Commission Docket Number:	25-00048
Comment/Message:	The TVPOA has been operating as a private utility company and setting rates for water and sewer that are above the rates of suburbs in the Western States. These rates are also more than double than in the surrounding cities. Water, sewer, and owner rates have been rising every year with no improvement in water pressure.

There is always an expensive project that has to be started to improve the system to justify increasing the rates while the surrounding areas still pay much less than the Village
