Re: *BellSouth Telecommunications, Inc.'s Entry Into Long Distance
(InterLATA) Service in Tennessee Pursuant to Section 271 of
the Telecommunications Act of 1996*
Docket No. 97-00309

Dear Mr. Waddell:

Enclosed are five paper copies and 2 CD ROMs ("Public" and "Proprietary" versions) of BellSouth's responses to the discovery filed by the various parties in this proceeding. Both the paper copies and the Proprietary CD ROM contain proprietary information that should be treated in accordance with the terms of the Proprietary Order. CD ROM copies of BellSouth's responses were sent via overnight courier yesterday to counsel of record. As noted in its responses, there are a few data requests BellSouth is still working on. Bellsouth will file responses to those requests as soon as possible.

The KMC parties did not participate in the 1997 271 case and have not confirmed that they will abide by the terms of the Protective Order. Consequently, BellSouth provided copies of its non-proprietary discovery responses to the KMC parties and agreed to provide the proprietary portions of the responses as soon as the KMC parties confirm their agreement to abide by the Protective Order.

Thank you for your attention to this matter.

Very truly yours,

Guy M. Hicks

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. Alabama
7. Contact person (person who prepared the data contained below).
Cathy Forbes

8. Contact person telephone number and e-mail address.
phone 404-927-1437

e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.
Revised Filing 2
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
All data in this report may be made public
11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.
Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refiling.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Alabama December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	10,336	100%	85%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	11,214	0%	100%	4%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	1,306	0%	100%	25%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

1 BellSouth Telecommunications, Inc. ILEC operations for Alabama December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

	(a) Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	Percentages of lines and wireless channels reported in (a)			
		(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000					
A. Voice telephone service provided to end users.					
II - 1. Total lines and channels you provided to end users.	1,942,181	84%	100%	0%	80%
B. Voice telephone service provided to other communications carriers, categorized by:					
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	57,599		100%		89%
II - 3. Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:	(a) Total lines and wireless channels				
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	15,817				100%
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	20,719				67%
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	8,794	0%	100%	0%	90%
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.					
		Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
		(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	1,999,780				100%

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.

3. Indicate the category that best describes the operations covered by this filing.

Wireline Local Exchange Carrier

4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data
for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling
entity name. Select "not shown" if it is not in the list. See instructions
Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State.

Florida

7. Contact person (person who prepared the data contained below).

Cathy Forbes

8. Contact person telephone number and e-mail address.

phone

404-927-1437

e-mail

Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.

Revised Filing 2

10. Indicate whether you request non-disclosure of some or all of the information in this file
because you believe that this information is privileged and confidential and public disclosure
of such information would likely cause substantial harm to the competitive position of the filer.

All data in this report may be made public

11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example 1FLT#D00BellSouth Telecommunications, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Florida December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	89,724	100%	84%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	47,492	0%	100%	8%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	7,227	0%	100%	31%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

1 BellSouth Telecommunications, Inc. ILEC operations for Florida December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

		(a) Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	Percentages of lines and wireless channels reported in (a)			
			(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000						
A. Voice telephone service provided to end users.						
II - 1.	Total lines and channels you provided to end users.	6,628,873	84%	100%	0%	80%
B. Voice telephone service provided to other communications carriers, categorized by:						
II - 2.	Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	202,780		100%		82%
II - 3.	Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:		(a) Total lines and wireless channels				
II - 4.	Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	92,328				100%
II - 5.	Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	50,089				92%
II - 6.	Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	31,766		100%	0%	96%
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.			Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
			(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
II - 7.	Total lines and channels provided. [line II-1+line II-2 + line II-3]	6,831,653				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Florida December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for Florida December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. Georgia
7. Contact person (person who prepared the data contained below).
Cathy Forbes

8. Contact person telephone number and e-mail address.
phone 404-927-1437

e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.
Revised Filing 2
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
All data in this report may be made public
11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example GAT#D00name.XLS

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	52,757	100%	68%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	42,518	0%	100%	6%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	8,835	0%	100%	31%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

	(a) Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	Percentages of lines and wireless channels reported in (a)			
		(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000					
A. Voice telephone service provided to end users.					
II - 1. Total lines and channels you provided to end users.	4,154,320	80%	100%	0%	83%
B. Voice telephone service provided to other communications carriers, categorized by:					
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	144,398		100%		84%
II - 3. Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:	(a) Total lines and wireless channels				
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	80,698				100%
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	78,068				87%
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	20,968	0%	100%	0%	90%
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.					
		Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
		(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	4,298,718				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

