RE: Docket No: 26-00098 – Network Innovations, LLC Notification To The Tennessee Public Utility Commission Of A Planned Pro Forma Internal Reorganization Involving The Elimination Of Certain Intermediary Holding Companies In Its Chain Of Ownership

The agency received a letter on September 28, 2026 (the "Letter"), that was assigned to TPUC Docket 26-00098. The Letter describes a planned pro forma internal reorganization that involves eliminating certain intermediary holding companies in the ownership chain of Network Innovations, LLC ("Nitel").

Nitel elected market regulation via a filing made on December 14, 2021, that was assigned to Docket 21-00145. The transaction, as described, appears to be governed by T.C.A. § 65-4-113, which is not a regulatory requirement applicable to companies that have elected market regulation. As such, the transaction described in the Letter does not require approval. As no action is required by the agency, please close the above-referenced docket.
