To whom it may concern,

I am a home owner in the Limestone water district in [REDACTED] I am writing to oppose the proposed water, sewer rate increase by Limestone. We just moved to the area this summer. We built our home and when it became time to pay our deposits for our water and sewer connections, we were astonished at the cost, \$2850 and \$1425 for connection fees! Then it took over 4 months to get water. Not only are the connection fees ridiculous, but these proposed rate increases are unbelievable. I do hope

This is not approved. I believe that the state of Tennessee needs to control what this water company is doing. I have even heard that there are people in this area that couldn't afford to get water connections, therefore they have to go to the fire department in Savannah to load water in their containers so they can have clean water. Seriously, in this day and time I certainly hope this is not true. Please consider all of the people this will affect.

Sincerely,
Denise Rutledge