--

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. Kentucky
7. Contact person (person who prepared the data contained below).
Cathy Forbes

8. Contact person telephone number and e-mail address.
phone 404-927-1437

e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.
Revised Filing 2
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
All data in this report may be made public
11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.
Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example KYT#D00BellSouth Telecommunications, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Kentucky December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

	(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
		(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.						
I - 1. Asymmetric xDSL.	5,031		100%	86%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	8,549		100%	3%	100%	0%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.						
I - 4. Optical carrier (fiber to the end user).	781		100%	35%	100%	71%
I - 5. Satellite.						
I - 6. Terrestrial wireless fixed.						
I - 7. Terrestrial wireless mobile.						
I - 8. All other technologies, such as distribution over electric power lines.						

FCC Form 477 -- Local Competition and Broadband Reporting
Part II: Wireline and Fixed Wireless Local Telephone

BellSouth Telecommunications, Inc. ILEC operations for Kentucky December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

	(a)	Percentages of lines and wireless channels reported in (a)									
	Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers						
Data as of December 31, 2000											
A. Voice telephone service provided to end users.											
II - 1. Total lines and channels you provided to end users.	1,227,368	86%	100%	0%	62%						
B. Voice telephone service provided to other communications carriers, categorized by:											
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	38,675		100%		86%						
II - 3. Lines and channels you provided under other resale arrangements, such as resold centrex.											
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:											
	(a) Total lines and wireless channels										
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	4,849				100%						
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	9,755				87%						
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	6,057	0%	100%	0%	65%						
<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td colspan="3" style="text-align: center;">Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location</td> </tr> <tr> <td style="width: 33%; text-align: center;">(f) cable coaxial</td> <td style="width: 33%; text-align: center;">(g) wireless</td> <td style="width: 33%; text-align: center;">(h) all other including traditional wireline</td> </tr> </table>						Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			(f) cable coaxial	(g) wireless	(h) all other including traditional wireline
Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location											
(f) cable coaxial	(g) wireless	(h) all other including traditional wireline									
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.											
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	1,266,043				100%						

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Kentucky December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for Kentucky December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.

3. Indicate the category that best describes the operations covered by this filing.

Wireline Local Exchange Carrier

4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data
for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling
entity name. Select "not shown" if it is not in the list. See instructions
Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State.

Louisiana

7. Contact person (person who prepared the data contained below).

Cathy Forbes

8. Contact person telephone number and e-mail address.

phone 404-927-1437e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.

Revised Filing 2

10. Indicate whether you request non-disclosure of some or all of the information in this file
because you believe that this information is privileged and confidential and public disclosure
of such information would likely cause substantial harm to the competitive position of the filer.

All data in this report may be made public

11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Louisiana December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	21,060	100%	85%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	11,575	0%	100%	4%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	1,246	0%	100%	12%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

1 BellSouth Telecommunications, Inc. ILEC operations for Louisiana December 31, 2000 1

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

		(a)	Percentages of lines and wireless channels reported in (a)			
		Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000						
A. Voice telephone service provided to end users.						
II - 1.	Total lines and channels you provided to end users.	2,334,505	84%	100%	0%	75%
B. Voice telephone service provided to other communications carriers, categorized by:						
II - 2.	Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	105,059		100%		90%
II - 3.	Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:		(a) Total lines and wireless channels				
II - 4.	Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	11,114				100%
II - 5.	Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	8,613				71%
II - 6.	Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	9,527	0%	100%	0%	64%
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.			Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
			(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
II - 7.	Total lines and channels provided. [line II-1+line II-2 + line II-3]	2,439,564				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Louisiana December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for Louisiana December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.

3. Indicate the category that best describes the operations covered by this filing.

Wireline Local Exchange Carrier

4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State.
- Mississippi

7. Contact person (person who prepared the data contained below).

Cathy Forbes

8. Contact person telephone number and e-mail address.

phone 404-927-1437e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.

Revised Filing 2

10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.

