equity securities, the trustees obtain prices from pricing services, whose prices are obtained from direct feeds from market exchanges, that the Company is able to independently corroborate. Certain equity securities are valued based on quoted prices in active markets and categorized as Level 1. Other equities, such as international securities held in the pension plan, are invested in commingled funds and/or limited partnerships. These funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since net asset value is not directly observable or not available on a nationally recognized securities exchange for the commingled funds, they are categorized as Level 2. For limited partnerships, the assets as a whole are categorized as Level 3 due to the fact that the partnership provides the pricing and the pricing inputs are less readily observable. In addition, the limited partnership vehicle cannot be readily traded.

Fixed-income securities—The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets and their prices can be corroborated. The fair values of corporate bonds, mortgage backed securities, and certain government bonds are based on prices that reflect observable market information, such as actual trade information of similar securities. They are categorized as Level 2 because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate. Exchange-traded options and futures, for which market quotations are readily available, are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded and are classified as Level 1.

Real estate fund—Real estate fund is categorized as Level 3 as the fund uses significant unobservable inputs for fair value measurement and the vehicle is in the form of a limited partnership.

REITs—REITs are invested in commingled funds. Commingled funds are valued to reflect the plan fund's interest in the fund based on the reported year-end net asset value. Since the net asset value is not directly observable for the commingled funds, they are categorized as Level 2.

Guaranteed annuity contracts—Guaranteed annuity contracts are categorized as Level 3 because the investments are not publicly quoted. Since these market values are determined by the provider, they are not highly observable and have been categorized as Level 3. Exchange-traded future and option positions are reported in accordance with changes in variation margins that are settled daily.

Presented in the table below is a rollforward of the changes in the benefit obligation and plan assets for the two most recent years, for all plans combined:

	Pension Benefits		Other Benefits	
	2021	2020	2021	2020
Change in benefit obligation:				
Benefit obligation as of January 1,	$ 2,386	$ 2,161	$ 382	$ 374
Service cost	36	31	4	4
Interest cost	64	73	10	12
Plan participants' contributions	—	—	2	2
Plan amendments	—	—	—	5
Actuarial loss (gain)	(46)	233	(26)	13
Settlements (a)	(6)	(3)	—	—
Gross benefits paid	(140)	(109)	(31)	(29)
Federal subsidy	—	—	1	1
Benefit obligation as of December 31,	$ 2,294	$ 2,386	$ 342	$ 382
Change in plan assets:				
Fair value of plan assets as of January 1,	$ 1,990	$ 1,747	$ 556	$ 532
Actual return on plan assets	108	314	9	53
Employer contributions	39	41	1	(2)
Plan participants' contributions	—	—	2	2
Settlements (a)	(6)	(3)	—	—
Benefits paid	(140)	(109)	(30)	(29)
Fair value of plan assets as of December 31,	$ 1,991	$ 1,990	$ 538	$ 556
Funded value as of December 31,	$ (303)	$ (396)	$ 196	$ 174
Amounts recognized on the balance sheet:				
Noncurrent asset	$ —	$ —	$ 193	$ 173
Current liability	(2)	(2)	—	—
Noncurrent liability	(285)	(388)	(1)	(1)
(Liabilities) assets related to assets held for sale (b)	(16)	(6)	4	2
Net amount recognized	$ (303)	$ (396)	$ 196	$ 174

(a) The Company paid $6 million and $3 million of lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan for the years ended December 31, 2021 and 2020, respectively.

(b) These balances are related to the sale of the Company's New York subsidiary, which was completed on January 1, 2022, and are included in assets held for sale and liabilities related to assets held for sale on the Consolidated Balance Sheets as of December 31, 2021 and December 31, 2020. See Note 6—Acquisitions and Divestitures for additional information.

Presented in the table below are the components of accumulated other comprehensive income and regulatory assets that have not been recognized as components of periodic benefit costs as of December 31:

	Pension Benefits		Other Benefits	
	2021	2020	2021	2020
Net actuarial loss	$ 381	$ 436	$ 35	$ 49
Prior service credit	(14)	(16)	(186)	(217)
Net amount recognized	$ 367	$ 420	$ (151)	$ (168)
Regulatory assets (liabilities)	$ 317	$ 366	$ (151)	$ (168)
Accumulated other comprehensive income	50	54	—	—
Total	$ 367	$ 420	$ (151)	$ (168)

Presented in the tables below are the projected benefit obligation, accumulated benefit obligation and fair value of plan assets for pension plans with a projected obligation in excess of plan assets as of December 31, 2021 and 2020:

	Projected Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2021	2020
Projected benefit obligation	$ 2,294	$ 2,386
Fair value of plan assets	1,991	1,990

	Accumulated Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2021	2020
Accumulated benefit obligation	$ 2,138	$ 2,188
Fair value of plan assets	1,991	1,990

The accumulated postretirement plan assets exceed benefit obligations for all of the Company's other postretirement benefit plans, except for the Northern Illinois Retiree Welfare Plan.

In 2006, the PPA replaced the funding requirements for defined benefit pension plans by requiring that defined benefit plans contribute to 100% of the current liability funding target over seven years. Defined benefit plans with a funding status of less than 80% of the current liability are defined as being "at risk" and additional funding requirements and benefit restrictions may apply. The PPA was effective for the 2008 plan year with short-term phase-in provisions for both the funding target and at-risk determination. The Company's qualified defined benefit plan is currently funded above the at-risk threshold, and therefore the Company expects that the plans will not be subject to the "at risk" funding requirements of the PPA. The Company is proactively monitoring the plan's funded status and projected contributions under the law to appropriately manage the potential impact on cash requirements.

Minimum funding requirements for the qualified defined benefit pension plan are determined by government regulations and not by accounting pronouncements. The Company plans to contribute amounts at least equal to or greater than the minimum required contributions or the normal cost in 2022 to the qualified pension plans. Contributions may be in the form of cash contributions as well as available prefunding balances.

Presented in the table below is information about the expected cash flows for the pension and postretirement benefit plans:

	Pension Benefits	Other Benefits
2022 expected employer contributions:		
To plan trusts	$ 38	$ —
To plan participants	2	—

Presented in the table below are the net benefits expected to be paid from the plan assets or the Company's assets:

	Pension Benefits	Other Benefits	
	Expected Benefit Payments	Expected Benefit Payments	Expected Federal Subsidy Payments
2022	$ 130	$ 26	$ 1
2023	133	25	1
2024	134	25	1
2025	137	25	1
2026	138	25	1
2027-2031	688	113	3

Because the above amounts are net benefits, plan participants' contributions have been excluded from the expected benefits.

Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the Company's employees, mortality, turnover and medical costs. Each assumption is reviewed annually. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes.

Presented in the table below are the significant assumptions related to the pension and other postretirement benefit plans:

	Pension Benefits			Other Benefits		
	2021	2020	2019	2021	2020	2019
Weighted average assumptions used to determine December 31 benefit obligations:						
Discount rate	2.94%	2.74%	3.44%	2.90%	2.56%	3.36%
Rate of compensation increase	3.51%	3.51%	2.97%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				6.00% in 2022	6.25% in 2021	6.50% in 2020
				to 5.00% in 2026+	to 5.00% in 2026+	to 5.00% in 2026+
Weighted average assumptions used to determine net periodic cost:						
Discount rate	2.74%	3.44%	4.38%	2.56%	3.36%	4.32%
Expected return on plan assets	6.50%	6.50%	6.20%	3.67%	3.68%	3.56%
Rate of compensation increase	3.51%	2.97%	3.00%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				6.25% in 2021	6.50% in 2020	6.75% in 2019
				to 5.00% in 2026+	to 5.00% in 2026+	to 5.00% in 2026+

NOTE "N/A" in the table above means assumption is not applicable.

The discount rate assumption was determined for the pension and postretirement benefit plans independently. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. Historically, for each plan, the discount rate was developed at the level equivalent rate that would produce the same present value as that using spot rates aligned with the projected benefit payments.

The expected long-term rate of return on plan assets is based on historical and projected rates of return, prior to administrative and investment management fees, for current and planned asset classes in the plans' investment portfolios. Assumed projected rates of return for each of the plans' projected asset classes were selected after analyzing historical experience and future expectations of the returns and volatility of the various asset classes. Based on the target asset allocation for each asset class, the overall expected rate of return for the portfolio was developed, adjusted for historical and expected experience of active portfolio management results compared to the benchmark returns. The Company's pension expense increases as the expected return on assets decreases. The Company used an expected return on plan assets of 6.50% to estimate its 2021 pension benefit costs, and an expected blended return based on weighted assets of 3.67% to estimate its 2021 other postretirement benefit costs.

The Company had previously adopted a mortality table based on the Society of Actuaries RP 2014 mortality table including a generational MP-2018 projection scale. In 2020, the Company adopted the Pri-2012 base mortality table and the new MP-2020 mortality improvement scale to replace the previous assumption. In 2021, the Company utilized the Pri-2012 base mortality table and the new MP-2021 mortality improvement scale to replace the previous assumption.

Presented in the table below are the components of net periodic benefit costs for the years ended December 31:

	2021	2020	2019
Components of net periodic pension benefit cost:			
Service cost	$ 36	$ 31	$ 28
Interest cost	64	73	82
Expected return on plan assets	(126)	(111)	(91)
Amortization of prior service (credit) cost	(3)	(3)	(3)
Amortization of actuarial loss	27	30	32
Settlements (a)	—	1	—
Net periodic pension benefit cost	$ (2)	$ 21	$ 48
Other changes in plan assets and benefit obligations recognized in other comprehensive income:			
Current year actuarial loss (gain)	$ 1	$ 12	$ (8)
Amortization of actuarial loss	(4)	(3)	(4)
Total recognized in other comprehensive income	(3)	9	(12)
Total recognized in net periodic benefit cost and other comprehensive income	$ (5)	$ 30	$ 36
Components of net periodic other postretirement benefit (credit) cost:			
Service cost	$ 4	$ 4	$ 4
Interest cost	10	12	15
Expected return on plan assets	(21)	(19)	(18)
Amortization of prior service credit	(32)	(34)	(35)
Amortization of actuarial loss	—	2	3
Net periodic other postretirement benefit (credit) cost	$ (39)	$ (35)	$ (31)

(a) Due to the amount of lump sum payment distributions from the Company's New York Water Service Corporation Pension Plan, settlement charges of less than $1 million were recorded for both years ended December 31, 2021 and 2020. In accordance with existing regulatory accounting treatment, the Company has maintained the settlement charges in regulatory assets on the Consolidated Balance Sheets. The amount is being amortized in accordance with existing regulatory practice.

The Company's policy is to recognize curtailments when the total expected future service of plan participants is reduced by greater than 10% due to an event that results in terminations and/or retirements.

Cumulative gains and losses that are in excess of 10% of the greater of either the projected benefit obligation or the fair value of plan assets are amortized over the expected average remaining future service of the current active membership for the plans.

Savings Plans for Employees

The Company maintains 401(k) savings plans that allow employees to save for retirement on a tax-deferred basis. Employees can make contributions that are invested at their direction in one or more funds. The Company makes matching contributions based on a percentage of an employee's contribution, subject to certain limitations. Due to the Company's discontinuing new entrants into the defined benefit pension plan, on January 1, 2006, the Company began providing an additional 5.25% of base pay defined contribution benefit for union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006. The Company's 401(k) savings plan expenses totaled $14 million, $12 million and $12 million for 2021, 2020 and 2019, respectively. Additionally, the Company's 5.25% of base pay defined contribution benefit expenses totaled $16 million, $15 million and $13 million for 2021, 2020 and 2019, respectively. All of the Company's contributions are invested in one or more funds at the direction of the employees.

Note 17: Commitments and Contingencies

Commitments have been made in connection with certain construction programs. The estimated capital expenditures required under legal and binding contractual obligations amounted to $626 million as of December 31, 2021.

In December 2021, the Company authorized the contribution of $45 million to the American Water Charitable Foundation, which was subsequently paid in January 2022.

The Company's regulated subsidiaries maintain agreements with other water purveyors for the purchase of water to supplement their water supply. Presented in the table below are the future annual commitments related to minimum quantities of purchased water having non-cancelable contracts:

	Amount
2022	$ 71
2023	65
2024	51
2025	49
2026	49
Thereafter	507

The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. See Note 5—Revenue Recognition for additional information regarding the Company's performance obligations.

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of December 31, 2021, the Company has accrued approximately $7 million of probable loss contingencies and has estimated that the maximum amount of losses associated with reasonably possible loss contingencies that can be reasonably estimated is $2 million. For certain matters, claims and actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such matters, claims or actions, other than as described in this Note 17—Commitments and Contingencies, will not have a material adverse effect on the Company.

West Virginia Elk River Freedom Industries Chemical Spill

On June 8, 2018, the U.S. District Court for the Southern District of West Virginia granted final approval of a settlement class and global class action settlement (the "Settlement") for all claims and potential claims by all class members (collectively, the "West Virginia Plaintiffs") arising out of the January 2014 Freedom Industries, Inc. chemical spill in West Virginia. The effective date of the Settlement was July 16, 2018. Under the terms and conditions of the Settlement, the Company's West Virginia subsidiary ("WVAWC") and certain other Company affiliated entities did not admit, and will not admit, any fault or liability for any of the allegations made by the West Virginia Plaintiffs in any of the actions that were resolved.

The aggregate pre-tax amount contributed by WVAWC of the $126 million portion of the Settlement with respect to the Company, net of insurance recoveries, is $19 million. As of December 31, 2021, $0.5 million of the aggregate Settlement amount of $126 million has been reflected in accrued liabilities, and $0.5 million in offsetting insurance receivables have been reflected in other current assets on the Consolidated Balance Sheets. The amount reflected in accrued liabilities as of December 31, 2021 reflects reductions in the liability and appropriate reductions to the offsetting insurance receivable reflected in other current assets, associated with payments made to the Settlement fund, the receipt of a determination by the Settlement fund's appeal adjudicator on all remaining medical claims and the calculation of remaining attorneys' fees and claims administration costs. The Company funded WVAWC's contributions to the Settlement through existing sources of liquidity.

Dunbar, West Virginia Water Main Break Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by WVAWC. The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015 to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015 to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. In August 2020, WVAWC filed a Petition for Writ of Prohibition in the Supreme Court of Appeals of West Virginia seeking to vacate or remand the Circuit Court's order certifying the issues class. On January 28, 2021, the Supreme Court of Appeals remanded the case back to the Circuit Court for further consideration in light of a decision issued in another case relating to the class certification issues raised on appeal. On July 16, 2021, oral argument was heard by the Circuit Court on the issue of addressing the Supreme Court of Appeals' remand. This matter remains pending.

The Company and WVAWC believe that WVAWC has valid, meritorious defenses to the claims raised in this class action complaint. WVAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Chattanooga, Tennessee Water Main Break Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. The court has entered an agreed scheduling order, which sets a hearing in October 2022 to address the question of class certification.

TAWC and the Company believe that TAWC has meritorious defenses to the claims raised in this class action complaint, and TAWC is vigorously defending itself against these allegations. The Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of such losses related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the 2016 Order") approving a deadline of December 31, 2021 for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"). The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the 2009 Order and the 2016 Order.

Cal Am's ability to move forward on the Water Supply Project is subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In September 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs plus AFUDC, subject to meeting certain criteria.

In September 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am has incurred $186 million in aggregate costs as of December 31, 2021 related to the Water Supply Project, which includes $47 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project, which is not expected to produce additional water until 2024 at the earliest. The amended and restated water purchase agreement for the GWR Project expansion is subject to review and approval of the CPUC, and on November 29, 2021, Cal Am filed an application with the CPUC seeking review and approval of the amended and restated water purchase agreement. Cal Am is also requesting rate base treatment of the additional capital investment for certain Cal Am facilities required to maximize the water supply from the expansion to the GWR Project and a related Aquifer Storage and Recovery Project, totaling approximately $81 million. This amount is in addition to, and consistent in regulatory treatment with, the prior $50 million of cost recovery for facilities associated with the original water purchase agreement, which was approved by the CPUC in its 2016 final decision.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the 2009 Order and the 2016 Order, as well as the CPUC's 2016 and 2018 final decisions, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $50 million in construction costs previously approved by the CPUC in its 2016 final decision.

Coastal Development Permit Application

In June 2018, Cal Am submitted a coastal development permit application to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of Cal Am's coastal development permit application. Thereafter, Cal Am appealed this decision to the California Coastal Commission (the "Coastal Commission"), as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. In October 2019, staff of the Coastal Commission issued a report recommending a denial of Cal Am's application for a coastal development permit with respect to the Water Supply Project, largely based on a memorandum prepared by the general manager of the MPWMD that contradicted findings made by the CPUC in its final decision approving the Water Supply Project. In November 2019, discussions between staffs of the Coastal Commission and the CPUC took place regarding the Coastal Commission staff recommendation, at which time the CPUC raised questions about the Coastal Commission staff's findings on water supply and demand, groundwater impacts and the viability of a project that the Coastal Commission staff believes may be a possible alternative to the Water Supply Project.

In August 2020, the staff of the Coastal Commission released a report again recommending denial of Cal Am's application for a coastal development permit. Although the report concluded that the Water Supply Project would have a negligible impact on groundwater resources, the report also concluded it would impact other coastal resources, such as environmentally sensitive habitat areas and wetlands, and that the Coastal Commission staff believes that a feasible alternative project exists that would avoid those impacts. The staff's report also noted disproportionate impacts to communities of concern. In September 2020, Cal Am withdrew its original jurisdiction application to allow additional time to address the Coastal Commission staff's environmental justice concerns. The withdrawal of the original jurisdiction application did not impact Cal Am's appeal of the City's denial, which remains pending before the Coastal Commission. Cal Am refiled the original jurisdiction application in November 2020. In December 2020, the Coastal Commission sent to Cal Am a notice of incomplete application, identifying certain additional information needed to consider the application complete. In March 2021, Cal Am provided responses to the Coastal Commission's notice of incomplete application. On June 18, 2021, the Coastal Commission responded, acknowledging the responses and requesting certain additional information before the application could be considered complete. Cal Am responded with the requested additional information on January 11, 2022, and on February 8, 2022, the Coastal Commission requested additional information. The original jurisdiction application remains pending.

Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining required approvals for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. Beginning in January 2022, Cal Am expects to be able to comply with the diversion reduction requirements contained in the 2016 Order, but continued compliance with the diversion reduction requirements for 2023 and future years will depend on successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the 2009 Order and the 2016 Order.

Note 18: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations for the years ended December 31:

	2021	2020	2019
Numerator:			
Net income attributable to common shareholders	$ 1,263	$ 709	$ 621
Denominator:			
Weighted average common shares outstanding—Basic	182	181	181
Effect of dilutive common stock equivalents	—	1	—
Weighted average common shares outstanding—Diluted	182	182	181

The effect of dilutive common stock equivalents is related to outstanding stock options, RSUs and PSUs granted under the Company's 2007 Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Plan, as well as estimated shares to be purchased under the ESPP. Less than one million share-based awards were excluded from the computation of diluted EPS for the years ended December 31, 2021, 2020 and 2019, because their effect would have been anti-dilutive under the treasury stock method.

Note 19: Fair Value of Financial Information

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Seller promissory note from the sale of HOS — The carrying amount reported on the Consolidated Balance Sheets for the seller promissory note from the sale of HOS approximates fair value.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of December 31, 2021				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 4	$ —	$ —	$ 6	$ 6
Long-term debt (excluding finance lease obligations)	10,396	10,121	60	1,637	11,818

	As of December 31, 2020				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 5	$ —	$ —	$ 7	$ 7
Long-term debt (excluding finance lease obligations)	9,656	9,639	415	1,753	11,807

Fair Value Measurements

To increase consistency and comparability in fair value measurements, GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Financial assets and liabilities utilizing Level 1 inputs include active exchange-traded equity securities, exchange-based derivatives, mutual funds and money market funds.

Level 2—Inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, commingled investment funds not subject to purchase and sale restrictions and fair-value hedges.

Level 3—Unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds subject to purchase and sale restrictions.

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 21	$ —	$ —	$ 21
Rabbi trust investments	23	—	—	23
Deposits	27	—	—	27
Other investments	17	—	—	17
Contingent cash payment from the sale of HOS	—	—	72	72
Total assets	88	—	72	160
Liabilities:				
Deferred compensation obligations	27	—	—	27
Total liabilities	27	—	—	27
Total assets	$ 61	$ —	$ 72	$ 133

	As of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 29	$ —	$ —	$ 29
Rabbi trust investments	19	—	—	19
Deposits	4	—	—	4
Other investments	11	—	—	11
Total assets	63	—	—	63
Liabilities:				
Deferred compensation obligations	24	—	—	24
Total liabilities	24	—	—	24
Total assets	$ 39	$ —	$ —	$ 39

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on observable market prices.

Mark-to-market derivative assets and liabilities — The Company employs derivative financial instruments in the form of variable-to-fixed interest rate swaps and treasury lock agreements, classified as economic hedges and cash flow hedges, respectively, in order to fix the interest cost on existing or forecasted debt. The Company may use fixed-to-floating interest rate swaps, typically designated as fair-value hedges, to achieve a targeted level of variable-rate debt as a percentage of total debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company had no significant mark-to-market derivatives outstanding as of December 31, 2021.

Other investments—Other investments primarily represent money market funds used for active employee benefits. The Company includes other investments in other current assets on the Consolidated Balance Sheets.

Contingent cash payment from the sale of HOS — The Company's contingent cash payment derivative included as part of the consideration from the sale of HOS is included in other long-term assets on the Consolidated Balance Sheets. The fair value of the contingent cash payment is estimated using the probability of the outcome of receipt of the $75 million, a Level 3 input.

Note 20: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's ROU assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 38 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $146 million and $147 million as of December 31, 2021 and 2020, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and excluded from the finance lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $4 million in 2022 through 2026, and $48 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating and finance leases were $13 million, $14 million and $16 million for the years ended December 31, 2021, 2020 and 2019, respectively.

For the year ended December 31, 2021, cash paid for amounts in lease liabilities, which includes operating and financing cash flows from operating and finance leases, was $13 million. For the year ended December 31, 2021, ROU assets obtained in exchange for new operating lease liabilities was $11 million.

As of December 31, 2021, the weighted-average remaining lease term of the finance lease and operating leases were four years and 18 years, respectively, and the weighted-average discount rate of the finance lease and operating leases were 12% and 4%, respectively.

The future maturities of lease liabilities at December 31, 2021 are $12 million in 2022, $9 million in 2023, $9 million in 2024, $8 million in 2025, $7 million in 2026 and $89 million thereafter. At December 31, 2021 imputed interest was $45 million.

Note 21: Segment Information

The Company's operating segments are comprised of the revenue-generating components of its businesses for which separate financial information is internally produced and regularly used by management to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Company also operates market-based businesses that, individually, do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented as the Market-Based Businesses.

The Regulated Businesses segment is the largest component of the Company's business and includes subsidiaries that provide water and wastewater services to customers in 14 states.

The Company's primary Market-Based Businesses include MSG, which enters into long-term contracts with the U.S. government to provide water and wastewater services on various military installations, and the Company's former HOS business, which was sold in the fourth quarter of 2021, and previously provided various warranty protection programs and other home services to residential customers.

The accounting policies of the segments are the same as those described in Note 2—Significant Accounting Policies. The Regulated Businesses segment and Market-Based Businesses include intercompany costs that are allocated by Service Company and intercompany interest that is charged by AWCC, both of which are eliminated to reconcile to the Consolidated Statements of Operations. Inter-segment revenues include the sale of water from a regulated subsidiary to market-based subsidiaries, leased office space, and furniture and equipment provided by the market-based subsidiaries to regulated subsidiaries. "Other" includes corporate costs that are not allocated to the Company's operating segments, eliminations of inter-segment transactions, fair value adjustments, and associated income and deductions related to the acquisitions that have not been allocated to the operating segments for evaluation of performance and allocation of resource purposes. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

Presented in the tables below is summarized segment information as of and for the years ended December 31:

	2021			
	Regulated Businesses	Market-Based Businesses	Other	Consolidated
Operating revenues	$ 3,384	$ 563	$ (17)	$ 3,930

Diluted earnings per share:				
Net income attributable to common shareholders	0.73	1.14	1.53	3.55

(a) Amounts may not sum due to rounding.

	2020			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Operating revenues	$ 844	$ 931	$ 1,079	$ 923
Operating income	239	313	433	263
Net income attributable to common shareholders	124	176	264	145
Basic earnings per share: (a)				
Net income attributable to common shareholders	$ 0.69	$ 0.97	$ 1.46	$ 0.80
Diluted earnings per share:				
Net income attributable to common shareholders	0.68	0.97	1.46	0.80

(a) Amounts may not sum due to rounding.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management, including the Company's President, Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act as of the end of the period covered by this report.

Based on that evaluation, the Company's President, Chief Executive Officer and Chief Financial Officer has concluded that, as of December 31, 2021, the Company's disclosure controls and procedures were effective at a reasonable level of assurance. The Company's disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's President, Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed by or under the supervision of the Company's President, Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect its transactions and dispositions of its assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with GAAP, and that the Company's receipts and expenditures are being made only in accordance with authorizations of its management and its directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of its assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, including the Company's President, Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of its internal control over financial reporting, as of December 31, 2021, using the criteria described in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on the Company's evaluation under the framework in *Internal Control—Integrated Framework (2013)*, its management concluded that its internal control over financial reporting was effective as of December 31, 2021.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2021 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing in Item 8—Financial Statements and Supplementary Data of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during its last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item and not set forth below or in Item 1—Business—Executive Officers of this Annual Report on Form 10-K, is incorporated by reference from the Company's Proxy Statement for the 2022 Annual Meeting of Shareholders, to be filed with the SEC within 120 days following the end of the fiscal year covered by this report, under the captions entitled "Board of Directors and Corporate Governance," "Proposal 1—Election of Directors" and "Certain Beneficial Ownership Matters—Delinquent Section 16(a) Reports."

