**ORDER APPROVING PETITION FOR  
REVIEW OF CENTRAL OFFICE CODE DENIAL**

---

This matter is before the Administrative Judge of the Tennessee Public Utility Commission (the “Commission” or “TPUC”), upon the *Petition of Teleport Communications America, LLC for Review of Central Office Code Denial* (“*Petition*”) filed by Teleport Communications America, LLC (“TCAL” or the “Company”) on December 19, 2025.

TCAL is a telecommunications public utility subject to the jurisdiction of the Commission that provides local exchange service and exchange access service in the State of Tennessee. In its *Petition*, TCAL asserts that on or about October 22, 2025, it submitted an application to SomosGov, Inc. (“Somos”), the Number Pooling Administrator<sup>1</sup> for the assignment of 1,000 consecutive numbers in the 731 Area Code for West Tennessee Health.

TCAL requested these numbers in order to fulfill an order for a customer, West Tennessee Health, who requested 1,000 consecutive numbers in the Paris Rate Center.<sup>2</sup> TCAL indicates in its *Petition* that while it has adequate telephone numbers to satisfy incremental requests for numbers without receiving a new block of numbers, it does not have existing resources in its inventory to

---

<sup>1</sup> Somos is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan (“NANP”) upon its selection to serve as the North American Numbering Plan Administrator (“NANPA”) and the Pooling Administrator (“PA”) effective January 1, 2019. See 47 C.F.R. § 52.13(a), (b); *FCC Press Release*, <https://docs.fcc.gov/public/attachments/DOC-354567A1.pdf> (October 16, 2018).

<sup>2</sup> *Petition*, p. 3 & Exh. A (December 19, 2025).

satisfy the customer's request for 1,000 consecutive numbers.<sup>3</sup>

Somos' Central Office Code (NXX) Assignment Guidelines ("NXX Guidelines") permit the assignment of additional codes only after an applicant demonstrates that its rate center has a 75% utilization rate and exhaustion of existing numbering inventory does not exceed six months.<sup>4</sup> At the time of TCAL's code request, the Paris Rate Center had a utilization rate of approximately 69.4% and a months-to-exhaust ratio of approximately 1.726 months.<sup>5</sup> Therefore, because the rate center's current utilization rate and months-to-exhaust ratio do not both meet the criteria in the NXX Guidelines, Somos denied TCAL's application.<sup>6</sup>

The Federal Communications Commission ("FCC") has authorized the Commission to review Somos' decision to deny a numbering application.<sup>7</sup> The FCC has further stated that a state commission may overturn a decision of the Numbering Pooling Administrator when "a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory."<sup>8</sup> Upon consideration of the facts contained in the record, the public interest, and the Commission's charge to foster competition in the telecommunications industry,<sup>9</sup> the Administrative Judge agrees that TCAL's request should be approved.

**IT IS THEREFORE ORDERED THAT:**

1. The Number Pooling Administrator's decision to deny Teleport Communications

America, LLC's application for additional numbering resources, as set forth in its *Petition of Teleport Communications America, LLC for Review of Central Office Code Denial* and discussed herein, is reversed.

2. The Number Pooling Administrator is directed to provide 1,000 consecutive numbers to Teleport Communications America, LLC to meet the specific requirements of its customer within the 731 area code in the Paris Rate Center for Switch Identification No. MMPHTNMA45Z.

  
Monica Smith-Ashford, Administrative Judge