All data in this report may be made public

11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example MST#D00BellSouth Telecommunications, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Mississippi December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	2,224	100%	90%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	4,754	0%	100%	4%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	519	0%	100%	34%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

FCC Form 477 -- Local Competition and Broadband Reporting
Part II: Wireline and Fixed Wireless Local Telephone

BellSouth Telecommunications, Inc. ILEC operations for Mississippi December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

		(a)	Percentages of lines and wireless channels reported in (a)			
		Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000						
A. Voice telephone service provided to end users.						
II - 1.	Total lines and channels you provided to end users.	1,290,577	84%	100%	0%	54%
B. Voice telephone service provided to other communications carriers, categorized by:						
II - 2.	Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	66,530		100%		93%
II - 3.	Lines and channels you provided under other resale arrangements, such as resold centrex.					
		(a) Total lines and wireless channels				
C.	UNE loops, special access lines, and those private lines that connect to carriers, categorized by:					
II - 4.	Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	5,256				100%
II - 5.	Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	6,007				63%
II - 6.	Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	5,127	0%	100%	0%	74%
			Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
			(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
D.	Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.					
II - 7.	Total lines and channels provided. [line II-1+line II-2 + line II-3]	1,357,107				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for Mississippi December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for Mississippi December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. North Carolina
7. Contact person (person who prepared the data contained below).
Cathy Forbes

8. Contact person telephone number and e-mail address.
phone 404-927-1437

e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.
Revised Filing 2
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
All data in this report may be made public
11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.
Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example NCT#D00BellSouth Telecommunications, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for North Carolina December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

	(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
		(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.						
I - 1. Asymmetric xDSL.	16,581		100%	85%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	22,279	0%	100%	5%	100%	0%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.						
I - 4. Optical carrier (fiber to the end user).	3,207	0%	100%	41%	100%	63%
I - 5. Satellite.						
I - 6. Terrestrial wireless fixed.						
I - 7. Terrestrial wireless mobile.						
I - 8. All other technologies, such as distribution over electric power lines.						

FCC Form 477 -- Local Competition and Broadband Reporting
Part II: Wireline and Fixed Wireless Local Telephone

BellSouth Telecommunications, Inc. ILEC operations for North Carolina December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

	(a)	Percentages of lines and wireless channels reported in (a)			
	Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000					
A. Voice telephone service provided to end users.					
II - 1. Total lines and channels you provided to end users.	2,533,279	81%	100%	0%	86%
B. Voice telephone service provided to other communications carriers, categorized by:					
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	71,745		100%		86%
II - 3. Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:					
	(a) Total lines and wireless channels				
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	36,504				100%
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	23,226				51%
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	12,910	0%	100%	0%	92%
		Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
		(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.					
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	2,605,024				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for North Carolina December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for North Carolina December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunications, Inc.
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. South Carolina
7. Contact person (person who prepared the data contained below).
Cathy S. Forbes

8. Contact person telephone number and e-mail address.
phone 404-927-1437

e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.
Revised Filing 2
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
All data in this report may be made public
11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.
Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refiling.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example SCT#D00BellSouth Telecommunications, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for South Carolina December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	4,452	100%	94%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	9,670	0%	100%	8%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	1,713	0%	100%	33%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

1 BellSouth Telecommunications, Inc. ILEC operations for South Carolina December 31, 2000 1

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

		(a)	Percentages of lines and wireless channels reported in (a)			
		Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000						
A. Voice telephone service provided to end users.						
II - 1.	Total lines and channels you provided to end users.	1,459,869	83%	100%		79%
B. Voice telephone service provided to other communications carriers, categorized by:						
II - 2.	Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	64,628		100%		87%
II - 3.	Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:		(a) Total lines and wireless channels				
II - 4.	Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	11,615				100%
II - 5.	Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	11,347				55%
II - 6.	Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	6,832	0%	100%	0%	92%
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.			Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
			(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
II - 7.	Total lines and channels provided. [line II-1+line II-2 + line II-3]	1,524,497				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunications, Inc. ILEC operations for South Carolina December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunications, Inc. ILEC operations for South Carolina December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

FCC Form 477 -- Local Competition and Broadband Reporting**Cover Page - Name & Contact Information**

All filers must complete this section.

File data as of December 31, 2000

1. Filing Status Meet broadband and local competition thresholds
2. Company BellSouth Telecommunication, Inc.

3. Indicate the category that best describes the operations covered by this filing.

Wireline Local Exchange Carrier

4. Filers must report separate data for ILEC and non-ILEC operations.
Use the following drop-down box to indicate whether this worksheet contains data
for ILEC or for non-ILEC operations.

