**Comment/Message:**

I OBJECT to the proposed 106% rate increase by Limestone Water. They have been poor stewards of the treatment facility located within River Rest, including sewage overflow into the community soccer fields, waste spillage into the scenic Harpeth River and excessive damage to the access road through River Rest. They have

oversold the capacity for the facility and have not treated the community in good faith. An INCREASEOF 106% is UNREASONABLE considering the poor performance of this company.
