2. The Petitioner provided a letter from Nolensville College Grove Utility District explaining the district's ability to provide water service to the proposed project. Please submit additional confirmation from Nolensville College Grove Utility District as to whether the Utility District has intentions or capability to provide wastewater (sewer) service for this project.
3. If available, provide the following documentation from the Tennessee Department of Environment and Conservation. If any requested document is unavailable for tender, please explain the reason(s) why:
 - a) Notice of a complete SOP application
 - b) Draft SOP Permit
4. If a contractor has been designated for this project, please identify the contracting firm and provide a copy of the applicable license.
