Comment/Message:	The proposed rate increase for water and sewer is unreasonable and far out paces the inflation rate of the past 4 years. If this an effort to catch up on missed increases, that reflects poor management on your part and customers should not be penalized. The increased rate proposed is in line with large cities like Memphis/Nashville

that offer superior service. In the past 2 years we've had multiple issues with undrinkable water and until service is improved, rate increase should be put on hold.