ILEC operations

5. Use the following drop-down box to select your company, parent or controlling
entity name. Select "not shown" if it is not in the list. See instructions
Section IV-B-1 for information on preparing file names.

BellSouth Corporation

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State.

Tennessee

7. Contact person (person who prepared the data contained below).

Cathy Forbes

8. Contact person telephone number and e-mail address.

phone 404-927-1437e-mail Cathy.Forbes@BellSouth.com

9. Indicate whether this is an original or revised filing.

Revised Filing 2

10. Indicate whether you request non-disclosure of some or all of the information in this file
because you believe that this information is privileged and confidential and public disclosure
of such information would likely cause substantial harm to the competitive position of the filer.

All data in this report may be made public

11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Click and select from drop-down list

Please review instructions before completing form.

Reminders:

- 1) Virus check your floppy diskettes or compact disk before you mail them.
- 2) Use the correct version of the form. If you are not filing data for December 31, 2000, then obtain the correct version from www.fcc.gov/broadband/data/form
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will be returned for refileing.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must include a Certification statement signed by an officer of your company. A single statement will cover all files included on the diskette.
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Sections IV-B and IV-C of the instructions for information on preparing a redacted file.
- 7) Name your files as specified in section IV.B.1 of the instructions. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example TNT#D00BellSouth Telecommunication, Inc.Revised Filing

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunication, Inc. ILEC operations for Tennessee December 31, 2000

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2000

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	12,921	100%	87%	100%	0%
I - 2. Other traditional wireline including symmetric xDSL.	21,003	0%	100%	2%	100%
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.					
I - 4. Optical carrier (fiber to the end user).	2,773	0%	100%	30%	100%
I - 5. Satellite.					
I - 6. Terrestrial wireless fixed.					
I - 7. Terrestrial wireless mobile.					
I - 8. All other technologies, such as distribution over electric power lines.					

FCC Form 477 -- Local Competition and Broadband Reporting
Part II: Wireline and Fixed Wireless Local Telephone

BellSouth Telecommunication, Inc. ILEC operations for Tennessee December 31, 2000

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit zip codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

	(a)	Percentages of lines and wireless channels reported in (a)			
	Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
Data as of December 31, 2000					
A. Voice telephone service provided to end users.					
II - 1. Total lines and channels you provided to end users.	2,737,600	85%	100%		79%
B. Voice telephone service provided to other communications carriers, categorized by:					
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	52,655		100%		91%
II - 3. Lines and channels you provided under other resale arrangements, such as resold centrex.					
C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:					
	(a) Total lines and wireless channels				
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	47,739				100%
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	15,778				76%
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	13,671				88%
		Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location			
		(f) cable coaxial	(g) wireless	(h) all other including traditional wireline	
D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.					
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	2,790,255				100%

OMB NO: 3060-0816

EXPIRATION DATE: 11/30/2003

BellSouth Telecommunication, Inc. ILEC operations for Tennessee December 31, 2000

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "owned facilities".

Data as of December 31, 2000

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service: subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
---	--

III - 1. Cellular, PCS & other mobile telephony.

Space for comments or explanatory notes.

[illegible]

 BellSouth Telecommunication, Inc. ILEC operations for Tennessee December 31, 2000

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
 Do not provide customer counts by Zip Code.

Data as of December 31, 2000

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

REQUEST: Please provide Trunk Group Service Detail for all CLEC trunks that had blocking in excess of 3% during the months of Nov. 2000 through June 2001 in Tennessee. Please provide this information in electronic form on an Excel spreadsheet or equivalent.

RESPONSE: BellSouth objects to this Request on the grounds that it is overbroad. BellSouth will respond to this Request for the period 1/01/01 – 6/01/01.

See attached Adobe Acrobat® file for report version and Microsoft Excel® (2000 version) file for requested spreadsheet version of this data

REQUEST: Please provide all reports, data, analysis, or other documents that describe, refer, or relate to BellSouth's procedures for augmenting interconnection trunk groups, including policies and/or engineering standards used for making the determination to augment.

