Good afternoon,

My name is David Tillner and I reside at [REDACTED] in the Candlewood Lakes community. Our water supply is provided by Limestone Water. I was recently notified through our HOA that a 68% increase to our monthly water rate is being sought by Limestone Water for system improvements, maintenance, and a backup well.

The vast majority of our residents are retired or on fixed income. Cost of living increases affect all of our households, while our incomes remain static. There have been no improvements made to our water system according to our HOA board members. Any maintenance performed is no different than what we were doing prior to the system acquisition by Limestone, who was well aware of the need for a backup well before the acquisition was finalized.

I strongly disagree with the proposed increase by Limestone for our residential water supply. I have signed a petition through our HOA and will attend any future meetings regarding this issue to voice my opposition.

Respectfully,

David Tillner  
[REDACTED]