The Company has adopted a Code of Ethics, which applies to directors, officers and employees. The full text of the Code of Ethics is publicly available on the Company's website at *https://amwater.com*. The Company intends to post on its website any amendments to the Code of Ethics and any waivers of such provisions granted to certain principal officers.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2022 Annual Meeting of Shareholders, under the captions entitled "Proposal 1—Election of Directors—Director Compensation Table," "Compensation Discussion and Analysis," "Executive Compensation," "Compensation Committee Interlocks and Insider Participation" and "Compensation Committee Report."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required by this item setting forth the security ownership of certain beneficial owners and management is incorporated by reference in the Company's Proxy Statement for the 2022 Annual Meeting of Shareholders, under the captions entitled "Certain Beneficial Ownership Matters—Security Ownership of Management," "Certain Beneficial Ownership Matters—Security Ownership of Certain Beneficial Owners" and "Equity Compensation Plan Information."

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2022 Annual Meeting of Shareholders, under the caption entitled "Board of Directors and Corporate Governance—Board Review of Related Person Transactions" and "Proposal 1—Election of Directors—Director Independence."

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2022 Annual Meeting of Shareholders, under the caption entitled "Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Fees Paid to Independent Registered Public Accounting Firm" and "Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Pre-Approval of Services Provided by Independent Registered Public Accounting Firm."

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The following documents have been filed as a part of this Annual Report on Form 10-K:

1. The financial statements listed in the "Index to Consolidated Financial Statements" contained in Item 8—Financial Statements and Supplementary Data of this Form 10-K are hereby incorporated by reference in response to this Item 15(a).
2. Financial statement schedules have been omitted since they are either not required or are not applicable as the information is otherwise included in the financial statements or notes thereto.
3. Exhibits. The list of documents contained in "Exhibit Index" below is provided in response to this Item 15(a). The warranties, representations and covenants contained in any of the agreements included or incorporated by reference herein or which appear as exhibits hereto should not be relied upon by buyers, sellers or holders of the Company's or its subsidiaries' securities and are not intended as warranties, representations or covenants to any individual or entity except as specifically set forth in such agreement.

The responses to Items 15(b) and (c) of Form 10-K are included above in response to Item 15(a).

ITEM 16. FORM 10-K SUMMARY

None.

EXHIBIT INDEX

Exhibit Number	Exhibit Description
2.1.1#	Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc., New York American Water Company, Inc. and Liberty Utilities Co. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2019).
2.1.2	Letter Agreement, dated June 29, 2021, by and among American Water Works Company, Inc., Liberty Utilities (Eastern Water Holdings) Corp. and New York American Water Company, Inc., with respect to the Stock Purchase Agreement, dated November 20, 2019, by and among American Water Works Company, Inc., New York American Water Company, Inc. and Liberty Utilities Co. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed June 29, 2021).
2.2#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).
3.2	Amended and Restated Bylaws of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 10, 2020).
4.1	Indenture, dated as of October 22, 2007, between American Water Capital Corp. and Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.4 to American Water Capital Corp.'s Registration Statement on Form S-4, File No. 333-148284, and American Water Works Company, Inc.'s Registration Statement on Form S-4, File No. 333-148284-01, filed December 21, 2007).
4.2	Indenture, dated as of December 4, 2009, between American Water Capital Corp. and Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 3, 2010).
4.3	Officers' Certificate, dated December 17, 2012, establishing the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 17, 2012).
4.4	Officers' Certificate, dated November 20, 2013, establishing the 3.850% Senior Notes due 2024 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 20, 2013).
4.5	Officers' Certificate, dated August 14, 2014, establishing the 3.400% Senior Notes due 2025 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 14, 2014).
4.6	Officers' Certificate, dated August 14, 2014, providing for a further issuance of the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.3 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 14, 2014).
4.7	Officers' Certificate, dated August 13, 2015, establishing the 4.300% Senior Notes due 2045 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 13, 2015).
4.8	Officers' Certificate, dated August 13, 2015, providing for a further issuance of the 3.400% Senior Notes due 2025 (incorporated by reference to Exhibit 4.3 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 13, 2015).
4.9	Officers' Certificate, dated November 17, 2016, establishing the 3.000% Senior Notes due 2026 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.10	Officers' Certificate, dated November 17, 2016, establishing the 4.000% Senior Notes due 2046 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.11	Officers' Certificate, dated August 10, 2017, establishing the 2.950% Senior Notes due 2027 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).
4.12	Officers' Certificate, dated August 10, 2017, establishing the 3.750% Senior Notes due 2047 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).

Exhibit Number	Exhibit Description
4.13	Officer's Certificate, dated August 9, 2018, establishing the 3.750% Senior Notes due 2028 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 9, 2018).
4.14	Officer's Certificate, dated August 9, 2018, establishing the 4.200% Senior Notes due 2048 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 9, 2018).
4.15	Officers' Certificate, dated May 13, 2019, establishing the 3.450% Senior Notes due 2029 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 13, 2019).
4.16	Officers' Certificate, dated May 13, 2019, establishing 4.150% Senior Notes due 2049 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 13, 2019).
4.17	Officers' Certificate of American Water Capital Corp., dated April 14, 2020, establishing the terms and authorizing the issuance of the 2.800% Senior Notes due 2030 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed April 14, 2020).
4.18	Officers' Certificate of American Water Capital Corp., dated April 14, 2020, establishing the terms and authorizing the issuance of the 3.450% Senior Notes due 2050 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed April 14, 2020).
4.19	Officers' Certificate of American Water Capital Corp., dated May 14, 2021, establishing the terms and authorizing the issuance of the 2.300% Senior Notes due 2031 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 14, 2021).
4.20	Officers' Certificate of American Water Capital Corp., dated May 14, 2021, establishing the terms and authorizing the issuance of the 3.250% Senior Notes due 2051 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 14, 2021).
4.21	Description of American Water Works Company, Inc.'s Equity Securities (filed herewith).
4.22	Note Purchase Agreement, dated May 15, 2008, between American Water Capital Corp. and the purchasers party thereto (incorporated by reference to Exhibit 10.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed May 19, 2008) with respect to the 6.55% Series H Senior Notes due May 15, 2023.

Certain schedules and exhibits to this agreement have been omitted pursuant to Item 601(a)(5) of Regulation S-K. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Denotes a management contract or compensatory plan or arrangement.

Instruments defining the rights of holders of certain issues of long-term debt of the Company and certain of its consolidated subsidiaries have not been filed as exhibits to this report because the authorized principal amount of any one of such issues does not exceed 10% of the Company's consolidated total assets. The Company agrees to furnish a copy of each such instrument to the SEC upon request.

The Stock Purchase Agreement filed as Exhibit 2.1.1, the Membership Interest Purchase Agreement filed as Exhibit 2.2, and the Secured Seller Note Agreement filed as Exhibit 10.18 to this Annual Report on Form 10-K have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

Exhibit 4.21

DESCRIPTION OF AMERICAN WATER WORKS COMPANY, INC.'S EQUITY SECURITIES

The following description of the common stock, par value $0.01 per share (the "Common Stock"), of American Water Works Company, Inc., a Delaware corporation (the "Company"), is not intended to be complete. For more information regarding the Common Stock, please refer to the Company's Restated Certificate of Incorporation (the "Certificate of Incorporation"), and the Company's Amended and Restated Bylaws (the "Bylaws"), which have been filed as Exhibits 3.1 and 3.2, respectively, to the Company's Annual Report on Form 10-K for the year ended December 31, 2021. The following descriptions are based on the Certificate of Incorporation and Bylaws in effect as of February 16, 2022. The terms and provisions of the Certificate of Incorporation and Bylaws are hereby incorporated by reference herein. The terms of these securities also may be affected by the General Corporation Law of the State of Delaware (the "DGCL").

General

The Company's authorized capital stock consists of 500,000,000 shares of Common Stock and 50,000,000 shares of preferred stock. As of February 10, 2022, there were 181,724,991 shares of Common Stock outstanding and no shares of preferred stock outstanding.

Common Stock

Voting Rights

Other than with respect to director elections, except as otherwise required by law, all matters to be voted on by the Company's shareholders must be approved by a majority of the shares present in person or proxy at such meeting and entitled to vote on the subject matter. With respect to uncontested director elections, the Bylaws require that in order to be elected, a director nominee must receive a majority of the votes cast (for this purpose, a majority of the votes cast means that the number of shares voted "for" a director nominee must exceed the number of votes cast "against" that nominee). For contested director elections where the number of nominees exceeds the number of directors to be elected, the Bylaws require that the directors shall be elected by the vote of a plurality of the shares represented in person or by proxy at any such meeting and entitled to vote on the election of directors.

Dividends

Holders of Common Stock will share equally in any dividend declared by the Company's board of directors (the "Board"), subject to the rights of the holders of any outstanding preferred stock.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company's affairs, holders of Common Stock would be entitled, after payment of the liquidation preference to all holders of any outstanding preferred stock, to share ratably in the Company's assets that are legally available for distribution to shareholders after payment of liabilities. The Company must pay the applicable distribution to any holders of its preferred stock before it may pay distributions to the holders of Common Stock.

Other Rights

The Company's shareholders have no preemptive or other rights to subscribe for additional shares.

Preferred Stock

The Board may authorize the issuance of preferred stock from time to time in one or more series, without shareholder approval. Subject to the limits imposed by the DGCL, the Board is authorized to fix for any series of preferred stock the number of shares of such series and the voting powers (if any), designation, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions of such series. The Board is also authorized to increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by the Company's shareholders.

The Board may authorize the issuance of preferred stock with voting or conversion rights that affect adversely the voting power or other rights of holders of Common Stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control, causing the market price of a share of Common Stock to decline, or impairing the voting and other rights of the holders of Common Stock.

Certain Anti-Takeover Provisions of the Certificate of Incorporation and Bylaws, and the DGCL

The following provisions of the Certificate of Incorporation and Bylaws could deter, delay or prevent a third party from acquiring the Company, even if doing so would benefit the Company's shareholders.

Undesignated Preferred Stock

The ability to authorize undesignated preferred stock makes it possible for the Board to authorize the issuance of preferred stock with super voting, special approval, dividend or other rights or preferences on a discriminatory basis that could impede the success of any attempt to acquire the Company. These and other provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of the Company.

Requirements for Advance Notification of Shareholder Meetings, Nominations and Proposals

The Bylaws provide that special meetings of shareholders may be called only upon the request of the majority of the members of the Board, upon request of the Chairman of the Board, or by the Secretary of the Company upon request of shareholders holding at least 15% of the outstanding Common Stock. The Bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting.

The Bylaws establish advance notice procedures with respect to shareholder proposals for annual meetings and the nomination of candidates for election as directors, other than nominations made by or at the direction of the Board or a committee thereof. A shareholder who wishes to bring a matter before a meeting must comply with the Company's advance notice requirements and provide the Company with certain information. Additionally, vacancies and newly created directorships may be filled only by a vote of a majority of the members of the Board then in office, even though less than a quorum, or by shareholders. These provisions may defer, delay or discourage a potential acquiror from conducting a solicitation of proxies to elect the acquiror's own slate of directors or otherwise attempting to obtain control of the Company.

Shareholder Action by Written Consent

As permitted by Section 228 of the DGCL, the Certificate of Incorporation states that any action required or permitted to be taken by the Company's shareholders must be effected at a duly called annual or special meeting and may not be effected by consent in writing by such shareholders.

Certain Anti-Takeover Matters

A significant number of the Company's regulated subsidiaries are subject to economic regulation by state public utility commissions. Some of these states have enacted laws that require regulatory approval for the acquisition of "control" of any regulated utility. In those states, obtaining "control" of the parent or any other company that controls a regulated utility also requires prior regulatory approval. The threshold for a change in control is a fact-specific inquiry that varies by state. For example, in some states, a presumption of control will arise when an acquiring party acquires more than 9.9% of the voting securities of the regulated utility or the controlling entity. In addition to ownership, other states may analyze the degree of influence or control an acquiror may exert over the company. Any person acquiring Common Stock in an offering or in any other purchase of Common Stock in an amount sufficient to trigger a change in control under state law would need the prior approval of the applicable state public utility commission.

Certain Other Provisions of the Certificate of Incorporation and Bylaws and the DGCL

Board of Directors

The Certificate of Incorporation provides that the number of directors is fixed in the manner provided in the Bylaws. The Bylaws provide that the number of directors will be fixed from time to time by the Board.

Business Combinations under Delaware Law

The Company is subject to Section 203 of the DGCL, which prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the time the shareholder became an "interested stockholder," subject to certain exceptions, including if, prior to such time, the board of directors approved the business combination or the transaction which resulted in the shareholder becoming an "interested stockholder." "Business combinations" include mergers, asset sales and other transactions resulting in a financial benefit to the "interested stockholder." Subject to various exceptions, an "interested stockholder" is a person who, together with his or her affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's outstanding voting stock. These restrictions generally prohibit or delay the accomplishment of mergers or other takeover or change-in-control attempts that are not approved by a company's board of directors.

Limitations of Liability and Indemnification of Directors and Officers

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their shareholders for monetary damages for breaches of directors' fiduciary duties. The Certificate of Incorporation includes a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director to the fullest extent authorized by the DGCL. The DGCL does not permit exculpation for liability:

- for breach of the duty of loyalty;

- for acts or omissions not in good faith or involving intentional misconduct or knowing violation of law;
- under Section 174 of the DGCL (relating to unlawful dividends or stock repurchases); or
- for transactions from which the director derived an improper personal benefit.

The Certificate of Incorporation and Bylaws provide that the Company will indemnify its directors and officers to the fullest extent permitted by law. The Bylaws also expressly authorize the Company to carry directors' and officers' insurance providing indemnification for its directors, officers and certain employees and agents for certain liabilities.

The limitation of liability and indemnification provisions in the Certificate of Incorporation and Bylaws may discourage shareholders from bringing a lawsuit against the Company's directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against the Company's directors and officers, even though such an action, if successful, might otherwise benefit the Company and its shareholders. In addition, an investment in the Common Stock may be adversely affected to the extent the Company pays the costs of settlement and damage awards against directors and officers in accordance with these indemnification provisions.

Proxy Access

The Bylaws permit an eligible shareholder or group of shareholders to include up to a specified number of director nominees in the Company's proxy materials for an annual meeting of shareholders. To qualify, the shareholders (or group of up to 20 shareholders) must have continuously owned for at least three years 3% or more of the Company's outstanding common stock. The maximum number of shareholder nominees permitted under this proxy access provision is the greater of (i) two or (ii) 20% of the total number of directors on the Company's board of directors as of the last day on which a proxy access notice may be submitted, rounded down to the nearest whole number.

Transfer Agent and Registrar

American Stock Transfer & Trust Company, LLC serves as the registrar and transfer agent for the Common Stock.

New York Stock Exchange Listing

The Common Stock is listed on the New York Stock Exchange under the trading symbol "AWK."

Exhibit 10.3

AMERICAN WATER

February 2, 2022

Ms. M. Susan Hardwick
14141 S. Penn Square Unit 37D
Philadelphia, PA 19102

Dear Susan:

On behalf of American Water Works Company, Inc. (the "Company") and its Board of Directors, we are pleased to offer you the position of Chief Executive Officer and President, effective February 2, 2022. As Chief Executive Officer and President of the Company, you shall have the authority to control the day-to-day operations of the Company and its corporate strategy subject to the Company's Bylaws and Delegation of Authority and to the directors and decisions of the Company's Board of Directors. You will also be elected to serve as a member of the Board of Directors, without additional compensation for such service. The following are the terms and conditions of your employment as the Company's Chief Executive Officer and President.

Base Salary: You will receive a bi-weekly salary of $38,461.54, which when annualized, would be approximately $1,000,000, subject to applicable withholdings. The salary grade for your position will be 100. Your compensation will be reviewed annually based on your performance as assessed by the independent members of the Board of Directors.

APP: You will continue to participate in the Company's Annual Performance Plan (APP). Your target award under the APP is 110% of your annual base salary, and for 2022 will not be prorated and will be based on your new salary and target levels. Under the terms of the APP, your actual award payout may be up to 200% of your target award and will be dependent on both (i) your individual performance which may result in an individual performance factor range of 0 to 200% of your target award and (ii) the application of the Company's Corporate Multiplier (which may range from 0 to 150%) to your individual award. The independent members of the Board of Directors will establish each performance year a set of mutually agreed upon APP goals and objectives for you as CEO and President. Your APP award for 2022 will be based on the level of progress towards achieving the goals and objectives that were agreed upon and approved by the independent members of the Board of Directors, as reflected in the minutes of the meeting of the Board of Directors at which they were approved. Your APP award target must be approved by the Executive Development and Compensation Committee, as well as the independent members of the Board.

LTPP: You will continue to participate in American Water's Long Term Performance Plan (LTPP). Your target payout under the LTPP is 400% of your annual base salary. Your grant for 2022 will be based on your new target. For reference purposes, awards are currently granted in the following forms of equity in the Company: 30% in restricted stock units, 35% in performance stock units based on relative total shareholder return (TSR) ranking and 35% percent in performance stock units based on compounded adjusted EPS growth. LTPP awards are granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan, as it may be amended from time to time (the Plan), the LTPP program then in effect, and a grant document. Your LTPP awards must be approved by the Executive Development and Compensation Committee of the Board, as well as the independent members of the Board. In the event of any conflict between the terms of your offer letter and the terms of the Plan, the LTPP program then in effect and the grant document, the terms of those other documents will govern.

AMERICAN WATER

In addition, as CEO and President, your equity awards will include specific post-retirement continued vesting provisions applicable to that position. Under these provisions, equity awards granted to you in this role will continue to vest over the normal vesting schedule of the award following your separation of service based upon either normal retirement, as follows:

- in the event of a normal retirement, defined as having attained age 60 and five years of service, an award will continue to vest in full; and
- in the event of an early retirement, defined as having attained age 55 and five years of service, 75 percent of each award will continue to vest.

Interim CEO compensation: In recognition and appreciation of your role as interim CEO from December 3, 2021 to January 31, 2022, you will receive a one time lump sum cash payment of $100,000, subject to applicable withholdings, which will be paid to you in the next pay period.

Executive Severance Policy and Change of Control Severance Policy: You will be entitled to the benefits and subject to the terms of the Company's executive severance policy and Change of Control Severance Policy, which provide severance benefits to executives whose employment is terminated under specified circumstances by American Water for reasons other than cause.

Benefits: You will continue to be eligible to participate in American Water's comprehensive benefits program for you and your eligible dependents.

401(k) Savings Plan: You will continue to be eligible to participate in the 401(k) Savings Plan.

Non-Qualified Deferred Compensation: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan. The Company may make Employer Matching and Defined Contribution Account contributions as soon as administratively practicable after the end of the applicable plan year.

Vacation/Holidays: You are entitled to five (5) weeks of vacation, six (6) floating holidays and eight (8) fixed holidays per calendar year which must be used in accordance with the Company's vacation policy.

American Water Confidential

AMERICAN WATER

Susan, we look forward to working with you as CEO and President as you continue to execute on our strategy and grow the Company.

Please signify your agreement with the foregoing terms of your continued employment by returning to my attention the original of this Agreement.

Sincerely,
/s/ KARL F. KURZ
Chairman of the Board
cc: Melanie Kennedy, EVP and Chief Human Resources Officer

I, Susan Hardwick, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

/s/ M. SUSAN HARDWICK
Signature

February 2, 2022
Date

SEPARATION AGREEMENT AND GENERAL RELEASE

This Separation Agreement and General Release ("Agreement") is between American Water Works Service Company, Inc. ("American Water" or the "Company") and Walter Lynch ("Executive").

WHEREAS, Executive is a full-time executive employee of American Water;

WHEREAS, Executive is voluntarily retiring from his employment with American Water, which will end on February 2, 2022 (the "Separation Date");

WHEREAS, Executive and American Water have agreed to resolve all claims and potential claims which have been, or could have been, brought by Executive against American Water arising out of Executive's employment with American Water to date;

WHEREAS, Executive and American Water desire to enter into this Agreement to document the terms of the separation of Executive's employment with American Water, with the parties agreeing that neither party admits wrongdoing, fault, or liability whatsoever, and that nothing herein shall be construed or interpreted as an admission of any wrongdoing, fault or liability of either party; and

NOW THEREFORE, in consideration of the mutual promises and releases contained herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. **Consideration.**

a. Severance. American Water shall pay Executive's current base salary from February 2022 through January 2023 (the "Severance Period"), which will be paid on American Water's regular pay schedule beginning the first regular pay day in February 2022 (the "Severance Payment"), provided that Executive (i) is not in breach of his obligations under Section 4 of this Agreement and (ii) has not otherwise revoked his waiver of any potential claims under the Age Discrimination in Employment Act of 1967 ("ADEA") or the Older Workers Benefit Protection Act ("OWBPA") in accordance with Section 9 of this Agreement. This amount will be subject to regular lawful withholdings and deductions.

b. Group Health Insurance. Executive, at his option, may continue to participate in American Water's group health insurance plan pursuant to the federal Consolidated Omnibus Budget Reconciliation Act, as amended ("COBRA"). American Water will reimburse all COBRA premiums and related costs for Executive during the Severance Period. Thereafter, Executive and any eligible dependents will be entitled to continue health care coverage at Executive's sole expense for the remaining balance of the coverage period pursuant to COBRA. Executive's right to COBRA health care continuation will be set forth in a

separate letter. If Executive elects not to participate in the Company's group health insurance plan or if Executive fails to make timely monthly contributions (as this term is defined in the COBRA documentation that shall be provided Executive), Executive shall lose all eligibility for continued participation in the Company's group health insurance plan.

2. **Valid Consideration.** Executive acknowledges and agrees that the consideration set forth in Section 1, in addition to any other salary, benefits, and terms and conditions of employment that he is receiving by way of this Agreement to which he is not otherwise entitled: (i) is not required by the Company's policies or procedures or by any pre-existing contractual obligation of American Water, (ii) constitutes valid consideration for the Executive's promises and obligations under this Agreement, and (iii) is in complete satisfaction of any and all compensation and benefits due to Executive from the Company (other than any of Executive's accrued benefits that vested prior to the Separation Date or as otherwise provided in Section 8).

3. **Confidentiality; Non-Disclosure; Return of Property, Disparaging Statements, References.**

   a. Confidentiality. Executive understands and agrees that the terms and contents of this Agreement shall remain confidential and shall not be disclosed by Executive or Executive's agents and representatives, with the exception of: (1) disclosure to members of Executive's immediate family, Executive's attorneys, accountants, tax or financial advisors, each of who shall be informed of this confidentiality obligation and shall agree to be bound by its terms; (2) disclosure to the Internal Revenue Service or state or local taxing authority; (3) disclosure as is expressly required or protected by law; (4) disclosure by American Water or its parent company, American Water Works Company, Inc., through a press release or in a filing with the Securities and Exchange Commission, or to a national stock exchange; (5) any disclosures made by the Executive to pursuant to the whistleblower provisions in the Exchange Act (15 U.S.C. § 78u-6) and the Sarbanes Oxley Act of 2002 (18 U.S.C. § 1514A); or (6) in any action to challenge or enforce the terms of this Agreement provided that such disclosure is covered by an appropriate confidentiality order to the maximum extent permitted by the applicable authority. Nothing contained in this Agreement shall preclude Executive from initiating and/or cooperating fully with any governmental investigation.

   b. Non-Disclosure of Confidential Information and Trade Secrets. Executive acknowledges that as an employee of American Water, Executive had access to and was entrusted with the Company's confidential and proprietary business information and trade secrets defined in this Section 3(b)(i). At all times prior to, during, and following Executive's separation from employment with American Water, Executive represents that he has maintained and agrees that Executive will continue to maintain such information in strict confidence and has not disclosed, used, transferred or sold and will not disclose, use, transfer or sell (directly or

indirectly) such information to any third party (except as may be required by law or legal process) so long as such information or proprietary data remains confidential and has not been properly and lawfully disclosed or is not otherwise in the public domain. Executive further agrees that, at the Company's request, Executive will deliver and/or provide access to any personal computing device, telephone, hard disk, backup tapes, cloud systems, disks or thumb or flash drives for the Company's review and permit the Company to delete all confidential and proprietary business information and trade secrets contained on such devices.

i. Definition of "Confidential and Proprietary Business Information and Trade Secrets. For purposes of this Agreement, "confidential and proprietary business information and trade secrets" includes, but is not limited to, all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer related data, marketing plans and strategies, financial information, documents relating to any of the foregoing, and other written and oral materials (whether computerized or on hard copy) which are related to the business of the Company and the confidentiality of which the Company attempts to maintain with reasonable efforts and which the Company has not released to the general public.

c. Notice of Immunity for Confidential Disclosure of a Trade Secret to an Attorney, the Government or in a Court Filing. Federal law provides certain protections to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances. Specifically, federal law provides that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret under either of the following conditions:

- Where the disclosure is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or
- Where the disclosure is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. 18 U.S.C. § 1833(b)(1).

Federal law also provides that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (A) files any document containing the trade secret under seal; and (B) does not disclose the trade secret, except pursuant to court order. 18 U.S.C. § 1833(b)(2).

d. Return of Property. Executive shall, on or prior to the Separation Date, return to American Water (and shall not retain any copies of) any and all property of the Company in Executive's possession, including (without limitation) all papers, documents, business plans, project or pipeline information, correspondence, office access badge, Company-issued cell phone, garage ID hang-tag, keys, credit cards, electronic or digitally stored information, and computer equipment.

e. Disparaging Statements. Executive agrees not to make written (to include online or other written statements) or oral statements about American Water, its affiliates, or any of the other Releasees (as defined in Section 5(a) below) that are negative or disparaging. Nothing in this Agreement shall preclude Executive from communicating or testifying truthfully (i) to the extent required or protected by law, (ii) to any federal, state, or local governmental agency, (iii) in response to a subpoena to testify issued by a court of competent jurisdiction, or (iv) in any action to challenge or enforce the terms of this Agreement. Executive understands that this is a material provision of this Agreement.

f. References. Executive agrees that all requests for references will be directed solely to the attention of Melanie Kennedy, Executive Vice President, Chief Human Resources Officer, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102, Melanie.Kennedy@amwater.com.