RESPONSE: Please refer to BellSouth's response to AT&T's First Data Request, Production of Documents Item 37 in Kentucky Public Service Commission Case 2001-105.

REQUEST: Please provide floor plans for at least three central offices in Nashville, Tennessee that contain collocation. Please ensure that the floor plans show the entire central office including the BellSouth telecommunications area and the collocation areas. Further, please ensure that the frame placements in the central office are labeled with the type of equipment that is located in those areas.

RESPONSE Floor plans for three of BellSouth's central offices in Nashville, Tennessee with collocation are being provided pursuant to this request.

REQUEST: Please provide a tour of any three central offices within the Nashville, Tennessee area that contain collocation arrangements. The tour should permit escorted access to the collocation arrangements, interconnection frames, power equipment used for collocation, and the cable vault.

RESPONSE: BellSouth objects to this Request as overbroad and unduly burdensome. Subject to and without waiving these objections, BellSouth will provide a tour of 1 central office subject to reaching agreement on duration, context and number of attendees.

REQUEST: Please produce all documents referring or relating to any actual, contemplated, or proposed procedures by BellSouth to provision a CLEC access terminal in a multiple dwelling unit ("MDU") in each of the states in BellSouth's region within five calendar days of a request by any CLEC that such access terminal be established.

RESPONSE: Please refer to BellSouth's response to AT&T's First Data Request, Interrogatory Item 66 in Florida Public Service Commission Docket 960786- TL.

REQUEST: Produce all documents referring or relating to any actual, contemplated, or proposed procedures by BellSouth to unbundle its INC and NTW at MDUs in each of the states in BellSouth's region and relinquish the first NTW pair to a CLEC, where BellSouth is not using the first pair to provision service.

RESPONSE: Please refer to BellSouth's response to AT&T's 1st Set of Interrogatories, Item No. 67 in Florida Public Service Commission Docket 960786-TL.

Documentation is available on the Interconnection Services web site at <http://www.interconnection.bellsouth.com/products/html/unes.html>

REQUEST: Produce copies of all documents that relate to the performance of LCSC operations, including, but not limited to, "LCSC Weekly Operations Reports," "LCSC Daily Reports", or similarly captioned reports from January 2000 to the present.

RESPONSE: BellSouth is still investigating whether responsive documents exist.

REQUEST: Please produce all training materials and procedure manuals/documents provided to and/or used by LCSC service representatives.

RESPONSE: BellSouth objects to this Request on the grounds that it is overbroad and unduly burdensome. Subject to without waiving this objection, BellSouth will produce the initial training materials provided to LCSC representatives. These documents will be available for inspection at a mutually agreeable time.

REQUEST: Produce copies of all documents that relate to BellSouth's internal change control processes for its own internal OSS and for the CLEC OSS.

RESPONSE: BellSouth objects to this Request on the grounds that it is overbroad and unduly burdensome.

REQUEST: Produce copies of all documents and BellSouth approved "interview summaries" provided to KPMG consulting in connection with or related to the preparation and issuance of Observation 86 and Exception 88 in the Florida Third Party Test.

RESPONSE: Documents responsive to this request contain proprietary information and will be made available for inspection at a mutually convenient time at BellSouth's offices, 675 W. Peachtree Street, NE, Atlanta, GA 30375-0700, subject to the terms of the protective agreement.

REQUEST: Produce copies of the minutes and notes taken by all participants in meetings of all groups of BellSouth employees and its contractors or vendors associated with BellSouth's review and implementation of change requests under the Change Control Process Document. This should include but not be limited to the groups known as the "Triage Committee", the "Change Review Board", the "Directors Committee", the "Release Prioritization Team", the "Third Party Testing Team", the "Regulatory Team" the "LCSC Team", the "Project Managers", the "BellSouth IT Team", and "BTSL", from January 2000 to the present.

RESPONSE: BellSouth objects to this Request on the grounds that it is overbroad and unduly burdensome, and not reasonably calculated to lead to the discovery of admissible evidence.

