Comment/Message:	The rate increase is proposed to be aggregated across 6 different Waste Water treatment plants based on current proposed Capital expense of \$9.5M. None of the plants are at all similar in the amount of expenses required to get each facility up to a good operational standard; and therefore, it is unfair for communities who do

not require a large investement to share disproportionately in a flat rate proposal. My rates in Chapel Hill are approaching 3x the current rate.
