Commission Docket Number:	25-00048
Comment/Message:	<p>Please Please, Look into WHY are water rates are so high.</p> <p>Our POA board is using our water rates to apply money to other projects, instead of following our rules on the CC&R.</p>

We should have had a vote for building costs, instead of just exploding our water rates.

Many of us in our community are retired, and these water prices are extreme.