Upon any request for a reference, Ms. Kennedy will solely confirm Executive's dates of employment with American Water, positions Executive held with American Water, and Executive's last salary earned with American Water.

g. Taxes. As required by law, the Company will issue the appropriate IRS Form(s) at the appropriate time. Any payments provided for herein shall be reduced by any amounts required to be withheld by the Company from time to time under applicable federal, state or local income or employment tax laws or similar statutes or other provisions of law then in effect. Executive agrees that (i) Executive shall be solely responsible for all taxes, including, but not limited to, income and excise taxes, imposed on Executive in respect of amounts paid to Executive by the Company under this Agreement; (ii) Executive shall not seek reimbursement from the Company for such taxes; and (iii) Executive agrees to and does hereby indemnify and hold the Company harmless against any and all tax liability, interest, and/or penalties.

4. **Non-Competition and Non-Solicitation.**

a. Non-Competition.

i. Executive agrees that, during the Severance Period, Executive will not either alone or in association with others engage in any duties for a Competitive Business (as defined below) with respect to any business development opportunity, in either the Company's regulated or market-

based business anywhere in the United States, that is in the Company's pipeline, as of the date Executive executes the Agreement, of which Executive is aware or has been made aware through information received in any business planning session, business performance reviews, growth calls, commercial development committees, or any other manner. Executive agrees that he will not perform such duties either for Executive or any other person or any other business entity or organization that is engaged in any business or enterprise that is competitive with the Company's business ("Competitive Businesses"). The Company has identified the following companies as Competitive Businesses: Algonquin/Liberty, Essential Utilities, NextEra, and Corix.

"Engaging in" on Executive's part shall include the following activities: engaging in, working with, having an interest or concern in, advising, or permitting one's name to be used in connection with, an enterprise or endeavor, either individually, in partnership or in conjunction with any person or persons, firms, associations, companies or corporations, whether as a principal, agent, shareholder, employee, officer, director, partner, consultant or in any manner whatsoever (it is being understood that Executive will retain the right to invest in or have an interest in entities traded on any public market or offered by any national brokerage house, provided that such interest does not exceed 1% of the voting control of that entity).

b. Non-Solicitation.

i. Executive agrees that, during the Severance Period, Executive will not either alone or in association with others call on, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ Executive to call on or solicit, in any manner, any Client of the Company.

"Client" shall mean any corporation, partnership, association, United States military base, or United States (to include federal, state, county or local government) or foreign governmental entity that has or had an account or contract with the Company or any of its subsidiaries or parent during Executive's employment or on the Separation Date regardless of whether Executive has directly worked with such client.

ii. Executive further agrees that, during the Severance Period, Executive will not directly or indirectly, either alone or in association with others solicit, or permit any organization directly or indirectly controlled by Executive or which may employ Executive to solicit, any employee or executive of the Company to leave the employ of the Company, or solicit for employment, hire or engage as an independent contractor, or permit any organization directly or indirectly controlled by Executive or which may employ

Executive to solicit for employment, hire or engage as an independent contractor, any person who was employed by the Company at the time of the termination or cessation of Executive's employment with the Company; provided that this clause shall not apply to the solicitation, hiring or engagement of any individual whose employment with the Company has been terminated for a period of six (6) months or longer at the time of such solicitation, hiring or employment.

c. Extension of Restrictions. If Executive violates any of the provisions of this Section 4, the duration of the provisions shall automatically be extended, and Executive shall continue to be bound by the restrictions set forth in Section 4 until a period of twelve (12) months has expired without any violation of such provisions.

d. Interpretation. If any restriction set forth in Section 4 is found by any court of competent jurisdiction to be overbroad, such restriction shall be enforceable to the maximum extend permissible by law.

e. Equitable Remedies. The restrictions contained in this Section 4 are necessary for the protection of the business and good will of the Company and are considered by Executive to be reasonable for such purpose. Executive agrees that any breach of this Section 4 is likely to cause the Company substantial and irrevocable damage which is difficult to measure. Therefore, in the event of any such breach or threatened breach, Executive agrees that the Company shall be entitled to preliminary and permanent injunctive relief, without the necessity of a bond or other security and without proving actual damages, as well as to an equitable accounting of all earnings, profits and other benefits arising from any violations of this Agreement, which rights shall be cumulative and in addition to any other rights or remedies to which the Company may be entitled, including but not limited to liquidated and punitive damages. Executive further agrees that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against the Executive or a court of competent jurisdiction finds that Executive breached the terms of the Agreement.

5. **General Release of Legal Claims**

a. Executive, on behalf of Executive, and his heirs, executors, administrators, and/or assigns, does hereby releases and forever discharges American Water, together with its parents, subsidiaries, affiliates, predecessors, and successor corporations and business entities, past, present and future, and its and their agents, directors, officers, partners, employees, shareholders, insurers and reinsurers, and employee benefit plans (and the trustees, administrators, fiduciaries, insurers, and reinsurers of such plans) past, present and future, and their heirs, executors, administrators, predecessors, successors, and assigns (collectively, "Releasees"), of and from any and all legally waivable claims, causes of actions, suits, lawsuits, debts, and

demands whatsoever in law or in equity, known or unknown, suspected or unsuspected, which Executive ever had, now has or which Executive's executors administrators, or assigns hereafter may have from the beginning of time to the date Executive executes this Agreement, and including, without limitation, any claims arising from or relating to Executive's employment relationship with American Water, and the termination of such relationship, including, without limitation, any claims arising under Title VII of the Civil Rights Act of 1964 ("Title VII"), the Americans with Disabilities Act ("ADA"), the Employee Retirement Income Security Act ("ERISA"), the Family and Medical Leave Act ("FMLA"), the ADEA, the OWBPA, the New Jersey Law Against Discrimination ("NJLAD"), the Conscientious Employee Protection Act ("CEPA"), the New Jersey Family Leave Act, the New Jersey Millville Dallas Airmotive Plant Job Loss Notification Act, the New Jersey Equal Pay Act, the New Jersey Wage and Hour Law, the New Jersey Wage Payment Act, the New Jersey Constitution, the common law of the State of New Jersey, the Pennsylvania Human Relations Act, the Pennsylvania Equal Pay Law, the Pennsylvania Whistleblower Law, the Pennsylvania Public Employee Relations Act (if applicable), the Pennsylvania Pregnancy Guidelines of the Human Relations Commission, the common law of the State of Pennsylvania, and any and all other federal, state, or local constitutional, statutory, regulatory, or common law causes of action now or hereafter recognized, and any claims for attorneys' fees and costs. Nothing in this Agreement shall waive rights or claims that arise after the date that Executive executes this Agreement.

b. Notwithstanding the broad scope of Section 5(a), this Agreement is not intended to bar any claims that, as a matter of applicable law, whether by statute or otherwise, cannot be waived, such as claims for workers' compensation benefits, unemployment insurance benefits, and any claims that arise after the date that the Executive executes this Agreement. Nothing in this Agreement is intended to interfere with, prevent or prohibit Executive from filing a claim with a federal, state or local government agency that is responsible for enforcing a law on behalf of the government, such as the Equal Employment Opportunity Commission ("EEOC") (including a challenge to the validity of this Agreement), Department of Labor ("DOL"), Securities and Exchange Commission ("SEC") or National Labor Relations Board ("NLRB"). Nor should anything in this Agreement be read to deter or prevent Executive from cooperating with or providing information to such a governmental agency during the course of its investigation or during litigation. However, Executive understands and agrees that, that except for claims brought pursuant to the SEC's Whistleblower Program (15 U.S.C. § 78u-6 and 18 U.S.C. § 1514A), Executive may not recover any monetary benefit or individualized relief as a result of any such claim brought on Executive's behalf.

6. **Cooperation.** Executive agrees that Executive shall cooperate with the Company in the prosecution or defense of any claim currently pending or hereinafter pursued by or against the Company without the payment of any additional compensation other than as set forth in this Agreement. Upon receipt of appropriate supporting documentation,

American Water shall reimburse Executive for all of Executive's approved and reasonable costs and expenses incurred in connection with such cooperation. In the case of legal proceedings involving American Water, to the extent permissible by law, Executive will notify, in writing, the individual then holding the office of General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, of any subpoena or other similar notice to give testimony or provide documentation within two (2) business days of receipt of the same and prior to providing any response thereto. Nothing in this Agreement shall preclude Executive from participating in and fully cooperating with any governmental investigation.

7. **Business Expenses and Compensation.** Executive acknowledges and agrees that (i) should Executive execute this Agreement, the consideration set forth in this Agreement is in complete satisfaction of any and all compensation and benefits due to Executive from the Company, and that no further payments, compensation, benefits or other amounts are owed or will be paid to Executive by the Company, unless specifically described in this Agreement; (ii) Executive has been reimbursed by American Water for all business expenses incurred in conjunction with the performance of Executive's employment and that no other reimbursements are owed to Executive; and (iii) Executive has not suffered any on-the-job injury for which Executive has not already filed a claim.

8. **Accrued Benefits.** In addition to the consideration provided under this Agreement, following the Separation Date, Executive will be entitled to receive (i) any accrued, but unused, vacation as of the Separation Date, which will be paid to Executive on the first Company payroll date that follows the Separation Date and (ii) any accrued or owing, but not yet paid, vested benefits under the Company's 401(k) plan, pension plan, nonqualified deferred compensation plan, and post-employment retirement plan and any other plan in which Executive may have participated, will be paid to Executive at the times provided under such plans. Any restricted stock units and performance stock unit grants that were granted to Executive under the Company's Long Term Performance Plan ("LTPP") that are outstanding as of the Separation Date will be subject to the terms and conditions of the respective grant agreements covering such grants to include the letter agreement between Executive and the Company dated February 12, 2020 (the "Offer Letter").

9. **Acknowledgements.** Executive hereby certifies and acknowledges that:

   a. Executive has read the terms of this Agreement and that Executive understands its terms and effects, including the fact that Executive has agreed to **REMISE, RELEASE, AND FOREVER DISCHARGE** Releasees from all claims set forth in Section 5(a);

   b. Executive is receiving consideration which is in addition to anything of value to which Executive otherwise would have been entitled had Executive not executed this Agreement;

c. Executive enters into this Agreement knowingly and voluntarily without any coercion on the part of any person or entity;

d. Executive was given adequate time to consider all implications and to freely and fully consult with and seek the advice of whomever Executive deemed appropriate;

e. Executive was advised in writing, by way of this Agreement, to consult an attorney before signing this Agreement, and has in fact consulted with attorney Michael O'Connor, Esq.;

f. Executive has been given twenty-one (21) calendar days within which to consider his choice to waive any potential ADEA or OWBPA claims as set forth in Section 5(a) (the "Consideration Period") and, in the event that Executive signs this Agreement and returns it back to the Company in accordance with the Notice provision below during this Consideration Period, said signing constitutes a knowing and voluntary waiver of this Consideration Period. Executive further understands that any non-material changes to this Agreement do not restart the Consideration Period;

g. Executive shall have the right to revoke his waiver of any potential ADEA or OWBPA claims as set forth in Section 5(a) within seven (7) calendar days after signing the Agreement (the "Revocation Period"). If the seventh day is a weekend or national holiday, Executive has until the next business day to revoke. If Executive elects to revoke, Executive shall notify Melanie Kennedy, Executive Vice President, Chief Human Resources Officer, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102, Melanie.Kennedy@amwater.com in writing of Executive's revocation. Unless revoked within this period, Executive's waiver of potential ADEA or OWBPA claims will become irrevocable on the eighth (8th) day after the Agreement is signed;

h. Executive understands that the Consideration Period and Revocation Period set forth in Sections 9(f) and 9(g) above pertain only to Section 5(a)'s waiver of potential ADEA or OWBPA claims, and if he revokes his waiver of any potential ADEA or OWBPA claims, the remaining Sections of this Agreement shall remain fully valid and enforceable to the maximum extent consistent with applicable law, except that the Company will be under no obligation to provide the Severance Payment provided in Section 1;

i. Executive understands that he will not be entitled to receive the Severance Payment provided in Section 1 unless and until (i) Executive executes this Agreement within the Consideration Period, but no earlier than the Separation Date; (ii) the seven (7) day Revocation Period expires without Executive having exercised Executive's right of revocation; and (iii) Executive returns all Company property in accordance with Section 3(d); and

j. Executive does not waive rights or claims that may arise after the date this Agreement is executed.

10. **Indemnification and Similar Rights.** Nothing contained in this Agreement shall be construed to alter, limit, or release any right to indemnification, advanced payment of expenses, or similar rights that the Executive may have pursuant to the Company's bylaws, other governance instruments, insurance coverage, or applicable law relating to actions by the Executive on behalf of the Company within the scope of and during the course of his employment with the Company.

11. **Section 409A.** To the extent applicable, this Agreement is intended to comply with the applicable provisions of section 409(A) of the Internal Revenue Code. Accordingly, all provisions herein are intended to be construed and interpreted to comply with section 409A of the Code or an exemption therefrom. Further, for purposes of section 409A of the Code, it is intended that each payment provided for hereunder, including each payment under a right to receive installment payments, be treated as a separate payment. Executive agrees and understands that neither the Company nor any of the other Releasees (i) have any obligation to indemnify or otherwise protect Executive from the obligation to pay any taxes pursuant to section 409A of the Code and (ii) makes or has made any representation, warranty or guarantee to Executive of compliance under section 409A of the Code.

12. **General Terms.**

a. Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this Agreement shall be in writing and shall be deemed to have been given when delivered personally to the recipient, two (2) business days after the date when sent to the recipient by reputable express courier service (charges prepaid) or four (4) business days after the date when mailed to the recipient by certified or registered mail, return receipt requested and postage prepaid. Such notices, demands and other communications shall be sent to Executive and to the Company at the addresses set forth below:

If to Executive:
Walter Lynch
11 John James Audubon Way
Marlton, NJ 08053

If to Company:
Melanie Kennedy
Executive Vice President, Chief Human Resources Officer
American Water Works Service Company, Inc.
1 Water Street
Camden, NJ 08102

or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

b. Entire Agreement. This Agreement constitutes and contains the entire agreement and understanding concerning Executive's employment and termination thereof, and the other subject matters addressed herein between the parties, and supersedes and replaces all prior negotiations and all prior agreements proposed or otherwise, whether written or oral, concerning the subject matter hereof. Notwithstanding the foregoing, given Executive's expressed intent to retire, the terms of this Agreement supplement and do not replace any restrictive covenants (including but not limited to non-competition, non-solicitation, and non-disclosure obligations) contained in any other agreements to which Executive is a party, as well as any retirement or benefit plans in which Executive is or becomes a participant, that place greater restrictions on Executive.

c. Modification. This Agreement can be modified only by a writing signed by both Executive and a duly authorized agent of the Company.

d. Assignment. All of the terms and provisions of this Agreement shall be binding upon and inure to the benefit of and be enforceable by the respective heirs, executors, administrators, legal representatives, successors and assigns of the Company and Executive.

e. Interpretation of Agreement. If any provision of this Agreement or application thereof to anyone under any circumstances is adjudicated to be invalid or unenforceable in any jurisdiction, such invalidity or unenforceability shall not affect any other provision or application of this Agreement which can be given effect without the invalid or unenforceable provision or application and shall not invalidate or render unenforceable such provision or application in any other jurisdiction.

f. Choice of Law and Forum. This Agreement shall be governed by the substantive law of the state of New Jersey without regard to its conflict of law rules.

g. Arbitration. Any controversy, dispute, or claim arising out of or relating to this Agreement or an alleged breach thereof, as well as Executive's employment or the termination thereof, shall be settled by confidential and binding arbitration before JAMS. If such controversy, dispute or claim between the parties cannot first be resolved by informal meetings and discussions, the dispute shall be settled by the Employment Arbitration Rules and Procedures of JAMS then in effect, and a corresponding award and judgment may be entered in a court of competent jurisdiction. The arbitration may be initiated by one party by sending a demand for arbitration to the other party, which demand will preclude any party hereto from initiating an action in any court, except as otherwise provided by law. Executive and the Company will equally share the JAMS administrative fees and the arbitrator's fees and expenses, and Executive and the Company will pay their

own attorneys' fees, except as otherwise provided by law. Any such arbitration proceedings shall be confidential and closed to the public. Neither party shall disclose the existence, content, testimony, evidence, or results of the arbitration (the "Confidential Arbitration Information"), except as necessary to comply with legal, statutory, or regulatory requirements. Executive and the Company likewise agree to take all steps necessary to protect the confidentiality of the arbitration proceeding in connection with any related court proceeding, including taking all necessary steps to facilitate of the entry of an appropriate protective order that requires all Confidential Arbitration Information to be filed under seal in any such proceeding, to the extent permissible by law.

The Company and Executive have carefully read and understand all of the provisions of this Agreement. They enter into this Agreement freely, knowingly, and voluntarily. In entering into this Agreement, neither the Company nor Executive is relying upon any representations or promises not expressly set forth in this Agreement. Intending to be legally bound to this Agreement, the Company's representative and Executive sign their names below.

Executive is not permitted to sign this Agreement until February 2, 2022. If Executive signs this Agreement on or before February 2, 2022, it will be disregarded and will need to be re-signed. None of the consideration described in this Agreement will be provided to the Executive unless the Agreement is properly executed.

AMENDMENT THREE
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES
(As Amended and Restated Effective January 1, 2016)

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan For Employees of American Water Works Company, Inc. And Its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of its eligible employees; and

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Committee") to amend the Plan for amendments that do not have a material cost; and

WHEREAS, the Committee desires to amend the Plan, to change the age for the required beginning date from age 70-1/2 to age 72, effective as of January 1, 2020.

WHEREAS, this "Amendment" shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Amendment.

NOW THEREFORE, BE IT RESOLVED, that by virtue of the authority reserved to the Committee under Section 16.1 of the Plan, the Plan is hereby amended as follows:

1. Section 6.6(e)(iv) of the Plan is amended to read as follows:

"(iv) Required Beginning Date. April 1 of the calendar year following the year in which a Participant reaches age 70½ (age 72 for distributions required to be made after December 31, 2019 with respect to a Participant who attains age 70-1/2 after such date). The monthly pension of a Participant whose Required Beginning Date is April 1 of the calendar year in which he or she incurs a separation from service shall include an Actuarial Equivalent adjustment to reflect the commencement of payments after April 1 following the calendar year in which he or she attained age 70-1/2. The Actuarial Equivalent adjustment described in the preceding sentence for any year shall reduce (but not below zero) any increase in the Participant's Accrued Benefit for the year attributable to additional Years of Service for benefit accrual and Final Average Earnings."

IN WITNESS WHEREOF, this Amendment has been executed this 2nd day of August, 2021.

BENEFITS ADMINISTRATION COMMITTEE OF
AMERICAN WATER WORKS COMPANY,
INC. AND ITS DESIGNATED
SUBSIDIARIES

By: /s/ NICHOLL SALAMONE
Nicholl Salamone

Title: VP, Compensation & Benefits

Exhibit 10.17.4

AMENDMENT 2021-1
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan For Employees of American Water Works Company, Inc. and its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of eligible employees;

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Committee") to amend the Plan for amendments that do not have a material cost;

WHEREAS, pursuant to the Stock Purchase Agreement by and among the Company, New York American Water Company, Inc., and Liberty Utilities Co. (the "Purchaser") dated as of November 20, 2019 (the "Agreement"), the Company agreed to sell New York American Water Company, Inc. and its sole subsidiary, Mt. Ebo Sewage Works, Inc. to Purchaser (the "Transaction");

WHEREAS, the Transaction closed on January 1, 2022 (the "Closing Date");

WHEREAS, the Company desires to (a) freeze benefit accrual effective as of 11:59 pm of the date immediately prior to the Closing Date with respect to Transferring NYAWC Participants (as defined below); (b) transfer the assets and liabilities for the portion of the Plan attributable to these Transferring NYAWC Participants into the defined benefit plan designated by Purchaser as of the Closing Date (the "Pension Transfer"); and (c) remove New York American Water Company, Inc. and its sole subsidiary, Mt. Ebo Sewage Works, Inc. from eligibility to participate under the Plan effective as of the Closing Date; and

WHEREAS, "Transferring NYAWC Participants" shall consist of:

(a) all participants and former participants in the Plan who, as of the date immediately prior to the Closing Date (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with, the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and the Purchaser to be subject to the Pension Transfer,

(b) Frank Curtis, but solely with respect to the portion of his benefit under the Plan covered under the John Hancock Group Annuity Contract No. 334, and

(c) beneficiaries or alternate payees of the foregoing participants and former participants.

NOW THEREFORE, BE IT RESOLVED, the Plan is hereby amended as follows as of 11:59 pm of the date immediately prior to the Closing Date:

1. Article I of the Plan is amended by adding after the third paragraph therein the following new paragraph:

   In connection with that certain Stock Purchase Agreement by and among the Company, New York American Water Company, Inc., and Liberty Utilities Co., dated as of November 20, 2019 , pursuant to which the Company agreed to sell all of the issued and outstanding stock of New York American Water Company, Inc. to Liberty Utilities Co., the Company transferred all Plan assets and liabilities attributable to the Transferring NYAWC Participants (as defined in Appendix 8) to the defined benefit plan designated by Liberty Utilities Co. and the related trust. This transfer is effective as of January 1, 2022. Special provisions governing Transferring NYAWC Participants are set forth in Appendix 8.

2. The definition of "Accrued Benefit" under Section 2.1(a) of the Plan is amended by adding at the end thereof the following new sentence:

   With respect to Transferring NYAWC Participants (as defined in Appendix 8), Accrued Benefits shall be determined with regard to the provisions under Appendix 8.

3. A new Section 3.5 is added to the Plan to read as follows:

   Notwithstanding any other provision to the contrary, with respected to Transferring NYAWC Participants (as defined in Appendix 8), eligibility to participate shall be determined with regard to the provisions under Appendix 8.

4. The bullet point in Exhibit A (List of Designated Subsidiaries) that states "New York American Water Company, Inc. (participating only with respect to the component of the company formerly known as Long Island Water Corporation)" shall be deleted.

5. The Plan is amended by adding a new Appendix 8 to read as follows:

APPENDIX 8
TRANSFERRING NYAWC PARTICIPANTS

1.1 Application.

The provisions of this Appendix shall apply to Transferring NYAWC Participants. "Transferring NYAWC Participants" include all of following individuals:

(a) all participants and former participants in the Plan who, as of December 31, 2021, (1) are actively employed by New York American Water Company, Inc., (2) have terminated employment with, the Company and all members of its controlled group and, immediately before their terminations, were employed by New York American Water Company, Inc., or (3) are other former employees of New York American Water Company, Inc. designated by the Company and Liberty Utilities Co. to be

subject to the pension transfer described in Section 1.3 of this Appendix 8; and

(b) Frank Curtis, but solely with respect to the portion of his benefit under the Plan that was covered under the John Hancock Group Annuity Contract No. 334.

For purposes of clarification, the term "Transferring NYAWC Participant" shall also include beneficiaries or alternate payees of the foregoing Participants and former Participants.

1.2 Transferring NYAWC Participant Benefit Freeze.

Effective as of December 31, 2021 at 11:59 pm, with respect to each Transferring NYAWC Participant, Accrued Benefit shall be frozen. For purposes of benefit accrual, Earnings and Continuous Service shall be determined without regard to any period on or after January 1, 2022.

1.3 Transferring NYAWC Participant Post-Freeze Transfer.

Effective as of January 1, 2022, all of the Plan assets and benefit liabilities with respect to Transferring NYAWC Participants shall be transferred to the defined benefit pension plan designated by Liberty Utilities and its related trust. Following the transfer of assets and liabilities taking effect, a Transferring NYAWC Participant shall not be eligible to accrue additional benefits and shall not remain a Participant under the Plan with respect to benefits accrued prior to January 1, 2022, and New York American Water Company, Inc. shall not be a Designated Subsidiary under the Plan.

/s/ PricewaterhouseCoopers LLP
Philadelphia, Pennsylvania
February 16, 2022

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE AND PRINCIPAL FINANCIAL OFFICER

I, M. Susan Hardwick certify that:

1. I have reviewed this annual report on Form 10-K of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. I am the registrant's sole certifying officer, and I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. As the registrant's sole certifying officer, I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Responsible Witness: Dominic DeGrazia

Question 005

If TAWC is a separate entity, provide a current chart of accounts for TAWC and, if applicable, its Affiliated Utility Service Company. If TAWC is an operating division, also provide a current chart of accounts for the Multi-state Utility.

Response:

Please refer to 2024 TAWC MFG Q005_Attachment for the chart of accounts that are applicable to TAWC and Service Company.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 006

Provide copies of all rate case orders for TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company issued since TAWC's last rate case or within the past three (3) years, whichever time is shorter.

Response:

TAWC has not had a rate case in the past three (3) years. The last order was in TPUC Docket No. 12-00049 (November of 2012).

Please see 2024 TAWC MFG Q006_Attachment for the last rate case order.

BEFORE THE TENNESSEE REGULATORY AUTHORITY

AT NASHVILLE, TENNESSEE

November 20, 2012

IN RE:	)	
	)	
PETITION OF TENNESSEE AMERICAN WATER COMPANY FOR A GENERAL RATE INCREASE, IMPLEMENTATION OF A DISTRIBUTION SYSTEM INFRASTRUCTURE CHARGE AND THE ESTABLISHMENT OF TRACKING MECHANISMS FOR PURCHASED POWER, PENSIONS AND CHEMICAL EXPENSES	)	**DOCKET NO. 12-00049**

ORDER APPROVING SETTLEMENT AGREEMENT

This matter came before Chairman Kenneth C. Hill, Director Sara Kyle and Director James M. Allison of the Tennessee Regulatory Authority (the "Authority" or "TRA"), the voting panel assigned to this docket, at a regularly scheduled Authority Conference held on October 15, 2012, for consideration of the *Stipulation and Settlement Agreement* filed on October 1, 2012.