ATTACHMENT (Four Pages)

3. High Frequency Spectrum Network Element

3.1 General

- 3.1.1 BellSouth shall provide CLEC-1 access to the high frequency portion of the local loop as an unbundled network element only where BellSouth is the voice service provider to the end user (“High Frequency Spectrum”) at the rates set forth in Exhibit C. BellSouth shall provide CLEC-1 with the High Frequency Spectrum irrespective of whether BellSouth chooses to offer xDSL services on the loop.
- 3.1.2 The High Frequency Spectrum is defined as the frequency range above the voiceband on a copper loop facility carrying analog circuit-switched voiceband transmissions. Access to the High Frequency Spectrum is intended to allow CLEC-1 the ability to provide Digital Subscriber Line (“xDSL”) data services to the end user for which BellSouth provides voice services. The High Frequency Spectrum shall be available for any version of xDSL presumed acceptable for deployment pursuant to 47 CFR Section 51.230, including, but not limited to, ADSL, HDSL, and any other xDSL technology that is presumed to be acceptable for deployment pursuant to FCC rules. BellSouth will continue to have access to the low frequency portion of the loop spectrum (from 300 Hertz to at least 3000 Hertz, and potentially up to 3400 Hertz, depending on equipment and facilities) for the purposes of providing voice service. CLEC-1 shall only use xDSL technology that is within the PSD mask parameters set forth in T1.413 or other applicable industry standards. CLEC-1 shall provision xDSL service on the High Frequency Spectrum in accordance with the applicable Technical Specifications and Standards.
- 3.1.3 The following loop requirements are necessary for CLEC-1 to be able to access the High Frequency Spectrum: an unconditioned, 2-wire copper loop. An unconditioned loop is a copper loop with no load coils, low-pass filters, range extenders, DAMLs, or similar devices and minimal bridged taps consistent with ANSI T1.413 and T1.601. BellSouth will provide CLEC-1 access to the Unbundled Loop Modification (Line Conditioning), in accordance with Section 2.2 of this Agreement. BellSouth is not required to condition a loop for access to the high frequency spectrum if conditioning of that loop significantly degrades BellSouth’s voice service. If CLEC-1 requests that BellSouth condition a loop longer than 18,000 ft. and such conditioning significantly degrades the voice services on the loop, CLEC-1 shall pay for the loop to be restored to its original state.
- 3.1.4 CLEC-1’s termination point is the point of termination for CLEC-1 on the toll main distributing frame in the central office (“Termination Point”). BellSouth will use jumpers to connect CLEC-1’s connecting block to the splitter. The splitter will route the High Frequency Spectrum on the circuit to CLEC-1’s xDSL equipment in CLEC-1’s collocation space.

- 3.1.5 CLEC-1 shall have access to the splitter for test purposes, irrespective of where the splitter is placed in the BellSouth premises.
- 3.2 Provisioning of High Frequency Spectrum and Splitter Space
 - 3.2.1 BellSouth will provide CLEC-1 with access to the High Frequency Spectrum as follows:
 - 3.2.1.1 BellSouth will install splitters within forty-two (42) calendar days of CLEC-1's submission of such order to the BellSouth Complex Resale Support Group; provided, however, that in the event BellSouth did not have reasonable notice that a particular central office was to have a splitter installed therein, the forty-two (42) day interval shall not apply. Collocation itself or an application for collocation will serve as reasonable notice.
 - 3.2.1.2 Once a splitter is installed on behalf of CLEC-1 in a central office, CLEC-1 shall be entitled to order the High Frequency Spectrum on lines served out of that central office.
 - 3.2.1.2 .1 BellSouth will bill and CLEC-1 shall pay the SOMAN and SOMEK charges as described in Section 2.13 of this Agreement when CLEC-1 orders High Frequency Spectrum for end-user service.
 - 3.2.1.3 BellSouth will select, purchase, install, and maintain a central office POTS splitter and provide CLEC-1 access to data ports on the splitter. At least 30 days before making a change in splitter suppliers, BellSouth will provide CLEC-1 with a carrier notification letter, informing CLEC-1 of change. CLEC-1 shall purchase ports on the splitter as set forth more fully below.
 - 3.2.1.4 BellSouth will install the splitter in (i) a common area close to the CLEC-1 collocation area, if possible; or (ii) in a BellSouth relay rack as close to the CLEC-1 DS0 termination point as possible. For purposes of this section, a common area is defined as an area in the central office in which both Parties have access to a common test access point. BellSouth will cross-connect the splitter data ports to a specified CLEC-1 DS0 at such time that a CLEC-1 end user's service is established.
 - 3.2.1.5 The High Frequency Spectrum shall only be available on loops on which BellSouth is also providing, and continues to provide, analog voice service directly to the end user. In the event the end-user terminates its BellSouth provided voice service for any reason, and CLEC-1 desires to continue providing xDSL service on such loop, CLEC-1 shall be required to purchase a full stand-alone loop unbundled network element. In the event BellSouth disconnects the end-user's voice service pursuant to its tariffs or applicable law, and CLEC-1 desires to continue providing xDSL service on such loop, CLEC-1 shall be permitted to continue using the line by purchasing the full stand-alone loop unbundled network element. To the extent commercially practicable, BellSouth shall give CLEC-1 notice in a reasonable time prior to disconnect, which notice shall give CLEC-1 an adequate opportunity to notify BellSouth of its intent to purchase such loop. In those cases in which BellSouth no longer provides voice service to the end user and CLEC-1

