**Comment/Message:**

I understand that inflationary issues have affected almost all goods and services over the past few years, however, if I'm reading the proposal correctly, Limestone is trying to raise our water/sewer bills in excess of 600%. That is obviously excessive. I am fine with a modest increase, but it appears they may have not done

their due diligence when purchasing the system, and we, the consumers, are being asked to pay for that mistake.
