RE: Securus Technologies, LLC – Termination of Public Coin Telephone Service Locations in  
Certain Correctional Facilities in Tennessee

Dear Mr. Schwarz,

Pursuant to the authority granted by the Tennessee Public Utility Commission ("Commission"), Securus Technologies, LCC ("Securus" or "Company") has been operating coin pay telephones in public areas of correctional facilities where the Company also provides incarcerated calling services. For business and other reasons, and with the approval of the correctional facilities, Securus ceased providing these public coin payphone services on October 31, 2022, and has removed the equipment.

By this letter Securus is requesting that the Commission cancel the Company's COCOT certification to provide public pay telephone services in the State (Docket No. 99-00502) and, therefore, Securus will no longer provide any required reports relating to such services.

This request relates solely and exclusively to the Company's public payphone services. Securus does not hereby relinquish or cancel to any degree, and retains, the Company's existing authority from the Commission to continue to provide incarcerated calling services in the State under Docket No. 00-00177. To that end, Securus will continue to provide Operator and/or Resale services in accordance with the applicable Commission rules and regulations.

If there are any questions on this matter, please contact the undersigned at (972) 277-0565 or [michael.lozich@securustechnologies.com](mailto:michael.lozich@securustechnologies.com). You may also contact Debbie Conde, Senior Regulatory Analyst at (972) 277-0395 and [debbie.conde@securustechnologies.com](mailto:debbie.conde@securustechnologies.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Michael S. J. Lozich". The signature is fluid and cursive, with the first name "Michael" being the most prominent.

Michael S. J. Lozich