purchases the full stand-alone loop, CLEC-1 may elect the type of loop it will purchase. CLEC-1 will pay the appropriate recurring and non-recurring rates for such loop as set forth in Exhibit C to this Attachment. In the event CLEC-1 purchases a voice grade loop, CLEC-1 acknowledges that such loop may not remain xDSL compatible.

3.2.1.6 Only one competitive local exchange carrier shall be permitted access to the High Frequency Spectrum of any particular loop.

3.3 Ordering

3.3.1 To order High Frequency Spectrum on a particular loop, CLEC-1 must have a DSLAM collocated in the central office that serves the end-user of such loop. CLEC-1 may order splitters in a central office once it has installed its Digital Subscriber Line Access Multiplexer ("DSLAM") in that central office. BellSouth will install these splitters within the interval provided in paragraph 3.2.1.1.

3.3.2 BellSouth will devise a splitter order form that allows CLEC-1 to order splitter ports in increments of 24 ports.

3.3.2.1 BellSouth will provide CLEC-1 the Local Service Request ("LSR") format to be used when ordering the High Frequency Spectrum.

3.3.3 BellSouth will provide access to the High Frequency Spectrum within the following target intervals: BellSouth will return a manual Firm Order Confirmation ("FOC") in no more than two (2) business days after receipt of a valid, error free manual LSR. When CLEC-1 submits an electronic LSR for High Frequency Spectrum, BellSouth will return a FOC in four (4) hours ninety-five percent (95%) of the time, or, for orders that do not flow-through, in two (2) business days. BellSouth will provide CLEC-1 with access to the High Frequency Spectrum at the following target intervals:

3.3.3.1 For 1-5 lines at the same address within three (3) business days from BellSouth's issuance of a FOC; 6-10 lines at same address within 5 business days from BellSouth's issuance of a FOC; and more than 10 lines at the same address is to be negotiated.

3.3.4 BellSouth will provide to CLEC-1 BellSouth's Loop Qualification System that BellSouth uses to qualify loops for its own ADSL offering as described below.

3.3.5 BellSouth will provide CLEC-1 access to the Preordering Loop Makeup (LMU), in accordance with Section 2.14 of this Agreement. BellSouth shall bill and CLEC-1 shall pay the rates for such services, as described in Exhibit C.

3.4 Maintenance and Repair

3.4.1 CLEC-1 shall have access, for test, repair, and maintenance purposes, to any loop as to which it has access to the High Frequency

Spectrum. CLEC-1 may access the loop at the point where the combined voice and data signal exits the central office splitter.

3.4.2 BellSouth will be responsible for repairing voice services and the physical line between the network interface device at the customer's premises and the Termination Point of demarcation in the central office. CLEC-1 will be responsible for repairing data services. Each Party will be responsible for maintaining its own equipment.

3.4.3 CLEC-1 shall inform its end users to direct data problems to CLEC-1, unless both voice and data services are impaired, in which event the end users should call BellSouth.

3.4.4 Once a Party has isolated a trouble to the other Party's portion of the loop, the Party isolating the trouble shall notify the end user that the trouble is on the other Party's portion of the loop.

3.4.5 In the event CLEC-1's deployment of xDSL on the High Frequency Spectrum significantly degrades the performance of other advanced services or of BellSouth's voice service on the same loop, BellSouth shall notify CLEC-1 and allow twenty-four (24) hours to cure the trouble. If CLEC-1 fails to resolve the trouble, BellSouth may discontinue CLEC-1's access to the High Frequency Spectrum on such loop.

