Comment/Message:	The amount of increase the water company is seeking is just unconscionable. With the rate of inflation experienced under the previous administration in DC, and wages not keeping up with the rate of inflation, approving a 200+% increase is just not affordable. It especially hits those of us who are retired and on fixed

incomes. Arguing for an increase equal to the rate of inflation is understandable, but I can't imagine the logic in requesting a rate increase at the level requested. Please vote no.
