RE:	Irrigation Adjustment	Pages:	7 (including cover page)

Mike,

As we discussed, please find the following six pages which are the corrected 12 months historical water usage for City of Franklin customers in the Lynwood service area. This information is being used to calculate the impact of the proposed irrigation adjustment.

The City of Franklin had previously supplied me with the most recent twelve months water usage *per account*. The most recent twelve months per account is not necessarily the same as the most recent twelve months *per service address*. For example, the Evans (account number 71-2540-2) of 397 Lake Valley Drive have had service in their name since 10/21/99. Previously, the service at that address was in the name of John Lackey Construction (account number 71-2540-1). Therefore, the September, October and November 1999 readings at that service address were in the name of John Lackey Construction.

With the corrected information, the total amount of adjustments in the City of Franklin service area were reduced from \$60,705.18 to \$46,319.60 and from 246 adjustments to 189. I apologize for the confusion. Please call me with any questions or if you need anything further.