3.5 **Rates**

The prices that CLEC-1 shall pay to BellSouth for Network Elements and Other Services are set forth in Exhibit C to this Attachment. If CLEC-1 purchases a service(s) from a tariff, all terms and conditions and rates as set forth in such tariff shall apply.

3.6 **Operational Support Systems (OSS)**

The terms, conditions and rates for OSS are as set forth in Section 2.13 of this Attachment.

REQUEST: Please provide any and all documents that evidence BellSouth's assertion that additional line sharing training is being provided to its technicians.

RESPONSE: Attached please find the following documents:

- Network Job Aid JA370: Central Office UNE Line Sharing Provisioning & Maintenance - Information Letter announcing the availability of a job aid which introduces the Central Office Electronic Technician or Frame Attendant to the procedures and functions required to provision and maintain Line Sharing in the Central Office.
- CO370J – Central Office UNE Line Sharing/Line Splitting Provisioning & Maintenance Course - Information Letter announcing the availability of training course for Central Office Electronic Technicians or Frame Attendants regarding the procedures and functions required to provision and maintain Line Sharing.

Additionally, BellSouth has developed a Line Sharing training video as part of Course # ND323J which will be made available at a mutually agreeable time.

Description: CO370J - Central Office UNE Line Sharing/Splitting Provisioning & Maintenance Course

This Region Letter announces the availability of a course, CO370J – Central Office UNE Line Sharing/Splitting Provisioning & Maintenance. The course contains a student guide designed to provide an overview of Line Sharing/Splitting, including installation (provisioning) and repair (maintenance) procedures. This student guide provides the definition of Line Sharing/Splitting and the requirements for Line Sharing/Splitting. It also provides the installation and repair procedures for Line Sharing/Splitting in the Central Office. This information is intended to introduce the Central Office Electronic Technician or Frame Attendant to the procedures and functions required to provision and maintain Line Sharing/Splitting in the Central Office.

Please direct any training questions related to this course to Rodger Parsons, Curriculum Manager, Network Technical Institute, at (404) 929-1429.

Jay Murphy
Director –
Network Technical Institute

REQUEST: Please provide any documentation relating to any "work package" that addresses wiring problems in splitters that were installed for line sharing.

RESPONSE: BellSouth is not aware of any "work package" that addresses wiring problems in splitters that were installed for line sharing, however, BellSouth is unclear what is meant by a "work package". Please see our response to Interrogatory Item 68.

REQUEST: Since January 2000, produce any document that compares or analyzes BellSouth's internal performance data to evaluate the extent to which BellSouth's actual performance results for OSS functions (pre-ordering, ordering, provisioning, maintenance & repair, and billing) are similar in each state of its nine state region.

RESPONSE: Documents responsive to this request contain proprietary information and will be made available for inspection at a mutually convenient time at BellSouth's offices, 675 W. Peachtree Street, NE, Atlanta, GA 30375-0700, subject to the terms of the protective agreement.

REQUEST: Please provide all documentation reflecting policies since January 2000 giving higher priority or special handling in terms of any OSS function (pre-ordering, ordering, provisioning, maintenance and repair and billing) to CLEC service requests (e.g. resale, unbundled network elements, or interconnection for customers in Georgia or Florida as compared to similar orders for CLEC customers in other states in the BellSouth region, such as Tennessee.

RESPONSE: BellSouth is still investigating whether responsive documents exist.

Item 31
Page 1 of 1

REQUEST: Produce all documents, including work papers, related to PriceWaterhouseCoopers testing of BellSouth's DOE and SONGS systems.

RESPONSE: BellSouth has no work papers prepared by Price Waterhouse Coopers as part of the examination of BellSouth OSS beyond those provided in AT&T's 1st Request for Production of Documents in North Carolina Utilities Commission Docket P-55, Sub 1022, Production of Document Item Nos. 45, 46 & 47.

REQUEST: Provide all work force models and related documents used by BellSouth to determine staffing levels for centers that support CLECs, including but not limited to the LCSCs and CWINs.

RESPONSE: BellSouth objects to this Request on the grounds that it is duplicative of Request No. 18.
