30+ year res & I oppose this increase.rates were first based on # bedrooms.Ive been the only occupant since the fall of 2018.my water bill is rarely over about 45 dollars.I find it difficult to understand how I can produce enough waste to warrant this large of an increase.i'm retired engineer from a local utility with much utility

rate experience.this large of an increase indicates that co is not monitoring expenses&making small incremental adjustments.undue burden to those still here.
