We own a home inside [REDACTED]. We have owned our home since 2019 and have paid \$71 dollars a month with the previous owners. in one year of lime stone taking over we have had an increase in our bill from \$71 to \$112.79 with no change in usage. We would like to install our own leach field but we were informed that this is not an option so we are forced to use Limestone for the leach field we have a septic tank but we require limestone for the leach field. I understand we are living in inflationary times but no other utility has increased in cost and at the rate this utility has.

Please slow this monthly cost to a reasonable rate or give us the option of installing our own leach field.

Thank you for reading my email and considering our side when you make your judgement.
