Background. Limestone Water UOC is the owner of the water system at Candlewood Lakes. They have petitioned the state of Tennessee to raise our water rates from \$40/mo to \$67.50/mo, which is a 68% increase. Needless to say, the residents are not happy. In my search for support, I reached out to all elected officials for Tennessee. From the governor on down, the only response I got was from Johnny Shaw. I spoke with him and with his associate, Allison Sneed (I hope the spelling is correct). Not only did I receive information over the phone, but Ms Sneed made her presence known at a Public Forum held at Pickwick Landing on Jan 30.

I do not have the proper words to thank these folks for being invested in their constituents and for listening to our opinions and for offering support.

Much thanks to Rep Johnny Shaw and his associates. If you need him, just reach out. It works.

Regards.

George Gregory
