Please add as comments from the public of the outrageous rate increase by Limestone Water. Attached is a screenshot of my current bills as reference. We own two homes in that neighborhood. Under the proposed rate based on 3000 minimum gallon usage, my bill would escalate from about \$21 to \$172 monthly. Note my sewage usage is only about 710 gallons wastewater combined both homes

Kind regards

John

Subject: [EXTERNAL] Limestone water rate increase

Kind sir,

We, at the Greens Subdivision near Shiloh Falls, located in Counce, Tn, are adamantly opposed to Limestone Water Utility's ridiculously proposed sewer rate increase from ~\$20 to ~\$84 monthly. Many of the properties in this community are used seasonally and water/wastewater usage is far below the minimum baseline volume (min billing amts).

Given poor soil conditions, most of us cannot install our own septic tank with leach line beds, so feel held hostage by the unrealistic demands of this seemingly rogue utility entity.

Please consider rejecting Limestone Water's proposal in the name of fairness to the People.

Respectfully submitted,

John Williams