BACKGROUND

Tennessee-American Water Company ("TAWC" or the "Company") filed a *Petition* on June 1, 2012, requesting an increase in its annual revenues of $10,586,344, with an overall rate of return of 8.23% on a rate base of $135,820,256.[1] In addition, TAWC requested the implementation of a Distribution System Infrastructure Charge ("DSIC") and tracking mechanisms for Pensions and Purchased Power and Chemical Charges.[2] The Company also submitted pre-filed testimony from several witnesses in support of its *Petition*.

[1] *Petition*, p. 3 (June 1, 2012).
[2] *Id.* at 4-5.

Petitions to Intervene in this docket were filed by the Consumer Advocate and Protection Division of the Office of the Attorney General ("Consumer Advocate") on June 13, 2012; the City of Chattanooga (the "City") on July 5, 2012; the Town of Signal Mountain ("Signal Mountain") on July 6, 2012; Walden's Ridge Utility District on July 18, 2012; and the Chattanooga Regional Manufacturers Association on August 24, 2012. All Petitions to Intervene were granted by the Hearing Officer. [3]

Following substantial discovery, the Consumer Advocate, the City, and Signal Mountain submitted pre-filed testimony in the docket on August 27, 2012. On October 1, 2012, TAWC and the intervenors (collectively, the "Parties") submitted the *Stipulation and Settlement Agreement*, as described below.

STIPULATION AND SETTLEMENT AGREEMENT

The proposed *Stipulation and Settlement Agreement*, which is fully set forth in Exhibit A to this Order, provides for a revenue increase of $5,200,000 annually, which is a 12% overall increase.[4] For purposes of settling the docket, the Parties agree to a required net operating income of $9,550,649 and a rate base of $132,015,472.[5] In addition, the Parties agree to an overall return of 7.23%, which includes a return on equity of 10.0%.[6] The Parties further agree that the rates and rate design set as set forth in Attachment A to the *Stipulation and Settlement Agreement* are fair and reasonable and appropriate for use in this proceeding, and that the revised rates will have an effective date of November 1, 2012.[7] Further, the Company agrees to withdraw the proposed DSIC and tracking mechanisms from consideration and to file quarterly updates on capital spending in this docket.[8] The Parties also agree that the revised rates, tariffs,

[3] Chairman Kenneth C. Hill served as Hearing Officer in this docket. *See Order Suspending Tariff for One Hundred and Eighty Days, Convening a Contested Case and Appointing Hearing Officer* (June 14, 2012).
[4] *Stipulation and Settlement Agreement*, p. 3 (October 1, 2012).
[5] *Id.* at 4.
[6] *Id.*
[7] *Id.*
[8] *Id.* at 4-5.

rate schedules and service regulations in the settlement are fair and reasonable to all customer classes and will provide TAWC with a reasonable opportunity to recover the revenue requirement and a reasonable rate of return on investment.[9]

The Parties also agree that the revenue requirement for pension expense is calculated based on the latest actuarial report of FAS 87 for American Water Works Service Company and the ERISA minimum required contribution for TAWC. Further, the recovery of all costs in developing and implementing new software (described in testimony as Business Transformation) is included in the annual revenue requirement. In addition, the existing depreciation rates for TAWC will continue, except that the depreciation rate for assets in the Business Transformation project will apply effective November 1, 2012.

In their agreement, the Parties also request the Authority to order that the settlement of any issue pursuant to the *Stipulation and Settlement Agreement* shall not be cited by the Parties or any other entity as binding precedent in any other proceeding before the Authority or any court, state or federal.[10]

On October 2, 2012, TAWC filed tariffs consistent with the *Stipulation and Settlement Agreement*, with an effective date of November 1, 2012.

THE HEARING

The Hearing in this matter was held before the voting panel on October 15, 2012, as noticed by the Authority on October 5, 2012.[11] Participating in the Hearing, either personally or telephonically, were the following Parties and their respective counsel:

> Tennessee-American Water Company – **Melvin J. Malone, Esq.,** Butler, Snow, O'Mara, Stevens & Cannada, PLLC, 1200 One Nashville Place, 150 Fourth Ave. North, Nashville, TN 37219 and **Lindsay W. Ingram, III, Esq.**, Stoll Keenon Ogden PLLC, 300 West Vine St., Suite 2100, Lexington, KY 40507.

[9] *Id.* at 5.
[10] *Id.* at 8.
[11] On October 12, 2012, TAWC filed its Notice of Publication as required by TRA Rule 1220-4-1-.05. The Notice included, among other things, proof of the Company's public notice of the panel's October 15, 2012 deliberations.

Consumer Advocate and Protection Division – **Ryan McGehee, Esq.**, Office of the Attorney General, 425 5th Ave. N, John Sevier Building, P.O. Box 20207, Nashville, TN 37202.

City of Chattanooga – **Frederick L. Hitchcock, Esq.**, Chambliss, Bahner & Stophel, PC, 1000 Tallan Building, Two Union Square, Chattanooga, TN 37402 and **Michael A. McMahan, Esq.**, 100 East 11th St., Suite 200, Chattanooga, TN 37402.

Town of Signal Mountain – **Phillip A. Noblett, Esq.**, 100 East 11th St., Suite 200, Chattanooga, TN 37402.

Walden's Ridge Utility District – **William H. Horton, Esq.**, Horton, Ballard & Pemerton, 735 Broad St., Suite 306, Chattanooga, TN 37402.

Chattanooga Regional Manufacturers Association – **David Higney, Esq.**, Grant, Konvalinka & Harrison, PC, 633 Chestnut St., Suite 900, Chattanooga, TN 37450.

During the Hearing, the Consumer Advocate presented the *Stipulation and Settlement Agreement* to the panel, and all Parties indicated they were in agreement. Members of the public were given an opportunity to present comments, but no one sought recognition to do so.[12]

FINDINGS AND CONCLUSIONS

Following the Hearing and presentation of the proposed *Stipulation and Settlement Agreement*, the panel deliberated this matter at the regularly scheduled Authority Conference held on October 15, 2012. The panel found that the terms of the agreement were within the "zone of reasonableness" that takes into consideration both the interests of the consumer and the utility,[13] and further promote the public interest by balancing the interests of the utility consumers and the provider. In addition, the panel found that, in accepting the agreement, the Authority was not adopting any specific means, models or methodologies used to calculate the resulting agreed-upon terms. Based upon these findings, the panel voted unanimously to approve the *Stipulation and Settlement Agreement.*

[12] A public service standard hearing was held in Chattanooga on September 20, 2012, during which several members of the public appeared and presented comments.

[13] *See Tennessee Cable Television Ass'n v. Public Serv. Comm'n,* 844 S.W. 2nd 151, 159 (Tenn. Ct. App. 1992).

IT IS THEREFORE ORDERED THAT:

1. The *Stipulation and Settlement Agreement,* a copy of which is attached to this Order as Exhibit A, is approved and adopted, and incorporated in this Order as if fully rewritten herein.

2. The settlement of any issue pursuant to the *Stipulation and Settlement Agreement* shall not be cited by the Parties or any other entity as binding precedent in any other proceeding before the Authority or any court, state or federal.

Chairman Kenneth C. Hill, Director Sara Kyle and Director James M. Allison concur.

ATTEST:

Earl Taylor

Earl R. Taylor, Executive Director

Exhibit A

filed electronically in 10/01/12

IN THE TENNESSEE REGULATORY AUTHORITY
AT NASHVILLE, TENNESSEE

IN RE: PETITION FOR A GENERAL RATE INCREASE, IMPLEMENTATION OF A DISTRIBUTION SYSTEM INFRASTRUCTURE CHARGE AND THE ESTABLISHMENT OF TRACKING MECHANISMS FOR PURCHASED POWER, PENSIONS AND CHEMICAL EXPENSES	))))))	**DOCKET NO. 12-00049**

STIPULATION AND SETTLEMENT AGREEMENT

Tennessee American Water Company ("TAWC" or "Company") and Robert E. Cooper, Jr., the Tennessee Attorney General and Reporter, through the Consumer Advocate and Protection Division ("Consumer Advocate"), the City of Chattanooga ("City"), the Chattanooga Regional Manufacturers Association ("CRMA"), Walden's Ridge Utility District ("Walden's Ridge"), and the Town of Signal Mountain ("Signal Mountain") (collectively, "Parties") constituting all of the parties to the above-captioned general rate proceeding and in comprehensive settlement of the matters at issue therein, do hereby stipulate and agree as follows:

BACKGROUND

1. TAWC is a wholly-owned subsidiary of American Water Works Company, Inc. TAWC is incorporated under the laws of the State of Tennessee and is duly domesticated and engaged in the business of providing water service to customers in Hamilton County and surrounding areas, including customers in Georgia. TAWC's principal office and place of business is located at 1101 Broad Street, Chattanooga, Tennessee 37402.

2. TAWC is a public utility in Tennessee and is subject to regulation and supervision by the Tennessee Regulatory Authority ("TRA" or the "Authority") pursuant to Chapter 4 of Title 65 of the Tennessee Code Annotated.

3. On June 1, 2012, TAWC filed a Petition for Adjustment of its Rates and Charges. In its petition, TAWC sought an increase in its annual revenues of $10,586,344, an increase in rates of 24.9%. In addition, TAWC requested the implementation of a Distribution System Infrastructure Charge ("DSIC") and tracking mechanisms for Purchased Power, Pensions and Chemical Expenses.

4. On June 13, 2012, the Consumer Advocate filed a Petition to Intervene in this proceeding. On July 5, 2012, the City filed a Petition to Intervene. On July 6, 2012, Signal Mountain filed a Petition to Intervene. On July 18, 2012, Walden's Ridge filed a Petition to Intervene. On August 24, 2012, CRMA filed a Petition to Intervene. Herein, the Consumer Advocate, City, Signal Mountain, CRMA and Walden's Ridge (collectively, "Intervening Parties") constitute the only entities which have sought intervention in this proceeding.

5. Since the filing of TAWC's Petition, the Parties to this proceeding have engaged in substantial discovery, informal information exchanges and extensive communication. In addition to the information provided pursuant to the Authority's Minimum Filing Requirements, TAWC has responded to 86 data requests from the Authority's Staff and 255 data requests from the Intervening Parties. TAWC representatives and representatives from the Consumer Advocate have also spent a significant amount of time discussing the various aspects of the Company's rate case.

6. On August 27, 2012, the Consumer Advocate, the City, Signal Mountain, and Walden's Ridge filed testimony in this proceeding challenging several aspects of the Company's

Petition, including the requested revenue increase. In this testimony, witnesses for the Consumer Advocate and the City recommended a number of changes to the relief sought by TAWC, including a proposed reduction in the Company's attrition period revenue requirement. The Consumer Advocate proposed a revenue increase of $2.8 million, an amount millions less than that proposed by the Company. In addition, the Consumer Advocate and the City opposed the Company's proposed DSIC and tracking mechanisms for Pensions, Chemical and Purchased Power.

SETTLEMENT

7. Following TAWC's review of the direct testimony filed by the Intervening Parties, representatives of TAWC, the Consumer Advocate, CRMA and the City met by phone and in person to discuss the possibility of a settlement in this proceeding.

8. Based on the exchange of information and discussions described above, and in order to resolve this case through settlement and avoid the need for further litigation and expenses for all Parties and without waiving any positions asserted in this docket, TAWC and the Intervening Parties have agreed to certain adjustments to TAWC's petition which are discussed herein.

9. Attrition Period. TAWC and the Consumer Advocate agree that the appropriate attrition period for use in this proceeding is the 12 months ended November 30, 2013.

10. Revenue Deficiency. The adjustments to TAWC's filed case described in paragraph 8 above collectively reduce TAWC's attrition period revenue deficiency from $10,586,344 (an increase of 24.9%) to $5,200,000 (an increase of 12.0%). Subject to Authority

approval, the Company and the Intervening Parties agree that this reduction in TAWC's attrition period revenue deficiency is reasonable and appropriate.

11. Revenue Requirement. The Company and the Intervening Parties agree that TAWC's attrition period cost of service should include the components set forth on Attachment A hereto, which TAWC and the Intervening Parties agree are fair and reasonable to the Company and its customers for purposes of settling this docket and which include the following:

a. Required Operating Income of $9,550,649;

b. A rate base of $132,015,472;

c. An overall rate of return of 7.23%;

d. A return on common equity of 10.0%;

e. A capital structure consisting of 3.30% short-term debt, 62.29% long-term debt, and 34.38% equity;

f. A cost of short-term debt of 1.0%;

g. A cost of long-term debt of 6.04%;

12. Rates. TAWC and the Intervening Parties agree that the rates reflected on Attachment A are fair and reasonable and appropriate for use to resolve this proceeding.

13. TAWC and the Intervening Parties further stipulate and agree:

a. Subject to TRA approval of this Stipulation and Settlement Agreement, the rates proposed in this Stipulation and Settlement Agreement shall have an effective date of November 1, 2012.

b. The rate design set forth on Attachment A hereto, including the constituent components of rates for each of TAWC's customer classes, is fair and reasonable and appropriate for use in this proceeding;

c. The Company withdraws the proposed DSIC and tracking mechanisms for Purchased Power, Pensions and Chemical Expenses from consideration in this proceeding.

d. TAWC shall file quarterly updates on capital spending which shall be filed publicly in this docket and served electronically to the Consumer Advocate.

e. The revenue requirement for pension expense is calculated based on the latest actuarial report of FAS 87 for American Water Works Service Company and the ERISA minimum required contribution for TAWC.

f. That recovery of all costs in developing and implementing new SAP-based software (described in TAWC testimony as Business Transformation) is included in the agreed-upon $5.2 million annual revenue requirement. The Intervening Parties reserve the right to challenge the reasonableness, prudency and accuracy of any costs associated with Business Transformation or other system implemented by AWWC and TAWC in future proceedings.

g. That the existing depreciation rates for TAW shall continue to apply except that the depreciation rate of 10% per year for assets included in TAWC's "Business Transformation" project shall apply effective November 1, 2012.

14. The Parties hereby agree that the revised rates, tariffs, rate schedules, and service regulations agreed to herein, both individually and in the aggregate, are fair and reasonable to all customer classes and will provide TAWC with a reasonable opportunity to recover the agreed-upon operating revenue requirement and a reasonable rate of return on investment.

15. The Parties agree to support this Stipulation and Settlement Agreement before the Authority and in any hearing, proposed order, or brief conducted or filed in this proceeding; provided, however, that the settlement of any issue provided for herein shall not be cited as precedent by any of the stipulating Parties hereto in any unrelated or separate proceeding or docket before the Authority. The resolution of issues reflected herein is the result of give and take negotiations between the Parties and does not necessarily reflect the position of any single Party on any discrete issue. None of the signatories hereto shall be deemed to have acquiesced in any ratemaking or procedural principle, including without limitation, any cost of service

determination or cost allocation or revenue-related methodology and neither Party waives its right to take positions with respect to the matters settled herein in future proceedings before the Authority. This Stipulation and Agreement shall not have any precedential effect in any future proceeding or bind any of the settling Parties in this or any other jurisdiction except to the extent necessary to implement the provisions hereof.

16. The Parties agree that all pre-filed testimony, discovery responses and exhibits of the Parties (including pre-filed supplemental testimony and exhibits supporting this Stipulation and Settlement Agreement) may be admitted into evidence without objection and the Parties hereby waive their right to cross-examine all witnesses with respect to such pre-filed testimony and exhibits; provided, however, that should questions be asked of such witnesses by any person at the hearing of this matter (including any questions by Directors or Authority staff), the Parties may cross-examine any witness with respect to such questions consistent with the agreements set forth in this Stipulation and Agreement.

17. The provisions of this Stipulation and Settlement Agreement are agreements reached in compromise and settlement and solely for the purpose of resolving this docket without the need for further litigation.

18. The stipulations agreed to in this Stipulation and Settlement Agreement, which are the product of negotiations and substantial communication and compromise between the Parties, are just and reasonable and in the public interest. The Parties jointly recommend that the Authority issue an order adopting this Stipulation and Settlement Agreement in its entirety without modification.

19. In the event the TRA does not accept the Stipulation and Settlement Agreement in whole and as full and final settlement of the issues in this Docket or if the TRA, this Stipulation

and Settlement Agreement shall terminate and the Parties shall not be bound by any position set forth in this Stipulation and Settlement Agreement. In the event the TRA should modify all or any portion of the Stipulation and Agreement, or impose additional conditions and requirements upon the Parties, each Party shall have the right within ten (10) days of the TRA's decision modifying the Stipulation and Settlement Agreement to file a notice of termination or withdrawal from the Stipulation and Settlement Agreement.

20. Should this Stipulation and Settlement Agreement terminate, it will be considered void and have no binding effect, and the signatories to this Stipulation and Settlement Agreement reserve their rights to fully participate in all relevant proceedings notwithstanding their agreement to the terms of this Stipulation and Settlement Agreement. The provisions of this Stipulation and Settlement Agreement are not severable.

21. By agreeing to this Stipulation and Settlement Agreement, no Party waives any right to continue litigating this matter should the Stipulation and Settlement Agreement be rejected or modified by the TRA in whole or in part. In such event, the terms of this Agreement shall not be deemed binding upon the Parties and the Agreement shall not be admitted into evidence, or referred to, or relied upon in any manner by any Party.

22. In order to facilitate the execution of this Agreement and to achieve one of the purposes of this Agreement of avoiding the need for further litigation and expenses, TAWC will not file rebuttal testimony that might have otherwise been filed. However, in the event that any Party and/or the TRA require that hearings go forward pursuant to this paragraph, then the Parties agree that all Parties should be permitted to move the TRA for the establishment of a procedural schedule which would permit the Parties to submit evidence and testimony that has not been submitted as a result of reaching this Agreement.

23. No provision of this Stipulation and Settlement Agreement shall be deemed an admission of any Party. No provision of this Stipulation and Settlement Agreement shall be deemed a waiver of any position asserted by a party in this docket.

24. The Parties agree to support this Stipulation and Settlement Agreement in any proceeding before the Authority in this Docket; however, the Parties further agree and request the Authority to order that the settlement of any issue pursuant to this Stipulation and Settlement Agreement shall not be cited by the Parties or any other entity as binding precedent in any other proceeding before the Authority or any court, state or federal.

25. The provisions of this Stipulation and Settlement Agreement do not necessarily reflect the positions asserted by any Party, and no Party to this Stipulation and Settlement Agreement waives the right to assert any position in any future proceeding except as expressly stipulated herein.

26. Approval by the TRA of the provisions of this Stipulation and Settlement Agreement shall not be construed as a waiver of prior TRA rate case and policy decisions.

27. This Stipulation and Settlement Agreement shall be governed by and construed under the laws of the State of Tennessee, notwithstanding conflict of law provisions.

28. The parties agree that this Stipulation and Settlement Agreement constitutes the complete understanding among the parties and any and all oral statements, representations or agreements made prior to the execution of this Stipulation and Settlement Agreement shall be null and void and shall be deemed to have been merged into this Agreement.

29. The signatories to this Stipulation and Settlement Agreement warrant that they have informed, advised and otherwise consulted with the parties for whom they sign regarding the contents and significance of this Stipulation and Settlement Agreement, and, based upon

those communications, the signatories represent they are authorized to execute this Stipulation and Settlement Agreement on behalf of the parties.

30. The parties agree that this Agreement may be executed in multiple counterparts.

The foregoing is agreed and stipulated to this 1st day of October, 2012.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Robert Prendergast

Question 007

Provide any costs associated with any employment and/or termination contracts TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company has or has had with management personnel since the last rate filing in Tennessee and provide copies of such.

Response:

See Table below for the requested information covering the three-year period January 1, 2021 through December 31, 2023:

	Employment Agreements	Separation/Severance Agreements
TAWC	$187,101	$35,308
Service Company	$4,005	$85,164

Note 1 - Employment Agreements consist of relocation expenses and retention agreements.
Management personnel consists of employees who hold the position of Vice President or above.

Note 2 – Service Company Costs reflect only TNAW's allocation of overall costs.

Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Robert Prendergast

Question 009

If TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, seeks to recover in its rates to the Tennessee ratepayers any separation payments made under any of the contracts, state the amount of any separation payments since the last rate filing in Tennessee.

Response:

TAWC is seeking to recover $27,276 of severance expense in the attrition year ending December 31, 2025, based on a 3-year average of severance expense. Please see the below table for TAWC severance expense for 2012-2023.

Year	Severance Expense
2012	$114,716
2013	2,118
2014	30,936
2015	22,510
2016	13,142
2017	12,201
2018	49,884
2019	25,526
2020	0
2021	79,842

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Dominic DeGrazia

Question 011

If not provided in response to other items, provide the latest fiscal year-end Income Statement and Balance Sheet for TAWC, its Parent, Multi-State Utility, and Affiliated Utility Service Company. Provide an explanation of any differences in the year-end Income Statement and Balance Sheet for TAWC, its Parent, Multi-State Utility, and Affiliated Utility Service Company as set forth in its Annual Report to shareholders and its internal financial statements.

Response:

Please refer to 2024 TAWC MFG Q011_Attachment for year-ending December 31, 2023, Income Statement and Balance Sheet for TAWC.

Please refer to 2024 TAWC MFG Q011_Attachment 2 for the explanation of any differences in the year-end Income Statement and Balance Sheet for TAWC provided in 2024 TAWC MFG Q011_Attachment and the TAWC 2023 Unaudited Financial Statements referred to in response to MFG 004 and TAWC 2024 TAWC MFG Q004_Attachment 18.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Dominic DeGrazia

Question 012

Provide all detailed workpapers, cost studies, or other data supporting all proposed tariff changes, adjustments to revenues, expenses, rate base, and other changes included in the testimony and exhibits filed by TAWC. Provide computer files containing schedules for all computer-based calculations.

Response:

Please see the zip folder named TAWC 2024 Rate Case for the requested information.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: John Watkins

Question 013

Provide a detailed list of all TAWC's affiliated party transactions for the past two years, including the nature and amount of each transaction.

Response:

TAWC has affiliated party transactions with American Water Capital Corp (AWCC) where they are provided short and long-term debt funding and investments. TAWC also has affiliated party transactions with American Water Works Service Company (AWWSC) that provides services which include accounting and finance, administration, business development, communications, compliance, education and training, engineering, health and safety, human resources, information systems, internal audit, investor relations, legal and governance, operations, procurement, rates and regulatory support, security, risk management, treasury, water quality and research and development.

Please refer to 2024 TAWC MFG Q013_Attachment for the transaction amounts for the last two years.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Grady Stout

Question 015

Provide a list of TAWC's customer service initiatives, and performance measures, including a description and analysis of the effectiveness of each for the last two (2) years. If applicable, the analysis should include, but not be limited to, time to connect the customer to the system, response time to service inquiries, restoring of service, new meter installations, billing inquiries, meeting appointment times, etc. If you have identified other areas that you monitor, include them in this response.

Response:

Please see the attached Report on Field Service Operations.

Question 017

REVENUES

Identify TAWC's twenty-five (25) largest customers, based on volumes delivered, for the latest fiscal year. If TAWC projects a material change in the volumes delivered or rates charged to any such customer, provide a mailing address, contact person, telephone number, and the following information for each customer:

a. Transportation and sales volumes by tariff and by month for the last three (3) fiscal years for each customer, including the step volume information for the appropriate classification.

b. Copies of all correspondence and notes of discussion or meetings with these customers regarding their anticipated usage from the test period through the attrition period.

Response:

MFG Q017: Confidential Attachments Filed Under Seal.

Question 019

REVENUES

Provide a list of TAWC's customers who have changed rate classes in the test period. Show the schedule movement and any adjustments you have made to the bills and usage for the attrition period. Provide the number of net additions by customer classification and by month for the latest 24 months.

Response:

Please see 2024 TAWC MFG Q019_Attachment for a listing of TAWC's customers who have changed rate classes in the test period. No adjustments were made to the test period. Customers are reflected in the Company's forecast model under their new classification. Please see 2024 TAWC MFG Q019_Attachment for the number of net changes by customer classification and by month for 2022 & 2023.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 020

REVENUES

Provide the number of TAWC's billing cycles per month and the identity of any specific groups of customers billed on a particular cycle.

Response:

Tennessee American Water Company has one billing cycle per month that includes 204 active meter reading groups within different regions. All water customers are billed monthly except for Private Fire Service customers that are billed in advance on a quarterly basis.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 021

REVENUES

Provide a copy of all weather normalization workpapers used in projecting attrition period revenues. Provide weather normalized (if applicable) water sales usage, by class of customer and supporting documentation for the test period. Provide computer files for this information.

Response:

Please refer to the following filing exhibits:

TAWC Exhibit CBR-3 – Residential Usage Model

TAWC Exhibit CBR-4 – Commercial Usage Model

TAWC Exhibit CBR-5 – Public Authorities Usage Model

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 022

REVENUES

Provide a copy of any usage and growth trends and any adjustments used to project revenues.

Response:

Please refer to TAWC MFG Q022_Attachment for growth and usage trends utilized to project revenues in TAWC Exhibit Rev – 3 Revenue Forecast. Please also see the Direct Testimony of Company Witness Charles Rea.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 023

REVENUES

Provide the computation of an average bill for a residential water customer under the present and proposed rate schedules.

Response:

Please refer to Petitioner's Exhibit Rev – 4: Residential Bill Comparison-HB for the requested information.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Grady Stout

Question 024

REVENUES

Provide the computation of the average cost of adding a new residential customer in Tennessee for the last three (3) fiscal years.

Response:

The below average costs include all new residential and irrigation services for TAWC.

2021 Average Cost – $2,356.99 (943 Services)

2022 Average Cost – $2,716.09 (999 Services)

2023 Average Cost – $2,574.40 (1,297 Services)

Please see: 2024 TAWC MFG Q024 Attachment

	2021	2022	2023
G Line Total Spend	$ 2,222,641.33	$ 2,713,375.73	$ 3,339,001.50
New services (fire service, irrigation, domestic water)	943	999	1297
Average	$ 2,356.99	$ 2,716.09	$ 2,574.40

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 025

REVENUES

Provide a breakdown by source of all revenues shown as "Other Operating Revenues" for the test period and attrition period. Include the units and rates for each source.

