RE: limestone water, counce or savannah tn

I notice this group wants to increase residential water rates MORE than three times current rates. This water system was purchased from previous owner a little over a year ago. System owners claim loss of money requires such an unusual rate increase. Water rates going from about \$25/month to over \$60 is out of line.

We ask that the Public Utilities Commission require a more reasonable approach to rate increases.

This company buys water from Savannah TN utilities and Limestone does not have a water or treatment plant nor do they buy chemicals to treat water. They are merely a reseller and deliverer of water.

We ask for your consideration and not let such an exorbitant increase be approved.

Respectfully submitted,

Charles f Moffatt
