<b>Comment/Message:</b>	During a period of time in which the Tellico Village POA admitted having difficulty with accurate meter reading, we received a monthly bill indicating usage of over 14,000 gallons. Given that our typical usage was approx. 2000 gallons/mo, we explained to the CFO & CEO that our irrigation had been turned off during

that period and that there were no leaks in our water system. It was impossible that we had consumed that much water. Our issue was not resolved; we paid that extraordinarily high bill