Response:

Please refer to Petitioner's Exhibit Rev – 3: Revenue Forecast-HB for the requested information.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 026

REVENUES

Explain any large variances in Other Revenues between the test period and the attrition period.

Response:

There are four large variances in Other Revenues between the test period and the attrition year.

Activity	Test Period	Attrition Period	Variance
Activity Fee	$241,140	$224,355	($16,785)
New Service Fee	$0	$27,800	$27,800
Reconnection Fee Sewer	$161,715	$142,515	($19,200)
Late Payment Charge	$382,652	$436,312	$53,660

Activity fees of $15 were being applied to new service fee activity in the test period instead of the $25 new service fee proposed for the attrition year. The Company's revenue forecast reflects new service fee activity being subject to the $25 new service fee instead of the $15 Activity Fee.

Reconnection Fees related to sewer disconnection requests had a double booking of $15,240 in the test period. The activity related to the double booking is not included in calculating attrition period Reconnection Fee Sewer activity.

Late Payment Charges are calculated as a percentage of revenue. The increase in late payment fees is due to organic growth and higher projected rider revenue in the attrition period.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 027

REVENUES

List all special contract customers and their usage by month during the test period. Explain any anticipated changes in usage during the attrition period.

Response:

The Company currently has the following four sales for resale special contracts: Catoosa County, Fort Oglethorpe, Signal Mountain, and Walker County. Please refer to the SFR Revenue tab in TAWC Exhibit Rev – 3 Revenue Forecast for monthly historical usage and projected monthly usage for the attrition year. The Company has utilized the contracted minimum usage to quantify attrition year usage projections under each contract. The contracts for Signal Mountain and Walker County have been recently revised, and the lower contracted minimum usage is reflected in the usage projections in the Company's revenue forecast.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Heath Brooks

Question 028

REVENUES

Provide a comparative analysis of costs for a typical residential customer using current rates. State the Company's assumptions in preparing this analysis, along with backup for those assumptions.

Response:

Please refer to Petitioner's Exhibit COS – 1: Class Cost of Service Study-HB for all cost analysis information.

Question 031 – Public Version

EXPENSES

Provide a schedule(s) of employees for the test period, identifying them as hourly or salaried, part or full time, and the account to which their compensation is charged. Identify the regular, overtime, and total hours worked during the test period. Also, show the regular and total earnings during the test period. For those employees working only a partial year, give the dates of employment. Identify pay raises, month and percentage, from the test period through the attrition year. Where appropriate, show the allocation of compensation for such employees or appropriate employee group between states and between utility and non-utility operations. Also, indicate any anticipated changes in employment levels through the attrition period.

Response:

Confidential response filed under seal.

Question 033

EXPENSES

Provide a description of each type of service that employees of the Parent, Multi-state Utility, or Affiliated Utility Service Company perform for the Tennessee operations.

Response:

Please see the Service Company Agreement and description of service company functions in 2024 TAWC MFG Q033_Attachment.

13

AGREEMENT

Agreement dated January 1, 1989, between AMERICAN WATER WORKS SERVICE COMPANY, INC., a Delaware corporation (hereinafter "Service Company"), and TENNESSEE-AMERICAN WATER COMPANY, a Tennessee corporation (hereinafter "Water Company").

The background of this Agreement is that:

1. Both Service Company and Water Company are subsidiaries of American Water Works Company, Inc., a Delaware corporation (hereinafter "American").
2. Water Company has been organized for and is presently engaged in the business of providing potable water as a public utility in the State of Tennessee.
3. Service Company maintains an organization whose officers and employees are familiar with all facets of the water utility business, including the development, business and property of Water Company, and are experienced in the efficient management, financing, accounting and operation of water utility properties and the extension and improvement thereof. The officers and employees of Service Company are qualified to aid, assist and advise Water Company in its business operations through the services to be performed under this Agreement.
4. Service Company has provided administrative and operating services to Water Company for many years, the past 17 years pursuant to an agreement dated January 1,

1971. Because Water Company is of the opinion that it cannot obtain the same quality and diversification of services on a comparable economic basis elsewhere, it proposes to enter into a new agreement with Service Company more specifically defining the types of services available to it.

5. Service Company has entered or proposes to enter into agreements similar to this agreement with other affiliated water companies (hereinafter collectively "Water Companies").

6. The services to be rendered under this agreement are to be rendered by Service Company to Water Companies at their cost to Service Company, as hereinafter provided.

NOW, THEREFORE, in consideration of the premises and mutual agreements herein contained, the Water Company and Service Company agree that:

ARTICLE 1. PERSONNEL AND SERVICES TO BE PROVIDED

1.1 During the term of this agreement and upon the terms and conditions hereinafter set forth, Service Company shall provide corporate guidance for Water Company. In addition to the guidance provided by the officers and employees of Service Company through the coordination of functional activities for all subsidiaries of American, the officers and employees of Service Company shall furnish and Water Company shall purchase from Service Company, the following services: Accounting, Administration, Communication, Corporate Secretarial, Engineering, Financial, Human Resources,

Information Systems, Operation, Rates and Revenue, Risk Management and Water Quality, together with such other services as Water Company and Service Company may agree; provided, however, that Water Company may perform the service with its own personnel or engage another company or person to provide those services on its behalf. Service Company by mutual consent may engage another Company or person to provide such services on its behalf.

1.2 Service Company shall employ qualified officers and employees and those persons shall be available for election by Water Company to serve as officers of Water Company.

1.3 Without limitation, services to be provided by the Service Company shall be rendered as follows:

A. Accounting: Service Company shall assist in the preparation and implementation of accounting methods and procedures to determine that they conform fully to the requirements, rules and regulations of governmental authorities having jurisdiction and review Water Company's monthly financial reports, annual reports and other reports to stockholders and to any governmental authorities. It shall advise and assist in the establishment and maintenance of current record keeping techniques; review accounting procedures, methods and forms; and evaluate systems of internal control for receipt and disbursement of funds, materials and supplies, and other assets. Service Company shall maintain accounting records as required by Water Company. When appropriate, Service Company shall cooperate and consult with Water Company's independent certified public accountants.

Service Company shall assist in the preparation of operating and construction budgets and monitor the control over such budgets by comparing experienced costs to the projections.

Service Company shall prepare or assist in the preparation of federal, state and local tax returns for and to the extent required by Water Company.

B. **Administration**: Service Company shall make qualified employees available to perform or assist in the performance of Water Company's corporate activities. Those employees shall keep themselves informed on all aspects of Water Company's operations and shall regularly visit Water Company's facilities. They shall make recommendations to Water Company for operating expenditures and for additions to and improvements of property, plant and equipment. They shall keep abreast of economic, regulatory, governmental and operational developments and conditions that may affect Water Company; and advise Water Company of any such developments and conditions to the extent that they may be important to Water Company. Service Company shall provide an internal audit staff for periodic audits of accounts, records, policies and procedures of Water Company and submit reports thereon.

C. **Communications**: Service Company shall recommend procedures to promote satisfactory relations with employees, customers, communities and the general public and assist in the preparation of communication materials, (including press releases, brochures, audio visual presentations and speeches) plant tours, public exhibits and displays and other related services to inform the public.

D. **Corporate Secretarial**: Service Company shall maintain, in such places and manner as may be required by applicable law, documents of Water Company, such as minute books, charters, by-laws, contracts, deeds and other corporate records, and shall administer an orderly program of records retention. It shall maintain, or arrange for the maintenance of, records of stockholders of Water Company, prepare or arrange for the preparation of stock certificates, perform duties relating to the transfer of stock and perform other corporate secretarial functions as required including preparation of notices of stockholder and director meetings and the minutes thereof.

Service Company shall review and may assist in the preparation of documents and reports required by Water Company such as deeds, easements, contracts, charters, franchises, trust indentures and regulatory reports and filings.

E. **Engineering**: Service Company shall advise, and provide engineering services to assist Water Company in planning for, operating, maintaining and constructing its facilities.

It shall conduct distribution system surveys and hydraulic analyses and prepare or review maps, charts, operating statistics, reports and other pertinent data.

It shall assist Water Company in the proper maintenance and protection of Water Company properties by periodic inspection of its structures, tanks, reservoirs, dams, wells and electrical and mechanical equipment.

The engineering services provided by Service Company shall also include the conduct of field investigations as necessary to

obtain engineering information and, when required, the preparation of studies, reports, designs, drawings, cost estimates, specifications, and contracts for the construction of additions to or improvements of Water Company's source of supply, treatment plant, pumping stations, distribution system, and such other facilities as Water Company may request. Service Company shall provide a Materials Management Program to arrange for the purchase of equipment, materials, and supplies in volume on a basis advantageous to Water Company and assist in the evaluation of new and existing products and application procedures.

F. **Financial**: Service Company shall assist in the development and implementation of financing programs for Water Company, including the furnishing of advice from time to time on securities market conditions and the form and timing of financing; advise concerning arrangements for the sale of its securities; and assist in the preparation of necessary papers, documents, registration statements, prospectuses, petitions, applications and declarations. It shall prepare reports to be filed with, and reply to inquiries made by, security holders and bond and mortgage trustees.

Service Company shall assist Water Company in cash management including arrangements for bank credit lines, establishment of collection policies, and development of temporary investment programs.

Service Company shall provide assistance to Water Company in the preparation of all financial reports.

G. **Human Resources**: Service Company shall assist in obtaining qualified personnel for Water Company; in establishing appropriate rates of pay for those employees; and in negotiating with bargaining units representing Water Company employees. It shall carry out training programs for the development of personnel and advise and assist Water Company regarding personnel. It shall also advise and assist Water Company in regard to group employee insurance, pension and benefit plans and in the drafting or revising of those plans when required. It will keep Water Company apprised of all employment laws and develop procedures and controls to assure compliance.

H. **Information Systems**: Service Company shall make available to Water Company electronic data processing services. Those services shall include customer billing and accounting, preparation of financial statements and other reports including those required by Federal and State agencies.

I. **Operation**: Service Company shall develop and assist in the implementation of operating procedures to promote the efficient and economic operation of Water Company. Periodic operational reviews will be performed by Service Company personnel and any deviations from adopted procedures will be reported to Water Company.

J. **Rates and Revenue**: Service Company personnel shall make recommendations for changes in rates, rules and regulations and shall assist Water Company in the conduct of proceedings before, and in its compliance with the rulings of, regulatory bodies having jurisdiction over its operation. These personnel

shall keep abreast of economic and regulatory developments and conditions that may affect Water Company; and advise Water Company of any such developments and conditions to the extent that they may be important to Water Company. Rates and Revenue personnel shall assist in the preparation of rate filings or applications and the supporting documents and exhibits requested or required by the Water Company and their respective regulatory commissions. Service Company shall also provide qualified personnel to testify on Water Company's behalf as required during any regulatory proceedings.

K. **Risk Management**: Service Company shall provide a Risk Management Program to review the exposures to accidental loss of the Water Company, recommend efficient methods of protection either through the purchase of insurance, self-insurance or other risk management techniques and arrange for the purchase of insurance coverage. It shall also supervise investigation procedures; review claims; and negotiate and assist in, and evaluate proposals for, settlement at the request of Water Company. It shall assist in the establishment of safety and security programs to avoid or minimize risk and loss.

L. **Water Quality**: Service Company shall assist Water Company to comply with standards of governmental agencies and establish and attain water quality objectives of the Water Company. It shall assist in providing design criteria for processes, coordinating with public agencies, developing approaches and solutions to water quality problems, and providing

technical assistance and general direction for Water Company personnel.

It shall also provide laboratory services for programmed analyses as required by drinking water regulations, and special analyses as required by Water Company.

ARTICLE II. PAYMENT FOR SERVICES

2.1 In consideration for the services to be rendered by Service Company as hereinabove provided, Water Company agrees to pay to Service Company the cost thereof determined as provided in this Article II and in Article III.

2.2 All costs of service rendered by Service Company personnel for Water Company or in common with other Water Companies shall be charged to Water Company based on actual time spent by those personnel as reflected in their daily time sheets or other mutually acceptable means of determination.

2.3 All costs of Service Company incurred in connection with services rendered by Service Company which can be identified and related exclusively to Water Company, shall be charged directly to Water Company.

2.4 All costs incurred in rendering services to Water Company in common with similar services to other Water Companies which cannot be identified and related exclusively to services rendered to a particular Water Company, shall be allocated among all Water Companies so served, or, in the case of costs incurred with respect to services rendered to a particular group of Water

Companies, among the members of such group, based on the number of customers served at the immediately preceding calendar year end.

2.5 Cost for support personnel (secretaries, clerical personnel, clerks, messengers, telephone operators, mail clerks, and other incidental support personnel of the Service Company) as well as the cost of lease payments, depreciation, utilities and other costs associated with leasing office space and equipment by Service Company shall be allocated among the Water Companies on the basis of the proportion of the aggregate cost allocated under Sections 2.3 and 2.4.

ARTICLE III. ALLOWANCE FOR OVERHEAD

3.1 In determining the cost to be assessed by Service Company for the rendering of services to Water Company as herein provided, there shall be added to the salaries of all officers and employees for whose services charges are to be made, a percentage sufficient to cover the general overhead of Service Company, as defined below, properly allocable thereto. Such percentage shall be calculated each month and shall be the ratio of the total general overhead of the Service Company for the month to the total salaries of the employees for whose service charges are to be made to the Water Companies. No general overhead of Service Company shall be added to costs incurred for services of non-affiliated consultants employed by Service Company.

3.2 The term "general overhead" shall include:

(a) pension and insurance premiums paid for the benefit of Service Company employees,

(b) legal and other fees for services rendered to the Service Company,

(c) taxes,

(d) other general office supplies and other similar expenses, and

(e) interest on working capital.

ARTICLE IV. BILLING PROCEDURES AND BOOKS AND RECORDS

4.1 As soon as practicable after the last day of each month, Service Company shall render a bill to Water Company for all amounts due from Water Company for services and expenses for such month plus an amount equal to the estimated cost of such services and expenses for the current month, all computed pursuant to Articles II and III. Such bill shall be in sufficient detail to show separately the charge for each class of service rendered. All amounts so billed shall reflect the credit for payments made on the estimated portion of the prior bill and shall be paid by Water Company within a reasonable time after receipt of the bill therefore.

4.2 Service Company agrees to keep its books and records available at all times for inspection by representatives of Water Company or by regulatory bodies having jurisdiction over Water Company.

4.3 Service Company shall at any time, upon request of Water Company, furnish any and all information required by Water Company with respect to the services rendered by Service Company

hereunder, the costs thereof, and the allocation of such costs among Water Companies.

ARTICLE V. OTHER AGREEMENTS

5.1 It is understood by Water Company that Service Company has entered or may enter into similar agreements with other Water Companies that are affiliated with American to which similar services are to be furnished. Service Company will not enter into agreements to perform similar services for other companies on terms more favorable than those provided herein.

5.2 It is understood by Water Company that Service Company has entered or may enter into an agreement or agreements with American and certain other companies not engaged in the water or sewer service business to which limited services are to be furnished; Water Company consents to such additional agreements, provided, however, that no part of the cost of furnishing such services will be charged to Water Company.

ARTICLE VI. TERM OF AGREEMENT

This agreement shall become effective as of the later of (a) the date first mentioned above or (b) the date the parties receive the last of any necessary approvals of governmental regulatory agencies having jurisdiction in the premises. Upon becoming effective, this agreement shall be the sole agreement between the parties concerning the subject matter hereof and shall supersede all prior agreements, written or oral, including the agreement dated January 1, 1971, which shall terminate on the date this

agreement becomes effective. This agreement shall continue in full force and effect until terminated by either of the parties hereto giving the other party hereto ninety day's notice in writing; provided, however, that this agreement shall terminate as of the date Water Company or Service Company ceases to be an affiliate of American.

IN WITNESS WHEREOF, Service Company and Water Company have caused this agreement to be signed in their respective corporate names by their respective Presidents or Vice Presidents, and impressed with their respective corporate seals attested by their respective Secretaries or Assistant Secretaries, all as of the day and year first above written.

AGREEMENT

Contract made and entered into as of 22nd day of May, 2017 by and between the TENNESSEE-AMERICAN WATER COMPANY and its successors in corporate existence, party of the first part, hereinafter usually referred to as the "Company" and UTILITY WORKERS UNION OF AMERICA, LOCAL 121, affiliated with the A.F.L.-C.I.O., its successors and assigns, party of the second part, hereinafter usually referred to as the "Union" acting for itself and as the representative of employees of the Company in the Bargaining Unit:

WITNESSETH:

The Company and the Union, in consideration of the obligations hereinafter set forth by each of the parties to be kept and performed, do hereby agree as follows:

ARTICLE 1
RECOGNITION AND REPRESENTATION

The Bargaining Unit shall consist of all employees falling into the following described category:

1. The Union is hereby recognized and accepted by the Company as the sole and exclusive bargaining agency for all employees of the Company, excepting employees engaged as auto mechanics, reservoir men, caretakers, watchmen, foremen, supervisors or executives, supervisor of the Outside Commercial Department, confidential secretaries, and all supervisors and professional employees, and the Company agrees that it will negotiate with the accredited representatives of the Union as the representative of employees of the Company in the Bargaining Unit represented.

It is respectfully understood and agreed that the bargaining unit named above shall be covered by this contract between Tennessee-American Water Company and Local121 of the Utility Workers Union of America, affiliated with the A.F.L.-C.I.O. and Local121-A of the Utility Workers Union of America, affiliated with the A.F.L.-C.I.O.

DISCRIMINATION

It is recognized by the parties herein that the Company is an Equal Opportunity Employer whose employment policies and personnel practices are such as to insure that all employees and individuals, including disabled individuals and disabled veterans and veterans of the Vietnam era, are treated equally and that recruiting, hiring, training and promoting persons in all job classifications shall be done without regard to race, color, age, religion, national origin, qualifying disability, or sex; that decisions on employment shall be made so as to further the principle of equal employment opportunity; that decisions with regard to promotion are in accord with principles of equal employment opportunities; that all personnel actions, such as compensations, benefits, transfer, layoffs, return from layoff, Company sponsored training, education tuition assistance, social and recreation programs will be administered without regard to race, color, age, religion, national origin, qualifying disability, or sex.

In all sections of this Contract, any reference to gender shall mean either sex. The Company agrees that there shall be no interference with the right of employees covered by the terms of this contract to become a member of the Union and that there shall be no discrimination by the Company or its agents against any employee because of his/her membership in the Union.

ARTICLE 2
NO STRIKE OR LOCKOUT

In furtherance of harmonious relations among employees, the management and the public, it is mutually agreed by the parties hereto that there shall be no lockout, strike, work stoppage or intentional slowdown during the term of the Agreement, and this mutual Agreement shall continue through the future relations between the parties hereto and it is agreed that all matters of dispute shall be settled by arbitration, as herein provided. However, there shall be no liability on the part of the Union for any strike, work stoppage or intentional slowdown when such strike, work stoppage or intentional slowdown is not authorized by the Union; and when, in addition, duly authorized officers of the Local Union shall within five (5) hours after notification by the Company sign and cause to be posted in prominent places within the offices or plant of the Water Company, a notice that the strike, work stoppage or intentional slowdown was not authorized by the Local Union and directing all employees to return to their respective jobs promptly or to cease any action which may adversely affect any operation of the Company. The Company shall have authority to discipline any employee or employees engaged in any unauthorized strike, work stoppage, or intentional slowdown.

ARTICLE 3
ADJUSTMENT PROCEDURES

In recognition of the fact that the Company and its employees represented by the Union have a mutual responsibility to the public which requires that disagreements arising between the employees and the management be settled in an orderly way without interruption to water service, it is agreed that differences which may arise between the employees and the management of the nature of those mentioned in the various sections of this Article 3 below shall be adjusted, in accordance with the provisions of the succeeding sections of this Article.

Any disagreement, dispute or grievance which shall arise between the Union or the employees and the Company with respect to the interpretation or application of any of the terms or provisions of this Contract shall be, during the term of this Contract, settled by the following procedure:

A Such disagreement, dispute or grievance with respect to the interpretation or application of any of the terms or provisions of this Contract must be submitted within ten (10) working days of the occurrence of such disagreement, dispute, or grievance by the employee to his immediate supervisor.

Step 1: Disagreements, disputes or grievances may be adjusted by direct contact between the employee and/or through his/her Union representative and the employee's immediate supervisor.

Step 2: However, if the disagreement, dispute or grievance cannot be resolved at this level within five (5) working days, it may be submitted in writing to the department head. At this step, the employee may be accompanied by a Union representative and the department head may be accompanied by the supervisor.

Step 3: If the grievance is not settled, the matter shall be referred in writing to the senior ranking official or designated representative within ten (10) working days of the denial. The senior ranking official or designated representative shall give a reply in writing within ten (10) days of the receipt of the grievance.

Step 4: If the matter is not resolved within five (5) working days, it may be submitted to a joint conference committee consisting of a maximum of five (5) members for the Company and five (5) members for the Union. One of the members from the Company must be an officer of the Company or a designated representative, and one (1) of the members of the Union must be a National representative or a designated representative. If still not resolved within five (5) working days, the matter shall, upon request, be submitted to arbitration as provided in the next paragraph of this section.

When a grievance has been reduced to writing and submitted to a department head, as provided for in the second step of the grievance procedure described above, the grievance may be discussed as provided herein by the department head, or with the mutual consent of the Company and the Union, be advanced to the next step of the grievance procedure.

3. (B): Within thirty (30) days of receipt of the answer from the Human Resources Manager or next level manager, the Union shall notify the Company in writing their intent to Arbitrate. The Union will then file a request for a panel of arbitrators with the Federal Mediation and Conciliation Service with notice to the Company. The request for a panel of arbitrators shall specify that a list of seven (7) arbitrators, all of whom are members of the National Academy of Arbitrators, shall be provided to the parties. Within ten (10) days of receipt of the list, either party may request the Federal Mediation and Conciliation Service to provide the parties a second list of arbitrators, also composed of seven (7) persons who are members of the National Academy of Arbitrators. If a second list is requested, selection of an arbitrator shall be made as hereinafter set forth from the second list. If no second list is requested, selection of an arbitrator shall be made from the initial list so provided. Selection of an arbitrator shall be made by each party alternately striking the name of one arbitrator from the list until the name of one arbitrator remains. The last arbitrator remaining shall be the arbitrator selected to hear the grievance. If the grievance involves a matter of discipline, the Company shall first strike the name of an arbitrator from this list; otherwise the Union shall first strike the name of an arbitrator from the list. Nothing contained herein shall be construed to forbid the parties from mutually agreeing to the selection of an arbitrator between them, so long as the time limitations of this section are complied with or waived.

The Arbitration Hearing shall be scheduled with all reasonable dispatch and the Arbitrator shall render his/her decision within thirty (30) days after the close of the hearings, and such decision shall be final and binding upon both parties. The Arbitrator shall have no authority to add to, subtract from, alter or modify the terms of this Agreement and the expense of the Arbitrator shall be shared equally by the parties. The arbitration hearing shall be held at a mutual agreeable location and the hearing room accommodations shall be shared equally by the parties.

It is expressly understood that the time limitations set forth in this Agreement are of the essence and may only be waived in writing signed by a representative of each of the parties.

ARTICLE 4
WAGES AND HOURS

Rates

Employees shall be paid in accordance with the designated classifications at the following hourly rates.

1.1 Production department and Water Quality Department

Production department and Water Quality Department	2017	2018	2019	2020	2021
Process Technician	$31.00	$31.77	$32.56	$33.38	$34.13
Laboratory Worker 03/06/2023 not a current position	$25.42	$26.05	$26.70	$27.37	$27.99
Laborer/Relief Process Technician	$27.14	$27.82	$28.52	$29.23	$29.89
Laborer/Process Technician Apprentice	$25.65	$26.29	$26.94	$27.62	$28.24
Maintenance Mechanic	$29.65	$30.39	$31.15	$31.93	$32.65
Master Maintenance Mechanic	$30.77	$31.54	$32.33	$33.14	$33.88
Production Clerk	$25.36	$26.00	$26.65	$27.31	$27.93
Temporary Laborer	$11.17	$11.45	$11.74	$12.03	$12.30
Laborer	$24.60	$25.22	$25.85	$26.49	$27.09

Master Maintenance Mechanic:

The Company agrees to pay for any successfully completed training, schooling, testing, re-testing and continuing education classes, which an employee incurs in the process of earning and maintaining an operator's certification (license.) The Company also agrees to pay for the operator's certification (license) and annual fees to maintain such certification (license).

The most senior bidder must successfully pass a written certification exam within five (5) working days prior to being awarded the position.

All persons holding positions of Maintenance Mechanic will perform day shift operations and maintenance in the booster system on a weekly rotating basis as required.

The Company agrees to pay for employees to attend classes at Chattanooga State or other approved facilities to obtain the knowledge necessary for this position.

Laborers permanently assigned to Production Department and Water Quality Department shall be guaranteed an opportunity of working forty (40) hours per week.

Except for employees working the relief shift, shift employees covered by Section 1.1 shall be paid, in addition to the foregoing hourly rates, a shift premium of thirty-six cents ($0.36) per hour for all work performed between 3:00p.m. and 11:00 p.m., and a shift premium of forty-one cents ($0.41) per hour for all work performed between 11:00 p.m. and 7:00 a.m.

Employees covered by Section 1.1, when required to work the relief shift, shall be paid, in lieu of the above shift premium rates, a shift premium of thirty-six cents ($0.36) per hour for all hours worked.

