- (5) The Authority can request all necessary documentation needed to confirm information provided by applicants. This information could include but not be limited to doctor statements, copies of the applicant's federal income tax returns, evidence of public assistance eligibility and any other information needed to ensure the applicant meets the requirements as specified in the Act and this Rule Chapter.
- (6) Applicants must confirm in their application their ability to utilize an assistive device effectively. For those applicants that are not qualified in the use of such equipment, the applicant must agree to accept the appropriate training.  - (b) Recipients must provide some evidence that they will pay for the repair cost of their assistive devices, or have coordinated with the TDAP Coordinator, in order to qualify for loaner equipment.
