RE: Petition of Limestone Water Utility Operating Company, LLC to Increase Charges, Fees and Rates and for Approval of a General Rate Increase and Consolidated Rates

To Whom It May Concern:

We currently own property in both the Aqua Utility District and the Shiloh Falls utility district in Savannah and Counce, Tennessee, both areas serviced by Limestone Water Utility Operating Company. The suggested increase in the water would be anywhere between 158% and 246% depending on usage. The suggested increase in sewer is 340%. This increase is totally unacceptable for the working and retired class of people who reside in these communities. Anything more than a 5-10% increase would be price gouging. This kind of increase sends the wrong message to all utilities and is not good for the residents of Hardin County or State of Tennessee.

I would respectfully ask the Commission to reject Limestone utilities fee increase request for both Aqua Utilities and Shiloh Falls Residential Utilities.

Sincerely,

Tim & Angela Nowlin