1.2 Outside Commercial Department

Classification	2017	2018	2019	2020	2021
Field Representative	$27.53	$28.22	$28.93	$29.65	$30.32
Field Services	$31.13	$31.91	$32.70	$33.52	$34.28
Field Service Records Specialist	$25.36	$26.00	$26.65	$27.31	$27.93
Meter Reader	$27.09	$27.77	$28.46	$29.18	$29.83
Meter Repair	$27.29	$27.97	$28.67	$29.39	$30.05
Temporary Laborer	$12.23	$12.54	$12.85	$13.17	$13.47

Employees in the Field Services classification regularly scheduled to work the shift from 4:00p.m. to 12:30 a.m. Monday through Friday and 3:30p.m. to 12:00 a.m. Saturday and Sunday, shall be paid a shift premium of thirty-six cents ($0.36) per hour for work actually performed during this period. Personnel working the day shift who are required to work during this period shall not be entitled to the shift premium.

1.3 Distribution Department

2.5 2.5 2.5 2.2 ✱ see now

Classification	2017	2018	2019	2020	2021
Distribution Clerk	$25.36	$26.00	$26.65	$27.31	$27.93
Heavy Equipment Operator	$27.18	$27.86	$28.55	$29.27	$29.92
Temporary_ Laborer	$12.23	$12.54	$12.85	$13.17	$13.47
Truck Driver/Utility Worker ✱	$26.96	$27.63	$28.32	$29.03	$29.68
Utility Worker	$26.62	$27.29	$27.97	$28.67	$29.31

Employees occasionally required to drive trucks over 10,000 G.V.W.R. shall be paid at the applicable Truck Driver/Utility Worker rate, or their regular hourly rate, whichever is higher, during any day in which such driving of a truck is required. When it becomes necessary to use a Heavy Equipment Operator as a driver of a service truck, assignment is to be done by seniority within the section, with the most senior employee having first option.

Any employee in the classification of Truck Driver/Utility will receive a premium pay of thirty cents ($0.30) per hour when assuming the role of Utility Man.

It is agreed by the Company that when and *if* work is available, full time employees in the job classifications listed in Section 1.2 and Section 1.3 of this Article, shall be afforded an opportunity of working forty (40) hours per week, and the Company will not reduce the work week below forty (40) hours per week by hiring additional employees.

The Company shall provide work for a maximum of twenty (20) regular "Utility Workers" whenever they shall be prevented by inclement weather from performing their regular work.

1.4 Office and Clerical

Classification	2017	2018	2019	2020	2021
Drafter	$25.42	$26.05	$26.70	$27.37	$27.99
Engineering Clerk	$25.36	$26.00	$26.65	$27.31	$27.93
Temporary Worker	$10.20	$10.45	$10.71	$10.98	$11.23

Existing employees who desire to bid into one of the clerical positions must pass an assessment test identified by the Company. The most senior bidder who passes the test will be awarded the position. Employees who have passed the test that was administered by the Company will not be required to retest. Employees who remain in their current position will not be required to test. This is applicable to all clerk positions included in Article 4, Sections 1.1, 1.2, 1.3 and 1.4.

1.5 New Employees

Effective November 1, 2011 for all full time employees hired thereafter, there will be a step rate of $4.00 less than the regular rate per hour which will apply for the first year of employment with the Company for all positions other than Master Maintenance Mechanic, Process Technician, Labor/Relief Process Technician. In addition, post-hire, the Company will provide the Union with external new hire credentials for individuals hired into the Master Maintenance Mechanic, Process Technician, and Laborer/Relief Process Technician positions. An additional step rate of $1.00 less than the regular rate per hour will apply in the next year until the employee reaches the regular rate of pay. The step rate will apply to all classifications that an employee might be hired into, or bid into, if they have four years seniority or less. An employee, with four years of seniority or less who bids into another job, will receive the applicable step rate in the new positions they would have had if they had been hired into that position.

New employees will be probationary employees for a period of 90 calendar days from their date of hire. In the event the new employee fails to qualify for the position for which he/she was hired within 90 calendar days of hiring, the Company may terminate such employee at the Company's sole discretion. A probationary employee shall not have rights under or recourse to the grievance adjustment procedure as detailed under Article 3 of this Bargaining Agreement.

1.6 Promoted Employees

It is understood and agreed that when a regular employee is promoted to a job paying a higher rate of pay, such employee shall, in the new position, be paid that regular rate of pay for that position. In the event that a regular employee who has been promoted fails to qualify within the period of ninety (90) calendar days from the effective date of the promotion, for the position to which he/she has been promoted, he/she shall be returned to his/her previous position.

A regular employee who is promoted or transferred may, at his/her option, have the right to return to his/her former permanent position and any relief position held prior to bidding on a new position during the first fifteen (15) working days following such promotion or transfer, provided, however, this option may be exercised by any employee only once in a twelve (12) month period. If the employee does not elect to return to his/her former position within fifteen (15) working days, he/she shall not have the right to return to his/her former position at his/her option during the remaining probationary period or any other time thereafter except through the bidding procedure.

1.7 Employee Training

Employees who are assigned to training for the purpose of relieving in a position requiring a higher classification will be paid at the rate for the classification for which the employee is being trained.

Section 2. Overtime and Holidays

The normal work week for all shift employees performing the classes of work specified in Section 1.1 of Article 4 shall be forty-two (42) hours averaged over four (4) weeks, during three (3) of which the employee shall normally work forty (40) hours, and during one (1) of which the employee shall normally work forty-eight (48) hours. The presently followed practice of shift rotation in the continuous operating job classifications is to be continued.

The normal work week for the Master Maintenance Mechanic, Maintenance Mechanic, and Laboratory Worker in Section 1.1 shall be forty (40) hours per week.

The normal work week for employees specified in Sections 1.2, 1.3, and 1.4 shall be forty (40) hours per week.

All employees except Process Technicians shall be paid at an hourly rate of one and one-half (1-1/2) times the regular rate of pay for:

A. All time worked on Saturday;
B. All time worked in a week in excess of forty (40) hours;
C. All time worked in excess of eight (8) hours in a 24-hour period.

Process Technicians shall be paid at an hourly rate of one and one-half (1-1/2) times the regular rate of pay for:

A. All time worked in any week in excess of forty (40) hours;

B. All time worked in excess of eight (8) hours in a 24-hour period.

Employees shall not be paid both daily and weekly overtime for the same hours worked. No daily overtime shall be paid when employees, at their own request, are working extra time in order to be excused during regular shifts.

Shift employees at the Production and Water Quality Department shall not be paid overtime when changing from one shift to another.

All employees required to work on their regularly scheduled second day off shall be paid at an hourly rate of two (2) times the regular rate of pay for all time worked.

When a shift worker at Production and Water Quality Department is working his/her long week and is required to work his/her only off day, such worker shall receive double time rate.

When a Relief Process Technician is filling a temporary vacancy and a holiday falls on one of the off days while he/she is filling in, the Relief Process Technician shall receive the rate of pay for the vacancy he/she is filling.

The Company agrees to grant each regular employee three (3) Floating Holidays each calendar year beginning January 1 and ending December 31, which shall be personal days of absence with pay for eight (8) hours at his/her regular pay for each day, and said employee shall request said Floating Holidays at least one (1) week in advance, thus to permit the Company to schedule its work program. The Company shall permit the employee to divide two (2) Floating Holidays into half-hour increments. One (1) Floating Holiday shall be taken in a full day increment. The Company reserves the right to limit the number of employees absent at one time.

The following holidays will be recognized for all full time employees who have completed the ninety (90) days probationary period to the extent permitted by work requirements:

New Year's Day	Thanksgiving Day
Good Friday	Day Following Thanksgiving Day
Memorial Day	Christmas Eve
Fourth of July	Christmas Day
Labor Day	3 Floating Holidays

When any of these holidays falls on Sunday, it will be observed on the Monday following. When any of these holidays falls on Saturday, it will be observed on the preceding Friday. If Christmas Eve falls on Friday it will be observed on Thursday. If Christmas Eve falls on Saturday or Sunday it will be observed on the preceding Friday and Christmas day will be observed on the following Monday. A holiday bonus will be paid for all hours worked on the day the holiday is observed.

Regular employees whose normal scheduled hours fall on any of the named holidays will be paid, in addition to their regular pay for the day, a holiday bonus equal to the one and one- half (1-1/2) times their regular rate of pay for those scheduled hours and two (2) times their regular rate of pay for all other hours worked on said named holidays.

Regular employees, with the exception of those regular employees whose normal scheduled hours fall on any of the named holidays, when required to work on a holiday, will be paid, in addition to their regular pay for the day, a holiday bonus equal to two (2) times their regular rate of pay for all time worked on any of the named holidays.

When a holiday falls on Saturday or Sunday and is observed by the Company on Friday or Monday, as the case may be, the holiday bonus will be paid shift workers at the Production Department and Water Quality Department for time actually worked on the Saturday and Sunday that the holiday actually falls on, but shall not be paid for time worked by those employees on the Friday or Monday on which the Company observes the holiday.

Regular employees who are not required to work on a holiday shall receive their normal pay for the day.

On a holiday, the number of hours actually worked or the number of hours normally worked on such day of the week, whichever is greater, shall be counted for that day in determining an employee's eligibility for weekly overtime, except that when the holiday falls on an employee's scheduled day off, no hours will be credited for weekly overtime unless actually worked.

When a holiday occurs during a vacation period, all full time employees shall be allowed an extra day's vacation to be taken at such time as work requirements shall permit, or at the option of the employee, shall receive extra compensation equal to his regular pay for that day.

Employees who are required to work on a normally scheduled off day will not be required to take off on a normally scheduled work day to avoid payment of overtime rates.

Any employee not at work on a scheduled work day immediately preceding or following a holiday, except when such absence is due to sickness or vacation or is otherwise authorized by the Company; shall not receive pay for said holiday if no work is performed on that day, nor any premium rate for hours actually worked thereon.

Section 3. Call-Out Pay

Any employee covered by this Contract reporting to work upon order of the Company, either expressed or implied, who is not put to work on account of inclement weather, shall receive a minimum of four (4) hours pay.

Any employee covered by this Contract who is called out for work after clocking out at the close of his/her regularly scheduled hours and before the beginning of his next regularly scheduled work period, shall be paid for a minimum of four (4) hours for the hours actually worked at the appropriate rates under this Contract.

Employees who are scheduled in advance to work on an overtime basis (except as an

extension of the regular work day) will be guaranteed four (4) hours work at the appropriate rate.

Any employee who works a minimum of two (2) hours of nonscheduled overtime between the hours of eight (8) hours prior and one (1) hour prior to the start of their next regular scheduled shift, will, at the Company's discretion, be given hours off equivalent to the hours worked within the time frame described above, with pay at his/her regular rate of pay during his/her next regular scheduled shift or be paid at the rate of two (2) times his/her regular rate of pay for those equivalent hours.

Section 4. Extended Work Hours

It is the Company's intent to not require an employee to work more than sixteen (16) hours. Any employee who works sixteen (16) consecutive hours shall be granted an eight (8) hour rest period consistent with all applicable terms and conditions defined within the collective bargaining agreement.

Section 5 Payroll Week

Employees paid on an hourly basis shall be paid bi-weekly for working all straight time and overtime hours Monday through Sunday of each work week. All hours worked during the pay period shall also be paid on the following Friday after the end of the pay period.

Section 6 Meals

Employees who, without prior notice, are required to remain at work immediately following the completion of a regular work day, shall be provided with a meal allowance at the following intervals:

One (1) meal allowance at the end of the first two (2) hours of overtime.

One (1) meal allowance at the end of each four (4) hour interval thereafter during such overtime work.

Employees, who without prior notice, are called out after leaving for the day, shall be provided a meal allowance at the end of the first four (4) hours of call-out time, and at the end of each four (4) hour interval thereafter.

The meal allowance under the above paragraph is fixed at $10.50 per meal for the life of the Agreement, to be included in the employee's paycheck.

Section 7. Work by Supervisors

Except in cases of emergency and/or where it is necessary to perform work to demonstrate how the work is to be done, the Company agrees that a foreman, superintendent, or supervisor shall not perform any work covered by employees in the wage schedule.

Section 8. Sharing of Overtime

The definition of nonscheduled overtime in this context refers to overtime not worked on a regular schedule. Although an employee is scheduled in advance to work at a time he/she normally would be off, those overtime hours will be counted as nonscheduled. Pursuant to the provisions of Article 9, Section 2, the Company may use contractors in call-out situations where the Company makes a bona fide effort to call its employees to work and

cannot reach them.

The Company and the Union agree that all nonscheduled overtime in all departments, with the exception of shift workers, will be shared equally among the employees in each classification.

If overtime must be worked, it will be offered to the individual or individual's in each classification with the least amount of documented overtime, year to date, through the most recent payroll period. Employees who report to work in a relief classification shall not be penalized for hours worked as a relief. Should two employees have the same number of accumulated hours, Company-wide seniority will govern.

In the case of shift workers in the Production Department and Water Quality Department,the first opportunity to work nonscheduled overtime will be given to the employees who are on their regularly scheduled day off.

The Company shall post an overtime "sign-up" list in the Distribution Department and Outside Commercial Department on June 10 and December 10 of each calendar year. Employees who desire to work nonscheduled overtime must sign this list within ten (10) work days of the date the Company posts the list. The Company has no obligation to give nonscheduled overtime work to those employees not signing the list. At the beginning of each posting period, the Company will call employees on the overtime list for nonscheduled overtime work on the basis of their Company-wide seniority. Thereafter, the Company will call listed employees with the fewest accumulated hours of overtime work. Should two employees have the same number of accumulated hours, Company-wide seniority will govern. The Company shall only be required to make a reasonable effort to contact employees for nonscheduled overtime work. It is understood that where nonscheduled overtime work should be done by employees in a particular classification, the Company may first call listed employees in that classification who have the fewest number of accumulated overtime hours. The Company shall call these employees on the list before contacting other employees.

For all departments, except for shift workers, overtime will be accumulated from the beginning of each year. At the beginning of each new contract period, employees will begin with zero (0) overtime hours accumulated. At January 1 and June 30 of each year, accumulated overtime in all departments, except shift workers, will revert to zero (0). The Company will post a roster of overtime hours weekly in all departments.

In cases where an employee has been assigned a duty and it is necessary to work overtime to complete the assignment, that employee will be given the first opportunity to work even though his/her accumulated overtime may be more than another employee in that department and classification.

ARTICLE 5
DETAILED TERMS OF EMPLOYMENT

Section 1. Check-Off

The Company agrees to deduct each month from the wages of each employee who is a member of the Union, pursuant to written authorization from that employee, an amount equal to his/her regular Union dues.

Such deduction is to be made from the wages due for each pay period and the aggregate amounts so deducted are to be paid monthly to the Financial Secretary of the Union. The Company will send a copy of the dues report to the Local and the National Union Office.

ction 2. Company Rules

The Union agrees that its officers and members will live up to reasonable Company rules and regulations in the interest of safety, economy, and continuity of service to the public. The Company agrees there shall be no discrimination or retaliation by the Company or its agents against any employee because of his membership or activities in the Union in connection with negotiations or adjustments of grievances.

The Union agrees that its officers and members will not solicit membership in the Union among employees of the Company while employees are on duty, and will not at any time interfere with, restrain or coerce employees of the Company in attempting to influence them to be members of the Union. The Union and the Company will not engage in subterfuge for the purpose of defeating or evading provisions of this Contract.

Section 2.1 Drug and Alcohol Free Workplace Practice

The Union adopts the Drug and Alcohol Free Workplace Practice as part of the Chattanooga Local 121 Agreement. Adoption of the D&A Practice does not alter UWUA 121's non recognition of the Company's Code of Ethics or Code of Conduct Policy.

Section 3. Seniority

3.1. **Definition of Seniority:** The term, seniority, whenever used in this Contract shall mean continuous service. Continuous service shall mean employment with the Company without a loss of seniority as provided in sub-paragraph 3.6 of this section. Seniority will be applied on a company- wide basis as specified in this Contract.

3.2. **Seniority List:** The Company will prepare and have posted a Company- wide seniority roster showing the names of each employee covered by this Contract in order of their employment with the Company. The person having the greatest length of continuous service with the Company shall be listed at the head of the roster and the last person employed shall be given the last position on the roster.

3.3. **Accumulation of Seniority:** Employees shall be regarded as probationary employees for the first ninety (90) days of their employment. Such employees shall not have seniority until they have satisfactorily passed their ninety (90) day probationary period, at which time they shall be placed on the seniority lists retroactive to date of hire. Temporary employees hired for emergency work, summer work, or unusual maintenance shall have no seniority rights until permanently employed. If permanently employed, such temporary employees shall then be entitled to full credit in determining seniority rights for the period of continuous employment immediately preceding acceptance of full time employee status.

3.4. Promotions and Transfers: It is understood and agreed that in all cases of promotion or of increase or decrease or transfer of employees, length of continuous service shall govern. Promotions and transfers will be made only in the event of permanent vacancies or newly created jobs. Any employee covered by this Contract, who desires to bid for a promotion, shall bid in writing within five (5) days from the date notice of vacancy is posted. Any employee desiring to transfer from one department to another when vacancies occur, shall bid in writing within five (5) days from the date notice of vacancy is posted. It is understood that all employees bidding for promotions or transfers must be reasonably competent and qualified to fill such positions. When vacancies occur suddenly, the Company may fill such vacancies temporarily pending receipt of bids from employees covered by this Contract for a temporary period of twelve (12) working days pending decision as to which employee's bid for the vacancy is accepted. It is mutually understood and agreed by the parties hereto that because of the Company's responsibility, the management of the Company must be the judge of a worker's qualifications for promotion. However, the Company will consider Company-wide seniority insofar as practicable and consistent with proper ability to perform the services required. Should any questions arise as to the judgment of the Company in regard to promotion, it shall be settled as a grievance as provided in Article 3 hereof.

It is further agreed that once a vacancy is awarded, the affected employee will commence employment in the new position within fifteen (15) working days after the award. If the Company needs more time, the affected employee will receive the higher rate of pay, if applicable, starting within fifteen (15) working days after the award.

3.5. Lay-Off, Cutback, or Elimination or Curtailment of Job or Operation: In the event of a temporary or permanent lay-off or cutback, or the elimination or curtailment of a job or operation, employees who are affected thereby shall have the right to exercise their Company-wide seniority to displace less senior employees in their department or other departments provided, however, that any employee displacing another employee, as specified in this paragraph, must be reasonably competent and qualified to fill the new position he/she is assuming. In the new position, the employee shall be paid the regular rate of established wages for that new position which he/she is assuming. The employee must show himself/herself qualified to perform the duties required of the new position he/she is assuming within ninety (90) calendar days following his/her assumption of the new position, and in the event the employee fails to qualify for the newly assumed position within this ninety (90) day period, the Company shall notify the employee of his/her failure to qualify, and this notification of failure to qualify shall be communicated to the employee or to the Union within not more than five (5) working days following the expiration of the ninety (90) day qualification period. In the event the employee fails to qualify for the newly assumed position within the period of ninety (90) days, the

Company and the Union shall meet to determine options available as to where the affected employee may be placed so as to provide for the least possible additional displacement of employees. In recognition of the obligation to provide continuous water 'service to the public, the parties agree that no more than four (4) employees covered under Article 4, Section 1, Subsection 1.4 will be permitted to bump into classifications covered under Article 4, Section 1, Subsection 1.1, 1.2, and 1.3. Likewise, it is agreed that no more than four (4) employees covered under Article 4, Section 1, Subsection 1.1, 1.2, and 1.3, will be permitted to bump into classifications covered under Article 4, Section 1, Subsection 1.4; provided, however, these restrictions will not limit the number of employees previously qualified for the classification into which they desire to bump from exercising their bumping privileges. If, after a lay-off, cutback, or elimination of job or operation, a job vacancy occurs, such job will be available on a Company-wide seniority basis to employees who formerly held that job. Employees who are laid off shall be recalled in the inverse order of their lay-off. Notifications of openings for re-employment shall be given by the Company to the last mailing address furnished by the employee, by registered or certified mail. A copy of such notice shall also be given to the Union. Within five (5) working days after the date of such notice, the laid-off employee must advise the Company whether he/she accepts re-employment. An employee who fails to return will have employment terminated. If no reply is received by the Company within such five (5) day period, the next employee may be notified.

3.6. Loss of Seniority: It is agreed between the parties that an employee shall lose seniority under the following circumstances:

(1) Voluntary termination of employment;
(2) Discharge for just cause;
(3) Upon failure to return to work, when recalled after lay-off, within a period of five (5) working days after notice by certified or registered mail has been sent the employee;
(4) When lay-off exceeds the following periods:

If Accrued Seniority Is	Seniority Shall Be Lost After Lay-Off Exceeding
Less than sixty (60) days	Two (2) Weeks
Sixty (60) days but less than six (6) months	One (1) Month
Six (6) months but less than one (1) year	Six (6) Months
One (1) year but less than two (2) years	One (1) Year
Two (2) years but less than five (5) years	Two (2) Years
Five (5) years but less than eight (8) years	Three (3) Years
Eight (8) years and over	Five (5) Years

No seniority shall be accumulated during periods of layoff.

3.7. **Relief Workers:** In order to provide an orderly means of filling temporary vacancies, certain employees in the various departments will be designated to act as relief personnel in their respective departments. Such relief positions will be bid where the vacancy exists in accordance with the procedure outlined in Paragraph D under Promotions and Transfers and, their seniority treated in accordance with Paragraph A – Definition of Seniority. A temporary vacancy for the purpose of this sub-paragraph shall be defined as a vacancy existing because of any emergency or because of the absence of an employee for any reason where the absence is not expected to be permanent, including, but not exclusively, absence due to vacation, sickness, accident or personal reasons. Relief workers shall retain their permanent classification and applicable rates of pay except when filling temporary vacancies. Relief workers shall be paid at the rate of one and one-half (1-1/2) times their regular rate of pay for all time worked in excess of eight (8) consecutive hours within any twenty-four (24) hour period. Employees holding relief positions, who for any reason move to jobs out of their department, shall not retain their relief position.

The Company agrees to train the two most senior Laborers in the Production Department and Water Quality Department, desiring to be trained, to qualify them to relieve, when needed, the Laboratory Worker and the Production Department Clerk in the Production Department and Water Quality Department. When relief is required in either classification, such relief will be offered on a seniority basis to the two trained and qualified Laborers.

In the filling of relief positions in the Production Department, all scheduled or unscheduled absences, for whatever reason, will be assigned by seniority in accordance with the first relief having first choice. Once selection has been made, they will fill that assignment for the duration of said absence. At that time, if there is another vacancy being filled by the second relief, first relief will have the right to assume that vacancy.

Section 4. General

The chipping of concrete, tile, brick or other composition pavement and the replacing of same for the installation of mains, services or meters shall be performed by the employees engaged in the classes of work specified in Section 1.3 of Article 4 hereof.

Employees performing more than one class of work shall be paid the scale for each class of work as established by this Contract, according to the time employed on each job. However, in the event an employee is temporarily transferred to a lower classification, his/her rate of pay shall not be reduced.

If an employee is sent out on Company business from his/her designated reporting station which makes it necessary for said employee to expend money for the employee's transportation,

such employee shall be reimbursed by the Company for such expenditure upon presentation of an itemized expense account.

In the event an employee shall be discharged or suffer a lay-off as an imposed penalty and he/she believes he/she has been unjustly dealt with, such discharge or lay-off shall constitute a case arising under the method of adjusting grievances herein provided and, such grievance must be taken up within ten (10) days of the occurrence of such grievance and disposed of within a reasonable time.

In the event it should be decided under the rules of this Contract that an injustice has been dealt an employee with regard to the employee's discharge or lay-off, the Company shall reinstate such an employee to his/her former position and pay the employee compensation at the regular rate for the time the employee normally would have worked.

Section 5. Bereavement

Regular employees shall be granted a maximum of four (4) scheduled work days' absence at this regular hourly rate of pay in the event of death of father, mother, spouse, child, mother-in-law, father-in-law, brother, sister, grandparent or grandchild. For the relationships of father, mother, spouse, or child, the employee shall report to work on the third scheduled work day following the funeral providing the maximum of four (4) scheduled work days is not exceeded. For all other relationships mentioned above, the employee shall report to work the second scheduled working day following the funeral, providing the maximum of four (4) scheduled workdays is not exceeded.

Regular employees shall be granted one (1) scheduled work day absence at his/her regular hourly rate of pay for the purpose of attending the funeral of immediate stepmother, immediate stepfather, immediate brothers-in-law, immediate sisters-in-law, immediate daughters-in-law, immediate son in law, or spouse's grandparents.

Section 6. Fill In for Sickness – Production Department and Water Quality Department

When a Process Technician is off sick, the Company will allow the remaining Process Technician to relieve the sick employee for a period of two (2) days. After the second day, the Company will fill the sick employee's place with a temporary employee. The temporary employee will remain at the Production Department or Water Quality Department for the remainder of the absentee period. In the case of the death of a Production Department or Water Quality Department shift worker's family member as set forth in Article 5, Section 5, of the agreement, any nonscheduled overtime required will be shared by the employees in that classification.

Section 7. Inclement Weather

Employees will not be required to work outdoors in inclement weather, unless such work is necessary to protect life or property or to maintain service. During such periods of inclement weather occurring within the employees' basic work week, the Company may assign indoor work to such employees or send them out to the area where their normal work

should be performed, if the inclement weather is concluded or ended. Union and Management will decide by mutual agreement if work shall continue during inclement weather.

Section 8. Jury Duty

The Company guarantees normal pay to employees on jury duty by paying the difference between normal pay and the amount received for jury duty.

ARTICLE 6
SEVERANCE PAY

When the service of a regular employee having five (5) or more years of uninterrupted service is terminated, a severance allowance shall be granted under the following conditions:

A. When the employee is laid off because of lack of work; and

B. Dismissed except for reasons of misconduct.

It is understood that no severance allowance will be due the employee in any case where the separation is the result of retirement on pension, death, transfer, resignation, or discharge for misconduct. The severance allowance shall be completed as follows:

A. One (1) week's pay for each completed year of service in excess of two (2) but less than six (6)

B. Two (2) week's pay for each completed year of service in excess of five (5). Severance pay shall be determined on the basis of the employee's regularly hourly rate

and his/her regularly scheduled hours for the classification in which he/she is normally employed at the time of his/her lay-off or dismissal.

