Greetings. When our community Candlewood Lakes owned our water system, we applied to the state of Tennessee for grant money and lower interest loans. As a small privately owned utility, we could not meet the criteria for financial assistance.

As a large multi-state company, has mother company Central States Water Resources exhausted all the options for county financial aid in Tennessee, any and all state of Tennessee financial aid, grants and/or loans, and any/and all assistance from the Federal Government? Before asking the end user to finance their duties, they must exhaust all other options.

George Gregory
