As a person that is serviced by Limestone, I am opposed to this.

The PROBLEM IS NOT "THE LACK OF INCOME".

The financial problem is poor management in Limestone.

They are continuing to purchase new systems, "water and Sewer" WITHOUT having the MONEY to pay for the purchases.

The RESULT IS THEY HAVE TO RAISE THE RATES OF THEIR CURRENT CUSTOMERS.

Only the Federal Gov't and Public Utilities Companies can get away with Practice.

If a Utility Company keeps purchasing new systems, and DO NOT HAVE THE MONEY TO PAY FOR IT, it is POOR MANAGEMENT they DO NOT DESERVE a rate increase.

Their present customer SHOULD NOT SUFFER HIGHER RATES because of THEIR STUPIDITY.

Limestone or any utility company NEEDS TO BE FROZEN TO KEEP FROM MAKING NEW PURCHASES, until they have the finances in order so NO FURTHER rate INCREASE will occur.

Why should their customer go without necessities of life because of irresponsible decisions of the Public Utility companies?

If they cannot buy WITHOUT RATE INCREASES, they need to learn not to spend above what they can afford with current rates or go bankrupt.

The Public Utility Commission was created to protect consumers from GREEDY businesses.

Once a business becomes the sole provider of a service, the Utility Commission is the only protection the consumer has against the greedy business that has greedy board members.

I was told by the Utility Commission it is easier to grant a rate increase, than for a Utility Company to file bankruptcy.

WITH this mentality, are the consumers being PROTECTED BY THE GREEDY BUSINESSES.

OR ARE THE BUSINESSES BEING PROTECTED so they can keep spending more than they can afford. And keeping asking for ANOTHER rate increase to cover their GREEDY practices..

I HOPE THE UTILITY COMMISSION WILL GO BACK AND PROTECTION THE CONSUMMERS from the greedy utility companies.

If utility companies MAKES NO additional purchases and the normal overhead is not enough to cover their cost, yes a rate increase is needed

If utility companies MAKES even one additional purchase, the rate increase should not be granted. The rate increase is just protecting the greedy companies AND NOT THE CONSUMERS.

Feel free to contact if needed.
