Comment/Message:	SEASONAL BILLING CYCLES! Winter months are 28 days when water use is below minimum usage billed at. Summer cycles are 33 days routinely putting customers in higher cost/unit rate tier. Billing cycles should be consistant since meters are not manually read. Tiered rates at Tellico Village became higher

than what we paid in Texas!!! Then they went even higher in 2025 plus a new tier was added so if you even turned your sprinklers one time you went over into a higher\$ tier especially