ARTICLE 7
EMPLOYEE BENEFITS

Section 1. Vacations

The vacation year shall be in all cases the calendar year beginning January 1 and ending December 31. Beginning January 1 of each year, all full-time employees shall be entitled to a vacation within a calendar year based upon the employee's "Completed Years of Continuous Service" during that calendar year as follows:

Same language is used for non-union

Need language about accrual

Completed Years of Continuous Service	Vacation
1 year	1 week
2 years	2 weeks
7 years	3 weeks
14 years	4 weeks
21 years	5 weeks
28 years	6 weeks

Note: Employees hired after November 1, 2006, will only be able to earn a maximum of five weeks vacation.

For each full week of vacation to which an employee is entitled, he/she shall be paid an amount equal to his/her normal weekly wage as determined by his/her regular scheduled hours of employment.

When a Process Technician takes a vacation while working the second, third, or relief shift, they will be paid any shift premium due for the shift they were scheduled to work while on vacation.

Employees will be allowed to schedule vacation they are entitled to within a calendar year prior to their service anniversary date; however, probationary employees must complete their 90 calendar day probationary period prior to eligibility for vacation.

The Company agrees that the employees' wishes will be considered in setting up each year's vacation schedule, and if possible to do so without interfering with the orderly and continuous operation of the plant, employees shall be permitted to take their vacations at times desired by them.

Employees will be able to carry over up to one (1) week of vacation into the next year. In recognition of the orderly and continuous operation of the plant, it is agreed that the following criteria will be used to establish the maximum number of employees in each department listed who can schedule vacation at any one time in each listed department:

Department	Maximum Number of Employees on Vacation
Outside Commercial	Three (3) employees maximum from the classification of Field Representative, Meter Repair and Meter Reader. One (1) employee maximum from the classification of Field Services Records Specialist, and one (1) maximum from the classification of Field Services.
Engineering	One (1) employee maximum, regardless of classification.
Production and Water Quality	A maximum of seven (7) employees. However, no more than three (3) Maintenance Mechanics and Master Maintenance Mechanics will be on vacation at the same time and further provided, one (1) Laborer or Laborer/Relief Process Technician or Laborer/Process Technician in Training, not relieving, must be available.

Distribution

Six (6) employees maximum from any classification. Of the six (6) employees, no more than a maximum of three (3) Heavy Equipment Operators may be off at any given time.

One (1) employee maximum from the classification of Distribution Clerk in addition to the aforementioned Distribution Department employees.

Any employee moving into a different classification or department after the vacation schedule has been posted will reschedule his/her vacation so that it will not conflict with other employees in that classification of department for that year.

Vacation shall, as far as can be arranged, be taken in continuous periods and may not be accumulated.

Employees will be able to carry over up to one (1) week of vacation into the next year. Upon termination of service for any cause, an employee shall be paid at the time of such termination for all accrued or earned vacation then due.

Section 2. Disability Benefits

2.1. Leaves of Absence for Sickness or Accident Disability

Employees will be granted leaves of absence for sickness or accident disability, including pregnancy, for the following maximum periods shown below:

Leave of Absence Limits:

Length of Service	Maximum Period of Leave of Absence
Up to six months	Two weeks
Six months but less than two years	Twenty-eight weeks
Two years but less than five years	One year
Five years and over	Four years

During periods of leave of absence for sickness or accident disability, including pregnancy, employees will be paid in the maximum amounts hereinafter set forth. Each employee who is disabled and unable to perform his/her regular duties as a consequence of illness or accident, shall be paid as follows during such disability.

1. If the employee is entitled to, in any given week, Weekly Sickness and Non-Occupational Accident Benefits under the Group Insurance Plan or Temporary Total Disability Benefits under the Workmen's Compensation Acts of Tennessee and Georgia, the payment by the Company in such week shall be limited to the difference between the employee's normal weekly earnings and the amount of such benefits.

2. The Company may require a suitable statement from the employee's physician certifying to the disability or may elect to have a physician selected by it to examine the employee. An employee absent on sick leave for three of more consecutive days may be required to submit a note from a health care practitioner certifying that the employee was unable to work for health reasons and is now permitted to return to work.

3. The "Disability Year" shall be the calendar year commencing January 1 and ending December 31.

4. If any period of disability extends beyond December 31 of the calendar year in which the disability commences, the employee shall continue to draw such pay from the Company until the employee has received the maximum number of weeks to which the employee would have been entitled in the calendar year in which the disability commenced. The employee shall not then be entitled to further payments until he/she returns to active employment for at least one (1) day, nor shall he/she be entitled to further payments for the same or related disability until he/she has returned to active employment for two (2) weeks.

5. In recognition of the fact that delay sometimes occurs in the determination of benefits payable under the Workmen's Compensation Law, the Company agrees in order to assure continuity of income to a disabled employee that it will pay the employee's normal weekly wages in full for the period indicated in the schedule above, subject to agreement by the employee that any benefits currently or subsequently received from the Workmen's Compensation carrier (other than reimbursement of expenses) with respect to said period of disability, shall be assigned to the Company.

6. It is understood that these payments from the Compensation carrier to be assigned to the Company include only weekly benefits for temporary disability.

7. The Company will annually provide up to eight (8) hours of paid time away from work which can be divided into fifteen minute increments to be used for the employee's doctor or dental visits. Unused time may be carried over each year with a maximum of 24 hours being accumulated.

January 1, 2018 a sick bank will be established for current employees based on completed years of service in 2017 plus forty days.

Effective January 1, 2018 any employee who does not use all of their annual sick leave may carry over unused days into a sick leave bank. The sick leave bank for all employees shall be capped at 130 days with a one-time exception regarding the establishment of a sick bank. Employees with greater than twenty-four (24) years of service shall start their bank based upon their actual completed years of service calculation as of December 31, 2017. Employees hired after December 31, 2017 will be eligible to roll their allotted unused sick time into a sick bank up to a maximum of 130 days.

Employees will have the discretion to utilize their allotted sick bank. The Company may require a suitable statement from the employee's physician certifying to the disability, illness, or accident and may elect to have a physician selected by it to examine the employee.

Employees whose illness continues into a new calendar year must return to work for at least seven calendar days before receiving a new fourteen (14) days of sick time allotment.

Part-time employees are not eligible for sick time.

Sick time is not earned time off and is available to eligible employees on the first month following one (1) full month of continuous service for up to a maximum of fourteen (14) paid sick days per calendar year.

Employees hired on or before June 30 in the current calendar year will receive fourteen (14) days of sick time and employees hired after July 1 in the current calendar year will receive (7) days of sick time.

Unless otherwise required by law, up to three (3) days of the fourteen (14) allowed may be used for spouse, child, parent or domestic partner.

Employees are required to contact the Company's short-term disability provider if an absence is expected to continue longer than five (5) days. In accordance with the National Benefits Plan, if you are eligible for Short Term Disability (STD) benefits and are still disabled after you exhaust your paid sick leave and sick bank STD coverage will start paying benefits for a combined duration of 52 weeks of payments. Depleted sick leave banks may be replenished per the language contained within this section.

Should an illness or injury occur that precludes the employee from taking vacation during the calendar year, the Company will agree to pay employee up to five days of unused vacation.

Section 3. Insurance, Welfare, Pension and 401(k) Plans

The Plans of Group Insurance, Accidental Death and Dismemberment Insurance, Weekly Accident and Sickness Benefits, hospital, medical, surgical benefits described in the booklet entitled GROUP INSURANCE PLAN and The Pension Plan (including 401(k) Plan) agreed upon in July 2005, by the Utility Workers Union of America, AFL-CIO and American Water Works Company, will be made a part of this Contract. It is agreed that said plan shall not be subject to renegotiation until August 1, 2010. The Company and Union agree to be bound by the results of the renegotiation of the Insurance and Welfare Plan to be agreed upon by American Water Works Company, Inc., or its designee and the Utility Workers of America, AFL-CIO, Local121 or its designee.

ARTICLE 8
TERM OF CONTRACT

Section 1.

This Contract shall be binding on the respective parties hereto beginning with the 22nd day of May 2017, and ending with the 21st day of May 2022, and from year to year thereafter unless either party notifies the other of its desire to terminate the Contract on the next anniversary date thereof by sending notice to that effect to the other party in writing not less than sixty (60) days prior to such anniversary date. The provisions of Articles 2, 3, and 8 shall continue in full force and effect and be binding on the Company and the Union after the termination date so long as any of the provisions of said Articles 2, 3, and 8 have not been fully completed in accordance with the spirit and intent of those Articles, and said Articles may only be terminated sooner by mutual consent of the parties.

Section 2.

In the event that legislation be enacted or regulations be adopted making mandatory, during the term of this Contract, a work week of less than forty-eight (48) hours, or requiring the payment of overtime rates of pay for hours worked in excess of a number of less than a forty (40) hour week or eight (8) hour day, or changing the overtime rate of pay in any manner, then and in any such case either party hereto may, at any time during the term of the Contract, open Article 4 for negotiation concerning changes desired in such Article 4 by giving the other party ten (10) days notice in writing of the changes desired. Changes in Article 4 under the provisions of this Section finally determined shall become effective as of the date ten (10) days after receipt of notice in writing of desire for change. Upon failure to reach a mutual agreement upon such changes desired by either party, the arbitration provisions shall thereupon be put into operation and be given effect.

ARTICLE 9

Section 1. Management Rights

Except as otherwise specifically limited in this Contract, it is mutually understood and agreed that the Company has the right to exercise the regular and customary functions of management, among which functions are the management of the property, the right to decide the methods and equipment to be used in the operation and maintenance of the property, and the direction of the employees including the right to hire, assign, work, suspend, discharge, discipline, promote, demote, or transfer and to release employees because of lack of work or for other proper reasons, subject, however, to the employees privilege of bringing a grievance as provided in the Contract.

When the Company establishes a new job classification or makes substantial changes in the duties of an existing job classification, it shall notify the Union at least five (5) working days prior to taking the action of the proposed wage rate for the new job. Should a question arise as to the proper wage rate for the new job, or the existing job, the Company will negotiate the matter with the Union.

Section 2. Contracting

For the purpose of preserving work and job opportunity for the employees covered by the agreement, the Company will not contract out work that the bargaining unit employees customarily and historically performed so long as the Company has the necessary equipment and available employees to perform the work. For the purposes of this provision, available employees shall include employees qualified to do the work, whether or not on lay-off status. This section shall not apply in an emergency where the Company makes a bona fide effort to call its employees to work and cannot reach them.

ARTICLE 10

This Agreement can be amended only by mutual agreement in writing signed by the majority of the Union Negotiating Committee and an Officer of the Company. There are five (5) signed "Letters of Agreement/Understanding" written in settlement of grievances or disputes which are not attached to this contract but remain in effect and binding upon both the Company and the Union.

The referenced letters are as follows:

Letter of Agreement dated November 5, 1991, concerning overtime for relief in the Distribution Department.

Letter dated October 24, 1993, concerning miscellaneous issues such as size of dump truck driven by Distribution Department employees assigned on a seniority basis, Company provided parking for Office Complex employees, and method of obtaining employees to work on an overtime basis in the Distribution Department.

Letter of Agreement dated August 22, 2002, concerning elimination of On & Off classification and creation of the Field Services position.

Letter of Agreement dated June 2, 2003, for Effects Bargaining relating to the closing of the Inside Commercial Department.

Letter of Agreement dated October 29, 2004, concerning Effects Bargaining for Field Service Records Specialists.

AGREEMENT

In recognition of their mutual responsibility to insure that all terms of the agreement between Tennessee-American Water Company and Local No. 121 - Utility Workers Union of America-A.F.L.-C.I.O. dated May 22, 2017 , are in accordance with the intent of the Equal Employment Opportunity Guidelines, the Company and the Union agree that if the Contract is found to be in violation of the law, the parties will meet and develop terms of the agreement to comply with the law.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Dominic DeGrazia

Question 044

EXPENSES

Provide the amount of each lobbying expense, charitable contribution, social club membership and athletic event paid by its Parent, Multi-State Utility, or Affiliated Utility Service Company and allocated to TAWC for each month of the test period and included in costs to be recovered in regulated rates. Provide the same information and breakdown for any amounts paid directly by TAWC and included in costs to be recovered in regulated rates. Identify the accounts charged for each amount.

Response:

The Company did not include lobbying, charitable contribution, or social club membership expenses for these categories from AWWSC or TAWC in its filing. The Parent Company does not allocate expenses to TAWC.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 045

EXPENSES

Provide a detailed itemization of the rate case costs by law firm and rate case consultant.

Response:

Please refer to the Petitioner's Exhibit EXP-11-Regulatory Expense-BL for the itemization of the rate case estimated costs.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Robert Prendergast

Question 046

EXPENSES

Please identify any changes since the last Tennessee rate case in the Long-Term Incentive Plan ("LTIP") criteria for compensation. Further, identify the amount and account charged for the LTIP in the test period and the attrition year.

Response:

Confidential response filed under seal.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 047

TAXES

Provide copies of the following tax returns (state and federal) for the most recent three (3) tax years:

a. Tennessee Gross Receipts Tax Returns
b. Tennessee Franchise and Excise Tax Returns
c. Property tax statement Tennessee Ad Valorem Tax Report
d. Employer's Quarterly Federal Tax Returns (Form 941)
e. Employer's Annual Federal Unemployment Tax Return (Form 940)
f. Employer's Quarterly Contribution Report to the Tennessee Department of Employment Security

Response:

a. Please see attachments labeled '2024 TAWC MFG Q047_Attachment 1' through '2024 TAWC MFG Q047_Attachment 5'. 2021 & 2022 have original and amended return copies included.
b. Please see attachments labeled '2024 TAWC MFG Q047_Attachment 6' through '2024 TAWC MFG Q047_Attachment 8'.
c. Please see attachments labeled '2024 TAWC MFG Q047_Attachment 9' through '2024 TAWC MFG Q047_Attachment 11'.
d. American Water uses a common pay agent to pay the IRS for schedule 941. The amounts specific to TNAW can be found in the R schedules of 2024 TAWC MFG Q047_Attachment12_CONFIDENTIAL under the EIN: 62-06529095.
e. Please see 2024 TAWC MFG Q047_Attachment13
f. Please see 2024 TAWC MFG Q047_Attachment14_CONFIDENTIAL

1.	Total net worth Schedule F1, Line 5 or Schedule F2, Line 3	(1)	230930709
2.	Total real and tangible personal property from Schedule G, Line 15	(2)	307592090
3.	Franchise tax (25¢ per $100 or major fraction thereof on the greater of Lines 1 or 2; minimum $100)	(3)	768980

Schedule B - Computation of Excise Tax

4.	Income subject to excise tax from Schedule J, Line 36	(4)	-1920626
5.	Excise tax (6.5% of Line 4)	(5)	NONE
6.	Recapture of tax credit (Schedule T, Line 13) and additional excise tax on certified distribution sales	(6)	
7.	Total excise tax due (add Lines 5 and 6)	(7)	NONE

Schedule C - Computation of Total Tax Due or Overpayment

8.	Total franchise and excise taxes (add Lines 3 and 7)	(8)	768980
9.	Total credit from Schedule D, Line 9 (cannot exceed Schedule C, Line 8)	(9)	118112
10.	Net tax (subtract Line 9 from Line 8; if Line 9 exceeds Line 8, enter zero here)	(10)	650868
11.	Total payments from Schedule E, Line 7	(11)	1477349
12.	Penalty (see instructions)	(12)	
13.	Interest (see instructions)	(13)	
14.	Penalty on estimated franchise and excise tax payments	(14)	
15.	Interest on estimated franchise and excise tax payments	(15)	
16.	Total amount due (overpaid) (add Lines 10, 12, 13, 14, and 15, subtract Line 11)	(16)	-826481

If overpayment reported on Line 16, complete A and/or B below:

A. Credit to next year's tax $ 826481 B. Refund $ _____

Power of Attorney - Check YES if this taxpayer's signature certifies that this tax preparer has the authority to execute this form on behalf of the taxpayer and is authorized to receive and inspect confidential tax information and to perform any and all acts relating to respective tax matters.

☐ YES

Computation of Excise Tax

Schedule J1 - Computation of Net Earnings for Entities Treated as Partnerships

Additions:

1. Ordinary income or loss (federal Form 1065, Line 22) . . . (1)
2. Income items specifically allocated to partners, including guaranteed payments to partners . . . (2)
3. Any net loss or expense distributed to a publicly traded REIT . . . (3)
4. Total additions (add Lines 1 through 3) . . . (4)

Deductions:

5. Expense items specifically allocated to partners not deducted elsewhere . . . (5)
6. Amount subject to self-employment taxes distributable or paid to each partner or member net of any pass-through expense deducted elsewhere on this return (if negative, enter zero) (include on Schedule K, Line 3) . . . (6)
7. Amount of contribution to qualified pension or benefit plans of any partner or member, including all IRC 401 plans (include on Schedule K, Line 3) . . . (7)
8. Any net gain or income distributed to a publicly traded REIT . . . (8)
9. Any loss on the sale of an asset sold within 12 months after the date of distribution . . . (9)
10. Total deductions (add Lines 5 through 9) . . . (10)
11. Total (subtract Line 10 from Line 4; enter here and on Schedule J, Line 1) . . . (11)

Schedule J2 - Computation of Net Earnings for a Single Member LLC Filing as an Individual

Additions:

1. Business Income or loss from federal Form 1040, Schedule C . . . (1)
2. Business Income or loss from federal Form 1040, Schedule D . . . (2)
3. Business Income or loss from federal Form 1040, Schedule E . . . (3)
4. Business Income or loss from federal Form 1040, Schedule F . . . (4)
5. Business Income or loss from federal Form 4797 . . . (5)
6. Other: federal Form _____ , Schedule _____ . . . (6)
7. Total additions (add Lines 1 through 6) . . . (7)

Deductions:

8. Amount subject to self-employment taxes distributable or paid to the single member (if negative, enter zero; include on Schedule K, Line 3) . . . (8)
9. Total (subtract Line 8 from Line 7; enter here and on Schedule J, Line 1) . . . (9)

Schedule J3 - Computation of Net Earnings for Entities Treated as Subchapter S Corporations

Additions:

1. Ordinary income or loss (federal Form 1120S, Line 21) . . . (1)
2. Income items to extent includable in federal income were it not for "S" status election . . . (2)
3. Total additions (add Lines 1 and 2) . . . (3)

Deductions:

4. Expense items to extent includable in federal expenses were it not for "S" status election . . . (4)
5. Any loss on the sale of an asset sold within 12 months after the date of distribution . . . (5)
6. Total deductions (add Lines 4 and 5) . . . (6)
7. Total (subtract Line 6 from Line 3; enter here and on Schedule J, Line 1) . . . (7)

Schedule J4 - Computation of Net Earnings for Entities Treated as Corporations and Other Entities

Additions:

1. Taxable income or loss before net operating loss deduction and special deductions (federal Form 1120, Line 28) . . . (1) 3,058,083
2. a. REIT taxable income before net operating loss deduction and special deductions (federal Form 1120-REIT, Line 20) . . . (2a) _____
   b. REIT deduction for dividends paid (federal Form 1120-REIT, Line 21b) . (2b) _____
   c. REIT taxable income after dividends paid deduction (subtract Line 2b from Line 2a) . . . (2c) _____
3. Unrelated business taxable income (federal Form 990-T, Line 5) . . . (3)
4. Other: federal Form _____ . . . (4)
5. Contribution carryover from prior period(s) . . . (5)
6. Capital gains offset by capital loss carryover or carryback . . . (6)
7. Total additions (add Lines 1 through 6) . . . (7) 3,058,083

Deductions:

8. Contributions in excess of amount allowed by federal government . . . (8)
9. Portion of current year's capital loss not included in federal taxable income . . . (9)
10. Total deductions (add Lines 8 and 9) . . . (10)
11. Total (subtract Line 10 from Line 7; enter here and on Schedule J, Line 1) . . . (11) 3,058,083

Schedule J - Computation of Net Earnings Subject to Excise Tax

1.	Adjusted federal income or loss (enter amount from Schedule J1, J2, J3, or J4)	(1)	3058083
	Additions:		
2.	Intangible expenses paid, accrued, or incurred to an affiliated business entity or entities deducted for federal income tax purposes	(2)	
3.	Any depreciation under the provisions of IRC Section 168 not permitted for excise tax purposes due to Tennessee permanently decoupling from federal bonus depreciation	(3)	10179624
4.	Gain on the sale of an asset sold within 12 months after the date of distribution to a nontaxable entity	(4)	
5.	Tennessee excise tax expense (to the extent reported for federal income tax purposes)	(5)	-305407
6.	Gross premiums tax deducted in determining federal income and used as an excise tax credit	(6)	
7.	Interest income on obligations of states and their political subdivisions, less allowable amortization	(7)	
8.	Depletion not based on actual recovery of cost	(8)	
9.	Excess fair market value over book value of property donated	(9)	
10.	Excess rent to/from an affiliate	(10)	
11.	Net loss or expense received from a pass-through entity subject to the excise tax (attach schedule)	(11)	
12.	An amount equal to five percent of IRC Section 951A global intangible low-taxed income deducted on Line 27	(12)	
13.	Business interest expense deducted in arriving at the amount reported on Sch. J, Line 1. Only complete if federal Form 8990 was filed. See instructions	(13)	NONE
14.	Research and experimental expenditures deducted under IRC Section 174 in arriving at the amount reported on Sch. J, Line 1	(14)	
15.	Total additions (add Lines 2 through 14)	(15)	9874217
	Deductions:		
16.	Any depreciation under the provisions of IRC Section 168 permitted for excise tax purposes due to Tennessee permanently decoupling from federal bonus depreciation	(16)	11547216
17.	Any excess gain (or loss) from the basis adjustment resulting from Tennessee permanently decoupling from federal bonus depreciation	(17)	
18.	Dividends received from corporations at least 80% owned	(18)	
19.	Donations to qualified public school support groups and nonprofit organizations	(19)	
20.	Any expense other than income taxes not deducted in determining federal taxable income for which a credit against the federal income tax was allowed	(20)	
21.	Adjustments related to the safe harbor lease election (see instructions)	(21)	
22.	Nonbusiness earnings (from Schedule M, Line 8)	(22)	
23.	Intangible expenses paid, accrued, or incurred to an affiliated entity or entities (from Form IE, Line 4) Attach Form IE - Intangible Expense Disclosure	(23)	
24.	Intangible income from an affiliated business entity or entities if the corresponding intangible expenses have not been deducted by the affiliate(s) under Tenn. Code Ann. § 67-4-2006(b)(2)(N)	(24)	
25.	Net gain or income received from a pass-through entity subject to the excise tax (attach schedule)	(25)	
26.	Deductible Grants from governmental units	(26)	
27.	IRC Section 951A global intangible low-taxed income	(27)	
28.	a. Business interest expense currently deductible. See instructions	(28a)	NONE

2. Amounts reported on Schedule J, Lines 18 and 22 . . . . . (2) _____
3. Amounts reported on Schedule J1, Lines 6 and 7, or Schedule J2, Line 8 . . . . . (3) _____
4. Reduced loss (add Lines 1 through 3; if net amount is positive, enter zero) . . . . . (4) _____
5. Excise tax apportionment ratio (Schedules N, O, P, R or S if applicable or 100%) . . . . . (5) _____ %
6. Current year loss carryover available (multiply Line 4 by Line 5) . . . . . (6) _____

Schedule M - Nonbusiness Earnings Allocation

Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. §§ 67-4-2010 and 67-4-2110. The burden is on the taxpayer to show that the taxpayer has the right to apportion.

If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

"Business Earnings" - 1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business, or 2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations.
Earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" - all earnings other than business earnings

	Description of Nonbusiness Earnings (If further description is necessary, see below)	Gross Amounts	*Less Related Expenses	Net Amounts	Net Amounts Allocated Directly to Tennessee
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 22)				
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 34)				

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Items such as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50% of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5% of such earnings (see TENN. COMP. R. & REGS. 1320-06-01.23(3)).

01/01/2022 -12/31/2022	Tennessee-American Water Company	0317434603

Schedule T - Industrial Machinery and Research and Development Equipment Tax Credit

Part 1: Tax Credit Computation

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. §67-4-2009(3).

1. Purchase price of industrial machinery and research and development equipment	(1)	11811171
2. Percentage allowed (generally 1%*)	(2)	1. %
3. Current year credit (multiply Line 1 by Line 2)	(3)	118112
4. Credit available from prior year(s) (from Schedule V)	(4)	
5. Total credit available (add Lines 3 and 4)	(5)	118112
6. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(6)	768980
7. Limitation on credit (50% of Line 6)	(7)	384490
8. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(8)	768980
9. Credits from Schedule D, Lines 1 through 4 and Schedule D, Line 7	(9)	
10. Tax before Industrial Machinery Credit (subtract Line 9 from Line 8)	(10)	768980
11. Amount available in current year (enter the smaller value of Lines 5, 7, or 10 here, and on Schedule D, Line 5)	(11)	118112

Part 2: Recapture of Tax Credit

The Industrial Machinery Tax Credit previously established on this form must be partially recaptured if the equipment on which it was based was sold or removed from the state before the end of the equipment's life as established for federal income tax purposes. The recapture amount is a percentage of useful life remaining at the time of sale or removal multiplied by the credit originally established on this form. Previously established credits have either offset tax or populated the carryover table Schedule V. Complete the Industrial Machinery Credit Recapture Worksheet and then enter the applicable recapture amounts on Lines 12 and 13 below.

12. Reduction to credit carryover table, Schedule V, from recapture worksheet, Part 2, Line 16	(12)	
13. Recapture of credit from recapture worksheet, Part 2, Line 17 (enter here and on Schedule B, Line 6)	(13)	

*The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met the requirements of Tenn. Code Ann. §67-4-2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates for the enhanced credit are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%
$500,000,000	7%
$1,000,000,000	10%

6.	Current year loss carryover available (multiply Line 4 by Line 5)	(6)	-1426219

Schedule M - Nonbusiness Earnings Allocation

Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. §§ 67-4-2010 and 67-4-2110. The burden is on the taxpayer to show that the taxpayer has the right to apportion.

