

BEFORE THE TENNESSEEPUBLIC UTILITY COMMISSION

NASHVILLE, TENNESSEE

July 17, 2025

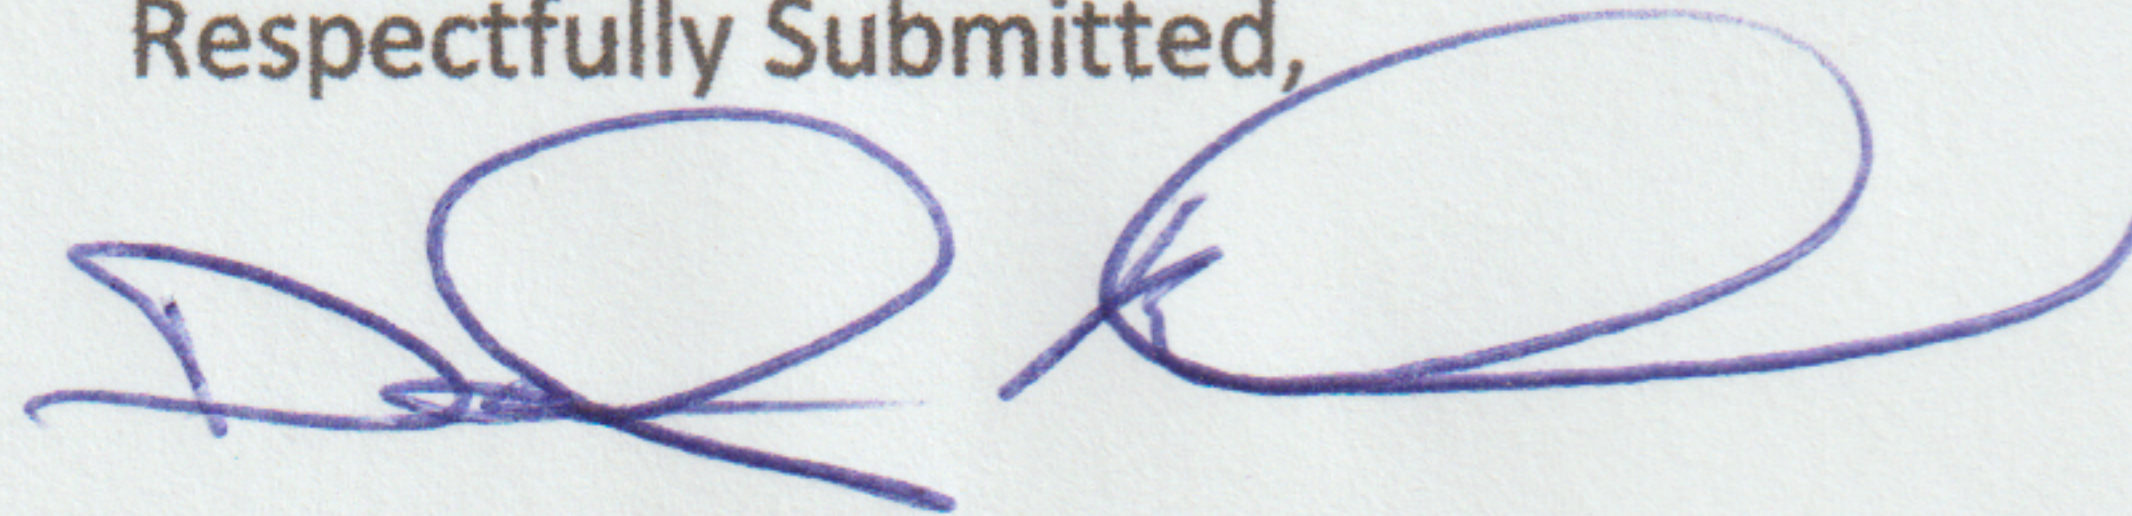

**IN RE: PETITION OF AQUA GREEN UTILITY INC. TO AMEND ITS CERTIFICATE OF
CONVENIENCE AND NECESSTIY**

DOCKET NO: 2500029

Petition of Aqua Green Utility Inc. to amend its Certificate of Convenience and Necessity

In seeing the recent additions to our docket 2500029, I am concerned that I have not been very clear on what we are requesting. Simply speaking, we are asking the commission to approve a cap on the amount of money we keep in our escrow account. Nothing else needs to change, not rates or escrow amounts. We are asking for a cap of \$45,000 or \$5,000 per plant, whichever is greater. If we get below the cap amount, we would go back to the currently approved escrow method until the cap amount is replenished. We are not requesting any rate increases in any area.

Respectfully Submitted,

Dart Kendall
Aqua Green Utility Inc.
