Re: **Edge Wastewater Utilities, LLC.**
Supplement to Certificate of Convenience and Necessity No. 26-00017

Dear Chairman Jones,

On March 2, 2026, Edge Wastewater Utilities, LLC. ("EDGE" or "Petitioner") filed a request for a New Certificate of Convenience and Necessity for a project in Maury County, Tennessee, hereinafter referred to as the "Baker Farms Project" (the "Petition"). TPUC issued the Petition the docket number 26-00017. Following an internal review of the Petition, Petitioner tenders the following information to clarify certain aspects of the Petition.

Section 4: Corporate Organization

Please note the two (2) relevant corporate entities associated with the Petition:

- Edge Wastewater Utilities, LLC. ("EDGE") is Petitioner for the Certificate of Convenience and Necessity No. 26-00017. EDGE is a subsidiary of Edge Wastewater, LLC. and will provide services to the utility customers, including providing service tickets and general customer care.
- Edge Wastewater LLC. is parent entity of EDGE and will provide services in the areas of design, construction, operations and maintenance of the utility.

An organizational chart is attached to the Petition as Exhibit 4 and here again for ease of reference.

Section 11: Builder/Owner Identity - Ownership of Treatment & Land Application Areas

As of the Petition filing, the Baker Farms property is wholly owned by Carlton Baker. However, upon completion of the construction of the Baker Farms wastewater infrastructure, ownership of the treatment and land application areas will be deeded and convert to Petitioner EDGE. Please refer to the letter dated November 20, 2025 from Carlton Baker and Paul Varney to Matt Nicks, attached to the Petition as Exhibit 11 and here again for ease of reference.

Section 15: Biographies of Officers and Key EDGE Staff.

Petitioner presently has four (4) officers. While correctly identified in the Petition materials, the officer biography inadvertently omitted the fourth EDGE officer, Trevor Acree.

EDGE WASTEWATER

Please find the corrected biographical information sheet attached here as Exhibit 15.

Thank you for your consideration.

Sincerely,
Edge Wastewater Utilities, LLC.

R. Matthew Nicks,
President

Re: Wastewater Treatment Services - Request for Sewer Service
Baker Farms
Carter's Creek Pile - Maury County
Parcels 2.1, Parcels 4.00 & 7.01
178 Residential Lots

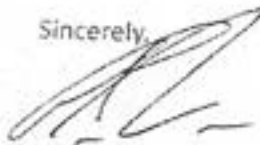

Mr. Nicks,

This letter serves as a formal notice that we are requesting sewer service from Edge Wastewater for a new development project titled "Baker Farms" on Carter's Creek Pile in Maury County, Tennessee. We are requesting your services since **Maury County and the local Utility District do not provide public sanitary sewer service and have no plans in the foreseeable future to provide such service.**

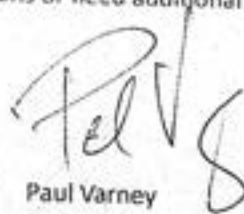

We agree to convey the treatment and land application areas located on the Baker Farms subdivision to the utility at the completion of the construction.

Please let me know if you have any questions or need additional information.

Sincerely,

Carlton Baker
Owner

Paul Varney
Developer

Biographies of Officers and Key Wastewater Utility Staff

Biographies of Officers & Key Personnel

R. Matthew Nicks, President

Bachelor of Engineering – University of Texas, 1984

Licensed General Contractor, Tennessee License # 83500

Mr. Nicks is the President of Edge Wastewater Utilities, LLC. He was formerly the President of a large decentralized wastewater utility company with operations in Tennessee, Alabama and Ohio. He was responsible for the operations, engineering and construction of the wastewater treatment facilities and land application drip dispersal irrigation zones. Mr. Nicks has worked all over the world handling, overseeing and managing the collection, treatment, storage, transportation and shipping of hazardous waste in a variety of industry settings. He has a strong background in regulatory compliance matters including those related to the Occupational Safety and Health Administration (OSHA), the National Institute for Occupational Safety and Health (NIOSH), the Environmental Protection Agency (EPA) and the Tennessee Department of Environment & Conservation (TDEC).

Matthew Taylor, Secretary/Treasurer

Bachelor of Engineering – Tennessee Technological University, 2004

Professional Engineer, Tennessee, License # 112515

Mr. Taylor is the Secretary/Treasurer of Edge Wastewater Utilities, LLC. He has over 20 years of experience in project management, planning, design, and coordination of civil engineering projects. Specifically, in the areas of site grading plans, water & sewer design, drainage studies, residential subdivisions, commercial & industrial developments and mixed-use projects.

James F. Reed, III

Bachelor of Engineering – Tennessee Technological University, 1994

Professional Engineer, Tennessee, License # 109038

Registered Land Surveyor, Tennessee License # 2063

Mr. Reed has over 30 years of experience in project management, planning, design and coordination of civil engineering projects. Specifically, in the areas of site grading, decentralized wastewater treatment system design, advanced wastewater designs, water & utility design, and roadway construction plans.

Trevor Acree

Licensed General Contractor

Mr Acree has over 17 years of experience in heavy equipment operations, grading and installation of underground utilities. Specifically, in the areas of gravity & force main sewer systems, site grading, installation of water mains and services for municipalities and installation of storm drains, electric and communications for numerous residential developments.