If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

"Business Earnings" - 1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business, or 2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations.
Earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" - all earnings other than business earnings

	Description of Nonbusiness Earnings (If further description is necessary, see below)	Gross Amounts	*Less Related Expenses	Net Amounts	Net Amounts Allocated Directly to Tennessee
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 21)				
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 32)				

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Items such as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50% of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5% of such earnings (see TENN. COMP. R. & REGS. 1320-06-01.23(3)).

Schedule T - Industrial Machinery and Research and Development Equipment Tax Credit

Part 1: Tax Credit Computation

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. §67-4-2009(3).

1. Purchase price of industrial machinery and research and development equipment	(1)	19197376
2. Percentage allowed (generally 1%*)	(2)	1. %
3. Current year credit (multiply Line 1 by Line 2)	(3)	191974
4. Credit available from prior year(s) (from Schedule V)	(4)	
5. Total credit available (add Lines 3 and 4)	(5)	191974
6. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(6)	728833
7. Limitation on credit (50% of Line 6)	(7)	364417
8. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(8)	728833
9. Credits from Schedule D, Lines 1 through 5 and Schedule D, Line 8	(9)	
10. Tax before Industrial Machinery Credit (subtract Line 9 from Line 8)	(10)	728833
11. Amount available in current year (enter the smaller value of Lines 5, 7, or 10 here, and on Schedule D, Line 6)	(11)	191974

Part 2: Recapture of Tax Credit

The Industrial Machinery Tax Credit previously established on this form must be partially recaptured if the equipment on which it was based was sold or removed from the state before the end of the equipment's life as established for federal income tax purposes. The recapture amount is a percentage of useful life remaining at the time of sale or removal multiplied by the credit originally established on this form. Previously established credits have either offset tax or populated the carryover table Schedule V. Complete the Industrial Machinery Credit Recapture Worksheet and then enter the applicable recapture amounts on Lines 12 and 13 below.

12. Reduction to credit carryover table, Schedule V, from recapture worksheet, Part 2, Line 16	(12)	
13. Recapture of credit from recapture worksheet, Part 2, Line 17 (enter here and on Schedule B, Line 6)	(13)	

*The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met the requirements of Tenn. Code Ann. §67-4-2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates for the enhanced credit are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%
$500,000,000	7%
$1,000,000,000	10%

Schedule K - Determination of Loss Carryover Available

1.	Net loss from Schedule J, Line 29	(1)	-1897487
	Additions:		
2.	Amounts reported on Schedule J, Lines 17 and 21	(2)	
3.	Amounts reported on Schedule J1, Lines 6 and 7, or Schedule J2, Line 8	(3)	
4.	Reduced loss (add Lines 1 through 3; if net amount is positive, enter zero)	(4)	-1897487
5.	Excise tax apportionment ratio (Schedules N, O, P, R or S if applicable or 100%)	(5)	96.738008 %
6.	Current year loss carryover available (multiply Line 4 by Line 5)	(6)	-1835591

Schedule M - Nonbusiness Earnings Allocation

Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. §§ 67-4-2010 and 67-4-2110. The burden is on the taxpayer to show that the taxpayer has the right to apportion.

If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

"Business Earnings" - 1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business, or 2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations.
Earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" - all earnings other than business earnings

	Description of Nonbusiness Earnings (If further description is necessary, see below)	Gross Amounts	*Less Related Expenses	Net Amounts	Net Amounts Allocated Directly to Tennessee
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 21)				
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 32)				

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Items such as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50% of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5% of such earnings (see TENN. COMP. R. & REGS. 1320-06-01.23(3)).

Schedule T - Industrial Machinery and Research and Development Equipment Tax Credit

Part 1: Tax Credit Computation

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. §67-4-2009(3).

1. Purchase price of industrial machinery and research and development equipment	(1)	18099755
2. Percentage allowed (generally 1%*)	(2)	1. %
3. Current year credit (multiply Line 1 by Line 2)	(3)	180998
4. Credit available from prior year(s) (from Schedule V)	(4)	
5. Total credit available (add Lines 3 and 4)	(5)	180998
6. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(6)	684935
7. Limitation on credit (50% of Line 6)	(7)	342468
8. Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(8)	684935
9. Credits from Schedule D, Lines 1 through 5 and Schedule D, Line 8	(9)	
10. Tax before Industrial Machinery Credit (subtract Line 9 from Line 8)	(10)	684935
11. Amount available in current year (enter the smaller value of Lines 5, 7, or 10 here, and on Schedule D, Line 6)	(11)	180998

Part 2: Recapture of Tax Credit

The Industrial Machinery Tax Credit previously established on this form must be partially recaptured if the equipment on which it was based was sold or removed from the state before the end of the equipment's life as established for federal income tax purposes. The recapture amount is a percentage of useful life remaining at the time of sale or removal multiplied by the credit originally established on this form. Previously established credits have either offset tax or populated the carryover table Schedule V. Complete the Industrial Machinery Credit Recapture Worksheet and then enter the applicable recapture amounts on Lines 12 and 13 below.

12. Reduction to credit carryover table, Schedule V, from recapture worksheet, Part 2, Line 16	(12)	
13. Recapture of credit from recapture worksheet, Part 2, Line 17 (enter here and on Schedule B, Line 6)	(13)	

*The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met the requirements of Tenn. Code Ann. §67-4-2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates for the enhanced credit are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%
$500,000,000	7%
$1,000,000,000	10%

Re: 2023 Ad Valorem Tax Report

Dear Sir/Madam:

Enclosed is the 2023 Ad Valorem Tax Report for the above captioned entity. We request that the Assessor provide a copy of the Business Property Statement Valuation Worksheets for the year 2020 when completed.

We have included an estimate for economic obsolesce based on our inability to earn our allowed rate of return. Please consider this in your valuation determination.

If you have any questions or require further information, please contact the undersigned.

Sincerely,
TENNESSEE AMERICAN WATER COMPANY

Form 940 for 2021: Employer's Annual Federal Unemployment (FUTA) Tax Return

850113

Department of the Treasury — Internal Revenue Service

OMB No. 1545-0028

Employer identification number (EIN) 62-0529095

Name *(not your trade name)* TENNESSEE AMERICAN WATER

Trade name *(if any)*

Address 1 WATER STREET
Number Street Suite or room number

CAMDEN | NJ | 08102
City State ZIP code

Foreign country name | Foreign province/county | Foreign postal code

Type of Return
(Check all that apply.)

- ☐ **a.** Amended
- ☐ **b.** Successor employer
- ☐ **c.** No payments to employees in 2021
- ☐ **d.** Final: Business closed or stopped paying wages

Go to *www.irs.gov/Form940* for instructions and the latest information.

Read the separate instructions before you complete this form. Please type or print within the boxes.

Part 1: Tell us about your return. If any line does NOT apply, leave it blank. See instructions before completing Part 1.

1a If you had to pay state unemployment tax in one state only, enter the state abbreviation . **1a** TN

1b If you had to pay state unemployment tax in more than one state, you are a multi-state employer . . . **1b** ☐ Check here. Complete Schedule A (Form 940).

2 If you paid wages in a state that is subject to CREDIT REDUCTION . . . **2** ☐ Check here. Complete Schedule A (Form 940).

Part 2: Determine your FUTA tax before adjustments. If any line does NOT apply, leave it blank.

3 Total payments to all employees . . . **3** 8,508,541.27

4 Payments exempt from FUTA tax . . . **4** 34,268.92

Check all that apply: **4a** ☒ Fringe benefits **4b** ☒ Group-term life insurance **4c** ☐ Retirement/Pension **4d** ☒ Dependent care **4e** ☐ Other

5 Total of payments made to each employee in excess of $7,000 . . . **5** 7,667,234.50

6 Subtotal (line 4 + line 5 = line 6) . . . **6** 7,701,503.42

7 Total taxable FUTA wages (line 3 - line 6 = line 7) See instructions . . . **7** 807,037.85

8 FUTA tax before adjustments (line 7 x 0.006 = line 8) . . . **8** 4,842.23

Part 3: Determine your adjustments. If any line does NOT apply, leave it blank.

9 If ALL of the taxable FUTA wages you paid were excluded from state unemployment tax, multiply line 7 by 0.054 (line 7 x 0.054 = line 9). Go to line 12 . . . **9**

10 If SOME of the taxable FUTA wages you paid were excluded from state unemployment tax, OR you paid ANY state unemployment tax late (after the due date for filing Form 940), complete the worksheet in the instructions. Enter the amount from line 7 of the worksheet . . **10**

11 If credit reduction applies, enter the total from Schedule A (Form 940) . . . **11**

Part 4: Determine your FUTA tax and balance due or overpayment. If any line does NOT apply, leave it blank.

12 Total FUTA tax after adjustments (lines 8 + 9 + 10 + 11 = line 12) . . . **12** 4,842.23

13 FUTA tax deposited for the year, including any overpayment applied from a prior year . **13** 4,842.23

14 Balance due. If line 12 is more than line 13, enter the excess on line 14.
- If line 14 is more than $500, you must deposit your tax.
- If line 14 is $500 or less, you may pay with this return. See instructions . . . **14**

15 Overpayment. If line 13 is more than line 12, enter the excess on line 15 and check a box below. **15**

▶ You **MUST** complete both pages of this form and **SIGN** it.

Check one: ☐ Apply to next return. ☐ Send a refund.

Next ➡

850212

Name *(not your trade name)*	Employer identification number (EIN)
TENNESSEE AMERICAN WATER	62-0529095

Part 5: Report your FUTA tax liability by quarter only if line 12 is more than $500. If not, go to Part 6.

16 Report the amount of your FUTA tax liability for each quarter; do NOT enter the amount you deposited. If you had no liability for a quarter, leave the line blank.

16a	**1st quarter** (January 1 - March 31) **16a**	4,740.34
16b	**2nd quarter** (April 1 - June 30) **16b**	17.89
16c	**3rd quarter** (July 1 - September 30) **16c**	84.00
16d	**4th quarter** (October 1 - December 31) **16d**	
17	**Total tax liability for the year** (lines 16a + 16b + 16c + 16d = line 17) **17**	4,842.23

Total must equal line 12.

Part 6: May we speak with your third-party designee?

Do you want to allow an employee, a paid tax preparer, or another person to discuss this return with the IRS? See the instructions for details.

☐ **Yes.** Designee's name and phone number

Select a 5-digit Personal Identification Number (PIN) to use when talking to the IRS ☐☐☐☐☐

☐ **No.**

Part 7: Sign here. You MUST complete both pages of this form and SIGN it.

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief, it is true, correct, and complete, and that no part of any payment made to a state unemployment fund claimed as a credit was, or is to be, deducted from the payments made to employees. Declaration of preparer (other than taxpayer) is based on all information of which preparer has any knowledge.

Total Credit Reduction. Add all amounts shown in the *Credit Reduction* boxes. Enter the total here and on Form 940, line 11 . . . . . 0.00

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 048

TAXES

Provide the following Federal Income Tax data for the Tennessee Operations for the test year and the attrition year:

a. The calculation of TAWC's federal income tax expense. The calculated amount should reconcile to the amount reported on the Tennessee PSC 3.03 surveillance reports
b. A detailed calculation of the permanent book and tax differences
c. A detailed calculation of the temporary book and tax differences
d. Operating federal income taxes deferred – accelerated depreciation
e. Federal income taxes – operating
f. Income credits resulting from prior deferrals of federal income taxes

Response:

See Schedule EXP 23.3 which is included in the file labeled "TAWC 2024 Rate Case - Income Tax Exhibit", tab labeled 'Federal Current Prov 12-31-25'. Also see supporting tabs within the file for items a – f.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 049

TAXES

Provide a reconciliation of book to taxable income and a calculation of the federal income tax expense on a total Company, total TAWC, and Tennessee only basis for the test period and for the attrition period.

Response:

See Schedule EXP 23.3 which is included in the file labeled "TAWC 2024 Rate Case - Income Tax Exhibit", tab labeled 'Federal Current Prov 12-31-25' for the book to taxable income differences and a calculation of the federal income tax expense.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 050

TAXES

Provide the unemployment tax rate presently being paid, broken down into state and federal rates, and any anticipated change in the state unemployment rate.

Response:

The current state unemployment tax rate is 0.17% on max wages of $7,000. The federal unemployment tax rate is 0.60% on max wages of $7,000.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Dominic DeGrazia

Question 051

RATE BASE (EXCLUDING WORKING CAPITAL)

Provide monthly plant additions and retirements by account number for the last three (3) fiscal years to include the test period. Please break down plant additions into normal or special projects, as defined below:

a. Normal construction requirements should be considered to include the needs created through normal system expansion, such as serving residential areas, shopping areas, old home conversions, replacements of tools and work equipment, transportation equipment, etc.
b. Special construction requirements should be considered to arise from extensive replacement of old facilities which cannot be foreseen, major expansion projects such as industrial parks, system improvements such as change from low pressure to high pressure required because of changing delivery patterns, and changes required by government action such as street improvement and relocation, community and neighborhood development, bridge replacement, etc. These requirements should be considered to be outside the control of TAWC.
c. For the last three (3) fiscal years, identify any contributions in aid of construction.

Response:

Please refer to 2024 TAWC MFG Q051_Attachment.

Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Dominic DeGrazia

Question 052

RATE BASE (EXCLUDING WORKING CAPITAL)

Break down budgeted plant additions between normal and special projects, using the criteria defined above, for the months between the end of the last fiscal year and the end of the attrition period. Provide sufficient detail of each individual project as to the date of inception and completion, and the proposed methods of financing. Identify those budgeted plant additions that are in process or have already been completed. Basic assumptions underlying budgets should also be submitted including the assumptions for sales volumes.

Response:

Please refer to 2024 TAWC MFG Q052_Attachment. For additional information on the plant additions scheduled to go into service between January 1, 2024, through December 31, 2025, see the Direct Testimony of Kevin Kruchinski.

Question 053

RATE BASE (EXCLUDING WORKING CAPITAL)

Identify all special projects from the end of the test period through the attrition period, using the criteria defined in the preceding question 52, by work order number and include the estimated cost. Provide a signed authorization for each special project and identify the planned starting and completion dates.

Response:

Please refer to the projects listed below. For additional information on the plant additions scheduled to go into service between January 1, 2024 through December 31, 2025, see the Direct Testimony 2024, Kevin Kruchinski.

Special projects do not receive signed authorization, but are instead made part of the The Strategic Capital Expenditure Plan ("SCEP"), which is approved annually. Please see the Direct Testimony of Kevin Kruchinski for additional information regarding the SCEP and the governess process.

Question 055

RATE BASE (EXCLUDING WORKING CAPITAL)

Describe TAWC's budgeting process including, but not limited to the following:

a. How far in advance are operating and construction budgets prepared? On what basis is the total operation and construction budget determined? Explain the "approval process" in budget development.
b. How many views or updates of the same budget year are made before a final view is adopted?
c. Are budgets prepared on a monthly, quarterly, or annual basis?
d. Which individual or department has overall responsibility for budgets/reconciliations?
e. Once a final budget has been adopted, are budget to actual (reconciliation) comparisons routinely made? How frequently are reconciliations prepared and by whom?
f. For the last two (2) completed fiscal years, provide copies of all budgets, budget to actual and indicate reasons for the variances.
g. Comparisons on a total Company, total TAWC, and Tennessee only basis.
h. Provide total TAWC and Tennessee Operations budgets and all supporting workpapers for the current fiscal year and next fiscal year.

Response:

a. The budget process typically begins in March and is finalized in September. A down-level monthly budget is produced in collaboration with finance, engineering, operations, Service Company, and Company leadership. Key TAWC employees are involved in each level of the budget review process. The budget goes through several internal reviews with the first level of review being with the President of TAWC. The second level of review is with the SVP Deputy CFO, Corporate Directors, and the regional CFO. The consolidated budget is then reviewed with the Executive Leadership team of AWWSC. The Final budget is then submitted to the TAWC Board of Directors for approval.
b. The number of budget iterations varies based on the results and changes that occur during the process. At minimum, the reviews are as described in subpart a. above, prior to Board approval.
c. The Year 1 budget is prepared monthly. Years 2 through 5 are prepared annually.
d. The TAWC President has ownership of the overall state budget based on guidance from finance, rates, engineering, and operations.
e. The company prepares monthly budget to actual reconciliations that are reviewed by state management as well as the divisional CFO. The finance department prepares the variance analysis with significant input from the operations, engineering, and rates departments.
f. Please see TAWC MFG Q055_Attachment 1
g. TAWC prepares one budget that includes a small portion of expense for Georgia.
Please see TAWC MFG Q055_Attachment 2 for workpapers related to the current fiscal year and the next fiscal year.

Question 056

RATE BASE (EXCLUDING WORKING CAPITAL)

Provide schedules showing the development of the average Tennessee account balances listed below for the last fiscal year. (If partially provided in other items, provide the remaining data here.)

a. Utility Plant in Service
b. Construction Work in Progress
c. Inventories
d. Deferred debits
e. Reserves
f. Customer Deposits
g. Interest on Customer Deposits
h. Contributions in Aid of Construction
i. Accumulated Deferred FIT
j. Accumulated Depreciation
k. Accounts Payable applicable to CWIP
l. Accounts Payable applicable to Materials & Supplies
m. Customer Advances
n. Materials and Supplies
o. Accounts Receivable – Other
p. Prepaids

Response:

Please refer to 2024 TAWC MFG Q056_Attachment.

Question 057

RATE BASE (EXCLUDING WORKING CAPITAL)

Provide an explanation and calculation of the method used to allocate to Tennessee any portions included in Item 56 above.

Response:

The only utility plant projects allocated to affiliate regulated companies, are associated with Enterprise Solutions, and are allocated based on the affiliates respective share of total customers.
Customer count as of 12/31/22, which is the basis for 2023 costs incurred, resulted in TAWC receiving 2.70% of such utility plant projects in 2023.

Enterprise Solutions are technology projects that are completed on an enterprise-wide basis for the benefit of all of American Water's operating utilities (including Tennessee-American) and are comprised of investments that upgrade and enhance our foundational technology, as well as customer facing platforms, among others, to continue to provide safe, reliable and efficient service to customers.

Question 058

RATE BASE (EXCLUDING WORKING CAPITAL)

Provide the investment, accumulated depreciation, and deferred FIT on all property that is owned by an affiliate of TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, where applicable, and leased or allocated to TAWC or Multi-state Utility. An operating division of a Multi-State Utility is not an affiliate.

Response:

As an affiliate, American Water Works Service Company, Inc. ("AWWSC") allocates charges to TAWC. Following is the requested data from the books of AWWSC at December 31, 2023:

UPIS	$75,533,064
Accumulated depreciation	$52,984,102
Deferred taxes	$5,317663

Question 059

WORKING CAPITAL

Has TAWC updated the Lead-Lag Study since its last rate case? If so:

a. Provide a copy of the Lead-Lag Study workpapers.
b. Provide the percentage of the sample tested to the total test period dollar amount for each account in the Lead-Lag Study.
c. Provide a comparison of the Lead-Lag Study used in this case with the Study used in the previous case and explain any major changes.

Response:

a. Please see TAWC Walker EXHIBIT HW-1 for a copy of the Lead-Lag Study workpapers.
b. A sample review was conducted for each expense category and can be found in the file 2024 TAWC MFG Q059_Attachment 1. The average percentage sampled for O&M expenses is 100%.
c. The Lead-Lag Study for this case differs substantially from the 2012 Lead-Lag Study. This is primarily due to the significant length of time between cases, necessitating an updated methodology in how the study is conducted. A detailed comparison of the current and prior Lead-Lag Studies can also be found in the file 2024 TAWC MFG Q059_Attachment 2.

Question 060

WORKING CAPITAL

Provide a description of the policy of TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, with respect to maintaining minimum cash balances. Provide copies of supporting management directives or minutes from directors' meetings supporting such policies.

Response:

The Company utilizes American Water Capital Corp. (AWCC) to provide cash management services. The Company policy is to minimize cash to the lowest level possible. All cash collections are run through the lockbox account and are swept each day to the Company's account at AWCC. The cash is used to cover payments and any excess cash is used to pay down any outstanding short-term debt or in the absence of short-term debt any excess cash is invested on behalf of the Company. This has been the long-standing practice of all AWW subsidiaries, including TAWC.

Question 061

WORKING CAPITAL

Provide a list of all TAWC's checking accounts, identifying the nature and use for each. Provide a copy of all TAWC's bank statements for each month during the test period.

Response:

Confidential response filed under seal.

Responsible Witness: Bob Lane

Question 062

MERCHANDISE & JOBBING AND OTHER NON-REGULATED OPERATIONS

Explain the nature and extent of each of TAWC's or, where applicable, Multi-state Utility's non-regulated operations.

Response:

TAWC does not have non-regulated operations.

Tennessee American Water Company
Docket No. 24-XXXXX
Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 063

MERCHANDISE & JOBBING AND OTHER NON-REGULATED OPERATIONS

Provide an Income Statement and identify assets devoted to and liabilities specifically arising from non-regulated operations of TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, for the last two (2) fiscal years. For each year, identify each class of revenue separately (appliance, propane sales, etc.). The statements should include the following information for each year:

a. The direct expense incurred by TAWC for each operation.
b. The general office expense allocated to each operation by TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company
c. All expenses charged to TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, from the non-regulated activities.
d. All revenues billed by TAWC's regulated operations to the non-regulated operations.

Response:

a. TAWC has not incurred direct expenses related to non-regulated operations.
b. TAWC has not allocated any general office expenses to non-regulated operations.
c. TAWC has not been charged expenses from non-regulated operations.
d. TAWC's regulated operations have not billed for any non-regulated operations.

Tennessee Regulatory Authority
Minimum Filing Guidelines

Responsible Witness: Bob Lane

Question 064

MERCHANDISE & JOBBING AND OTHER NON-REGULATED OPERATIONS

Provide a complete explanation and calculation of how costs (other than salaries and wages) as requested above were allocated to non-utility operations for the test period and for the period from the end of the test period through the attrition period.

Response:

All assets, liabilities, revenues and expenses on the books and records of TAWC are related to regulated operations of TAWC. Therefore, there are no non-regulated assets, liabilities, expenses and revenues of TAWC included in the historical test period through the attrition period of the Company.

Question 069

COST OF CAPITAL

Provide a schedule identifying the following for TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, for the last two (2) fiscal years and adjust for any stock splits:

a. Primary earnings per share
b. Fully diluted earnings per share
c. Dividends per share
d. Book value per share
e. High market price for each year
f. Low market price for each year
g. Average market price for each year

Response:

Please refer to 2024 TAWC MFG Q069_Attachment for a. – g.

Tennessee American Water Company is a wholly owned subsidiary of American Water Works Company, Inc. and as such is not a publicly traded company. Tennessee American does not report on a per share basis as American Water Works Company, Inc. is the sole shareholder. The factors calculated in the referenced attachment are based on American Water Works Company, Inc. average shares outstanding, and the resulting amounts are presented as a hypothetical representation of how Tennessee American Water contributes to the consolidated American Water Works results.

Question 071

COST OF CAPITAL

Provide the computer file showing items below for the Parent, Multi-State Utility, or Affiliated Utility Service Company, for each of the last fifteen (15) fiscal years:

a. Earnings, annual dividends declared, annual dividends paid, book value of common equity, and price of common equity (each item should be shown per average actual common share outstanding, adjusted for stock splits and stock dividends)
b. Rate of return to average common equity
c. Common stock earnings retention ratio
d. For common stock not issued to the public, but issued pursuant to a) tax reduction act stock ownership plans, b) employee stock option plans, and c) dividend reinvestment plans, provide net proceeds per common share issued, and number of shares issued and previously outstanding at the beginning of the year. Provide the information separately for each of the three (3) types of plans and report each plan's information as annual aggregate or as an average and indicate whether you are providing an average or aggregate figure.
e. For those issues of common stock sold to the public and not falling under d. above, provide:
    1) Date of issue
    2) Number of shares issued and previously outstanding for each issue and in the aggregate
    3) Number of shares sold to the public
    4) Gross proceeds per share from the public
    5) Net proceeds per share from the public
    6) Price per share to the public

Response:

Question 072

COST OF CAPITAL

In a computer file, provide the balance for the following for each month of the latest fiscal year:

a. Long- and medium-term debt by issue and aggregated
b. Preferred stock by issue and aggregated
c. Common equity

Response:

Please refer to 2024 TAWC MFG Q072_Attachment for long-term debt, including unamortized discount, unamortized debt expense and make-whole premium costs, as well as Equity. There is no preferred stock.

Question 074

COST OF CAPITAL

In a computer file, provide for each month of the latest fiscal year the balances of capital surplus. Separate the surplus between common and preferred stock. For purposes of this request, "capital surplus" means amounts paid in that are less than or are in excess of par value of the respective stock issues.

Response:

Please refer to 2024 TAWC MFG Q074_Attachment for monthly 2023 balances of capital surplus.

Tennessee American Water Company
Docket No. 24 -XXXXX
2024 TAWC MFG Q074_Attachment

	2023 Capital Surplus	
	Common Stock	Preferred Stock
January	75,754,015	0
February	75,756,070	0
March	86,777,482	0
April	86,777,482	0
May	86,780,040	0
June	86,809,406	0
July	86,809,406	0

Question 079

COST OF CAPITAL

If applicable, provide the amount of return on investment billed to TAWC by any affiliate of TAWC for the latest fiscal year and for the attrition period. Include in your response a calculation of the return on equity percent and the account charged for the return amount. As used in this item, "affiliate" means any entity that controls, is controlled by, or is under common control with TAWC, its Parent, Multi-State Utility, or Affiliated Utility Service Company.

Response:

There is no return on investment billed to TAWC by any affiliate of TAWC for 2023 or for 2025.

Please see MFG Q013 for the affiliate's costs.
